1. Access to an electronic copy of this memorandum is available at http://www.usitc.gov/tariff_affairs/congress_reports/.

2. In regard to the country(ies) of origin listed in section III, this report focuses on dutiable imports and does not take into account any tariff preference programs or special rates of duty.

II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Women's footwear with outer soles and uppers of rubber or plastics, covering the ankle, valued over \$12 but not over \$20/ pair, the foregoing other than work footwear and other than tennis shoes, basketball shoes, gym shoes, training shoes and the like (provided for in subheading 6402.91.90)

(If enacted, the tariff relief provided for in this bill would be available to any entity that imports the product that is covered by the bill.)

Description above compared with bill as introduced:

Same

☑ Different (see Technical Comments section)

III. Other product information, including uses/applications and source(s) of imports

The proposed description would cover women's footwear in a single residual statistical reporting number of the referenced HTS subheading (6402.91.9051). China is the leading supplier of imports of the subject footwear, followed by Italy.

Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Hello Laura:

Herb asked me to review and reply. Please let me know if you have any questions or need anything further.

NB objects to:

HR5164 - textile uppers, textile outsoles. While we don't make shoes with textile outsoles in the US, (we do make shoes with textile uppers/rubber/plastic outsoles) until Customs clarifies what their tests/standards for durable textile outsoles, we cannot be sure importers won't be able to slap textile on shoes comparable to our domestically made shoes and receive free duty treatment.

HR5166 - rubber/plastic uppers, textile outsoles. Same comment as above.

HR4897 - rubber/plastic uppers, non athletic footwear, over \$6.50, not over \$12 - NB makes shoes in this category in the US - our OTB Abyss boot.

HR4898 - rubber/plastic uppers, non athletic footwear, over \$12 - NB makes shoes in this category in the US - our OTB Abyss boot.

The Honorable Sander Levin Ranking Member House Committee on Ways and Means Washington, DC 20515

Dear Chairman Camp and Ranking Member Levin:

On behalf of the Rubber and Plastic Footwear Manufacturers Association, which represents the domestic footwear manufacturing industry, I object to the following miscellaneous tariff bill:

H.R. 4898 - Rep. Carnahan (6402.91.90)

This bill conflicts with the OTB Abyss boot produced domestically by New Balance shoes.

Sincerely, James A. Hunter Government Relations Director Arent Fox, LLP
