Sources and Notes for Data Appendix 2

Source: All data except total unemployment rate come from the Department of Labor Employment and Training Administration. Total unemployment rate data come from the Bureau of Labor Statistics.

Note: Loan duration represents the number of quarters between 2007:Q4 and 2011:Q2 in which a state had an outstanding loan balance.

Loan magnitude represents a state's peak loan balance between Q4:2007 and Q2:2011, measured as a percent of total state wages in the peak quarter.
