DOBA

Would you say (NAME) Is:

- (1) (AGE1) years of age?
- (2) (AGE2) years of age?
- (N) Neither is correct

\_\_\_\_\_

---

VERAGE

That would make (you/name) (AGE).

Is that correct?

- (1) Yes, age is correct
- (2) No, age is not correct

—

---

AGEGES

**ENTER YOUR BEST ESTIMATE OF (NAME)'s AGE:**

—

---

OLDMS

Last time I recorded (your/name's) marital status as (STATUS).

Is that (your/his/her) current marital status?

- (1) Yes
- (2) No

—

---

OLDSP

Last time I recorded that (you/name) (were/was)  
married to (NAME). Is that currently correct?

- (1) Yes
- (2) No

—

---

SPSSX2

You said (NAME3) is (NAME1)'s spouse.  
Is that correct?

- (1) Yes
- (2) No

—

---

EVRWID

(Have/Has) (you/name) EVER been widowed?

- (1) Yes
- (2) No

—

---

EVRDIV

(Have/Has) (you/name) EVER been divorced?

- (1) Yes
- (2) No

—

---

AFEVER

Did (you/name) ever serve on active duty in the  
U.S. Armed Forces?

- (1) Yes
- (2) No

—

---

AFWHEN

From a previous interview, we recorded that (you/name) served on active duty in the U.S. Armed Forces, but we don't have a record of the times served. When did (you/name) serve on active duty?

(ENTER ALL THAT APPLY)

When did (you/name) serve on active duty?

- (N) No more
- (X) Information is wrong, never served in Armed Forces
- (H) Why are different service periods displayed?

ANSWER: \_\_\_\_\_

**Did (you/name) serve on active duty any other times?**

- \_\_\_(1) August 1990 to present (including Persian Gulf War)
- \_\_\_(2) September 1980 to July 1990
- \_\_\_(3) May 1975 to August 1980
- \_\_\_(4) Vietnam Era (Aug.'64 - April '75))
- \_\_\_(5) Other service (All other periods))

---

AFNOW

(Are/Is) (you/name) now on active duty in the Armed Forces?

- (1) Yes
- (2) No

\_\_\_\_\_

---

OLDED

I have recorded that (your/name's) highest level  
of school completed or highest degree received is:  
(Education Level)

Is that still correct?

- (1) Yes
- (2) No

\_\_\_\_\_

---

EDUCA

**FLASHCARD B**

What is the highest level of school (you/name) (have/has) completed or the  
highest degree (you/he/she) (have/has) received?

- (31) Less than 1st grade
- (32) 1st,2nd,3rd or 4th grade
- (33) 5th or 6th grade
- (34) 7th or 8th grade
- (35) 9th grade
- (36) 10th grade
- (37) 11th grade
- (38) 12th grade, no diploma
- (39) HIGH SCHOOL GRADUATE - high school  
DIPLOMA or equivalent (e.g., GED)
- (40) Some college but no degree
- (41) Diploma or certificate from a vocational, technical,  
trade or business school beyond the High School level
- (42) Associate degree in college - Occupational/vocational program
- (44) Bachelors degree  
(For example: BA, AB, BS)
- (45) Master's degree (For example:  
MA, MS, MEng, MEd, MSW, MBA)
- (46) Professional School Degree (For  
example: MD,DDS,DVM,LLB,JD)
- (47) Doctorate degree  
(For example: PhD, EdD)

\_\_\_\_\_

---

H\_MSNGPRSN

This question is intended to verify that there are no other persons in the household. Studies have shown that persons will occasionally forget to mention certain persons in the household who would qualify for SPD interviews, such as temporary roomers, persons who live or stay in that unit part of the month, etc.

**PRESS "ENTER" TO EXIT HELP** \_\_\_\_\_

---

H\_LIVEAT

Part of the housing unit definition includes the idea that people living in a unit will either live together OR eat together.

**PRESS "ENTER" TO EXIT HELP** \_\_\_\_\_

---

H\_OTHLIV

Part of the housing unit definition includes the idea that people living in a unit will either live together or eat together, and that no other persons in the structure (i.e., in another unit or room) live or eat with this household.

**PRESS "ENTER" TO EXIT HELP** \_\_\_\_\_

---

H\_XACCESS

If the people who do not live or eat with the household members have direct access to a separate living arrangement, from the outside or through a common hallway, mark "Yes".

**PRESS "ENTER" TO EXIT HELP** \_\_\_\_\_

---

H\_USUAL

This is the usual place of residence if this address is the household member's sole address, or if the household member has 2 addresses but lives at this address most days in a given month.

**PRESS "ENTER" TO EXIT HELP** \_\_\_\_\_

---

H\_NXTLIV

The household member usually lives here if this address is the his/her sole address, or if the household member has 2 addresses but lives at this address most days in a given month.

---

H\_MS

- o If the person's spouse is NOT a household member but he/she reports being married, mark "Married, spouse ABSENT"
- o If the person is separated from his/her spouse because of mutual agreement or by a legal decree but he/she is not yet divorced, mark "Separated".
- o If the person reports having been married but the marriage was annulled, mark the "never married" category.

**PRESS "ENTER" TO EXIT HELP \_\_\_\_\_**

---

H\_AFWHEN

The CAPI instrument will display only those service periods that are appropriate to the age of the person. Note that you may record up to 4 time periods of active duty service.

