NRC NAMES NEW RESIDENT INSPECTOR AT QUAD CITIES NUCLEAR POWER PLANT

The U.S Nuclear Regulatory Commission has selected Brian Cushman as the new Resident Inspector at the Quad Cities Nuclear Power Plant in Cordova, Ill.

Cushman joined the NRC as a reactor engineer in Region III in 2007. Before joining the NRC he served aboard the USS Miami as a submarine officer. He received a bachelor's of science degree in mathematics from the U.S. Naval Academy.

“Brian Cushman is an excellent inspector with a firm commitment to safety. He will ensure that the NRC fulfills its mission of protecting people and the environment by ensuring operators of the Quad Cities plant meet the high standards set by the NRC,” Region III Administrator James Caldwell said.

Each U.S. commercial nuclear plant site has at least two NRC resident inspectors. They serve as the agency's eyes and ears at the facility, conducting inspections, monitoring major work projects and interacting with plant workers and the public. Cushman joins Senior Resident Inspector James McGhee at the facility. Both inspectors can be reached at (309) 654-2227.
