No. 09-072

April 14, 2009

NRC ADVISORY COMMITTEE ON MEDICAL USES OF ISOTOPES TO MEET MAY 7-8

The U.S. Nuclear Regulatory Commission's Advisory Committee on Medical Uses of Isotopes (ACMUI) will meet May 7-8 to discuss, among other items, the National Council on Radiation Protection and Measurements Report 160 "Ionizing Radiation Exposure of the Population of the United States" and its implications for NRC programs.

The Committee will also discuss subcommittee reports on reportable events involving radioactive materials for medical uses; training and experience for the medical uses of yttrium-90 microspheres to fight liver cancer; and a summary of the NRC's enforcement process and actions against medical licensees.

The ACMUI advises the NRC on policy and technical issues related to the regulation of medical uses of certain radioactive materials.

The public portion of the meeting will be on Thursday, May 7, from 8 a.m. to 3:15 p.m. and Friday, May 8, from 8 a.m. to 5 p.m. A detailed agenda is available at <http://www.nrc.gov/reading-rm/doc-collections/acmui/agenda>.

The meeting will be held at NRC headquarters, Two White Flint North Building's Auditorium, 11545 Rockville Pike, Rockville, Md. Questions from the public will be permitted at the discretion of the committee chairperson. Any member of the public wishing to provide a written statement, or otherwise participate in the meeting, or meeting attendee requiring special services, should contact Ashley Cockerham, by phone at (240) 888-7129 or email ashley.cockerham@nrc.gov. All submittals must be received by April 30, and must pertain to a topic on the meeting agenda.

Minutes of the meeting will be available in early June. The draft transcript will be available in early June on the ACMUI Web site at <http://www.nrc.gov/reading-rm/doc-collections/acmui/tr/> and in the NRC Public Document Room, 11555 Rockville Pike, Rockville, Md. 20852-2738, telephone (800) 397-4209.