**PRESS "ENTER" TO EXIT HELP \_\_\_\_\_**

This item provides information on the current educational level of persons. Be sure the level marked was completed. For example, persons may have attended college but not completed a degree; in this case, code 40 should be marked. For persons who have completed elementary, junior high, or high school as the highest level of education, determine the highest grade or year completed. Do not assume "junior high" falls in the 7th or 8th grade category. Some junior highs begin with the 6th grade and some end with the 10th grade.

(31) Enter this code for persons who have not completed at least the 1st grade. They may have no schooling or completed only nursery school or kindergarten.

(38) Enter only those who have completed the 12th grade or year but DO NOT have a high school diploma or the equivalent.

**PRESS "SHIFT-F6" TO EXIT HELP**

(39) High school graduate indicates the person has received a high school diploma or the equivalent such as a GED. Include any persons who have completed less than 12 years of school but who have obtained a diploma.

(40) Enter this category for those who have attended some college and have not yet received a degree. "College" indicates a school that grants college or university degrees, it does not include vocational, technical, business or trade school certificates or diplomas.

**PRESS "SHIFT-F6" TO EXIT HELP**

- (41) Vocational, technical, trade or business schools include things such as beauty schools, schools for dental assistants, secretarial schools, nursing schools which do not award college degrees, and electrician certification. Schools such as these may award a diploma, certification or license as their final degree.

If uncertain, ask if the school granted the individual a college degree. If the program lasted 2 years or more and the degree awarded was an Associate, Bachelor's, Master's, or Doctorate, do not check code 41.

- (42) Associate's degrees are generally granted from 2-year institutions. If the major field of study followed an occupational or vocational track preparing one for a specific technical job or career upon completion of the program, mark this category.

**PRESS "SHIFT-F6" TO EXIT HELP**

- (43) An academic program of an Associate's degree includes fields in the humanities/liberal arts, social sciences, and general sciences and is often used as preparation for a 4-year (Bachelor's) degree.
- (44) Mark this entry if the degree completed is a Bachelor's degree (generally granted by four-year institutions). This includes Bachelor's of Arts and Bachelor's of Science.
- (45) Mark this if a Master's degree was granted from a university or college program. These include Master of Science, Arts, Social Work, Business Administration.
- (46) A professional degree is granted from a graduate or professional school, post-baccalaureate. This includes medical (MD), law (JD), dental (DDS), theological, or veterinarian (DVM) degrees.

**PRESS "SHIFT-F6" TO EXIT HELP**

- (47) Mark this entry for persons who have completed a Doctor of Philosophy (PhD), Doctor of Education (EdD), or other doctoral degree.

**PRESS "ENTER" TO EXIT HELP \_\_\_\_\_**

## FOOD SECURITY

---

### 1000. FLASHCARD T

These next questions are about the food eaten in your household in the last 12 months, since (month) 1997, and whether you were able to afford the food you need.

Which of these statements best describes the food eaten in your household in the last 12 months?

IF NECESSARY: READ CATEGORIES

- (1) Enough and the kinds of food we want
- (2) Enough but not always the kinds of food we want
- (3) Sometimes not enough
- (4) Often not enough
- (H) Help

---

1001. Here are some reasons why people don't always have enough to eat. For each one, please tell me if that is a reason why YOU don't always have enough to eat.

**READ LIST**

(H) help

Not enough money for food	(1) Yes	(2) No	—
Too hard to get to the store	(1) Yes	(2) No	—
Not able to cook or eat because of health problems	(1) Yes	(2) No	—
No working stove or refrigerator	(1) Yes	(2) No	—

---

1003. Now I'm going to read you several statements that people have made about their food situation. For these statements, please tell me whether the statement was OFTEN, SOMETIMES, or NEVER true for (you/your household) in the last 12 months.

The first statement is "(I/We) worried whether (my/our) food would run out before (I/we) got money to buy more." Was that often, sometimes, or never true for (you/your household) in the last 12 months?

- (1) Often true
- (2) Sometimes true
- (3) Never true

---

1004. "The food that (I/we) bought just didn't last, and (I/we) didn't have money to get more." Was that often, sometimes, or never true for (you/your household) in the last 12 months?

- (1) Often true
- (2) Sometimes true
- (3) Never true

---

1005. "(I/We) couldn't afford to eat balanced meals." Was that often, sometimes, or never true for (you/your household) in the last 12 months?

- (1) Often true
- (2) Sometimes true
- (3) Never true

---

1007. "(I/We) relied on only a few kinds of low-cost food to feed (name/the children) because (I was/we were) running out of money to buy food." Was that often, sometimes, or never true for (you/your household) in the last 12 months?

- (1) Often true
- (2) Sometimes true
- (3) Never true

---

1008. "(I/We) couldn't feed (name/the children) a balanced meal, because (I/we) couldn't afford that." Was that often, sometimes, or never true for (you/your household) in the last 12 months?

- (1) Often true
- (2) Sometimes true
- (3) Never true

---

1009. "(Name was/The children were) not eating enough because (I/we) just couldn't afford enough food." Was that often, sometimes, or never true for (you/your household) in the last 12 months?

- (1) Often true
- (2) Sometimes true
- (3) Never true

---

1010. In the last 12 months, since (MONTH) 1977 did (you/you or other adults in your household) ever cut the size of your meals or skip meals because there wasn't enough money for food?

