

DOES YOUR ORGANIZATION SET
CLEAR GOALS AND OBJECTIVES?

ARE YOU ABLE TO DEVELOP
EFFECTIVE OPTIONS TO
REACH THEM?

ARE THE PEOPLE WHO ARE
ASKED TO IMPLEMENT A
DECISION EMPOWERED TO HELP
MAKE THE DECISION?

FOR MANY ORGANIZATIONS
TODAY, THE ANSWER TO THESE
QUESTIONS IS "NO."

THE DECISION
ANALYSIS TEAM
CAN HELP CHANGE THOSE
"NO" ANSWERS TO "YES."

Helping Our Customers Achieve Their Goals

Helping Our Customers Achieve Their Goals...

Managers in business and government today face tougher choices, fewer resources, and more outside oversight than ever before. If you are a project manager at any level, Decision Analysis Team (DAT) can help you succeed in this new fast-paced environment.

DAT understands that decision problems come in all shapes and sizes - competing alternatives, uncertainty and risk, multiple objectives, incomplete data, stakeholders with divergent needs, and many intangible considerations. DAT can help you examine your decision problem and design a tailored solution approach.

▶ STUDIES

- DAT analysts work with you to help organize your problem and select the best methodology.
- Decision support is a proven approach to all types of decision problems, including source selections, program development, strategic planning, process improvement, cost/benefit analysis, trade-off studies, and risk assessments.

▶ FACILITATION

- DAT facilitators set up and run decision conferences to provide structure to your group problem solving process.
- Using DAT's real-time computer support and a variety of interactive techniques, groups of any size are able to combine available hard data with their own subjective judgments to reach better solutions and document decisions with a clear and defensible audit trail.

▶ IT

- DAT will help you select, customize, and use the right software tools for your decision problem.
- We keep current on the best commercial software available to support multi-criteria decision making, resource allocation, desktop simulation, brainstorming, and project management.

▶ THE BOTTOM LINE

- DAT's support provides your organization a unique competitive advantage with our practical "what works" approach.
- Our technical staff members combine simple, yet powerful tools, proven decision analysis processes, and your own knowledge and experience to find the most effective and efficient solutions to your decision problems.

▶ MISSION STATEMENT

- The Decision Analysis Team enables customers to make decisions effectively and efficiently by providing state-of-the-art decision analysis, group facilitation, and collaborative work technologies.

▶ VISION STATEMENT

- To become the Decision Analysis Center for SBCCOM and the Joint Service CB Defense community.

▶ VALUES

- Commitment to help our customers make decisions more effectively and efficiently by designing and implementing group decision making processes that:
 - engage the participation of group members in full and open discussion leading to supportable decisions;
 - encourage creativity and consideration of all options and perspectives leading to decisions with high legitimacy;
 - improve the decision-making competency of the participants;
 - result in analytically sound analysis;
 - manage and integrate information providing documentation and accountability; and
 - provide a thorough, logically coherent basis for decisions that meet the group's goals efficiently.
- Commitment to help our customers solve their most complex decision problems, which may involve:
 - competing goals,
 - many stakeholders,
 - several disciplines of expertise,
 - multiple sources of risk and uncertainty,
 - constrained resources, and
 - critical time frames
