

## ***Deepwater Horizon Bird Impact Data from the DOI-ERDC NRDA Database***

These data are live and dead bird counts for the ongoing Natural Resource (NRDAR) process for the Deepwater Horizon Oil Spill.

Based on our experience with oil spills and the behavior of migratory birds shown may represent only a portion of the total birds affected by the spill. other injury-related issues through our ongoing NRDA studies.

This is the best available current information from the NRDAR process. Ho many sources, including surveys, members of the public, veterinarians, and continue to receive new information, counts of species or information on i  
***All data should be considered provisional, incomplete, and subject to cha***

12 May 2011

## Damage Assessment and Restoration

we expect that the number of birds

We are addressing these and

however, the information comes from

bird rehab centers. Because we

individual birds may change, and

**range.**