- (1) Yes
- (2) No
- (H) Help

---

1011. How often did this happen---almost every month, some months but not every month, or in only 1 or 2 months?

- (1) Almost every month
- (2) Some months but not every month
- (3) Only 1 or 2 months

---

1012. In the last 12 months, did you ever eat less than you felt you should because there wasn't enough money to buy food?

- (1) Yes
- (2) No

---

1013. In the last 12 months, were you ever hungry but didn't eat because you couldn't afford enough food?

- (1) Yes
- (2) No

---

1014. In the last 12 months, did you lose weight because you didn't have enough money for food?

- (1) Yes
- (2) No

---

1015. In the last 12 months, did (you/you or other adults in your household) ever not eat for a whole day because there wasn't enough money for food?

- (1) Yes
- (2) No

---

1016. How often did this happen---almost every month, some months but not every month, or in only 1 or 2 months?

- (1) Almost every month
- (2) Some months but not every month
- (3) Only 1 or 2 months

---

1018. The next questions are about children living in the household who are under 18 years old. In the last 12 months, since (MONTH) 1977, did you ever cut the size of (CHILD'S FIRST NAME/any of the children's) meals because there wasn't enough money for food?

- (1) Yes
- (2) No

---

1019. In the last 12 months, did (CHILD'S FIRST NAME/any of the children) ever skip a meal because there wasn't enough money for food?

- (1) Yes
- (2) No

---

1020. How often did this happen---almost every month, some months but not every month, or in only 1 or 2 months?

- (1) Almost every month
- (2) Some months but not every month
- (3) Only 1 or 2 months

---

1021. In the last 12 months, (was CHILD'S FIRST NAME/were the children) ever hungry but you just couldn't afford more food?

- (1) Yes
- (2) No

---

1022. In the last 12 months, did (CHILD'S FIRST NAME/any of the children) ever not eat for a whole day because there wasn't enough money for food?

- (1) Yes
- (2) No
- (H) Help

---

## CHILD-RELATED QUESTIONS

---

**Ask questions about children under 18 first. Then ask appropriate questions about children 18-20 years old.**

---

## ENRICHMENT ACTIVITIES

---

### SPORTS

The next few questions are about activities that (name) may have participated in outside of the regular school day.

Between September 1997 and May, 1998, was (name) on any kind of a sports team?

- (1) Yes
- (2) No
- (H) Help

---

### LESSONS

Did (name) take lessons after school or on weekends in activities such as music, dance, language, or karate at any time between September 1997 and May, 1998?

- (1) Yes
- (2) No
- (H) Help

---

### OTHERACT

Did (name) participate in any clubs or organizations after school or on weekends, such as Scouts, school newspaper, (Boys/Girls) club, or a religious group at any time between September 1997 and May, 1998?

- (1) Yes
- (2) No
- (H) Help

---

### TVRULES

The next few questions are about television viewing.

Are there family rules about how much television or what programs (name) can watch?

INCLUDE BOTH VIDEOS AND TV VIEWING

- (1) Yes
- (2) No
- (X) Family has no television

---

TVHOURS

Including weekends, how many hours per week does (name) usually watch television?

INCLUDE BOTH VIDEOS AND TV VIEWING

ENTER NUMBER OF HOURS PER WEEK FROM  
"0" (DOES NOT WATCH TV) TO "99" (99 HOURS OR MORE)

(0) Does not watch TV

(1-99)

(H) Help

—

EDUCATTV

Of the (time/number/99 or more hours/one) (hours/hour) (name) usually spends watching TV per week, how many hours does (he/she) usually spend watching educational programs?

INCLUDE BOTH VIDEOS AND TV VIEWING

ENTER NUMBER OF HOURS PER WEEK FROM "0" (DOES NOT WATCH EDUCATIONAL PROGRAMS) TO "99" (99 HOURS OR MORE)

(0) None

(1-99)

(H) Help

---

READTOCH

The next few questions are about activities you (or other family members) may do with (name).

How often in the past week have you (or any family member) read stories to (child's name)?

READ ALL RESPONSE CATEGORIES

(1) Never

(2) Once this week

(3) Several times this week

(4) Every day or almost every day

(5) More than once a day

---

## OUTINGCH

How often in the past month, did you (or any family member) take (name) on any kind of outing such as to a park, library, zoo, church, playground, or to visit with friends or relatives?

### READ ALL RESPONSE CATEGORIES

- (1) Never
- (2) Once in the past month
- (3) About once a week
- (4) Several times a week
- (5) Every day or almost every day
- (H) Help

---

## CHILDREN'S DISABILITY

---

### CHLDHLTH

These next few questions are about (name's) health. Would you say (his/her) health in general is excellent, very good, good, fair, or poor?

- (1) Excellent
- (2) Very good
- (3) Good
- (4) Fair
- (5) Poor

---

### HASDISAB

Have you ever been told by a health professional that (name) has a developmental or learning disability?

- (1) Yes
- (2) No
- (H) Help

---

### HLTHCON6

Does (name) have a health condition that makes it difficult to do things appropriate for (his/her) age?

- (1) Yes
- (2) No

---

### HLTHCOND

Because of a physical, learning, or mental health condition, does (name) currently have any limitation in (his/her) ability to do regular school work?

- (1) Yes
- (2) No
  
- (H) Help

---

GETSPED

During the past 12 months, did (name) receive any special education services?

