(1) the project sponsor agrees to operate the project until the maturity date of the original loan under terms at least as advantageous to existing and future tenants as the

terms required by the original loan agreement or any project-based rental assistance payments contract under section 8 of the United States Housing Act of 1937 (or any other project-based rental housing assistance programs of the Department of Housing and Urban Development, including the rent supplement program under section 101 of the Housing and Urban Development Act of 1965 (12 U.S.C. 1701s)) or any successor project-based rental assistance program, except as provided by subsection (a)(2)(B); and

(2) the prepayment may involve refinancing of the loan if such refinancing results—

(A) in a lower interest rate on the principal of the loan for the project and in reductions in debt service related to such loan; or

(B) in the case of a project that is assisted with a loan under such section 202 carrying an interest rate of 6 percent or lower, a transaction under which—

(i) the project owner shall address the physical needs of the project;

(iv) the project owner may charge tenants rent sufficient to meet debt service payments and operating cost requirements, as approved by the Secretary, if project-based rental assistance is not available or is insufficient for the debt service and operating cost of the project after refinancing. Such approval by the Secretary—

(I) shall be the basis for the owner to agree to terminate the project-based rental assistance contract that is insufficient for the debt service and operating cost of the project after refinancing; and

(II) shall be an eligibility event for the project for purposes of section 8(t) of the United States Housing Act of 1937 (42 U.S.C. 1437f(t));

(v) units to be occupied by tenants assisted under section 8(t) of the United States Housing Act of 1937 (42 U.S.C. 1437f(t)) shall, upon termination of the occupancy of such tenants, become eligible for project-based assistance under section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)) without regard to the percentage limitations provided in such section; and

(4) NRC may provide up to 15 percent of the total funds under this paragraph to its own charter members with expertise in foreclosure prevention counseling, subject to a

NRC may use other criteria to demonstrate capacity in underserved areas.

(c) PRODUCT TRACING SYSTEM.—The Secretary, in consultation with the Secretary of Agriculture, shall, as appropriate, establish within the Food and Drug Administration a product tracing system to receive information that improves the capacity of the Secretary to effectively and rapidly track and trace food that is in the United States or offered for import into the United States. Prior to the establishment of such product tracing system, the Secretary shall examine the results of applicable pilot projects and shall ensure that the activities of such system are adequately supported by the results of such pilot projects.

(d) ADDITIONAL RECORDKEEPING REQUIREMENTS FOR HIGH-RISK FOODS.—

(1) IN GENERAL.—In order to rapidly and effectively identify recipients of a food to prevent or mitigate a foodborne illness outbreak and to address credible threats of serious adverse health consequences or death to humans or animals as a result of such food being adulterated under section 402 of the Federal Food, Drug, and Cosmetic Act or misbranded under section 403(w) of such Act, not later than 2 years after the date of enactment of this Act, the Secretary shall publish a notice of proposed rulemaking to establish recordkeeping requirements, in addition to the requirements under section 414 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 350c) and subpart J of part 1 of title 21, Code of Federal Regulations (or any successor regulations), for facilities that manufacture, process, pack, or hold foods that the Secretary designates under paragraph (2) as high-risk foods. The Secretary shall set an appropriate effective date of such additional requirements for foods designated as high risk that takes into account the length of time necessary to comply with such requirements. Such requirements shall—

(A) relate only to information that is reasonably available and appropriate;

(B) be science-based;

(C) not prescribe specific technologies for the maintenance of records;

(D) ensure that the public health benefits of imposing additional recordkeeping requirements outweigh the cost of compliance with such requirements;

(G) to the extent practicable, not require a facility to change business systems to comply with such requirements;

(H) allow any person subject to this subsection to maintain records required under this subsection at a central or reasonably accessible location provided that such records can be made available to the Secretary not later than 24 hours after the Secretary requests such records;

(I) include a process by which the Secretary may issue a waiver of the requirements under this subsection if the Secretary determines that such requirements would result in an economic hardship for an individual facility or a type of facility;

(J) be commensurate with the known safety risks of the designated food;

(K) take into account international trade obligations;

(L) not require—

(i) a full pedigree, or a record of the complete previous distribution history of the food from the point of origin of such food;

(ii) records of recipients of a food beyond the immediate subsequent recipient of such food; or

(iii) product tracking to the case level by persons subject to such requirements; and

(M) include a process by which the Secretary may remove a high-risk food designation developed under paragraph (2) for a food or type of food.

(2) DESIGNATION OF HIGH-RISK FOODS.—

Each such designation shall be based on—

(i) the known safety risks of a particular food, including the history and severity of foodborne illness outbreaks attributed to such food, taking into consideration foodborne illness data collected by the Centers for Disease Control and Prevention;

(ii) the likelihood that a particular food has a high potential risk for microbiological or chemical contamination or would support the growth of pathogenic microorganisms due to the nature of the food or the processes used to produce such food;

(iii) the point in the manufacturing process of the food where contamination is most likely to occur;

(iv) the likelihood of contamination and steps taken during the manufacturing process to reduce the possibility of contamination;

(v) the likelihood that consuming a particular food will result in a foodborne illness due to contamination of the food; and

(vi) the likely or known severity, including health and economic impacts, of a foodborne illness attributed to a particular food.

(B) LIST OF HIGH-RISK FOODS.—At the time the Secretary promulgates the final rules under paragraph (1), the Secretary shall publish the list of the foods designated under subparagraph (A) as high-risk foods on the Internet website of the Food and Drug Administration. The Secretary may update the list to designate new high-risk foods and to remove foods that are no longer deemed to be high-risk foods, provided that each such update to the list is consistent with the requirements of this subsection and notice of such update is published in the Federal Register.

(3) PROTECTION OF SENSITIVE INFORMATION.—In promulgating regulations under this subsection, the Secretary shall take appropriate measures to ensure that there are effective procedures to prevent the unauthorized disclosure of any trade secret or confidential information that is obtained by the Secretary pursuant to this section, including periodic risk assessment and planning to prevent unauthorized release and controls to—

(A) prevent unauthorized reproduction of trade secret or confidential information;

(B) prevent unauthorized access to trade secret or confidential information; and

(C) maintain records with respect to access by any person to trade secret or confidential information maintained by the agency.

(4) PUBLIC INPUT.—During the comment period in the notice of proposed rulemaking under paragraph (1), the Secretary shall conduct not less than 3 public meetings in diverse geographical areas of the United States to provide persons in different regions an opportunity to comment.

(5) RETENTION OF RECORDS.—Except as otherwise provided in this subsection, the Secretary may require that a facility retain records under this subsection for not more than 2 years, taking into consideration the risk of spoilage, loss of value, or loss of palatability of the applicable food when determining the appropriate timeframes.

(6) LIMITATIONS.—

(A) FARM-TO-SCHOOL PROGRAMS.—In establishing requirements under this subsection, the Secretary shall, in consultation with the Secretary of Agriculture, consider the impact of requirements on farm-to-school or farm-to-institution programs of the Department of Agriculture and other farm-to-school and farm-to-institution programs outside such agency, and shall modify the requirements under this subsection, as appropriate, with respect to such programs so that the requirements do not place undue burdens on farm-to-school or farm-to-institution programs.

(B) IDENTITY-PRESERVED LABELS WITH RESPECT TO FARM SALES OF FOOD THAT IS PRODUCED AND PACKAGED ON A FARM.—The requirements under this subsection shall not apply to a food that is produced and packaged on a farm if—

(i) the packaging of the food maintains the integrity of the product and prevents subsequent contamination or alteration of the product; and

(ii) the labeling of the food includes the name, complete address (street address, town, State, country, and zip or other postal code), and business phone number of the farm, unless the Secretary waives the requirement to include a business phone number of the farm, as appropriate, in order to accommodate a religious belief of the individual in charge of such farm.

(C) FISHING VESSELS.—The requirements under this subsection with respect to a food that is produced through the use of a fishing vessel (as defined in section 3(18) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1802(18))) shall be limited to the requirements under subparagraph (F) until such time as the food is sold by the owner, operator, or agent in charge of such fishing vessel.

(D) COMMINGLED RAW AGRICULTURAL COMMODITIES.—

(i) LIMITATION ON EXTENT OF TRACING.—Recordkeeping requirements under this subsection with regard to any commingled raw agricultural commodity shall be limited to the requirements under subparagraph (F).

(ii) DEFINITIONS.—For the purposes of this subparagraph—

(I) the term “commingled raw agricultural commodity” means any commodity that is

combined or mixed after harvesting, but before processing;

(II) the term “commingled raw agricultural commodity” shall not include types of fruits and vegetables that are raw agricultural commodities for which the Secretary has determined that standards promulgated under section 419 of the Federal Food, Drug, and Cosmetic Act (as added by section 6105) would minimize the risk of serious adverse health consequences or death; and

(III) the term “processing” means operations that alter the general state of the commodity, such as canning, cooking, freezing, dehydration, milling, grinding, pasteurization, or homogenization.

(E) EXEMPTION OF OTHER FOODS.—The Secretary may, by notice in the Federal Register, modify the requirements under this subsection with respect to, or exempt a food or a type of facility from, the requirements of this subsection (other than the requirements under subparagraph (F), if applicable) if the Secretary determines that product tracing requirements for such food (such as bulk or commingled ingredients that are intended to be processed to destroy pathogens) or type of facility is not necessary to protect the public health.

(F) RECORDKEEPING REGARDING PREVIOUS SOURCES AND SUBSEQUENT RECIPIENTS.—In the case of a person or food to which a limitation or exemption under subparagraph (C), (D), or (E) applies, if such person, or a person who manufactures, processes, packs, or holds such food, is required to register with the Secretary under section 415 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 350d) with respect to the manufacturing, processing, packing, or holding of the applicable food, the Secretary shall require such person to maintain records that identify the immediate previous source of such food and the immediate subsequent recipient of such food.

(G) GROCERY STORES.—With respect to a sale of a food described in subparagraph (H) to a grocery store, the Secretary shall not require such grocery store to maintain records under this subsection other than records documenting the farm that was the source of such food. The Secretary shall not require that such records be kept for more than 180 days.

(H) FARM SALES TO CONSUMERS.—The Secretary shall not require a farm to maintain any distribution records under this subsection with respect to a sale of a food described in subparagraph (I) (including a sale of a food that is produced and packaged on such farm), if such sale is made by the farm directly to a consumer.

(I) SALE OF A FOOD.—A sale of a food described in this subparagraph is a sale of a food in which—

(i) the food is produced on a farm; and
(ii) the sale is made by the owner, operator, or agent in charge of such farm directly to a consumer or grocery store.

(7) NO IMPACT ON NON-HIGH-RISK FOODS.—The recordkeeping requirements established under paragraph (1) shall have no effect on foods that are not designated by the Secretary under paragraph (2) as high-risk foods. Foods described in the preceding sentence shall be subject solely to the recordkeeping requirements under section 414 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 350c) and subpart J of part 1 of title 21, Code of Federal Regulations (or any successor regulations).

(e) EVALUATION AND RECOMMENDATIONS.—

(1) REPORT.—Not later than 1 year after the effective date of the final rule promulgated under subsection (d)(1), the Comptroller General of the United States shall submit to Congress a report, taking into consideration the costs of compliance and other

regulatory burdens on small businesses and Federal, State, and local food safety practices and requirements, that evaluates the public health benefits and risks, if any, of limiting—

(A) the product tracing requirements under subsection (d) to foods identified under paragraph (2) of such subsection, including whether such requirements provide adequate assurance of traceability in the event of intentional adulteration, including by acts of terrorism; and

(B) the participation of restaurants in the recordkeeping requirements.

(2) DETERMINATION AND RECOMMENDATIONS.—In conducting the evaluation and report under paragraph (1), if the Comptroller General of the United States determines that the limitations described in such paragraph do not adequately protect the public health, the Comptroller General shall submit to Congress recommendations, if appropriate, regarding recordkeeping requirements for restaurants and additional foods, in order to protect the public health.

(f) FARMS.—

(1) REQUEST FOR INFORMATION.—Notwithstanding subsection (d), during an active investigation of a foodborne illness outbreak, or if the Secretary determines it is necessary to protect the public health and prevent or mitigate a foodborne illness outbreak, the Secretary, in consultation and coordination with State and local agencies responsible for food safety, as appropriate, may request that the owner, operator, or agent of a farm identify potential immediate recipients, other than consumers, of an article of the food that is the subject of such investigation if the Secretary reasonably believes such article of food—

(A) is adulterated under section 402 of the Federal Food, Drug, and Cosmetic Act;

(B) presents a threat of serious adverse health consequences or death to humans or animals; and

(C) was adulterated as described in subparagraph (A) on a particular farm (as defined in section 1.227 of chapter 21, Code of Federal Regulations (or any successor regulation)).

(2) MANNER OF REQUEST.—In making a request under paragraph (1), the Secretary, in consultation and coordination with State and local agencies responsible for food safety, as appropriate, shall issue a written notice to the owner, operator, or agent of the farm to which the article of food has been traced. The individual providing such notice shall present to such owner, operator, or agent appropriate credentials and shall deliver such notice at reasonable times and within reasonable limits and in a reasonable manner.

(3) DELIVERY OF INFORMATION REQUESTED.—The owner, operator, or agent of a farm shall deliver the information requested under paragraph (1) in a prompt and reasonable manner. Such information may consist of records kept in the normal course of business, and may be in electronic or nonelectronic format.

(4) LIMITATION.—A request made under paragraph (1) shall not include a request for information relating to the finances, pricing of commodities produced, personnel, research, sales (other than information relating to shipping), or other disclosures that may reveal trade secrets or confidential information from the farm to which the article of food has been traced, other than information necessary to identify potential immediate recipients of such food. Section 301(j) of the Federal Food, Drug, and Cosmetic Act and the Freedom of Information Act shall apply with respect to any confidential commercial information that is disclosed to the Food and Drug Administration in the course

of responding to a request under paragraph (1).

(5) RECORDS.—Except with respect to identifying potential immediate recipients in response to a request under this subsection, nothing in this subsection shall require the establishment or maintenance by farms of new records.

(g) NO LIMITATION ON COMMINGLING OF FOOD.—Nothing in this section shall be construed to authorize the Secretary to impose any limitation on the commingling of food.

(h) SMALL ENTITY COMPLIANCE GUIDE.—Not later than 180 days after promulgation of a final rule under subsection (d), the Secretary shall issue a small entity compliance guide setting forth in plain language the requirements of the regulations under such subsection in order to assist small entities, including farms and small businesses, in complying with the recordkeeping requirements under such subsection.

(i) FLEXIBILITY FOR SMALL BUSINESSES.—Notwithstanding any other provision of law, the regulations promulgated under subsection (d) shall apply—

(1) to small businesses (as defined by the Secretary in section 6103, not later than 90 days after the date of enactment of this Act) beginning on the date that is 1 year after the effective date of the final regulations promulgated under subsection (d); and

(2) to very small businesses (as defined by the Secretary in section 6103, not later than 90 days after the date of enactment of this Act) beginning on the date that is 2 years after the effective date of the final regulations promulgated under subsection (d).

“(B) ADDITIONAL BASIS FOR WITHDRAWAL OF ACCREDITATION.—The Secretary may withdraw accreditation from an accredited third-party auditor in the case that such third-party auditor is accredited by an accreditation body for which recognition as an accreditation body under subsection (b)(1)(C) is revoked, if the Secretary determines that there is good cause for the withdrawal.

“(2) RIGHTS OF EMPLOYEES.—Nothing in this section shall be construed to diminish the rights, privileges, or remedies of any employee under any Federal or State law or under any collective bargaining agreement. The rights and remedies in this section may not be waived by any agreement, policy, form, or condition of employment.

Subtitle B—Fighting Fraud and Abuse to Save Taxpayers' Dollars**SEC. 760. FINDINGS.**

Congress makes the following findings:

(1) The Medicare program loses an estimated \$60,000,000,000 annually to wasted and fraudulent payments.

(2) The Medicaid program also suffers from rampant fraud. As the Office of the Inspector General of the Department of Health and Human Services noted in 2009, in an analysis of the only source of nationwide Medicaid claims and beneficiary eligibility information, the Medicaid Statistical Information

System, the Federal Government does not have “timely, accurate, or comprehensive information for fraud, waste, and abuse detection” in the Medicaid program.

(3) Absent comprehensive estimates, the Medicaid program’s improper payment rate may be the most objective measure of taxpayer dollars lost to fraud. The national average improper payment rate ranges between 8.7 percent and 10.5 percent, but many States have much higher improper payment rates.

(4) The new Federal health reform law substantially expands the Medicaid program, significantly changes the Medicare program, creates new mandates and regulations, and will send hundreds of billions of dollars to insurance companies.

(5) It is the duty of public officials and public servants in Congress and the Administration to protect the American public’s taxpayer dollars. Congress and the Administration must continue to aggressively combat waste, fraud, and abuse in public health care programs.

(6) The Inspector General of the Department of Health and Human Services has stated that “swift and effective detection of and response to waste, fraud, and abuse remain an essential program integrity strategy”. Furthermore, the Inspector General noted that “effective use of Medicare and Medicaid data is critical to the success of the Government’s efforts to reduce waste, fraud, and abuse”.

(7) The loss of taxpayer dollars due to waste and fraud under the Medicare and Medicaid programs not only threatens the financial viability of those programs, it erodes the public trust. American taxpayers should not be expected to tolerate rampant waste, fraud, and abuse in publicly funded health care programs.

(8) Congress supports the commitment of the Office of the Inspector General of the Department of Health and Human Services to “enhancing existing data analysis and mining capabilities and employing advanced techniques such as predictive analytics and social network analysis, to counter new and existing fraud schemes”.

(9) Congress supports the use of predictive modeling and other smart technologies that can transform the current “pay and chase” payment cultures under the Medicare and Medicaid programs and prevent taxpayer dollars from being lost to waste, fraud, and abuse.

TITLE IX—INFRASTRUCTURE, ENERGY, AND WATER PROVISIONS

Subtitle B—National Infrastructure Bank

SEC. 911. FINDINGS.

Congress finds the following:

(1) According to the American Society of Civil Engineers, the current condition of the infrastructure in the United States earns a grade point average of D, and an estimated \$2,200,000,000,000 investment is needed over the next 5 years to meet adequate conditions.

(2) According to the National Surface Transportation Policy and Revenue Study Commission, \$225,000,000,000 is needed annually from all sources for the next 50 years to upgrade our surface transportation system to a state of good repair and create a more advanced system.

(3) According to the Federal Highway Administration up to \$131,700,000,000 must be invested annually for a 20-year period to improve bridge efficiencies and the physical condition and operational performance of the highway system of the United States.

(4) According to the Federal Transit Administration, up to \$21,800,000,000 must be invested annually for a 20-year period to improve conditions and performance of the major transit systems of the United States.

(5) The Environmental Protection Agency projects that—

(A) \$183,600,000,000 is needed for installation and maintenance of drinking water transmission and distribution systems through 2022; and

(B) \$202,500,000,000 is needed for publicly owned wastewater systems-related infrastructure needs through 2024.

(6) According to the Edison Electric Institute, to maintain current levels of service

given expected growth in demand, electric utilities need to invest an annual average of—

- (A) \$28,000,000,000 for generation;
- (B) \$12,000,000,000 for transmission; and
- (C) \$34,000,000,000 for distribution of electricity.

(7) According to the American Council on Renewable Energy, renewable energy could provide up to 635 gigawatts of new electricity generating capacity by 2025—a substantial contribution and potentially more than the Nation's need for new capacity, according to the United States Energy Information Administration.

(8) According to the United States Green Building Council, United States buildings account for 38.9 percent of primary energy use, 38 percent of carbon emissions, and 72 percent of electricity consumption.

(9) There are over 1,200,000 units of public housing nationwide, with an accumulated capital needs backlog of approximately \$18,000,000,000, with an additional \$2,000,000,000 accruing each year.

(10) According to the Organization for Economic Cooperation and Development (OECD), the United States ranks 15th among OECD nations in broadband access per 100 inhabitants.

(11) Although grant programs of the Government must continue to play a central role in financing the transportation, environment, energy, and telecommunications infrastructure needs of the United States, current and foreseeable demands on existing Federal, State, and local funding for infrastructure expansion exceed the resources to support these programs by margins wide enough to prompt serious concerns about the United States' ability to sustain long-term economic development, productivity, and international competitiveness.

(12) The capital markets, including central banks, pension funds, financial institutions, sovereign wealth funds and insurance companies, have a growing interest in infrastructure investment. The establishment of a United States Government-owned institution that would provide this investment opportunity through high quality bond issues that would be used to finance qualifying infrastructure projects would attract needed capital for United States infrastructure development.

The bill provides \$904,000 for the Office of the Under Secretary for Marketing and Regulatory Programs.

ANIMAL AND PLANT HEALTH INSPECTION
SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$903,794,000 for the Animal and Plant Health Inspection Service (APHIS), Salaries and Expenses.

The bill provides \$3,850,000 for animal disease traceability. It includes a minimum of \$360,000 for blackbird management and an increase of \$1,500,000 for the Center for Veterinary Biologics.

There was a recent discovery of citrus black spot. APHIS is encouraged to continue to determine the extent of the infestation and implement the necessary measures to prevent the spread of the disease and to col-

laborate with, and utilize the scientific expertise of universities and ARS, as necessary, to develop methods to control and eradicate the disease.

APHIS is encouraged to support research and assist states and localities in controlling the spread of emerald ash borer.

There are difficulties in effectively addressing the cattle fever tick problem on the southern border of the United States. APHIS is urged to work with the livestock industry, including local businesses, nonprofits, and universities, to incorporate and implement new methods and strategies developed independently and cooperatively as part of the Cattle Fever Tick Eradication Program.

APHIS is encouraged to use an appropriate portion of the funding provided for sudden oak death (*Phytophthora ramorum*) to determine the actual level of infection in nurseries in all regions of the country through rigorous and expanded survey and to promote the development and testing of new

systems of nursery pest and disease management.

Infectious disease outbreaks within the equine community threaten the biological and commercial health of the U.S. horse industry and have occurred with increased frequency over the last several years. APHIS is encouraged to develop a comprehensive plan to respond to equine infectious diseases, including their prevention, diagnosis, and containment.

APHIS shall provide the Committees with a report on the current availability and use of electronic animal health certificates. The report should solicit input from State Veterinarians, animal health practitioners, and livestock producers. In particular, the report should focus on user experiences with the currently available systems and compatibility issues among systems.

In carrying out the provisions of this Act, FDA shall follow the directives provided in Senate Report 111–221 unless otherwise modified by this Act or Explanatory Statement. Reports requested in Senate Report 111–221 or this Explanatory Statement are due 90 days after the enactment of this Act unless a specific due date is provided. FDA is directed to provide all reports and studies to the Committees on Appropriations of the House of Representatives and the Senate (hereafter referred to as “the Committees”) in both an electronic and hard copy format.

The bill provides the following increases in budget authority for FDA salaries and expenses activities, as requested in the budget: \$10,896,000 for cost of living adjustments; \$83,000,000 for food safety investments; \$43,323,000 for investments relating to safer drugs, biologics, and medical devices; and \$25,000,000 for regulatory science.

The bill provides the following increases above the request: \$14,083,000 for food safety activities; \$2,000,000 for orphan product development grants; \$1,000,000 for the Office of the Associate Director for Rare Diseases; \$7,500,000 for generic drug review activities; \$3,000,000 for the review of direct-to-consumer advertising in the Division of Drug Marketing and Communication (DDMAC); \$2,000,000 for the review of communications to medical professionals in DDMAC; \$4,000,000 for the Office of Surveillance and Epidemiology for post-market activities; \$1,850,000 for the review of adverse drug experience reports in the Center for Veterinary Medicine; and \$2,000,000 for the National Antimicrobial Resistance Monitoring System.

Funds provided in addition to the budget request for food safety will allow FDA to access additional information on foreign food exports and take other actions to ensure that foods imported into the United States are safe. Increased funding is provided for food safety inspections to increase the number of inspectors and enhance the ability of inspectors to review imports at the border. It will also allow FDA to perform additional work to ensure that animal feed and feed ingredients imported into the United States meet FDA safety standards.

In Senate Report 109–266, concerns were raised about FDA’s inability to provide Congressional reports in a timely manner. After implementing changes that temporarily

remedied this situation, recent Congressional directives have either been responded to late, or not responded to at all. This is unacceptable. In the fiscal year 2010 bill, FDA was asked to report on eight issues. The due date for all of these reports has long since passed, and more than one year after the enactment of the fiscal year 2010 bill, FDA has provided only four of the requested reports. FDA is again reminded that reports to Congress play an important role in the decision making process. Not more than 15 days after the enactment of this Act, FDA is directed to report on the status of all reports requested in Appropriations Acts for fiscal years 2009, 2010, and 2011. The report shall include the following information: report topic; the House, Senate, or conference report from which the report is requested; the due date for the report; the date the report was submitted to the Congress; and for those reports that have not been submitted to Congress, the expected submission date and an update on where the report is in the drafting and clearance process. Following the initial report, FDA is directed to provide updated reports on the first of each month.

The Secretary of Health and Human Services (HHS) should continue to work with the Secretary of Commerce in support of the current Memorandum of Understanding between the National Oceanic and Atmospheric Administration (NOAA) and FDA to strengthen cooperation on seafood safety, labeling and fraud. Agreements should focus on coordination of testing seafood imports, inspection of imported seafood at both domestic and international facilities, data standardization and collection, joint training and outreach for testing facilities, and information sharing. An increase is encouraged in the use of NOAA laboratory testing and the commissioning of NOAA officers by the Secretary of HHS, as needed, in order to increase capacity for seafood inspection and testing. Sharing of information with the Federal Trade Commission is also encouraged as appropriate on consumer protection issues with respect to fraud in seafood marketing and labeling.

While there is strong leadership in place at FDA, concerns have been raised about the existing structure at the agency, especially as it pertains to the safety of prescription drugs, and the perceived imbalance that exists within FDA between the Office of New Drugs and the Office of Surveillance and Epidemiology. There is significant concern that this structure is biased because those who initially approve drugs also have a large role in determining how they are regulated for safety in post-marketing. This could create a conflict of interest.

Therefore, FDA is directed to issue a report by March 31, 2011 that would outline the process necessary to create an independent office within FDA focused on post-market evaluation that would work collaboratively with the office that reviews and approves drugs for marketing. FDA is also strongly urged to study legislative proposals that have been introduced to create a new Center for Postmarket Drug Evaluation and Research at FDA as part of the report.

FDA is directed to issue a sunscreen final rule that addresses both ultraviolet B (UVB) and ultraviolet A (UVA) radiation protection no later than 60 days after enactment.

FDA is urged to more proactively engage public health and consumer nonprofit organizations that are not funded by regulated industries, to encourage their greater input and written evaluations on PDUFA, MDUFMA, Sentinel Projects, Critical Path, the public availability of post-market research findings, and other key issues regarding medical products.

The total new budget (obligational) authority for fiscal year 2011 provided in the bill, with comparisons to the fiscal year 2010 amount and the 2011 budget estimate follows:

DIVISION B—COMMERCE, JUSTICE,
SCIENCE, AND RELATED AGENCIES AP-
PROPRIATIONS ACT, 2011

Following is an explanation of the effects of Division B, which makes appropriations for the Departments of Commerce and Justice, the National Aeronautics and Space Administration, the National Science Foundation, and related agencies for fiscal year 2011. As provide in Section 4 of the consolidated bill, this explanatory statement shall have the same effect with respect to the allocation of funds and the implementation of this division as if it were a joint explanatory statement of a committee of conference. Direction contained in Senate report 111-129, unless otherwise addressed in this statement, shall also provide legislative intent on the appropriations contained in division B of this Act. Funding levels for appropriations by account, and comparisons to fiscal year 2010 levels and the budget request, can be found in the table at the end of this division.

The Departments of Commerce and Justice, the National Aeronautics and Space Administration and the National Science Foundation are directed to submit spending plans, signed by the respective department or agency head, for review by the Committees on

Appropriations within 60 days of enactment of this Act. In addition, each department and agency funded herein shall follow the directions set forth in this Act and in this statement, and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to funds provided in this Act, unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2011, and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2011.

TITLE I
DEPARTMENT OF COMMERCE
INTERNATIONAL TRADE ADMINISTRATION
OPERATIONS AND ADMINISTRATION

The bill includes \$514,204,000 in total resources for the programs of the International Trade Administration (ITA), which includes \$9,439,000 in offsetting collections.

China anti-dumping and countervailing duty activities.—The agency is encouraged to allocate additional resources above the request to the activities of both these offices; is directed to fully staff anti-dumping efforts, and notify the Committees on Appropriations of any impediments to hiring or retaining staff with the required expertise.

National Export Initiative (NEI) and trade compliance and enforcement.—The bill includes funding to support a comprehensive export strategy. However, ITA and the Department are expected to focus just as aggressively on unfair imports and reducing

foreign subsidy programs as they do in trying to overcome unfair trade barriers to U.S. exports. ITA is directed to provide a spend plan for the NEI within 60 days of enactment of this Act to the Committees on Appropriations, and to provide quarterly reports on the implementation of this strategy.

U.S. Foreign Commercial Service (FCS).—The Department is directed to increase FCS's role overseas. However, the Department is cautioned to better plan for how ITA will reasonably grow the FCS and incorporate an influx of new personnel. ITA is directed to provide the Committees on Appropriations with a report within 60 days of enactment of this Act that will include a detailed workforce plan and refined cost estimates, as well as a specific management plan as to how the agencies will manage FCS's financial and workforce resources.

Travel expenditures.—The Department is expected to continue to submit quarterly reports regarding ITA's travel expenditures, including separate breakouts of funding, the number of trips and the purposes of travel.

Human rights training.—The agency is directed to provide human rights training for foreign commercial service officers and foreign national employees within the requested funding level.

The bill provides \$3,400,000 for congressionally-designated projects. ITA is directed to refrain from charging administrative costs and is expected to provide appropriate management and oversight of each grant.

BUREAU OF INDUSTRY AND SECURITY
OPERATIONS AND ADMINISTRATION

The bill includes \$109,975,000 for the Bureau of Industry and Security (BIS).

Export controls.—The publication of patent applications for national security and dual-use technologies defeats the purpose of the Nation's export control laws. During the multi-agency effort to reform these laws, the Administration is urged to consider whether all such applications should be restricted automatically from publication, and whether the U.S. Patent and Trademark Office needs additional legislative authority to restrict such publication. BIS is directed to report to the Committees on Appropriations on this effort within 90 days of enactment of this Act.

ECONOMIC DEVELOPMENT ADMINISTRATION

The bill includes \$317,181,000 for the programs and administrative expenses of the EDA. The total recommendation for EDA consists of the amounts appropriated in the following two accounts.

ECONOMIC DEVELOPMENT ADMINISTRATION
PROGRAMS

The bill includes \$277,000,000 for Economic Development Assistance programs. Funds are to be distributed as follows; any deviation of funds shall be subject to the procedures set forth in section 505 of this Act:

Public works	\$160,000,000
Global climate change mitigation initiative	(25,000,000)
Planning	34,800,000
Technical assistance	12,700,000
Research and evaluation ...	1,500,000
Trade adjustment assistance	18,000,000
Economic adjustment assistance	50,000,000

Public works (PW).—PW funds are critical to economic development within local communities and industries and should not be reduced as proposed.

Planning.—The agency is directed to allocate this funding to the existing network of Economic Development Districts (EDDs), consistent with previous years' direction.

Technical assistance.—The bill includes an increase of \$400,000 to continue the competition of two additional university centers each year, with the goal of ensuring that each State has at least one center. EDA is encouraged to develop a plan to restore funding to historic levels, extend the three-year review process to five years, and re-establish the peer review mechanism for evaluating university centers. EDA is also directed to commission an independent study to evaluate the performance of the university center program to assist in the redesign.

Trade adjustment assistance (TAA).—The bill includes an increase of \$2,200,000 over fiscal year 2010 as a result of the inclusion of service firms. EDA is directed to continue to provide quarterly reports on the number of firms assisted, how that assistance is quantified, and the value each center adds to the TAA process. Collection of performance data is required to warrant increased funding.

