### Summary of Changes

Clarifies that obligations against spending authority from offsetting collections from other accounts with no benefit to the paying account should be classified as direct obligations and that compulsory collections resulting from the Government's sovereign powers should be classified as direct obligations (section [83.5](#)).

Aligns schedule P offsetting collections lines to the different types of obligations against spending authority from offsetting collections (section [83.5](#)).

Clarifies that an expenditure transfer that shifts budgetary resources between a Federal and trust fund accounts should use the financial transfer object class code 94.0 and be coded as direct obligations (section [83.5](#), [83.6](#), [83.14](#)).

Updates the definition of object class 24 to cover electronic documents (section [83.6](#)).

Drops the requirement to distribute obligations by agency and / or bureau when there are allocations ([exhibit 83C](#)).

**83.1 What are object classes?**

Object classes are categories in a classification system that presents *obligations by the items or services purchased* by the Federal Government. These are the major object classes:

- 10 Personnel compensation and benefits
- 20 Contractual services and supplies
- 30 Acquisition of assets
- 40 Grants and fixed charges
- 90 Other

We divide these major classes into smaller classes and present them in the Budget Appendix in object class schedules.

The object classes present obligations according to their initial purpose, *not the end product or service*. For example, if you pay a Federal employee who constructs a building, classify the obligations for the employee's wages under *Personnel compensation and benefits*, rather than *Acquisition of assets*. If you purchase a building, classify the contractual obligations under *Acquisition of assets*.

You record *obligations* when the Federal Government places an order for an item or a service, awards a contract, receives a service, or enters into similar transactions that will require payments in the same or a future period (see section [20.5](#)). You also record obligations when you make an *expenditure* transfer between Federal Government accounts (see section [20.4\(j\)](#)).

**83.2 Why must I report object class information?**

You must report object class information because the law ([31 U.S.C. 1104\(b\)](#)) requires the President's Budget to present obligations by object class for each account.

**83.3 How do object classes compare to functional and character classes and program activity?**

The following table shows how the object classification system differs from the other classification systems used in the President's Budget.

Classification System	What is classified?	What does it tell me?
Object class	Obligations	Goods or services or items purchased, for example, supplies, rent, or equipment
Program activity (see section <a href="#">82.5</a> )	Obligations	Activity, project, or other programmatic distinction
Functional class (see section <a href="#">79.3(d)</a> )	Budget authority, outlays, and offsetting receipts	Major purpose served, for example, national defense, health, income security
Character class (see section <a href="#">84.4</a> )	Budget authority, outlays, and offsetting receipts	Whether the amount pays for an <i>investment</i> or noninvestment and whether the amount is a <i>grant</i> to a State and local government or a <i>direct</i> Federal program;  If investment, then, what type: physical asset, conduct of R&D, or conduct of education and training

**83.4 How does the object class schedule relate to the program and financing schedule?**

You report object class information whenever you report obligations on a program and financing (P&F) schedule (except you do not report object class information for credit financing accounts). This means you report obligations by object class separately for the regular budget requests, supplemental budget requests, rescission proposals, and legislative proposals.

In addition, object class schedules separately identify the following types of obligations:

- Direct and reimbursable obligations (see section [83.5](#)).
- Obligations between agencies (see section [83.14](#)).

**83.5 How can I determine whether an obligation should be classified as direct or reimbursable?**

In general, reimbursable obligations are those financed by offsetting collections (see section [20.7\(d\)](#)) received in return for goods and services provided, while all other obligations are direct. However, there are exceptions. Classify *obligations* as "direct" or "reimbursable" in accordance with the following criteria:

If the obligations are . . .	And if . . .	And the schedule P offsetting collections lines are from . . .	The classification is . . .
NOT financed from offsetting collections			Direct
Financed from any type of budgetary resources, including offsetting collections	The account is a CREDIT program or liquidating account		Direct
Financed from offsetting collections from:			Direct
<ul style="list-style-type: none"> <li>• Asset sales (including GSA recycling funds);</li> <li>• Interest on Federal securities;</li> <li>• Interest on uninvested funds;</li> <li>• Compulsory collections derived from the Government exercising its sovereign powers, , e.g., taxes, compulsory user charges, regulatory fees, inspection fees, customs duties, license fees;</li> </ul>		<ul style="list-style-type: none"> <li>Non-Federal sources (lines 4033 or 4123)</li> <li>Lines 4031 or 4121</li> <li>Lines 4032 or 4122</li> <li>Non-Federal sources (lines 4033 or 4123) or Offsetting Governmental Collections (lines 4034 or 4124)</li> </ul>	
<ul style="list-style-type: none"> <li>• Intragovernmental expenditure or non-expenditure transfers;</li> </ul>	There is no benefit exchanged to the paying account (e.g., does not receive a good or service)	Federal sources (lines 4030 or 4120)	
<ul style="list-style-type: none"> <li>• Donations; or</li> <li>• Refunds.</li> </ul>		<ul style="list-style-type: none"> <li>Non-Federal sources (lines 4033 or 4123)</li> <li>Federal sources</li> </ul>	