- (1) Yes
- (2) No
- (H) Help

---

BEHPROB

Were you ever told by a school or health professional that (name) had an emotional or behavioral problem?

- (1) Yes
- (2) No
  
- (H) Help

---

CDIFSEE

Does (name) have difficulty seeing the words and letters in ordinary newspaper print even wearing glasses or contact lenses?

- (1) Yes
- (2) No

---

CSEEWROS

Is (name) able to see the words and letters in ordinary newspaper print at all?

- (1) Yes
- (2) No

---

CSPECAID

Does (name) use any special aids such as a cane, wheelchair, or a hearing aid?

- (1) Yes
- (2) No
  
- (H) Help

---

CTYPEAID

Which type of aid does (name) use?

# APPENDIX E

## Countries and Areas of the World Item BCNTRY\_3

### List A -- Alphabetical List of Areas of the World and Countries

If the specific country reported was not on the interviewer's list, or if the respondent did not know the specific country, the following codes for broad areas of the world were available for coding:

<b>Code</b>	<b>Name</b>
468	Africa: North
462	Africa: Other
245	Asia
353	Caribbean
318	Central America
148	Europe
252	Middle East
304	North America
527	Pacific Islands
389	South America
555	Elsewhere (includes country not known)

The countries (or areas) shown below were coded separately, if reported.

<b>Code</b>	<b>Name</b>	<b>Code</b>	<b>Name</b>
200	Afghanistan	213	Iraq
60	American Samoa	119	Ireland/Eire
375	Argentina	214	Israel
185	Armenia	120	Italy
501	Australia	343	Jamaica
102	Austria	215	Japan
130	Azores	216	Jordan
333	Bahamas	427	Kenya
202	Bangladesh	217/218	Korea/South Korea
334	Barbados	221	Laos
103	Belgium	183	Latvia
310	Belize	222	Lebanon
300	Bermuda	184	Lithuania
376	Bolivia	224	Malaysia
377	Brazil	315	Mexico
205	Burma	436	Morocco
206	Cambodia	126	Netherlands
301	Canada	514	New Zealand
378	Chile	316	Nicaragua
207	China	440	Nigeria

<b>Code</b>	<b>Name</b>	<b>Code</b>	<b>Name</b>
379	Colombia	142	Northern Ireland
311	Costa Rica	127	Norway
337	Cuba	229	Pakistan
155	Czech Republic	253	Palestine
105	Czechoslovakia	317	Panama
106	Denmark	385	Peru
339	Dominican Republic	231	Philippines
338	Dominica	128	Poland
380	Ecuador	129	Portugal
415	Egypt	72	Puerto Rico
312	El Salvador	132	Romania

## Working Papers

### SPD Working Papers

The SPD working papers are currently not available on the Census Bureau's Internet site <http://www.census.gov> and the SPD Internet site <http://www.census.gov/spd>. A current listing of the SPD working papers is provided below. Please refer to the Census Bureau's and the SPD Internet sites in the future to gain access to these and other SPD working papers.

Hess, J. 1999. "Report of Cognitive Interviewing Results for the SPD Children's Residential History Module," Unpublished report (U. S. Census Bureau)

Hess, J., J. Rothgeb, A. Zukerberg, K. Richter, S. LeMenestrel, K. Moore, and E. Terry. 1998. "Teens Talk: Are Adolescents Willing and Able to Answer Survey Questions?" Presented at the annual meeting of the American Association of Public Opinion Research, St. Louis, MO.

Hess, J. J. Rothgeb, and E. Nichols. 1998. "Report on Cognitive Interview Results for the 1999 Survey of Program Dynamics." Unpublished report (U.S. Census Bureau.)

Hess, J. and J. Rothgeb. 1997. "Measuring the Impact of Welfare Reform: Issues in Designing the Survey of Program Dynamics Questionnaire." Invited paper presented at Symposium 97: New Directions in Surveys and Censuses, Statistics Canada.

Hess, J. J. Rothgeb, and A. Zukerberg. 1997. "Survey of Program Dynamics Pretest Evaluation Report." Unpublished report (U.S. Census Bureau.)

Weinberg, D., P. Doyle, A. Jones Jr, S. Shipp. 1998. "Measuring the Impact of Welfare Reform With The Survey of Program Dynamics." Presented at the Joint Statistical Meetings, Dallas Texas, (U. S. Census Bureau.)

A. Jones Jr., B. Downs, S. Shipp. 1999. "Measuring Welfare Reform, Preliminary Results From the Survey of Program Dynamics." Presented at the Joint Statistical Meetings, Baltimore, MD., (U.S. Census Bureau.)

Kominski, Robert, and Loretta Bass, "Developing Children's Data for the Survey of Program Dynamics." Paper presented at the Association for Public Policy Analysis and Management (APPAM) annual meetings, New York NY, October 1998.

Bass, Loretta E. and Barbara Downs. 1999. "What Can the SPD Adolescent SAQ Tell Us About the Well-being of Adolescents in the Aftermath of the 1996 Welfare Reform Act?" Paper presented at the Annual Meeting of the Population Association of America, New York, NY, March 24-27, 1999.

Downs, Barbara and Loretta Bass. 1999 "The Survey of Program Dynamics: A New Source of Data to Explore the Effects of the 1996 Welfare Reform Act on Adolescents." Paper presented at the American Sociological Association meetings, Chicago, August 1999.

