REMARKS

1. [REDACTED] resulted in a requirement for JTF 1-79 to develop the funding for [REDACTED]

2. The proposed budget addresses the funding actions required to support the JTF through 15 Nov 80 [REDACTED]

3. The funding requirements are divided into three categories; communications, training/readiness, and intelligence.

4. The communications budget presents a range of options for providing [REDACTED] administrative support. The option costs range from [REDACTED] with the approved option being additive to the training/readiness budget.

5. The training/readiness budget provides for the operation of the JTF through 15 Nov 80 [REDACTED]

6. The intelligence funding provides FY-81 funds to support FY-80 approved projects.

7. The funding program is scheduled for presentation to the OPS DEPS on 17 Sep 80.

8. Copies have been provided to the OPS DEPS.

ENCLOSURE E

MEMORANDUM FOR THE SECRETARY OF DEFENSE

Subject: Special Project Funding (U)

1. ~~(S)~~ As you know, funding for Operation Elite Guard terminates at the conclusion of FY 80. Beginning 1st qtr FY 81, it will be necessary to fund the SNOWBIRD Project and Operation Elegant Lady through its lifespan (1 Oct-15 Nov 1980) 

A

 The Operations Deputies have reviewed both requirements and determined that the funds requested are required. The total 1st qtr, FY 81 funds required are

 A detailed breakout is at Enclosure A.

2. ~~(S)~~ Discussions with Army, Air Force, Navy and DOD personnel indicate that a memorandum substantially like that at Enclosure B would provide the Services with the authority needed to provide the required funding. A recommended procedure  will be provided later. Until then, disbursement will be handled by the respective Services as is now the case.

MEMORANDUM FOR GENERAL JONES  
SECRETARY CLAYTOR

Subject: Request for Funding

A, C

1. (S) To assure an effective in-country support structure for the rescue force, I directed the formation of a small operation group [redacted] by various means, into Iran. This small, hand picked group is tasked to train, plan, and be prepared to conduct [redacted] a wide variety of operations to enhance mission success and permit the primary rescue force to focus on its primary mission rather than ancillary tasks.

2. (TS) The force has been assembled at a secure training site and is prepared to commence intensive training. However, the request for equipment, weapons, and ammunition submitted through Army channels has been deferred by the Army pending authorization of approximately [redacted] to fund the expenditure.

C

3. [redacted]

4. (S) Recommend that [redacted] be made available to the Army as a matter of urgency to permit training to commence.

MEMORANDUM FOR THE CHAIRMAN, JOINT CHIEFS OF STAFF

Subject: Special Project Funding (U)

1. <sup>(U)</sup> On 23 February, I spoke with you briefly concerning the notification of key Congressional staff members on 17 February of reprogramming actions taken to support the hostage rescue efforts. At that time, you asked that we prepare a more understandable spread sheet of the funding actions taken. A spread sheet with this data is at TAB A of the attached book.
2. <sup>(U)</sup> Since our discussion on 23 February, I have been informed by Mr. Graydon I. Lose, that Mr. Joel (Pete) Bonner, Staff Member, Senate Appropriations Committee, has requested that you discuss the operational aspects of the rescue attempt and the training and readiness actions taken after the 24 April 1980 effort with Senator Ted Stevens (Republican-Alaska), Chairman, Defense subcommittee of the Senate Appropriations Committee, and Senator John C. Stennis (Democrat-Mississippi), Senior Minority Member, Senate Armed Services Committee. He requested that you meet privately with the two Senators to emphasize our continuing need for their support and to assure them that there is no yet-to-be-revealed "Hidden Agenda" with regard to the rescue effort or the preparations for a second rescue attempt. At this point, no commitment has been made for you to meet with the Senators, and no schedule has been suggested.
3. (U) Questions and answers for use in preparing for such a meeting are at TAB B of the attached book. Other backup material is tabbed as indicated at the index.
4. (U) I recommend that:

- You agree to meet privately with Senators Stevens and Stennis.

QUESTIONS/ANSWERS

RICEBOWL/SNOWBIRD (S)(U)

Question #

1 How much did the Iran rescue attempt (RICEBOWL (S)) and subsequent force preparations (SNOWBIRD (S)) cost?

Ans: Project RICEBOWL (S) (14 NOV 1979 - 24 APR 1980) cost approximately \$198 M. Of that amount, about \$20 M was expended preparing the force for its mission. \$178 M represents the cost of airframes and equipment lost at Desert ONE. (RICEBOWL expenditures were explained in a ASD (COMPTROLLER) Memo to Senator Hollings in May 1980). Project SNOWBIRD (S) (25 APR 1980 - 21 JAN 1981) has cost approximately \$112 M as of 1 FEB 1981.

- SHOW MEMO TAB G -

1-1 What did each service spend?

Ans: The expenditures for RICEBOWL/SNOWBIRD (S) by Service are indicated below.

RICEBOWL

Army	\$ 235,389
Air Force	13,034,216
Navy	<u>6,506,000</u>
	\$19,775,605

SNOWBIRD

Army	
Air Force	
Navy	

Question #

1-2 When will we know the total costs for RICEBOWL/SNOWBIRD (S)?

Ans: Although Project SNOWBIRD (S) was concluded on 21 January 1980, costs of training and support associated with the project will not be fully known until 31 March.

(S) 2 How was the SNOWBIRD (S) money spent?

Ans: The Army spent approximately half its funds for training support and half for aircraft modifications and hardware procurement. Due to the intensive use of the new production Blackhawk UH-60 helicopter, it was necessary for the Army to spend [redacted] for support of the Flying Hour Program (FHP). Additionally the Army purchased 25 Omega navigation systems for long range pinpoint navigation of helos, 30 internal fuel extension tanks for the Blackhawk helo force that extended their range from 420nm to a [redacted] and 16 CH-47 internal fuel extension tanks that extended their range from 225nm to [redacted]

AS

The Air Force expended approximately [redacted] of its funds in development of an enhanced STOL-capable MC-130 and [redacted] procurement of spares for the Pave Low/HH-53 helos, Night Vision Goggles, and Flare and Chaff dispensers for the MC and AC-130 fleet. No additional funds were necessary to support the FHP to this point.

AS

The Navy expended \$1.56M toward the Flying Hour Program. All Services are supporting purchases of communications equipment for [redacted] as indicated below.

AS

Army	[redacted]
Air Force	[redacted]
Navy	[redacted]
TOTAL	[redacted]

~~CONFIDENTIAL~~  
~~CONFIDENTIAL~~  
2-1

Why did the SNOWBIRD ~~(S)~~ project cost so much more compared to RICEBOWL?

A

Ans: The scope of the second rescue mission required unique capabilities and precise coordination of a larger joint force. The requirement to move forces over great distances and through an essentially non-permissive environment contributed to high costs for this project. Procurement of new generation special equipment, modifications to aircraft, and development of a secure communications capability were particularly costly because they were accomplished on a priority basis. Additionally, SNOWBIRD forces consisted of elements of the 101st Aviation Group, Pave Low/HH-53C helo assets from the 1st SOW and ~~\_\_\_\_\_~~ SNOWBIRD(S) training was intensive, requiring a faster expenditure of resources when compared to the routine training normally performed by the units assigned to the project. In short, we built a unique force from the ground up as fast as we could using all available resources. In doing so, we trained harder, flew at an increased tempo and consumed resources at a faster rate.

3(w) What funding impact did SNOWBIRD ~~(S)~~ have on the Services other programs?

Ans: The primary funding impact on the Army was within the Blackhawk helicopter program. Production line parts for the in-production helo were necessarily diverted to serve as spares and repair parts for the SNOWBIRD ~~(S)~~ Blackhawk force. Additionally, funds were diverted from the Cobra Attack Helicopter program. The end result was that Blackhawk production fell and the Cobra program was decremented.

Within the Air Force, it was necessary to decrement the modification and production programs for the F-15, A-7, A-10 and C-130H aircraft. Additionally, there was a \$5M decrement of the Joint Surveillance System.

Naval programs decremented were; secure SATCOM installations within the Fleet Modernization Program, secure SATCOM installations for new construction warships and other minor communications programs throughout the Fleet.

- REFER TO REPROGRAMMING DATA AT TAB F -

~~TOP SECRET SENSITIVE~~

Question #

3-1 What actions have you taken to restore the areas affected?

Ans: All Services have requested FY 81 Supplemental appropriations to compensate for decremented programs. If approved, Supplemental funds will restore all decremented Service programs and provide for continued support of on-going Counterterrorist programs. Additionally, all the Services have provided for permanent supporting programs within the normal budgetary cycle.

4 How did you fund SNOWBIRD?

Ans: DUSD R&E and SECDEF authorized and directed the Services on five occasions to fund the SNOWBIRD ~~(S)~~ program. In each case the amounts authorized were determined by the Services based on the progress and requirements of mission preparations.

- REFER TO TABS A & D -

4-1 Why did you do it that way?

Ans: Since no stated requirement or program provision existed for these projects, SECDEF had to direct the Service expenditures to make the funding possible.

4-2 Why didn't you ask for Congressional assistance early on?

Ans: At the outset of SNOWBIRD ~~(S)~~ we determined that the operational security of our preparations was vitally important to both the success of a second rescue attempt and ongoing administration efforts to negotiate the hostages release. This single factor was the overriding concern in not requesting congressional support.

4-3 Why did you withhold the reprogramming actions (DD 1415)?

Ans: Former SECDEF Brown decided to withhold the DD 1415 reprogramming notifications until resolution of the hostage crisis for operational security reasons.

Question #

4-3-1 Don't you trust us?

Ans: Certainly, I trust you. But, in view of the erratic and unpredictable course of negotiations with Iran, it appeared prudent to maintain the tightest security for our mission preparations. At my direction, the preparations were treated as a sensitive compartmented matter, and dissemination of information was allowed strictly on a need-to-know basis. Only mission-essential personnel were knowledgeable of the project, and they knew only those aspects which required their support.

4-4 Are the Services seeking to recover this money and if so how?

Ans: Yes, the Services have submitted FY 81 supplemental actions to recover FY 81 funds expended or anticipated for Project SNOWBIRD (S).

[REDACTED]

4-5 What is the total supplemental being requested?

Ans: The total FY 81 Supplemental request to support SNOWBIRD (S) and [REDACTED] as indicated below:

<u>Service</u>	<u>Amount</u>	<u>Title</u>
A <del>(S)</del> Army	[REDACTED]	[REDACTED]
Air Force	[REDACTED]	Elegant Lady
Navy	[REDACTED]	Joint Task For
TOTAL	[REDACTED]	

Question #

4-5-1 What items are covered in the supplemental?

A

Ans: The Army Supplemental covers increased Flying Hour Programs, spares for the UH-60 and CH-47 helicopters, communications support and joint training [REDACTED]. The USAF Supplemental will provide for increased Flying Hours, aircraft modifications, communications equipment [REDACTED]. The Navy Supplemental will underwrite communications equipment and increased Flying Hours.

5 What did the initial rescue attempt cost?

Ans: Project RICEBOWL [REDACTED] cost approximately \$198M. Of the amount, about \$20M was expended preparing the force for its mission. \$178M represents the cost of airframes and equipment lost at Desert One. (RICEBOWL expenditures were explained in a ASD (Comptroller) memo to Senator Hollings in May 1980).

- SHOW MEMO AT TAB G -

5-1 How did the Services fund that project?

Ans: The Services funded RICEBOWL [REDACTED] by reallocating funds within their existing programs.

5-2 What programs suffered to make RICEBOWL possible?

Ans: The Services were not significantly effected by support of RICEBOWL [REDACTED] prior to execution. Post-mission readiness was most effected by the loss of helicopters and the EC-130 aircraft at Desert One.

~~SECRET SENSITIVE~~  
Question #

5-3 Why were there no reprogramming notifications (DD 1415)?

Ans: The Services reallocations didn't exceed the reprogramming thresholds and therefore didn't require DD-1415 reprogramming notification actions. The actual costs requiring reallocation were:

Training & Preparation (RICEBOWL)

Army	\$	190,762
Air Force		3,534,588
Navy		6,500,000
Total:		\$10,225,350

Airlift & Other Support (RICEBOWL)

Army	\$	144,627
Air Force		9,499,628
Navy		6,000
Total:	\$	9,550,255

Total reallocations: \$19,775,605

5-4 What was value of total equipment lost on RICEBOWL.

Ans: The value of equipment lost by Service was:

Army	\$	1,151,541
Navy		161,200,000
Air Force		15,806,319
TOTAL		\$178,157,860

5-4-1 Did USAF and USN procure replacements for aircraft lost during RICEBOWL?

Ans: No.

5-4-2 Why not?

Ans: Air Force felt the EC-130 loss, with some adjustment, could be accommodated. The Navy had insufficient funds at the time to procure new helicopters but is considering new procurement within the budgetary cycle. The Air Force is developing an accelerated MC-130 procurement program at this time.

~~TOP SECRET~~

~~SECRET~~

Question #

6 Why did SNOWBIRD ( ) cost more than RICEBOWL?

Ans: SNOWBIRD ( ) was more expensive than RICEBOWL ( ) because it involved more maneuver and support forces, a more intensive training program, and significantly improved equipment. In general terms, Project SNOWBIRD ( ) more than doubled the capability of the joint rescue force. Also, as previously mentioned, the priority basis on which these capabilities were developed required compressed training schedules and hence a more compressed rate of fund expenditures.

( ) 6-1 [REDACTED]

Ans: [REDACTED]

A [REDACTED] Other units that supported and augmented the rescue mission have been returned to their former unified or specified commands.

