APIS PRE-DEPARTURE PROCESSING SERVICES

In response to carrier industry requests, U.S. Customs and Border Protection (CBP) has assembled a list of companies/persons offering Advance Passenger Information System (APIS) Pre-Departure processing services to the air carrier industry for the APIS Pre-Departure requirement. Inclusion on this list does not constitute any form of an endorsement by CBP as to the nature, extent or quality of the services that may be provided. Providing full, complete, and accurate APIS data is the responsibility of the carrier.

The attached document lists Departure Control Systems (DCS) and third party vendors who have developed systems or who will provide upon request software packages for handling APIS Pre-Departure transmissions. The organizations listed may not offer all the APIS services available to carriers. Specific operational status and capabilities should be obtained from the particular organization. The decision to utilize a specific data processing service is strictly an individual user decision.

Each carrier subject to APIS Pre-Departure requirements, regardless of the computer hardware and/or software it uses, must successfully complete a period of testing with CBP/APIS Pre-Departure before its transmission mechanism may be approved for APIS Pre-Departure deployment.

The following list will be updated periodically.

Company & Address	Point of Contact	Work Phone	Fax Number	DCS	Third-Party Vendor	Email Address
SITA Weyside Park Godalming, Surrey, GU7 1XE UK	Simon Glenister Product Manager	Office: +44 1483521295 Mobile: + 44 7775536976	+44 1483 414122	D		Email: simon.glenister@sita.aero Link: www.sita.aero