Hernandez, Donald, J. 1998, The Survey of Program Dynamics: Sample Retention, the Accuracy of Change Estimates, and Implications for Assessing Welfare Reform, Research Brief, November 4, 1998.

Donald J. Hernandez, 1999, "Comparing Response Rates for SPD, PSID, and NLSY," memorandum to Daniel Weinberg, January 28, 1999.

Fant, Gregory, Kenneth Bryson, Loretta Bass, and Barbara Downs. 1999. "Survey of Program Dynamics 1997 Bridge survey and Current Population Survey 1997 March supplement: Evaluating selected demographic data." Paper presented at the American Statistical Association Joint Statistical Meeting, August 8-12, 1999, Baltimore, Maryland.

The SIPP working papers are available on the Census Bureau's Internet site <http://www.census.gov>. A subset of the SIPP working papers can also be found on the SIPP Internet site <http://www.census.gov/sipp>.

## User Notes

This section will contain information relevant to the *Survey of Program Dynamics 1998 Experimental File* that becomes available after the file is released. The cover letter to the updated information should be filed behind this page.

User notes will be sent to all users who purchased their file or technical documentation from the Census Bureau.

# SURVEY OF PROGRAM DYNAMICS, 1998

## USER NOTE 1

### Employment and Earnings, Eligibility and Asset Variables

This user note addresses the output of respondents to questions in the Employment and Earnings and Eligibility and Assets sections of the SPD instrument. Items are grouped by module and are discussed with reference to the corresponding item number (Q) listed on the SPD questionnaire and/or the variable name. Where a respondent's situation (job I = 1, 2, 3, 4) or asset ownership (vehicles j = 1, 2, 3) requires variations with respect to a variable name, a pound sign (#) is included in the variable name to reflect such multiplicity.

- I. A review of the Employment and Earnings items indicates that the instrument usually operated close to expectations. The final question in the demographic module prior to the initial question on work experience (OTRLNGU8-other language besides English spoken in the household) was addressed to 33,966 respondents 15 years of age or older. Since output from the first work experience question Q9 (WORKYNU8), indicated a slightly lower number of 33,598 respondents answering this question, the instrument appeared to be capturing the intended sample rather well from the outset. Combining the answers from Q9 (WORKYNU8) and Q10 (WRKTEMU8) suggests: that 22,095 should be considered workers; 8,751 were confirmed nonworkers; and that retirees with no work experience during calendar year 1997 numbered 2,484. All people who answered Q9 (workers, nonworkers, and retirees) were expected to be led through the instrument to a later sequence of questions beginning with item Q63 (WRKJOBU8).

*Nonworker questions* (Q11-Q18) should have been asked of at least 8,751 people (higher if we add the D and R responses equal to 274, which would bring the potential pool up to 9,025), but were asked of only 8,083 people--perhaps due to interruptions resulting in partial interviews. The latter number was fairly representative throughout this series. However, the final item in this sequence, Q18 (RSNOWKU8), received a much greater response count of 9,177 people. This development was due to the instrument's assignment of designated retirees to RSNOWKU8 (people previously giving a combined "No-Retired" or "Retired-No" response to successive variables WORKYNU8 and WRKTEMU8) before routing respondents entirely out of the Employment and Earnings section. However, programming error failed to automatically record 2,341 retired people in Q18 (RSNOWKU8), who indicated earlier their retirement status in the first two questions, Q9-Q10 (WORKYNU8-WRKTEMU8), before they were routed to the later sequence of employment questions beginning with Q63.

*Workers questions* (Q19-Q47) should have been asked of 22,095 individuals (perhaps higher if we add the D and R responses equal to 274, which would bring the potential pool up to 22,369 people). Surprisingly, question Q19 on total weeks worked (Q19SUMU8) was asked of an even larger pool of respondents numbering 22,817--a development which requires some explanation (not forthcoming at this time). Throughout the remainder of the section, however, the total number of respondents returned to within the 22,095-22,369 range originally specified. Starting with the employer-specific information requested in Q29 (NUMEMPU8), the flow of responses for job-specific questions appeared to be on target. The decreasing pool of respondents for each successive series of employer questions (job 1 through job 4) was quite reasonable. In addition, some attrition throughout this series could perhaps be attributed to the early termination of interviews. Response categories for Q39 (RSNLFT#U8) are not all correct in the 1998 items booklet. Because the data dictionary had already been approved for print, it was not possible to modify certain value categories in time. An additional category was inserted that increased the number of response categories to ten. As a consequence, values in the data

dictionary show correct item numbers for the first eight categories, but should be changed as follows: "9-Left this job for another job" and "10-Other (specify)."

*Current employment status* (Q63-Q67). This section contained the one serious instrument flaw encountered in the review. Of the 33,598 people 15 years or older asked the initial questions about employment status for the previous year (WORKYNU8 and WRKTEMU8), only 25,568 people encountered the first question Q63 (WRKJOB8) in this series devoted to current employment status. The dramatic decline was due to a programming error in the 1998 SPD instrument that unfortunately rerouted declared nonworking respondents (approximately 8,000 answering NO to both WORKYNU8 and WRKTEMU8) elsewhere. For the remaining respondent pool initiated into this series of questions, however, the instrument performed quite well.

