Note:

1. Access to an electronic copy of this memorandum is available at [http://www.usitc.gov/tariff\\_affairs/congress\\_reports/](http://www.usitc.gov/tariff_affairs/congress_reports/).
2. In regard to the country(ies) of origin listed in section III, this report focuses on dutiable imports and does not take into account any tariff preference programs or special rates of duty.

**II. Suggested article description(s) for enactment (including appropriate HTS subheading(s)):**

Warp knit fabrics (including those made on galloon knitting machines), other than those of headings 6001 to 6004, of synthetic fibers, dyed (provided for in subheading 6005.32.00)

(If enacted, the tariff relief provided for in this bill would be available to any entity that imports the product that is covered by the bill.)

Description above compared with bill as introduced:

- Same
- Different (see Technical Comments section)

**III. Other product information, including uses/applications and source(s) of imports**

The subject products are dyed, knitted fabrics of synthetic fibers (e.g., polyester) in which the yarn is knit along the length, or warp, of the fabric. These fabrics can be used in a wide variety of end uses, including in the manufacture of apparel and upholstered furniture. Imports are primarily from Korea and China. Opposition to this bill is noted below in the Contacts table.

**IV. Estimated effect on customs revenue**

Subject product HTS subheading(s)	6005.32.00				
Item	2013	2014	2015	2016	2017
Col.1-general rate of duty (%) or percentage point reduction	10	10	10	10	10
Estimated value of <i>dutiable</i> imports (\$)	55,000,000	55,000,000	55,000,000	55,000,000	55,000,000
Customs revenue loss (\$)	5,500,000	5,500,000	5,500,000	5,500,000	5,500,000

Note: Customs revenue loss is provided for 5 years, although the effective period of the proposed legislation may differ. Regarding the HTS subheading listed in the article description of the bill, the Commission may express an opinion on the HTS classification of a product to facilitate consideration of the bill. However, by law, only U.S. Customs and Border Protection is authorized to issue a binding ruling on this matter. The Commission believes that Customs should be consulted prior to enactment of the bill.

Dutiable imports were based on (more than one may apply):

- Official statistics of the U.S. Department of Commerce
- Provided by industry sources
- Industry information
- Commission estimates

Duty reduction notes:

- This bill is not a duty reduction
- This bill is a temporary duty reduction. Rates are shown below.

Col.1-general duty rate (%)  Temporary rate (%)  Percentage point reduction (%)

**V. Technical comments**

The article description set forth above was modified for greater clarity and for conformity with the permanent tariff provisions.

**VI. Continuation**

Heidi,

Our positions on Batch 6 are as follows;

- H.R. 5300-5302 (These are not on the Ways and Means list and appear to be duplicates for 5491-5493.) No position.
- H.R. 5379 (Reusable grocery bags) AMTAC objects. Unifi produces recycled yarns for this end use.
- H.R. 5459 (Non-woven fiberglass sheets) AMTAC has no position. Note - there is no HTS code given in the bill making it difficult to fully vet.
- H.R. 5485 (Narrow woven fabrics) AMTAC objects. Unifi makes yarn for this product. It is also our understanding that there are numerous U.S. narrow fabric producers including: Aplix Inc, Asheboro Elastic Corp, Bo Buck Mills Inc, DMI Industries, Franklin Braid Mfg Co, Interstate Narrow Fabrics Inc, Joe-Anne Narrow Fabrics, Julius Koch Usa Inc, Leedon Webbing Co Inc, North East Knitting Inc., Southern Weaving Company, and Stretch Products Corp.
- H.R. 5489 (Cases for toys/electronic games) AMTAC has no position.
- H.R. 5490 (Cases for toys/electronic games) AMTAC has no position.
- H.R. 5491-5493 (Viscose rayon yarn) AMTAC has no position.
- H.R. 5496 (Sanitary items/ diapers) AMTAC has no position.
- H.R. 5497 (Warp knit open-work fabrics) AMTAC opposes. Milliken makes this product.
- H.R. 5510 (Fiberglass sheets for acoustical ceiling use) AMTAC has no position.
- H.R. 5529 (Woven fabric of syn filament yarn) AMTAC opposes. Milliken and Copland make this product.
- H.R. 5530 (Woven fabric of syn staple fibers) AMTAC opposes. Milliken and Copland make this product
- H.R. 5531 (Woven fabric of poly staple fibers) AMTAC opposes. Milliken and Copland make this product
- H.R. 5532 (Woven fabric of syn filament fibers) AMTAC opposes. Milliken and Copland make this product
- H.R. 5533 (Pile fabrics) AMTAC has no position.
- H.R. 5534 (Woven fabrics of art. staple fibers) AMTAC opposes. Copland makes this product.
- H.R. 5535 (Warp knit fabrics) AMTAC opposes. Milliken makes this product.
- H.R. 5536 (MMF fabric coated with polyurethane). AMTAC opposes. Copland and Milliken make this product. In addition, the U.S. Industrial Fabrics Institute (USIFI), which is an associate member of AMTAC, includes U.S. producers of many types of coated fabrics. Two such companies are Trelleborg Engineered Solutions in Spartanburg, SC, and Twitchell Corporation, in Dothan, AL, which both produce this particular fabric. Performance Fibers, headquartered in Huntersville, NC, produces man-made polyester fibers in the United States which are used to produce the subject fabrics and are consumed by textile weaving and coating mills in the United States.
- H.R. 5537 (Warp knit fabrics) AMTAC opposes. Milliken makes this product.
- H.R. 5538 (Long-pile fabrics of mmf) AMTAC has no position.
- H.R. 5539 (Knit fabric) AMTAC opposes. Milliken makes this product.
- H.R. 5540 (Pile fabric) AMTAC opposes. Member production.
- H.R. 5541 (Rubberized textile fabrics of cotton). AMTAC opposes - Trelleborg (USIFI) makes this product.

