## NRC ISSUES SUMMARY OF AGENCY PERFORMANCE AND FINANCIAL INFORMATION FOR 2010

The Nuclear Regulatory Commission has issued its report, NRC Summary of Performance and Financial Information, Fiscal Year 2010. The report summarizes the agency's performance in carrying out its mission to protect people and the environment through the regulation of nuclear power and use of nuclear material. It provides key financial and performance information for Congress and the American people to assess how well the agency has carried out its mission.

In FY 2010, the NRC provided effective and efficient oversight of 104 nuclear power plants across the country. The agency emphasized strengthening the interrelationships among safety, security and emergency preparedness. Demonstrating the agency's commitment to increasing transparency and openness, the agency developed an Open Government Plan and website at <http://www.nrc.gov/public-involve/open.html>. This laid the groundwork for moving the agency forward in the use of social media to strengthen communication with the public. The agency also upgraded and improved its online document management system (ADAMS) that makes it easy for the public to quickly find official agency documents.

The NRC continued to focus on the safe and secure use of nuclear materials through effective oversight of operating nuclear fuel processing facilities, uranium recovery sites, decommissioning sites and nuclear material user licensees. The agency reviewed new applications for enrichment facilities and uranium recovery, to ensure that public health, safety and the environment continue to be protected.

The NRC Summary of Performance and Financial Information, Fiscal Year 2010 Report (NUREG-1542, Volume 16, Supplement 1), also called the Citizen's Report, is available at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1542/v16/s1/>. This report, as well as a video with the NRC Chairman's message, can also be found at [www.nrc.gov](http://www.nrc.gov) by clicking the Citizen's Report icon located at the bottom left corner of the NRC website's home page.

The detailed NRC Performance and Accountability Report was issued in November 2010, and is available at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1542/v16/> and above the Citizen's Report icon on the NRC website.
