10. *Abstract:* NRC regulations in 10
CFR part 26 prescribe requirements to
establish, implement, and maintain
fitness-for-duty programs at affected
licensees and other entities. The
objectives of these requirements are to
provide reasonable assurance that
persons subject to the rule are
trustworthy, reliable, and not under the
influence of any substance, legal or
illegal, or mentally or physically
impaired from any cause, which in any
way could adversely affect their ability
to safely and competently perform their
duties. These requirements also provide
reasonable assurance that the effects of
fatigue and degraded alertness on
individuals' abilities to safely and
competently perform their duties are
managed commensurate with
maintaining public health and safety.
The information collections required by
part 26 are necessary to properly
manage FFD programs and to enable
effective and efficient regulatory
oversight of affected licensees other
entities. These licensees and other
entities must perform certain tasks,
maintain records, and submit reports to
comply with part 26 drug and alcohol
provisions and fatigue management
requirements. These records and reports
are necessary to enable regulatory
inspection and evaluation of a licensee's
or entity's compliance with NRC
regulations, its FFD performance, and of
any significant FFD-related event to
help maintain public health and safety,

promote the common defense and
security, and protect the environment.
