Note:

1. Access to an electronic copy of this memorandum is available at http://www.usitc.gov/tariff_affairs/congress_reports/.
2. In regard to the country(ies) of origin listed in section III, this report focuses on dutiable imports and does not take into account any tariff preference programs or special rates of duty.

II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Biaxially oriented polypropylene film, certified by the importer as intended for use in capacitors and as produced from solvent-washed low ash content (<50 ppm) polymer resin (CAS No. 9003-07-0) (provided for in subheading 3920.20.00)

(If enacted, the tariff relief provided for in this bill would be available to any entity that imports the product that is covered by the bill.)

Description above compared with bill as introduced:

- Same
 Different (see Technical Comments section)

III. Other product information, including uses/applications and source(s) of imports

The subject product is biaxially oriented polypropylene film having a thickness range of between 3 microns to 25 microns (12 to 100 gauge). This low ash polypropylene film is produced from specialty resin having an ash content of less than 50 ppm. The product is imported principally from France, Germany, Japan, and Korea.

IV. Estimated effect on customs revenue

Table with 6 columns: Item, 2013, 2014, 2015, 2016, 2017. Rows include Subject product HTS subheading(s), Col.1-general rate of duty or percentage point reduction (%), Estimated value of dutiable imports (\$), and Customs revenue loss (\$).

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Dutiable imports were based on (more than one may apply):

- Official statistics of the U.S. Department of Commerce
 Provided by industry sources
 Industry information
 Commission estimates

Duty reduction notes:

- This bill is not a duty reduction
 This bill is a temporary duty reduction. Rates are shown below.

MIRWEC FILM INC.

May 16, 2012

To the United States International Trade Commission:

I am writing in opposition to H.R. 4534, "To extend the temporary suspension of duty on biaxially oriented polypropylene film."

Mirwec Film, Inc., is a manufacturer of biaxially oriented polypropylene film for use in the high voltage capacitors for power transmission and distribution equipment. Our plant is located in Bloomington, Indiana.

As a domestic producer of this material, we object to the tariff on the very material that we produce being eliminated. The purpose of the tariff system is to protect American businesses and to help them compete within the U.S. When the tariff on our product was eliminated two years ago, it was a serious blow to our market position.

The competition in our market is increasing, and we face increasing pressures from films made in Europe, China and Japan. These materials are currently able to be brought into the United States duty free since 2010. We have seen our business and our market share decrease over the last two years.

So I ask you to oppose the extension of the duty suspension on this material. Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kyle Massey", is written over the typed name.
