

CONTINGENCY CONTRACTING

Shaping Contingency Contracting Policy to serve our Warfighter's Immediate and Future Needs

The importance of contingency contracting has risen sharply since September 11, 2001. Lessons learned from contingency operations in support of the Global War on Terrorism and in support of domestic disaster and emergency operations have illuminated the need for innovative policy, guidance, and oversight to facilitate effective and efficient contracting support.

Vision

The recognized authority and advocate for DoD Contingency Contracting.

Mission Statement

To enable effective and efficient contracting in support of deployed forces and humanitarian operations through innovative policy, guidance, and oversight.

Charter

We measure our value by...

- ★ Anticipating the future environment so that processes and policies are in place to provide optimal contracting support to changing warfighter needs.
- ★ Ensuring the continuity of contracted support to the warfighter upon deployment and throughout a contingency operation.
- ★ Providing the tools and training that facilitate creativity and improvisation to meet warfighter needs in a contingency environment.
- ★ Achieving unity of effort in contingency and humanitarian operations through the seamless integration of contracted assets with deployed forces.
- ★ Breaking down barriers to effective and efficient contracting support of deployed forces and humanitarian operations while maintaining our responsiveness to multiple stakeholders.

Responsibilities

We are responsible for being advocates for CCOs