Economic adjustment assistance (EAA).—EDA grantees have testified to the need for EAA grants but maintain that PW projects are the mainstay of economic development for their communities. The proposed shift of funds from PW to the EAA account would result in a net reduction in the number of PW projects funded. Therefore, the level of PW funding is maintained while EAA funding levels have been increased. EDA is encouraged to request significant additional funding for both programs in fiscal year 2012 and beyond. Regional innovation clusters and business incubators, within the parameters of EDA's report of May 25, 2010, are sup-

ported within funding provided; EDA is encouraged to facilitate a system of consultation and referral among service providers. EDA is directed to provide quarterly reports on progress and funding awards for both initiatives, and expects proven performance. EDA is also encouraged to increase the number of revolving loan funds awarded and re-capitalized for worthy applicants. These funds are critical to communities that lack access to credit, particularly during economic downturns when many banks refuse to lend even to credit-worthy clients that have successfully borrowed in the past.

SALARIES AND EXPENSES

The bill includes \$40,181,000 for EDA's salaries and expenses. EDA is directed to fill vacancies in regional offices prior to those in headquarters, and to continue to increase the number of Economic Development Representatives in those areas where the territory to be covered presents geographical challenges to serving all communities in a timely and consistent manner. EDA is also encouraged to increase staff support for exceptionally large geographic areas.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The bill includes \$32,316,000 for the Minority Business Development Agency (MBDA). The agency is urged to request sufficient funds in fiscal year 2012 and beyond to increase the annual funding levels for each of its Minority and Native American Business Enterprise Centers to at least \$300,000.

Office of Native American Business Development (ONABD).—The bill includes not less than \$1,000,000 for the ONABD, as requested, and the ONABD is directed to utilize the assistance of the Native American Business Enterprise Centers to help fulfill its obligations.

Technical assistance.—The agency is directed to provide a report to the Committees on Appropriations by March 1, 2011, on the centers that offer technical assistance in more than one language, specifying the type of assistance each center offers, in which languages, and the disaggregated data on minority firms served.

Multilingual staff.—To the extent feasible, MBDA is directed to increase the multilingual staff at headquarters and at MBDA centers, particularly in those geographic service areas that have significant populations with limited English proficiency as defined by the most recent Census data.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

The bill includes \$110,000,000 for Economic and Statistical Analysis. The proposed new measurements will help Federal, State, and local governments shape better policies to spur job creation and assist in long-term planning decisions.

BUREAU OF THE CENSUS

The bill includes a total operating level of \$1,235,423,000 for the Bureau of the Census.

SALARIES AND EXPENSES

The bill includes \$271,364,000 for the salaries and expenses of Census, which includes \$5,000,000, as requested, to allow Census to work in coordination with the Bureau of Labor Statistics to supplement the official poverty measures with annual measures from the Current Population Survey.

PERIODIC CENSUSES AND PROGRAMS

The bill includes a total of \$964,059,000 for all periodic censuses and related programs and includes funding for the requested initiatives, albeit at a reduced level. Census may use up to \$255,600 for additional acquisition workforce capacity and capabilities, as requested, from available funds.

American Community Survey (ACS).—More than 180 Federal assistance programs rely on ACS data to distribute \$416 billion annually. The fiscal year 2011 request proposes to begin to increase the sample size to 3.5 million housing units annually. However, GAO has expressed concerns with the current staffing plan. Census shall provide more detailed and transparent staffing documentation to the Committees on Appropriations within 60 days of enactment of this Act.

Data processing systems.—The bill includes funding to strengthen information security capabilities, meet increasingly demanding security requirements, and proactively protect data resources.

Monthly status reports.—Census is directed to continue its dashboard monthly status reports as it transitions into preparations for the 2020 decennial.

Inspector general (IG) recommendations.—Census is directed to incorporate all IG recommendations as it transitions into the 2020 decennial, including a thorough review of the training process; better communication of Census' various enumeration practices; and increased budget transparency.

Other languages.—Census is encouraged to create language assistance guides for the ACS, and is directed to continue to provide updates on a semi-annual basis on its language assistance program.

Data on small population groups.—Census' efforts to collect and make available data from the ACS and the decennial on small population groups and national origins subgroups continues to be of great importance for policymakers, as the needs among various populations vary significantly.

Offshore U.S. jurisdictions.—Census is urged to ensure that future statistics incorporate data on all U.S. citizens, including those in Puerto Rico and other offshore jurisdictions.

Best practices.—Census is urged to develop and share its best practices and methods for outreach to hard-to-count communities with Federal agencies and State and local governments.

NATIONAL TELECOMMUNICATIONS AND

INFORMATION ADMINISTRATION

SALARIES AND EXPENSES

The bill includes \$41,568,000 for the salaries and expenses of the NTIA. The agency is directed to provide quarterly reports on grant activities.

Minority Serving Institution (MSI) Digital and Wireless Technology Opportunity Program.—Within 60 days of enactment of this Act, the Secretary of Commerce is directed to submit to the Committees on Appropriations a report describing the Department's plans to support and assist MSIs in improving their instrumentation, connectivity, hardware and software for instructional and research purposes as contemplated by the Stevenson-Wydler Technology Innovation Act of 1980, and is urged to include a request for this program in fiscal year 2012.

Reverse auctions.—GAO is directed to provide a report to the Committees on Appropriations by May 1, 2011, on the feasibility of using reverse auctions to distribute any future broadband subsidies through commercially available, online procurement tools, including best practices, rigorous evaluation techniques, and recommendations to ensure compliance and accountability for auction winners.

PUBLIC TELECOMMUNICATIONS FACILITIES,

PLANNING AND CONSTRUCTION

The bill includes \$20,000,000 for Public Telecommunications Facilities, Planning and Construction (PTFPC). The Administration once again proposed to eliminate the PTFPC program, despite its own report that delineates the need for PTFPC. Both the Corporation for Public Broadcasting (CPB) and

PTFFC work closely to ensure that they are not funding the same projects. Each agency has a separate sphere of responsibility and the programs differ in their respective eligibility requirements and in the scope of the projects that each fund. PTFFC funds only planning and construction projects through a competitive process. CPB's community service grant program does not fund planning or construction projects. In addition, PTFFC funding is essential to providing radio and television services to the print-handicapped and individuals served by small or low-power stations and stations faced with a catastrophic loss of service, and new stations seeking to serve communities in remote or rural areas.

UNITED STATES PATENT AND TRADEMARK
OFFICE

SALARIES AND EXPENSES
(INCLUDING TRANSFER OF FUNDS)

The bill includes \$2,262,000,000 for the United States Patent and Trademark Office (USPTO), including \$2,090,000,000 under the current fee structure, and an additional \$172,000,000 to be generated by a surcharge on patent fees, as provided in this bill.

Projected fee collections.—The misperception by some USPTO stakeholders that fees collected by the agency and not appropriated for a particular fiscal year are “diverted” to fund other agencies in the bill is an entirely inaccurate description. But USPTO's inability to provide accurate projections of its fee collections has had the effect of diverting funding from other agencies and critical priorities in the bill when the agency has overestimated the fees it will collect. To the extent that an estimate may be significantly more or less than actual fee collections, it is the failure of USPTO's own estimation technique that causes the problem. In fact, Congress has appropriated USPTO's full fee collection estimates for many years, and any fees collected by USPTO but not appropriated for a particular fiscal year are credited to the agency and remain available for appropriation at a later date.

Neither are all of the Federal costs of patents borne by stakeholders through fee payments. Patent-related litigation activities by the Department of Justice and the Federal Judiciary are a benefit to patent holders and are financed outside of the patent fee system, at great expense to the American taxpayer. These are just two examples. If the stakeholders continue to insist on full access to fee collections, those fees should arguably include an accounting of all the costs of Federal agencies for patent activities.

Some USPTO stakeholders are reportedly encouraging the elimination of the role of the Appropriations Committees in any decisions related to the annual budget of USPTO. However, pendency and backlog issues are not fundamentally the result of a lack of funds, but of a lack of management. Stakeholders would be better served by continued oversight and improved budget formulation, execution, and management than by advocating for an agency with no annual budgeting oversight by Congress.

Operating reserve fund.—USPTO is directed to provide a plan for the proposed operating reserve fund, including limitations on spending, within 60 days of enactment of this Act, to the Committees on Appropriations.

Provision of fee collection projections.—USPTO is directed to continue to provide quarterly reports on its projected fee collec-

tions and to notify the Committees on Appropriations during any month when significant changes in such projections prompt serious concern or require significant budgetary responses.

Justification improvements.—USPTO's efforts to provide a requirements-based budget for fiscal year 2011 are acknowledged. However, the text needs to make the argument for the funding requested and serve as resource materials for Congressional use, and the justification shall be subjected to Department of Commerce (DOC) oversight and editing. USPTO is directed to work with DOC, as well as the Committees on Appropriations, to ensure the fiscal year 2012 budget request is appropriately formatted.

Reprogramming and spend plan.—USPTO is required to follow the reprogramming procedures outlined in section 505 of this Act before using excess fee collections to forward fund expenses beyond fiscal year 2011. Any deviations from the funding distribution provided for in this Act, including carryover balances, are subject to the standard reprogramming procedures set forth in section 505 of this Act. USPTO is directed to provide a spend plan for fiscal year 2011, within 60 days of enactment of this Act, incorporating all carryover balances from previous fiscal years, and describing any changes to the patent or trademark fee structure. Any changes from the spend plan shall also be subject to section 505 of this Act.

Backlog of patent applications.—GAO has found that the hiring of additional patent examiners is not sufficient to address the backlog of patent examinations. Too often, patent examiners, extensively trained at great expense to the agency, have become private sector patent attorneys after only a short tenure with the agency. USPTO has identified alternative methods to meet backlog reduction goals and is directed to provide a report to the Committees on Appropriations on its progress with this and other backlog reduction strategies within 90 days of enactment of this Act.

Economic security.—In some circumstances, the time between the statute-mandated publishing of patent applications and the award of a patent allows competitors market advantage. This risks U.S. economic security and inventors' intellectual property rights. USPTO is directed to study its patent publishing process and consider the alternative of publishing only the patent abstract instead of the entire application, and report to the Committees on Appropriations on this effort within 90 days of enactment of this Act.

Small business international patent protection.—DOC is directed to work with USPTO and ITA to provide the Committees on Appropriations with a report, within 90 days of enactment of this Act, on how best to help small businesses with international patent protection, including, if a fund is a reasonable option, the initial level of appropriations; management recommendations; eligible applicants and selection criteria; and ways to ensure the fund becomes financially self-sufficient.

NATIONAL INSTITUTE OF STANDARDS AND
TECHNOLOGY

The bill includes \$877,700,000 for the National Institute of Standards and Technology (NIST).

SCIENTIFIC AND TECHNICAL RESEARCH AND
SERVICES

The bill includes \$541,246,000 for NIST's scientific and technical core programs.

Cybersecurity.—The bill provides \$10,000,000 for the Director to establish and operate a National Cybersecurity Center of Excellence (NCCOE) in addition to NIST's ongoing cybersecurity activities, of which \$6,650,000 should be for internal NIST requirements to staff and scale up the center, and \$3,350,000 shall be allocated on a merit-based competitive basis for activities with relevant non-Federal entities.

Molecular genetic assays.—Molecular genetic assays provide the cutting edge for many individualized therapies in oncology, transplantation, infectious disease and genetics, but the production of certified reference materials has fallen behind the technical capabilities of these assays. NIST is urged to develop certified reference materials for tests that are urgently needed to improve patient care and safety, including cytomegalovirus, BCR/ABL mutation, KRAS mutation, EGFR mutation, BK virus, and Epstein Barr virus.

NIST is directed to begin a national scale greenhouse gas (GHG) observation testbed to examine data from existing and emerging national GHG networks to verify measurement efficacy and integration into inverse climate models, in order to provide the foundation for independent measuring, reporting and verification activities.

The bill provides \$5,275,000 for congressionally-designated projects. NIST is directed to refrain from charging administrative costs and is expected to provide appropriate management and oversight of each grant.

INDUSTRIAL TECHNOLOGY SERVICES

The bill includes \$204,454,000 for Industrial Technology Services (ITS). Of this amount, \$124,700,000 is provided for the Manufacturing Extension Partnerships, including full support for the National Innovation Marketplace; \$69,900,000 is provided for the Technology Innovation Program to continue existing awards; and \$9,854,000 is provided for the Baldrige Performance Excellence Program, as requested. During fiscal year 2010, the former Baldrige National Quality Program was renamed and moved to ITS to consolidate NIST's non-laboratory extramural programs.

CONSTRUCTION OF RESEARCH FACILITIES

The bill includes \$132,000,000 for NIST construction. The bill provides funding for the agency's highest priorities, including completion of the JILA expansion. NIST is directed to provide quarterly reports on the status of all construction projects to the Committees on Appropriations.

Competitive construction grants.—Within funds provided, \$20,000,000 is included for competitive construction grants for research science buildings in fiscal year 2011. The program continues to attract significant numbers of applicants, leverages additional public and private funding, provides jobs, and improves science research in the Nation. The Administration is expected to include this program in future requests.

The bill provides \$50,000,000 for congressionally-designated projects. NIST is directed to refrain from charging administrative costs and is expected to provide appropriate management and oversight of each grant.

NATIONAL OCEANIC AND ATMOSPHERIC
ADMINISTRATION

The bill includes a total of \$5,551,928,000 in discretionary appropriations for the National Oceanic and Atmospheric Administration (NOAA). Within the amount provided, NOAA is directed to fund the congressionally-designated activities in the amounts identified in the table at the end of this account. NOAA is directed to refrain from charging administrative costs to these grants and is expected to provide appropriate management and oversight of each grant.

OPERATIONS, RESEARCH, AND FACILITIES
(INCLUDING TRANSFERS OF FUNDS)

The bill includes a total program level of \$3,478,460,000 under this account for the coastal, fisheries, marine, weather, satellite and other programs of NOAA.

NATIONAL OCEAN SERVICE (NOS)

Mapping and charting.—The bill includes \$51,350,000 for mapping and charting, of which \$1,500,000 is for the development and demonstration of unmanned surface vehicles for hydrographic survey operations.

Integrated Ocean Observing System (IOOS).—The bill provides \$33,000,000 for the IOOS regional observations, of which \$6,000,000 is for program administration; \$24,000,000 is for a competitive, regional ocean observing systems solicitation; and \$3,000,000 is to continue to establish a consortium for testing and advancing new sensor technologies. Proposals for continuation of existing multi-regional extramural test beds shall be considered and evaluated concurrently and equally as part of the regional ocean observing systems solicitation.

Coral reef programs.—The bill includes a total of \$32,706,000 for coral reef research and operations, including \$27,000,000 in NOS; \$2,506,000 for deep sea corals in the National Marine Fisheries Service; \$2,000,000 in Oceanic and Atmospheric Research, and \$1,200,000 in congressionally-directed projects.

Response and restoration.—The bill includes \$29,418,000 for response and restoration, of which \$2,900,000 is for initial operations of the Gulf of Mexico Disaster Response Center (DRC). NOAA is expected to appropriately staff and fund the DRC in out-years to achieve operational capacity as the gulf coast hub for NOAA's emergency preparedness, response, and recovery operations. The duration of the Deepwater Horizon spill has revealed that ORR staff is overextended. While the costs of NOAA's response and restoration efforts should ultimately be reimbursed by the party or parties responsible, it is imperative that NOAA have appropriate levels of funding available to conduct efforts as needed. NOAA is directed to provide the Committees on Appropriations with a long-term budget plan that reflects an updated and more realistic core staffing and resource profile based on lessons learned.

Oil spill research.—The budget materials for fiscal year 2012 shall include and justify a unified and coordinated Federal approach for oil spill research that includes the Department of the Interior, the Department of Energy, the National Oceanic and Atmospheric Administration and the Coast Guard.

Competitive external research.—The bill includes \$16,000,000 for competitive external ocean science research, including harmful algal blooms, hypoxia and regional ecosystems.

Coastal zone management grants.—The bill includes \$68,146,000 for coastal zone management grants and NOAA is directed to use a portion of the increases provided for efforts to modernize and improve state information systems to assess, track and manage permitting and land-use tracking procedures.

National Estuarine Research Reserve System (NERRS).—The bill includes \$1,174,000 above the request for NERRS operations.

Marine sanctuary program.—The bill includes \$49,500,000 for the marine sanctuary program, of which \$2,000,000 is for the purchase and installation of integrated vessel electronics for the Marine Sanctuary small boats program.

NATIONAL MARINE FISHERIES SERVICE (NMFS)

National catch share program.—The bill includes \$49,500,000 for the national catch share program. This fully funds the implementation and operation of planned and existing catch share programs, and includes \$6,002,000 for cooperative research specific to catch share programs. Ensuring sustainable fisheries ensures jobs—from harvesters to processors to retailers—and ensures the profitability of coastal communities, which depend upon those jobs. Over time, improved fisheries will increase tax revenue, as well as ensure a reliable and sustainable food source for the Nation. Catch shares are designed to end overfishing and return a fishery to sustainable levels, in part by providing fishermen with the tools to ensure that they can sell the fish they catch, rather than throw excess back into the ocean, which frequently kills the fish. Over time, catch shares improve the overall economic performance of the fishery, because as overfishing ends and the stock rebounds, the catch allowed increases, which is of increasing value to the fishermen.

The Committees on Appropriations recognize the importance of the commercial and recreational fishing industries and are sensitive to the objections raised by some fishermen to the concept of catch shares. The Committees share the concerns of these fishermen about the consolidation of the industry, declining catches, and the challenge of complying with regulations imposed by the Magnuson-Stevens Reauthorization Act (MSRA). However, the Committees note that catch shares are not the driving force behind consolidation or declining catches. Instead, they are a tool that may be adopted by each regional council if such council determines that a fishery would benefit from their use; catch shares are not NOAA-mandated. Catch shares are intended to provide fishermen with more business flexibility in responding to the MSRA regulations, allowing fishermen to consider market and weather conditions in deciding when to fish, thus increasing the price per pound and improving safety at sea.

Catch shares are also less amenable to long-term consolidation, because a specific portion of the total allowable fishery catch is allocated to individuals, cooperatives, communities, or other entities, including sectors. Nevertheless, NOAA is directed to provide a report to the Committees on Appropriations, within 120 days of enactment of this Act, detailing the steps being taken, either by the agency or by the regional councils, to address excessive consolidation.

Recreational fisheries.—Recreational fishing is economically and culturally valuable to our Nation. The Secretary is directed to issue guidance to councils to consider biological, social and economic impacts as criteria in determining the initial distribution of catch shares among sectors in multi-sector fisheries, and to consider transferability of catch share privileges between commercial and recreational sectors. In addition, the Secretary is encouraged to ensure that composition of the individual regional councils is sensitive to the statutory requirements of equity and fairness with respect to the balance between commercial and recreational fishermen.

Fishery-independent surveys.—The closure of fisheries due to the Deepwater Horizon oil

spill has eliminated landing data from both commercial and recreational fisheries sectors, and combined with the lack of fishery-independent survey information, the result is that the assessment of the immediate impact of the oil spill on Gulf fisheries stocks, as well as the ability to predict long-term impacts, is impeded. NOAA is encouraged to fully implement a fishery-independent data collection strategy, and is directed to provide a report to the Committees on Appropriations on implementation of such a strategy within 90 days of enactment of this Act.

Salmon management activities.—The bill includes \$49,729,000 for salmon management activities, of which no less than \$23,729,000 is directed for Pacific Salmon Treaty activities, an increase of \$4,611,000 above the request. In addition, an increase of \$9,500,000 is provided above the request to allow hatcheries to be reformed according to the recommendations of the Hatchery Scientific Review Group.

Fisheries enforcement asset forfeiture fund (AFF).—The Inspector General's (IG) investigation into the AFF, established to use revenues from fisheries fines and penalties to pay for enforcement activities, revealed a serious lack of budgetary oversight by NOAA. The independent forensic review of this fund revealed the revenues have been co-mingled with other funds, resulting in a lack of visibility over the entire fund by any one organization in NOAA or DOC or any one responsible and accountable individual; and that many transactions had no supporting documentation, were missing approvals, and may ultimately be found to be improper expenditures from the fund. Moreover, at any given time, it is unclear how much is available in the fund, though it should be, at all times, strictly accounted for and included as offsetting funds for any appropriations request. In addition, the fishing industry has made claims, particularly in the Northeast region, that NOAA's fines are excessive, constituting a form of bounty, because NOAA is able to retain the proceeds from its enforcement cases. NOAA is directed to: (1) define what appropriate expenses may be charged against the asset forfeiture fund and develop guidance accordingly; (2) conduct an annual audit of the fund which will be commissioned by the IG for which expenses shall be paid from the fund account; (3) post results of the annual audit of the fund to NOAA's website in a prominent and conspicuous place; (4) generate and implement an audit action plan incorporating all the IG's recommendations; (5) utilize the science available to set priorities and focus enforcement on those priorities; and (6) provide a spend plan, containing all these elements, to the Committees on Appropriations. The bill includes \$60,000,000 for enforcement, and essentially freezes the AFF until NOAA receives approval from the Committees on the AFF spend plan.

Ombudsman.—Given the overall results of the IG reviews; persistent complaints about the complexity of the regulations; and the fact that the penalty assessment and defense process can put members of the fishing industry—predominantly small business owners—out of business without recourse, NOAA is directed to consider establishing an ombudsman position for the fishing community that reports independently to the Under Secretary. Additionally, or as an alternative to an ombudsman, NOAA is directed, within its enforcement program, to establish an independent office empowered to advocate or advise the regulated community on violation avoidance, compliance assistance, and defense and settlement advocacy.

Observers.—The bill includes a total of \$5,000,000 for the Longline Observer program.

Community-based restoration program (CRP) grants.—The bill includes \$28,967,000 for fisheries habitat restoration, the same as the request. NOAA's goal of implementing larger-scale ecological restoration and the enormous backlog of coastal habitat restoration projects is acknowledged, and future budget requests are expected to provide appropriate funding levels for such efforts. However, the multitude of important ecosystem benefits of small- to mid-scale habitat restoration projects that involve local communities and contribute to larger-scale regional conservation or restoration plans are critical. NOAA is expected to maintain the small- to mid-scale project focus of the CRP that continues to provide broad ecosystem benefits; involving community oriented organizations and their communities and citizens at the local level has been essential to CRP's highly successful on-the-ground restoration efforts.

Antarctic research.—The fiscal year 2010 Antarctic field research season was significantly affected by the lack of an appropriate vessel and unexpected weather patterns, reducing the number of samples below minimum levels in an effort to ensure the safety of the crew and research teams. However, maintaining the long-term database is critical to assuring validity with respect to assessing the impacts of climate change. NOAA is directed to ensure that funding levels are sufficient to provide an appropriate and safe vessel, regardless of weather conditions, and that research is conducted as required to maintain continuity of the data.

Cooperative research.—Cooperative research provides an effective means for fishermen to become involved in the collection of fundamental fisheries information, and given the challenging economic and regulatory conditions facing fishermen, the bill provides \$11,600,000, which is \$4,500,000 above the request, and is in addition to the \$6,002,000 included in the catch share program.

Regional studies.—NOAA's Chesapeake Bay Office is directed to collaborate with the States of Maryland and Virginia to advance multiple species management. NOAA shall continue to utilize Sea Grant programs from both States and the National Centers for Coastal Ocean Science, particularly the Cooperative Oxford Laboratory (COL), on oyster restoration and spatial planning science and management goals. NOAA is directed to provide the Committees on Appropriations with a report within 60 days of enactment of this Act, detailing a clear strategic partnership between NOAA's Chesapeake Bay Laboratory and COL, including collaborative breakouts on personnel, resources, and costs.

OCEANIC AND ATMOSPHERIC RESEARCH (OAR)

Climate research.—The bill includes \$163,159,000 for the competitive research program; out of the increase provided \$2,200,000 is for continued chemical climate research important to climate modeling; \$1,400,000 is for atmospheric chemistry to avoid losing a key sampling component; and \$1,000,000 is provided for replacement of equipment and facilities damaged by the tsunamis triggered by the earthquake that occurred in September 2009. NOAA is encouraged to reestablish this important research station as quickly as possible and is directed to provide a report to the Committees on Appropriations, within 90 days of enactment of this Act, on its plans to do so.

Urban greenhouse gas measurements.—NOAA is directed to report to the Committees on Appropriations on the status of urban greenhouse gas measurement within 120 days of enactment of this Act. The report should include whether there is a need to ensure accurate monitoring of greenhouse gases in the urban environment and an opportunity to partner with institutions of higher learning;

as well as the feasibility of deploying a network of portable, highly-accurate, low-maintenance analyzers that meet the highest international standards in multiple, geographically-diverse cities.

Laboratories and cooperative institutes.—The Committees on Appropriations are aware that NOAA is underfunding cooperative institutes and creating partnerships with the external community under false financial pretenses. An increase is provided to help bridge this gap, including \$2,000,000 in competitive funding above the ocean, coastal, and Great Lakes laboratories and cooperative institutes request for external coral reef institutes. The Administration is expected to fully fund cooperative institutes and laboratories at appropriate levels in future years.

Weather and air quality research.—The bill includes \$650,000 for laboratories and cooperative institutes for instrumentation and operation of state of the art monitoring of nutrients and mercury speciation measurement stations and laboratories.

National Sea Grant College program.—The bill includes \$63,000,000, of which \$4,500,000 is for marine aquaculture research and \$2,000,000 is for aquatic invasive species research; both shall be coordinated by NOAA's Sea Grant office.

NATIONAL WEATHER SERVICE (NWS)

Space weather.—The importance of solar flare predictions in space weather forecasting is recognized, and NOAA is encouraged to further develop research efforts to improve the statistical certainty of solar flare predictions.

National Mesonet program.—The bill includes \$25,400,000 for continuation and expansion of the National Mesonet program, including: (1) \$13,400,000 to maintain data procurements from existing surface in-situ observations including those initiated during the initial phases of the program, as well as those added in recent years; (2) \$4,000,000 for expansion of surface in-situ observations in all areas of the country including urban and non-urban rural, coastal and mountainous regions for purposes of weather and climate monitoring; (3) \$2,000,000 for establishment of a National Mesonet Test Bed project to demonstrate the integration of multifunctional observing systems including both surface in-situ and remote sensing profilers for improved forecasts and benefits to top priority segments of the economy including renewable energy growth and aviation efficiencies; (4) \$5,000,000 for the continued development and expansion of the Mobile Platform Environment (MoPED) System into full capability to ensure that mobile platform environmental data is available to support efforts of the NWS; (5) \$500,000 for enhancements to the Meteorological Assimilation Data Ingest System (MADIS), including continued evolution of metadata handling and performance capabilities, contingent upon submission of a plan that shows a multi-year justification for why MADIS expansion is preferable to competitive procurement of tools developed by the private sector for the same purpose; and (6) \$500,000 for the National Mesonet program office for oversight and data utilization initiatives. NOAA is expected to include a robust and expanded national mesonet program in its fiscal year 2012 budget request.

NATIONAL ENVIRONMENTAL SATELLITE, DATA AND INFORMATION SERVICE (NESDIS)

Scatterometer.—NOAA is directed, together with NASA which is similarly directed, to continue co-funding joint studies within available funds that should lead to a fiscal year 2012 request to build and fly an operational scatterometer providing sea surface vector wind measurements. The Committees on Appropriations are concerned that such a

request was not included in fiscal year 2011, given the demise of the QuikSCAT. NOAA should aggressively pursue negotiations to secure a flight opportunity for this instrument that is both reliable and timely.

Archive, access, and assessment.—The bill includes \$75,000,000, an increase of \$10,145,000 above fiscal year 2010, to transition climate data records (CDR) to operations; continue additional CDR development; and to close the gap in long-term safe storage of and access to the Nation's environmental data and information.

PROGRAM SUPPORT (PS)

Facilities.—The bill includes \$36,346,000 for NOAA facilities, which includes \$7,000,000 for renovations and modernization of facilities necessary to support weather and climate modeling needs. No funding for the Marine Operations Center—Atlantic facility is provided as its construction has already been financed.

Acquisition workforce capacity and capabilities.—NOAA may use up to \$1,908,414 for additional acquisition workforce capacity and capabilities, as requested, from available funds.

Administrative funding cap.—The Committees on Appropriations are concerned about the lack of transparency and visibility of all administrative costs incurred by NOAA's corporate staff and line offices, including regional and field offices. The Committees are particularly concerned that the non-visible administrative cost components may be increasing more rapidly than the directly visible corporate services appropriation enacted to pay for NOAA corporate administrative costs. For example, NOAA has continued to assess line office programs for a portion of their corporate administrative costs through a "direct billing" process that is not visible to the Committees. Over the past five years, the corporate services appropriation has accounted for a declining share of total NOAA corporate administrative costs, while the "direct billing" share of these costs has increased significantly.

To address these concerns, the bill establishes a cap on all NOAA headquarters (HQ) administrative costs for fiscal year 2011. This new cap limits the amount of ORF and PAC funds that can be used for administrative costs incurred by NOAA's corporate and line office HQ operations. The cap for fiscal year 2011 is \$413,000,000, of which up to \$391,000,000 may be met using ORF funds and up to \$22,000,000 may be met using PAC funds. This \$413,000,000 limitation may be increased up to five percent, with congressional notification of the reasons for any proposed increase at least 15 days in advance of the need. This cap includes the corporate services appropriation within ORF and all NOAA payments to the Department of Commerce for administrative services. No other funds appropriated for NOAA in this Act may be used to pay for NOAA administrative costs. Administrative costs consist of those for the following standard administrative functions: (1) general management and direction, including public affairs and information dissemination activities; (2) legal services; (3) CFO operations including budget, finance, and accounting activities; (4) CIO operations and all IT-related expenses; (5) CAO operations, including facilities and security costs; (6) human resources services, including EEO; and (7) procurement, acquisition and grants management operations.

Although the NOAA line offices also incur administrative costs at the field offices and financial management centers (FMCs) that execute their programs, these costs are not included in the administrative cost cap for two reasons. First, the distinction between administrative and program costs for field

operations is less clear than for line office HQ operations. Second, the current data identifying these field administrative costs appear incomplete and less reliable than HQ data. A cap may be imposed on these costs at a future date.

In addition, NOAA shall provide a report to the Committees on Appropriations within 30 days of enactment of this Act that identifies total NOAA administrative costs for fiscal year 2009 actual, fiscal year 2010 actual, and fiscal year 2011 planned for NOAA corporate staff and each line office, including the Office of Marine and Aircraft Operations. The report shall also identify the administrative costs incurred by these organizational entities, as well as the field offices and FMCs, for the standard administrative functions described above. Similar tables shall be in-

cluded in all subsequent NOAA annual budget justifications provided to Congress.

Education.—The bill includes \$10,000,000 for competitive educational grants, of which \$2,500,000 is to continue the ocean education partnership and \$2,500,000 is to improve geographic literacy in the Nation's schools utilizing NOAA's national network of weather and environmental activities; \$14,000,000 for the educational partnership program with minority serving institutions; a total of \$8,700,000 for BWET regional programs; \$2,000,000 for the GLOBE program in partnership with the National Aeronautics and Space Administration; and \$2,000,000 to ensure an appropriate administrative level. NOAA is directed to request separate funding for each program element in future budget requests, rather than rolling the funding up into one line.

Justification improvement.—NOAA is directed to continue to work with the Committees on Appropriations to reformat the justification into a more transparent, informative and user-friendly document. The Department is similarly directed.

Research and development (R&D) tracking and outcomes.—NOAA is directed to continue to track the division of R&D funds between intramural and extramural research; assure consistency and clarity in the collection and reporting of data; clearly state expected research outcomes and available funding to provide transparency into the competitive grant process; and increase extramural research funding in future requests to build broad community support and leverage external funding for mission-oriented research.

PROCUREMENT, ACQUISITION, AND
CONSTRUCTION
(INCLUDING TRANSFER OF FUNDS)

The bill includes a total program level of \$2,002,219,000 in direct obligations for procurement, acquisition, and construction (PAC). The PAC cap for fiscal year 2011 is \$22,000,000, which may be increased by up to five percent with congressional notification of the reasons for any proposed increase at least 15 days in advance of the need. No other funds appropriated for NOAA in this Act may be used to pay for NOAA administrative costs.

The following narrative descriptions and tables identify the specific activities and funding levels included in this Act:

National Environmental Satellite, Data and Information Service (NESDIS).—NOAA's efforts to move forward with a full-scale radio occultation satellite constellation is supported. However, NOAA is encouraged to explore fully the possibility of buying radio occultation data from private American companies, as a sole or supplemental source for this data. Funding is also provided for DSCVR and replacement of the ACE spacecraft, and NOAA is directed to report to the Committees on Appropriations by February

7, 2011, on the most expeditious and cost effective options for making DSCVR operational and replacing the ACE spacecraft.