**SECTION 83—OBJECT CLASSIFICATION (MAX SCHEDULE O)**

<b>If the obligations are . . .</b>	<b>And if . . .</b>	<b>And the schedule P offsetting collections lines are from . . .</b>	<b>The classification is . . .</b>
		(lines 4030 or 4120) or Non-Federal Sources (lines 4033 or 4123)	
Financed from offsetting collections received in return for goods or services provided, including: <ul style="list-style-type: none"> <li>• Reimbursements under the IPA (see section <a href="#">83.15</a>); and</li> <li>• Voluntary insurance premiums</li> </ul>	The account is NOT a credit program or liquidating account	Federal sources (lines 4030 or 4120) or Non-Federal Sources (lines 4033 or 4123)	Reimbursable
Financed from offsetting collections from other Federal government account(s)	The collections are for a jointly funded grant or project	Federal Sources (lines 4030 or 4120)	Reimbursable

The amounts you classify as reimbursable obligations in both MAX Schedule O and MAX schedule P for a budget account should be identical with the following exceptions:

- Line 9995, *Below reporting threshold*, in MAX Schedule O may contain a mixture of direct and reimbursable obligations. These amounts are not material because they are normally \$4 million or less;
- Credit financing accounts do not have any MAX Schedule O

*MAX Schedule O.* Use the 4–digit object class line numbers in exhibit 83A when you enter obligations by object class in MAX schedule O. Be sure to use the correct prefix to distinguish reimbursable from direct obligations. For reimbursable obligations, if the obligations are for the parent account use 2xxx and if the obligations are in an allocation account use 4xxx.

*MAX Schedule P.* Use the 4–digit program activity codes described in section [82.5](#) when you report obligations. For reimbursable obligations, use x8xx.

**83.6 What object class codes and definitions should I use?**

Earlier, we said that we divided the major object classes into smaller ones. The following table provides the codes, standard titles, and definitions used to identify detailed object class data. Exhibit [83A](#) summarizes the codes and standard titles used in MAX Schedule O.

<b>Entry</b>	<b>Description</b>
<b>10 PERSONNEL COMPENSATION AND BENEFITS</b>	This major object class consists of object classes 11, 12, and 13.
11 Personnel compensation	Compensation directly related to duties performed for the Government by Federal civilian employees, military personnel, and non-Federal personnel. Object class 11 covers object classes 11.1 through 11.8.
11.1 Full-time permanent	For full-time civilian employees with permanent appointments.  Full-time permanent employees are those who are full-time civilian employees with <i>permanent appointments as defined by the Office of Personnel Management (OPM)</i> . The nature of the employee's appointment

