Note: The April 1, 2010 Population Estimates base reflects changes to the 2010 Census population from the Boundary and Annexation Survey (BAS) and other geographic program revisions. It does not reflect changes from the Count Question Resolution program. All geographic boundaries for the 2011 population estimates series are defined as of January 1, 2011. An "(X)" in the 2010 Census field indicates a locality that was formed or incorporated after the 2010 Census. Additional information on these localities can be found in the Geographic Change Notes (see <http://www.census.gov/popest/about/geo/changes.html>).

The estimates base populations for the unincorporated part of Gadsden County, FL and Rockwell City city, IA (located in Calhoun County) include different group quarters population than enumerated in the 2010 Census. After comparison with other Census Bureau data collection efforts, the Census Bureau determined that the 2010 Census enumeration of the group quarters population in these areas was incomplete. Although not eligible to be incorporated into the Count Question Resolution program, the Census Bureau concluded that adding the additional

group quarters population for these two areas to the population estimates base would provide more accurate estimates for each area in 2010 and subsequent years.

Note that summing the subcounty areas within Gadsden County, FL and Calhoun County, IA will not produce the corresponding county and state totals. The county and state totals in this subcounty release for April 1, 2010 through July 1, 2011 agree with those released earlier this year, prior to this modification.
