

Traffic Delays Near Syracuse VA Medical Center

Significant road closures will impact traffic patterns and commute times. Please allow an extra 15-30 minutes for travel to the medical center.

Beginning May 28, 2012:

Stadium Place (the road behind the parking garage that allows patient entry to the garage) **will be reduced to one lane.**

- This restriction is currently anticipated to last **16 months.**
- This may affect patients' ability to make appointments on time.

Irving Avenue (the road along the front of the hospital) **will be impacted for approximately 20 months** due to installation of construction fencing.

- Traffic flow in north and south-bound lanes will remain open.
- Irving Avenue alongside the SU Dome will be impacted.

Van Buren (the road that runs under the parking garage walkway) **will be closed at the junction of Renwick Ave/Fineview Place.**

- All traffic coming up Van Buren (under the overpass area) will be diverted onto Renwick Ave/Fineview Place and onto East Raynor Ave to access Stadium Place or Irving Avenue and the VA parking garage.

All visitors should continue to use Stadium Place for entry and exit to the VA parking garage.

NOTE: All exiting traffic from VA parking garage will be directed onto Irving Avenue heading north.