( ) 6-2 [REDACTED]

Ans: [REDACTED]

6-2-1 [REDACTED]

Ans: Before accurate cost estimates can be determined, it is necessary to evaluate the scope [REDACTED]

[REDACTED] a prudent level.

~~SECRET~~

Question #

6-2-2 Are these capabilities consistent with other training?

Ans: Although the capabilities developed during SNOWBIRD are related to the inherent capabilities of the units involved,

[REDACTED]

A

For instance, the 101st Aviation Group will require additional flying hours above their present programmed level to maintain the night, low-level flying skills developed during SNOWBIRD.

[REDACTED]

Ans:

[REDACTED]

A

For reasons of operational security,

[REDACTED]

6-7-1 [REDACTED]

Ans:

[REDACTED]

A

In the interim, communications support is being provided by the Services and the Joint Communications Support Element.

MEMORANDUM FOR DIRECTOR, JOINT STAFF

Subject: Funding for Provisional Joint Task Force

- (U) Planning and preparation for operations which may be conducted under the control of the provisional Joint Task Force have not been without expense. Expenses to date include payment for civilian manpower, aircraft flying hours, supplies and equipment, and TDY of JTF members. All expenses incurred to date have been unprogrammed; TDY expenses have been paid by the individuals performing the TDY. In order to reimburse the individuals performing the TDY, preclude undue hardship on individuals required to travel as a result of Task Force duties, and to allow Services to adequately track and recoup costs, request fund cite and project codes be provided for operation of the Task Force.
- (U) There is presently no funding expertise among the members of the planning staff. Additional expenses will be incurred as the planning, preparation and rehearsals continue. It will also be necessary, at the conclusion of the mission, to provide an accounting for expenses by Service and appropriation. Request staff assistance be provided the planning staff in the aggregation of costs and administration of such funding codes as are provided.

7 December 1979

MEMORANDUM FOR J-3

Subject: Fund Cites (U)

1. (U) (PS) A problem has arisen due to the lack of a fund cite for resupply of JP-4 for helicopters at the training site at Yuma.
2. (U) (PS) Previous arrangements for the Marine Air Station Yuma (MAS) to provide JP-4 was working satisfactorily until they requested a fund cite for reimbursement. The total required to date is approximately \$35K. Individuals on the ground have attempted to alleviate the situation; however, all possible solutions require reimbursement of fuel to MAS.
3. (U) (S) The best solution is to continue with MAS providing fuel by tankers to the Army airfield where the helicopters are located and providing a fund cite to MAS.
4. (U) (PS) The alternate solution would be for someone in authority to contact the appropriate person in the MAS chain of command and direct continued support keeping cost data for future submission at a later date.
5. (U) (PS) The lack of appropriate fund cites may continue to cause problems in day-to-day activities in procurement of supplies, rations, etc., as the exercise continues. We currently have a fund cite for small expenditures from the Task Force Comptroller for Delta housekeeping supplies.
6. (U) Request guidance in overcoming this situation.

Returned.

Fund cites handled  
by services on site.

Philip D. Smith

REMARKS

1. (S) (U) DJS tasking\* to develop regular funding for [redacted] establishes 10 Feb as milestone for budget submission. [redacted] confirmed 10 Feb as realistic date for budget submission.

2. (S) (U) Plan for staffing [redacted] (remainder FY 81, FY 82, and FY 83):

- Distribute to Services for staffing (11 Feb)
- AO meeting to identify, resolve budget issues (18 Feb)
- Present budgets to OPSDEPS (20 Feb, assuming no major conflicts)
- Service actions to program approved budgets (Mar 81)

- prepare amendment or supplemental to FY 82 budget
- POM actions for FY 83 and out years

3. (S) Per direction Col [redacted] attached message cancelling SNOWBIRD [redacted]

4. (U) Recommend DJS release of attached message.

MEMORANDUM FOR DIRECTOR, JOINT STAFF

SUBJECT: Review and Analysis of the Joint Task Force Capability Review

1. (U) References.

a. Memorandum for Director for Operations, Joint Staff, subject: Review and Analysis of the Joint Task Force Capability Review, dated 23 Jun 81, (U) (Inclosure 1).

b. JTF Capability Review, dated 11 May 1981 (U).

c. Memorandum for ODCSOPS, subject: Joint Task Force Capability Review (11 May 82 Report by MG James B. Vaught, USA), dated 9 Jul 81.

2. (U) Per your Memorandum of 9 July 81, detailed Army comments on the subject review are provided as inclosure 2. Many of the recommendations have significant money implications that require further staffing, coordination and programming within the Army.

3. (U) In addition to the comments provided, the Army also makes the following recommendations:

a. ~~Information be made as to who is the keeper of the techniques and applications outlined in the Review and what can be imparted to conventional forces.~~ ~~the various joint actions that would be required to make the recommendations work, e.g., doctrine, funding of vision goggles, etc.~~

b. ~~Information be made as to who is the keeper of the techniques and applications outlined in the Review and what can be imparted to conventional forces.~~

MEMORANDUM FOR DIRECTOR FOR OPERATIONS, JOINT STAFF

SUBJECT: Review and Analysis of the Joint Task Force Capability Review  
(11 May 1981 Report by MG James B. Vaught, USA) (U)

1. (U) Per your memorandum of 29 May 1981, detailed Army comments on the subject report will be provided after ARSTAF conducts a more thorough review which is now underway.
2. ~~(S)~~ I believe it would be beneficial for Major General Vaught's report to be forwarded to the Director of the Central Intelligence Agency, Unified Commanders; CINCPAC, CINCSAC, and COMTAC for information. Additionally the SOAP [redacted] should provide a separate review. The [redacted] but should assist [redacted] in preparation of his review.
3. (U) My primary recommendations with respect to counterterrorism are as follows:
- a. ~~(S)~~ The Joint Staff action on establishment of congressional committees for oversight of counterterrorism should be completed and considered as a matter of priority by the Operations Deputies.
  - b. ~~(S)~~ Action should be initiated by the Joint Staff concerning the US government counterterrorism crisis management structure and command and control-related issues. While we have made great strides

SUBJECT: HUMINT Coordinating Committee

TIMEFRAME: March 1980 - December 1980

SUMMARY:

1. Early on in the November 79 planning phases the JTF/J2 was authorized by the Service ACSIs to establish direct coordination with the appropriate Service HUMINT organizations. Contact was handled on a service compartmented basis until March 1980 when the JTF/J2 requested DIA and the services provide representatives to a DoD HUMINT Coordinat Committee. The Group met four times prior to the April, 80 attempt and was reactivated <sup>AFTER the attempt</sup> when it became apparent that DoD had to make a special effort in the HUMINT field.

2. In August 1980, JTF again requested DIA and the Services provide representation to the HUMINT Coordinating Committee (Atch 1). [REDACTED]

[REDACTED] The first HUMINT Coordinating Committee meeting in support of SNOWBIRD was held on 12 August 1980, chaired by JTF J-2.

3. On 25 August 1980, Secretary of Defense designated Department of the Army (DA) as Executive Agent for DOD [REDACTED] activities in support of SNOWBIRD (Atch 3). ACSI, DA, representing Chief of Staff of the Army, in turn designated [REDACTED] as his executive agent for such intelligence activities. Commencing on

~~SECRET~~

Classified by SP5  
Declassify on OADR

C

A, C

~~SECRET~~

2 September 1980, control of the HUMINT Coordinating Committee passed to [REDACTED]

A 4. (S) The Committee met on a weekly basis, first in JTF offices and later at [REDACTED] offices, and discussed the following types of subjects:

- C
- a. Iranian intelligence updates
  - b. Hostage location assessments
  - c. [REDACTED]
  - d. Active HUMINT operations
  - e. New leads and their assignment to appropriate agency for action
  - f. Status of lead assessments/recruitments
  - g. Status of source debriefings
  - h. New source tasking/new EEI
  - i. New environmental/OPS <sup>Data</sup> ~~Data~~ affecting HUMINT operations
  - j. [REDACTED]
  - k. [REDACTED]
  - l. [REDACTED]
  - m. [REDACTED] problems
  - n. [REDACTED] HUMINT support structure
  - o. [REDACTED]
- C
- A

COMMENTS:

1. (U) The HUMINT Coordinating Committee served a key function, ~~in support of SNOWBIRD (due to its short life prior to May 1980, its impact on RICEBOWL was minimal)~~. The Committee provided a weekly forum in which problems could be

~~SECRET~~

resolved, questions answered, and confusion dispelled. It brought together DOD's diverse HUMINT organizations and provided them a coordinated and coherent framework in which to operate against Iran. It was a benefit to the HUMINT organizations and to the overall DOD HUMINT effort.

2. (S) The Committee recognized early that [redacted] in the weekly meetings would be extremely beneficial.

Unfortunately, this did not occur. [redacted]

RECOMMENDATIONS:

2. (S) Every effort should be made to obtain [redacted] HUMINT Coordinating Committee.

1. (U) That a similar committee be organized early when a ~~contingency~~ *Special Operations Contingency* terrorist situation involving the United States occurs.

HUMINT operations, by their nature, cannot react rapidly..

As much lead time as possible is required to energize the HUMINT system in support of a particular operation.

Subject: HUMINT Support

1. (U) During the past nine months the services and DIA have been providing HUMINT support to this office on a case by case basis. Most contacts were handled on an individual basis [REDACTED]

[REDACTED] This effort worked well; my office stated requirements, the service intelligence organizations vetted, trained, controlled, and debriefed the sources.

2. (U) In March, as the tempo of activity picked up and several special needs surfaced, a coordinating committee was formed in an effort to meet the new requirements. The effort was productive and continued until the end of April. Since that time, actions reverted to coordination on an one to one basis between this office and the sponsoring service. However, a recent increase in potential sources warrants the reactivation of the coordinating committee.

3. (U) The purpose of the committee will be to periodically review HUMINT requirements, evaluate source potential, coordinate support needs, including funding, and provide advice on HUMINT matters to this office. It is envisioned that the committee would consist of a designated representative from my staff and each of the following offices:

a. DIA/CC4

b. DIA/JSS1

c. USA/AGG1

d. USA/INSCOM [REDACTED]

e. USAF [REDACTED]

f. USN/DNI

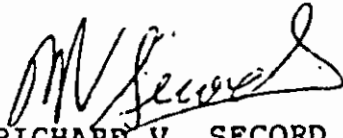

~~SECRET~~

~~SECRET~~

4. (U) Request your designated representative attend the first meeting of the committee, which has been tentatively scheduled for 1030 Tuesday, 12 August 1980 in the Pentagon, Room 2C840.

5. (U) Designated representatives should contact my POC, Lieutenant Colonel [REDACTED] at 55078 (Secure 2189) to confirm attendance.

THE JOINT STAFF

MEMORANDUM FOR MAJOR GENERAL VAUGHT

Subject: Intelligence Support for SNOWBIRD ~~(TS)~~<sup>(U)</sup> and Related Matters: ~~(TS)~~<sup>(U)</sup>

- Reference:
- \* Director, DIA memorandum, dated 7 August 1980, same subject ~~(TS)~~<sup>(U)</sup>
  - \*\* Chairman, Joint Chiefs of Staff memorandum, same subject ~~(TS)~~<sup>(U)</sup> (attached)
  - \*\*\* Secretary of Defense memorandum subject: Intelligence Support to SNOWBIRD ~~(TS)~~<sup>(U)</sup> (attached)

1. ~~(TS)~~ On 7 August 1980, Director, DIA proposed establishment of an Intelligence Policy Review Council\* to be composed of senior representatives of the national intelligence community. The purpose of this council would be to focus on external intelligence support requirements for SNOWBIRD (TS) and would review, for policy implications, new requests for intelligence, intelligence support, and related DOD [redacted] CJCS approved this concept in a memorandum to the Director, DIA\*\* and defined the functional aspects of the council in relationship to other organizational entities involved in SNOWBIRD (TS) support.

2. ~~(TS)~~ Additionally, the Secretary of Defense has appointed the Department of the Army as Executive Agent for DOD [redacted]

[redacted] support operations connected with SNOWBIRD.\*\*\*

3. ~~(TS)~~ SNOWBIRD ~~(TS)~~, [redacted] remains under COMINT but will respond to Executive Agency tasking for [redacted] support activities.

MEMORANDUM FOR THE DIRECTOR, DEFENSE INTELLIGENCE AGENCY

Subject: Intelligence Support for SNOWBIRD (TS) and Related Matters

Reference: a. Director, DIA Memorandum, dated 7 August 1980, same subject  
b. DOD Directive 5105.29 dated 1 December 1979  
c. DOD Directive 5240.1R dated November 1979

1. (S) As recommended in paragraph four of reference a, you are authorized and requested to form and serve as chairman of an Intelligence Policy Review Council. The Council should be composed of senior representatives of DIA, [REDACTED] and will focus on national intelligence community support to SNOWBIRD (TS). The Council will review new requests for intelligence, intelligence support, and related [REDACTED] activities emanating from the SNOWBIRD (TS) staff, for policy implications and technical feasibility. Review by the Council of such requests will be accomplished prior to formal tasking or other implementing actions.

2. (S) Establishment of the Intelligence Policy Review Council under your Chairmanship will not alter currently existing arrangements in which liaison officers from DIA, [REDACTED] Services work directly with the SNOWBIRD (TS) staff.