- II. The analysis of Eligibility and Assets items showed that skip patterns appeared to be functioning rather well, but with occasional problems. Unexplained higher counts within a specific series--a minor problem found in the earlier employment questions was evident in the home ownership and vehicle sections. For certain continuous variables, some *qualitative analysis* was also performed. This step consisted of comparing the mean values of selected housing variables in the SPD file against those contained in the 1997 American Housing Survey (AHS) wherever possible. Generally, rather close approximations were found for the following variables: I) value of house; ii) home insurance premium; iii) monthly utility charges (gas, electric, water/sewage); and iv) apartment rent. AHS values tend to be relatively higher than SPD (although not unreasonably so). This is perhaps best explained by the fact that the SPD survey, unlike the AHS survey, over samples people close to the poverty threshold.

*Respondents who own/rent their living quarters* (Q601-Q618E7). Only 25,434 people responded to Q601 (HOWNRU8), although the items from Q604-Q608 (PROVALTU8, HMORTU8, and HEQLNU8 ) received close to 35,000 responses per item. One would expect these figures to be comparable throughout this section. The explanation for the higher average response rates from Q604 onward is that households with one adult only, having indicated ownership earlier in TENUREU8, were not asked Q601 (HOWNRU8)--thus significantly lowering the overall response rate for that particular item. The combination of 35,000 owners and 10,690 renters (the latter responding to Q618B, RENAMTT8) approximately equal to 46,000, was established early on and maintained for the balance of this section.

*Other assets including vehicles* (Q619-Q637V3). The number of respondents recorded in item Q619 (REOTHRU8) beginning this section was 46,677 people--slightly higher than the maximum 46,542 respondents encountered in the earlier Q618C series on utility charges (HELECT8, HHEATT8, HPHONET8, and HWATERT8). An explanation for the higher response count was not evident. Another minor inconsistency was the slight rise in the response count sequence between Q631 (VEHOWNU8) and Q632 (VEHNUMU8) in the vehicle section. Although an identical number of responses should be expected per item, more counts were recorded for the latter question Q632. A more serious situation was in the consecutive pairing of variables for up to three vehicles owned in the household, relating vehicle year information in Q634 (V#YEARU8 and VHVAL#T8) and the subsequent value generated by the instrument. Interestingly, the number of responses for vehicle value was always higher--by 265 people, by 276 people, and by 144 people, for vehicle 1 through 3, respectively, than was the number of responses provided for vehicle year. This can be explained by the fact that sufficient other information (make and model) may have been supplied to derive a vehicle value despite apparent blanks or skips for V#YEARU8.

*Debts/liabilities and support payments* (Q456-Q459, Q645-Q660). This particular section begins with item Q645 (DEBTYNU8), but also includes four related variables taken from the "Amounts" section: Q446 (Q446U8), Q449 (Q449U8), Q456 (Q456U8), and Q459 (Q459U8). Nothing seemed amiss in the data

examined. In general, the 46,574 figure recorded for the initial item (DEBTYNU8) was roughly maintained throughout the 600 series items. Flows in the sub-module sections appeared reasonable. The four variables in the 400 series were asked of a limited number of people in the sample (ranging only from 7,439 in Q449 down to 1,353 in Q456)--probably the result of numerous screeners reducing considerably the potential respondent pool.

# SURVEY OF PROGRAM DYNAMICS, 1998

## USER NOTE 2

### Food security scale

This user note discusses creating overall measures of food security from the 1998 SPD.

The purpose of the SPD questions on food security was to identify households that were experiencing food insecurity or hunger during the year prior to April 1998.

The questions in this section are taken from the food security module developed by a federal interagency working group under the leadership of the Department of Agriculture and the Department of Health and Human Services. The questions are designed to measure increasingly serious levels of food insecurity, starting with questions about reducing the quality and variety of meals and moving to questions about adults cutting or skipping meals, and, finally, to children left unfed because there wasn't enough money for food.

The federal food security scale can be treated in two ways. First, a scale score can be assigned to each household which represents its food security along a continuum from completely food secure to severe hunger. Second, using this score, each household can be classified into one of four levels:

- \* Food secure
- \* Food insecure without hunger
- \* Food insecure with moderate hunger
- \* Food insecure with severe hunger

After appropriate recoding and imputation, affirmative answers to the questions in this module should be added up to calculate household raw scores, scale scores, and food security status using the procedures described below.

#### Step 1: Determine if there are children in the household.

This is the most difficult step. In order to determine if there are children in a household, first sort the data by households. Households are identified by the combination of the following three variables:

SIPP\_PNL, PP\_ID, ADDIDU8

Use the variable AGET8 to determine if there are any children under 18 in the household. The following SAS code is presented here to illustrate one approach that might be taken to do so.

```
DATA TEMP; SET SPD98FILE;          /* not the official name of data file from 98 SPD */
  HHLID_ID = SIPP_PNL || PP_ID || ADDIDU8;
                                   /* this concatenates the three character vars */
RUN;
PROC SORT DATA=TEMP; BY HHLID_ID;
DATA HOUSEHLD; SET TEMP; BY HHLID_ID;
  RETAIN KIDFLAG;                  /* RETAIN keeps values for next obs. */
  IF FIRST.HHLID_ID THEN KIDFLAG=0; /* SAS performs this at 1st obs in household */
  IF AGET8 < 18 THEN KIDFLAG=1;
  IF LAST.HHLID_ID THEN OUTPUT HOUSEHLD;
                                   /* SAS creates dataset record at last obs in household */
RUN;
```

Please note that the above code is presented here to illustrate the general approach that needs to be taken. This program assumes that all cases with missing values for AGET8 have been excluded from the file.

