

## Security Rating Calculation Worksheet

### Rating Calculation (Complete areas in yellow)

\*Note: For rating calculation purposes, treat multiple occurrences under the same NISPOM reference as one vulnerability.

**Place or select "X" for each enhancement that applies to the program.**

<b>Select CAT:</b>			
<b>Starting Score →</b>			700
<b>NISP Enhancement</b>			<b>Red Flags</b>
Category 1: Security Education (Events)			Yes/No?
Category 2: Security Education (Products)			
Category 3: Security Education (Staff Training)			
Category 4: Security Education (Community Information Sharing)			
Category 5: Contractor Self Review			
Category 6: Class Material Control			
Category 7: CI			
Category 8: Information Systems			
Category 9: FOCI			
Category 10: International			
Category 11: Community Membership			
Category 12: (↑) Active Participation			
Category 13: Personnel Security			
Vulnerabilities (Non-A/C) by Reference*			
Acute/Critical by Reference*			
<b>FINAL SCORE →</b>			
<b>Rating:</b>			

<b>599 &amp; Below</b>	=	<b>Unsatisfactory</b>
<b>600 - 649</b>	=	<b>Marginal</b>
<b>650 - 749</b>	=	<b>Satisfactory</b>
<b>750 - 799</b>	=	<b>Commendable</b>
<b>800 &amp; Above</b>	=	<b>Superior</b>