3. (S) As a separate matter, the Secretary of Defense has signed the attached memorandum designating the Department of the Army as Executive Agent for all approved DOD [REDACTED]

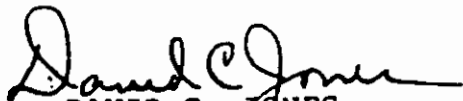

operational support activities on behalf of SNOWBIRD (TS) in accordance with references b and c. Procedures for approval of such requested activities will be as follows:

- a. (U) COMJTF will approve new requirements for non-DOD assistance identified by the SNOWBIRD (TS) staff. Such requirements will be forwarded to the Intelligence Policy Review Council for validation. The Council will then provide a recommendation through the Operations Deputies (sitting as the Special Operations Oversight Group) to the Joint Chiefs of Staff. In each instance, recommendations of the Council will address the technical feasibility of accomplishing the requirement and will identify organizational responsibility aspects bearing on the SNOWBIRD (TS) request. Additionally, the Council should address all other pertinent aspects of each proposal with emphasis on those with policy implications.
- [REDACTED]

~~TOP SECRET SENSITIVE~~

(u)  
b. (T) If the Joint Chiefs concur in the proposed action and if the action is within their authority, it will be approved. If the action requires approval by the Secretary of Defense or other higher authority, it will be forwarded with an appropriate recommendation.

(u)  
4. (T) Also attached is a memorandum to COMJTF outlining the above procedures and providing copies of the appropriate correspondence relating to this matter.

Intelligence Historical Report

Subject: (U) Executive Summary For Weather Support to American Hostage Rescue Efforts.

Time Frame: (U) November 1979 - [December 1980]

A

Purpose: (U) The attached reports describe the scope of weather support provided to the Joint Task Force 1-79 and [REDACTED] concerned with the American hostages in Iran during this period. Each of the eight reports addresses a separate issue or portion of support relevant to the planning, exercises, rescue attempt and subsequent events. To gain a full appreciation of the depth of support and the problems encountered one needs to review the complete series of reports.

Recommendations: (U) Planners and operational personnel need to closely coordinate with their staff weather officer through all phases of the planning cycle, mission implementation, and post evaluation to enhance the probability of success. The key point to stress for future efforts is the absolute necessity of a resident staff weather officer dedicated to the support effort to be incorporated into the planning/operational staff in a full-time status.

Summary: (U) Weather played a key role in the planning and execution phases of the American Military Rescue Attempt on 24 April 1980 and subsequent efforts by the Joint Chiefs of Staff.

J2 Personnel Involved: Majors [REDACTED] USAF/XOOOX, AV227-1638.

Attachments:

1. (U) Meteorological Support Package Development.
2. (U) Acquisition and Deployment of Meteorological Equipment to FOL.
3. (U) Exercise Weather Support, Pre Raid.
4. (U) Exercise Weather Support, Post Raid.
5. (U) Climatological Planning Data.
6. (U) Meteorological Satellite Shortfalls.
7. (U) Remote Tactical Weather Sensors.
8. (U) Meteorological Surface and Upper Air Data Shortfalls.

Intelligence Historical Report  
J2, JTF 1-79

CLASSIFICATION: UNCLASSIFIED  
CONDUCTED BY: 12 May 92  
DECLASSIFIED BY: DDD, N MCC  
U.S. GOVERNMENT PRINTING OFFICE: 1975  
REF ID: AADR  
REPRODUCTION: Multiple Sources

SUBJECT: Intelligence Communications Channels

TIMEFRAME: November 1979 - December 1980

SUMMARY:

1. (S) [REDACTED]

2. On \_\_\_\_\_ 1979, [REDACTED]

3. (S) [REDACTED] DIA and DMA also provided dedicated LNO's, but no communications circuits were installed between these agencies and HQ, JTF.

4. (U) J2 transmitted intelligence to the operational forces over secure dial-up teletype circuits. These circuits were not dedicated J2 circuits, but were used by all JTF staff sections.

5. [REDACTED]

[REDACTED]  
[REDACTED] Intelligence from the JTF

E Response Cell (Pentagon) was transmitted over a secure teletype circuit installed and operated by JCSE.

6. (✓) J2 at [REDACTED] provided intelligence support to operational forces at that location on a face-to-face as needed basis. Intelligence for forces at [REDACTED] and aboard the USS Nimitz was transmitted by JCSE-operated teletype circuits.

Intelligence Historical Report  
J2, JTF 1-79

SUBJECT: Debriefs of Foreign Nationals *Pilot*

TIMEFRAME: August-September 1980

SUMMARY:

- 1. (✓) J2 obtained the name of a source who could provide up-to-date information on [redacted] in Iran.
- 2. (✓) J-2, [redacted] met with the sources' contact to arrange for a debrief. Debrief was conducted out of country by J-2. [redacted]

- 3. (✓) J-2 made contact with [redacted] to conduct a subsequent debrief with a second source.

COMMENTS:

- 1. (U) Information obtained from both sources was pertinent and sources were willing and cooperative subjects.

RECOMMENDATIONS:

- 1. (U) Meetings of this type can easily compromise debriefer. All contact should be made under assumed name and in a place not traceable to the debriefer.
- 2. (✓) Debriefer should keep complete records of the entire arrangement. Do not count on any other agency to cover for you. Arrange all your papers (if traveling under assumed name) well in advance. [redacted]

CLASSIFICATION REVIEW BY [redacted]  
 CONDUCTED ON 12 May 92  
 DERIVATIVE CL BY DDO, Jmcc  
 DECL. DOWNGRADED TO Secret  
 REVIEW ON OADR  
 DERIVED FROM [redacted]

4. (U) Attempt to keep track of sources changes of address.

Do not assume that any other agency will do so.

5. (U) Make sure you have adequate traveling funds.

1. DEBRIEF

EXECUTIVE SUMMARY

SUBJECT: DEBRIEF OF [REDACTED]

DATE: 20 AUGUST 1980

PLACE: PARIS, FRANCE

SUMMARY: [REDACTED] AND I MET WITH [REDACTED] TO DEBRIEF HIM AND ATTEMPT TO INDUCE HIM TO RETURN TO IRAN AND CONTINUE [REDACTED] HE HAS REFUSED TO RETURN, CLAIMING THAT HE WOULD BE DISMISSED AS SOON AS HE RETURNS AND COULD EVEN BE SHOT. THE FOLLOWING ARE KEY POINTS OF HIS INTERVIEW:

1. [REDACTED] HAS EXTENSIVE EXPERIENCE WITH [REDACTED] [REDACTED] HE HAS [REDACTED] AND IS FAMILIAR WITH MOST MAJOR CITIES IN IRAN.

2. [REDACTED] CLAIMS TO HAVE BELONGED TO ONE OF MANY "TALK GROUPS" THAT ARE AGAINST THE REGIME. HE STATED HE WOULD CONTINUE HIS OPPOSITION TO THE REGIME AND WOULD BE WILLING TO HELP US IN ANY WAY POSSIBLE SHORT OF RETURNING TO IRAN AS [REDACTED]

3. HIS ANSWERS TO SPECIFIC QUESTIONS ON THE POLITICAL ARENA AND THE HOSTAGE SITUATION WERE BASED GENERALLY ON RUMORS. ONE NOTABLE STATEMENT WAS ATTRIBUTED TO HIS COUSIN WHO CLAIMS TO HAVE SEEN [REDACTED] [REDACTED] IMMEDIATELY AFTER THE RESCUE ATTEMPT.

4. [REDACTED] KNOWLEDGE OF [REDACTED] WERE EXTREMELY HELPFUL, PROVIDING SOME INFORMATION PREVIOUSLY NOT KNOWN.

AFTER ACTION: [REDACTED] PROVIDED EXCELLENT INFORMATION AND SEEMED WILLING TO CONTINUE TO HELP. HE IS CURRENTLY [REDACTED] AND FURTHER CONTACT WILL BE MADE.

C

DEBRIEF

20 August 1980

Name: [REDACTED]

Passport: [REDACTED] - Born in [REDACTED]

C [REDACTED]

Name: Departure: Left Iran [REDACTED], started [REDACTED] upgrade on [REDACTED]

[REDACTED] finished [REDACTED] Will not return to

C [REDACTED]

Iran to [REDACTED]

Previous Address: [REDACTED], the [REDACTED]

[REDACTED] is currently rented out. He now resides

at [REDACTED] Phone

[REDACTED] with wife and two children. One child was born in

the U.S. and has a U.S. passport.

C [REDACTED]

Previous jobs: [REDACTED]

[REDACTED];

[REDACTED]. [REDACTED]

[REDACTED] Kharg Island, Bushehr, Abadan, Shiraz, Isfahan,

Kermanshah, Mashad, Lavan Island. [REDACTED]

[REDACTED]

General Situation: [REDACTED] claims to have "had

C [REDACTED] all I can stand of the terrible happenings in Iran." All

attempts to get him to return and continue [REDACTED]

[REDACTED] failed. He seemed certain that his name was on a purge

list and that he undoubtedly would be fired and probably

~~SECRET~~

C

imprisoned or shot when (if) he returns. His wife and children are with him in [REDACTED] and he has repeatedly expressed a desire to join the rest of his family in the U.S.. His knowledge of [REDACTED] is very good and general knowledge of [REDACTED] is excellent. He was most willing to help in any way possible (except return to Iran as [REDACTED])

Assessment: [REDACTED] knowledge of operating procedures is excellent. He has information which, up until this point, has been lacking. A further debrief [REDACTED] or [REDACTED] could be beneficial but may not prove to be as promising as first thought.

Political:

Most of [REDACTED] political information is second hand or rumors, like the majority of other information on the hostages and government policy. However, it does point out there is an extensive rumor mill and there may be a kernel of truth in some of it.

[REDACTED] stated that most people do not like the current regime and are growing desperate for a change - as long as it is not the communists. Most of the people believe the rescue attempt was really a U. S. attempt to aid the Afghanistani rebels. The Russians saw the attempt by spy satellite and interdicted the helicopter staging area. Most people cannot believe we would "try something so stupid as to go into Tehran to try to free the hostages." The Iranians have apparently been watching too many James Bond movies.

~~SECRET~~

[REDACTED] claims to have belonged to one of many groups that get together to talk against the regime. He feels there are many who would act strongly against the regime but there is currently no solid leader to fall in behind. [REDACTED] feels Oveisi has the best chance (as well as the Shah's son) to be the "leader the people need." The mullahs are destroying everything and are far greedier than anyone preceeded them. The people are even saying that Carter has put the mullahs in because the Shah was unable to control the communists and the mullahs can.

GENERAL QUESTIONS

[REDACTED] No?

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

Do you know what kind of aircraft Khalkhali used when he travelled to and from the crash site?: C-130. At times he will also use the F-27.

[REDACTED]

Cs

[REDACTED] No. [REDACTED]

[REDACTED] claims his cousin, who works in [REDACTED], saw [REDACTED]

[REDACTED] a few days after the rescue attempt. Within a day or two of their arrival, automatic weapons fire was heard in the city (none has been heard in some time). Regardless of "reports" such as these, the majority of Iranians believe that the militants did not move the hostage out of Tehran.

Cs

[REDACTED]

A few are working with the company, but [REDACTED] did not know them personally. There are (probably) 2 British expatriots Portuguese [REDACTED] and many Swedish, Irish, British, Indian and Philippine

No restrictions, however, Pasdars may stop and question you, particularly if traveling at night [REDACTED]

[REDACTED]

C (c) [REDACTED] Roadblock/checkpoints are temporary and scattered, generally only at night. [REDACTED]

[REDACTED]

[REDACTED] Gendarmes concern themselves only with traffic control/violations and probably would not come to the aid of the Pasdars. The checkpoints are placed by vans from US Embassy. [REDACTED]

[REDACTED]

C (c) [REDACTED]

C (c) [REDACTED] AM (0700-1000) and PM (1500-1630) traffic is very heavy all over Tehran. Travel time [REDACTED] Embassy: [REDACTED] during rush hour and [REDACTED] at other times.

Acceptable dress for foreigners?: Western dress OK for men - women must dress "modestly".

C (c) [REDACTED]

C (c) [redacted] only 2-3 armored vehicles are working.

C (c) [redacted] are bright enough to be seen [redacted] (in the air).

C (c) [redacted] Does not have - construction is cement.

C (c) [redacted] Probably would come from Army bases on either side of [redacted] No idea of reaction time.

C (c) [redacted] Believes everyone would stay at home. People are much more afraid now than they were under Shah's regime. There would be no "popular reaction" to rise against any invading force.

C (c) [redacted] 24 hours. Appears to be an adequate amount of ammunition near each position.

C (c) [redacted] Never anyone around the site. Sporadically there are a few vehicles there but not many or often. Has never seen [redacted]

C

C (c)

[REDACTED]: At Army base [REDACTED]

[REDACTED] Very narrow road leads to [REDACTED] Mullahs don't arm the fighters because they feel pilots/Air Force is unreliable and may attack.

C (c)

[REDACTED]

Military is almost totally inactive.

C (c)

[REDACTED]

[REDACTED] The others are probably unflyable.

Maintenance and spare parts continues to be a serious problem.

[REDACTED] are still flying, the rest are probably unflyable also.

C-130's are the most reliable and are flying a lot. IIAF and government depends on these aircraft almost exclusively.

[REDACTED]

C (c)

Power browns out sporatically in the summer. Announcements of power outages are usually made a day or two before, but not always. No regular outages. Telephones are still the same--terrible.

Summary [REDACTED] knowledge of [REDACTED]

[REDACTED] is excellent. His capabilities could be a valuable asset and his presence in the U.S. desirable.

