II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):

o-Acetylsalicylic acid (Aspirin) (CAS No. 50-78-2) (provided for in subheading 2918.22.10)

III. Other product information, including uses/applications and source(s) of imports

The subject product is the active ingredient in formulated products containing aspirin. Such formulated products are used to treat a variety of conditions, including pain relief and cardiovascular event prevention. The subject product is imported from France, Spain, China, Thailand, and India. In addition to extending the temporary reduction of duty, this bill would also change the rate of duty of the Chapter 99 provision from 3 percent to "Free," thereby resulting in a duty suspension of the entire 6.5 percent rate of duty of HTS subheading 2918.22.10. This HTS subheading is eo nomine, specifically covering "O-Acetylsalicylic acid (Aspirin)."

IV. Estimated effect on customs revenue

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.