### Step 2: Recode answers to scale questions.

Recode the values of FOOD01U8 to FOOD18U8 so that they can be summed into the food security scale.

If the variable FOOD01U8 is equal to 1 or 2 then set FS\_1 to 1; if FOOD01U8 equals 3 then set FS\_1 to 0; Otherwise set FS\_1 equal to "missing".

If the variable FOOD02U8 is equal to 1 or 2 then set FS\_2 to 1; if FOOD02U8 equals 3 then set FS\_2 to 0; Otherwise set FS\_2 equal to "missing".

If the variable FOOD03U8 is equal to 1 or 2 then set FS\_3 to 1; if FOOD03U8 equals 3 then set FS\_3 to 0; Otherwise set FS\_3 equal to "missing".

If the variable FOOD04U8 is equal to 1 or 2 then set FS\_4 to 1; if FOOD04U8 equals 3 then set FS\_4 to 0; Otherwise set FS\_4 equal to "missing".

If the variable FOOD05U8 is equal to 1 or 2 then set FS\_5 to 1; if FOOD05U8 equals 3 then set FS\_5 to 0; Otherwise set FS\_5 equal to "missing".

If the variable FOOD06U8 is equal to 1 or 2 then set FS\_6 to 1; if FOOD06U8 equals 3 then set FS\_6 to 0; Otherwise set FS\_6 equal to "missing".

If the variable FOOD07U8 is equal to 1 then set FS\_7 to 1; if FOOD07U8 is equal to 2 then set FS\_7 to 0; Otherwise set FS\_7 equal to "missing".

If the variable FOOD08U8 is equal to 1 or 2 then set FS\_8 to 1; if FOOD08U8 equals 3 then set FS\_8 to 0; Otherwise set FS\_8 equal to "missing".

If the variable FOOD09U8 is equal to 1 then set FS\_9 to 1; if FOOD09U8 is equal to 2 then set FS\_9 to 0; Otherwise set FS\_9 equal to "missing".

If the variable FOOD10U8 is equal to 1 then set FS\_10 to 1; if FOOD10U8 is equal to 2 then set FS\_10 to 0; Otherwise set FS\_10 equal to "missing".

If the variable FOOD11U8 is equal to 1 then set FS\_11 to 1; if FOOD11U8 is equal to 2 then set FS\_11 to 0; Otherwise set FS\_11 equal to "missing".

If the variable FOOD12U8 is equal to 1 then set FS\_12 to 1; if FOOD12U8 is equal to 2 then set FS\_12 to 0; Otherwise set FS\_12 equal to "missing".

If the variable FOOD13U8 is equal to 1 or 2 then set FS\_13 to 1; if FOOD13U8 equals 3 then set FS\_13 to 0; Otherwise set FS\_13 equal to "missing".

If the variable FOOD14U8 is equal to 1 then set FS\_14 to 1; if FOOD14U8 is equal to 2 then set FS\_14 to 0; Otherwise set FS\_14 equal to "missing".

If the variable FOOD15U8 is equal to 1 then set FS\_15 to 1; if FOOD15U8 is equal to 2 then set FS\_15 to 0; Otherwise set FS\_15 equal to "missing".

If the variable FOOD16U8 is equal to 1 or 2 then set FS\_16 to 1; if FOOD16U8 equals 3 then set FS\_16 to 0; Otherwise set FS\_16 equal to "missing".

If the variable FOOD17U8 is equal to 1 then set FS\_17 to 1; if FOOD17U8 is equal to 2 then set FS\_17 to 0; Otherwise set FS\_17 equal to "missing".

If the variable FOOD18U8 is equal to 1 then set FS\_18 to 1; if FOOD18U8 is equal to 2 then set FS\_18 to 0; Otherwise set FS\_18 equal to "missing".

If the variable FOOD01U8 is blank and FDSUFFU8 is equal to 1 then set all variables FS\_1 to FS\_18 equal to 0.

If FDSUFFU8 is equal to 1 or 2 and FOOD01U8, FOOD02U8 and FOOD03U8 are equal to 3, and FOOD04U8 and FOOD05U8 are equal to 3 or blank, then set FS\_4 to FS\_18 to 0.

If FOOD07U8, FOOD09U8, and FOOD10U8 are equal to 2, then set FS\_12 to FS\_18 to 0.

If there are no children under 18 in the household set FS\_4 to FS\_6 and FS\_14 to FS\_18 equal to "missing".

### Step 3: Score households with partially missing data.

This approach for handling partially missing data applies only to households that have answered some questions but have not answered others for which an answer is expected. The approach imputes responses for missing items based on valid responses the same household gave to other items. Following imputation, the households are scored using the same methods as are used for households with complete responses.

The imputation procedures are based on the ordered character of the items in the Food Security Module. That is, the items vary in severity across a wide range, and their severity ordering tends to be stable across households. As a result, a household that affirms an item will generally affirm all less severe items, and a household that denies an item will generally deny all more severe items. The ordering is not perfect, but it is consistent enough to provide a defensible basis for imputing the relatively rare item nonresponse typically encountered in applications of the module. The imputation procedures are as follows:

(1) Responses to items that are specifically referenced to children are not imputed for households without children. These items remain missing and are not counted as either yes or no. The two kinds of households have different scoring charts.

