The Smithsonian American Art Museum/National Portrait Gallery Library (AAPG Library) serves two of the Institution's museums and focuses on American art and biography. The largest of four art libraries at the Smithsonian, the AAPG Library contains over 180,000 volumes in addition to special collections, vertical files, artists books, and other material. In addition to museum staff, the library is used by researchers worldwide to study American art and portraiture.

Attendees will learn about the collections and resources available at the library, digital initiatives in process, and will also view selections from special collections held in the library.

Attendees will need to check in with security in the lobby of the Victor Building. Please bring a valid photo ID.
