Land And Hold Short Operations

TO: ALL SOUTHERN REGION AIRPORTS with land and hold short operations (LAHSO)

This letter is written with the intent to update any existing information on Land and Hold Short Operations at Southern Region Airports. This includes removing or revising published information and procedures for accuracy.

If your airport still has LAHSO in effect, please ensure that a Letter of Agreement (LOA) has been established between the Air Traffic Control Tower, and you, the Airport Operator. If a LOA does exist, please make sure that a copy of the LOA has been approved by your certification safety inspector and has been incorporated into the Airport Certification Manual. Furthermore, please ensure that the information published in the Airport/Facility Directory (AFD) is still accurate. Revisions can be sent to the following:

Federal Aviation Administration
Aeronautical Information Services, ATA-100
800 Independence Ave. S.W.
Washington, D.C. 20591

Toll Free phone: 1-866-295-8236

FAX: (202) 267-5322

Note: The inside, front cover of any AFD has this information listed and more.

If your airport no longer uses LAHSO, but is still published as having LAHSO, we recommend that you check the AFD to ensure it reflects the correct information. Please have this removed from the AFD accordingly.

Lastly, if you have any LAHSO of a taxiway, please call your certification safety inspector. Thank you for your assistance.

Your Airport Certification/Safety Team