Joint polar satellite system (JPSS).—Despite months of encouraging rhetoric about overhauling the highly troubled National Polar-orbiting Operational Environmental Satellite System (NPOESS), the Administration has failed to fully execute plans to restructure the civil portion of this program and migrate its associated contracts over to NOAA and NASA. The Committees on Appropriations remain concerned at the lack of definitive budgeting as well as decisional delays caused by uncertainty over the transition of the legacy program, including possible contract termination costs. It is unconscionable that critical National weather and climate data are held hostage to contract negotiations, not to mention the budgetary impacts and implications. As a result of the lack of clarity, the bill includes \$1,803,609,000 for all of NOAA's satellite programs. The agency is directed to ensure a 2014 launch date of JPSS-1, to minimize the potential gap in civil weather forecasting. NOAA is directed to provide a detailed budget plan no later than 90 days after enactment of this Act, to include funding level options ranging

from less expensive to preferred path. Once NOAA has provided a more refined budget, should the need for reprogramming become evident, the Committees will be receptive to such a request. NOAA is further directed to provide monthly programmatic and procurement status reports.

Inspector General (IG) oversight.—The bill includes a transfer of \$1,000,000 from PAC to the IG for oversight and auditing to ensure that the current satellite programs avoid the cost overruns and enormous administrative overhead associated with NPOESS. Without aggressive oversight and fiscal vigilance, this program has the potential to overwhelm the remainder of NOAA's future budgets. NOAA is directed to incorporate all IG recommendations for the geostationary and polar-orbiting satellite programs.

Comprehensive large array stewardship system (CLASS).—The bill includes \$18,476,000 for CLASS. Of these funds, \$5,500,000 is for maintenance, operations, and implementation of enhancements from development activity, and \$15,976,000 is for contracted development, with project administration and oversight to be at NOAA's National Climatic Data Center.

The Secretary is directed to launch a job repatriation initiative, to include the development of a "best practices" for States and local communities to use to grow their manufacturing base, and the expertise and resources of ITA, EDA, MBDA, and NIST, in coordination with other Federal economic development agencies, such as the Small Business Administration. The Secretary is directed to submit a report to the Committees on Appropriations on the implementation of this initiative 120 days after enactment of this Act.

Justification improvement.—The Department is directed to continue to work to reformat all Department of Commerce (DOC) justifications into more transparent, informative, and user-friendly documents.

TITLE II

DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION
SALARIES AND EXPENSES

The bill provides \$145,565,000 for General Administration, Salaries and Expenses.

Terrorism trials of former Guantanamo Bay detainees.—The bill does not include the Administration's request of \$72,771,000 for the first year costs of criminal trials for some former Guantanamo Bay detainees. This reduction reflects the fact that the Administration's plan for these trials is still undefined.

Office of Legislative Affairs (OLA).—OLA needs to provide the Committees on Appropriations with information proactively and in a timely manner, but this has not been consistent practice over the past two years. OLA is directed to take whatever steps are necessary (including communicating with the White House to end unhelpful and counterproductive information embargoes) to improve the sharing of information with the Congress.

International Organized Crime (IOC).—The bill includes funds for the IOC Intelligence and Operations Center, the Attorney General's Organized Crime Council Program Support Office and IOC increases requested in other bureaus. Resources requested to provide a central fund for IOC case operation costs, however, should continue to be derived from the Attorney General's special projects fund or other available sources. If the IOC initiative is intended to be a permanent fixture that will appear in future requests, the Department of Justice (DOJ) should develop a strategy for funding this program somewhere other than the executive leadership budget.

Cooperation with the Government Accountability Office (GAO).—The Department is directed to develop, in consultation with GAO, a compromise that will allow congressional oversight to proceed as necessary on intelligence-related programs. As part of the negotiation of this compromise solution, DOJ is directed to work more broadly with GAO on improving the quality, quantity and timeliness of DOJ responses to GAO reviews on all subjects, including those that are not directly related to intelligence or national security programs.

Missing and unidentified persons system.—The Department is directed to report to the Committees on Appropriations on how it plans to share information between the National Crime Information Center and online

databases containing information on unidentified decedents and missing persons. This report shall be submitted within 180 days of the enactment of this Act.

Gang enforcement.—The Department should continue to strive for better cooperation among anti-gang entities and greater effectiveness in enhancing and linking gang cases. In addition, the Department shall continue keeping the Committees on Appropriations informed of any planned management and organizational changes regarding anti-gang efforts.

Obscenity enforcement.—The Department shall report to the Committees on Appropriations within 180 days of enactment of this Act on Obscenity Prosecution Task Force staffing and spending levels, as well as on obscenity investigation and prosecution workload statistics and accomplishments, both currently and since the creation of the Task Force in 2005.

Prison rape elimination.—The Department shall publish, as soon as possible, a final rule adopting national standards for eliminating prison rape as mandated by the Prison Rape Elimination Act (PREA) of 2003, and continue efforts to provide assistance in the form of training, technical assistance, and implementation grants to assist State, local, and tribal jurisdictions in achieving compliance with PREA national standards.

Tribal law enforcement.—The Department shall submit a report outlining how a pilot project would be structured to assess the impacts of expanding tribal law enforcement jurisdiction. The report should include a description of: 1) how a pilot tribe would be selected; 2) which categories of crime would be included in the jurisdictional expansion; 3) how tribal capacity issues would be addressed; 4) what statutory changes would be necessary; 5) how constitutional safeguards would be implemented; and 6) how the Department would evaluate the success or failure of the pilot. This report shall be submitted to the Committees on Appropriations no later than 180 days after the enactment of this Act. To the extent additional funding would be required to enhance tribal capacity as part of such a pilot, grant funding through the Department's tribal grant programs shall be available for this purpose in fiscal year 2011 and future years as necessary.

Tribal consultation.—Within 150 days of enactment of this Act, the Attorney General shall provide the Committees on Appropriations with a report on how DOJ will use the tribal consultation process to further streamline and coordinate programs and funding opportunities for Native Americans both within DOJ and with relevant programs of the Department of the Interior.

NATIONAL DRUG INTELLIGENCE CENTER

The bill provides \$44,580,000 for the National Drug Intelligence Center.

JUSTICE INFORMATION SHARING TECHNOLOGY

The bill provides \$124,585,000 for Justice Information Sharing Technology.

Unified Financial Management System (UFMS).—The direct appropriation for UFMS is focused on the ongoing needs of the Project Management Office rather than pre-funding the initiation of any additional new work. The Department should add any further necessary development and deployment costs to the planned fiscal year 2011 UFMS reprogramming. For UFMS activity that is undertaken in fiscal year 2011, the Department is directed to continue submitting quarterly reports to the Committees on Appropriations listing milestones for the year, with budget and schedule estimates for each, and describing progress made against each of those milestones.

Joint Automated Booking System (JABS).—In order to account for a slower rollout schedule for JABS biometric upgrades, the JABS

enhancement request has been reduced by \$3,000,000.

Justice Consolidated Office Network (JCON).—The Department is directed to find program and acquisition efficiencies sufficient to sustain an \$8,000,000 reduction to this line item.

Litigation Case Management System (LCMS).—Since the budget request was submitted, the Department has decided to terminate LCMS due to intractable programmatic and management problems. As a result, the bill has eliminated all LCMS funding from this account. Any closeout costs needed for the program can be covered with funds remaining from the fiscal year 2010 LCMS reprogramming or other available sources.

Cyber security and secure communications.—The bill provides \$32,100,000 for the continued strengthening of DOJ's cyber security and secure communications programs.

LAW ENFORCEMENT WIRELESS COMMUNICATIONS
The bill provides \$207,727,000 for Law Enforcement Wireless Communications.

Integrated Wireless Network (IWN).—The Department is directed to continue submitting quarterly reports to the Committees on Appropriations on planned and actual IWN milestone achievement, including budget and schedule parameters. This year, the quarterly reports should also include a description of the Department's efforts to ensure that components are purchasing equipment that is compliant with Project 25 standards.

ADMINISTRATIVE REVIEW AND APPEALS

This bill provides \$315,420,000 for Administrative Review and Appeals.

Legal Orientation Program (LOP).—The bill provides \$6,200,000 for the LOP, which includes \$2,000,000 for the custodians of unaccompanied alien children program and an increase of \$200,000 to cover the costs of the recent expansion of the LOP. The Executive Office for Immigration Review (EOIR) is directed to dedicate additional funds to LOP, as necessary and available, to ensure that there is no decrease in the level of support for LOP from year to year.

Immigration Court staffing.—EOIR is directed to submit a report to the Committees on Appropriations showing authorized Immigration Judge (IJ) staffing, start of year on-board levels, anticipated attrition, planned hiring and expected end of year on-board levels. This report should be provided no later than 120 days after the enactment of this Act and should be supplemented by quarterly updates showing actual data as it is received. When allocating new law clerk positions among IJ teams, EOIR is directed to prioritize the addition of clerk positions to teams where the ratio of judges to clerks exceeds 1:1.

DETENTION TRUSTEE

The bill provides \$1,533,863,000 for the Office of the Federal Detention Trustee (OFDT).

Population estimates.—The Appropriations Committees continue to be concerned with the Department's ability to anticipate the funding needs for this account. In order to improve tracking of the cost drivers for detention space needs, OFDT is directed to continue reporting to the Committees on a quarterly basis the number of individuals in the detention system, the projected number of individuals and the annualized costs associated with them.

OFFICE OF INSPECTOR GENERAL

The bill provides \$88,792,000 for the Office of Inspector General.

UNITED STATES PAROLE COMMISSION SALARIES AND EXPENSES

The bill provides \$13,582,000 for the United States Parole Commission.

Total	969,989,000

Tribal trust litigation.—The Environment and Natural Resources Division's costs for conducting all tribal trust litigation and related activities in fiscal year 2011 will be paid for by the Department of Interior; consequently, these funds were not provided directly through this division.

Human trafficking and slavery.—Within amounts provided for the Civil Rights Division, \$5,300,000 is for the Human Trafficking and Slavery Prosecution Unit.

Human rights crimes.—The Criminal Division is directed to continue increasing efforts to investigate and prosecute serious human rights crimes, including genocide, torture, use or recruitment of child soldiers and war crimes. Within the Criminal Division budget, \$1,800,000 shall be allocated for attorneys, analysts and support personnel to pursue these cases.

Child exploitation.—The bill provides \$1,500,000 above the request to enhance INTERPOL's efforts to establish a dedicated global unit to fight child exploitation. This unit will assist in enforcement requirements outlined in the Adam Walsh Child Protection and Safety Act (the "Adam Walsh Act," or AWA) and other initiatives aimed at combating child sexual exploitation.

VACCINE INJURY COMPENSATION TRUST FUND

The bill provides \$7,833,000 for the Vaccine Injury Compensation Trust Fund.

SALARIES AND EXPENSES, ANTITRUST DIVISION

Human trafficking.—The Executive Office for U.S. Attorneys (EOUSA), in consultation with each U.S. Attorney, is directed to designate a point of contact in each U.S. Attorney Office who shall serve as the coordinator for all activities within that office concerning human trafficking and slavery matters covered by the Trafficking Victims Protection Act. Each office is also urged to convene quarterly working-level meetings, where Federal, State and local law enforcement are represented, focusing specifically on combating human trafficking.

Indian Country programs.—The U.S. Attorneys are directed to spend no less than \$31,965,000 on prosecutions and related activities in Indian Country. EOUSA is directed to closely monitor caseload trends in districts with Indian Country responsibilities and to take actions, as appropriate, to direct additional funds to these districts if needed.

EOUSA is also directed to submit a report describing the status of its pilot tribal community prosecution teams and summarizing their activities and achievements to date. This report shall be submitted to the Committees on Appropriations no later than 150 days after the enactment of this Act.

UNITED STATES TRUSTEE SYSTEM FUND

This report shall be submitted to the Committees on Appropriations no later than 90 days after the enactment of this Act.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The bill provides \$2,159,000 for the Foreign Claims Settlement Commission.

FEES AND EXPENSES OF WITNESSES

The bill provides \$270,000,000 for Fees and Expenses of Witnesses.

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

The bill provides \$12,606,000 for the Community Relations Service (CRS).

Emmett Till Unsolved Civil Rights Crime Act activities.—With funds provided, CRS should continue partnering with law enforcement agencies and communities in conflict resulting from the investigation of unsolved civil rights era cold cases.

ASSETS FORFEITURE FUND

The bill provides \$20,990,000 for the Assets Forfeiture Fund.

UNITED STATES MARSHALS SERVICE SALARIES AND EXPENSES

The bill provides \$1,180,534,000 for the United States Marshals Service (USMS), Salaries and Expenses.

Sex offender apprehension.—Although the Marshals Service has annualized prior year AWA enforcement funding into its base budget, it has consistently failed to request new resources to expand the sex offender apprehension program. In order to provide an infusion of new resources in fiscal year 2011, the bill provides \$10,181,000 for additional AWA-related activities and the operations of the National Sex Offender Targeting Center. These funds are provided in place of the money requested for the Special Operations Group and the Technical Operations Group. If additional funds are needed to meet AWA program needs, the Department should reprogram resources from lower priority programs.

Contract management in the districts.—Marshals Headquarters should continue to exert more central control over contracting practices in the districts in order to move every district toward contracting best practices and identify problems in the field more quickly. The Marshals Service should also continue preliminary efforts, in consultation with affected employees, to establish an ombudsman office to address contract-related problems that arise in the districts.

Regional Fugitive Task Forces (RFTFs).—The Marshals are directed to provide \$20,000,000 to enhance existing RFTFs and to establish new task force capabilities in areas not currently served by RFTFs.

CONSTRUCTION

The bill provides \$26,625,000 for Marshals Construction.

NATIONAL SECURITY DIVISION SALARIES AND EXPENSES

The bill provides \$99,537,000 for the National Security Division.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The bill provides \$574,319,000 for the Organized Crime and Drug Enforcement Task Forces (OCDETF).

Strike Force personnel.—OCDETF is directed to submit a report showing the fiscal year 2010 and planned fiscal year 2011 distribution of personnel (by bureau) to each of the collocated Strike Forces. This report should be submitted to the Committees on Appropriations no later than 120 days after the enactment of this Act.

FEDERAL BUREAU OF INVESTIGATION
SALARIES AND EXPENSES

The bill provides \$8,089,597,000 for the Federal Bureau of Investigation (FBI), Salaries and Expenses.

Program increases.—The bill provides funds for all requested program increases in full, with the exception of Render Safe. The FBI can space the acquisition of its Render Safe planes over two years without degrading its readiness posture below that which is currently available via the leased aircraft. Consequently, the bill has reduced the request by \$17,878,000, or the cost of one plane. If the FBI wants to proceed with the acquisition of the second plane in fiscal year 2011, a reprogramming request may be submitted to accomplish this.

Human trafficking.—The bill includes \$5,000,000 above the request for the investigation of trafficking in persons and the provision of victim witness coordinators for trafficking cases.

Law enforcement in Indian Country.—The bill funds 81 new FBI positions for law enforcement in Indian Country, at a cost of \$19,000,000, within the FBI's own budget rather than through the Bureau of Indian Affairs. These positions are to be available exclusively for Indian Country programs and allocated to areas of greatest need.

Adherence to notification requirements.—The FBI is directed to work with the Office of Management and Budget to transition its budget from the current four decision units to a new set based more closely on the FBI's operating structure. This will rationalize the Bureau's budget execution and improve its ability to identify when an internal reallocation of funds should trigger Section 505 notification requirements. To ensure that notifications are provided as needed during the time that the new decision units are being constructed, the FBI is directed to develop and issue strict new guidance on adherence to Section 505 requirements, including guidance on how and when to provide notification of reallocations that are intended to be temporary.

Hiring plan.—The FBI is directed to once again submit a hiring plan and quarterly updates on staffing, consistent with the direction provided in the statement accompanying Public Law 111-117. Along with the Bureau-wide staffing data already requested, the FBI is directed to include in the quarterly reports a tracking of the number of authorized and onboard victim-witness coordinators at the Bureau.

Intellectual property rights (IPR) enforcement.—IPR enforcement should remain an investigative priority at the Bureau. In order to maximize the effectiveness of IPR enforcement, the Bureau should make all necessary efforts to coordinate and cooperate with IPR units at the U.S. Attorneys and the Criminal Division. In addition, the FBI is directed to submit a report on the activities of its dedicated agents investigating IPR cases. Specifically, the report should demonstrate that the additional IPR agents provided in P.L. 111-8 and 111-117 (to a base level of no less than \$25,100,000) are solely investigating

and prosecuting violations of Federal intellectual property law. The report shall also provide an accounting of the agents placed in specific field offices with Computer Hacking and Intellectual Property units and the types of intellectual property investigations pursued by these agents. The report shall be submitted to the Committees on Appropriations no later than 120 days after the enactment of this Act.

Unobligated and unexpended balances.—The FBI is directed to work with the Committees on Appropriations to develop a reporting structure that will provide clear accountings of unobligated and unexpended balances on a regular schedule. In the meantime, GAO is directed to review the FBI's processes for periodically reviewing its unexpended balances and reallocating any balances that are determined to be available for deobligation. This review should ensure that the FBI's procedures are appropriately rigorous and include a comparison of the FBI's practices to those in other Federal agencies. GAO shall report to the Committees on Appropriations on the results of this review no later than 180 days after the enactment of this Act.

Criminal Justice Information Services (CJIS) Division.—The bill provides \$675,600,000 for the CJIS Division. This total includes \$291,100,000 of appropriated funds and \$384,500,000 of user fees.

Animal cruelty data in the Uniform Crime Report (UCR).—The FBI is directed to facilitate the prompt consideration by the CJIS Advisory Policy Board of any received proposal to add animal cruelty data to the UCR.

Next Generation Identification (NGI) system.—The FBI is directed to identify the fiscal year 2011 expected costs for NGI in its portion of the DOJ spending plan and to immediately notify the Committees on Appropriations of any changes to NGI's budget, schedule or expected achievements that emerge during the course of the year.

File inventory.—The FBI is directed to continue supporting its nationwide file inventory program at a funding level no less than the level provided for this activity in fiscal year 2010.

Gang enforcement.—The FBI is directed to continue supporting its Safe Streets Task Force program at no less than the current services level.

Surveillance.—The bill provides an increase of \$25,179,000 to hire additional personnel to help address gaps within the Bureau's surveillance program. No less than 75 percent of these additional funds shall be spent on Special Surveillance Groups.

Cyber security.—In recognition of the FBI's unique cyber-related authorities and expertise, the bill provides \$181,754,000, an increase of 163 positions and \$45,926,000 above the fiscal year 2010 enacted level, to further the Bureau's investigatory, intelligence gathering and technological capabilities to address cybercrime.

Human rights violations.—The FBI is directed to increase its efforts to investigate and support the prosecution of serious human rights crimes committed by foreign nationals, including genocide, torture, and use or recruitment of child soldiers. Within the amounts provided, the FBI is directed to allocate \$1,500,000 for agents and associated support personnel at FBI headquarters to assist with these cases.

Civil rights enforcement.—Civil rights investigations are a top investigative priority of both the Bureau and the Congress. The bill provides the request of \$36,600,000 for the civil rights enforcement program, which will support investigations of hate crimes, civil rights era cold cases pursued under the Emmett Till Unsolved Civil Rights Crime Act, and related offenses.

Child exploitation programs.—Despite a multiyear increase in Internet exploitation

cases, the FBI requested a current services budget of \$52,971,000 for the Innocent Images program in fiscal year 2011. The bill provides this funding, but the FBI is directed to closely monitor the online sexual predator threat and to allocate additional resources to this program in future requests if necessary. For child prostitution and domestic sex trafficking cases that are not primarily Internet based, the bill provides a total of \$26,100,000 through the Bureau's Innocence Lost program.

Mortgage fraud.—Mortgage fraud activity, particularly in the subprime market, was a contributing factor to the recent economic crisis and continues to play a role in undermining national economic stability. In order to improve the Bureau's ability to identify and investigate these schemes, the bill provides an increase of \$71,497,000 to hire additional agents, analysts and support personnel in the white collar crime program to focus on mortgage fraud.

The DOJ Inspector General revealed last year that the FBI was not making full use of its white collar crime resources despite the greatly increasing workload in this area. In light of these findings and to ensure that the mortgage fraud program is receiving the resources and attention that are expected, the FBI is directed to provide on a quarterly basis a break-out of the personnel allocated to mortgage fraud investigations, the amount of any under- or overburn experienced on mortgage fraud that quarter, and the number of mortgage fraud cases being worked in that quarter.

DNA technical review standards.—The Committees are aware of proposals to make changes to the FBI's DNA technical review standards; the FBI is directed to keep the Committees on Appropriations apprised of any activity regarding decisions to modify or maintain those standards.

Sentinel.—The FBI asserts that the problems it has experienced with the Sentinel project are contained; the project will finish late but within budget; and the product delivered through the end of Phase 2 largely reflects what was expected under the program plan. Outside sources seem to agree unanimously that each of these three contentions is overly optimistic. Relatively little was achieved, in terms of delivered benefits to end users, through Phases 1 and 2 even though more than 90 percent of the project budget was consumed. It is difficult to imagine that all of Phases 3 and 4 can still be achieved with so little remaining funding unless major corners are cut in either execution or function.

Despite these concerns, the FBI has persisted in committing itself to completing the project within its \$451,000,000 budget, and the Congress will hold the Bureau to that commitment. Consequently, the FBI is prohibited from spending anything in excess of the \$451,000,000 total without first providing notification to the Committees on Appropriations, even if a funding source is available that would not otherwise trigger Section 505 notification requirements.

To manage the completion of Sentinel, the FBI shall develop a Work Breakdown Structure (WBS) that complies with guidance provided in GAO-09-3SP: *Best Practices for Developing and Managing Capital Program Costs*. The product-based WBS shall contain the capabilities that complete Sentinel as identified by the DOJ OIG in its 11-01 report (October, 2010). The structure of the Sentinel Completion WBS shall include components for (1) Phase 3 Capabilities, (2) Phase 4 Capabilities and (3) Deferred Capabilities. The FBI shall elaborate on each of the three WBS components to itemize the planned or deferred functionality that will complete Sentinel.

The FBI shall also configure its Earned Value Management System to report

progress on the itemized functionality associated with each component.

CONSTRUCTION

The bill provides \$130,589,000 for FBI Construction.

Modernization of FBI Academy facilities.—The bill provides \$6,287,000 for renovation and abatement activities necessary for the modernization of existing FBI Academy facilities and \$17,000,000 for the construction of a new dormitory on the Academy campus.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

The bill provides \$2,088,176,000 for the Drug Enforcement Administration (DEA), Salaries and Expenses.

Prescription drug abuse.—The bill provides \$291,832,000 for DEA's diversion control program. These funds are fully offset by fee collections.

Methamphetamine cleanup.—The bill provides \$10,000,000 through the Community Oriented Policing Services (COPS) program to assist State, local and tribal law enforcement agencies with the proper removal and disposal of hazardous materials at clandestine methamphetamine labs, including funds for training, technical assistance, a container program and purchase of equipment. These funds will be provided by transfer to DEA.

Terrorism Investigations Unit.—DEA is directed to use \$4,000,000 for the Special Operations Division to create a third Terrorism Investigations Unit for Afghanistan.

CONSTRUCTION

The bill provides \$41,941,000 for DEA Construction.

El Paso Intelligence Center (EPIC).—The bill provides \$41,941,000 for costs related to the renovation of the existing EPIC facility and the expansion of the building. The improvement of physical infrastructure at EPIC should allow DEA to accommodate the increasing interagency demand for space there and will meet the government's need for a centralized and consolidated location for agencies to further coordinate their interdiction, intelligence and investigative activities focused on the Southwest border region.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES

SALARIES AND EXPENSES

The bill provides \$1,162,986,000 for the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF).

Project Gunrunner performance.—ATF is directed to provide to the Committees on Appropriations performance data showing how Project Gunrunner offices are contributing to the program's overall goal of reducing firearms trafficking into Mexico. This report shall be submitted no later than 120 days after the enactment of this Act.

Firearms trafficking between the United States and Mexico.—A reliable baseline of the annual weapons traffic across the U.S. southern border is necessary for the development of the most effective firearms enforcement strategies and the determination of the necessary levels of budgetary support for those strategies. Because such a baseline does not currently exist, ATF is directed to work with the Department of Homeland Security to develop and submit an estimate to the Committees on Appropriations, along with any necessary explanatory material, no later than 180 days after the enactment of this Act.

Firearms tracing capacity.—ATF is urged to identify resources via reprogramming in fiscal year 2011 to begin addressing National Tracing Center capacity and digitization needs and to prioritize funds for these issues in its fiscal year 2012 budget request.

Addressing the regulatory backlog.—ATF is directed to dedicate \$500,000 from within the funds provided to hiring additional regulation writers to reduce the regulatory backlog.

Implementation of the Prevent All Cigarette Trafficking (PACT) Act.—ATF is directed to report to the Committees on Appropriations on its expected annual costs for implementation of the PACT Act, the extent to which those costs might be covered by deposits in the PACT Anti-Trafficking Fund and the plan for covering any new costs that are not offset by the Fund. This report shall be submitted no later than 180 days after the enactment of this Act.

Gang enforcement.—ATF is directed to continue supporting its Violent Crime Impact Team program at no less than the current services level.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

The bill provides \$6,553,779,000 for the salaries and expenses of the Federal Prison System. As part of the Department's fiscal year 2011 spending plan, the Bureau of Prisons (BOP) shall propose a distribution of funds by decision unit that incorporates directives in this statement. BOP's fiscal year 2012 budget request shall provide detailed descriptions of the major categories of activities comprising each decision unit and the proposed funding levels for each such category, including comparisons to prior year obligations for each category.

Correctional worker staffing.—No less than \$120,500,000 is for additional base correctional worker staffing in fiscal year 2011 and for the annualized cost of base correctional workers hired during fiscal year 2010. BOP shall identify, as part of the budget requests for fiscal year 2012 and future years, the number of authorized positions for each BOP facility in each correctional worker staffing category, including comparisons of the number of authorized positions in each category for fiscal years 2009 through 2012 and a description of the process used to determine the number of authorized positions for each year.

Staffing in housing units.—BOP is directed to provide a report to the Committees on Appropriations, within 180 days of enactment of this Act, describing BOP's policies for assigning correctional officers to housing units in low, medium, and high security prisons. The report should describe how BOP determines the vulnerability of officers to assaults by inmates in housing units; how this vulnerability determination informs the staffing assignments for housing units; the extent to which low staffing levels have prevented BOP from adequately staffing housing units to minimize officer vulnerability; the extent to which additional funding for staffing provided in this bill will be used to increase staffing in housing units; and any strategies BOP has adopted, considered or may consider to mitigate officer vulnerability in housing units.

New prison activation.—Not less than \$72,600,000 shall be used to begin or complete the activation of newly constructed prisons.

Inmate reentry and Second Chance Act implementation.—No less than \$39,695,000 is for BOP's Second Chance Act (SCA) requirements and Residential Reentry Centers (RRC), as requested. BOP shall report quarterly to the Committees on Appropriations on the average length of stay in community corrections, differentiated by average lengths of stay in RRCs and home confinement. In addition, BOP shall submit a report to the Committees on Appropriations, within 120 days of enactment of this Act, on the status of implementing Government Accountability Office recommendations (GAO-010-854R) regarding BOP's strategic approach to

budgeting for inmate reentry programs. As part of its portion of the Department's fiscal year 2011 spending plan, BOP shall delineate the funding to be provided for each of its programs and activities related to inmate reentry and SCA implementation. Current and future reentry programming should be informed by the recommendations and themes included in the recent report of BOP's independent panel on prisoner reentry. As part of the fiscal year 2012 budget submission, BOP shall provide a detailed description of the coordinated prisoner reentry strategy required by the SCA, which should include clearly defined goals, an implementation timeline, the estimated costs of implementing the strategy in fiscal year 2012, and the estimated cost of fully implementing the strategy.

Counterterrorism activities.—No less than \$14,200,000 is for the full estimated cost of BOP's counterterrorism activities.

National Institute of Corrections (NIC).—No less than \$20,320,000 is for the NIC.

BUILDINGS AND FACILITIES

The bill provides \$269,733,000 for the construction, acquisition, modernization and repair of prison and detention facilities housing Federal inmates.

Modernization and repair (M&R).—BOP shall provide an updated report to the Committees on Appropriations, within 90 days of enactment of this Act, identifying the total estimated cost of all pending M&R projects by region and the methodology used to develop those estimates. BOP shall provide a similar M&R backlog list as part of its budget request for future years. In addition, the Government Accountability Office (GAO) shall review the methods that BOP uses to identify and prioritize needed facility improvements, the processes it uses to estimate associated costs, and its plan for addressing its M&R backlog. GAO shall report to the Committees on Appropriations, making recommendations for any needed improvements, by September 15, 2011.

Construction.—Within 30 days of enactment of this Act, BOP shall provide to the Committees on Appropriations the most recent status of construction report and shall notify the Committees of any deviations from the construction and activation schedule, including detailed explanations of the causes of delays and actions proposed to address them.

LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

The bill establishes a limitation on administrative expenses of \$2,700,000 for Federal Prison Industries, Incorporated (FPI). FPI is directed to report to the Committees on Appropriations within 180 days of enactment of this Act on how it plans to use new pilot program authorities included in Title V of this Act.

STATE AND LOCAL LAW ENFORCEMENT ACTIVITIES

Salaries and expenses.—All activities related to the management and administration of discretionary grant programs, grants, and cooperative agreements shall be supported only with funding provided via the separate Salaries and Expenses (S&E) appropriation provided in the bill for each grant office. The Office on Violence Against Women (OVW), the Office of Justice Programs (OJP), and the Office of Community Oriented Policing Services (COPS) are directed to develop formal definitions of management and administration costs or detailed guidance governing decisions about the types of costs that may be charged to each office's S&E account. In addition, each grant office shall detail actual and projected S&E costs by program, including personnel costs, as part of the budget submission for future fiscal years.

Workload analysis.—OVW, OJP, and COPS are each directed to conduct a workload analysis to ensure that their respective staffing levels and mix of personnel accurately reflect workload and requirements. Each office shall provide a report to the Committees on Appropriations within six months of the date of enactment of this Act describing its updated staffing model based on the results of its workload analysis. Within six months of the date the offices submit their reports, GAO is directed to report to the Committees on Appropriations, evaluating each office's staffing model and making recommendations, as warranted, on how each office's staffing model could be further improved.

Training, technical assistance, research and statistics, and peer review.—Training and technical assistance (T&TA) activities, research and statistics activities and peer review performed by OJP, OVW, and COPS, or through interagency agreements or under contract for OJP, OVW, and COPS, may be supported with program funds, subject to the submission of details related to planned costs in these categories by program as part of the Department's fiscal year 2011 spending plan. As part of the budget submission for fiscal year 2012 and future years, the Department is directed to detail the actual costs for each grant office in each of these categories for the prior fiscal year, along with estimates of planned expenditures by each grant office in each of these categories for the current year and the budget year.

Non-compliant grantees.—OJP, COPS and OVW appear to be using different sanctions and remedies for grantees that are determined to be out of compliance with grant requirements. The Department should work to consolidate rules and procedures across OJP, COPS and OVW in order to produce the most consistent possible compliance enforcement process.

Byrne competitive grants.—As part of OJP's portion of the Department's fiscal year 2011 spending plan, OJP is directed to detail the criteria and methodology that will be used to award these grants. OJP is encouraged to continue supporting efforts to solve civil rights cold cases.

Smart probation.—The Smart Probation initiative will help States and units of local government reduce crime and recidivism through court-based and other probation approaches that provide swift, predictable, and graduated sanctions for noncompliance with the conditions of probation.

Flexible tribal assistance.—OJP is expected to consult closely with tribal stakeholders in determining how tribal assistance funds will be awarded for detention facilities, courts, alcohol and substance abuse programs, civil and criminal legal assistance, and other priorities. As part of the Department's spending plan for fiscal year 2011, OJP shall provide a plan for the use of these funds that has been informed by such consultation.

