“Keeping Faith”

Suicide Prevention Key Points

1. *Suicide is an irreversible reaction to a temporary problem.*
2. *Suicide is complex. Many interacting factors are at play (e.g., relationship, legal problems, financial, behavioral health diagnoses, and substance abuse).*
3. *The majority of suicides are not impulsive acts. There are usually warning signs that precede the suicide.*
4. *Leaders teach that knowing when to seek help for stress is a trait of a strong, committed Marine.*
5. *Every Marine is trained annually to recognize the warning signs of suicide, and how to get a fellow Marine to help. The training series, Never Leave a Marine Behind, helps develop the skills Marines need to effectively support their fellow Marine.*