REMARKS

1. (S) DJS memorandum requested\* J-3 analysis of subject review with a report to the Operation Deputies. Accordingly, the Services, DIA, and [REDACTED] have provided\*\* comments on the document, and a synopsis of those remarks is provided.
  2. (U) The respondents concur that the review is an excellent reference document and should be preserved. However, the Services believe it is inappropriate at this time to provide comments on the status of the actions recommended by the review.
  3. (U) Based upon the comments provided, the following actions are recommended:
    - a. (U) Due to the lack of specificity in the Service responses, the analysis should not be briefed to the OPSDEPS at this time. However, it is appropriate to request the Services provide a status report, by 1 November 1981, of actions taken in regard to pertinent portions of the review. Proposed memorandum is appended for approval and signature.
- Copies of the document (sanitized to disconnect it from any specific actions associated with Iran) should be distributed to the Services, unified and specified commands, the RDJTF [REDACTED] be further distributed to specific components, i.e., [REDACTED]
- Special Operations Units (SF, SEAL, AFSOP, as well as UW command and control organizations).

MEMORANDUM FOR THE DIRECTOR FOR OPERATIONS

Subject: Review and Analysis of the Joint Task Force Capability Review (11 May 1981 Report by MG James B. Vaught, USA)

1. Request J-3 review an analysis of MG Vaught's paper, with a report to the Operations Deputies NLT 17 June 1981. The J-3 review and subsequent report to the Operations Deputies should:

- Identify status of all recommendations and proposals in MG Vaught's paper. Specifically, identify those which have been implemented, those which are being implemented now with an estimated completion date for each, those which require further study and analysis, and those which will not be implemented.
- Recommend distribution of the report.
- Provide recommendations with regard to further review by others. Specifically, should SOAP (or selected members of SOAP) provide a separate review? Should [redacted] provide independent reviews?
- Provide other recommendations to the Operations Deputies with regard to special operations and counterterrorist capabilities, procedures, and techniques.

2. Coordination within the Joint Staff should be through channels already established for special operations and counterterrorist actions.

3. The report to the Operations Deputies should be in the form of a briefing, with the written J-3 review and analysis of MG Vaught's paper retained in the Operations Directorate.

FORM 1001

MEMORANDUM FOR DIRECTOR FOR OPERATIONS, JOINT STAFF

SUBJECT: Review and Analysis of the Joint Task Force Capability Review  
(11 May 1981 Report by MG James B. Vaught, USA) (U)

1. (U) Per your memorandum of 29 May 1981, detailed Army comments on the subject report will be provided after ARSTAF conducts a more thorough review which is now underway.

2. (U) I believe it would be beneficial for Major General Vaught's report to be forwarded to the Director of the Central Intelligence Agency, Unified Commanders, CINCPAC, CINCSAC, and COMTAC for information.

~~\_\_\_\_\_~~ should not provide a separate review, but should assist ~~\_\_\_\_\_~~

3. (U) My primary recommendations with respect to counterterrorism are as follows:

a. (U) The Joint Staff action on establishment of congressional committees for oversight of counterterrorism should be completed and considered as a matter of priority by the Operations Deputies.

b. (U) Action should be initiated by the Joint Staff concerning the US government counterterrorism crisis management structure and command and control related issues. While we have made great strides

~~CLASSIFIED BY \_\_\_\_\_~~

~~REVIEW ON: 29 June 1981~~

~~SECRET~~ ~~SECRET~~

~~SECRET~~

in upgrading our military counterterrorist capabilities, I perceive a significant void at the highest governmental levels to accomplish the decision-making necessary for employment of these forces, particularly within CONUS.

4. (U) I am fully prepared to discuss these issues in more detail with you.

  
GLENN K. OTIS  
Lieutenant General, USA

MEMORANDUM FOR THE DIRECTOR OF OPERATIONS, OJCS

Subj: Review and Analysis of the Joint Task Force Capability Review (U)

Ref: (a) Your memo dtd 29 May 1981

1. (S) As requested in reference (a), a review of subject report has been conducted. The study is a valuable source document for lessons learned, the primary value of which probably lies at the unified command level and with [REDACTED]

A [REDACTED] The document also has wide ranging implications for the Services regarding funding, tactics and operational assets. For this reason it would be premature, at this time, to treat the report as a joint document to be used as a basis for formulating a plan of action and milestones for the Services.

2. (C) A select review of the report by the SOAP, or selected members, is not deemed necessary at this time.

A (S) With the exigency of the Iranian hostage incident behind us, the unified commands and the [REDACTED] should be allowed to review the document and take appropriate action within established Service/JCS channels. Beyond that, the best way to retain the valuable expertise, gleaned from the Iranian hostage rescue experience, is by the [REDACTED] participation [REDACTED]

[REDACTED] and frequent reinforcement of counterterrorist perishable skills by training conducted on a unit level.

A

MEMORANDUM FOR THE DIRECTOR OF OPERATIONS, OJCS

SUBJECT: Review and Analysis of the Joint Task Force  
Capability Review (Your Memo, 29 May 1981)

(U) The subject document has been reviewed with considerable interest. The JTF accomplishments and lessons learned represent the best compendium on this subject thus far compiled. It should serve as the base line from which the Services can enhance organization, equipment, tactics, and techniques to provide requisite Joint capability.

A

(S) While Air Force does not intend to take issue with the recommendations, the document nevertheless is an unstaffed product compiled largely from unit or individual's inputs. [redacted] the Air Force operating commands have not reviewed and commented on the document in its entirety and, in particular, the Tactical Air Forces' senior staffs have not had access at all. Obviously, it would be premature to commit to implementation (with estimated completion dates) before internal Air Force evaluation. A coherent Air Force plan of action must be developed in coordination with the respective unified and specified commands [redacted]. For example, in connection with recent efforts concerning [redacted] we have been advised of aroused sensitivities due to lack of unified command direct involvement.

A

(S) As you are aware, through my 25 March 1981 memorandum, Subject: Air Force [redacted], we have initiated an indepth study in coordination with the Joint Staff, unified and specified commands, [redacted] to determine actions required to fulfill [redacted] special operations requirements. The results of this study, when fully coordinated, will be compared with salient JTF findings to determine validated and feasible future courses of action.

A

(S) With regard to distribution of the report, the unified and specified commands, [redacted] MAJCOMs should be included as a minimum. Selected review at unit level is also appropriate.

(u)  
(e) In summary, Air Force will deliver whatever capability necessary, based on validated operational requirements, in order to accomplish the mission. The Air Force assigned top priority to this mission and intends to accommodate whatever improvements are necessary and fiscally prudent. We are very much interested in institutionalizing recent lessons in the joint area, while we proceed along a deliberate and fully coordinated path to organize, train, and equip forces.

MEMORANDUM FOR THE DIRECTOR OF OPERATIONS, OJCS

Subj: Review and Analysis of the Joint Task Force Capability Review (11 May 1981 Report by MG James B. VAUGHT, USA) (U)

1. <sup>(U)</sup> ~~(S)~~ The Joint Task Force (JTF) Capabilities Review was forwarded to the J-3 by DJSM 901-81, 15 May 1981, for review and analysis, and preparation of a briefing for the Operations Deputies. Your Memorandum to the Service Operations Deputies, 29 May 1981, further forwarded portions of this tasking to the Services to assist in briefing preparation.

2. <sup>(U)</sup> ~~(S)~~ I am concerned that you may infer that the Services have thoroughly reviewed and concurred in this report. Such is not the case. There is a breadth and depth of material herein that must receive detailed evaluation. Many proposals and/or recommendations could result in changes or additions to tactics or doctrine, and could have significant fiscal impact on the Services. The report directly affects Service training and administrative responsibilities.

3. <sup>(U)</sup> ~~(S)~~ I am impressed with the document and feel that many of the advancements made by the JTF can provide valuable improvements in military capabilities, both in conventional as well as special operations applications. I am, however, concerned that the close hold nature of this report might stifle access to valuable lessons learned. In my view this report should be sanitized to remove its connection to the mission of the JTF, and then staffed to the responsible Joint Staff Directorates, and/or responsible Services, as appropriate for full review and initiation, by their own programming establishments, of those actions warranted.

4. <sup>(U)</sup> ~~(S)~~ I do not feel that this report, in its present form, should be considered for joint action as a joint document. Taskings that were given to the JTF under a nationally significant priority for a specific mission should not necessarily be continued with the same impetus once the mission has been resolved. Service responsibilities must be handled within established procedures.

5. ~~(S)~~ It would be valuable to have ~~\_\_\_\_\_~~ dependent review of this report to be retained as a reference. I do not feel that SOAP review is warranted.

b. J3M 2005-81, dated 8 June 1981, subject as above. (Enclosure)

1. (U) In response to reference a., DB has reviewed Tab A of reference b. The following points should be considered with respect to DIA's support of this requirement.

a. (U) DIA is not responsible for the preparation and maintenance of airfield layout data (ASSOTW) or maps. These products are the responsibility of DMA.

b. (U) DIA can prepare airfield packages to cover all the points cited in Tab A, using available manual and automated data files. An airfield package would incorporate the latest information provided by the ASSOTW, imagery products, and order of battle files.

c. (C) The recommended action in Tab A has a global aspect and would require more resources for preparation and maintenance than are available in DIA. DIA's resources would be more effectively utilized and the customer better served if specific airfield packages are prepared on demand to meet specific operational requirements.

2. (U) Tabs B and C of reference b. are not within the purview of DB.

TRAINING COST SUMMARY

A 1. ~~(S)~~ GENERAL: The requirement to retain training readiness of ~~\_\_\_\_\_~~ necessitates a training program through fourth quarter, FY 81. Cost data displayed depicts an exercise program with forces utilizing forward operating bases. Lacking definitive intelligence data for planning, training must include all forces presently available.

2. ~~(S)~~ DISCUSSION: Training program. The cost model for the training program was constructed on the following assumptions:

- a. Twenty-one exercise days per quarter.
- b. Use of a forward operating base each time.
- c. Scenarios 10 or 12 would be rehearsed.
- d. Some ongoing aircraft modifications reflected.
- e. Flying hours used during joint exercises ~~\_\_\_\_\_~~
- f. Units conduct home station training at own expense.

THE JOINT STAFF

MEMORANDUM FOR THE DIRECTOR, JOINT STAFF

10 JUN 1981

Subject: Recommendation for Award

Reference: DOD Directive 1348.26

1. (U) Under the provisions of directive referenced above, it is recommended the the following individual be awarded the Defense Meritorious Service Medal for Achievement:

a. (U) Captain [REDACTED] United States Army [REDACTED]

d. (U) 4 November 1979 to 24 April 1980.

f. (U) No other recommendations for awards to this individual are pending, and no previous award has been made for the achievements described herein.

g. (U) Previous Personal Decorations: [REDACTED]

2. (U) Captain [REDACTED] United States Army, distinguished himself by exceptionally meritorious service from 4 November 1979 to 24 April 1980 as a member of the Joint Task Force charged with the responsibility for rescuing the American hostages held in Iran.

As Assistant [REDACTED] (Planner) [REDACTED] Captain [REDACTED] was the primary intelligence planner for the battalion. This required him to coordinate and plan with a myriad of intelligence planners and agencies at the national level. Though most of his contacts were considerably senior to him in terms of rank and age, Captain [REDACTED] quickly established himself as a driving force behind the complex intelligence plans and operations necessary to support such a sensitive national program. With no background or training other than in basic intelligence schooling, Captain [REDACTED] soon developed into a position of equality and respect among the many senior personalities with which he normally dealt.

b. <sup>(U)</sup> Once the raw intelligence data was assimilated, Captain [redacted] had to convert it into a realistic training scenario. Unlike usual peacetime training, Captain [redacted] accurate portrayal of enemy dispositions and reactions were critical to successful mission training. Captain [redacted] devoted an exceptional amount of time in briefing Ranger forces, and explained in the greatest detail the slightest nuances to the enemy dispositions so that the force had the highest degree of confidence in its ability. As part of this program, Captain [redacted] designed and built several very elaborate training aids that were used for briefings at Washington as well as at field training sites. These training aids were indispensable to the successful training effort.

c. <sup>(S)</sup> Captain [redacted] also served as the primary [redacted] OPSEC officer. As such, he was tasked with implementing [redacted] supervising [redacted] programs and monitoring the OPSEC posture of the Battalion. In an exceptionally well-protected task force, the Ranger Battalion enjoyed the best OPSEC of all elements. This is in large measure due to his personal efforts. Captain [redacted] devotion to duty, high degree of professionalism and dedication to the mission reflect great credit upon himself, the United States Army and the Joint Chiefs of Staff.

was easily understood, highly professional and fully integrated with all Service efforts. Captain [redacted] plan and its presentation was a model of the highest professional standard. This plan became the foundation for all subsequent planning efforts and was the concept adopted for mission execution.

b. Captain [redacted] also served as the primary staff officer and coordinator for the training phase of the Joint Task Force security force. He visited several potential training sites, coordinated with other Service representatives and conducted all basic planning for the Ranger Battalion. As training coordinator, he insured that all Ranger training objectives were fully coordinated with and supported by the USAF elements that would carry the force. Concurrently, Captain [redacted] worked closely with the helicopter assault force assisting them in refuel planning, ground coordination and transload procedures. These acts were vital to the full integration of the task force into a smooth efficient assault team.

c. With the arrival of a Field Grade Officer, Captain [redacted] assumed command of a Ranger rifle company tasked with a portion of the security mission he devised. Captain [redacted] developed some exceptionally realistic and practical training scenarios that insured a high standard of readiness within the assault force. With his personal attention to detail, soldierly qualities and devotion to the task at hand, Captain [redacted] quickly molded a superb fighting force. Though personally reduced in stature due to his job reassignment, Captain [redacted] produced a 110% effort in all areas and materially assisted the entire Battalion in gaining a mission-ready posture. Captain [redacted] devotion to duty, high degree of professional competence and unswerving allegiance to the mission reflects great credit upon himself, the United States Army and the Joint Chiefs of Staff.