Entry	Description
	<p>is controlling, not the nature of the position. For this object class, include full-time permanent employees in the:</p> <ul style="list-style-type: none"> <li>• Competitive Service with career and career-conditional appointments.</li> <li>• Excepted Service whose appointments carry no restriction or condition. Include those serving trial periods or whose tenure is equivalent to career-conditional tenure in the Competitive Service. <u>Exclude</u> those serving on indefinite appointments and appointments limited to a specific time.</li> <li>• Senior Executive Service (SES) with career appointments as defined in <a href="#">5 U.S.C. 3132(a)(4)</a> and non career appointments as defined in <a href="#">5 U.S.C. 3132(a)(7)</a>.</li> </ul> <p>Refer to your agency's human resources office for assistance on the types of appointments for staff in your agency.</p> <p>Include:</p> <ul style="list-style-type: none"> <li>• Regular salaries and wages paid to the employees (some of which may be withheld from the employee's check to pay taxes, to pay a bill in a credit union, or to pay the employee's share of life and health insurance).</li> <li>• Other payments that become part of their basic pay (for example, geographic differentials, and critical position pay).</li> <li>• Regular salaries and wages paid while the employees are on paid leave, such as annual, sick, or compensatory leave.</li> <li>• Lump sum payments for annual leave upon separation (also known as terminal leave payments).</li> </ul> <p>Exclude:</p> <ul style="list-style-type: none"> <li>• Compensation above the basic rate, for example, overtime or other premium pay, which will be classified in object class 11.5, <i>Other personnel compensation</i>.</li> <li>• Full-time <i>temporary</i> employees who are full-time civilian employees with <i>temporary appointments as defined by OPM</i> who will be classified in object class 11.3, <i>Other than full-time permanent</i>.</li> </ul>
11.3 Other than full-time permanent	<p>Regular salaries and wages paid to civilian employees for part-time, temporary, or intermittent employment (see note below).</p> <p>Include:</p> <ul style="list-style-type: none"> <li>• Part-time permanent employees, that is, employees with appointments that require work on a prearranged schedule of fewer hours or days of work than prescribed for full-time employees in the same group or class.</li> <li>• Temporary employees, that is, employees with appointments for a limited period of time that is generally less than a year. For example: <ul style="list-style-type: none"> <li>(a) full-time temporary employees,</li> <li>(b) seasonal employees without permanent appointments,</li> </ul> </li> </ul>

Entry	Description
	<p>(c) employees with term appointments, and</p> <p>(d) employees with indefinite appointments.</p> <ul style="list-style-type: none"> <li>• Personnel appointments and advisory committees.</li> <li>• Intermittent employees, that is, employees with appointments that require work on an irregular or occasional basis and who are paid only for the time actually employed or services actually rendered.</li> </ul> <p><i>Note:</i> For personal services contracts with individuals, who are classified by OPM as Federal employees, classify the basic pay in this object class and classify compensation above the basic pay in object class 11.5, <i>Other personnel compensation</i>. On the other hand, classify the payments to a contractor principally for the personal services of a group of the contractor's employees according to the type of contract involved (for example, classify personal services contracts for operation and maintenance of facilities under object class 25.4).</p>
11.5 Other personnel compensation	<p>Compensation <i>above the basic rates</i> paid directly to civilian employees. Include:</p> <ul style="list-style-type: none"> <li>• Overtime, which is pay for services in excess of the established work period as defined in <a href="#">5 U.S.C. 5542</a>, standby duty and administratively uncontrollable overtime as defined in <a href="#">5 U.S.C. 5545</a>, and unscheduled availability duty hours for criminal investigations as defined in <a href="#">5 U.S.C. 5545(a)</a>.</li> <li>• Holiday pay as defined in <a href="#">5 U.S.C. 5546(b)</a>.</li> <li>• Night work differential, which is pay above the basic rate for regularly scheduled night work.</li> <li>• Post differentials, which are authorized under <a href="#">5 U.S.C. 5925</a> above the basic rate for service at hardship posts abroad that are based upon conditions of environment substantially different from those in the continental United States and warrant additional pay as a recruitment and retention incentive.</li> <li>• Hazardous duty pay, which is pay above the basic rate because of assignments involving performance of duties that subject the employee to hazards or physical hardships.</li> </ul> <p><i>Note:</i> Post differentials and hazardous duty pay result from the job or services performed. For example, a job performed at a hardship post abroad or under hazardous duty is different from what might appear to be the same job performed elsewhere and under non-hazardous conditions. Hence, both are classified with other pay in object class 11 and not as benefits in object class 12. By contrast, compensation in the form of cost of living allowances are classified as benefits in object class 12 because they do not result from the job or services performed. The cost for a job in one locale is different from the same job in another locale simply because the cost of living is higher in one locale.</p> <ul style="list-style-type: none"> <li>• Supervisory differential, which is pay above the basic rate to adjust the compensation of a supervisor to a level greater than the highest paid subordinate. The differential applies to a General Schedule employee who supervises one or more employees not covered by the General Schedule.</li> </ul>

