

Description of plans for a SIPP calendar validation study: Study design and analysis

Jason M. Fields, Housing and Household Economic Statistics Division, US Census Bureau
Jeffrey C. Moore, Statistical Research Division, US Census Bureau

Event History Calendars

- “...the use of event history calendars has considerable potential in assisting respondents to reconstruct their personal pasts more completely and accurately, maximizing the quality of retrospective reports.”
 - Dr. Robert Belli
University of Nebraska

What is an event history calendar (EHC)?

- An EHC interview is centered around a customized calendar that shows the reference period under investigation
- The calendar contains timelines for different domains, for example, residence history, household composition, work history, and other domains relevant to the topic of study
- Landmark events, such as holidays and birthdays can be used to aid the respondent's memory

2008 Field Test Evaluation Groups

- Wave 11 2004 Panel Cases (Primed)
- Wave 8 2004 Panel Sample Reduction Cases (Un-Primed)
- Replacement households

- The event history calendar (EHC) will be administered to each of these household groups.
- An additional group will be created by the universe which matches to administrative records in the validation phase of the analysis.

	Illinois	Texas	Maryland
SIPP 2004 Available Cases (1)	Available Households	Available Households	Available Households
Total households	936	1048	884
Wave 10 completed households	508	614	268
Wave 8 reduced households	428	434	616

Source: Survey of Income and Program Participation - 2008 Re-engineering field test 1.

Notes: (1) Households were selected for interview in the field test from those completing interviews through Wave 10 in Illinois and in four metropolitan areas of Texas.

(2) If a selected address interviewed for the Event History Calendar test does not include any SIPP 2004 respondents we will utilize the cases as a type of 'un-primed' replacement households.

2008 Evaluation Plan

Domains

- Residential Moves
- School Enrollment
- Labor Force
- Workers Insurance Programs
- Health Insurance
- Social Security
- Social Welfare Programs
- Asset Ownership

Comparisons

- Measurement of occurrence
- Relative timing
- Contemporaneous events
- Distributional differences

Evaluations

- Interviewer debriefing
- Interview observation
- Respondent debriefing
- Focus groups

2008 Validation Plan

Administrative Records

- Medicare
- Social Security
- SSI
- Unemployment Wage Information
- TANF
- Food Stamps

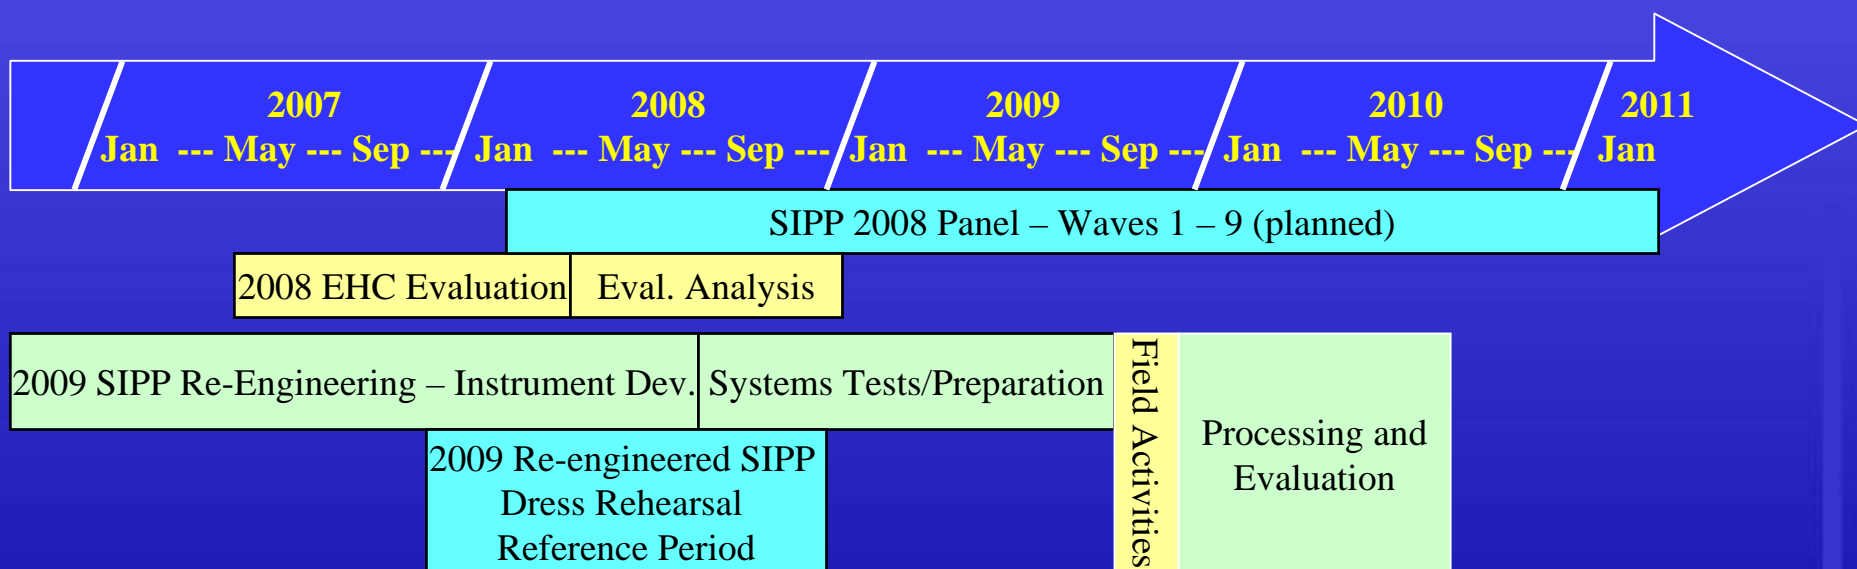

Validations

- By domain – assess the agreement between the survey responses and the administrative records.
 - Occurrence
 - Timing (Survey to Records)
 - Distributional differences
- Evaluate the characteristics of the survey respondents matching and not matching administrative records by domain.

2008 EHC Evaluation Test

2009 Re-engineered SIPP Dress Rehearsal

Questions for Advisory Committee

- We seek constructive criticism concerning any and all aspects of the study design and directed toward ways to strengthen it.
- For the primary comparisons, SIPP reports compared with EHC reports, and survey reports compared with records data we envision an analysis focused on:
 - missed events/circumstances in one or the other interviewing method,
 - differences in the reported timing of events and in income amounts received,
 - more or less reasonable distributions of spell transitions across calendar months.

We would appreciate comments on this overall evaluation strategy and suggestions for additional analyses or other ways to improve it.

- What additional evaluation methods might be employed to better understand the EHC interview process?