Colonel [REDACTED] distinguished himself by meritorious achievement while serving as the Medical Advisor to the CDR, JTF 1-79 during the period 15 November 1979 through 30 April 1980. Colonel [REDACTED] displayed an uncommon degree of skill, judgement, and personal drive. He developed a medical support plan which made a significant contribution to the Joint Task Force mission. The plan included such diverse actions as close support medical teams to commando forces, physician teams embarked on USAF recovery aircraft, whole blood supply and a unique evacuation network to insure the very best medical support to the hostages and Task Force members. Working within CONUS and in an austere forward location overseas, Colonel [REDACTED] continually produced superior results. The distinctive accomplishment of Colonel [REDACTED] reflects great credit upon himself, the United States Army, and the Joint Chiefs of Staff.

G

assaulting multiple target areas, as well as support to Ranger Forces and USAF personnel establishing launch, refuel and recovery sites at additional and more remote locations. A mission of this complexity was unprecedented, and to cover all facets of the operation with an austere and limited medical package was a formidable challenge. Major [redacted] met this challenge with tactfulness, determination, and intense devotion.

b. (U) The medical support concept included the [redacted]-Med close support resuscitation teams, helicopter and fixed wing evacuation kits and personnel, whole blood supply, and specially tailored intermediate level surgical units. One of the most noteworthy innovations developed by Major [redacted] was a unique backup surgery module built from a portion of an Army combat support hospital. The surgical module, to be airlifted to a forward staging base, was a 50-man 85,000 lb surgical suite tailored from assets of the 44th Med Bde at Ft Bragg, NC. [redacted]

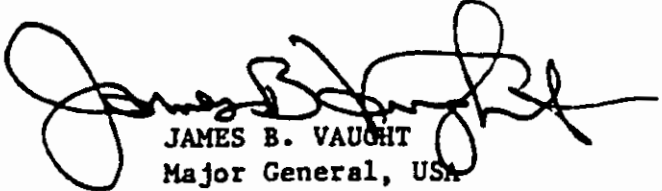

A, G

The skill by which this medical capability was developed by Major [redacted] while operating under the strictest of security discipline is indicative of his professional competence and superb diplomacy.

c. (U) The innovative efforts of Major [redacted] while assigned to JTF 1-79 have resulted in the development of an integrated service medical capability that had never before been assembled in support of special operations. Many of the medical force designs, like the CSH surgical module, and other operational improvements developed by Major [redacted] have since been accepted as standard operating procedures by the newly formed Joint Special Operations Command (JSOC). Major [redacted] outstanding commitment to duty, exceptional competence and knowledge of field medical operations were instrumental in preparing JTF 1-79 for this complex mission of the highest national interest.

G

3. (U) Major [redacted] distinctive accomplishments reflect great credit upon himself, the United States Army, and the Joint Chiefs of Staff.

2. (S) Colonel [redacted] distinguished himself by exceptionally superior meritorious achievement from 21 November 1979 to 15 December 1980 while serving as the senior Logistics Coordinator assigned to the Joint Task Force charged with rescuing the American hostages held in Iran.

a. (S) Colonel [redacted] was responsible for coordinating the procurement, assembly, and transshipment of a wide variety of equipment and support material ranging across the full spectrum of ground and airborne operations as well as helicopter and fixed wing air operations. Colonel [redacted] outstanding dedication to duty and his keenly developed sense of responsibility were instrumental in the satisfaction of the multitude of logistics requirements generated by the numerous operational techniques and capabilities that had to be fully developed, refined and tested under field conditions before they could be accepted for planning consideration. The requirements ranged from procurement of standard military stock items from twelve different service depots and included such divergent items as survival vests and radios, desert and snow camouflage clothing and netting, a wide variety of reflective and absorbant paints, mobile POL bladders capable of sustaining an airdrop, specially ruggedized dirt bikes, advanced night vision goggles and specially calibrated and laminated navigation aids and [redacted]

b. (U) Acquisition of the necessary equipment often meant dealing with the supply systems and knowing the procurement procedures of all four services and the U.S. Coast Guard. Satisfaction of many mission or climatological unique requirements involved canvassing commercial sources and soliciting their cooperation in design and fabrication or modification of existing R&D prototypes that held promise as being mission supportive.

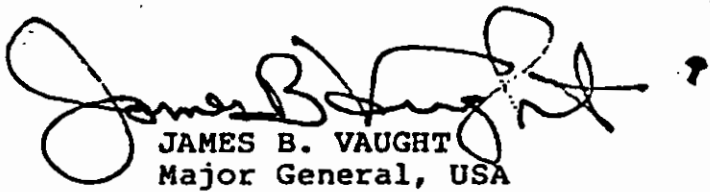

c. (U) Due to the continual time compression that mission planners and field training elements were under, Colonel [redacted] small two man staff routinely worked fifteen hour days, six to seven days a week throughout the entire period. In the midst of the numerous procurement actions that were continually ongoing, Colonel [redacted] served as the coordinator for all Army and Air Force airlift movement between military and civilian supply points and the six geographically separated mission field elements. Colonel [redacted] was also the principal airlift coordinator for the field exercises and several foreign area deployments.

~~SECRET~~

6 d. (U) All of this activity takes on a special significance when it becomes known that due to stringent operational security requirements all of the procurement, design, fabrication and airlift movement had to be accomplished without attracting any special notice or PAO inquiries. Much to the credit of Colonel [redacted] never throughout the entire period did any of the more than 300 logistics actions ever attract any undue attention or precipitate an OPSEC or COMSEC violation.

6 e. (U) Colonel [redacted] extensive knowledge of service and joint logistics procedures, his positive orientation and intense professional commitment to mission satisfaction, coupled with complete personal selflessness, were key factors in overcoming many of the procurement and acquisition problems faced in outfitting the various task force elements and warrant special recognition.

6 3. (U) By his exemplary performance of duty, Colonel [redacted] has reflected great credit upon himself, the United States Army, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

[REDACTED]

Colonel [REDACTED] United States Army, distinguished himself by superior meritorious achievement from 21 November 1979 to 15 December 1980, while serving as the senior Logistics Coordinator assigned to a highly select joint task force engaged in an extremely sensitive project of national importance. Colonel [REDACTED] was responsible for coordinating the procurement, assembly, and transshipment of a wide variety of equipment and support material ranging across the full spectrum of ground, airborne, helicopter, and fixed wing operations. Acquisition of the necessary equipment often meant being intimately familiar with the supply systems of all military services. Satisfaction of many mission or climatological unique requirements involved Colonel [REDACTED] canvassing of commercial sources and soliciting their cooperation in the design and fabrication or modification of existing R&D prototypes. In the midst of the numerous procurement actions, he served as the coordinator for all Army and Air Force airlift movement between military and civilian supply points and six geographically separate mission field elements as well as for field exercises and several foreign area deployments. Colonel [REDACTED] performance takes on special significance when viewed within the extremely stringent operational security requirements that were levied on this project, when during the hundreds of ongoing logistics actions never was there any undue attention generated. Colonel [REDACTED] extensive knowledge of service and joint logistics procedures, his positive orientation and intense professional commitment to mission satisfaction were key factors in the conduct of the task force mission and will have a lasting impact on the Special Operations Community. Colonel [REDACTED] distinctive accomplishments reflect great credit upon himself, the United States Army, the Organization of the Joint Chiefs of Staff and the Department of Defense.

10 JUN 1981

Subject: Recommendation for Award

Reference: DOD Directive 1348.24

1. <sup>(U)</sup>~~(S)~~ Under the provisions of the reference, it is recommended that the following individual be awarded the Defense Superior Service Medal:

- a. (U) Colonel Charlie A. Beckwith, United States Army, [REDACTED]
- b. (U) Joint Task Force 1-79.
- c. (U) 7 Adams Street, Fort Bragg, NC 28307.
- d. (U) 5 November 1979 to 27 April 1980.
- e. (U) Not applicable.
- f. (U) Joint Special Operations Command, Ft Bragg, NC 28307.
- g. (U) No other recommendations for awards to this individual are pending and no previous award has been made for the service described herein.
- h. (U) Previous US decorations: Silver Star (with one Oak Leaf Cluster), Legion of Merit (with two Oak Leaf Clusters), Bronze Star Medal (with three Oak Leaf Clusters).

2. <sup>(U)</sup>~~(S)~~ Colonel Charlie A. Beckwith, United States Army, distinguished himself by exceptionally superior achievement from 5 November 1979 to 27 April 1980, while serving as the principal Ground Force Commander assigned to the Joint Task Force charged with rescuing the American hostages held in Iran.

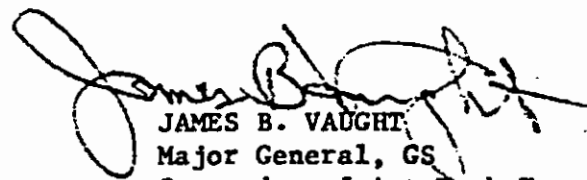

- a. <sup>(U)</sup>~~(S)~~ As commander of the ground component of the Task Force, Colonel Beckwith applied his vast experience in clandestine operations to the rescue planning and preparation and was in fact the principal architect of the ground assault plan. Due to the dynamics of the hostage situation, the plan became an evolutionary process requiring frequent modifications, each of which Colonel Beckwith adjusted to with ease.

- b. (U) (S) Colonel Beckwith was the driving force behind the strenuous training program that was established and was considered an essential foundation to the effectiveness of the ground force. The training program was both unique and extremely demanding in that it covered the broad spectrum of special ground and air operations, and as such involved members of all uniformed services who were to fulfill various direct support roles in the operational area.
- c. (U) (S) Colonel Beckwith's command presence proved highly valuable many times during the months of preparations, particularly during the repeated night rehearsals of a variety of highly dangerous tactics and maneuvers which were critical to mission success. His abilities proved invaluable during the emergency retrograde from Desert One. His efforts and position of respect within the force, contributed to the maintenance of order and the preservation of life during the transfer of personnel from the burning aircraft and the immobilized helicopters.
- d. (U) (S) Colonel Beckwith's overall contributions, many of which remain highly compartmented, weighed heavily upon the development of an extremely important capability, and one that will continue to enhance the Special Operations Community in years to come.

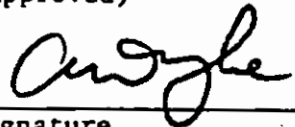

3. By his exemplary performance of duty, Colonel Beckwith has reflected great credit upon himself, the United States Army, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

~~SECRET~~

2. ~~(S)~~ Colonel [redacted] United States Army, distinguished himself by superior meritorious achievement from 5 November 1979 to 21 December 1980, while serving in a succession of demanding positions in the Joint Task Force charged with rescuing the American hostages held in Iran.

A1G

a. ~~(S)~~ During the early and turbulent days of the embassy takeover, Colonel [redacted] served as the OJCS Focal Point for all planning and investigative evaluation of a wide variety of operational concepts that held any potential for feasible resolution. The demands on Colonel [redacted] were tremendous, as he carried this full responsibility supported only by a small three man planning team. Often working 18-20 hours a day under intense psychological and physical pressure, Colonel [redacted] consistently performed in an outstanding and exceptionally competent manner. As the complexity, political sensitivity and protracted nature of the situation became apparent the planning effort took on new dimensions and a joint task force was established. The planning team led by Colonel [redacted] became the nucleus of the joint task force staff with Colonel [redacted] selected to serve as the Chief of Staff. With this position change, Colonel [redacted] responsibilities were formalized and expanded to cover a variety of specialized forces. He drew heavily on his knowledge of the area, his wide experience in Joint Special Operations as well as his understanding and appreciation of interrelationships of the political considerations and restraints associated with conducting a mission into that portion of the world.

A1G

b. ~~(S)~~ Colonel [redacted] realizing that several voids existed in the spectrum of US military response capability, outlined these voids, proposed specific procedures and techniques to overcome these limitations and to meet the unique force requirements. These innovative developments covered the broad spectrum of ground and air operations including both helicopter and fixed wing aircraft. Beginning with basic skill improvement, he personally monitored the evolutionary progress until the culmination and interrelation resulted in the final force capability. Colonel [redacted] doggedly pursued these proposals through the senior approval process, knowing that the improvements were essential to proper mission preparation.