11.6 Military personnel - basic allowance for housing	<ul style="list-style-type: none"> <li>• Cash incentive awards, which are payments for cash awards that do not become part of the Federal civilian employee's basic rate of pay, such as those authorized under <a href="#">5 U.S.C. 4503</a>, <a href="#">4504</a>, <a href="#">4505(a)</a>, <a href="#">4507</a>, and <a href="#">5384</a>.</li> <li>• Other payments above basic rates, which are payments for other premium pay, such as stand-by pay and premium pay in lieu of overtime and special pay that is paid periodically during the year in the same manner and at the same time as regular salaries and wages are paid. <i>Exclude</i> other payments which are classified in object class 12.1, <i>Civilian personnel benefits</i>.</li> <li>• Royalties to Federal scientists and inventors which may last up to 17 years and may be paid after the employee has left Federal service or to the employee's beneficiary.</li> </ul>
11.7 Military personnel	<p>Basic allowance given for housing to personnel of the uniformed service, including the commissioned corps of the Public Health Service and the National Oceanic and Atmospheric Administration.</p> <p>The regular salaries and wages paid to personnel of the uniformed service, including the commissioned corps of the Public Health Service and the National Oceanic and Atmospheric Administration (some of which may be withheld from the employee's check to pay taxes, to pay a bill in a credit union, or to pay the employee's share of life and health insurance) as well as amounts above the basic pay rates. For "amounts above the basic pay rates", apply the same definitions as for civilian employees in object class 11.5.</p> <p>Include:</p> <ul style="list-style-type: none"> <li>• Flight pay.</li> <li>• Basic allowance for subsistence (BAS).</li> <li>• Extra pay based upon conditions of environment (except cost of living allowances for locations outside the contiguous 48 States and the District of Columbia which will be classified in object class 12.2, Military personnel benefits).</li> </ul>
11.8 Special personal services payments	<p>Payments for personal services that do not represent salaries or wages paid directly to Federal employees and military personnel.</p> <p>Include:</p> <ul style="list-style-type: none"> <li>• Reimbursable details, that is, payments to other accounts for personal services of civilian employees and military personnel on reimbursable detail (both compensation and personnel benefits).</li> <li>• Reemployed annuitants, that is, payments by an agency employing an annuitant to reimburse the Civil Service Retirement and Disability Fund for the annuity paid to that employee under 5 U.S.C. <a href="#">8339 through 8344</a>.</li> <li>• Non-Federal civilians, such as witnesses; casual workers, patient and inmate help, and allowances for trainees and volunteers.</li> <li>• Salary equalization (authorized under <a href="#">5 U.S.C. 3372</a> and <a href="#">3584</a>) to individuals on leave of absence while employed by international organizations or State and local governments, when the equalization payment is 50 percent or less of the person's salary.</li> </ul>

**83.7 What object classes do I associate with civilian and military pay and benefits in the baseline?**

*Civilian pay and benefits* means the budgetary resources used to fund civilian compensation and benefits consistent with object classes 11.1 through 11.5 and 12.1.

*Military pay and benefits* means the budgetary resources used to fund military personnel compensation and benefits consistent with object classes 11.7 and 12.2.

**83.8 How do I classify relocation expenses related to a permanent change of station (PCS)?**

When an employee accepts a Federal position at a different location, such as at a different State, this is called a permanent change of station. An agency, at its discretion, may reimburse the employee for a variety of expenses related to the relocation. Follow the instructions in the table to classify these expenses among the object classes.

<b>If the obligations are for ...</b>	<b>Then classify in object class ...</b>
Transportation, per diem while in travel status, or reimbursement of actual travel expenses for the employee or the employee's immediate family	21.0 Travel and transportation of persons
Transportation of household goods, house trailers, and effects	22.0 Transportation of things
Storage and care of vehicles and household goods	25.7 Operation and maintenance of equipment
All other relocation expenses for <i>civilian</i> employees, such as: <ul style="list-style-type: none"> <li>• Allowances for expenses incurred in connection with a sale of a residence or settlement of an unexpired lease.</li> <li>• Subsistence when occupying temporary quarters (in contrast to per diem while in travel status, above).</li> <li>• Reimbursements of amounts equal to income taxes incurred by transferred employees for moving or storage expenses under <a href="#">5 U.S.C. 5724(b)</a>.</li> <li>• Contractual charges for relocation services under <a href="#">5 U.S.C. 5724(c)</a>.</li> <li>• Miscellaneous moving expenses under <a href="#">5 U.S.C. 5724(a)</a>.</li> </ul>	12.1 Civilian personnel benefits
All other relocation expenses for <i>military</i> personnel	12.2 Military personnel benefits

**83.9 How do I classify purchases related to information technology (IT)?**

For some reason, we have had many questions on how to classify IT obligations among the various object classes. The general rule is to focus on the nature of the services, articles or other items for which obligations are first incurred. The following table shows the application of this rule.

