

No. HS-9. Immigration by Leading Country or Region of Last Residence: 1901 to 2001

[In thousands (8,795.4 represents 8,795,400). Data for years prior to 1906 relate to country where alien came; data from 1906-1979 and 1984-2001 are for country of last permanent residence; and data for 1980-1983 refer to country of birth. Because of changes in boundaries, changes in lists of countries, and lack of data for specified countries, data are not comparable for all years. For 1938-45, Austria included with Germany]