A1G

A1G

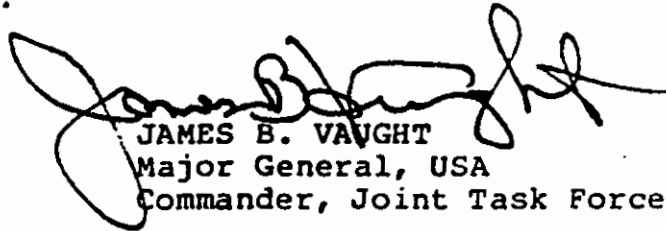

c. ~~(S)~~ During the course of developing feasible options two were considered most promising. The preferred option required locating and validating the suitability of an unimproved remote landing site capable of supporting fixed wing air operations. It was anticipated that it would take at least six weeks to locate, and validate such a site. Possible delays were anticipated at the onset and an emergency alternative had to be prepared,

~~SECRET~~  
which involved the ~~\_\_\_\_\_~~

*A*  
*AG*  
Due to the criticality of this need Colonel ~~\_\_\_\_\_~~ was chosen to perfect this option, train the force and assume command of the site should an emergency dictate the execution of this option. Colonel ~~\_\_\_\_\_~~ accepted this grave responsibility and devoted his full energies to refining the tactics, techniques and procedures to be used in this bold but essential backup option. Eventually a remote site was located and validated, however many of the capabilities developed by Colonel ~~\_\_\_\_\_~~ were applied to follow on planning and have been adopted as proven techniques to be used in airfield seizure situations.

*AG*  
d. ~~\_\_\_\_\_~~ A skilled organizer, Colonel ~~\_\_\_\_\_~~ combined in-depth tactical expertise with dynamic leadership to motivate and solicit from the members of the staff their utmost in personal and professional dedication. Throughout the many months of the planning effort, Colonel ~~\_\_\_\_\_~~ remained calm, unruffled and highly competent; consistently arriving at reasoned, logical decisions even under the most trying situations. Colonel ~~\_\_\_\_\_~~ contributions not only impacted heavily on the planning and execution of the mission and its many sub-elements but more importantly have already begun to have long-term positive effects on the operational capabilities of the Special Operations Community.

*AG*  
3. (U) The distinctive accomplishments of Colonel ~~\_\_\_\_\_~~ reflect great credit upon himself, the United States Army, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

planning factors and profile parameters that greatly eased pilot procedures and insured a high degree of assurance that the force could navigate the course with minimal risk of detection. Additionally, Colonel Dutton personally designed and put together the pilot mission book that was a critical tool on the actual mission.

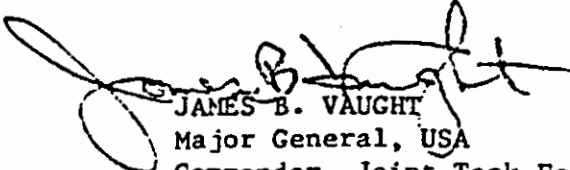

c. (U) (S) Participating in all training phases, Colonel Dutton provided exceptionally valuable advice and recommendations to the task force. Drawing upon his long experience in special operations, he was able to initiate several key adjustments to flight training and support that significantly enhanced task force readiness.

d. (U) (S) During the actual rescue mission, Colonel Dutton, as Task Force J3, was responsible for the conduct of the Tactical Operations Center within the Pentagon. As such, he smoothly managed a large number of people, a myriad of communications equipment and an extraordinary diversity of tasks. During periods of exceptional stress and sensitivity, Colonel Dutton consistently remained calm and professional and was of immeasurable assistance to the many very senior officers and civilians present.

e. (U) (S) Upon task force recovery, Colonel Dutton designed the redeployment plan and the initial reconstitution training program. These were essential elements in the ability of the force to gain mission-ready status in a very short period of time.

f. (U) (S) Throughout the period of this recommendation, Colonel Dutton presented briefings of an exceptionally high standard. Colonel Dutton routinely presented briefings to the Chairman, Joint Chiefs of Staff, the Joint Chiefs, Operations Deputies and numerous civilians in positions of great responsibility. His briefings were always of the highest quality and significantly contributed toward the decision-making process.

3. (U) Colonel Dutton's distinguished performance of duty throughout his service reflects great credit upon himself, the United States Air Force, the Joint Chiefs of Staff, and the Department of Defense.

ROBERT C. DUTTON

Colonel Robert C. Dutton, United States Air Force, distinguished himself by exceptionally superior service during the period 17 November 1979 to 15 December 1980 as a key member of the staff of the Joint Task Force charged with the responsibility for recovery of the US citizens held in Iran. Colonel Dutton, serving as Special Assistant to the Commander and then as Task Force J3, provided exceptionally valuable advice and assistance to National Command Authorities and the Commander, Joint Task Force 1-79. Colonel Dutton developed mission profile pilot books, training techniques and other mission tools to both fixed and rotary wing forces. His incisive knowledge of internal Iranian conditions was invaluable in mission planning. As an extraordinarily talented briefer, Colonel Dutton's presentations to senior leaders were key factors in the very sensitive decision making required. Colonel Dutton's distinguished performance of duty reflects great credit on himself, the United States Air Force, the Joint Chiefs of Staff, and the Department of Defense.

(U)  
2. (S) Lieutenant Colonel ██████████ United States Air Force, distinguished himself by exceptionally, superior meritorious achievement and dedication to duty from 5 November 1979 to 21 December 1980, while serving as the senior Intelligence Officer assigned to the Joint Task Force charged with the rescuing the American hostages held in Iran.

AG  
a. Throughout the entire period, Lieutenant Colonel ██████████ continuously demonstrated an exceptionally high degree of professional competence, management ability and dynamic leadership. As the principal intelligence advisor to the Commander of the task force, he served as the focal point for virtually the entire intelligence effort. Lieutenant Colonel ██████████ due to his wide intelligence and operational background, was able to anticipate most of the requirements necessary to support both the mission planners and the deployed combat and combat support. He integrated the efforts of the Department of Defense, with the national intelligence community and consistently obtained high quality support.

(U)  
b. Under Lieutenant Colonel ██████████ guidance a highly secure and reliable privacy teletype network was established which ██████████

AG  
██████████ Defense Intelligence Agency and the Joint Task Force together and was netted to a companion structure linking the field units and the Joint Task Force Headquarters. This permitted direct receipt of field requirements, coordinated tasking of the national agencies by the Joint Task Force, and provided rapid integrated responses. This system was highly effective and in a short time became the most effective and most secure means to satisfy, not only intelligence but also operations, logistics and communications actions.

AG  
c. (S) The intelligence staff under Lieutenant Colonel ██████████ guidance continued to improve the quality of support by investigating, testing, refining, and implementing new collection techniques, production and presentation means, faster and simpler reporting procedures and possibly most significant, continually worked to devise new analytical correlation techniques in an effort to improve the reliability of the planning data. Many of the efforts pioneered or improved by Lieutenant Colonel ██████████ staff have been adopted as milestones in the effort of the national intelligence community to support contingency response planning.

A, G

d. An equal number of the intelligence measures developed at the initiative of Lieutenant Colonel [redacted] are being used today to reduce some of the information voids normally faced in certain contingencies. Through the efforts of Lieutenant Colonel [redacted] a whole new family of contingency planning materials was developed and is being used today. This family of situation prepared products combines the mapping and technical capabilities of agencies such as the Defense Mapping Agency Aeronautical, Topographic or Hydrographic Centers with the photointelligence skills of the Defense Intelligence Agency, and in some cases [redacted]

[redacted] and data [redacted] to provide integrated planning products designed to suit the needs of the air, sea or ground contingency planners, as well as the actual maneuver elements.

A, G

e. It was through the persistence and foresight of Lieutenant Colonel [redacted] that several technical collection innovations were taken from concept stage to "in being - on the shelf" where they are now readily available to support contingency collection requirements. It was also through his efforts that not only were improvements and innovations made but some inherent limitations in collection and analysis were recognized and action taken to make intelligence managers and analysts aware of these while efforts are underway to reduce or offset their impact.

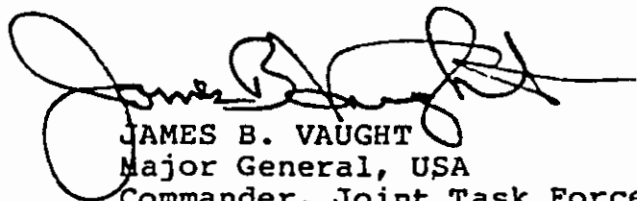

A, G

f. Lieutenant Colonel [redacted] contributions to mission preparedness and security throughout the period of the task force's existence, as well as the long term benefits accrued to the intelligence community and contingency planners, as a result of his efforts, mark him as one of a handful from among hundreds who warrants special recognition for his superior service in a position of significant responsibility.

[redacted]

AG

3. ~~18~~ The distinctive accomplishments of Lieutenant Colonel ██████████ reflect great credit upon himself, the United States Air Force, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

A, G

Lieutenant Colonel [REDACTED] United States Air Force, distinguished himself by exceptionally superior meritorious achievement from 5 November 1979 to 21 December 1980, while serving as the senior Intelligence Officer assigned to a highly select joint task force engaged in an extremely sensitive project of national importance. Throughout the entire period Lieutenant Colonel [REDACTED] continuously demonstrated an exceptionally high degree of professional competence, management ability and dynamic leadership. As the focal point for virtually the entire intelligence effort, he integrated the efforts of the Department of Defense with the national intelligence community. Under his guidance a highly secure and reliable privacy teletype network was established linking all units of the joint task force, to provide a real time flow of data. Lieutenant Colonel [REDACTED] provided the initiative for the marked improvement of intelligence collection techniques, reporting procedures, and most significantly the improvement in the reliability of planning data. Many of the efforts pioneered or improved by Lieutenant Colonel [REDACTED] and his staff have been adopted as milestones in the effort of the national intelligence community to support contingency response planning. Through his efforts a new family of contingency planning materials was developed and is currently in use. Through the persistence and foresight of Lieutenant Colonel [REDACTED] several technical collection innovations were taken from concept stage to "in being - on the shelf" and are readily available to support contingency collection requirements. His contributions to mission preparedness and security will accrue longterm benefits to the intelligence community and contingency planners. The distinctive accomplishments of Lieutenant Colonel [REDACTED] reflect great credit upon himself, the United States Air Force, the Organization of the Joint Chiefs of Staff and the Department of Defense.

MEMORANDUM FOR THE ~~DIRECTOR, JOINT STAFF~~

Subject: Recommendation for Award

Reference: DOD Directive 1348.24

1. (U) Under the provisions of the reference, it is recommended that the following individual be awarded the Defense Superior Service Medal:

*G*  
*AE*

a. (U) Lieutenant Colonel [REDACTED] USAF, [REDACTED]

b. [REDACTED]

c. (U) APO 96274.

d. (U) 11 November 1979 to 29 April 1980.

e. [REDACTED]

f. (U) No other recommendations for awards to this individual are pending and no previous award has been made for the service described herein.

*G*

g. (U) [REDACTED]

*(G)*

2. (U) Lieutenant Colonel [REDACTED], United States Air Force, distinguished himself by exceptionally meritorious achievement from 1 December 1979 to 15 December 1979 to 15 December 1981 while a member of the Joint Task Force responsible to the recovery of American hostages held in Iran.

*A, E, G*

a. (U) Lieutenant Colonel [REDACTED] was responsible for training of [REDACTED] crews to perform the rescue mission. Due to the physical location of the [REDACTED] all guidance and directives concerning training were received AUTOSEVOCOM by Lieutenant Colonel [REDACTED]. Training of aircrews was actually performed [REDACTED] on telephone guidance given Lieutenant Colonel [REDACTED]. On two occasions he commanded deployment of PACAF forces to CONUS to participate in three major exercises and two minor exercises in preparation for the rescue mission. Deployments were flawless and met all

A, G

in-place, dates and times. Under Lieutenant Colonel [redacted] direction, during pre-mission exercises, all [redacted] trained crews performed superbly with 100 percent mission launch and effectiveness achieved.

A, E

b. (U) Upon mission execution, Lieutenant Colonel [redacted] commanded deployment of three MC-130E aircraft to [redacted] on 48-hour notice in preparation for the mission. Deployment included obtaining [redacted] diplomatic clearance and mobilization of all equipment for the base operation at Forward Operating Location Bravo. Deployment required two in-flight, night refuelings per aircraft. All three aircraft departed "on the hock" and closed [redacted] plus or minus 10 minutes of estimated time of arrival [redacted]. He further commanded deployment of PACAF-based forces from [redacted] to Bravo and commanded establishment of the operating location.

G

c. (U) Serving as the single point of contact between US Forces at Bravo and foreign nationals in charge of the physical location, Lieutenant Colonel [redacted] flew as first pilot on Night One operations.

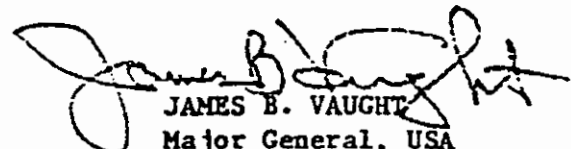

d. (U) Following the emergency evacuation, he served as medical assistant upon arrival of casualty victims at Bravo. All burned victims were prepared for onward movement by C-141 aircraft within one hour of their arrival at Bravo.

A, E

e. (U) He commanded redeployment of all PACAF forces from Bravo to [redacted] and subsequently to home base. Redeployment again required two in-flight refuelings on the 15.7 hour flight.

G

3. (U) In this position of significant responsibility, under hazardous conditions, Lieutenant Colonel [redacted] performed with extraordinary professional competence. The singularly superior and distinctive accomplishments of Lieutenant Colonel [redacted] reflect great credit upon himself, the United States Air Force and the Joint Chiefs of Staff.