Victims of trafficking.—The bill provides \$15,000,000 for task force activities and services for U.S. citizens, permanent residents, and foreign nationals who are victims of trafficking, including no less than \$6,700,000 for victim services for foreign national victims of trafficking. OJP shall consult with stakeholder groups in determining the overall allocation of Victims of Trafficking funding, and shall provide a plan for the use of these funds as part of the Department's fiscal year 2011 spending plan. The spending plan should be guided by the best information available on the regions of the United States with the highest incidence of trafficking. In addition, the Department of Justice is directed to undertake outreach efforts in the form of public notices, such as newspaper advertisements, in ethnic communities in the United States, the home countries of which represent the top ten countries with regard to the prevalence of human trafficking activities. These efforts shall be designed to increase awareness of what constitutes human trafficking crimes and provide information on how assistance can be obtained, with the objective being the discovery and rescue of victims and the identification and prosecution of offenders.

Capital litigation/wrongful conviction review.—Of the amount provided, \$2,500,000 is for capital litigation grants and \$10,000,000 is for competitive grants to public and non-profit entities that work to exonerate individuals who have been wrongfully convicted.

Economic, high-tech and cybercrime prevention.—Within the funds provided, no less than \$6,000,000 is for competitive grants to State and local law enforcement entities and related organizations to address criminal intellectual property enforcement and prosecution, which may include grants for related training and technical assistance provided to State and local law enforcement entities.

Second Chance Act.—OJP shall consult with stakeholder groups in determining the allocation of Second Chance Act funding among authorized programs and shall provide a plan for the use of these funds as part of the Department's fiscal year 2011 spending plan.

Byrne criminal justice innovation program.—OJP is encouraged to give consideration to current Weed and Seed grantees as noted in Senate Report 111-229.

Regional information sharing activities.—The bill provides \$40,000,000 to support activities that enable the sharing of nationwide criminal intelligence and other resources with State, local, and other law enforcement agencies and organizations. Such activities should address critical and chronic criminal threats, including gangs, terrorism, narcotics, weapons, and officer safety or "event deconfliction," and should reflect regional as well as national threat priorities. All activities shall be consistent with national information sharing standards and requirements as determined by BJA.

<i>Program</i>	<i>Amount</i>

Transfer to Tribal Resources Grant Program	(42,000,000)
Tribal Resources Grant Program	30,000,000

<i>Program</i>	<i>Amount</i>
COPS Technology and Interoperability	98,885,000
Transfer to NIST OLES ..	(1,500,000)
Meth Hotspots	17,185,000
Transfer to DEA	(10,000,000)
Child Sexual Predator Prosecution Program	18,000,000

Total	542,070,000

COPS hiring and policing development.—The bill includes \$363,000,000 for hiring and policing development grants for State, local and tribal law enforcement. Within the amount provided, COPS is directed to fund \$26,000,000 of community policing development programs, including police integrity initiatives. Within the funds available for hiring grants, \$30,000,000 is for the hiring or rehiring of officers who will be assigned to Internet Crimes Against Children (ICAC) Task Forces. These funds, together with those provided under the OJP heading, will fully meet the level authorized for ICACs under the PROTECT Act. In recognition of average personnel and benefit levels in many parts of the country that exceed the \$75,000 per officer statutory cap for the hiring program, the cap has been waived for fiscal year 2011. The local match

requirement for these grants has also been waived.

Tribal resources.—At the enacted levels, COPS will be supporting \$72,000,000 in programs targeted exclusively to tribal communities through the Tribal Resource Grant Program (TRGP). Within the TRGP, \$30,000,000 is provided through direct appropriations and \$42,000,000 by transfer from the hiring and policing development program. All funds available to the TRGP can be used for hiring, equipment, training and anti-methamphetamine activities. This will allow tribes maximum flexibility to respond to their most urgent local priorities.

Technology and interoperability grants.—The bill provides \$98,885,000 for technology and interoperability grants, including a transfer of \$1,500,000 to the NIST Office of Law Enforcement Standards to complete remaining aspects of Project 25 interface standards and to begin developing standards for emerging technologies, such as VoIP applications, for public safety operations. Within the amount provided, COPS is directed to fund congressionally-designated activities in the amounts identified in the following table, which the bill incorporates by reference:

TITLE III
SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The bill provides \$6,990,000 for the Office of Science and Technology Policy (OSTP). OSTP shall provide leadership and active coordination on STEM education; nanotechnology, including its societal dimensions; and hydrology research and water resources, understanding terrestrial managed and unmanaged ecosystems and their role in climate change, and soil science and the role of soils in the carbon cycle. Each of these areas involves significant activities of multiple departments and agencies and is critical to issues of national importance.

OSTP personnel.—OSTP shall provide a report to the Committees on Appropriations not later than 90 days following enactment of this Act, detailing the number, by function, of personnel authorized and currently on-board, at the OSTP, including all IPAs, reimbursable, non-reimbursable and detailed personnel, and identifying the agencies from which the staff is detailed.

Plant data.—OSTP shall provide a report within 120 days of enactment on maintenance of plant data, both genotypic and phenotypic, through combined public and private efforts.

Dispersants.—OSTP Director shall, within 60 days of enactment of this Act, submit to the Committees on Appropriations a research plan for the most urgent research questions regarding dispersants and within 180 days of enactment of this Act outline a comprehensive research plan and funding strategy for research on dispersants including their benefits, detriments, and the monitoring of their long-term effects on the environment.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
AGENCY SUMMARY

Annual budget preparation and presentation.—NASA's annual budget submission

continues to be disappointing in its lack of transparency. NASA is directed to prepare the annual budget submission to Congress in a manner fully consistent with direction contained in 42 USC 16611b.

Reserves reporting.—NASA is directed to include in its budget justification the reserve assumed by NASA to be necessary within the amount proposed for each directorate, theme, program, project and activity, or, if the proposed funding level for a directorate, theme, program, project or activity is based on confidence level budgeting, the confidence level assumed in the proposed funding level.

Reporting of cost, schedule and content for NASA research and development projects.—NASA is directed to cooperate fully and to provide timely program analysis, evaluation data, and relevant information to the Government Accountability Office (GAO) so that GAO can report to Congress in advance of the annual budget submission of the President and semiannually thereafter on the status of large-scale NASA programs, projects, and activities based on its review of this information.

Breach reporting.—Pursuant to section 103 of Public Law 109-155, the NASA Authorization Act of 2005, NASA is required to deliver several reports to the appropriate authorizing committees when project costs grow in excess of certain thresholds. NASA is directed to submit these reports concurrently to the Committees on Appropriations.

Monthly reports.—To improve the usefulness of monthly reports on obligations and disbursements required by section 525(b) of the Fiscal Year 2008 Omnibus Appropriations Act, NASA is directed to include in the funding that it reports as available not only new budget authority, but also carryover and recoveries. Specifically, on the 15th business day of each month beginning in March 2011, the Administrator of NASA shall report in writing to the Committees on Appropriations detailed financial information on the execution of the budget for the preceding month and for the fiscal year to date. Each report shall provide information on obligations incurred against, and outlays made from, the appropriations for fiscal year 2011 and prior years; available carryover from prior year appropriations; and recoveries from prior or current year appropriations, presented by (1) appropriation account, (2) theme, (3) program or project, (4) Center, and (5) object class, and any other financial information requested by the Committees on Appropriations.

Contracting.—NASA is directed to minimize its use of cost plus fee contracting and to employ fixed price contracts for all systems, components, and projects using proven or high technical readiness technology.

Operating plans.—NASA is directed to provide the amount of civil service manpower assumed in the plans for each account and for the four themes within the Science account, the three themes within the Space Research and Technology account, and the four themes within the Space Operations account.

Summary funding provided for NASA is delineated more fully in the table below and in the account summaries.

The bill provides \$5,005,600,000 for science, and within funds provided for planetary science, makes \$15,000,000 available for a reimbursable agreement with the Department of Energy to re-establish the facilities required to produce fuel for radioisotope thermoelectric generators to enable future science missions.

Earth system science pathfinder, other missions and data analysis.—NASA is directed to use at least \$10,000,000 within funds provided to continue and expand its pilot data product effort on above-ground terrestrial biomass carbon using data available from existing sources and measurement systems to establish a baseline forest biomass and carbon inventory pilot at the management relevant 30-meter scale of Landsat data sufficient to resolve forest biomass on parcels of 10 acres or more. Also within funds provided, \$5,000,000 is for continuing and expanding on-going carbon monitoring system pilot activities and to add a pilot effort on soil carbon working with the appropriate other Federal agencies.

Scatterometer.—NASA shall support NOAA in any efforts to develop a dual-frequency operational scatterometer to provide sea surface vector wind measurements in both light and strong wind conditions.

Jupiter system mission.—In support of the potential collaboration between NASA and the European Space Agency on Jupiter system exploration with orbiting spacecraft for both Europa and Ganymede, the bill provides \$30,000,000 within funds provided for Outer Planets to continue studies of this flagship mission.

International lunar network.—NASA shall immediately move forward with this mission.

Solar Probe Plus.—The bill includes \$14,100,000 for the Solar Probe Plus mission, and NASA is directed to work aggressively to achieve a launch in 2016.

Wide Field Infrared Survey Telescope (WFIRST).—WFIRST was identified as the first priority in the recent astronomy and astrophysics decadal survey. NASA is strongly encouraged to make a robust request for WFIRST in fiscal year 2012 that builds on the work of the Joint Dark Energy Mission project.

AERONAUTICS

The bill provides \$579,600,000 for aeronautics.

Civil service labor and expenses.—Although funds for the Aeronautics account are made available for two years, NASA shall manage civil service labor and expenses within the account on a one-year basis.

Green aviation.—NASA is directed to establish a lead Center of Excellence (COE) for Green Aviation at an existing NASA Research Center with appropriate expertise and comprehensive test facilities. This COE shall coordinate the program as it grows and establish public-private partnerships with industry and academia to test and develop subsystems, full scale concept aircraft and other technologies in realistic flight environments up to technology readiness level 6. NASA shall report on its detailed implementation of these tasks by April 1, 2011.

SPACE RESEARCH AND TECHNOLOGY

The bill provides \$559,000,000 for Space Research and Technology including funding for Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) programs, for exploration technology research and development proposed within the Exploration account, and for general space research and technology. NASA shall propose an appropriate allocation of funds for this account, including commercial reusable suborbital research, as part of its operating plan for fiscal year 2011. Consequently, no detail is provided herein.

Exploration technology development.—Any activities requested as part of exploration technology development under the Exploration account, including initiation of the Flagship 1 program, may be funded in this account.

Low technology readiness space research and technology.—The general space research and technology element of this program will deal with technologies at low levels of technology readiness. NASA is directed to pattern the management of this program element on the proven advanced research projects agency model. It will be critical that NASA attract visionary technology leaders to limited-term positions as program managers at NASA Headquarters because their decisions will determine the success of this program. To ensure broad outreach to the best centers of new and innovative technologies, no NASA center shall be assigned a role in the management of this program, and NASA center research and development shall not be accorded any preference over research by public and private entities outside NASA.

Civil service labor and expenses.—Although funds for the Space Research and Technology account are made available for two years, NASA shall manage civil service labor and expenses within the account on a one-year basis.

EXPLORATION

The conference agreement provides \$3,706,000,000 for exploration. Within funds

provided, no less than \$300,000,000 shall be for Commercial Cargo; no less than \$250,000,000 shall be for Commercial Crew; no less than \$1,800,000,000 shall be for development of a heavy lift launch vehicle system; and no less than \$1,200,000,000 shall be for development of the Orion multipurpose crew exploration vehicle.

Heavy lift launch vehicle.—The bill provides \$1,800,000,000 to begin building an integrated heavy lift launch vehicle system for crew and cargo. The system shall enable human transportation at the highest possible safety standards and lowest life cycle costs for human exploration beyond low Earth orbit and shall be designed, managed, and integrated by the Marshall Space Flight Center. This funding shall be part of a sustained, parallel development effort of a common core and an upper stage to culminate in an initial human space transportation capability by 2016. The heavy lift launch vehicle, as authorized in Public Law 111-267, shall have an initial lift capability of not less than 130 tons to low Earth orbit, have the capability to lift the necessary elements for missions beyond low Earth orbit in order to extend human exploration capabilities, and serve as back-up for crew and cargo transportation to the International Space Station. No funding from this appropriation for the vehicle shall be used for technology development, crew vehicle development, or supporting mission or ground operations systems development. The program shall be managed under a strict cost cap of \$11,500,000,000 through fiscal year 2017. Within 60 days of enactment of this Act, NASA shall report to the Committees on Appropriations on planned milestones, draft requirements, the conceptual design of the heavy lift launch vehicle, planned ground and early flight testing programs and deliverables for the heavy lift launch vehicle program, along with any existing contract vehicles the agency intends to use. As part of this report, NASA shall evaluate the preceding recommended cost cap and either validate the proposed cap or provide a viable and validated alternative.

Orion multipurpose crew exploration vehicle.—The bill provides \$1,200,000,000 for the Orion multipurpose crew exploration vehicle that will enable human transportation beyond low Earth orbit. The vehicle shall be capable of being launched on the heavy lift launch vehicle and may also provide alternative access to low Earth orbit, including the International Space Station by fiscal year 2014. The program shall be managed under a strict cost cap of \$5,500,000,000 through fiscal year 2017. No funding from this appropriation for the Orion capsule shall be used for technology development, heavy lift launch vehicle development, or supporting mission or ground operations systems development. Within 60 days of enactment of this Act, NASA shall report to the Committees on planned milestones, expected performance and configurations, a planned testing program, and deliverables for the crew exploration vehicle program, along with any suggestions for streamlining oversight. As part of this report, NASA shall evaluate the preceding cost cap and either validate the cap or provide a viable and validated alternative.

Robotic precursor program.—NASA shall consolidate all elements of the lunar lander and exploration robotics programs and locate project management at the Marshall Space Flight Center as proposed.

Additional funds.—The unallocated amount of \$156,000,000 may be used for activities requested under human research or robotic precursors or to augment or enhance other activities explicitly funded under Exploration. Funding for exploration technology

development is provided as part of Space Research and Technology.

Civil service labor and expenses.—Although funds for the Exploration account are made available for two years, NASA shall manage civil service labor and expenses within the account on a one-year basis.

SPACE OPERATIONS

The bill provides \$5,247,900,000 for space operations including \$989,100,000 for Space Shuttle operations and support; \$825,000,000 for an additional Space Shuttle logistics flight, launch complex development, and development of ground operations for the heavy lift launch vehicle and the Orion crew exploration vehicle; \$2,745,000,000 for International Space Station operations, maintenance, research, development and support; and \$688,800,000 for Space and Flight Support operations, production, research, development and support.

Additional shuttle logistics flight and launch complex development.—Prior to obligation of any funds for an additional shuttle logistics flight the NASA Administrator shall certify to the Committees on Appropriations that an additional shuttle flight will be at least as safe as the remaining flights on the shuttle manifest dated February 28, 2010, that the intended mission is in the national interest, and that the risks to be incurred are commensurate with the benefits.

Any funds not spent on an additional shuttle logistics flight shall be available for: launch complex development only for activities at the Kennedy Space Center related to the civil, non-defense launch complex; use at other NASA flight facilities that are currently scheduled to launch cargo to the International Space Station; and development of ground operations for the heavy lift launch vehicle and the Orion crew exploration vehicle. No funds are provided for the refurbishment of ET-94.

Within 60 days of enactment of this Act, NASA shall provide the Committees on Appropriations the five-year plan for the civil launch complex and other NASA flight facilities and a plan and budget estimate for development of ground and mission operations to support the heavy lift launch vehicle and the Orion crew exploration vehicle. As part of this plan, NASA shall clearly delineate the respective responsibilities of ground and mission operations development and operations as distinct from the responsibilities of the heavy lift launch vehicle and Orion crew exploration vehicle; explain how the recommended plan will provide the lowest life cycle costs for human exploration beyond low Earth orbit; and supply cost estimates for development and operations to serve as the basis for an appropriate cost cap on development and an achievable target level of annual operating costs.

Any funds for construction activities shall be transferred to the construction and environmental compliance and restoration account and become available for five years.

Satellite servicing.—Within the amounts provided for space operations, \$75,000,000 is for continuing efforts in use of the next generation of human space flight architecture to service existing and future observatory-class scientific spacecraft as identified in the conference report accompanying division B of Public Law 111-8. The activities to be undertaken shall be a joint project of the Space Operations, Science, and Exploration mis-

sion directorates, and shall include technology demonstrations for both robotic and human servicing capabilities.

International Space Station national laboratory.—NASA shall provide the guaranteed access for International Space Station (ISS) national laboratory experiments provided in Section 504(d)(1) of Public Law 111-267.

Disposition of space shuttle orbiters.—Following the retirement of the space shuttles, NASA should bear any costs that normally would be associated with surplusage of the orbiters, including taking hazardous orbiter systems offline. Any shuttle recipient should bear transportation costs, along with costs associated with preparing the surplus orbiter for display. If an orbiter is awarded to the Smithsonian Institution, NASA shall provide it at nominal or no charge. Any funds received from shuttle orbiter disposition shall be available only as provided in subsequent appropriations Acts.

Civil service labor and expenses.—Although funds for the Space Operations account are made available for two years, NASA shall manage civil service labor and expenses within the account on a one-year basis.

EDUCATION

The bill provides \$180,000,000 for education including \$44,800,000 for Space Grant programs. The bill makes a technical amendment related to the availability of the Endeavor Teacher Fellowship Trust Fund.

National space grant college and fellowship program.—NASA is directed to fund 42 states or jurisdictions at \$900,000 each and 10 states or jurisdictions at \$700,000 each. No funds for administrative costs may be withheld by NASA from these grants.

Educational activities at NASA centers.—NASA is directed to fund each of the ten NASA center visitor centers at \$1,000,000 for the development of educational activities. No funds for administrative costs may be withheld by NASA from these grants.

Informal education grant program.—NASA is directed to use \$8,000,000 to fund competitively selected grants to informal education institutions for science, technology, engineering, and mathematics education activities including partnerships between these institutions and school systems to accomplish inquiry-based education. No funds for administrative costs may be withheld by NASA from these grants.

Minority university research and education program.—NASA is directed to fund this program at \$30,000,000.

Experimental Program to Stimulate Competitive Research.—NASA is directed to fund this program at \$24,900,000.

Civil service labor and expenses.—Although funds for the Education account are made available for two years, NASA shall manage civil service labor and expenses within the account on a one-year basis.

CROSS AGENCY SUPPORT

The bill provides \$3,085,700,000 for Cross Agency Support including \$2,270,200,000 for NASA center management and operations; \$47,500,000 for independent verification and validation (IV&V); and \$56,125,000 for congressionally-designated projects that are included by reference. Funds are made available for one year.

Activities of the Chief Engineer.—NASA is directed to fund these activities at the amount included in the budget request.

Acquisition workforce increase.—Within funds provided, up to \$3,592,000, as requested,

may be used to enhance NASA's acquisition workforce.

Affordability adjustment.—The bill assumes a general reduction that may be applied to unobligated balances from prior years and to amounts provided herein. Such reductions, which shall be detailed in NASA's initial operating plan, shall not be assessed against those activities augmented by the bill or otherwise addressed by this explanatory statement.

Employee performance communications system (EPCS).—In lieu of the report requested in the Senate report to S. 3636, Government Accountability Office [GAO] shall assess NASA's EPCS. To the extent practical, GAO should assess whether EPCS, as implemented by NASA, utilizes leading human capital practices and results in a system that provides both accountability and fairness for all employees. GAO should also include in its assessment the extent to which NASA's EPCS has a process for planning, monitoring, developing, assessing, and rewarding employee performance that is aligned to the agency's goals and promotes a performance culture that focuses on two-way communication and accountability for results, and clearly differentiates between high and low performing employees. NASA's Office of Diversity and Equal Opportunity shall complete its assessment of the issues raised in the Senate report regarding equal opportunity and inequity among supervisory and non-supervisory staff and NASA shall respond appropriately to those findings.

CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND RESTORATION

The bill provides \$508,700,000 and \$20,000,000 to be derived from available unobligated balances appropriated in previous years. The recommendation fully supports the requests in the budget. NASA is directed to allocate these funds as follows:

Science	\$40,500,000
Exploration	109,800,000
Space operations	15,600,000
Cross agency support	362,800,000
Institutional invest- ments	(300,700,000)
Environmental compli- ance and restoration ...	(62,100,000)

Historic buildings.—Within funds provided for cross agency support construction, NASA is directed to use \$20,000,000 for restoration of historic buildings.

Provision of form 1509.—NASA is directed to continue to provide NASA form 1509 for each construction of facilities (CoF) project submitted in the annual budget request or an initial operating plan and for each CoF project subject to a reprogramming notification.

Capabilities for the future.—NASA is urged to request funding for aeronautics, science, and institutional construction of facilities to address at least 20 percent per year of the need identified in the National Research Council report *Capabilities for the Future—An Assessment of NASA Laboratories for Basic Research*.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$37,500,000 for the Office of Inspector General, which shall be available for one year.

ADMINISTRATIVE PROVISIONS

The bill contains language regarding the availability of funds for announced prizes.

The bill contains language providing for the transfer of certain amounts between appropriations accounts.

The bill contains language regarding transfers of unexpired balances.

The bill contains a provision that stipulates that funding designations and minimum funding requirements contained in any other Act shall not apply to funds appropriated in this Act for NASA.

The bill includes language permitting transfer of up to \$60,000,000 from NASA Exploration and Space Operations accounts to the Economic Development Administration to promote economic development and ease workforce transition related to the retirement of the Space Shuttle and programmatic changes in the Exploration program.

NATIONAL SCIENCE FOUNDATION

Continuity in funding levels.—The American Recovery and Reinvestment Act of 2009 (ARRA) included \$3,002,000,000 in funding for the National Science Foundation (NSF). Roughly two-thirds of these supplemental funds have supported 2-, 3-, 4-, and 5-year grants. Consistent with normal NSF practice, the majority of the awards fund 3-year grants. In the Rising Above the Gathering Storm Revisited report of the National Research Council the authors state, “Without new actions the precipitous reduction in efforts that were being funded by that mechanism will be very damaging to America’s future ability to compete for jobs in the global marketplace.” The fiscal year 2011 budget request projects NSF funding in fiscal year 2012 of \$7,766,000,000 compared to \$8,490,000,000 projected for that year by the budget request for fiscal year 2010. This lower level is only 4.6 percent above the budget request for fiscal year 2011 and \$1,104,420,000 below the total funding level for fiscal year 2009. Should private sector R&D employment not grow sufficiently to make up the difference, the result-

ing downturn in employment and career opportunities in science, engineering and mathematics will undermine the objectives articulated in Rising Above the Gathering Storm to “make the U.S. the most attractive setting in which to study and perform research so that we can develop, recruit, and retain the best and brightest students, scientists, and engineers from within the U.S. and throughout the world.”

RESEARCH AND RELATED ACTIVITIES (INCLUDING TRANSFER OF FUNDS)

The bill provides \$5,949,080,000 for research and related activities, including a transfer of \$54,000,000 from NSF to the United States Coast Guard (USCG) for icebreaking services to cover all anticipated operation and maintenance costs for fiscal year 2011. It is expected that all future year operation and maintenance budget authority for these USCG icebreakers will be requested by the Department of Homeland Security, and the Committees will not entertain a request for this funding under NSF in fiscal year 2012.

Within the funds provided, NSF is directed to maintain funding at the levels requested for the following activities:

- Climate change
- Cyber-enabled discovery and innovation
- Science and engineering beyond Moore’s law
- Cybersecurity Research
- National Radio Astronomy Observatory
- National Astronomy and Ionosphere Center.—NSF is directed to maintain support for the National Astronomy and Ionosphere Center at the same level as in fiscal year 2010.

Hydrology, terrestrial ecosystems and soils.—NSF shall strengthen integration and coordination, including interagency coordination, of data systems, observations, and modeling across hydrology research, across soil science, and across terrestrial ecology research.

Gemini telescope.—NSF is directed to increase U.S. support of the Gemini telescope by \$2,000,000 above the request in order to acquire additional telescope time for NSF investigators.

EPSCoR.—Within the funds provided, \$156,000,000 is for EPSCoR.

Inquiry-based science and engineering courses.—NSF is strongly encouraged to fund augmentations of research grants to support development and implementation of inquiry-based, experiential science, technology, engineering, and math (STEM) courses for college freshmen, sophomores, or non-majors whereby students develop the habits of mind of a scientist.

Robotics research.—NSF shall increase support for robotics research that brings together products of the Beyond Moore’s Law and Nanotechnology initiatives along with rapid advances in computer science, electronics, and sensing.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The bill provides \$157,190,000 for Major Research Equipment and Facilities Construction. None of the funds may be used to reimburse the Judgment fund. The following table shows the specific projects for which funding was requested and is provided.

Advanced Ligo	\$23,580,000
Atacama Large Millimeter Array (ALMA)	13,910,000
Advanced Technology Solar Telescope (ATST)	17,000,000
NEON	12,000,000
Ocean Observatories Initia- tive (OOI)	90,700,000

NSF shall be mindful that research systems for modeling and observing the environment have the potential to demonstrate techniques that may become part of operational systems.

EDUCATION AND HUMAN RESOURCES

The bill provides \$900,000,000 for Education and Human Resources. Adjustments to the budget request for specific programs are as follows:

Informal Science Edu- cation	+1,600,000
Pilot comprehensive initia- tives in Inquiry-Based Education	+64,000,000
Historically Black Colleges and Universities UP	+32,000,000
Louis Stokes Alliances for Minority Participation ...	+44,750,000
Tribal Colleges and Univer- sities	+14,250,000
Federal Cyber Service: Scholarships for Service/ Cybercorps	+30,000,000

Graduate STEM fellows in K-12 education.—All proposals for fellows programs shall require science and engineering fellows to be trained in inquiry-based instruction and prepared to support this approach in the schools where they are assigned. NSF may broaden this program to allow fellow assignments in community colleges.

Inquiry-based college courses in STEM.—NSF shall use at least 20 percent of the funds provided for Transforming Undergraduate Education in STEM to support the development and implementation of inquiry-based, experiential STEM instruction in courses for freshmen, sophomores, and non-majors whereby the students develop the habits of mind of a scientist.

Within the Discovery Research K-12 program, NSF shall competitively select and fund at least four 4-year pilot comprehensive initiatives to demonstrate how to effectively implement and sustain inquiry-based, experiential instruction in K-12 STEM classes. The aim is to ensure that K-12 courses support the development in students of the habits of mind of a scientist. From among the highly reviewed proposals, NSF shall select pilots in at least one rural and one urban setting, from both primary and secondary instructional levels, and from different regions of the country. Each pilot is to incorporate the full range of activities necessary including teacher education, mentoring, and support; implementation in one or more schools; student assessment; and project evaluation. Each pilot should provide a report documenting the experience; identifying evidence about best practices and lessons learned, including a recommended implementation plan; evaluation of curricula, materials and assessment instruments used; and student learning outcomes. These reports shall be in a form suitable for use by other schools and school systems and be made widely available. As appropriate, pilots may be extended with additional funding in future fiscal years.

Robotics competitions.—Not less than \$2,000,000 is for competitive grants to promote STEM education through robotics competitions. Within 60 days of enactment of this Act NSF shall provide a report and spend plan to the Committees on Appropriations that details the proposed scope and implementation methodology for this program.

Robert Noyce teacher scholarships.—The bill provides \$55,000,000 for the Robert Noyce Teacher Scholarship program.

Best practices in K-12 STEM education.—NSF has yet to submit an interim or final report on the work of a panel of experts on STEM education called for in the statement of managers accompanying Public Law 111-117. NSF shall submit this report expeditiously and distribute widely the findings and recommendations of the report to U.S. educators.

AGENCY OPERATIONS AND AWARD MANAGEMENT

The bill provides \$319,190,000 for agency operations and award management. NSF may

use up to \$2,000,000 within funds provided to increase the Foundation's acquisition workforce.

Within 90 days of enactment of this Act, NSF shall provide to the Committees on Appropriations a report detailing total personnel costs, excluding costs for program travel and travel support for reviewers, for operating the Foundation, including rotators, IPAs, and support contractors. The report shall detail the accounts and directorates within Research and Related Activities that are the source of this funding.

OFFICE OF THE NATIONAL SCIENCE BOARD

The bill provides \$4,840,000 for the National Science Board.

OFFICE OF INSPECTOR GENERAL

The bill provides \$14,700,000 for the Office of Inspector General (OIG). Within 180 days of enactment of this Act, the OIG shall develop a report analyzing NSF actions to improve workforce management and work environment.

TITLE IV

RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$9,400,000 for the Commission on Civil Rights.

Improving oversight.—Chronic financial and managerial problems at the Commission have been allowed to continue for too long without sufficient attention. In order to rectify this situation, the bill establishes an Inspector General for the Commission and provides that the post will be filled by the individual holding the position of Inspector General at the Equal Employment Opportunity Commission (EEOC). The IG is tasked with the duties and responsibilities specified in the Inspector General Act of 1978, to include the conduct of audits and reviews of Commission programs, finances and personnel. Funding for the operation of the Commission's OIG, in the amount of \$900,000, is provided by transfer to the EEOC OIG.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The bill provides \$355,303,000 for EEOC Salaries and Expenses.

Backlog reduction.—In order to advance EEOC toward its backlog reduction goals, the bill supports an increase in EEOC personnel, which shall be prioritized toward the hiring of frontline staff that have the biggest impact on case resolutions. To assist in the monitoring of EEOC's hiring progress, EEOC is directed to continue submitting quarterly staffing reports, consistent with the direction provided in the statement accompanying P.L. 111-117.

Full service intake.—EEOC is currently reviewing and considering the adoption of a National Full Service Intake Model, which would create dedicated charge intake units in each field office to handle the intake process from pre-charge counseling through charge filing. EEOC is directed to submit a report detailing its views on this model to the Committees on Appropriations within 120 days of the enactment of this Act.

Federal sector hearings.—EEOC is directed to submit a copy of the updated Federal Sector hearing plan (adjusted for stakeholder input) to the Committees on Appropriations prior to the implementation of such plan.

Office of Inspector General (OIG).—The appropriating paragraph for the Commission on Civil Rights establishes that EEOC's Inspector General will simultaneously hold the post of Inspector General of the Commission on Civil Rights. The funds needed by the

EEOC OIG to carry out this new responsibility are provided by transfer directly from the Commission on Civil Rights budget.

STATE AND LOCAL ASSISTANCE

The bill provides \$30,000,000 for EEOC State and Local Assistance.

INTERNATIONAL TRADE COMMISSION

The bill includes \$87,000,000 for the International Trade Commission (ITC) for fiscal year 2011.

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The bill provides \$440,000,000 for the Legal Services Corporation (LSC).

Governance and management.—Continuing reports of governance and management issues at LSC undermine the credibility of the organization and complicate efforts to direct additional funds into legal aid, where they are desperately needed. Progress has been made in completing action on reform recommendations identified by GAO and the LSC Inspector General, but some recommendations remain outstanding and additional issues have been raised. The timely resolution of these issues must be a priority of the Corporation so that management and governance questions do not continue to overshadow the good work being done by LSC and its grantees.

Cost effectiveness studies.—LSC is directed to continue its collaboration with DOJ to conduct a national level economic study of the cost effectiveness of legal aid that would expand on existing state models and establish more broadly applicable results.

Private attorney involvement.—All LSC grantees are required to take steps to incentivize private attorney involvement in their programs, but these efforts are not performing up to their potential. By making a more aggressive push for pro bono private attorney services, grantees could alleviate some pressure on their own budgets and increase the number of clients served. LSC is urged to seek further action from its grantees to improve private attorney participation.

Legal aid fellowships.—LSC is reportedly considering a proposal to create a fellowship program for retirees or recent law school graduates who will commit to working in legal aid for a designated period of time. LSC is directed to conduct a study of this proposal in order to further develop how such a fellowship program would work and how much it would cost to implement. LSC shall report to the Committees on Appropriations with the results of that study no later than 120 days after the enactment of this Act.

