

Older Americans Month: May 2008

A meeting with the National Council of Senior Citizens resulted in President John F. Kennedy designating May 1963 as Senior Citizens Month, encouraging the nation to pay tribute in some way to older people across the country. In 1980, President Jimmy Carter's proclamation changed the name to Older Americans Month, a time to celebrate those 65 and older through ceremonies, events and public recognition.

37.3 million

The number of people 65 and older in the United States on July 1, 2006. This age group accounted for 12 percent of the total population. Between 2005 and 2006, this age group increased by 473,000 people.

Source: [Population estimates](#)

86.7 million

Projected population of people 65 and older in 2050. People in this age group would comprise 21 percent of the total population at that time.

Source: [Population projections](#)

147%

Projected percentage increase in the 65-and-older population between 2000 and 2050. By comparison, the population as a whole would have increased by only 49 percent during the same period.

Source: [Population projections](#)

506 million

Projected 2008 midyear world population 65 and older. Projections indicate the number will increase to 999 million by 2030.

Serving Our Nation

9.1 million

Estimated number of people 65 and older who are military veterans.

Source: [2006 American Community Survey](#)

Jobs

5.5 million

Number of people 65 and older who were in the labor force in 2006. Projections indicate that by 2016, the number will reach 10.1 million.

Source: [Statistical Abstract of the United States: 2008](#)

23%

Percentage of people 65 to 74 in the labor force in 2006, up from 20 percent in 2000.

Source: [2006 American Community Survey](#)

Some of the highest rates were found in South Dakota, Nebraska and Washington, D.C., all with about one-third of people in this age group in the labor force. Among the 20 largest metro areas, Washington, D.C., had the highest percentage of people in the labor force in this age group (31.8 percent). Others with high percentages include Boston (28.1 percent), Dallas-Fort Worth (27.9 percent), Minneapolis-St. Paul (27.4 percent) and Houston (26.5 percent), none of which was statistically different from the other.

Businesses

11%

Percentage of the nation's business owners who are 65 and older.

Source: [Characteristics of Business Owners: 2002](#)

Population Distribution

Nation

72

The number of men 65 and older on July 1, 2006, for every 100 women in this age group. For those 85 and older, it drops to 47 men per 100 women.

Source: [Population estimates](#)

5.3 million

The number of people 85 and older in the United States on July 1, 2006.

Source: [Population estimates](#)

U.S. Census Bureau

U.S. Census Bureau

84,331

Estimated number of centenarians in the United States on Nov. 1, 2007.

Source: [Population estimates](#)

580,605

Projected number of centenarians in the United States in 2040.

Source: [Population projections](#)

States

3.9 million

Number of people 65 and older living in California on July 1, 2006, the highest total of any state. Florida, with 3 million, was the runner-up.

Source: [Population estimates](#)

17%

Percentage of Florida's population 65 and older in 2006, which led the nation. Next to Florida, states with the highest percentages of older people include West Virginia (15.3 percent) and Pennsylvania (15.2 percent).

Source: [Population estimates](#)

31.2%

Percentage of the population of Charlotte County, Fla., that was 65 and older on July 1, 2006, which led the nation. In fact, Florida contributed four of the top 10 counties.