~~SECRET~~

pounded by the extremely stringent operational security requirements and the very short period of time allotted for the achievement of force capability.

b. (U) (S) In order to fulfill the mission generated taskings, Lieutenant Colonel Seiffert applied his intimate knowledge of both the H-53 helicopter and the helicopter community in the final selection and training of the joint service crews. Realizing that totally realistic training was a prerequisite to mission success, he outlined an in-depth training program which incorporated a variety of techniques, many of which had been accomplished individually but not collectively. He established a methodical training program based on the development of individual skills which led to crew and force confidence. New techniques were developed in low-level night flying, long-range night navigation, tactical refueling operations, blacked out landings and ground control techniques.

c. (U) (S) Throughout the preparation period, intelligence inputs were constantly changing which required continuous modifications to the helicopter mission and the flight profile. Through Lieutenant Colonel Seiffert's flexible leadership, he was able to incorporate the required modifications into the training program while still maintaining the confidence and positive morale within the helicopter force. Lieutenant Colonel Seiffert demonstrated his abilities and confidence in the helicopter and mission by flying the lead aircraft in all training phases, as well as the flight from the USS Nimitz to Desert One.

d. (U) (S) The new helicopter techniques that were developed and tested under totally realistic and demanding conditions have opened a new era of helicopter operations and have filled a long standing void in tactical employment capability. Lieutenant Colonel Seiffert's helicopter expertise and remarkable leadership weighed heavily on this achievement.

3. (U) By his exemplary performance of duty, Lieutenant Colonel Seiffert has reflected great credit upon himself, the United States Marine Corps, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

Subject: DSSMS: Approval & Processing

1. Normally, all recommendations for DSSM awards go to OSD Military Personnel Division.

- Chief, Mil Pers Div, (COL R.T. Lambert) submits them to OSD Awards Board.
- All DSSM awards (except for General Off) are approved by the Special Asst to SECDEF, Mr. John H. Rixie.
- After approval, OSD Mil Pers Div prepares the awards for presentation (citation, medal, etc) and returns them to originating agency for presentation.

2. Based on my discussion with COL Lambert, he indicated that we have the option of -

Submitting DSSM recommendations directly to Spec Asst to SECDEF.

-- He may approve them outright or board them first.

— Submit them to COL Lambert who will -

- Board the recommendations
- Submit to Spec Asst for approval
- Prepare approved awards (citation, medals, etc) for presentation.
- Return approved awards to JCS for presentation.

3. COL Lambert recommended that the awards be submitted to him first.

-- He will insure expeditious approval and processing. Estimate Time: One week for approval; 2 additional weeks for processing.

DJSM 1211-81  
26 June 1981

THE JOINT STAFF

MEMORANDUM FOR: Colonel (P) P. M. Dawkins, US  
Rear Admiral A. S. Moreau, Jr., USN  
Brigadier General P. M. Smith, USAF  
Major General B. E. Trainor, USMC

Subject: Awards to Hostage Rescue Personnel

1. Reference our discussion during the meeting of the special Awards Review Board on 25 June 1981, attached are three lists of approved awards for actions related to the release of US hostages:

a. Approved Awards to Hostage Rescue personnel (TAB A): These awards included classified awards, posthumous awards, and awards presented to personnel aiding burned victims at Desert ONE. The recipients of these awards were members of the JTF 1-79, and their actions, for which recognized, were directly related to the hostage rescue attempt.

b. Approved Awards to "Operations Planning Group (Iran)" (TAB B): Members of this group participated in the development of a variety of punitive and other measures related indirectly to the hostage situation. The recipients of these awards were NOT members of the JTF 1-79, and their actions, for which recognized, related only indirectly to the hostage rescue attempt. Some personnel did serve on one or more of the Operations Planning Group cells and with JTF 1-79.

c. Awards presented to US military personnel who served as escorts to six military members of the hostage group (TAB C).

2. Also enclosed for your information (TAB D) is an Army information paper on awards approved for participants in other rescue operations (e.g., Song Tay Raid, Mayaguez Rescue Operation).

3. Major General Vaught, as JTF 1-79 Commander, has received 789 recommendations for awards. Of this number, he has, in accordance with the approved Guidelines on Awards, delegated authority to approve 230 recommendations. He has submitted to the Awards Review Board 59 recommendations, and 500 recommendations are being held in abeyance pending the resolution of the Humanitarian Service Award issue.

4. This information is provided to you solely for the purpose of establishing a framework of award actions already taken which relate to the awards now being considered by the Awards Review Board.

THE JOINT CHIEFS OF STAFF  
WASHINGTON D.C. 20301

THE JOINT STAFF

MEMORANDUM FOR THE DIRECTOR, JOINT STAFF

Subject: Recommendation for Award of the Defense Meritorious Service Medal

Reference: DOD Directive 1348.26

1. Under the provisions of the reference, it is recommended that the following individuals be awarded the Defense Meritorious Service Medal for achievement as an exception to policy. These individuals augmented the Operations Planning Group (Iran), Organization of the Joint Chiefs of Staff.

- a. Col [REDACTED] USAF HQ USAF/XOOT
- Col [REDACTED] USAF HQ USAF/AFXOX
- LTC [REDACTED] SMC HQ USAF/AFXOX
- LTC [REDACTED] USA HQ DARCOM
- Maj [REDACTED] USAF USAF [REDACTED]

G  
A

- b. Operations Planning Group, Organization of the Joint Chiefs of Staff.
- c. Staff Officers, Operations Planning Group (Iran).
- d. 5 December 1979 to 25 April 1980.
- e. No other recommendations for awards to these individuals are pending and no previous awards have been made for the service described here.

2. [REDACTED] distinguished themselves by outstanding meritorious achievement during the period 5 December 1979 to 25 April 1980, while serving as Staff Officers attached to the Operations Planning Group (Iran), Operations Directorate, Organization of the Joint Chiefs of Staff.

G

a. ~~During this period, [REDACTED] et al, directed the efforts of a team which conceived, developed, tested (at 5 locations), and deployed three complete weapons systems within 70 days of initial tasking. This effort involved 28 government organizations and 8 contractors and was successfully accomplished only under the most stringent security arrangements.~~

G

~~SECRET~~

G b. Col [redacted] et al, were central to the success of this project. The demands were extraordinary. Security precautions isolated them from many experts usually available to support such efforts. All aspects of the project were exceptionally time sensitive.

G c. Their ability to integrate operational expertise and research and development talents was superb. Throughout the project, Col [redacted] et al, defined the thrust of key decision papers and responded to all queries in an authoritative manner. Their complete mastery of a myriad of technical and operational details was clearly evident and facilitated decisionmaking. Presentations to the Chairman, Joint Chiefs of Staff and other flag/general officers were consistently outstanding.

G d. Through the efforts of Col [redacted] et al, three weapons systems were conceived and deployed that might assist in the US reponse to the situation in Iran. Throughout this period of intense activity, they demonstrated selfless dedication and the highest professional standards. Under the pressure of time sensitive requirements and working with highly compartmented information, they rendered valuable assistance to the Organization of the Joint Chiefs of Staff for which the Defense Meritorious Service Medal is appropriate recognition.

G 3. By their exemplary performance of duty, Col [redacted] et al, have reflected great credit upon themselves, their Services, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

WASHINGTON D.C. 20301

THE JOINT STAFF

MEMORANDUM FOR THE DIRECTOR, JOINT STAFF

Subject: Recommendation for Award of the Joint Service Commendation Medal

Reference: DOD Directive 1348.14

1. Under the provisions of the reference, it is recommended that the following individuals be awarded the Joint Service Commendation Medal for achievement. This recommendation is submitted on individuals who, as requested by the Chairman, Joint Chiefs of Staff, augmented the Operations Planning Group (Iran), Organization of the Joint Chiefs of Staff:

- a. Col [REDACTED] USAF  
Col [REDACTED] USAF  
LtCol [REDACTED] USAF  
LtCol [REDACTED] USAF  
LtCol [REDACTED] USAF  
LtCol [REDACTED] USAF  
LtCol [REDACTED] USAF  
Maj [REDACTED] USAF  
Capt [REDACTED] USAF

b. Operations Planning Group, Organization of the Joint Chiefs of Staff.

c. USAF Joint Staff Operations Officer, Operations Planning Group (Iran).

d. 5 November 1979 to 28 May 1980

e. No other recommendations for awards to these individuals are pending and no previous awards have been made for the service described here.

[REDACTED] distinguished themselves by outstanding achievement from 5 November 1979 through 28 May 1980, while serving as Joint Operations Staff Officers attached to the Operations Planning Group (Iran), Operations Directorate, Organization of the Joint Chiefs of Staff.

~~SECRET~~

~~SECRET~~

G a. During the period Col [REDACTED] et al, through conscientious and dedicated efforts contributed significantly to the overall effectiveness of the Operations Planning Group (Iran), participating tirelessly in the preparation of plans, operations orders, and briefings to the Joint Chiefs of Staff and the National Command Authorities. These actions required a wide range of detailed knowledge of their Air Force specialty, joint activities and sensitive special operations.

G b. Throughout the performance of their duties and exercise of broad responsibilities these officers demonstrated an outstanding ability to respond rapidly and accurately, and to initiate actions that reflected mature and sound judgment. Under the pressure of time-sensitive requirements and working with highly compartmented need-to-know planning information, Col [REDACTED] et al, rendered invaluable and accurate assistance to the Joint Staff.

G 3. Col [REDACTED] et al, consistently demonstrated the highest caliber of professionalism, mature judgment, and devotion to duty. Through their efforts, detailed planning and complex operations were prepared in the attempt to respond to the capture of US hostages in Iran. Throughout this lengthy period of intense activity, they demonstrated selfless dedication to duty and professional competence which exemplify the highest standards.

G 4. By their exemplary performance of duty, Col [REDACTED] et al, have reflected great credit upon themselves, the United States Air Force, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

**REMARKS**

1. PURPOSE. To provide information on the current status of awards processing for personnel involved in the Iran hostage rescue attempt.

2. CURRENT STATUS.

- A special Awards Review Board, established by the JCS approved "Guidelines for Awards,"\* will convene on 23 June 1981 to consider recommendations for recognizing selected personnel (on exceptional basis).
- MG Vaught has informed former JTF 1-79 component commanders of the JCS approved "Guidelines for Awards" and solicited nominations for recognizing their personnel.
- Responses have been received from all except the helicopter detachment commander.
- The approximate number of recommendations which will be submitted for consideration by the Board is currently estimated at 30.
- The award nominations requiring Board action are to be submitted to the Board by 10 June 1981.

c. (U) These guidelines supersede all previous guidelines issued on this subject except those under which awards have already been approved.

4. (U) Awards Review Board

a. ~~(S)~~<sup>(U)</sup> A special Awards Review Board (ARB) for this purpose only is established effective this date to consider recommendations for awards to recognize personnel involved in the Iran hostage rescue attempt.

b. ~~(S)~~<sup>(U)</sup> The membership of the ARB will consist of DEPOPSDEPs, representing each Service. The ARB will be chaired by the Vice Director, Joint Staff. In the absence of the primary member of the ARB, the respective Service will designate an alternate general/flag officer. The Vice Director, Joint Staff, will designate the Secretary of the Board.

c. (U) The ARB will review all recommendations for awards within the purview of these guidelines; will act in advisory capacity to the Director, Joint Staff, on matters relating to the awards; and will be guided by decorations and award standards contained in respective DOD and JCS directives.

5. (U) Category of Personnel to be Recognized

a. (U) The following two categories of personnel involved in the Iran hostage rescue attempt (24-25 April 1980) will be recognized for a Defense or Joint award (see para 6 below):

(1) ~~(S)~~<sup>(U)</sup> Those who entered the Iran air space or were in-country (see para 6b(1) below).

(2) ~~(S)~~<sup>(U)</sup> Those who were on Desert One (see para 6b(2) below).

b. ~~(S)~~<sup>(U)</sup> Personnel other than those included in the two categories above will be considered for a Defense/Joint award on an exceptional basis.

c. (U) This does not preclude the respective Services from recognizing their members with appropriate Service awards for their contribution to the Iran hostage rescue mission and who otherwise do not qualify for DOD/Joint awards under these guidelines.

d. ~~(S)~~<sup>(U)</sup> Personnel involved in follow-on planning and preparation for the Iran hostage rescue (after 25 April 1980) will be recognized by their respective Services as deemed appropriate in accordance with applicable Service regulations and directives on awards and decorations.

6. (U) Categories of Award

a. (U) General. This guidance applies to Defense/Joint awards which have not yet been approved or approved but not presented.

b. (U) The following categories of Defense/Joint awards will be appropriate to recognize personnel involved in the Iran hostage rescue attempt as defined in paragraph 5 above:

(1) <sup>(U)</sup> ~~(S)~~ Humanitarian Service Medal (HSM): Award to all individuals who penetrated the Iran air space or were in-country in April 1980 in support of hostage rescue attempt. The award has been approved by the SECDEF, but not yet presented. A list of nominees will be developed by the COMJTF 1-79 (see para 7 below).

(2) (U) Defense Meritorious Service Medal (DMSM) and Joint Service Commendation Medal (JCSM) (or their Service equivalents):

(a) <sup>(U)</sup> ~~(S)~~ Awards to deserving individuals who were at Desert One in support of the Iran hostage rescue attempt. Each individual case will be considered separately for any one of the above cited awards based on his performance and role in the hostage rescue mission.

(b) <sup>(U)</sup> ~~(S)~~ Personnel other than those at Desert One will be considered for the above cited awards on an exceptional basis.

7. (U) Procedures

a. (U) Recommendations

(1) <sup>(U)</sup> ~~(S)~~ COMJTF 1-79 will make all recommendations for recognizing individuals for their service in support of the Iran hostage rescue attempt up to Desert One irrespective of the level of award and using the guidelines in paragraphs 5 and 6 above. This will include nominees for the already approved Humanitarian Service Award (HSM).

