This rather complicated map shows the 2002 boundaries of the Cleveland-Akron-Elyria combined statistical area, with a heavy green border, and the 2002 boundaries between Cleveland-Elyria-Mentor MSA, the Akron MSA, and the Ashtabula Micropolitan area in a narrow green border. The extent of the 1997 Cleveland-Akron consolidated metropolitan statistical area is shown in a orange background color. You can see by comparing the orange shaded area to the

And the result is a list of all industries for the state and all cities, although we don't see the cities yet.

Now, to just look at “fast food places”, we are going to “Filter Rows” in the menu bar at the top.

<<hover over “Filter Rows”>>

To show data for gasoline stations

- i. In the “Filter Rows” drop-down menu select “2002 NAICS”
- ii. Enter “gasoline” in the search box and click “Search”
(This is an occasion where clicking “Use synonyms” gives us more than we want.)
- iii. Highlight “447: Gasoline stations” in the “Select an industry” box, and click “Add”
- iv. Click “Show result”

Extra credit: Name the top 3 counties in Michigan in terms of sales of gasoline stations. *[Goal: Use additional customizing features of American FactFinder]*

From the Results page in exercise 4, Select “sort rows” from the “Options” drop-down on the top menu bar, Select “Sls, shps, rcpts, rev (\$1,000)” from the “Sort by” drop-down, and then click the “Descending” button, and click “Update”

Top 3 counties: Cuyahoga, Franklin, and Hamilton