**SECTION 83—OBJECT CLASSIFICATION (MAX SCHEDULE O)**

<b>If the obligations are for ...</b>	<b>Then classify in object class ...</b>
IT services or the rental of IT equipment	23.3 Communications, utilities, and miscellaneous charges
Operation and maintenance of IT systems by the private sector	25.7 Operation and maintenance of equipment
Operation and maintenance of IT systems by another Federal Government account	25.3 Other goods and services from Federal sources
IT hardware and software	31.0 Equipment
IT supplies and materials, such as manuals, diskettes, toner cartridge	26.0 Supplies and materials
IT consulting services in the form of: <ul style="list-style-type: none"> <li>• Management and professional support services.</li> <li>• Studies, analyses, and evaluations.</li> <li>• Engineering and technical services.</li> </ul>	25.1 Advisory and assistance services

**83.10 How do I classify obligations for education and training?**

We have also had many questions on how to classify education and training obligations among the various object classes. The general rule is to focus on the nature of the services, articles or other items for which obligations are first incurred. The following table shows the application of this rule.

<b>If the obligations are for ...</b>	<b>Then classify in object class ...</b>
Payments of tuition to universities or colleges leading to a degree, or for attendance at conferences	25.2 Other services from non-Federal sources
All other payments to a private sector company for training courses	25.1 Advisory and assistance services
Payments to other Federal government agencies for training courses	25.3 Other goods and services from Federal sources
Cash allowances for the education of dependents that are provided as recruitment and retention incentives for civilian employees	12.1 Civilian personnel benefits
Payment to the loan holder (e.g., the bank) to repay an employee's student loan as a recruitment incentive	12.1 Civilian personnel benefits
Cash allowances for the education of dependents that are provided as recruitment and retention incentives for military personnel	12.2 Military personnel benefits

**83.11 How do I classify obligations for real property (space, land, and structures)?**

Classify obligations for the *purchase, including lease purchase, or improvement* (that is, alteration or modification) of real property in object class 32, *Land and structures*.

Classify the *rental or lease* of real property, as follows:

If the obligation are for ...	And if ...	Then classify in object class ...
Payment to another Federal government account	The other account is GSA's Federal Buildings Fund*	23.1 Rental payments to GSA
Payment to another Federal government account	The other account is NOT GSA's Federal Buildings Fund	Purchases of goods and services from Government accounts  Note: The paying account must use this object class code but may change the title to "Rental payments to GSA."
Payment to the private sector		23.2 Rental payments to others

\* Classify amounts for the *standard* services, such as cleaning and security, covered by the *basic rental charge* assessed by GSA in object class 23.1, *Rental payments to GSA*. However, if the payment is for rent "related" services provided by GSA in addition to services provided under rental payments, for example, extra protection or extra cleaning, report the amounts under object class 25.3, *Other goods and services from Federal sources*.

**GSA operating delegations.** When GSA *delegates* the operation of a facility back to an agency ("operating delegations"), the agency is in charge of operating the facility.

GSA bills for basic rental charges differ depending on whether the building is owned or leased by GSA.

For GSA-leased buildings, the GSA bills the total (gross) amount of the basic rental charge which includes a charge for operating the building. In these cases, the following transactions occur:

- GSA bills the agency for the *gross* amount of the basic rental charge.
- Agency records obligations in object class 23.1, *Rental payments to GSA*, and pays GSA's Federal Buildings Fund the *gross* amount.
- GSA *rebates* the amount for operating the facility back to the agency.
- Agency records the amount rebated as offsetting collections.
- If the agency, in turn, contracts with the private sector to clean the facilities, the obligations are classified in object class 25.4, *Operation and maintenance of facilities*.
- If the agency, in turn, contracts with another agency (for example, to guard the building), the obligations are classified in object class 25.3, *Other goods and services from Federal sources*.

The above treatment will continue for rental of ***GSA-leased buildings***.