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

Title V of the bill revises the LSC administrative provision to permit the use of funds for the pursuit of class action cases on behalf of individuals eligible for legal aid. This revision will better enable LSC grantees to address systemic problems, such as predatory lending and wrongful eviction, in a more efficient manner by consolidating cases. All other restrictions are unchanged.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The bill includes \$3,500,000 for the Marine Mammal Commission (MMC). Within the funds provided, the MMC will be able to establish an interagency task force to harmonize environmental analyses without compromising the integrity of the analytical results, which has the potential to save millions of dollars every year; continue efforts to build capacity for marine mammal research and conservation in foreign and international waters; and respond to Deepwater

Horizon oil spill events, including conducting reviews of lessons learned among the relevant agencies and governments, assessment of the effects of the spill on marine mammals, and monitoring and documenting recovery rates.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

The bill includes \$48,000,000 for the Office of the U.S. Trade Representative (USTR).

Office of Legislative Affairs.—USTR's Office of Legislative Affairs has a responsibility to provide Congress with information, including the timely submittal of fiscal year budget justifications and the appropriate points of contact, neither of which occurred during the fiscal year 2011 budget cycle.

Travel.—USTR is directed to submit a report detailing travel expenditures of all senior staff on a monthly basis to the Committees on Appropriations.

World Trade Organization (WTO).—USTR is directed to continue to negotiate within the WTO, in consultation with the Department of Commerce, to seek express recognition of the existing right of WTO members to distribute monies collected from antidumping and countervailing duties as they deem appropriate. USTR shall consult with and provide regular reports on the negotiations to the Committees on Appropriations every 60 days upon enactment of this Act. The agency is also directed to conduct negotiations within the WTO consistent with the objectives of the Trade Act of 2002 (Public Law 107-210), maintain strong U.S. trade remedies laws, prevent overreaching by WTO Panels and the WTO Appellate Body, and prevent the creation of obligations to which the United States has never agreed.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The bill provides \$6,273,000 for the State Justice Institute.

COMMISSION ON WARTIME RELOCATION AND INTERNMENT OF LATIN AMERICANS OF JAPANESE DESCENT

SALARIES AND EXPENSES

The bill provides \$1,700,000 for the Commission on Wartime Relocation and Internment of Latin Americans of Japanese Descent.

TITLE V

GENERAL PROVISIONS

Sections 501 through 511, sections 513 through 528, section 531, and sections 533 through 535 continue general provisions without substantive change from previous years.

Section 512 delays the obligations of any receipts deposited into the Crime Victims Fund in excess of \$820,000,000 until October 1, 2011. This language is continued to ensure a stable source of funds will remain available for the program, despite inconsistent levels of criminal fines deposited annually into the Fund.

Section 529 amends Public Law 104-134 to permit the use of Legal Services Corporation funds for class action lawsuits on behalf of individuals eligible for legal aid.

Section 530 provides for rescissions of unobligated balances in certain departments and agencies funded in this Act.

Section 532 prohibits the use of funds to pay the attendance of more than 50 employees at any single conference outside the United States, except for law enforcement training and/or operational conferences for law enforcement personnel when the majority of Federal employees in attendance are law enforcement personnel stationed outside the United States.

Section 536 requires agencies funded under the Act to submit quarterly reports to their Inspector General or senior ethics official regarding the costs and contracting procedures

relating to conferences for which the cost to the Government is more than \$20,000.

Section 537 requires the Department of Justice, the Department of Commerce, the National Aeronautics and Space Administration, and the National Science Foundation to submit reports related to Federal agency clean energy sustainability goals and targets.

Section 538 makes adjustments to prior year congressionally-designated projects.

Section 539 authorizes the establishment of a Commission on Wartime Relocation and Internment of Latin Americans of Japanese Descent.

Section 540 requires the Legal Services Corporation to comply with audits by the

Government Accountability Office and the Corporation's Inspector General.

Section 541 allows Federal Prison Industries (FPI) to participate in the Prison Industries Enhancement Certification program and allows FPI to carry out pilot projects to produce items that are no longer produced in the United States.

Section 542 authorizes the establishment of a National Criminal Justice Commission.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of

the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION C—DEPARTMENT OF DEFENSE
APPROPRIATIONS ACT, 2011

Following is an explanation of the effects of Division C, which makes appropriations for the Department of Defense for fiscal year 2011. As provided in Section 4 of the consolidated bill, this explanatory statement shall have the same effect with respect to the allocation of funds and the implementation of this division as if it were a joint explanatory statement of a committee of conference.

The recommendation in the Department of Defense Appropriations Act, 2011, incorporates some of the provisions of the Senate-reported version of the bill (S. 3800). The language and allocations set forth in Senate Report 111-295 should be complied with unless specifically addressed to the contrary in the accompanying bill and explanatory statement.

Funding levels for appropriations by account, and comparisons to last year's levels and the budget request, can be found in the table at the end of this division.

DEFINITION OF PROGRAM, PROJECT, AND
ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the term program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2011, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action. The following exception to the above definition shall apply: for the military personnel and the operation and maintenance accounts, for which the term "program, project, and activity" is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits his budget for fiscal year 2012, the Department of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the "M-1" and "O-1" which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2012.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" are congressional special interest items for purposes of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

REPROGRAMMING GUIDANCE

The Department of Defense is directed to continue following the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (H.R. 110-279). For operation and maintenance accounts, the Department of Defense shall continue to follow the reprogramming guidelines specified title II of this statement. The dollar threshold for reprogramming funds shall remain at \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense, Comptroller, is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles I, II, III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the statement of managers accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of an operation and maintenance (O-1), procurement (P-1) or a research, development, test and evaluation (R-1) line exceed the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

ADMINISTRATIVE FEES

For contracts in the amount greater than the simplified acquisition threshold, the Secretary of Defense may not retain any fee or charge in excess of the actual cost (or estimated cost if the actual cost is not known) of entering into and administering the contract or other agreement under which the order is filled. In no event may the administrative fee or charge retained for such contracts exceed five percent of the funds appropriated, unless approved by the service acquisition executive concerned. Such approvals shall be reported to the Committees on Appropriations of the House and the Senate not later than 30 days after approval.

INNOVATIVE PROCUREMENT AND RESEARCH
FUNDS

The recommendation includes an additional \$60,000,000 for innovative procurement efforts and \$439,200,000 for innovative research and development activities. A wide variety of valuable equipment, services and good ideas that can contribute to improving defense capabilities may never be fielded or

developed due to a lack of funding. The additional funding provided in this Act is intended to capture some of these items, with an emphasis on small business activities.

Within the research and development accounts it is directed that not less than \$128,000,000 (\$32,000,000 for each military department and Defense-Wide) shall be made available only for Phase III Small Business Innovative Research (SBIR) projects to transition ideas into projects that support acquisition programs. In addition, not less than \$40,000,000 of Defense-Wide funds shall be available only for unsolicited proposals which will be unique in nature. Projects shall be awarded based on an assessment of the benefits defined as enhancing military capability, accelerating the delivery of military capability, reducing the cost of weapons systems either fielded or under development, or improving the quality of life for service personnel. The maximum value of each project awarded with this funding shall not exceed \$4,000,000. Projects may be awarded in connection with equipment items, software and services consistent with the criteria noted above.

Procurements shall be competitively awarded based on current law and regulations. Procurements shall also be awarded based on an assessment of the benefits defined as enhancing military capability, accelerating the delivery of military capability, reducing the cost of weapons systems or improving the quality of life for service personnel.

It is directed that the overall guidance for the execution of this funding shall be established by the Under Secretary of Defense (Acquisition Technology & Logistics) (USD (AT&L)). Funds available to the military departments shall be administered by the military departments' civilian acquisition executives. Funds available for Defense-Wide activities, including unsolicited proposals, shall be administered by the USD (AT&L). Included in the funding allocated to the USD (AT&L) is \$3,200,000 for the management and administration of the program.

The USD (AT&L) shall provide a report to the congressional defense committees not later than 30 days after enactment of this Act that provides a detailed description of overarching guidance for these initiative funds. The military departments' civilian acquisition executives and the USD (AT&L) shall also provide a report to the congressional defense committees not later than 90 days after enactment of this Act, and at the close of each quarter of the fiscal year thereafter, listing the projects that have been awarded with this funding, separately listing the projects, procurements for small businesses and unsolicited proposals. These reports shall also indicate the criteria used to award projects and procurements to include the expected benefits as noted above, and the estimated savings, if any, that the projects and procurements may generate.

The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Committees on Appropriations.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities in excess of \$15,000,000. In addition, the Secretary of Defense shall follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget subactivities:

Finally, the Secretary of Defense shall follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget subactivity:

Operation and Maintenance, Army National Guard:

Other Personnel Support/Recruiting and Advertising

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures.

OPERATION AND MAINTENANCE BUDGET
EXECUTION DATA

The Secretary of Defense is directed to continue to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than 45 days after the end of each quarter for the fiscal year, and should be provided for each O-1 budget activity, activity group and subactivity group for each of the active, defense-wide, reserve and National Guard components. For each O-1 budget activity, activity group and subactivity group, these reports should include the budget request and actual obligation amount; the distribution of unallocated congressional adjustments to the budget request; all adjustments made by the Department in establishing the Base for Reprogramming (DD Form 1414) report; all ad-

justments resulting from below threshold reprogrammings and all adjustments resulting from prior approval reprogramming requests.

CIVILIAN PERSONNEL PAY RATES

The budget request included discrepancies between the services in the price growth budgeted for civilian personnel pay. The Office of the Under Secretary of Defense (Comptroller) is directed to ensure consistency across the Department for civilian personnel pay rates in future budget submissions.

INFORMATION OPERATIONS

The recommendation includes reductions to certain information operation programs. Due to the classification of these activities, a table is included in the classified annex of the statement indicating the programs to which adjustments have been made. In addition, the Under Secretary of Defense (Comptroller) shall continue to submit a strategic communications and information operations programs report to the congressional defense committees not later than 30 days after the submission of the President's annual budget request to Congress. The report shall include supplemental budget justification materials for strategic communication programs to include information operations, military information support operations and influence activities of the Department of Defense for which base budget, supplemental or overseas contingency operations funds have been appropriated or requested over the fiscal year 2010 through 2012 period, including: program strategies, target audiences, goals, and measures of effectiveness; budget exhibits at the appropriations account and subactivity level; spend plans (including positions and other direct costs associated with the activity); and production and dissemination mechanisms and locations. The report shall identify any current or prior year funds provided that have been obligated or expended for activities other than those for which the funding was requested, or transferred either above or below the reprogramming threshold notification requirements and the purposes for which the funds were otherwise used. Finally, the report shall include an annex to explain and support classified information.

MARITIME SECURITY EXERCISE

The Secretary of the Navy is directed to develop and conduct a tabletop exercise to identify specific gaps in surveillance procedures, information collection and sharing and predictive capability concerning terrorist-related overseas movements of weapons of mass destruction components through international waters. This analytical exercise should utilize the Naval Postgraduate School or a similar government academic organization with substantial ties to the Department of the Navy and background in both maritime security and national security matters. This exercise is to be limited and targeted to determine where vulnerabilities lie in our nation's overall maritime security posture.

ENERGY SECURITY

The Secretary of Defense is to be commended for collaborative pilot projects that demonstrate a systems-level approach to energy security. The intent of these projects include such things as improvements to energy self-sufficiency, reduction of greenhouse gas emissions, and increased use of renewable energy sources. Some joint bases have been found to be well situated to conduct these projects which provide the foundation to replicate the energy security efforts at other Department of Defense installations, and therefore \$20,000,000 is provided for these Energy Security Pilot Projects. The fast track projects shall put these in-

stallations on a path to energy security within 18 months. Over the long term, the Department can use the fast-track pilot programs' foundational data, tools and process models to develop and implement a multiyear plan to achieve energy security at all Department of Defense installations. The Secretary of Defense is directed to provide an implementation plan to the congressional defense committees not later than 30 days after enactment of this Act, an initial status report of the pilot programs not later than March 15, 2011 and a comprehensive multiyear Energy Security Program plan not later than September 30, 2011.

MILITARY TIRES

To preserve a competitive and vigorous industrial base for military tires, the Director of the Defense Logistics Agency (DLA) is directed to: request that all contractors involved in any way with the Tire Procurement Initiative (TPI) provide DLA with any competitive tire pricing information they have received in connection with their performance of the TPI contract; make this information known to all interested contractors; report to the congressional defense committees not later than 45 days after enactment of this Act whether the requested information was provided; and, if the requested information was not provided, include in that report a plan for ensuring that real or perceived conflicts of interest related to the possession of this information does not undermine the integrity of future tire contracts.

MULTINATIONAL INFORMATION SHARING
PROGRAMS

The Secretary of Defense is directed to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act to include the following: a list of every program funded by the Department whose objective is to facilitate the secure exchange of electronic information between the United States and its partners and allies; the amount of funding provided to these programs in fiscal year 2010 and requested in fiscal year 2011; a plan for consolidating these programs into one program that can be used throughout the entire Department for the stated objective; and an explanation, if necessary, of why multiple information sharing systems are necessary and financially justified.

OUTSIDE LEGAL DEFENSE EXPENSES

The Secretary of Defense, in coordination with the Attorney General of the United States, is directed to provide a report to the congressional defense committees on the financial, legal, or other impacts of each of the following: amending public law to specifically make military personal eligible for reimbursement of legal bills when they successfully defend themselves against charges of abusing detainees; providing servicemembers Professional Liability Insurance to cover legal fees, similar to the insurance that is available to other Federal employees; and reimbursing the \$1,000,000 that the Congressional Budget Office estimates U.S. servicemembers have already had to pay for their own defense against these types of charges for which later, the charges were dismissed or the servicemember acquitted since September 11, 2001. The Secretary is directed to provide this report not later than 180 days after enactment of this Act.

JOINT ADVERTISING, MARKET RESEARCH AND
STUDIES

The recommendation includes \$7,972,000 for the Joint Advertising, Market Research and Studies (JAMRS) Program under the Defense Human Resources Activity. The funding is directed to be used for the costs associated with maintaining the JAMRS Recruiting

Database and the remainder to be used for market research and studies only related to recruiting medical health professionals.

READINESS AND ENVIRONMENTAL PROTECTION
INITIATIVE

The Readiness and Environmental Protection Initiative (REPI) program has contributed significantly to relieving encroachment pressures at military installations across the nation. Many military installations either include lands that serve as critical habitat for species or find that community develop-

ment on adjacent land threatens to impinge on operations. In order to expand the impact of the REPI program, the recommendation includes \$60,186,000 above the amount requested in the budget. In allocating funds appropriated for the REPI program, the Department is directed to consider proposals for acquiring property and easements to preserve Clear Zone areas, Accident Potential Zones, firing ranges, maneuver areas, and airfields on the same basis as all other proposals.

YOUTH MENTORING PROGRAM

The recommendation provides \$20,000,000 for Youth Mentoring programs. The Department of Defense is directed to allocate this funding on a competitive basis to activities that are in close proximity to Department of Defense installations.

ACQUISITION CATEGORIES

Category I (ACAT I) Major Defense Acquisition Programs (MDAPs) are the high-cost and special interest programs for which the Under Secretary of Defense (Acquisition, Technology and Logistics) (USD (AT&L)) retains decision authority and conducts more extensive senior-level management reviews. Programs are identified as ACAT I based on their estimated total costs in constant fiscal year 2000 dollars or as designated by the USD (AT&L). Programs costing more than \$365,000,000 in research, development, test and evaluation or more than \$2,190,000,000 in procurement are automatically considered ACAT I. However, a number of expensive and critical programs, such as the F-22 Raptor and C-17 Globemaster, are falling outside the ACAT I process despite their very high modernization costs. The current criteria for senior level review fail to capture some programs most deserving of that review.

The USD (AT&L) is directed to review the standards used to identify the various acquisition categories and provide a report detailing the steps taken to ensure that programs such as the F-22 and C-17 receive the oversight required of large programs. The report is due to the congressional defense committees not later than 180 days after enactment of this Act.

M4 CARBINE

Industry offers a wide array of commercially available upgrades to improve the reliability, lethality and accuracy of the M4 carbine. However, Army efforts to procure upgrades have not drawn fully on industry's capabilities. Therefore, the Secretary of the Army is directed to ensure that full and open competition maximizing the participation of industry is used in finding vendors for M4 carbine upgrades.

HIGH MOBILITY MULTI-PURPOSE WHEELED VEHICLE

Fiscal year 2011 funding of \$989,067,000, the President's request, is recommended for High Mobility Multi-Purpose Wheeled Vehicles (HMMWV), with all funding intended for recapitalization of old HMMWVs and no funding for procurement of new HMMWVs. The Army has been slow to execute fiscal year 2010 funds that were appropriated by Congress as requested by the Army for the procurement of new HMMWVs. The Secretary of the Army is directed to act promptly to obligate the funds appropriated for the procurement of new production HMMWVs in the Department of Defense Appropriations Act, 2010.

BRADLEY FIGHTING VEHICLE

The Congress has been a strong supporter of the Bradley program. It is noted that not all Army National Guard Bradley Fighting Vehicles have been upgraded to a minimum of the Operation Desert Storm Situational Awareness configuration. The Army is expected to use prior year funds to upgrade remaining M2/M3 variants in the Army National Guard.

HIGH MOBILITY ENGINEER EXCAVATOR

In 2007, the Army successfully fielded a high speed, armored, self-deployable excavation system with attachments to execute a wide range of mobility, counter-mobility, survivability, and general engineering missions. It also satisfies specific transportability requirements allowing it to be used by airborne, air assault and light units. Since its fielding, the Army has employed this excavator with great success, especially with regard to route and mine clearing as it provides vastly improved force protection and soldier survivability for engineers performing mine and improvised explosive device clearing missions. The Marine Corps is reviewing the performance of this excavator and is considering adding it to their requirements documents. The Corps is encouraged to procure this machine and to include funding in future Marine Corps budget requests.

EVOLVED EXPENDABLE LAUNCH VEHICLE PRICING

The Secretary of Defense, in consultation with the Director of the National Reconnaissance Office, is directed to analyze the pricing strategies for Evolved Expendable Launch Vehicle (EELV) Launch Services (ELS) that will support both United Launch Alliance and Tier 2 and 3 supplier stability and encourage broader demand for ELS capabilities. This analysis should stress recovery of the marginal costs of the booster alone rather than the fully allocated costs of the EELV Launch Capability contract. The results of this analysis shall be reported to the congressional defense and intelligence committees not later than 90 days after enactment of this Act.

SPECIAL OPERATIONS COMMAND UNFUNDED REQUIREMENTS

The recommendation includes additional funding to address critical capability shortfalls in procurement and research and development for which a requirement has been identified by Special Operations Command (SOCOM) and funding was not included in the fiscal year 2011 budget submission. These program increases are provided in several

lines in "Procurement, Defense-Wide", and "Research, Development, Test and Evaluation, Defense-Wide". This funding should be executed in support of the prioritized unfunded requirements SOCOM has identified and/or submitted to the congressional defense committees. In this regard, funding is provided for the tactical vehicle unfunded requirement identified by Air Force Special Operations Command (AFSOC).

PRINTED CIRCUIT BOARD INDUSTRIAL BASE

The shift in the Department towards commercial off-the-shelf electronics has caused an increased dependence on off-shore circuit boards and a decline in the Nation's printed circuit board industrial base, possibly compromising our Nation's security. Therefore, the Secretary of Defense is directed to conduct an assessment of the domestic circuit board industry and its associated supply chain. This assessment should include a survey of the current capability and capacity of, along with the associated risks to, the domestic printed circuit board industrial base, a forecast of the long term maintenance requirements of the industrial base and an evaluation of the supply base required to ensure that current and future national security requirements can be satisfied domestically. The results of this assessment shall be reported to the congressional defense committees not later than six months after enactment of this Act.

C-17A GLOBEMASTER III

No funds are provided in the bill to acquire additional C-17 airlifter aircraft. Funding provided for C-17 Post Production Support is to protect needed production capabilities, assets, systems and processes for the continued life cycle support of the C-17. The C-17 is not to be used as a source for reprogrammings. The Department is directed to retain appropriated funds in the program.

JOINT SURVEILLANCE TARGET ATTACK RADAR SYSTEM (JSTARS) RE-ENGINEING

While no funds are provided specifically for the re-engineing effort in the fiscal year 2011 bill, there is substantial unobligated funding available from prior fiscal year appropriations within the JSTARS program. The Air Force may, as needed, use those funds to procure engine ship-sets.

SOFTWARE DEVELOPMENT COST ESTIMATION

The Secretary of Defense is directed to provide the congressional defense committees a report, not later than 90 days after enactment of this Act, on its analysis identifying the common attributes of successful software intensive programs. The report should include the required metrics, data, and resources that are needed and used to better estimate and baseline future Department of Defense software program developments.

CONTRACT MANAGEMENT SERVICES PILOT PROGRAM

The Department of Defense has recently started a pilot program, in conjunction with the Ability One Services program, in which wounded veterans are trained and employed to conduct contract closeout activities. Thus far, in the infancy of the effort, millions of dollars have been recouped and over 1,500 contracts have been closed out with no rework required. The program could reasonably achieve a ratio of 10:1 return on investment. The recommendation provides an additional \$12,000,000 in the "Research, Development, Test and Evaluation, Defense-Wide" appropriation to expand this pilot program. The Director of Defense Procurement and Acquisition Policy shall be responsible for the management of this pilot program and shall provide a quarterly report to the congressional defense committees on the progress of the pilot program.

BIOMETRICS

Due to concern that the fiscal year 2011 request for biometrics funded duplicative efforts, the recommendation decreases biometrics funding by \$12,000,000. To ensure the program benefits from information technology best practices, the Secretary of the Army shall submit a report not later than 90 days after enactment of this Act which details: how biometric data will interface with and leverage the Army's Digital Common Ground System's cloud architecture that allows for real-time updates, device agnostic tactical nodes, and existing cross domain security capabilities that handle U.S. persons data; how the next generation biometric database configuration incorporates the lessons learned from earlier large intelligence database software license acquisitions; and how military intelligence program funding and non-military intelligence program funding will be determined for biometric programs going forward.

EXPEDITIONARY FIGHTING VEHICLE

A total of \$222,265,000 is provided for the Expeditionary Fighting Vehicle, including

\$145,265,000 for termination liability. Funds designated for termination liability may be released for use in system development and demonstration activities upon certification by the Secretary of Defense to the congressional defense committees that testing on prototype vehicles has demonstrated sufficient confidence to meet program requirements.

BONE MARROW REGISTRY

The recommendation includes \$31,500,000 for the Department of the Navy, to be administered by the C.W. "Bill" Young Marrow Donor Recruitment and Research Program, also known as and referred to within the Naval Medical Research Center as the Bone Marrow Registry. Funds appropriated for the C.W. "Bill" Young Marrow Donor Recruitment and Research Program shall remain available only for the purposes for which they were appropriated, and may only be obligated for the C.W. "Bill" Young Marrow Program. Further, the agencies involved in contingency planning are encouraged to continue to include the C.W. "Bill" Young Marrow Donor Recruitment and Research Program in the development and testing of their contingency plans. The Base for Reprogramming (DD Form 1414) shall show this as a congressional special interest item. The Department is further directed to release all the funds appropriated for this purpose to the C.W. "Bill" Young Marrow Donor Recruitment and Research Program not later than 60 days after enactment of this Act.

COMMON DATA LINKS

The Secretary of the Air Force is directed to research, define and test a government specified interface that ensures open access to configuration commands between the host platform and common data links (CDL). Once defined, the Air Force should include this interface into the existing CDL family of specifications for new CDL terminal procurement contract awards. Recognizing the benefits of multiple vendors supplying competitive offerings for this vital communication service, the Secretary of Defense is encouraged to ensure that all Department of Defense platforms employing CDL shall adopt the Air Force defined CDL interface and that multiple vendor participation occurs in the further development of CDL family of specifications.

BEST INDUSTRIAL PROCESSES FOR DEPARTMENT OF DEFENSE DEPOTS

The recommendation includes \$8,000,000 to be used for the analysis of emerging technologies and best industrial processes for in-

sertion into the Department of Defense maintenance depots. The funding will help the Department identify technological gaps, perform return on investment analyses and conduct procurement studies based on business case analyses studies.

GROUND MOVING TARGET INDICATION (GMTI) RADAR DEVELOPMENT

The recommendation provides \$12,000,000 for Ground Moving Target Indication (GMTI) Radar Development to conduct studies and analysis on candidate GMTI radar technologies which could lead to the development of platform-independent prototypes to demonstrate critical technical parameters (range, minimum detectable velocity and target location error) to support initial integration with air vehicles such as the E8 Joint Surveillance Attack Radar System, the Navy's P8A Multi-mission Maritime Aircraft, RQ4 Global Hawk or others. The Secretary of the Air Force is directed to provide an execution plan for these funds not later than 60 days after enactment of this Act to the Committees on Appropriations of the House and the Senate. Subsequent updates shall be provided at the beginning of the first and third quarter of each fiscal year until all funds are obligated and expended.

DEFENSE ADVANCED RESEARCH PROJECTS AGENCY (DARPA)

The Director of DARPA is directed to provide to the congressional defense committees, not later than 60 days after enactment of this Act, a report detailing by program element and project the application of undistributed reductions.

CHEMICAL TESTING ON ANIMALS

The Secretary of the Defense is directed to report to the congressional defense committees, not later than 90 days after enactment of this Act, on the impact of reducing or restricting funds provided for the purchase of animals for the purposes of demonstrating the effects of chemical agents on the animals.

vide a report to the congressional defense committees on the obstacles and steps toward such transmission not later than 60 days after enactment of this Act.

AFGHANISTAN INFRASTRUCTURE FUND

At the request of the Secretary of Defense and the Secretary of State, the recommendation includes a new appropriation to fund infrastructure projects in Afghanistan. These projects will be jointly formulated by the Department of Defense and the Department of State and will be executed in support of the counterinsurgency strategy in Afghanistan. The Secretary of Defense is directed to notify the appropriate committees of Congress not fewer than 15 days prior to making transfers or obligations to or from this Fund.

AFGHANISTAN SECURITY FORCES FUND

The Secretary of Defense is directed to follow guidance included in Senate Report 111-295 regarding the oversight of the Afghanistan Security Forces Fund (ASFF) and contracts, except for the following changes. The ASFF Executive Council shall include representatives from the Under Secretary of Defense (Comptroller); Under Secretary of Defense (Acquisition, Technology, and Logistics); the senior contracting executives of the Defense Logistics Agency and relevant military departments; Commander, Central Command; Commander, NTM-A/CSTC-A; Director, Defense Security Cooperation Agency; Director, Defense Contract Audit Agency (DCAA); and Director, Defense Contract Management Agency (DCMA) and shall meet on a quarterly basis at a minimum. The Council shall ensure the development of an acquisition strategy to fulfill the commander's needs and clearly articulate contract requirements. Appropriate procedures and personnel shall be in place in CONUS and Afghanistan for sound financial steward-

ship of the ASFF to include following all required federal regulations, oversight of all service and equipment contracts, and review of contractor invoices. DCMA and DCAA are responsible for pre and post-award peer reviews for large contracts and the Council shall ensure the distribution of peer-review lessons learned. In addition to the responsibilities outlined above, the Steering Council should encourage building the capacity of Afghans to perform contracting, accounting and payroll functions that are currently being performed by Department of Defense and contract personnel.

TASK FORCE FOR BUSINESS AND STABILITY OPERATIONS IN AFGHANISTAN

Temporary authority has been included for the Task Force for Business and Stability Operations in Afghanistan only for fiscal year 2011 to assist the International Security Assistance Force and the U.S. Embassy, Kabul in developing economic stability and opportunity in Afghanistan through strategic business and economic projects. Those efforts must be jointly coordinated and approved by the U.S. military and civilian leadership in Afghanistan, and be directly linked to the Government of Afghanistan's economic development strategy. Projects may only be carried out subject to the direction and oversight of the Secretary of Defense and with the concurrence of the Secretary of State.

This authority has been granted in order to avoid disrupting projects currently underway that are viewed by the leadership of both U.S. Forces—Afghanistan and U.S. Embassy, Kabul as important to achieving U.S.

objectives in Afghanistan. These projects clearly fall outside the normal jurisdiction and expertise of the Department of Defense and should have been developed and resourced by the Afghan government or U.S. civilian entities operating in Afghanistan. If it is required to continue these projects and efforts beyond fiscal year 2011 then the Department of Defense, in coordination with the Department of State and the U.S. Agency for International Development must develop and implement a transition plan to the respective civilian entities for fiscal year 2012 and beyond. This transition plan shall be delivered to the Congress concurrent with the President's fiscal year 2012 budget submission.

INFORMATION OPERATIONS

The Overseas Contingency Operations budget request includes \$61,000,000 for information operations programs in Iraq. The recommendation fully funds the request. However, it is directed that not more than \$31,000,000 of the funds provided may be expended by the Department of Defense until 15 days after the Undersecretary of Defense (Comptroller) submits a report to both the Committees on Appropriations of the House and the Senate which details in writing a formal spending plan for all fiscal year 2011 funding provided for this purpose.

INTELLIGENCE, SURVEILLANCE AND
RECONNAISSANCE (ISR) PROGRAMS

The Act includes an increase of \$112,000,000 for an ISR Sensor Pilot Program (Research, Development, Test and Evaluation, Air Force). These funds are provided to allow the Secretary of the Air Force the opportunity to fund programs that may provide game-changing capabilities with significant savings to the taxpayer. The Secretary of the Air Force shall fund at least one Predator C aircraft as a prototype platform and shall fund a prototype capability using commercial-off-the-shelf long range, dual-band electro-optical/infrared solutions for the

MQ-9 that are currently in use by partner nations and derived from sensors currently utilized on the Air Force's U-2. Further, the Secretary of the Air Force shall review other programs such as active near-infrared imaging for high resolution ISR, counter-IED capabilities, sensors which provide signals intelligence tracking capability, and/or a sensor testbed aircraft as a surrogate platform for MQ-9 testing. The Secretary of the Air Force is directed to provide an execution plan for these funds not later than 60 days after enactment of this Act and prior to obligation to the congressional defense committees. Subsequent updates shall be provided at

the beginning of the first and third quarter of each fiscal year until all funds are obligated and expended.

REVOLVING AND MANAGEMENT FUNDS
DEFENSE WORKING CAPITAL FUNDS

For the Defense Working Capital Funds, \$485,384,000 is provided for fiscal year 2011.

EXTENSIONS OF REMARKS

HONORING GEORGE P. SHULTZ

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Ms. PELOSI. Madam Speaker, I rise today to celebrate the 90th birthday of a great leader, a true public servant, and a proud resident of San Francisco: George Pratt Shultz.

Secretary Shultz has lived by the mantra he set forth during his decades of service: "You've got to dream a little bit if you're going to get somewhere." Throughout his life, he dreamed more than "a little bit"—and his dreams led him to the height of academia, government, and business.

His dreams led him to the Marine Corps during World War II. They led him to become a celebrated and decorated professor of economics at some of our most prestigious institutions of higher learning. And they certainly drove him to "get somewhere" in the public square: serving as an advisor to Presidents; as a Director of the Office of Management and Budget; as the Secretary of the Treasury, Labor, and State.

In the closing years of the Cold War, as our leading diplomat, Secretary Shultz was a powerful, passionate voice for American values around the world—negotiating when possible to advance the interests of the United States; standing firm when necessary to defend our country; striving for peace among nations and advocating on behalf of our strong moral leadership worldwide.

In recent years, Secretary Shultz brought his experience and wisdom to two critical challenges facing our country and our planet: climate change and nuclear non-proliferation.

He understood that global warming is a threat to our national security, our economy, and our environment. And in California, he joined the campaign to halt efforts to weaken environmental protections—and fought to strengthen our clean energy future.

Forever a statesman, he issued a clarion call to build a world free of nuclear weapons, recognizing that these instruments of war are no longer necessary in this day and age, and represent a threat to global security now and in the future.

Known for his dynamic partnerships over the years, Secretary Shultz has no greater partner than his wife, Charlotte Maillard Shultz. When Charlotte served as Chief of Protocol for the city and county of San Francisco, and for the state of California, Secretary Shultz supported her with his own diplomatic acumen. Today, their partnership, in both the public and private spheres, continues to enhance our city.

Secretary Shultz has always been, and will always remain for Paul and me, a patriot, a dedicated public servant, and a friend. An economist, a business leader, and a statesman: George Shultz followed his dreams. And on his 90th birthday, we honor his service.

SENIORS PROTECTION ACT OF 2010

SPEECH OF

HON. RUSH D. HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 8, 2010

Mr. HOLT. Mr. Speaker, as a cosponsor of the Seniors Protection Act of 2010, I rise to express support for this important bill.