Kimberlie, Maria,

We are an American upholstery fabric weaving mill, and I would like to **strongly oppose** several bills to reduce tariffs on imported fabric. They are: HR.5529, HR.5530, HR.5531, HR.5532, HR.5533, HR.5534, HR.5535, HR.5536, HR.5537, HR.5538, HR.5539, HR.5540, and HR.5541.

David Rothschild Co Inc makes several of these categories in our mill in Reidsville, NC, and our American competitors make all of these categories.

The majority of upholstery fabric imports are from China, and they have the incredible advantage of having an undervalued currency that allows them to sell to the United States and makes it almost impossible for us to sell to China. The United States foolishly allows China to set the value of their own currency unilaterally with no influence from the international currency markets that value the US dollar. While I believe in the value of free markets, there is no free market that trades the Chinese RMB and the US dollar.

The majority of the upholstery fabrics used in the US are imported, but there is still a dynamic, modern upholstery fabric manufacturing industry in the United States that needs these tariffs. In fact, we should be increasing our tariffs on Chinese goods until their currency is traded freely on all the international markets that trade the dollar and euro.

The furniture manufacturer in Representative Todd Young's district that would be the main beneficiary of these bills buys very little American fabric, if any, and just wants to be able to buy more inexpensive imported fabric even cheaper.

Please feel free to call me at any time. Thanks.

Sincerely,

Walter Rothschild, Pres.

Subject: Fw: Miscellaneous tariff bills

Kim,

I have now heard from several companies and can state that the National Textile Association opposes all of the duty suspension bills relating to fabrics filed by Representative Todd Young (R., IN-9) and disclosing Best Home Furnishings as a potential beneficiary. The thirteen bills are:

HR 5529

HR 5530

HR 5531

HR 5532

HR 5533

HR 5534

HR 5535

HR 5536

HR 5537

HR 5538

HR 5539

HR 5540

HR 5541

I have heard from companies who make in the U.S. like or competitive fabrics for the upholstery industry and therefore oppose all these bills.

Furthermore, I note that the bills, as written, cover a wide range of fabrics suitable for variety of end uses and are, therefore, contrary to the interest of manufacturers in every sector of the domestic U.S. textile industry.

Jackie,

NCTO opposes several of the MTBs offered by Rep. Todd Young because, based on the extremely broad product descriptions offered in the bills, the covered products are readily available from a host of U.S. manufacturers.

The fabrics described in H.R. 5529, 5530, 5531, 5532 are readily available from Sunbury Textile Mills.

Although not NCTO members, an internet search shows that several companies are able to produce the pile fabrics described in H.R. 5533, 5538, and 5540. These companies include Glenoit Fabrics, Monterey Mills, and probably Contemporas, among others.

The fabric in H.R. 5534 is available from Valdese Weavers.

The warp knit fabrics described in H.R. 5535 and 5537 are available from numerous companies. Dyeing and printing is available in the U.S. as well.

The knit fabric described in H.R. 5539 is also widely available.

Another bill, H.R. 5036 proposed by Rep. Charles Dent for knit stretch fabrics is available from numerous companies, including Elastic Fabrics of America.

H.R. 5201 from Rep. Mick Mulvaney for certain window shade materials is available from Rockland Industries.

NCTO member companies provide the fiber and yarns that go into all of these products.

Thank you for providing this opportunity for us to comment. If you have any questions or need more information, please do not hesitate to let us know.
