Note:

1. Access to an electronic copy of this memorandum is available at http://www.usitc.gov/tariff_affairs/congress_reports/.
2. In regard to the country(ies) of origin listed in section III, this report focuses on dutiable imports and does not take into account any tariff preference programs or special rates of duty.

II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Cyan 854 inkjet printing ink: Copper phthalocyanine substituted with sulphonic acids and alkyl sulphonoamides, sodium/ ammonium salts (PMN No. P02-893) (provided for in subheading 3215.19.00)

(If enacted, the tariff relief provided for in this bill would be available to any entity that imports the product that is covered by the bill.)

Description above compared with bill as introduced:

- Same
 Different (see Technical Comments section)

III. Other product information, including uses/applications and source(s) of imports

The product is printing ink that is put into cartridges for ink-jet printers. It is imported from the United Kingdom.

The Commission staff notes the proposed heading does not contain a CAS number. The interested entity has asserted that the inclusion of a CAS number would reveal confidential information about the firm's production processes. The interested entity has provided an EPA Pre-Manufacture Notice Number (PMN No.) but has not supplied a copy of the document to the staff. This makes it difficult to determine the intended scope of the bill, to confirm whether the subject products are described and classified correctly and to avoid limiting tariff relief to one firm's brand name.

IV. Estimated effect on customs revenue

Subject product HTS subheading(s)	3215.19.00				
Item	2013	2014	2015	2016	2017
Col.1-general rate of duty (%) or percentage point reduction	1.8	1.8	1.8	1.8	1.8
Estimated value of <i>dutiable</i> imports (\$)	6,000,000	7,000,000	8,000,000	9,000,000	10,000,000
Customs revenue loss (\$)	108,000	126,000	144,000	162,000	180,000

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Dutiable imports were based on (more than one may apply):

- Official statistics of the U.S. Department of Commerce
 Provided by industry sources
 Industry information
 Commission estimates

Duty reduction notes:

- This bill is not a duty reduction
 This bill is a temporary duty reduction. Rates are shown below.

Col.1-general duty rate (%) Temporary rate (%) Percentage point reduction (%)

V. Technical comments

Staff suggests that language be draft to correct the spelling in the chemical name.