Last week, the House had the opportunity to provide relief for millions of seniors, veterans, and disabled individuals.

For 75 years, and through numerous recessions, Social Security has been a steady source of income. Since 1975, Congress has implemented automatic cost-of-living-adjustments for Social Security to guarantee that Social Security benefits are protected against the effects of inflation.

The cost-of-living-adjustment for Social Security is calculated automatically using data on inflation published by the Bureau of Labor Statistics and is not a deliberate decision by Congress. I support a fairer cost-of-living calculation for Social Security in order to keep pace with the actual increases in the true costs of living for seniors. That is why I am a cosponsor of H.R. 2365, the Consumer Price Index for Elderly Consumers Act of 2009, which would change the calculation of the cost-of-living-adjustment for Social Security to reflect consumption patterns which are typical for seniors.

For the first time ever, there will be no automatic cost-of-living-adjustment for Social Security for the second consecutive year. Since there was no cost-of-living-adjustment increase for 2010, the formula used to calculate the adjustment required a comparison with 2008 costs, a year when prices were historically high. Even through the average costs of health care, food, and other essentials did increase this year compared to 2009 that was not considered by the formula. Unfortunately, this resulted in no increase in monthly benefits for millions of Americans who depend on Social Security, SSI, VA Pension and Compensation, and Railroad Retirement for the second year in a row while their real costs of living have gone up.

American seniors, disabled workers, and survivors or spouses and children of retired or disabled workers rely on Social Security benefits. For example, 60 percent of American seniors rely on Social Security for a majority of their income and 30 percent of seniors rely on Social Security for more than 90 percent of their income. With Social Security benefits being modest, only \$14,000 for the average retiree, the lack of a cost-of-living-adjustment is troubling.

The Seniors Protection Act of 2010 would provide Social Security beneficiaries with a one-time payment of \$250 to offset the lack of a cost-of-living-adjustment. This bill would provide relief for 54 million seniors, veterans, and disabled individuals. In my state of New Jersey, this bill will provide assistance to over 1.5 million individuals.

Since its inception in 1935, Social Security has provided a guaranteed benefit to hundreds of millions of retired and disabled workers and their families. For seniors, Social Security has provided financial security, independence, and dignity in their retirement years. I believe that Congress has a duty to ensure that their benefits are protected.

Congress had a chance to provide relief to millions of Social Security beneficiaries with a one-time \$250 payment. Unfortunately, Republicans blocked this measure that would have provided much needed relief to our seniors, veterans, and disabled Americans.

HONORING RONALD G. YELENIK

HON. CHRIS VAN HOLLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. VAN HOLLEN. Madam Speaker, I rise today to honor Ronald G. Yelenik, Assistant General Counsel in the Office of the General Counsel at the U.S. Consumer Product Safety Commission (CPSC). Mr. Yelenik is retiring after 35 years of distinguished service at the CPSC.

Mr. Yelenik began his career at the CPSC in 1975. Prior to joining the CPSC staff, he was a Law Professor at Antioch School of Law, a Director of East New York Legal Services, a staff attorney at Brownsville Legal Services, and a Peace Corps volunteer in Costa Rica.

Mr. Yelenik has held various legal positions at the CPSC, chiefly within the Office of Compliance and Field Operations, and most recently in the Division of Compliance within the Office of the General Counsel. He currently manages a staff of 12 attorneys, providing leadership in devising legal strategies to ensure that manufacturers, importers, distributors, and retailers of dangerously defective and hazardous products are held responsible for harm caused to consumers. Over the years, he has been an excellent mentor to staff attorneys and legal interns.

Over the course of his long and distinguished Federal career, Mr. Yelenik helped negotiate numerous major product recalls with such firms as Wal-Mart, Cosco, and Fisher-Price. The Fisher-Price recall involved ten million battery-powered Power Wheel ride-on cars that presented a fire hazard to children. This toy recall was one of the largest and most expensive recalls in CPSC's history.

Mr. Yelenik has also served as lead counsel in some of the largest monetary civil penalty cases in the CPSC's history for reporting violations under section 15(b) of the Consumer Product Safety Act. The cases include a \$4 million civil penalty against the McDonald's Corporation in 1999; a \$1.75 million penalty against Dorel USA (Cosco/Safety 1st) in 2001; and a \$1.1 million penalty against Fisher-Price in 2001. In 2009, he negotiated a \$2.3 million civil penalty against Mattel for multiple violations of the lead paint ban in children's products. The Mattel violations were one of the catalysts that led to the passage of the Consumer Product Safety Improvement Act of 2008.

During his tenure at CPSC, Mr. Yelenik has played a major role in protecting the public from unreasonable risks of injury posed by consumer products. He has demonstrated inspiring leadership and has been a valued employee at the CPSC.

Madam Speaker, I am honored to thank Ronald G. Yelenik for his honorable service to

our Nation and I wish him a rewarding retirement.

HONORING THE 75TH ANNIVERSARY OF THE MISSISSIPPI VALLEY FLOOD CONTROL ASSOCIATION

HON. ED WHITFIELD

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. WHITFIELD. Madam Speaker, I rise today to recognize the 75th anniversary of the Mississippi Valley Flood Control Association. This Association was instrumental in reforming the flood and navigation system along the Mississippi River after the 1927 flood, which was one of the greatest peace-time disasters our nation has seen. This disaster wrecked the levee system and devastated over 12 million acres and drove 600,000 people from their homes. Losses were estimated at \$400 million.

A shining star in this disaster was the quick work of this Association by organizing a congressional tour at the height of the flood by special train and boats. This effort paved the way for legislation developing the Mississippi River and Tributaries Project to build a levee system to tame the Mississippi River's forces. Today, this levee system still protects hundreds of thousands of families from flooding and facilitates transportation in our inland water ways system.

The Association still lives on under the great leadership of Mr. George Grugett. Mr. Grugett's career is an example for all of us to follow. He has served as the Executive Vice President of the Mississippi Valley Flood Control Association since 1980. During his service to this Association, he has successfully brought together Members of Congress, senior officials within the Army Corps of Engineers, and levee boards along the Mississippi River in order to promote and develop the flood and navigation system that is so important to our economy.

I can confidently say that with Mr. Grugett's leadership we have made numerous strides in the areas of flood control and water naviga-

tion. I ask the entire House to join with me to commend Mr. Grugett for his leadership and dedication to this Association as it marks its 75th anniversary.

IN HONOR OF PAT LOE

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. FARR. Madam Speaker, I rise today to honor Pat Loe, on the occasion of her retirement from the San Benito County Board of Supervisors. It has been a pleasure working with Pat on various projects and she will be missed by many.

Pat is a lifelong resident of San Benito County. Prior to her service on the San Benito County Board of Supervisors, she worked for Tiffany Motor Company for 34 years.

Pat first began her career in politics when she was appointed to the San Benito County Planning Commission where she served for 10 years. Her leadership on the Commission prepared her to run for a seat on the Hollister City Council. Pat served on the council for four years and made some momentous advancements for women. She became the first woman to break the glass ceiling and serve as Mayor for the City of Hollister allowing many other councilwomen to follow suit.

On March 5, 2002, Pat was elected to the San Benito County Board of Supervisors, District 3. The County district seat is unique, wholly within an urban area, geographically in central Hollister, defined by its established homes, and its population is dominated by longtime Hollister residents. Pat was reelected on June 6, 2006 to serve a second term of four years. She was Chair of the San Benito County Supervisors in 2006 and also served as Vice-Chair in 2010.

Pat served on various committees including the Council of Governments, Local Agency Formation Commission, Veterans Park Commission, Children and Families First Commission, Community Action Board, Intergovernmental Committee, Juvenile Justice Commission, Local Task Force, Behavioral Health Board, Monterey Bay Unified Air Pollution Control, Association of Monterey Bay Area Governments, City Revolving Loan Fund Committee, Gang Prevention Task Force, and National Association of Counties. She also served on various sub-committees: Community Development Block Grants, Ethics, Library Vision Committee, Governance, Redevelopment, Agency Revolving Loan Fund Board, and New Courthouse Project. She also served on other community organizations such as the Homeless Task Force, Emmaus House and Relay for Life.

Madam Speaker, on behalf of the House of Representatives, I would like to extend our Nation's deepest gratitude to Pat Loe for all of her years of service. I wish her well and hope she enjoys the time with her family and friends. This is not a goodbye for I know that Pat will continue to serve the County of San Benito on other capacities. Pat clearly loves the County of San Benito, and she's changed

it, for the better—with her unique brand of gentle persistence.

A SALUTE TO THE HONORABLE RICHARD L. HUGHES FOR HIS 15 YEARS OF PRINCIPLED SERVICE ON THE 67TH DISTRICT COURT

HON. GARY C. PETERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. PETERS. Madam Speaker, I rise today and ask my colleagues to join me as I salute Richard L. Hughes upon his retirement from the 67th District Court in Burton, Michigan, after 15 years of proud and principled service.

Judge Hughes was first appointed to the bench in 1994. He ran successfully for the balance of the judicial term in 1996, and was twice re-elected to the position in 1998 and 2004. But his tenure on the bench was merely a capstone to his many years of formal public service. Dick's story is truly the archetype of "local boy makes good." Not many years after graduating from the Detroit College of Law in 1968 and practicing law in Detroit for a time, Dick and his wife Suzanne moved their young family to their long-time homestead in Otisville, just miles from where he was raised.

Dick practiced law in the community for 26 years before his appointment. During that time and continuing today, Dick was active in his church and as a Rotarian in the Davison and Burton clubs.

In formal service to the community, Dick truly carried on a long family tradition of holding public office. He was urged by community members to serve on the Lakeville School Board when the district was in the midst of challenging financial times. He served nearly a decade, and 6 years as president. True to his nature and sense of practicality, Dick successfully reduced the board member's compensation to just \$1 a year during the lean years.

When Dick was appointed to the 67th District Court bench in 1994, he was presented the gavel of our great-great grandfather Julian Peters who was Justice of the Peace for 24 years in Rochester, Michigan. We are all grateful that Dick has carried on our family's tradition of proud public service in the judicial branch of government.

I know that Dick's thoughtful expertise on the bench will be missed. The Burton community is fortunate, however, that Dick's son-in-law Mark Latchana will carry on Dick's tradition of proud and principled service after Mark's successful election to the seat this past November.

Madam Speaker, I ask that my colleagues join my salute to my cousin, Dick Hughes, for his commitment to excellence on the bench, his dedication to community and family, and his tireless service to the public. I wish Dick, his wife Suzanne, their children Beth and Michael and their families the very best enjoyment of Dick's formal retirement. I have no doubt that although he is shedding the black robe, his service to the community will continue in earnest for many years to come.

“THIS LAND IS MY LAND”—CSM
ROCKY SHAPLA, UNITED STATES
ARMY

HON. GEOFF DAVIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. DAVIS of Kentucky. Madam Speaker, today I rise to honor a great American story, and patriot, Command Sergeant Major Rocky Shapla of Murray, Kentucky. CSM Shapla has lived the American Dream, arriving in the U.S. from Yugoslavia at the age of 15. With nothing but the shirt on his back he would rise up to become a CSM in the United States Army . . . because of his leadership and drive. He has fought in wars, just like all of our forefathers who wear the name Patriot . . . because of their service to country. With over 41 years in the service, his resume is an outstanding one to say the least. Rocky has been recovering from injuries sustained in Iraq. He loves the Army, and he loves this country. As he put it, “only in America can you come here without nothing, rise up to become a CSM in the United States Army, and have dinner at the White House with the President. Its time for this Kentucky Thoroughbred to come back home to that blue grass that he so loves, Kentucky and his family. I ask that this tribute penned in his honor by Albert Caswell be placed in the RECORD.

THIS LAND IS MY LAND

This land is my land . . .
This land is our land . . .
All in this Country Tis of Thee so grand . . .
Are but born, such fine son's . . . such son's
of liberty who stand . . .
But, some sons come from far across the seas
. . .
To but live the American Dream . . .
So many of our future great Americans, new
daughters and sons . . .
Who but new lives have begun . . .
All in their fine pursuit, of most precious
freedom . . .
Who raise their hands and take that oath
. . .
With tears in eyes, as all in their hearts as
this means the most . . .
The ones who do it the right way . . .
But, with their own fine lives, are but will-
ing to pay!
As they assimilate, into this great melting
pot . . . as its for them we pray . . .
The ones who will so proudly, wear that uni-
form . . .
As in their fine hearts, their love of country
beats ever on . . .
Willing to face death, giving up all until
none lies left . . . as they march on . . .
Living the American Dream, raising a fine
family . . . daring to dream!
Rising up through the ranks, into a Com-
mand Sergeant Major . . .
As to him, Rocky we give such thanks . . .
From one war to the next, Rocky's fine life
for us has so been pledged!
Melding into, one of America's most finest
sons!
Yes land is your land, is our land . . .
Training and leading, all of our most coura-
geous daughters and sons . . .
Succeeding, for Rocky was a man on a mis-
sion!
Coming to this new world, with but his great
dreams and visions unfurled . . .
A man who fell in love three times . . .
With his Country, his Wife . . . and the
United States Army . . . double time!
And his children, and Kentucky make five!

To live a great life, all in that old Kentucky
Clay . . .
This great land of Lincoln, Ali, and most be-
loved Henry his dreams were made . . .
Doing it, doing the Right Way . . . the Amer-
ican Way . . .
Only in America, can one travel across the
seas, and a Command Sergeant Major
rise up to be . . .
And raise a fine family, and live the dream
. . . a shake the President's hand it
seems!
For hearts of courage full, and fine patriots
. . . who live by that golden rule . . .
Coming across the shores, with hearts of
dreams so very full . . .
This Land is my land, this land is our Land
. . . may live the American Dream so
true!

IN HONOR OF TONY CAMPOS

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. FARR. Madam Speaker, I rise today to honor a model public servant who dedicated his life to the betterment of the Pajaro Valley on California's central coast. Tony Campos, a native of the Pajaro Valley, has served his community as a city councilmember, a mayor, and a county supervisor since 1987. His leadership and dedication has resulted in many successes. Moreover, his loyalty and compassion made him a dear friend to me and many others.

Tony was born and raised in the Pajaro Valley, graduated from Watsonville High School and attended Cabrillo College. He spent fourteen years working in the sprawling agricultural fields with his father. From this strong foundation, Tony sought to continue his success by becoming a small-business owner. However, the biggest success in his life came in March of 1977 when he married Becky Tegenkamp.

In 1987, Tony was elected as to the Watsonville City Council. He was the first Latino elected to the City Council since the city's incorporation in 1868. Two years later, he demonstrated exemplary leadership in the Loma Prieta earthquake and its aftermath. As Mayor of Watsonville, Tony led the city through one of its worst natural disasters when the Pajaro River overflowed, flooding large portions of the Pajaro Valley.

In June of 1998, Tony became the first Latino elected to the Santa Cruz County Board of Supervisors since 1853. For twelve years, he fought tirelessly to improve social and health services in the county. Moreover, as Chairman of the Board, Tony has brought further attention to the needs of seniors, Latinos, young people, and farm workers. Recently, Tony accomplished his goal of equal access to the courts and other government services by playing an instrumental role in the construction of the new Watsonville Civic Center.

Madam Speaker, it is my honor to recognize this community leader and to applaud him for his tenure on the Santa Cruz County Board of Supervisors. As Tony begins the next chapter of his life, he will continue to be a strong advocate for the Pajaro Valley and the Central Coast. I wish my friend and his lovely wife all the best in their future endeavors.

RECOGNITION OF HUGH DORRIAN FOR HIS SERVICE TO THE COM- MUNITY

HON. MARY JO KILROY

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Ms. KILROY. Madam Speaker, I rise today to recognize Hugh Dorrian as he is honored by the Greater Columbus Irish Cultural Foundation. He has been a man of honor in politics, something rare in these times. I cannot remember him ever running a negative ad or engaging in a personal attack on an opponent. He is recognized by the citizens of Columbus as someone who serves with great integrity and in whom they have placed their trust and confidence to safeguard public resources. In office, he does not play partisan politics. He may not give other officials the answer that they want to hear, but he can be counted on to give what he sees as the correct answer about public funds, the budget and spending.

Hugh Dorrian is a man of faith, a devoted husband and father, and his name is well-known in the Irish American community.

As Columbus City Auditor for over four decades, Hugh has seen many changes yet remained steadfast in his commitment to managing the City's fiscal resources. He was awarded the Certificate of Excellence in Financial Reporting from the Government Finance Officers Association for 30 consecutive years.

Hugh has received numerous accolades throughout the years including the St. Charles

Preparatory School Borromeo Medal for Distinguished Alumni Achievement, the Ohio State University School of Public Policy Outstanding Local Public Service Award, the City of Columbus Equal Business Opportunity Department Minority/Female Business Advocate Award, the Ohio Government Finance Officers' Association Ethics in Government Award and Lifetime Achievement Award. He served on the Police and Firemen's Disability and Pension Fund of Ohio Board of Trustees, was a member of the Investment Committee from 1973 to 1992 and sat on the advisory board at St. Charles Preparatory High School for several years.

A Certified Public Accountant and alumnus of the Ohio State University, Hugh lectured at the Graduate School of Public Policy and Management teaching Governmental and Non-profit Accounting from 1984 to 2006 while simultaneously holding elective office. In 1991, he taught an accounting and auditing seminar in Russia at the request of the Leningrad-St. Petersburg City Council.

Also distinguished in service to his church, Hugh was awarded the Pro Ecclesia et Pontifice (For the Church and the Pope) medal by Pope John Paul II, the highest honor given to a member of the laity. Hugh's many honors and awards have made him the subject of feature articles in several local publications and he is beloved in our community.

I ask my colleagues to please join me in congratulating Hugh Dorrian as he is honored once more for his lifetime of public service and dedication to the people of Columbus, Ohio.

DEVELOPMENT, RELIEF, AND EDUCATION FOR ALIEN MINORS ACT OF 2010

SPEECH OF

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, December 8, 2010

Mrs. MALONEY. Mr. Speaker, I rise today in support of the DREAM Act, bipartisan legislation that would provide a path to legal status for undocumented youth who entered the U.S. as children, graduated from U.S. high schools, and attend college or enter the military.

I would like to thank Speaker PELOSI and Leader HOYER for bringing this important legislation up for a vote on the House floor today. I also would like to thank Rep. LUIS GUTIERREZ, who sponsored this bill in the House and has worked so hard for its passage.

Our nation's history is rooted in the strength of immigrants. As New Yorkers, my constituents have a special understanding of how America's melting pot can create a rich tapestry of ethnic, cultural and religious traditions that infuse vitality into the economic and social aspects of our communities.

I strongly believe that by protecting the rights of workers, securing the border, and modernizing our pathway to legal immigration, the hope that we can fix our broken system will become a reality.

Under the DREAM Act, qualified students would be eligible for conditional immigration status upon high school graduation that would then lead, after a period of 10 years and a rigorous process, to permanent legal residency if they go to college or serve in the military.

We cannot deny these students the opportunity to pursue education—especially when the alternative is often working illegally. Despite what some opponents of this legislation claim, the DREAM Act would not grant special benefits to qualified students. In fact, students may only access benefits they work for, or pay for.

This bill would allow a limited number of hard working students, who were brought to this country as children, to be rewarded for their success, and in the process, produce thousands of college graduates contributing to economic productivity and eligible youth ready to serve this nation through military service.

I am proud to be a cosponsor of this important legislation and urge my colleagues to support it.

IN HONOR OF RAFAEL REYEZ
DAVILA

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. KUCINICH. Madam Speaker, I rise today in honor of Rafael Reyez Davila of Cleveland, Ohio, on the occasion of his being honored by the American Nationalities Movement, and for his lifetime of service and commitment to his community.

Mr. Davila attended local elementary and high school and graduated from Cuyahoga Community College in 1965 with an associate's degree in accounting. He worked at the Lowe Marschalk Advertising Agency, where he rose to the position of Senior Vice President of Finance and Administration before leaving in 1986. By the end of his fifteen-year career with Marschalk, Mr. Davila was directly supervising fifteen staff members and was instrumental in hiring the entire office staff of about 100.

In 1989, Mr. Davila founded Davila and Associates Advertising Agency. His experience and knowledge of the Latino community gave him the expertise to start Ohio's first advertising agency with a specialty in the Latino market. Davila and Associates has been very active in the Cleveland community since its founding, hosting its First Annual Latino Business Seminar in 1992, first publishing its monthly Hispanic Entrepreneur Bulletin the same year, and currently working to publish "The Latino Entrepreneur Business Directory of Ohio" in 2011.

Mr. Davila has held many positions in Cleveland's Latino community; some of the local organizations in which he has served include the Hispanic AIDS Task Force, Esperanza, Image, the Hispanic Business Association, the Cleveland Hispanic Republican Party, Latino Entrepreneur International, and the Ohio Bicentennial Advisory Council. He has also been a member of the U.S. Hispanic Chamber of Commerce from 1988 to the present, the president of the Hispanic Athletes Network, which he founded in 1991, and founder and current president of Latinos Unidos.

Madam Speaker and colleagues, please join me in honoring Rafael Reyez Davila for his lifetime accomplishments and service. His commitment to the Latino community and the greater Cleveland area shows in his clear

dedication to helping others, and his leadership in community organizations has changed the lives of countless people in a positive way.

First elected to Humboldt County's 4th Supervisorial District on November 3, 1986, Ms. Neely has been an outstanding public servant with a reputation for astute knowledge of local issues, creative problem solving and compassion for people. She has proven herself as a skilled collaborator and tireless advocate for the citizens of Humboldt County.

Throughout her tenure as Supervisor, Ms. Neely has provided strong and resourceful leadership on community issues ranging from homelessness to natural resources. She was appointed by two Governors to sit on the statewide California Coastal Commission and California Board of Forestry and Fire Protection. She has been active on numerous local committees and boards, such as the Humboldt County Children and Families Commission, Humboldt County Convention and Visitors Bureau, Humboldt Bay Harbor Revitalization Advisory Committee, Redwood Empire Association, Redwood Community Action Agency, and the Rotary Club of Eureka.

A native of Humboldt County, Bonnie attended Humboldt State University and transferred to London, England to continue her education before returning home to complete her bachelor's degree in Liberal Arts.

PERSONAL EXPLANATION

HON. STEVE COHEN

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. COHEN. Madam Speaker, I was detained from voting due to a family emergency on Thursday, December 9. If present, I would have voted "yea" on the following rollcall votes: Rollcall 626 and rollcall 627.

COMMENDING YUVRAJ PURI FOR EXCELLENCE IN EDUCATION

HON. ENI F.H. FALEOMAVAEGA

OF AMERICAN SAMOA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. FALEOMAVAEGA. Madam Speaker, I rise today to commend Yuvraj Puri for his initiative in crafting a bill to reduce the amount of annual Medicare fraud and prevent future Medicare fraud. Yuvraj is 13 years old and attends Cooper Middle School in McLean, Virginia, where he is currently in the 8th grade.

As a second-generation Indian-American and in tribute to his Asian culture which teaches children to respect and take care of their elders, it has been Yuvraj's dream to work with senior citizens. In fact, for the past 3 months, Yuvraj has been volunteering at the Herndon Senior Center for 4 hours every week.

At the center, his primary duties are to update the database, set up bingo, clean up and lock down the center, type up the lunch menu, decorate, write the program board, and clean out the closet for recyclables.

This experience has instilled in Yuvraj a desire to take his work further and so he chose to research Medicare fraud and present a paper and draft a bill as part of an assignment at school. Although the school had each student partner with another, I am impressed that Yuvraj went beyond what he was required to do and, on his own initiative, sought to visit the U.S. Congress to see how bills are introduced, managed and eventually passed into law.

As an Asian-Pacific American, Yuvraj also requested a meeting with Members of the Executive Board of the Congressional Asian Pacific American Caucus (CAPAC), including the Chair, Vice-Chair, and Secretary who serves as Chair of the CAPAC's Healthcare Task Force. Since its inception in 1994, CAPAC has continued its commitment to promote and secure equal rights for not only Asian Americans and Pacific Islanders (AAPI), but all Americans.

Through his research, Yuvraj learned that CAPAC fights to eliminate health care disparities and works to ensure that Asian Americans and Pacific Islander (AAPI) communities are not left out of policy decisions. Recognizing CAPAC's importance and knowing that CAPAC can influence the passage or defeat of a bill, Yuvraj referenced CAPAC in his presentation and sought a meeting with us to present his bill, especially since he is a member of the AAPI community.

Today, it was our honor to personally meet Yuvraj and accept his bill, and I thank Congressman MIKE HONDA, Chairman of CAPAC,

and also Congresswoman MADELEINE BORDALLO, Chair of CAPAC's Healthcare Taskforce, for joining with me to commend Yuvraj for his initiative.

As Members of CAPAC's Executive Board, we join together in wishing Yuvraj much success in his pursuit to attend the Thomas Jefferson School for Science and Technology (TJSST) in Alexandria, Virginia. We believe Yuvraj is a rare student who has the capability to become a leader of the 21st century and it is clear that his intellectual curiosity will serve him well on his road to study medicine at Princeton as he seeks to do all he can do to serve the elderly to the best of his ability.

Again, I commend Yuvraj for his self-motivation and aspirations, and I extend to him and his family my very best regards.

"TRUTH EMERGING IN KENT STATE COLD CASE HOMICIDE"
BY LAUREL KRAUSE**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. KUCINICH. Madam Speaker, this prose by Laurel Krause is entered into the CONGRESSIONAL RECORD at the request of Laurel Krause, whose sister Allison Krause was shot and killed as she protested the Vietnam War at Kent State University on May 4, 1970. Laurel is the co-founder and director of the Kent State Truth Tribunal.

TRUTH EMERGING IN THE KENT STATE COLD CASE
HOMICIDE

The government crossed the line in the killing of four young people in the killing of our Allison as she rallied against the war on May 4, 1970. A civil rights battle on U.S. soil in our times Kent State is personal for us yet important for all

Arthur Krause knew the importance of the Kent State Tape. My dad knew it held the truth of what happened at Kent State even though back in 1970 and until just recently truth from the Kent State Tape was locked up

in a jumbled maze of analog antiquity. Dad passed away over 20 years ago. He knew the truth in the Kent State Tape.

A patriot and WWII soldier. Dad believed the American dream. When Allison his firstborn a freshman at Kent State University was protesting the Vietnam war on her campus

He never anticipated the American apocalypse. Our family would endure at the hands of our government.

Like Sandy, Jeff and Bill our Allison was shot dead at Kent State. Homicide by national guard gunfire. Dad knew they got away with murder at Kent State University just after noon on May 4, 1970.

Over the next ten years Dad sought truth and justice at Kent State demanding to know what happened to our Allison.

Taking it to the courts yielded only road blocks, cover-ups and threats. Every effort to uncover and face the deadly inhumanity of Kent State was completely thwarted.

A series of seamless stonewalls. Never examining the wrongs of Kent State. No accountability for the killings of Kent State. Not one person or group ever held responsible. Not one apology uttered. Yet governmental claims were consistent: There was no order to fire. The Guard reacted to sniper fire. The Guard felt under attack from the students.

A government-fabricated pack of lies that has now transformed into the recorded history of the killings of Kent State. That is . . . until 2010 and the examination of the Kent State Tape 40 years after the shootings the Kent State Tape that Dad held so dear that was evidence in his court cases finally examined using tools of state-of-the-art audio technology unlocking the true record of what occurred at Kent State on May 4, 1970.

Sounds expertly analyzed by world-class forensic scientist Stuart Allen commissioned by the Cleveland Plain Dealer to explore the Kent State Tape for the very first time.

Whether copy or original is moot. Truth is recorded in the Kent State Tape. A tape does not remember, forget or change its story.

The Kent State Tape does not lie. At the Kent State Truth Tribunal in NYC October 2010 with Stuart Allen examining Hearing and unraveling the labyrinth of deadly sounds

including shots and national guard commands

and a violent altercation with FBI-paid Terry Norman all contributing to the shootings at Kent State 1970.

The government denied orders to fire were isolated, heard and verified.

orders of Guard, Prepare to Fire orders of Alright, Guard, Fiii—with the last word of the deadly order stepped on

by a barrage of 67 shots over 13 seconds. At unarmed students changing classes at noon.

At unarmed students more than a football field away.

At unarmed students rallying against the Vietnam War.

At unarmed students rallying against the military occupation of their campus in a battle where American dissent was also slaughtered.

HONORING TSgt WILLIAM
TIMOTHY "TIM" WYMORE**HON. W. TODD AKIN**

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. AKIN. Madam Speaker, I rise today to honor TSgt William Timothy "Tim" Wymore, an 18 year veteran of the Missouri Air National Guard and of Operation Enduring Freedom. I have the honor to count Tim Wymore as a constituent.

During a "Hometown Heroes Salute" on 4 December the Missouri Air National Guard paid special tribute to TSgt Wymore for his

service. I am grateful to the Guard for recognizing Tim's contribution to the security of our country.

In 2004, Tim deployed to Balad, Iraq, one of our largest air bases, with Missouri's 131st Bomb Wing. He was one of only five members of his unit sent to Iraq. While everyone who goes to war is affected, some return more affected than others. Tim Wymore is one such person.

Tim is one of thousands of our service members exposed to hazardous materials while operating in and around the burn pits in Iraq. Since returning, Tim's health has deteriorated to the point where he is unable to work. He's been in and out of the hospital and today cannot stand on his own and relies on oxygen to breathe.

Through it all, Shanna, his wife of 25 years has not only stood by his side, but fought to get the benefits and care he deserves from a system sometimes indifferent to his suffering. I got to know Tim and Shanna after they contacted my office seeking assistance with the Veterans Administration.

Madam Speaker, I stand here today to honor TSgt Tim Wymore, so I won't take further time to elaborate on how the system has failed to support this warfighter. I will only say that I will continue to work to see that the Veterans Administration is held accountable for how it serves our citizen soldiers.

Despite his suffering, Tim Wymore remains a patriotic citizen and father. In fact, rather than try and dissuade his son from serving in uniform, he supports his youngest son Cody's decision to follow in his footsteps and enlist in the United States Air Force.

I pray God bless the Wymore family and the United States of America.

“STEVEN SOLARZ: A GREAT
MEMBER OF CONGRESS”

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. FRANK of Massachusetts. Madam Speaker, earlier this month, America lost one of the outstanding people to have served in this House. Steven Solarz was a Member of the House from 1974–1992, and no Member either in my personal experience or in my reading of history was a more effective and constructive leader in foreign policy as a Member of the House. Too often, Members of Congress, especially the House Members, distinguish themselves in the foreign policy field mostly in a negative way. Sometimes that is a very good thing because these Members are preventing things from happening that shouldn't happen. But there is a tendency to demagogue and to play to public dislike of foreigners. Steven Solarz was a role model for those who think that Members of the House have a constructive role to play in foreign policy. Without ever having risen to the chairmanship of the Foreign Affairs Committee, he made himself an extremely significant positive force in foreign policy, for human rights, and for constructive American relations with a wide range of nations. He understood the importance of our being strong when we had to be, and of our being open and generous when that was called for.

Madam Speaker, Steve Solarz was a personal friend of mine for many years, and I suppose that people could claim that I have exaggerated the greatness of the role he played because of that. So I was particularly pleased to see that one of the best students of Congress, Norman Ornstein, expressed eloquently and cogently the importance of the role Steve Solarz played in foreign policy as a House Member, in his December 8, 2010 article in Roll Call.

Madam Speaker, as an example that I believe all Members ought to aspire to, I ask that Norman Ornstein's deserved tribute to Steven Solarz's foreign policy leadership be printed here.

[From Roll Call, Dec. 8, 2010]

REP. SOLARZ WAS A LEADER WORTH
REMEMBERING

(By Norman Ornstein)

This is the season for farewell addresses from many lawmakers leaving at the end of the 111th Congress. Some speeches, such as those of Sen. Ted Kaufman (D-Del.) a few weeks back and of Sen. Chris Dodd (D-Conn.) last week, are particularly poignant, reflecting decades of dedication to the Senate and reverence for its traditions (if a touch too much deference to its existing rules and too little concern for how the contemporary abuse of the norms have distorted those traditions and call for modest but meaningful tweaks in those rules).

