

FEDERAL CONDITION CODES

This is a two-character combination of the “**Supply**” code and the “**Disposal**” code. The Hand Receipt Holder (HRH) turning the excess items to the Property Disposal Office assigns the Supply code; it is always the first position of the Federal condition code. The Property Disposal Officer (PDO) assigns the Disposal code after inspection of the item, which provides additional information for screening purposes.

Supply Code:

A – Serviceable - Issuable without Qualifications

New, used, repaired, reconditioned material that is serviceable and usable to all customers without limitation or restrictions.

B – Serviceable – Issuable with Qualifications

New, used repaired, or reconditioned material which is serviceable and usable for its intended purpose but which is restricted from issue to specific units, activities, or geographical areas by reason of its limited usefulness or short service life expectancy.

C – Serviceable – Priority Issue

Items which are serviceable and issuable to selected customers, but which must be issued before Condition A and B material to avoid loss as a usable asset.

D – Serviceable – Test/Modification

Serviceable material that requires test, alteration, modification, conversion or disassembly. This does not include items that must be inspected or tested immediately prior to issue.

E – Unserviceable – Limited Restoration

Items that involves only limited expense or effort to restore to serviceable condition and which is accomplished in the Property Disposal Warehouse where the items are located.

F – Unserviceable – Repairable

Economically repairable items which requires repair, overhaul, or reconditioning.

G – Unserviceable – Incomplete

Items requiring additional parts or components to complete the end items prior to issue

H – Unserviceable – Condemned

Items that have been determined to be unserviceable and do not meet repair criteria .

S – Unserviceable - Scrap

Disposal Code:

1 – Excellent

Property that is in new condition or unused condition and can be used immediately without modifications or repairs.

4 – Usable

Property that shows some wear, but can be used without significant repair

7 – Repairable

Property that is unusable in its current condition, but can be economically repaired.

X – Salvage

Property that has some value in excess of its basic material content, but repair or rehabilitation is impractical and/or uneconomical

S – Scrap

Property that has no value except for basic material content.

Acceptable Federal Condition Codes (Combinations of the **Supply** and **Disposal** Condition Codes) are as follows:

A1, A4

B1, B4

C1, C4

D1, D4, D7

E7

F7, FX

G7, GX

H7, HX

SS
