

Executive Resources Colleagues

The CHCO Memo " Release of the Government-wide Executive Onboarding Framework and Manual" is now live at the following website with the manual as an attachment:

The Framework is the result of a collaborative cross-agency effort among OPM, the Senior Executives Association, the Partnership for Public Service, agency representatives from the Executive Resources and Training communities, current SES members, and experts from the private sector. The one-year Framework is flexible enough to allow adjustments that adhere to specific agency rules, policies and procedures, or needs. Implementation of this Executive Onboarding Framework will help facilitate the successful integration of new executives.