But their eloquence underscores how elections, while bringing necessary change for a democracy and reaffirming popular will, also result in the departure of some of the most solid citizens of the Congressional village. The loss of expertise, insight and institutional memory—not to mention fundamental decency—that comes with the departures, some voluntary and some not, of people such as Reps. John Spratt (D-S.C.), James Oberstar (D-Minn.) and Ike Skelton (D-Mo.) and Sens. George Voinovich (R-Ohio), Judd Gregg (R-N.H.) and Evan Bayh (D-Ind.), among others, is painful to those of us who care about Congress.

Then there are other losses. Former Rep. Steve Solarz (D-N.Y.) died last week at age 70, after a four-year battle with esophageal cancer. While he received prominent obituaries in the Washington Post and the New York Times, chances are many new and not-so-new Members of Congress who weren't around in the 18 years that Solarz served in the House, from 1975 to 1993, were either unaware of his passing or paid little attention to it. As a start, they should go back and read those obituaries, and then make a note to read his wonderful book, “Journeys to War and Peace: A Congressional Memoir,” which will be published next year.

I wrote a foreword for the book, in which I noted my striking experiences on visits to the Philippines and Cambodia; in each case, when I met with academics, high government officials and others, I was asked frequently, “Do you know Steve Solarz?” In the Philippines, actually, the question was, “Do you know Steve Solarz personally? He helped save my country from dictatorship.” In Cambodia, it was whether I knew the Steve Solarz who was instrumental in saving Cambodia from the murderous excesses of the Khmer Rouge.

Solarz was not a secretary of State, a Senator or even the chairman of a powerful committee. He was a rank-and-file House Member who, by the force of his personality, a remarkable work ethic, a political savvy, an articulateness unmatched in contemporary politics, a commitment to democracy and human rights mixed with hard-headed sense of reality, and a willingness to work across

the aisle to accomplish mutual goals, had a greater effect on the world than most secretaries of State, Senators and chairmen of powerful panels.

Solarz traveled the world, but not with Congressional delegations; he went alone. American embassy personnel dreaded his arrival; they would not have to arrange trips to the souk or the rug store, but would instead have to keep up with 18-hour days choreographed by Solarz to include meetings with the foreign minister, the defense minister, the intelligence chief and the key opposition figures.

When he scouted out situations and found corruption, abuse of power and worse, he used his skills and connections to relentlessly push for change. Back in Washington, D.C., his office became a home away from home for dissident leaders from around the world who got short shrift elsewhere. As a consequence, to pick one example, Solarz probably had better ties with the Kurdish leaders in Iraq than any other American.

Solarz's shining moment, perhaps, was on the House floor during the stirring debate over whether to authorize the use of force against Saddam Hussein after his invasion of Kuwait, i.e., the first Gulf War. There were dozens of emotional and wrenching speeches as Members struggled with the decision about whether to send young Americans to war, and perhaps to death; at the time, there were predictions of potential mayhem in the desert. When liberal Democrat Solarz stood up and spoke in favor of the authorization, it was truly a riveting moment. Everyone stopped to listen. He was powerful and eloquent, and he did as much as anyone to shape the outcome. There are few examples in which an individual lawmaker has any effect, much less one that is consequential, from a speech on the House floor.

It is hard to imagine another Solarz emerging in a political system that is now so polarized that a powerful opinion leaders and statesmen like Sen. Dick Lugar (R-Ind.) cannot persuade his own party colleagues to vote for the new Strategic Arms Reduction Treaty. It is even harder to imagine a House Member throwing himself into peripatetic travel to every corner of the globe and trying to shape events and outcomes in the world without being shredded by cable news and anonymously funded campaign attack machines, or finding ways to build unlikely and persuasive partnerships across every partisan and ideological divide. But it is not impossible to imagine some new Members of both parties persuaded by Solarz's example to take some trips abroad despite the predictable criticism of junkets and the equally predictable partisan flak, and to think about core values of freedom, human rights and America's national interest as transcending petty partisan interests. At least I like to think is not impossible.

THE FIRE DEPARTMENT OF LONG
BEACH, CALIFORNIA

HON. LAURA RICHARDSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Ms. RICHARDSON. Madam Speaker, I rise today to recognize the Fire Department of Long Beach, California. Specifically, I would like to thank and honor firefighter paramedics Chuck Hakopian, Mark Miller, Joyce Vanderweide, and Carston Sorensen for their heroic response to an apartment fire in Long Beach last week. These firefighters risked

their lives to save a young boy who was trapped in his bedroom as flames engulfed his family's apartment. Thanks to their bravery, 2-year-old Justin Aruomah is in stable condition and continues to improve daily.

We must never take for granted the men and women of the local fire departments across the country who courageously respond to emergencies on a daily basis, risking their lives to save those of others. Their willingness to face danger in order to serve and protect their communities affords us a peace of mind that too often goes underappreciated.

Madam Speaker, I am humbled by the firefighters of the Long Beach Fire Department, whose bravery and devotion to their community is nothing short of heroic. The events of last Monday, December 6, 2010 is only one of many moving examples of this heroism.

Just after midnight, firefighter Chuck Hakopian and Carston Sorenson rushed into a burning apartment. They ran up the apartment's stairs through billowing clouds of smoke and into a bedroom that was engulfed in flames. The floor in the room was so weakened by the fire that Mr. Hakopian fell through the floor to his elbows. After pulling himself up and out of the collapsed floor, he rushed into a second bedroom, where he found 2-year-old Justin Aruomah lying face down on the floor. As Mr. Sorenson battled the flames with a fire hose, Mr. Hakopian covered the boy's head and body and rushed him out of the burning house to awaiting paramedics Mark Miller and Joyce Vanderweide. Justin was unconscious, but alive. As he was rushed to the hospital, Ms. Vanderweide and Mr. Miller were able to revive his breathing. Justin was soon placed in critical condition. Thanks to these brave men and women he is alive and recuperating.

I do not share this story of bravery and sacrifice because it is any way uncommon. The firefighters of the Long Beach Fire Department, along with departments across the country, risk their lives every day to protect people who they have never met. These acts of selflessness are typically accompanied by little fanfare. These brave men and women simply return to work the next day to await the call of duty.

I share this story because it is a powerful reminder of the need to support the men and women who stand ready to serve our communities, day and night. We have an obligation to provide our firefighters—along with our police officers, paramedics, and all other emergency responders—with the resources that they need to do their job successfully and as safely as possible. This means providing enough funding for them to afford all the necessary training and cutting-edge equipment. This is the right thing to do for the men and women who dedicate their lives to serving our communities.

As the Chair of the Homeland Security Committee's Subcommittee on Emergency Communication, Preparedness, and Response, supporting our emergency responders is one of my top priorities in Congress. Emergency situations cannot always be prevented, but their effects can be mitigated by ensuring that emergency responders have all the resources that they need to protect us.

Again, I thank Chuck Hakopian, Mark Miller, Joyce Vanderweide, and Carston Sorenson of the Long Beach Fire Department and the emergency responders all across the country who risk their lives on behalf of their communities. Your courage and selflessness do not go unnoticed.

RETIREED MAJOR GENERAL FRED-
ERICK HARWOOD "FRED"
FORSTER

HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. DUNCAN. Madam Speaker, Retired Major General Frederick Harwood "Fred" Forster passed away on November 18, 2010, after a long and very brave battle with cancer. I do not know another person who has met

such a challenge with more strength, faith, and grace.

Fred was a very patriotic American and one of the finest men I have ever known. He had an immeasurable impact on Blount County, Tennessee, and the United States in many positive ways.

Upon reporting the news of his death, The Daily Times newspaper in Maryville, Tennessee, referred to Fred as "a community treasure."

Fred's pastor at Mount Lebanon Baptist Church said Blount County has lost a "great man and friend to this community," and he continued on to say that, "(Fred) believed in prayer and accepted the will of God without complaint. Dignity, respect, honor, faith, love, commitment; these are the words that describe Fred."

Sharon Hannum, Chair of the Blount County Chamber Foundation, said, "I have met no stronger, dedicated and compassionate leader than in the person of Fred Forster."

Former Maryville Mayor Joe Swann said, "His steadfastness in the face of such adversity makes him the soldier we point to and say, 'I had the great privilege of knowing that remarkable man.'"

Senator LAMAR ALEXANDER, a native of Maryville himself, called Fred a friend and said, "Blount County and I will miss him greatly."

Fred is perhaps best known for his success in the military. Commissioned as a second lieutenant in 1968, his accomplishments as a pilot and natural leadership abilities propelled Fred to the rank of assistant adjutant general of the Tennessee Air National Guard at the time of his retirement in 2003.

During his 35-year service, he served as commander of the 134th Air Refueling Wing, Tennessee Air National Guard, and chief of staff of the Tennessee Air National Guard.

Fred's time in the military took him through the Air Command and Staff College, Army Command and General Staff College, and Air War College. He received countless decorations, including a Bronze Star, and served in Thailand and the United Arab Emirates, playing an important role in the liberation of Kuwait during Operations Desert Shield and Desert Storm.

Fred also found much success in community development. He served as chief executive officer of the Blount Partnership, a venture made up by the Blount County Chamber of Commerce, Industrial Development Board, Smoky Mountain Convention and Visitors Bureau and Blount Chamber Foundation.

His time at the Chamber is admired by all who were lucky enough to work with him until his retirement earlier this year.

As you would imagine, Fred's work did not stop with the military or his time at the Chamber. He devoted much time to other civic and private organizations too numerous to name in this space.

Fred was buried with full military honors at Mount Lebanon Baptist Church, and I attended his graveside service along with many hundreds of other people. It was very obvious to everyone who was there how loved and respected he was in the community.

Recently, Fred's father-in-law, Garland DeLozier, also passed away. Garland was a community leader in his own right, and I offer my condolences to Fred's wife, Carolyn, who has lost her husband and father in such a short span of time.

Before his passing, Fred said of Carolyn, "She was invaluable. Couldn't ask for a better supporter and a partner and a helper and sustainer."

Fred's daughter Rebecca was one of my House Pages and is now a member of my staff, and her sister, Joy, interned for me in 1996. I know the pain myself of losing a father at about their age, but they should have much comfort in knowing how loved and admired their dad was by everyone and how proud he was of their own accomplishments.

Fred was very devoted to his family, and he will be greatly missed by Carolyn, Joy, and Rebecca, as well as his daughter, Katherine; grandchildren Drew and Caroline; mother, Harriet; and sister, Jane.

Madam Speaker, I urge my Colleagues and other readers of the RECORD to join me in celebrating the extraordinary life of Major General Fred Forster. His life and accomplishments are without comparison, and he will forever be an example to all those who knew him.

HONORING CHARLES MENG OF NAPA COUNTY, CALIFORNIA

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. THOMPSON of California. Madam Speaker, I rise today to recognize Mr. Charles Meng, who is being honored this evening on the occasion of his retirement after 20 years of service on the Napa Valley College Board of Trustees. Mr. Meng is retiring from the board to serve as a commissioner on the Accrediting Commission of Community and Junior Colleges, Western Association of Schools and Colleges.

Charles has dedicated his life to serving his country and his community. He graduated from West Point in 1957 and was a commissioned officer in the U.S. Army Corps of Engineers. He went on to serve as a senior engineer manager in the U.S. Navy's nuclear submarine program. He is completing his fifth four-year term on the Napa Valley College Board of Trustees and was also elected to the Association of Community Colleges Trustees Board in 2004. He has served on many community college accreditation teams and is an expert on community college governance. Charles was the NVC Board's representative on a number of critical college committees, including the Technology Plan Development, Napa River Flood Control project and Mare Island Naval Shipyard closure. He was also on the committees to hire three college presidents.

As the current president and longest serving member of the board, Charles is admired and respected by the entire campus as well as the community at large. An engineer by trade, he is known as a highly intelligent, focused and analytical leader. He is a consensus builder but will not budge on his commitment to preserving access to higher education for all. One of the ways he has demonstrated this commitment is by serving on my service academy review panel, interviewing young people from my district seeking nomination to our Nation's service academies. As a West Point graduate himself, Mr. Meng's insights and experiences serving our country were invaluable in this process. Due to his guidance and support, many were able to fulfill their dream of serving our country as he has.

Madam Speaker and colleagues, it is appropriate at this time that we thank Mr. Charles Meng for the incredible work he has done on behalf of the students of Napa Valley College and for the work he will undoubtedly continue

to do. Napa Valley College is a premier institution for higher learning and will remain that way due in large part to his efforts. I join his family and everyone in the Napa Valley College Community in wishing him continued success and fulfillment.

THE PUBLIC EMPLOYEE PENSION TRANSPARENCY ACT (H.R. 6484)

HON. DEVIN NUNES

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. NUNES. Madam Speaker, I rise today to discuss the Public Employee Pension Transparency Act, H.R. 6484, which I introduced on December 2, 2010, with the Gentleman from Wisconsin, Mr. RYAN, and the Gentleman from California, Mr. ISSA. This legislation is designed to enhance the soundness of State and local employee pension benefit plans by providing them the incentives necessary for State and local governments to provide the American people with meaningful disclosure of the value of these plans' assets and liabilities.

State and local governments have promised pension benefits to about 20 million active public employees and another seven million retirees and dependents. According to the states, these pension promises are underfunded by about \$1 trillion. However, this enormous number fails to accurately convey the true magnitude of the cost taxpayers will bear to meet these obligations. Moreover, as a result of a lack of transparency and generous accounting standards, the vast majority of the American people are unaware that their State and local governments collectively owe trillions of dollars for generous public employee pension benefits.

Unlike private pension plans, public employee pension plans are allowed to use unreasonably high discount rates to calculate their liabilities. In fact, many use unrealistic expected rates of returns on their plan assets, the value of which is often inflated, to discount their pension liabilities. Many economists maintain that these practices are misguided and hide the fact that State and local government pension plans are collectively underfunded by more than \$3.8 trillion.

The Public Employee Pension Transparency Act would address this serious situation by requiring State and local government pension plans to disclose the true magnitude of their liabilities to the American people. The bill would condition the continuation of specified Federal tax benefits upon State and local governments' decision to file certain information regarding their pension plans with the Secretary of the Treasury. This information, which would reveal the true extent of public pension debt, would be available to the public through a searchable Web site.

Over the course of the past several years, we have seen trillions of taxpayer funds spent to bailout banks, auto companies, Wall Street, homeowners, and others. The American people are infuriated by these bailouts and are insisting that they end. State and local governments, with their trillions of dollars in hidden public employee pension debt, are next in line. It is time for them to reveal the true cost of their pension promises and to take that action

necessary including pension reforms—to meet their obligations. The Public Employee Pension Transparency Act would reaffirm that State and local pension obligations are solely the responsibility of those entities and proclaim that the Federal Government will not provide a bailout. Accordingly, I ask my colleagues to join with me to enact this legislation.

H.R. 4853: THE MIDDLE CLASS TAX RELIEF ACT OF 2010

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. KUCINICH. Madam Speaker, I rise today in support of H.R. 4853, the Middle Class Tax Relief Act of 2010. This legislation permanently extends the tax cut provisions passed in 2001 and 2003 for individuals with incomes below \$200,000 and \$250,000 for couples. It would permanently extend the 10%, 23% and 28% marginal tax brackets, as well as the 33% bracket as it applies to income of less than \$250,000. It would also continue the maximum \$1,000 child tax credit and the maximum 15% rate on capital gains and dividends where income is less than \$250,000. It would permanently reduce the tax known as the “marriage penalty,” and it includes a 2-year “patch” intended to prevent more than 25 million Americans from being subject to the alternative minimum tax over the next two years. It also permanently extends expensing rules for small businesses.

I am glad to see so much focus on the unemployed and underemployed during debate on the potential extension of the tax cuts. However, the myth that we must pass tax cuts to the wealthy in order to help those without jobs has been disproven several times over. If the concern is about the plight of the 15 million unemployed Americans, the estimated 12 million underemployed, and the estimated 6 million long-term unemployed, we should do the humane and economically efficient thing: extend and expand unemployment assistance.

Instead, the debate is about whether to extend tax cuts to the wealthy. Nearly a quarter of all the income in America today goes to the top 1% of Americans. In recent years, the highest-income Americans have received by far the largest pre-tax raises of any group. They have also had their tax rates drop by far more. Americans have said in polls that they want to see the Bush tax cuts on households making more than \$250,000 per year expire. For the wealthiest 3% of Americans, expiration would simply mean a return to 1990’s tax rates if that were to happen. Yet, many of the same advocates for passing a massive tax cut for the wealthy are bemoaning a growing budget deficit.

We must not ask the middle class, the working class, those who are not fortunate enough to make \$200,000 or \$100,000 or even \$20,000 a year, to pay so that the wealthiest Americans can enjoy the lowest income tax rates that any wealthy American has had since the 1960s. We must not tell the poor, the unemployed, and the underemployed, that we cannot help you, because we have decided that the wealthiest Americans need a tax cut more than you need a lift to get you

through these brutal times. Those that need our help must not hear from Congress: go and figure it out for yourselves.

S. 3307, THE HEALTHY, HUNGER-FREE KIDS ACT OF 2010

HON. HENRY C. “HANK” JOHNSON, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. JOHNSON of Georgia. Madam Speaker, I rise today in support of the Healthy, Hunger-Free Kids Act of 2010. This bill is a good first step in addressing childhood hunger and poor nutrition, which are two of the greatest public health challenges facing the United States today.

I urge all of my colleagues to join me in supporting this legislation, which passed the Senate unanimously. It contains the most significant improvements in 30 years to the child nutrition programs that serve millions of children across our country. This legislation expands access to healthy foods for kids, makes it easier for low-income kids to enroll in the school meal programs, improves the nutritional quality of school meals, significantly decreases the availability of junk food and sugary beverages from school vending machines, and expands access to after-school meals for low-income kids.

This is a vote that I do not take lightly. While I never questioned the need to improve child nutrition programs across the country, I did question the Senate’s choice to pay for this legislation with a reduction in Supplemental Nutrition Assistance Program (SNAP) benefits. SNAP benefits are an essential part of this nation’s nutrition safety net. More than 41 million Americans rely upon SNAP benefits monthly to put food on the table. According to the USDA Food and Nutrition Service, Data and Statistics Supplemental Nutrition Assistance Program Report, released in October 2010, the number of households in my home state of Georgia receiving food stamps jumped from 581,709 total households in July of 2009 to 716,749 households in July of 2010—an increase of 23.2% in just one year. Many SNAP recipients are children or seniors, and I had serious concerns that the SNAP reduction would be a classic case of robbing Peter to pay Paul. I was deeply concerned that reducing SNAP benefits to pay for this bill would hurt the people it was meant to help—children of low-income families striving to make ends meet during this turbulent economy.

After a long thought process, I stand here before you as a strong supporter of the Healthy, Hunger-Free Kids Act. As a Member of the Congressional Progressive Caucus, I joined a letter to the Obama Administration expressing opposition to reducing SNAP benefits to fund this bill, or any other legislative priority. The President and his Administration share these concerns and have assured Congress that it will work with us to restore this cut and use their current authorities to protect the integrity of SNAP benefits and further improve children’s access to nutrition programs.

This bill would be instrumental in helping to address the growing crises of child hunger and also of childhood obesity. In terms of child hunger, last year, more than 1.29 million Georgia students participated in the Free and

Reduced Price Lunch Program. Obesity is a national crisis, but it is of a particular concern in my home state of Georgia which has the second highest prevalence of obese 10–17 year olds in the nation. The provisions in the child nutrition bill that improve nutritional quality of foods served on school campuses throughout the school day and those that strengthen Local School Wellness Policies can help to combat the rise in childhood obesity we see here in Georgia. According to the latest U.S. Census Bureau American Community Survey report released in September 2010, 22.3% of Georgia’s children live in poverty—that’s more than half a million children under age 18.

I would be remiss if I did not mention two key individuals in my district that have worked hard to combat childhood obesity. Dr. Yvonne Butler founded Healthy Kids Smart Kids. Healthy Kids Smart Kids is an organization that fights childhood obesity and educates adults and children on healthy eating and staying active. She started the first sugar-free school program in Georgia at Browns Mill Elementary School in Lithonia. Ms. Pat “Shy” Haggans is a certified personal trainer and lifestyle coach who founded Generation Next Sports Performance facility in Lithonia where she specializes in getting kids fit to fight obesity. Like Dr. Butler, she has helped hundreds of kids shed pounds through exercise, planning and lifestyle changes to combat childhood obesity. She assists parents as well to ensure that the next generation will be healthier than ours.

It is important to recognize that this bill would not be on the floor now if it were not for Representatives GEORGE MILLER, ROSA DELAURO, and JAMES MCGOVERN. Their leadership in conducting negotiations with the Obama Administration was key to moving this bill forward.

I strongly support the Healthy, Hunger-Free Kids Act, which would also help advance the Administration’s goal of solving the problem of childhood obesity within a generation, and urge my colleagues to do the same.

IN RECOGNITION OF MS. BARB DEMARCO’S DECADES OF ACTIVISM IN THE WEST BLOOMFIELD COMMUNITY AND HER NINE YEARS OF SERVICE TO ITS PUBLIC SCHOOLS

HON. GARY C. PETERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. PETERS. Madam Speaker, I rise today to recognize Ms. Barb DeMarco, a member of the West Bloomfield School District Board of Education and lifelong local activist, on the occasion of her retirement. As a Member of Congress, it is both my honor and privilege to recognize Ms. DeMarco for her decades of service and work to build a better future for the West Bloomfield community and its youth.

For the past 25 years, Ms. DeMarco has been at the fore of many grassroots initiatives in West Bloomfield to improve the quality of life for its residents. Ms. DeMarco was often the driving force behind many of the millage initiatives that were directed toward acquiring and developing land for use as community

parks. It is with this same sprit of activism and bettering the community that Ms. DeMarco embarked on her journey to advocate for improving public education for our youth. As a concerned citizen, well before her tenure on the board of education, Ms. DeMarco spearheaded campaigns to pass bond initiatives to strengthen West Bloomfield schools and create an environment of academic excellence for its students.

Beginning in 2001 Ms. DeMarco took her passion for activism and advocacy to the West Bloomfield School District Board of Education, where she has served with selflessness and tenacity. Ms. DeMarco's initial work focused on improving school curriculum, where she fought for a rigorous academic program to provide students every opportunity to excel. After just 3 years on the Board, Ms. DeMarco was appointed to the Oakland Schools Intermediate School District Board of Education where she took that same zeal for fighting for public education to both a county and national level.

Madam Speaker, I ask my colleagues to join me today to honor Ms. DeMarco's decades of advocacy on behalf of her students and her community. Her presence will surely be missed. It is with much gratitude for her service and dedication that I wish her many more years of advocacy and success in building a better community for our youth.

IN HONOR OF DR. EDWARD G.
KESHOCK

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. KUCINICH. Madam Speaker, I am saddened to learn of the passing of Dr. Edward G. Keshock. Dr. Keshock was Professor of Mechanical Engineering and Chair of the Mechanical Engineering Department at Cleveland State University. He was also Honorary Consul of the Slovak Republic for the State of Ohio since his appointment in 1999.

Ed Keshock received his Bachelor of Mechanical Engineering from the University of Detroit in 1958 and began his career in July of that year with the NASA Glenn Research Center at Lewis Field in Cleveland. There, he worked as a research engineer in the Heat Transfer Branch of the Nuclear Reactor Division. He participated in some of the earliest studies dealing with boiling heat transfer processes in low- or fractional-gravity fields, relating to applications in the newly emerging field of space exploration.

In 1964, Ed began his studies at Oklahoma State University where he earned his Master of Science and Ph.D. degrees in Mechanical Engineering in 1966 and 1968, respectively. After a distinguished career as professor at Old Dominion University, the University of Tennessee, and the Air Force Institute of Technology, Dr. Keshock returned to Cleveland in 1990. He was appointed Chair of the Mechanical Engineering Department at Cleveland State University where he served until his death.

Throughout his academic career, Dr. Keshock focused on research while teaching graduate and undergraduate classes in Mechanical Engineering. His research on the ef-

fects of microgravity on heat transfer processes spanned his career of more than 50 years.

Dr. Keshock was actively involved with the Slovak-American communities of the State of Ohio and the country of Slovakia. Dr. Keshock served as President of the Cleveland Bratislava International Sister Cities organization for most of its existence. In 1995, Dr. Keshock was appointed to be co-host to a 35-member delegation from the Slovak Republic at the White House Conference on Trade and Investment, attended and sponsored by the U.S. Government, including President Clinton and members of his White House staff.

In 1999, Dr. Keshock was appointed the Honorary Consul of the Slovak Republic for the State of Ohio. In this capacity, he not only represented the country of Slovakia in all official matters in the State of Ohio, but was involved in extensive community and international cultural programs that contribute to the improvement in the quality of life for citizens throughout the State of Ohio and Slovakia. He is also a member of the City of Cleveland Consular Corps, thus interacting with many ethnic and nationality communities.

Madam Speaker and respected colleagues, please join me in mourning the loss of a deeply respected scholar and statesman, Dr. Edward Keshock. Our condolences go out to his wife Mary Jo, their three children Kathleen of Knoxville, Tennessee; Carolyn of London, England; and Michael of Mobile, Alabama; and their three grandchildren. He leaves behind a significant and memorable personal and professional legacy.

IN RECOGNITION OF THE SCOTIA
BAND

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. THOMPSON of California. Madam Speaker, I rise today in recognition of the 75th anniversary of the Scotia Band, a community band formed in Humboldt County, California in 1935. The Scotia Band is a living legacy of America's musical heritage and a fixture on the North Coast of California.

The 35-piece, marching Scotia Band was established in 1935 by employees of The Pacific Lumber Company, later welcoming other musicians of the community. Women were encouraged to join during World War II, with the first woman president, Alice Gunnerson, serving from 1950–51. Local students have also participated, establishing the Scotia Band as an important part of music education in the region. Over the years, the band has involved over 700 musicians and conducted over 3,600 rehearsals.

In 1960, Sewell Lufkin was appointed band leader. A local elementary school teacher and World War II veteran, he instilled his abiding appreciation for music in his students. After his death in 1978, the Scotia Band established the Sewell Lufkin Memorial Scholarship, which continues to support Humboldt County students pursuing music education.

The Scotia Band continues to perform traditional and contemporary concert music at annual events and one-time commemorations throughout the county. Under the leadership of

the current band leader, Michael McClimon, smaller ensembles have been formed, including the Scotia Dixieland Band, the Tijuana Brass Group, the Scotia Brass Choir, the Scotia Ragtime Band and the Saxophone Quartet.

Humboldt County is proud to be the home of the Scotia Band, an historic and cultural institution that over the years has enriched the lives of many thousands of people. From the Blessing of the Fleet to the Fortuna Apple Harvest Festival, the Scotia Band has performed at hundreds of community functions that celebrate the cultural richness of the region. Their music continues to touch new generations and remind us of the traditions that make America great.

Madam Speaker, it is appropriate at this time to recognize the Scotia Band on the occasion of its 75th anniversary of outstanding musical performance and education to our community.

Mr. DAVIS of Kentucky. Madam Speaker, I rise today to honor a real American Hero, from my great state of Kentucky, Cpl Trampus Miller. A member of A Co. 1-21 INF "Gators" of the 25th INF DIV., The United States Army. On July 8th 2008, Cpl Miller was almost lost when a 900 lb bomb exploded in Nasar Wa Salam Iraq, killing his Brother In Arms Cpl "Doc" McMillian. Cpl Miller from Campton lost his leg and almost his life. But in a few short years he has already begun to his amazing most courageous life and recovery. He lives by a code of Strength In Honor!

STRENGTH IN HONOR

Strength In Honor
Men of might
Those brave hearts, who evil must fight!
Who but, with their most courageous hearts
. . . . so bring the light!
Kentucky born, men like Trampus with
hearts so worn so very bright!
Who all through the darkness of war, must
somehow endure and win that fight!
Yes, Trampus oh how your fine heart
so sounds, this night
For you live by such a fine code!
Of Strength In Honor, so!
As over the generations, such men as you
have so carried that load!
And bought and paid for, all of our Free-
dom's so!
Men who come back without arms and legs!
Who now so lie in such soft quiet graves
. . . .
Who all for God and Country, so gave!
For it was all in that moment!
That moment Trampus, as when you awoke
. . . .
And found what this war had so invoked!
While, close to death your fine heart so
spoke!
Spoke of Faith and Courage, which now all
of us so bless!
With but, your Strength In Honor yes!
As we watch you rebuild, as all of our hearts
you so nourish still
As you fight The Good Fight, and will not be
discouraged with but your iron will!

As you Teach Us, as you Reach So Us, as you
So Beseech Us!
With all of your fine worth
Showing us all, how Strength In Honor in
your fine life comes first!
And if I had a son, I would but pray he could
be like you this one!
Who lives and dies, with tears in eyes
By such a fine code, of Strength In Honor
. . . . all in hearts which lie!
Kentucky Strong, may you Trampus live
long!
As we watch your life's song
Of Strength In Honor!

RESPONSE ON BEHALF OF FELLOWS
OF THE AMERICAN COLLEGE TRIAL
LAWYERS WHO REPRESENTED
DETAINEES IN GUANTÁNAMO

HON. BILL DELAHUNT

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. DELAHUNT. Madam Speaker, I rise before you today so that my colleagues in the House of Representatives can join me in recognizing Mr. Michael Mone and his son, Mr. Michael Mone Jr.—two Massachusetts lawyers who ceaselessly fight for human rights and justice among detainees at Guantánamo Bay. I stand before you today to read to you a speech presented by Mr. Mone Sr. at this past September's American College of Trial Lawyers meeting. This discourse, written from Mr. Mone's perspective, recounts the compelling experience of his son, who selflessly represented a wrongfully accused and detained Uzbek man. The speech is as follows:

I want to thank the College for honoring those Fellows who represented Guantánamo detainees, and in particular, I want to thank Mike Cooper, who encouraged the Access to Justice Committee to become involved in securing detainee representation. I attended the spring meeting in Palm Springs when the subject was first discussed, and I came away from that meeting determined to take on a detainee's case. I want to thank the College for its encouragement and the moral support that it provided to those Fellows as they undertook to uphold the core values of the American College of Trial Lawyers—the right to counsel, a fair and independent trial to challenge their detention, and the Rule of Law.

I want to make it clear that I stand here in a representative capacity in that I am speaking for the Fellows who are here on the stage with me, for all of those Fellows who can't be here today who undertook representation of detainees, and to hopefully represent lawyers all over the country, in large firms and small firms, Republicans and Democrats, who answered the call to provide representation in this very unpopular cause. I also am here in a representative capacity because much of the real work of our client's case was done by my son, Michael, who is also my law partner, so in these remarks, when I say that we did something, in all probability, it means that Michael did something.

Too often the "detainees" are treated as a group like "illegal immigrants" as if they are all alike, but they are not. They were many different individuals who, under different circumstances, were confined at Guantánamo. Some, like our client, were simply at the

wrong place at the wrong time, and others were undoubtedly waging war against the United States. But all were entitled to the benefit of our Constitutional protections. Each detainee has a different story, but we represented one man, Oybek Jabbarov, and I want to tell you Oybek's story.

In 2001, Oybek Jabbarov was in his early 20s; he was a refugee from Uzbekistan, living in Afghanistan along with his expectant wife and his one-year old son. After being discharged from compulsory service in Uzbek army in 1998, Oybek could not find a job and like so many of his countrymen, he left Uzbekistan to try and find work elsewhere. Eventually, he ended up in northern Afghanistan. He was living amongst other ethnic Uzbeks, supporting himself and his family by selling chickens when the U.S. invaded to bring down the Taliban Government and to capture the leaders of Al-Qaeda, following the unspeakable September 11th attack on this country. You must understand that under the Taliban, Afghanistan, in essence, had no government, no borders, no checkpoints, and no one was even asked for a passport, and thus, it became a refuge for people from all over central Asia, such as Oybek. As we now know, Afghanistan is a tribal society and the only protection afforded to most persons in Afghanistan is the protection of their family and tribe, without which one is extremely vulnerable.

