

Please note that most groups listed below have a corresponding characteristic iteration code, shown in the first column. In the summary file, these codes are located in the characteristic iteration (CHARITER) field of the geographic header record. In American FactFinder, the data user will be able to pick from a list of population groups.

<b>Iteration Code</b>	<b>Display Order</b>	<b>Iterations</b>
001	1	Total Population
002	2	<b>White alone</b>
003	3	<b>White alone or in combination with one or more other races</b>
004	4	<b>Black or African American alone</b>
005	5	<b>Black or African American alone or in combination with one or more other races</b>
006	6	<b>American Indian and Alaska Native alone (300, A01-Z99)</b>
278	7	<b>American Indian tribes, specified, alone (A01-M38, T01-Z99)</b>
204	8	Apache alone (A09-A23)
279	9	Arapaho alone (A24-A33)
280	10	Assiniboine Sioux alone (A38-A44)

475	330	Some Other Race alone or in combination with one or more other races, Hispanic or Latino
476	331	Two or More Races, Hispanic or Latino

There are several concepts used to tabulate race information in the census for the six major race categories (White; Black or African American; American Indian or Alaska Native; Asian; Native Hawaiian or Other Pacific Islander; and Some Other Race) and various details within.

The concept "race alone" includes people who reported a single entry (e.g., Korean) and no other race, as well as people who reported two or more entries within the same major race group (e.g., Asian). For example, respondents who reported Korean and Vietnamese are part of the larger "Asian alone" race group.

For the major race groups, the concept "race alone or in combination" includes people who reported a single race alone (e.g., Asian) and people who reported that race in combination with one or more of the other major race groups (e.g., White, Black or African American, American Indian and Alaska Native, Native Hawaiian and Other Pacific Islander, and Some Other Race). The concept "race alone or in combination," therefore, represents the maximum number of people who reported as that major race group, either alone, or in combination with another race(s). The sum of the six individual race "alone or in combination" categories may add to more than the total population because people who reported more than one race were tallied in each race category.

The concept "race alone or in any combination" applies only to detailed race iteration groups, such as American Indian and Alaska Native tribes, detailed Asian groups, and detailed Pacific Islander groups. For example, Korean alone or in any combination includes people who reported a single response (e.g., Korean), people who reported Korean and another Asian group (e.g., Korean and Vietnamese), and people who reported Korean in combination with one or more other non-Asian race groups (e.g., Korean and White).

The American Indian categories shown represent tribal groupings, which refer to the combining of individual American Indian tribes, such as Fort Sill Apache, Mescalero Apache, and San Carlos Apache into the general Apache tribal grouping.

The Alaska Native categories shown represent tribal groupings, which refer to the combining of individual Alaska Native tribes such as King Salmon Tribe, Native Village of Kanatak, and Sun'aq Tribe of Kodiak into the general Aleut tribal grouping.

The category "Two or More Races" refers to combinations of two or more of the six major race categories, and provides 57 unique multiracial combinations. Within this approach, a response of "White" and "Asian" was tallied as Two or More Races, while a response of "Korean" and "Vietnamese" was not because "Korean" and "Vietnamese" are both Asian responses.

For this Census, Hispanic origins are not races. People who identified their origin as Hispanic, Latino, or Spanish may be of any race.

\*This group is on the iteration list because it appears on the Redistricting Data File. However, it does not meet the 100 person threshold so no data will be shown for this group in SF 2.
