

DLA employees attended an Operation Employment Career Fair on July 19th in Vilseck, Germany. The locations for Operation Employment Career Fairs are strategically selected to accommodate military Service Members stationed throughout Germany and surrounding countries. These fairs, organized for military Service Members preparing to transition out of the military and return to the United States and their spouses, are an excellent opportunity to meet employers face-to-face while stationed overseas.

Approximately 25 employers and organizations participated in the event. The prospective employees visiting the DLA Booth were provided information about the mission of DLA, current job opportunities, and the intern program.