When Oybek made the mistake of accepting a ride from Northern Alliance soldiers, the U.S. was offering a bounty for "foreign fighters," who were supporting the Taliban in the war against the U.S. and its coalition allies. Brochures in the native languages of Afghanistan were widely distributed by the U.S. offering bounties for "terrorists" who were turned over to the U.S. authorities. One of these leaflets said "get wealth and power beyond your dreams; rid Afghanistan of murdering terrorists, you can receive millions of dollars by helping to catch Al-Qaeda and Taliban murderers. This is enough money to take care of your family, your village, and your tribe for the rest of your life." The Northern alliance soldiers, who offered Oybek a ride, thus, had a powerful incentive to consider him a "foreign fighter" to collect the bounty and for that reason Oybek was turned over to the U.S. forces at the Bagram Air Force Base in December 2001. He was held in U.S. custody at the Bagram Air Force Base, and then at a facility in Kandahar, until he was transferred to Guantánamo in the spring of 2002, despite assurances from U.S. civilian interrogators in Afghanistan that "we're trying to find Arabs; don't worry, we'll try to get you out." During his time in the US custody, Oybek, like many of the others, underwent "enhanced interrogation." I am not here to debate the definition of torture, but if it was being done to you, you would know it was torture. Following transfer to Guantánamo, Oybek was held for more than seven years where a substantial part of his time, as with most of the others, was in virtual solitary confinement.

In 2006, we were assigned to Oybek's case by the Center for Constitutional Rights that served as a clearing house to match counsel and detainees and Michael and I started our representation of Oybek Jabbarov. It took some time because of various U.S. court cases and congressional action restricting the Writ of Habeas Corpus for us to obtain the

classified documents which purportedly laid out the basis for Oybek's capture and continued detention. Before we ever had a chance to meet with Oybek, having reviewed that material, it was apparent to us that the case against Oybek was thin or nonexistent and Michael was armed with that information when he was finally allowed to visit Oybek in August of 2007. When I first discussed with Michael the idea of taking on a Guantánamo detainee, he said "so everyone else is going to get a goat farmer, but what happens if we end up with a real terrorist?" Before he visited Guantánamo, based upon the information we had, it was unlikely Oybek was a terrorist, and so when Michael returned from Guantánamo, the first thing he told me was "he's more Borat than he is Khalid Sheikh Mohamed." During the first eight trips to Cuba, he first met Oybek, who had been at Guantánamo for almost five years. Oybek presented as a gentle young man, with no apparent bitterness towards the U.S. Government that was detaining him, but was desperate for freedom. Unlike many other detainees, Oybek learned to speak English from listening to the guards and he was able to communicate with us directly without the necessity of a translator. His English, which I joked he spoke with a slight southern accent, greatly enhanced our ability to eventually relocate him.

In 2007, shortly before Michael's first meeting with Oybek, the Bush Administration cleared him for transfer, which in our view meant that they had determined that he did not constitute a threat to the U.S., a fact that we always knew to be true.

Following the Administration's determination that he could be transferred, we were confronted with the major problem in our representation of Oybek because he could not go back to Uzbekistan where he, in all likelihood, would have been imprisoned or killed. Uzbekistan is on our State Department's list of countries with grave human rights issues. The U.S. authorities fully agreed that he could not be returned to his native country, but had no other options. Even a successful Habeas Corpus hearing, which was years away, would not have accomplished his release from Guantánamo. As Michael said, we don't have a legal problem; we have a political and diplomatic problem obtaining his release to a third country, and we won't get much help from our Government. We had to convince a third country that, notwithstanding the U.S. having taken the position that the people at Guantánamo were "the worst of the worst," that they should offer asylum in circumstances where the U.S. was unwilling to do so. Because we knew that we would get little help from our government, Michael flew to Europe and met with human rights groups in Germany, Denmark, and Ireland in order to identify a country where we had some hope that Oybek would be accepted. Following his meetings in Dublin with Amnesty International, and representatives of Human Rights Watch, we focused on Ireland.

Why Ireland? We had four reasons. First, he spoke English, and we knew that would give him a tremendous head-start in terms of rebuilding his life. Secondly, Ireland remains, in part, an agriculture country, which was Oybek's background. We also knew that Ireland had a long tradition of the recognition of human rights, and lastly, we thought the Irish

government might be open to accepting a detainee for resettlement as a way to improve relations with the United States.

In the spring of 2008, Michael and I went to Guantánamo and talked with Oybek about Ireland and about our hope that we could secure his release there. He wanted to go to a free, democratic country and Ireland certainly qualified, but he did not even know where Ireland was and I wound up drawing a free-hand map attempting to locate Ireland in Western Europe. On our return from Guantánamo, Michael made additional visits to Ireland, and single handedly started a human rights campaign on behalf of Oybek. He talked to ministers in the Irish Government, who expressed interest in helping us, but had great concerns of political ramifications of taking a Guantánamo detainee. He had members of the Dail, Ireland's parliament, raise questions to the Government in debate and made Oybek's case a prominent public issue. Past President Ralph Lancaster kindly put me in contact with his friend Former Senator George Mitchell, who the Irish revere because of his work on bringing peace to Northern Ireland. Senator Mitchell hand delivered a letter to the Irish Foreign Minister that Michael had written asking the Irish government to consider accepting Oybek for resettlement. One of our honorary Fellows, the Former President of Ireland, Mary Robinson, also spoke up in favor of Ireland's accepting Oybek. Senator Kennedy, Senator KERRY, and Congressman BILL DELAHUNT directly contacted the Irish government on Oybek's behalf. Many people from Boston visit Ireland and Michael had established such a presence there, that people returning to Boston called and told me that they had heard Michael on Irish radio discussing Ireland's role in helping to close Guantánamo.

By the end of 2008, with the change of administration in Washington, we had made a lot of progress, but then came the spring of our despair as the Obama Administration came into office and Congress prohibited any Guantánamo detainee from being brought to the U.S., which made it much more difficult to convince a third country to grant asylum to men to whom the U.S. would not accept. In the spring of 2009, with no progress, despair set in at Guantánamo and many of the detainees, including Oybek, began a hunger strike, which caused me great concern that a hunger strike would affect Ireland's interest in Oybek. My son, however pointed out that if anyone understood the despair of confinement leading to a hunger strike, it was the Irish. By late summer of 2009, it was clear that the Irish had not given up on Oybek and were prepared to grant asylum, not only to Oybek, but to one of the other four Uzbeks because they were committed to taking two detainees, not just one. Oybek and the other Uzbek, who we referred to as the "Uzbek to be named later," were eventually put on a U.S. military airplane at Guantánamo and flown into Dublin where they arrived over a year ago.

When the plane with Oybek and Shakhrukh, the other Uzbek, landed in Ireland, they were shackled—hand and foot. When the representative of the Irish government got on the U.S. military plane and was told by the officer in charge that the guards were ready to escort Oybek and Shakhrukh off the plane, the Irishman said: "These men are not going anywhere until you remove the shackles and handcuffs. When they step off this plane onto Irish soil, they will do so as free men."

There was one last item left undone. During the course of our representation, Michael had tried, without success, to locate Oybek's wife and children. But without legal travel documents and afraid to return to Uzbekistan, they had lived as refugees in Central Asia since Oybek's disappearance. One day, Oybek's family was listening to the Uzbek service on Radio Free Europe/Radio Liberty and heard Michael being interviewed about his efforts to get Oybek resettled in Ireland. Eventually, Michael was put in touch with people in Pakistan and Oybek's wife and two children were located in a refugee camp in Pakistan. Michael then worked with the Irish Government to bring his wife and his two children, one of whom he had never seen, to Ireland. This work is not over. Detainees remain at Guantánamo despite the fact that in nearly 70 percent of the cases that have been heard by Federal Judges, the writ of habeas corpus has been granted. We will continue to fight for human justice. Michael and I have filed an Appearance in another detainee's case and look forward to his eventual release.

Why did lawyers, including the Fellows of the College, undertake the representation of these men in a very unpopular cause? They did it because it is part of their DNA. It is the reason many of them went to law school. Who among you has not imagined yourself as Atticus Finch standing in that hot Alabama courtroom defending an innocent man? Every state in this country has a long tradition of lawyers providing pro bono representation in unpopular causes. When Michael and I each passed the bar, we signed a book that has the name of every lawyer who has ever practiced in Massachusetts. That roll contains the names of the lawyers who represented Sacco & Vanzetti. It has the name of Benjamin Curtis, a Massachusetts lawyer and member of the Supreme Court of the United States, who dissented in the Dred Scott case and then resigned as a matter of principle. Curtis returned to Washington in 1868 to represent the very unpopular President, Andrew Johnson, in the impeachment trial before the U.S. Senate. We all know the story of John Adams, who defended the British soldiers in the Boston Massacre, but his son, John Quincy Adams, who, after he had been President, represented the African slaves on the Spanish slave ship, the *La Amistad*, is also on that roll of attorneys. This is not just a Massachusetts tradition; it is the fabric of what it means to be an American lawyer. All of you have or will have an opportunity at some point in your career to undertake an unpopular representation. I would urge all of you to seize that opportunity because you will never forget it.

John Adams said that of all the things he did, which included not only the presidency, but being the driving force behind the Declaration of Independence, that the representation of the British soldiers was the best service that he had ever done for his country. Each of us standing here today would tell you that this is the best thing that we have ever done. Thank you and God bless the Constitution of the United States.

IN RECOGNITION OF ALBERT
CIMPERMAN

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. KUCINICH. Madam Speaker, I rise today to congratulate Mr. Albert Cimperman on his induction into the Legion of Honor by the President of the French Republic. The most prestigious award that France bestows, the medal of the Knight of the Legion of Honor is reserved for soldiers and civilians who have demonstrated remarkable talent and character. Mr. Cimperman fought bravely in World War II, displaying courage and discipline in some of the most grueling battles.

Napoleon Bonaparte conferred the first medals of honor on the civil servants of the French Republic. These first medals realized his vision of a merit based award that would spur soldiers and civilians alike to pursue endeavors that would do credit to their country. The Legion of Honor is the only remaining national order remaining in France.

Mr. Cimperman fought bravely in nine campaigns during World War II, including the battles of Normandy and Ardennes. He has received six awards from the United States government for his efforts, including the Bronze Star Medal with three Oak Leaf Clusters. Today, Albert and his wife of 65 years, Zora, are active Parma residents. They were awarded the Joined Hearts in Giving Award in 2007 for their dedication to community volunteer work, and continue to teach a weekly line-dancing class at the Donna Smallwood Activities Center in Parma.

Madam Speaker and colleagues, please join me in thanking Mr. Albert Cimperman for his service. Without the sacrifice and perseverance of soldiers like him, the Allied Forces could not have prevailed and we would live in a much crueler, culturally impoverished, and oppressive world. It is my honor and my pleasure to congratulate Mr. Cimperman on his great accomplishment.

A TRIBUTE IN HONOR OF THE
LIFE OF IRVING GELLERT

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Ms. ESHOO. Madam Speaker, I rise today to honor the extraordinary life of Irv Gellert, a dear friend who passed away on November 1, 2010 at his home in Los Angeles, California.

Irv had a great sense of joie de vivre and lived his life to the fullest. He was born in January of 1917 and grew up in the rural coal mining region of Pennsylvania, where his athletic abilities and interest in sports led him to become an all-star high school football player. After attending Temple University in Philadelphia, Irv enlisted in the Army and served his country with honor and pride during World War II. When the war was over and his service ended, he enrolled in New York University Law School and graduated with a law degree in 1949.

Not long after graduating from law school, Irv married his beloved wife Harriet. In 1954,

their only child, a son Jay was born, and Irv took on one of the great roles of his life as a parent. He was a loving role model to Jay, who called him his most admired person. Just three years after Jay was born, Irv was admitted to the California Bar Association and he spent the next 30 years as a respected practicing attorney in both New York and California.

Irv's competitive nature and enduring spirit compelled his interests throughout his life. He had a passion for sports and was a dedicated Los Angeles Lakers fan. He also held a deep-seated interest in politics and closely followed elections and the political process. In the recent midterm election cycle, Irv made use of the latest technology to keep track of races across the country by following the elections on his new Apple iPad device. Each election cycle, Irv lent his support to candidates he felt would best serve his local community as well as the country he was so proud of.

Later in life, Irv's most rewarding experiences came from caring for his ailing wife during her ten-year battle with Alzheimer's. It was during the time he cared for Harriet that Irv's true nature shone through. His love, coupled with his optimism and interminable selflessness, provided comfort to Harriet, to Jay, to their family and to their many friends affected by Harriet's condition.

Irv had a genuine love for life and humor about every aspect of it. He was the most positive person I've ever known, a man who demonstrated very clearly what he believed in by how he lived. He was a man of integrity and intelligence, grace and goodness.

Madam Speaker, I ask my colleagues to join me in extending our sincere condolences to Jay Gellert, the light of Irv's life and the son of sons. In Irv's passing, we've lost a great friend and patriot whose dedication and service made our nation a better place. We mourn his passing, but take comfort in the knowledge that his legacy lives on through the wisdom he shared, through the humor and keen observations he displayed, and through all the people he touched throughout his long and extraordinary life.

RECOGNIZING CHAUNCEY POSTON

HON. TOM McCLINTOCK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. McCLINTOCK. Madam Speaker, I rise today to recognize the service of Chauncey Poston to the City of Grass Valley, California.

Council Member Poston has a long history of service to others, beginning with his time with the United States Navy serving in Vietnam and Guam, following which he returned home to California where he earned his Bachelor of Science degree in Natural Resources from California State University, Humboldt. Since 1978, Chauncey has lived in Nevada County, where he has served as President of the Nevada County Resource Conservation District, as a member of the Grass Valley Planning Commission and the Grass Valley Traffic Safety Review Committee and since 2006, as a member of the Grass Valley City Council. Chauncey is well known for his many accomplishments and contributions to our community, including his work to ensure the

fiscal solvency of the City's infrastructure programs, facilitating the cooperation between local government, businesses and interest groups and working to address each issue the City has faced as it has grown: from traffic congestion to public safety and economic development. It is a remarkable statement of Council Member Poston's service that every part of our community, from businesses to fine and performing arts groups to environmental advocates, felt they were well represented by his efforts.

Grass Valley City Administrator Dan Holler described Chauncey well: "Throughout his years on the City Council he was dedicated to building a better community by listening to residents and businesses, by being involved in civic organizations, by making hard decisions and by focusing on the long-term vision of the City of Grass Valley." Madam Speaker, in a time where localities across our country are struggling to find competent and effective leaders, Council Member Chauncey Poston has served as a fine example of the culture of service that ought to be reflected in all elected officials, and it is my privilege to rise today in recognition of that service.

COMMENDING BRO. STUART TOMS UPON THE OCCASION OF HIS RE- TIREMENT

HON. RODNEY ALEXANDER

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. ALEXANDER. Madam Speaker, it is with enormous pride that I rise today to commend Bro. Stuart Toms upon the occasion of his retirement from the Sweetwater Baptist Church. His unwavering dedication and service to Jackson Parish is admirable and deserving of our appreciation.

At a young age, Bro. Stuart began his impressive list of endeavors. In 1959, he was named class valedictorian of Quitman High School. He went on to further his education at Northeast Louisiana University (NLU), which today is known as the University of Louisiana-Monroe. Here, Bro. Stuart excelled as a point guard on the basketball team. In 1961-1962, he helped direct his team to their first league title in the Gulf South Conference (GSC). He was named 1963 All-GSC First Team and was inducted into the NLU Athletic Hall of Fame in 1986.

After graduating from NLU, Bro. Stuart continued sharing his love of basketball as a high school coach. In this capacity, he also worked as a math teacher and principal until he retired from the school system in 1984. His talents on the sidelines matched his impressive skills on the court proven by the numerous accolades he earned for his coaching abilities. At his high school alma mater, he coached back-to-back Class B State Championship basketball teams in 1970 and 1971. Among his honors, Bro. Stuart was named Class B Coach of the Year for the State of Louisiana in 1970, inducted into the Louisiana Association of Basketball Coaches Hall of Fame in 1989 and inducted into the Jackson Parish Sports Hall of Fame this year.

Bro. Stuart commenced his career service to the Lord when he was ordained as a Baptist minister in October 1983. Following his or-

dination, he began as the pastor of Sweetwater Baptist Church where he has continued to serve the congregation for the past 27 years. Through the years, he has addressed numerous revivals, presided over many weddings and funerals and has been on two international mission trips.

Beyond his professional career, Bro. Stuart has been married for 39 years to Johnette Pardue Toms. They are the loving parents of Stuart "Stu" Toms, Jr., Dr. Catherine Lucas and Mrs. Julie Nelson, and the proud grandparents of Ty and Kale Toms, Lily Lucas and Andrew Nelson.

I have been fortunate to have attended his worship services for several years. This truly gracious man is a friend to many, and it is his connection and involvement in his community for which we should all strive to model. I ask my colleagues to join me in congratulating Bro. Stuart Toms. His commitment, compassion and leadership warrant this laudable recognition.

Mr. BACHUS. Madam Speaker, on December 31, 2010, Michael L. Kerley, Esq. will retire from the National Association of Insurance and Financial Advisors after 41 years of dedicated service.

It is a rarity in our Nation's Capital to find someone who has worked in one place for more than 10 years. For Mike to have been with NAIFA for over four decades is a tremendous achievement and a testament to his devotion and his character.

Many of us in Washington know Mike as a passionate advocate for the life insurance industry and those individual agents who work tirelessly to help Americans take the steps necessary to protect their loved ones and their employees from financial disaster in the wake of life's inevitable risks. Members on both sides of the aisle have had the pleasure of working with Mike and know him to be a man of high integrity and sincerity.

Therefore, I ask my colleagues to join me in congratulating Mike on an incredibly successful career and wishing him well.

MEDICARE AND MEDICAID
EXTENDERS ACT OF 2010

SPEECH OF

HON. RUSH HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 9, 2010

Mr. HOLT. Mr. Speaker, I rise in support of H.R. 4994, the Medicare and Medicaid Extenders Act, which would provide a one year extension for Medicare reimbursement rates for physician services.

The Balanced Budget Act of 1997 established a new way to determine Medicare physician payments: the Sustainable Growth Rate, SGR, formula. Since 2002, this formula has called for an automatic decrease in Medicare physician payments each year, potentially limiting physician access for Medicare patients. The formula goes beyond Medicare and also affects TRICARE, the insurance plan for active and retired military personnel and their families, and its reimbursements for civilian physicians.

According to the Medicare Payment Advisory Commission, there is a broad consensus that this physician payment formula is flawed. These parts of the Balanced Budget Act should not have been passed in the first place and should be repealed and rewritten anew. The health reform legislation passed by the House of Representatives last year, which I supported, included a provision that would have repealed and replaced the SGR formula with a new Medicare physician payment plan. Unfortunately, the final health reform bill that was signed into law did not include this provision, which would have been a permanent solution to the SGR formula.

Unless Congress acts, this formula would lead to a 25 percent cut in doctor's payments in 2011, discouraging many doctors from continuing to accept Medicare patients.

The Medicare and Medicaid Extenders Act would freeze the current rates for physician services through December 31, 2011, giving Congress time to work on a permanent solution. Further, this piece of legislation would extend the 5 percent increase in Medicare payments for mental health providers that is set to expire at the end of 2010. This provision would expand access to mental health care for millions of Medicare patients.

Additionally, this bill would extend funding for the special diabetes program through 2013. Without this bill, the special diabetes program, which funds 35 percent of all Federal research on Type I diabetes and supports research and prevention diabetes programs for Native Americans and Alaska Natives would expire at the end of 2011.

This bill is completely paid for by making small changes to the health reform law.

I am frustrated by these continuing short-term extensions. This is unfair to physicians who must plan their office budgets and unfair to patients who face unnecessary anxiety about the availability of the doctors on whom they depend. I will continue to advocate for legislation that eliminates the broken SGR for-

mula and replaces it with a system that fairly compensates physicians for treating Medicare patients. Until we have a new system, we must pass this one-year fix to ensure that American seniors and military families have the access to their physicians.

HONORING J. DAVID COLFAX OF
MENDOCINO COUNTY

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. THOMPSON of California. Madam Speaker, I rise today to commemorate the civic accomplishments and dedicated public service of J. David Colfax who has served on the Mendocino County Board of Supervisors for the past 12 years.

As supervisor, educator and exemplary citizen his service has benefitted the ruggedly beautiful Mendocino County in northern California where he has lived with his wife Micki since 1973. He has served on many boards, committees and organizations including the Mendocino County Office of Education, First 5 Mendocino, the Economic Development and Finance Corporation, the North Coast Railroad Authority, the Criminal Justice Board Standing committee and the Local Agency Formation Committee.

David and Micki raised four sons whom they homeschooled on their Shining Moon ranch, where they built their own house and raised award winning goats. Their children went on to such universities as Harvard and Yale and all are working in professions that give back to others. David and Micki authored the book Home Schooling for Excellence which continues to inspire. And they wrote Hard Times in Paradise about their transition from their urban lives in the eastern United States to their rural ranch outside of Boonville not far from the Pacific Ocean.

During his three terms as a Mendocino County Supervisor, David has represented his geographically diverse district that ranges from the coast to 4,000-foot ridges to valleys and includes at least five watersheds. He has won the support of constituents who are entrepreneurs, fishermen and women, winemakers, brewmasters and mavericks of many persuasions. With a college professor style and animated discourse, David Colfax has served with passion and dedication.

Madam Speaker and colleagues, David Colfax has earned the admiration and respect of his peers, his community and his family. He is a friend and colleague whose legacy and contributions are long lasting in Mendocino County. For these reasons, it is appropriate that we honor J. David Colfax.

IN RECOGNITION OF MR. MICHAEL
BLANDINA

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. PALLONE. Madam Speaker, I rise today to recognize Mr. Michael Blandina, a resident of Brick Township, New Jersey and dedicated

member of the community. On October 30, 2010, Mr. Blandina retired from his position as Manager of the New Jersey Motor Vehicle Commission in Lakewood, New Jersey. He is also recognized for his work with various political organizations in Ocean County, including the Brick Township Democratic Municipal Committee where he serves as Chairman. Today, I applaud Mr. Blandina, as his achievements should serve as an inspiration to us all.

Mr. Blandina began his professional career as a Special Police Officer with the Brick Township Police Department in 1983. He valiantly served the constituents of Brick Township for seven years. In conjunction with his service as Special Police Officer, from 1985 through December 1999, Mr. Blandina served in the Tax Assessor's Office. His outstanding abilities and commitment were evident as he soon rose to the position of Principal Assessing Clerk. After approximately fifteen years of service to the Tax Assessor's Office, Mr. Blandina soon accepted a position with the Administration Department where he assisted constituents with various local issues. His responsibilities also included coordinating media related events for the Township of Brick. During his tenure, Mr. Blandina also spent summers working in the Recreation Department, specifically assisting the Township Recycling Program. In June 2007, Mr. Blandina accepted a position as Manager of the New Jersey Motor Vehicle Commission in Lakewood, New Jersey. Throughout his professional experience, Mr. Blandina's generosity has undoubtedly touched many lives and has helped countless people throughout central New Jersey.

Mr. Blandina is also a valued member of various local and political organizations. Since 1983, he has proudly served on the Brick Township Democratic Committee, eighteen of those years as Municipal Chairman. He has also served as Democratic Finance Committee Chairman and has dedicated his time to assisting the Ocean County Young Democrats. Similarly, Mr. Blandina has assisted with the Ocean County Columbus Day Parade Committee, one of the largest parades and ethnic festivals in the state of New Jersey. His other affiliations include the Ocean County Saint Patrick's Day Parade Committee, The Girls Scouts of the Jersey Shore Awards Reception Committee, Brick Township Democratic Club, among others. Mr. Blandina continues to mentor, exemplifying confident leadership and management skills.

As a result of his outstanding service, Mr. Blandina has been the recipient of numerous awards. He has received Brick Township Democratic Club's "1999 Democrat of the Year" award and the Columbia Civic League of Ocean County's "1999 Man of the Year" award. He has also been the recipient of the Heritage Festival Ball Committee's "2003 Outstanding Ethnic Leader" award and Brick UNICO Chapter's "2004 Italian American of the Year" award.

Madam Speaker, please join me in acknowledging Mr. Blandina's multiple years of service to the Ocean County community. His dedication and commitment are positive examples of what steadfast determination and hard work can accomplish.

HONORING THE HONORABLE
RONALD PANIOTO

HON. JEAN SCHMIDT

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mrs. SCHMIDT. Madam Speaker, I rise today to recognize the career of the Honorable Ronald Panioto, who is retiring as a judge of the Hamilton County Common Pleas Court. Judge Panioto leaves the courtroom some 35 years after he first ascended the bench of the Hamilton County Municipal Court.

Judge Panioto became presiding judge of the domestic relations division of the Common Pleas Court in 1981, and he quickly gained a reputation for fairness and sensitivity for families—especially the children—who came before him.

On the occasions in domestic cases when he had to interview children, Judge Panioto bought stuffed animals to give to the children to put them at ease.

Throughout his life, Judge Panioto has rightfully been proud of his Italian heritage and served as President of the United Italian Society from 1971 to 1993.

Judge Panioto's diligence, humanity and graciousness on the bench have won him the respect of the community.

Madam Speaker, please join me in wishing Judge Panioto a long and happy retirement and thanking his wife Judith, his son Ronald Jr., his granddaughter Christine and great-grandson Andrew for sharing the judge with us over all these years.

COMMEMORATING THE LIFE OF
RON SANTO

HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Ms. SCHAKOWSKY. Madam Speaker, I rise today to draw attention to the passing of legendary Chicago Cubs third baseman and broadcaster Ron Santo, and to recognize his lifetime of achievement both on and off the baseball diamond.

Ronald Edward Santo was born February 25, 1940 in Seattle, Washington. Twenty years later, he made his professional baseball debut at third base for the Chicago Cubs. Over his 14-year major league career, the first 13 with the Cubs and the final season with the cross-town White Sox, Santo hit 342 home runs, had 1,331 RBIs, won 5 Gold Gloves, and appeared in 9 All-Star games. He is considered perhaps the greatest player not currently in the Hall of Fame. Nonetheless, his number 10 is immortalized on the North Side, hanging on the left field pole at Wrigley Field, which Santo referred to as "my Hall of Fame."

After a successful baseball career, Santo spent 15 years in business before returning to the Cubs as the color commentator for WGN Radio's Cubs broadcasts in 1990. He spent the next 20 years in the Cubs radio booth, and his passion and enthusiasm for the home team, which surfaced in disheartened groans as often as supportive exclamations, endeared him to a new generation of Cubs fans. Santo always seemed at ease in the WGN booth

and established himself as the rightful heir to Harry Carey's oversized throne as the king of Chicago Cubs commentary.

Away from the "Friendly Confines," Santo worked tirelessly to raise money and awareness for Diabetes through the Juvenile Diabetes Research Foundation. Diagnosed at age 18, his diabetes was unknown even to his teammates until 1971, when Santo decided to use his star power to draw attention to the disease. From 1979 until his death, Santo sponsored the JDRF Walk to Cure Diabetes, helping to raise over \$60 million for research and advocacy. Santo's teammate Ernie Banks said of his fellow Cub, "Ronnie has handled his own ailment like the true champion he is. He is the most courageous person I've ever been around. I'm inspired by him and by his spirit. He is one of my idols, one of my heroes. I love Ron Santo."

Ron Santo passed away on Thursday, December 2. He will be sorely missed, but his legacy will continue to inspire us all.

TRIBUTE TO GENERAL JAMES L.
JONES

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. SKELTON. Madam Speaker, let me take this means to recognize an American hero, General James L. Jones, for his lifetime of public service. Having served more than 40 years in the United States Marine Corps as a diplomat in the Middle East and around the world, and most recently as the National Security Advisor to the President, he is a true public servant.

On October 8, 2010, the President announced that General Jones made the decision to step aside from his post as National Security Advisor and that his good friend and deputy, Tom Donilon, would succeed him.

Through the years, I have been honored to work with General Jones, and I have always trusted him to offer his best counsel on national security matters. A true patriot and strategic visionary, he has performed each and every mission with utmost dedication. The American public will forever be indebted to General Jones and his family for their service to our country and the many sacrifices they have made.

Madam Speaker, I trust my fellow members of the House will join me in paying tribute to General James L. Jones for his leadership and commitment to the safety and security of the American people. I wish him and his family the very best in the days to come.

ON THE DEATH OF AMBASSADOR
RICHARD HOLBROOKE

HON. JANE HARMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Ms. HARMAN. Madam Speaker, after hearing encouraging news over the last few days, learning that my friend Richard Holbrooke had died last night felt like a sucker punch. A day later, it still does.

I suppose, in an ironic way, Richard would smile at the enormous impact he had on friend and foe alike. He was a life force, a force of nature—someone always operating on multiple levels, in high gear, and in more than three dimensions. I used to chafe when in the middle of a phone call he would put me on hold to talk with someone else—but I bet he did it to everyone.

He was a consummate juggler—the master diplomat. He knew precisely what he was prepared to tell someone, and what he was not. Though it takes years to settle on how history will view someone, my guess is Richard Holbrooke will be considered, hands down, as the best diplomat of my generation. Indeed, he will be in a small pantheon that includes Benjamin Franklin, Thomas Jefferson, and Averell Harriman.

But the public Richard is not all of it: the private Richard was a generous and loyal friend. Before joining the Obama Administration, he chaired the Global Business Coalition on HIV/AIDS, Tuberculosis and Malaria. For a time, one of our grandchildren was on its staff. He loved her, and forever after asked about her life, boyfriends, etc. No question the huge staff he built over his many careers over many years is devastated by his untimely death. Surely Megan Quitkin is. To Kati, whom he adored, and the extended Holbrooke family, we mourn your loss—and our country's loss.

I like to think that Richard has just put us all on hold while he takes another call...

2010 MILITARY FAMILY OF THE
YEAR

HON. WALTER B. JONES

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. JONES. Madam Speaker, I rise today to congratulate the Kennedy family for being selected as the National Military Family Association's Coast Guard Family of the Year.

Commander John Kennedy has served in the Coast Guard for 16 years. He is supported by his wife, Bobbi, and their 3 children Olivia, Marissa, and Jack.

The Kennedy family has moved 6 times within 14 years, most recently to Atlantic Beach, NC.

Cmdr. Kennedy currently serves as Commanding Officer of the Coast Guard Cutter *Elm*.

The Kennedy family is very active in the United States Coast Guard, and their community. They volunteer with Operation Christmas Child, and are active with numerous activities including a variety of athletics and the high school marching band.

Being a military family has shown them all how to be independent, and taught them what is truly important in life.

The Kennedy's admit they are not finished moving! They will continue to make friends wherever they go, which exemplifies the Coast Guard motto of *Semper Paratus*, "Always Ready".

I am proud to have the Kennedy family reside in the 3rd district of North Carolina. I thank all the men and women who have bravely served in our military.

Congratulations to the Kennedy family on 2010 Military Family of the Year!

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. KING of New York. Madam Speaker, I rise today to offer my sincerest condolences to the family of J. Eugene Quinn following his untimely passing on December 7th, 2010. Gene was a beloved brother of Thomas, Paul and Francis, a devoted husband to Marguerite, loving father to Tara and proud grandfather of Andrew and Fiona.

A veteran of the United States Army, Gene had a long career in the Federal Government beginning with a position in the Reagan administration. Gene was a patron of the arts and founding member of the Anacostia Gracious Arts Program, an urban after-school arts program for underprivileged youth in Washington. I was always proud to call him my

friend. In short, his commitment to public service was truly remarkable. His life and contributions will certainly be missed by many.

HONORING RHODA VIRGINIA HOFSTETTER ON HER 100TH BIRTHDAY

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, December 14, 2010

Mr. RAHALL. Madam Speaker, I rise to honor Rhoda Virginia Hofstetter on her 100th birthday. This birthday of birthdays, we honor an entire century of dedication to family, friends, colleagues and students.

Rhoda made a tremendous difference and improved so many young lives because of her life-long career as an educator. In 1933, she graduated from Marshall College—now known as Marshall University—and went on to teach

mathematics at Lenore and Williamson High Schools in Mingo County, and at Lookout High School in Fayette County. From 1965 to 1973, Rhoda served as Supervisor of Mathematics for Fayette County. In 1973, she retired after 40 years as an educator and supervisor. Her beloved husband, Martin Hofstetter, passed away the same year.

Rhoda endlessly worked for the betterment of southern West Virginia, not only through her career as a teacher, but also through her active involvement—which continues to this day—as a Charter Member of the Ansted Garden Club.

Rhoda is a pillar of strength in her community of Ansted, where she has resided since 1946. Her devotion to education, family, friends and community is an example for us all.

I offer my personal congratulations to Rhoda, and wish her continued good health and happiness in the future.
