#### Note:

1. Access to an electronic copy of this memorandum is available at [http://www.usitc.gov/tariff\\_affairs/congress\\_reports/](http://www.usitc.gov/tariff_affairs/congress_reports/).
2. In regard to the country(ies) of origin listed in section III, this report focuses on dutiable imports and does not take into account any tariff preference programs or special rates of duty.

## II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Polyalkene Yellow (4A100) (provided for in subheading 3204.17.90)

(If enacted, the tariff relief provided for in this bill would be available to any entity that imports the product that is covered by the bill.)

Description above compared with bill as introduced:

- Same  
 Different (see Technical Comments section)

## III. Other product information, including uses/applications and source(s) of imports

The subject product is a synthetic organic chemical that is used as a raw material in the production of pigments for printing inks. It is imported from China.

USITC staff notes the proposed heading does not contain a CAS number. The interested entity has asserted that the subject product does not have a CAS number assigned to it. Lack of a CAS number makes it difficult to determine the intended scope of the bill, to confirm whether the subject products are described and classified correctly, and to avoid limiting imports to one firm's brand name.

## IV. Estimated effect on customs revenue

Subject product HTS subheading(s)	3204.17.90				
Item	2013	2014	2015	2016	2017
Col.1-general rate of duty or percentage point reduction (%)	6.5	6.5	6.5	6.5	6.5
Estimated value of <i>dutiable</i> imports (\$)	1,000,000	1,000,000	1,000,000	1,000,000	1,000,000
Customs revenue loss (\$)	65,000	65,000	65,000	65,000	65,000

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Dutiable imports were based on (more than one may apply):

- Official statistics of the U.S. Department of Commerce  
 Provided by industry sources  
 Industry information  
 Commission estimates

Duty reduction notes:

- This bill is not a duty reduction  
 This bill is a temporary duty reduction. Rates are shown below.

Col.1-general duty rate (%)  Temporary rate (%)  Percentage point reduction (%)

## V. Technical comments

Staff strongly recommends that a full chemical description and CAS number be provided. The use of the descriptive term "polyalkene yellow" is not useful in defining the chemical group to which this dye or ink belongs. In addition the specific "4A100" is not useful in identification of this product. I