**83.12 How do I classify obligations for Federal civilian retirement under the Civil Service Retirement System (CSRS)?**

Use the following:

<b>If the obligations are for ...</b>	<b>Then classify in object class ...</b>
<p>The accrual for the future retirement cost of current civilian personnel covered by CSRS that is charged to the accounts that pay direct compensation to those personnel.</p> <p><i>Note:</i> The corresponding receipts credited to the civil service retirement and disability trust fund are treated as undistributed offsetting receipts (Employer share, employee retirement on the inter fund transaction line).</p>	12.1 Civilian personnel benefits
<p>The Government's share of retirement costs that amortize increases in the static unfunded liability created since October 20, 1969 by any statute which authorizes new or liberalized benefits, an extension of retirement coverage, or pay increases</p> <p><i>Note:</i> This applies to OPM's "Payment to the Civil Service Retirement and Disability Fund" account only.</p>	12.1 Civilian personnel benefits
<p>Interest on the static unfunded liability and annuity disbursements attributable to military service and the payment to provide annuities to former spouses of annuitants who died between September 1978 and May 1986 and who did not elect survivor coverage</p> <p><i>Note:</i> This applies to OPM's "Payment to the Civil Service Retirement and Disability Fund" account only.</p>	13.0 Benefits for former personnel
<p>Payments to CSRS retirees</p> <p><i>Note:</i> This applies to OPM's "Civil Service Retirement and Disability Fund" account only.</p>	42.0 Insurance, claims, and indemnities

**83.13 How do I classify obligations for military retirement?**

Since 1985, when the financing of military retirement changed to an accrual basis, the payments should be classified as follows:

<b>If the obligations are ...</b>	<b>Then classify in object class ...</b>
<p>The accrual for the future retirement cost of current military personnel that is charged to the accounts that pay direct compensation to those personnel</p> <p><i>Note:</i> The corresponding receipts credited to the military retirement trust fund are treated as undistributed offsetting receipts (Employer share, employee retirement on the inter fund transaction line).</p>	12.2 Military personnel benefits
<p>From general revenues to the military retirement fund to finance retirement costs for service prior to 1985</p>	13.0 Benefits for former personnel

If the obligations are ...	Then classify in object class ...
<i>Note:</i> This applies to the "Payment to Military Retirement Fund" account only.	
Made to military retirees	
<i>Note:</i> This applies only to the "Military Retirement Fund" and the Veterans Affairs "Compensation and Benefits" accounts .	42.0 Insurance, claims, and indemnities

See also section [83.16](#) for the classification of Tricare benefits earned by all uniformed service members.

### 83.14 How do I classify intragovernmental transactions?

For payments between two Federal government accounts for:

- Relocation expenses, see section [83.8](#);
- Information technology, see section [83.9](#);
- Education and training, see section [83.10](#);
- Real property, see section [83.11](#);
- Federal civilian retirement under CSRS, see section [83.12](#); and
- Military retirement, see section [83.13](#).

For other payments between two Federal government accounts, classify the obligations as follows:

If the obligations are ...	Then classify in object class ...
Transfers by the paying account to reimburse the receiving account for an asset or a service <i>with a specific object class</i>	The paying account should classify the <i>direct</i> obligations in the object class that best describes the purchase, such as:
	21.0 Travel and transportation of persons
	22.0 Transportation of things
	23.1 Rental payments to GSA
	23.2 Rental payments to others
	23.3 Communications, utilities, and miscellaneous charges
	24.0 Printing and reproduction
	25.1 Advisory and assistance services
	25.4 Operation and maintenance of facilities
	25.5 Research and development contracts
	25.6 Medical care
	25.7 Operation and maintenance of equipment
	25.8 Subsistence and support of persons
	26.0 Supplies and materials
	31.0 Equipment
	32.0 Land and structures
	33.0 Investment and loans

If the obligations are ...	Then classify in object class ...
	43.0 Interest and dividends
	44.0 <i>Refunds</i>
Transfers by the paying account to reimburse the receiving account for an asset or a service <i>without a specific object class</i>	25.3 <i>Other goods and services from Federal sources.</i> Do not use this object class if a more specific object class applies.
Transfers that merely moves resources between Federal government accounts (e.g., expenditure transfers between a trust fund and federal fund accounts). Normally these transfers result from appropriations action or general transfer authority where the obligations are simply accounting transfers.	94.0 Financial transfers  <i>Note:</i> The paying account should report direct obligations in object class 94.0 and the receiving account should distribute the obligations as direct obligations in the appropriate object classes.

