ORIGIN: FEPAAS was originally developed by the Navy in response to Hurricane Katrina. During that disaster over one million people were displaced and it took a long time to locate their employees. Since that time versions have been deployed by the Air Force and Army. DLA is joining a number of DoD agencies in deploying this valuable tool.

FEPAAS HOSTING: The system is maintained and hosted by the Navy. They have performed all required security reviews and have certified the system as meeting DoD and Federal data protection requirements.

DOD GUIDANCE ON ACCOUNTABILITY: Personnel accountability is covered by DoD Instruction 3001.02 'Personnel Accountability in Conjunction with Natural or Manmade Disasters'

DOES FEPAAS CONTACT EMPLOYEES: FEPAAS is not a notification tool, but it can send emails and text messages to cell phones as listed in your FEPAAS My Info area. It will be used to supplement local notification procedures.
