4854.

FEDLINK and OCLC Eastern invite you to join us for the Spring 2008 QuestionPoint Users Group Meeting

Please join us for an update on current product enhancements and a chance to share your experiences and success stories with others.

Roundtable discussion topics will include (but aren't limited to):

~   Collaboration - either with other QP users/groups or outside groups who use your library's QP service.

~   Staff training/Buy-in - how to get your staff interested or enthusiastic about using QP (insider tips).

~   Marketing without Money - focus on brainstorming ideas of how to market/ promote the service with little to no budget.

~   Setup and Support - suggestions based on individual experience about what worked for you and what "we" (RSPs/OCLC) could do differently?

We look forward to seeing you there!