### 83.15 How do I classify obligations under the Intergovernmental Personnel Act (IPA)?

Under the IPA, a Federal employee, with his or her consent, may be assigned temporarily to a non-Federal organization.

- *Detailed Federal employees.* A detailed Federal employee continues to receive pay, allowances, and benefits from the Federal agency. In some cases, these costs are reimbursed by the non-Federal organization.
- *Federal employees on leave without pay (LWOP).* A Federal employee on LWOP is paid by the non-Federal organization to which he or she is assigned. The salary paid by the non-Federal organization may be more or less than the employee's current Federal salary. If the rate of pay of the non-Federal organization is less, then the Federal agency may pay a supplemental salary to the employee.

Also under the IPA, an employee of a non-Federal organization may be assigned temporarily to a Federal agency either (1) with a temporary Federal appointment or (2) on detail.

- *Non-Federal employees with temporary Federal appointments.* A non-Federal employee with a temporary Federal appointment is paid by the Federal agency to which he or she is assigned. However, he or she is eligible to enroll in the Federal Employees Health Benefits program only if the Federal appointment results in the loss of coverage under the non-Federal health benefits system. He or she is not covered by any retirement system for Federal employees or by the Federal Employees Group Life Insurance Program.
- *Non-Federal employees detailed to a Federal Position.* A non-Federal employee who is detailed to a Federal agency continues to receive pay, allowances, and benefits from the non-Federal organization to which he or she is employed. In some cases these costs may be reimbursed by the Federal agency. In addition, if the non-Federal salary of the employee on detail is less than the minimum rate of pay for the Federal position, the Federal agency may supplement the salary to make up the difference.

Cost-sharing arrangements for IPA assignments are negotiated between the participating organizations. The Federal agency may agree to pay all, some, or none of the costs associated with an assignment. These include basic pay, supplemental pay, fringe benefits, and travel and relocation expenses.

Because of these cost-sharing arrangements you should use the following table to classify these obligations.

If the obligations are ...	And if the employees is ...	Then classify in object class ...	
Regular salaries and wages	Federal full-time and on detail to a non-Federal organization	11.1	Full-time permanent
	Federal but not full-time and on detail to a non-Federal organization	11.3	Other than full-time permanent
	Non-Federal with a temporary Federal appointment.		
	Non-Federal on detail to a Federal agency to provide consulting services	25.1	Advisory and assistance services
	Non-Federal on detail to a Federal agency to provide services other than consulting	11.8	Special personal services payments
Supplemental pay	Federal on LWOP	11.8	Special personal services payments
	Non-Federal on detail		
Cash incentive awards	Federal	11.5	Other personnel compensation
	Non-Federal with a temporary Federal appointment <i>(Note: you cannot give this type of award to a non-Federal employee who is detailed to a Federal position.)</i>		
Travel or relocation expenses		See sections <a href="#">83.5</a> and <a href="#">83.9</a>	
Other expenses		See section 83.5	

### 83.16 How do I classify obligations for Tricare benefits for uniformed service members?

Tricare is a regionally administered program which provides healthcare for uniform service members, retirees, survivors, and their families. This program combines healthcare resources of the Air Force, Army, and Navy while enhancing them with a variety of civilian healthcare professionals.

The National Defense Authorization Act replaces annual appropriations to the military personnel accounts of the Department of Defense (DoD) with permanent, indefinite appropriations from the General Fund of the Treasury. The Tricare accrual payments are made at the beginning of each year, instead of at the end of each month, and will be based on planned troop levels within the enacted DoD budget, instead of on the actual number of military personnel at the end of each month. The funding is shown in separate accounts for the Army, the Navy, the Marine Corps, the Air Force, the Army reserve, the Navy reserve, the Marine Corps reserve, the Air Force reserve, the Army National Guard and the Air Force National Guard. These accounts will, in turn, pay the accruals to the DoD Medicare-Eligible Retiree Health Care Fund.

Tricare benefits are earned by all current uniformed service members not just those in the DoD. This means that accounts for the Commissioned Corps in the Public Health Service in the Department of Health and Human Services, the United States Coast Guard in the Department of Homeland Security, and the Commissioned Corps in the National Oceanic and Atmospheric Administration in the Department of Commerce will also pay the accruals to the DoD Medicare-Eligible Retiree Health Care Fund.

