"A free press and by extension free media is the cornerstone of democracy. When the media is controlled by just a few voices, there can be no democracy. In this regard, the founding fathers strongly opposed monopoly as the greatest threat to democracy .. let alone a monopoly of the media."

"Comcast already has many of us by the neck as they are the only cable provider we have access to. They are not a benevolent giant. I do not want to see them in control of content on NBC and it's affiliates MSNBC, etc. Our access to news and information has already been threatened by the misanthropic decisions of the FCC concerning net neutrality. Don't compound the damage by allowing this merger. It poses a real danger to our democracy."

"You lying "conservatives" constantly claim to be in favor of the free market while constantly destroying the free market by destroying competition and concentrating control in the hands of a few giant corporations, including what used to be known as "the free press." The FCC and Congress have become the enemies of democracy by knowingly destroying any possible freedom for the "press." "Why not just have a State run news media that tells us and shows us what you want us to hear were almost there now! I don't watch tv or listen to anything but public broadcasting and local radio because the Media giants have such poor programming and the news is just white wash. This country is becoming what the Soviet Bloc was 30 years ago. Have some back bone and guts and make some decisions that will benefit the people of the United States and not the Media conglomerates.
