2. In regard to the country(ies) of origin listed in section III, this report focuses on dutiable imports and does not take into account any tariff preference programs or special rates of duty.

II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

Pepperoncini, prepared or preserved by vinegar (provided for in subheading 2001.90.38)

(If enacted, the tariff relief provided for in this bill would be available to any entity that imports the product that is covered by the bill.)

Description above compared with bill as introduced:

- Same
 Different (see Technical Comments section)

III. Other product information, including uses/applications and source(s) of imports

The subject products are a variety of Capsicum annum that are pickled and typically sold to consumers in jars. While multiple similar varieties of Capsicum annum are grown in the U.S., no U.S. firm processing these peppers into a product similar to pepperoncini could be identified. Pepperoncini are commonly used in salads, on pizzas, in antipasto platters, on sandwiches, or as a garnish. Greece and Turkey are major U.S. suppliers of this product.

IV. Estimated effect on customs revenue

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Dutiable imports were based on (more than one may apply):

- Official statistics of the U.S. Department of Commerce
 Provided by industry sources
 Industry information
 Commission estimates

Duty reduction notes:

 This bill is a temporary duty reduction. Rates are shown below.
