Purposes and Structure of the Federal Reserve System

• Overall purposes of the Fed are to promote:

- Maximum sustainable economic growth/employment
- · Low and stable inflation
- National financial stability

• The three primary functional areas of the Fed are:

- Monetary policy most visible role to the public, usually
- Bank regulation including lender of last resort
- Payments systems cash, checks, electronic payments

The Federal Reserve System consists of:

- <u>Board of Governors</u>: 7 members who are appointed by the U.S. President and confirmed by the Senate to serve 14-year terms.
- Federal Reserve Banks: 12 Banks, each serving a unique district.
- <u>Federal Open Market Committee (FOMC)</u>: Comprised of the 7 Governors and the 12 Reserve Bank presidents (only 5 presidents are voting members, on a rotating basis).

The U.S. Economy

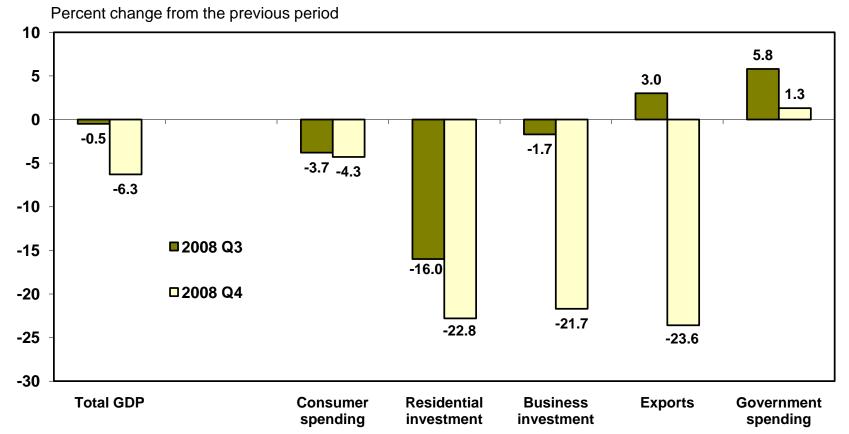

The U.S. economy has weakened but may be nearing a trough

Some credit markets show signs of improvement, but strains remain

Inflation has eased and is expected to remain tame

In the fourth quarter of last year, only government added to U.S. growth

The Oklahoma Economy

- The state's economy and housing sector remain stronger than the nation
- But the most recent data have shown a clear downturn for the state
- Efforts to boost the U.S. economy are coming at a good time for Oklahoma

Unemployment remains relatively low in Oklahoma and most nearby states

Summary

U.S. economic conditions have deteriorated, but may be showing signs of bottoming

 Oklahoma conditions remain in better shape, but are also worsening

Efforts to boost U.S. growth in 2009 should benefit Oklahoma as well
