- The information in these tables reflects the Sixth District's staff representation by role or job group (see table rows).
- The totals for each job group in the top table represent the number of women/men in that job group by race.
- The totals for each job group in the bottom table represent the percentage of women and men that fall into each job group.
- The percentage calculations have been rounded to the nearest tenth, which may alter some of the totals slightly.

NOTE: The Federal Reserve Bank of Atlanta follows a standard practice of annually reviewing our internal representation against Census occupational data (broken down by job group). Drawing comparisons against Census population data would be misleading because those data do not take into account the demographics of the internal and external resource pools that feed into each job group.