(2) Preparatory to imputation, order the 18 items by severity. (Note the order of items in the “core module” questionnaire corresponds only approximately with item severity, deviating somewhat to improve the interview flow.) The following order is suggested, based on item calibrations from the 1998 CPS Food Security Supplement. This order differs slightly from that based on the original (1995) food security scaling research (Hamilton et al., 1997), probably due to the 1998 redesign of the CPS Supplement, which reordered the questionnaire and applied the two internal screeners. Since the SPD questionnaire follows the 1998 CPS question order and uses the internal screeners, data from the SPD are more likely to be consistent with the item-severity order observed in the 1998 CPS data.

#### Households without children

- FOOD01U8 - Worried food would run out
- FOOD02U8- Food bought just didn't last
- FOOD03U8- Couldn't afford to eat balanced meals
- FOOD07U8- Adult cut size of meals or skipped meals
- FOOD09U8- Adult ate less than felt they should
- FOOD08U8- Adult cut size of meals or skipped meals in 3 or more months
- FOOD10U8- Adult hungry but didn't eat
- FOOD11U8- Respondent lost weight
- FOOD12U8- Adult did not eat for whole day
- FOOD13U8- Adult did not eat for whole day in 3 or more months

#### Households with children

- FOOD01U8 - Worried food would run out
- FOOD02U8- Food bought just didn't last
- FOOD04U8- Relied on few kinds of low-cost food for children
- FOOD03U8- Couldn't afford to eat balanced meals
- FOOD05U8- Couldn't feed the children a balanced meal
- FOOD07U8- Adult cut size of meals or skipped meals
- FOOD09U8- Adult ate less than felt they should
- FOOD08U8- Adult cut size of meals or skipped meals in 3 or more months
- FOOD06U8- Children were not eating enough
- FOOD10U8- Adult hungry but didn't eat
- FOOD11U8- Respondent lost weight
- FOOD14U8- Cut size of children's meals
- FOOD12U8- Adult did not eat for whole day
- FOOD17U8- Children were hungry
- FOOD13U8- Adult did not eat for whole day in 3 or more months
- FOOD15U8- Children skipped meals
- FOOD16U8- Children skipped meals in 3 or more months
- FOOD18U8- Children did not eat for whole day

(3) Impute “yes” to a missing item if, for that household, there is a valid affirmative response to at least one item more severe than the missing item **and** no negative response to any item less severe than the missing item.

(4) Impute all other missing items as “no.” (Note that this procedure, adopted for the national standard benchmark method, is methodologically conservative, tending to minimize false positives.)

Examples (y=yes, n=no, x=missing):

yyxxynnnnnnnnnnnnnnnnn Impute the missing responses as “yes.” There is a more severe “yes” response and no less severe “no” response.

yyyyxnnnnnnnnnnnnnnnn Impute the missing response as “no.” There is no more severe “yes” response.

yyyyynxynnnnnnnnnnnnnnn Impute the missing response as “no.” There is a more severe “yes,” but there is also a less severe “no” response.

(5) If cases have very few valid responses the entire case should be declared missing (i.e., unscalable - food security status unknown). If a household gave no valid responses to any item, then it should be declared unscalable. If there are valid responses to 3 or more questions, imputation is appropriate. Imputation is probably appropriate based on 1 or more valid items, but you may want to test the sensitivity of your results to changes in imputation.

Step 4: Add scores, calculate scale value and food security status.

Once all missing values have been imputed, the non-missing items from the scale can be added up and applied to the following matrix.

Correspondence between Number of Affirmative Responses (after Imputation), Scale Value, and Food Security Status

Number of affirmatives - household without children	Number of affirmatives - household with children	Scale value	Food security status
0	0	unknown*	Food Secure
1	1	1.43	
2	2	1.72	
		2.56	
		3.10	
3	3	3.40	Food Insecure without hunger
4	4	4.14	
		4.23	
	5	4.81	
		5.23	
	6	5.43	
	7	6.02	
		6.16	
6	8	6.61	Food Insecure with moderate hunger (Food Insecure with Hunger - Level 1)
		7.07	
	9	7.18	
7	10	7.74	
		8.00	
	11	8.28	
	12	8.79	
8		8.98	
9	13	9.31	Food Insecure with severe hunger (Food Insecure with Hunger - Level 2)
	14	9.84	
		10.15	
	15	10.42	
10		11.05	
	16	11.13	
	17	12.16	
	18	13.03	

\*Households which do not affirm any items are food secure, but technically their level of food security is not known, and may vary among households across some unknown range. For associational studies using the scale score, researchers are advised to omit this category, or assign it a zero value and include a dummy variable to identify these cases.

## SURVEY OF PROGRAM DYNAMICS, 1998

### USER NOTE 3

#### Missing Original Sample People

There are 322 original sample people who were selected for the 1998 SPD who are missing from the data set and are not available for matching to the 1997 SPD Bridge file. There are three main reasons why these people are missing: 1) Some merged into another household and were either not activated correctly (given a new PP\_PNUM) or merged into the household after the other household was interviewed; 2) Some were not followed because they are under age 15 and did not move with an adult who is an original sample person; 3) Some were deleted erroneously from the file because of an instrument glitch. All should be accounted for in the edited longitudinal file.

OBS	PP_ID	SIPP_PNL	PP_PNUM	PP_ENTRY	AGE