## SECTION 83—OBJECT CLASSIFICATION (MAX SCHEDULE O)

---

In turn, the DoD Medicare-Eligible Retiree Health Care Fund pays the health benefits for retired members of the uniformed service.

---

If the obligations are ...	Then classify in object class ...
The employing agency contributions by the Department of Defense (DoD), the Department of Health and Human Services, the Department of Homeland Security, and the Department of Commerce to the special DoD Medicare-Eligible Retiree Health Care Fund to pay for <i>future</i> benefits earned by <i>current</i> uniformed service members.  <i>Note:</i> The corresponding receipts deposited in the special fund receipt account are permanently appropriated to the DoD Medicare-Eligible Retiree Health Care Fund expenditure account.	12.2 Military personnel benefits
The annual payment from the general treasury to finance the accrued unfunded liability of <i>retired</i> uniformed service members. This is paid to the Department of Defense Medicare-Eligible Retiree Health Care Fund.  <i>Note:</i> This applies to the "Payment to the Department of Defense Medicare-Eligible Retiree Health Care Fund."	13.0 Benefits for former personnel
Direct payments for uniformed service retirees.  <i>Note:</i> This applies to the "DoD Medicare-Eligible Retiree Health Care Fund" account only."	42.0 Insurance, claims, and indemnities

### 83.17 How is object class information presented in MAX Schedule O and the Appendix?

You must first enter all object class information in MAX Schedule O in order to populate the Appendix with object class data. The *Appendix* presents object class information in tables called object class schedules, which display the object class codes, the object class titles, and the amounts of obligations in the past, current, and budget year.

*MAX Schedule O.* Object class data are displayed in MAX on the basis of a 4-digit line number. This line number is made up of a *prefix* and a *3-digit object class code*. See the box on exhibit [83A](#) for the type of obligations indicated by each prefix. Also, see exhibit 83A for a list of the 3-digit object class codes.

*Note:* The 3-digit object class code in MAX Schedule O is the same 3-digit object class code in the *Appendix*, except that in the *Appendix* there is a decimal before the last digit. See section [83.7](#) for the definitions of the object classes.

*Appendix schedules.* The object class schedules in the *Appendix* present the 3-digit object class codes and the object class titles.

Normally, the *Appendix* will include a separate object class schedule for each P&F schedule that reports obligations (see exhibits [83B](#) and [83C](#)). However, when all obligations in a P&F schedule are classified in a *single object class*, there will be no object class schedule in the *Appendix*. Instead, the code for the appropriate object class will be identified in the P&F schedule in parentheses () at the end of the line for total new obligations. For example, if all obligations in a P&F are for grants, then "(object class 41.0)"

will be at the end of the stub entry on line 10.00 of the P&F. Although there will be no object class schedule in the *Appendix*, you must enter the data in MAX Schedule O.

Normally, the *Appendix* includes only one object class line for each object class code and uses the standard titles listed in section [83.7](#). However, you may insert additional object class lines in MAX and edit the standard titles. For example, to present employee travel separately from grantee travel in object class 21.0, *Travel and transportation of persons*, you may insert another line in MAX Schedule O, edit the standard titles, and distribute the obligations between the two lines.

*Allocations between agencies.* In some cases, funds appropriated to the President or to an agency are allocated to one or more agencies that help to carry out the program. Obligations incurred under such allocations are included in the data for the account to which the appropriation was made in the allocating agency, that is, the parent account. You must enter the data in MAX Schedule O. Use the appropriate prefix in the box on exhibit [83A](#) as the first digit in the 4-digit line number. See exhibit [83C](#) for an illustration of an *Appendix* galley of an object class schedule for a parent account with allocations.

### **83.18 When I report data in MAX Schedule O will it generate subtotals or totals?**

Yes. MAX will generate subtotals for different types of obligations from the amounts that you entered, as follows:

- For "reimbursable" obligations (lines 2XXX and 4XXX), MAX will automatically generate subtotal lines (2990 and 4990) when you enter "at least one" amount on lines 2XXX or 4XXX.
- For "direct" obligations (lines 1XXX and 3XXX), MAX will automatically generate subtotal lines (1990 and 3990) when you enter "more than one" amount on lines 1XXX, or 3XXX

MAX will generate "Total new obligations" on line 9999, when you enter more than one amount above this line.
