

ZOO SCAVANGER HUNT

Many of the world's most endangered animals can be found in our local zoos. Taking a trip there can allow your children to engage with animals such as the African Elephant and Tiger. Make a game out of your next trip by incorporating this scavenger hunt and challenging your children to make the most out of their visit. To find a Zoo near you check out [the Association of Zoos and Aquariums](#) webpage.

What you'll need: Scavenger hunt list

Pen/pencil

Camera

Directions: When you get to the zoo or aquarium instruct your child to pay attention as you move through the exhibit. Try to see how many items you can get checked off the list before the end of the trip. Make sure to count a species only once and make sure to write down the animal's name.
