## **MILLSTONE REGULATORY CONFERENCE POSTPONED; NOW SCHEDULED FOR JULY 19TH**

A planned meeting between officials from the Nuclear Regulatory Commission and Dominion Nuclear Connecticut, Inc., to discuss a preliminary "White" (low to moderate safety significance) inspection finding issued to the Millstone Unit 2 nuclear power plant in May, has been postponed until Tuesday, July 19th. The meeting had been scheduled for this Thursday, June 30<sup>th</sup>.

The delay provides Dominion additional time to prepare for the conference, in light of the reactor shut down at Unit 2 earlier this week.

The meeting is scheduled to begin at 1 p.m. at the NRC's Region I Office, at 475 Allendale Road in King of Prussia, Pa. It will be open to the public, with an opportunity for attendees to ask questions of NRC staff before it is concluded.