(2) (U) All recommendations will be submitted to respective Service OPSDEPs for screening to insure administrative accuracy of the recommendation and continued eligibility of the nominee.

Instructions for Unit Personnel Officers

RICEBOWL AWARDS

1. Enclosed are the formats for and guidelines for preparation of the RICE-BOWL awards. In sum, if a member of your unit was on the ground at Desert One or penetrated Iranian airspace, he is eligible for a joint award to the DMSM level. Other personnel, or higher joint awards, will be handled on an EXCEPTION basis and reviewed by an Awards Review Board.
2. If the recognition is within MG Vaught's authority to award, the recommending document should be addressed to Commanding General, Joint Task Force. If the Joint award is not within his authority, it should be addressed through MG Vaught to the Director, Joint Staff.
3. No nominating action is required for the Humanitarian Service Medal. However, units are requested to submit a full name line roster of eligible personnel to DAMO-ODSO ASAP. This office will insure that credit is provided to the respective Service MILPO.
4. All nominations will be classified SECRET. An unclassified citation will accompany the original submission.

SNOWBIRD

1. SNOWBIRD awards will be retained by each Service. No joint awards are authorized. However, all nominations for unilateral Service awards will be processed by this office.
2. Army and USAF have jointly agreed to process and award all submissions at Service level. MG Vaught, as JTF Commander, will have the authority to award Service awards up to and including the Meritorious Service Medal equivalent. For awards of a higher category, a special board will be convened in Washington. Each Service will review field nominations for accuracy and records check prior to MG Vaught's completing his review. In this manner, the JTF Commander can insure equity throughout his force.
3. Personnel who participated in both RICEBOWL and SNOWBIRD may be submitted for two separate awards not covering the same time frame.
4. Units making SNOWBIRD recommendations should forward their nominations in accordance with appropriate Service guidelines to this office. For awards within the MSM and below level, MG Vaught will be the approving authority. For higher level awards, MG Vaught will be the recommending authority.
5. It is suggested that the Commander of the next higher unit be provided an opportunity to review the Service submissions if deemed appropriate.

1. ~~(S)~~ On 12 November 1979, the JTF 1-79 was established to plan the rescue of US hostages in Iran and MG Vaught, USA, was designated by verbal orders as the JTF commander.
2. ~~(S)~~ For reasons of operational security, written confirmation of the designation was not issued during the period of US hostage captivity in Iran.
3. ~~(S)~~ Now that the hostages have been released, it is considered appropriate to obtain a written confirmation of the designation of COMJTF 1-79. This will:
  - Facilitate the completion of remaining administrative and personnel actions related to the Iran hostage rescue attempt.
  - Document the appointment of COMJTF 1-79 for military historical purposes.
4. (U) Recommend approval and signature of attached memorandum for record.

c. (U) These guidelines supersede all previous guidelines issued on this subject except those under which awards have already been approved.

4. (U) Awards Review Board

a. ~~(S)~~<sup>(U)</sup> A special Awards Review Board (ARB) for this purpose only is established effective this date to consider recommendations for awards to recognize personnel involved in the Iran hostage rescue attempt.

b. ~~(S)~~<sup>(U)</sup> The membership of the ARB will consist of DEPOPSDEPs, representing each Service. The ARB will be chaired by the Vice Director, Joint Staff. In the absence of the primary member of the ARB, the respective Service will designate an alternate general/flag officer. The Vice Director, Joint Staff, will designate the Secretary of the Board.

c. (U) The ARB will review all recommendations for awards within the purview of these guidelines; will act in advisory capacity to the Director, Joint Staff, on matters relating to the awards; and will be guided by decorations and award standards contained in respective DOD and JCS directives.

5. (U) Category of Personnel to be Recognized

a. (U) The following two categories of personnel involved in the Iran hostage rescue attempt (24-25 April 1980) will be recognized for a Defense or Joint award (see para 6 below):

(1) ~~(S)~~<sup>(U)</sup> Those who entered the Iran air space or were in-country (see para 6b(1) below).

(2) ~~(S)~~<sup>(U)</sup> Those who were on Desert One (see para 6b(2) below).

b. ~~(S)~~<sup>(U)</sup> Personnel other than those included in the two categories above will be considered for a Defense/Joint award on an exceptional basis.

c. (U) This does not preclude the respective Services from recognizing their members with appropriate Service awards for their contribution to the Iran hostage rescue mission and who otherwise do not qualify for DOD/Joint awards under these guidelines.

d. ~~(S)~~<sup>(U)</sup> Personnel involved in follow-on planning and preparation for the Iran hostage rescue (after 25 April 1980) will be recognized by their respective Services as deemed appropriate in accordance with applicable Service regulations and directives on awards and decorations.

6. (U) Categories of Award

a. (U) General. This guidance applies to Defense/Joint awards which have not yet been approved or approved but not presented.

b. (U) The following categories of Defense/Joint awards will be appropriate to recognize personnel involved in the Iran hostage rescue attempt as defined in paragraph 5 above:

(1) <sup>(U)</sup>~~(S)~~ Humanitarian Service Medal (HSM): Award to all individuals who penetrated the Iran air space or were in-country in April 1980 in support of hostage rescue attempt. The award has been approved by the SECDEF, but not yet presented. A list of nominees will be developed by the COMJTF 1-79 (see para 7 below).

(2) (U) Defense Meritorious Service Medal (DMSM) and Joint Service Commendation Medal (JCSM) (or their Service equivalents):

(a) <sup>(U)</sup>~~(S)~~ Awards to deserving individuals who were at Desert One in support of the Iran hostage rescue attempt. Each individual case will be considered separately for any one of the above cited awards based on his performance and role in the hostage rescue mission.

(b) <sup>(U)</sup>~~(S)~~ Personnel other than those at Desert One will be considered for the above cited awards on an exceptional basis.

7. (U) Procedures

a. (U) Recommendations

(1) <sup>(U)</sup>~~(S)~~ COMJTF 1-79 will make all recommendations for recognizing individuals for their service in support of the Iran hostage rescue attempt up to Desert One irrespective of the level of award and using the guidelines in paragraphs 5 and 6 above. This will include nominees for the already approved Humanitarian Service Award (HSM).

(2) (U) All recommendations will be submitted to respective Service OPSDEPs for screening to insure administrative accuracy of the recommendation and continued eligibility of the nominee.

MEMORANDUM

Date 25 March 1981

To: LTG Gast

Subject: Awards Guidelines to JTF Personnel

1. Attached is a revised text of the guidelines based on your conversation with LTG Otis. It provides for (blue marker) -

- MG Vaught making all recommendations.
- Screening by Service OPSDEPs of all nominations.
- MG Vaught, by delegated authority, to approve DMSM and JSCM for personnel at Desert One only.
- DJS, after Board review, to approve DMSMs and JSCMs to personnel NOT at Desert One on exceptional basis.

2. Attached (Tab 2) is also a 2d alternative, which is basically the same as above, except it would give MG Vaught approving authority for all awards (DMSM & JSCM), EXCEPT DMSM for personnel not at Desert 1 "on exceptional basis." The latter would be reviewed by the Board and approved by DJS.

3. Recommend approval of 2d alternative and signature of cover memo to OPSDEPs.

FACT SHEET

SUBJECT: Awards for Hostage Rescue Personnel (U)

BACKGROUND

1. (U) JTF policy on awards to hostage rescue participants subsequent to the aborted attempt has been to defer all action pending the release of all hostages.

- Exceptions were:

- a. (U) Posthumus awards presented to families of members killed in action.
- b. ~~(S)~~<sup>(U)</sup> Selected classified awards.
- c. (U) Awards for aid to burn victims at Desert One.

2. (U) On 27 June 1980, the Director, Joint Staff, approved Defense/Joint awards to twenty individuals who augmented the Operations Planning Group (Iran) during December 79 - April 80 in support of the Iran hostage rescue mission. This group was not an integral part of the JTF-79 planning staff.

3. (U) The Services have submitted to CDR JTF-79 a number of recommendations for awards, but these have been held in abeyance (USAF: 716 awards; other Services: unknown).

4. (U) On 29 July 1980, SECDEF approved award of the Humanitarian Service Medal (HSM) to certain selected individuals who participated in the hostage rescue mission.

- Category of personnel was NOT defined.

- Provisional definition is provided in proposed JCS guidelines. (See para 5 below.)

5. ~~(S)~~<sup>(U)</sup> On 14 Feb 1980, CDR JTF requested the CJCS to:

- Obtain approval from SECDEF to expand the HSM award to include all JTF personnel deployed to support the hostage rescue attempt or those subsequently on follow-on operations.

-- Estimated number of participants: 750.

~~SECRET~~

~~CLASSIFIED BY DIRECTOR, J-3  
DECLASSIFY ON 16 MARCH 1987~~

Declassified by:  
D-DB NMCC  
12 May 92

~~SECRET~~

- Approve the award of the Armed Forces Expeditionary Medal (AFEM) to JTF 1-79 personnel who penetrated the Iranian border and those forward deployed for planned penetration on Day Two.

- Obtain authority to award DMS and JCSM to JTF and JTD members at the discretion of the CDR JTF.

CURRENT STATUS

6. (U) At the request of the Director, J-3, draft guidelines for awards to hostage rescue personnel were developed to be issued by the Director, Joint Staff.

a. (U) The proposed guidelines provide policy guidance, establish an interim Awards Review Board, outline procedures for processing recommendations, and define categories of personnel to be recognized and types of awards deemed appropriate for recognition.

b. (U) The guidelines were staffed with the Service points of contact and CDR JTF (MG Vaught).

c. (U) On 6 March 1981, after incorporating some Service comments, the guidelines were submitted to OPSDEPS for review. (Summary of Service comments in Enclosure.)

- Director, J-3, proposed that the guidelines be discussed in Executive Session with the OPSDEPS.

7. (U) The proposed guidelines provide for three categories of personnel to be considered for recognition:

a. <sup>(U)</sup>~~(S)~~ Personnel who penetrated the Iran air space in support of hostage rescue mission would be awarded HSM.

b. <sup>(U)</sup>~~(S)~~ Personnel, who were on Desert One would be considered for either DMS or JCSM, as appropriate, on a case-by-case basis as determined by the Awards Review Board.

c. <sup>(U)</sup>~~(S)~~ Personnel other than those cited above on an exceptional basis.

**REMARKS**

1. Following the Iran hostage rescue attempt, there have been a number of initiatives taken to provide a fitting recognition for individuals involved in the hostage rescue attempt. With the exception of the posthumous awards and selected classified awards, the JTF policy has been to defer all action until the hostages were returned home.
2. Since the release of the hostages, it is the desire of all concerned to address this matter again.
3. In order to insure uniformity and equity in application of award policy with respect to this special category of awards, the Director, Joint Staff, has requested that general policy guidelines be developed.
  - The proposed guidelines provide policy guidance, establish an interim Awards Review Board, outline procedures for processing recommendations, and define categories of personnel to be recognized and types of awards deemed appropriate for recognition.
5. By attached memorandum, the Director, Joint Staff, will provide OPSDEPS with appropriate guidelines on recognizing participants in the hostage rescue attempt.
6. Recommend signature of the memorandum and approval of the guidelines.

THE JOINT STAFF

MEMORANDUM FOR THE CHAIRMAN OF THE JOINT CHIEFS OF STAFF

Subject: Joint Task Force 1-79 Awards (U)

1. ~~(S)~~ <sup>(U)</sup> Purpose:

- a. ~~(S)~~ <sup>(U)</sup> To obtain approval to award the Armed Forces Expeditionary Medal (AFEM) to those JTF 1-79 personnel penetrating the Iranian border during activities relating to the hostage rescue attempt and to those personnel forward deployed for penetration on Day Two.
- b. (U) To obtain authority to award the Defense Meritorious Service Medal (DMSM) and the Joint Service Commendation Medal (JSCM) to those members of the JTF deserving of such recognition.

2. ~~(S)~~ <sup>(U)</sup> Discussion:

- a. (U) In consonance with OJCS policy for appropriate recognition of those individuals whose meritorious service and achievements are of such a magnitude that clearly place such individuals well above their associates in the performance of duty, the efforts of JTF 1-79 should be acknowledged. To that effect, guidelines have been developed and approved providing for the issuance of awards to include the AFEM, DMSM, and JSCM. Issuance of these awards will provide fitting recognition to the many members of the various Services who distinguished themselves during the long and difficult operations in pursuit of the rescue of the Americans held in Iran.
- b. ~~(S)~~ <sup>(U)</sup> The criteria of DOD Directive 1348.11, 31 Aug 76 (AFEM); 1348.14, 7 Feb 77 (JSCM); and 1348.26, 16 Feb 78 (DMSM) have been met. Applicable time period for the AFEM is 20 Mar 80 - 25 Apr 80.
- c. ~~(S)~~ <sup>(U)</sup> Appropriate awards will be classified Secret to protect individuals/units involved and further similar operations.

3. (U) Recommendation:

- a. ~~(S)~~ <sup>(U)</sup> Approve the award of the Armed Forces Expeditionary Medal (AFEM) to those JTF 1-79 personnel penetrating the Iranian border during activities relating to the hostage rescue attempt and to those personnel forward deployed for penetration on Day Two.
- b. (U) Delegate authority to the Commander, JTF, to award the Defense Meritorious Service Medal (DMSM) and the Joint Service Commendation Medal (JSCM) to those members of the JTF deserving of such recognition.

JTF AWARD SUMMARY

1. JTF policy with regard to awards had been to defer all action until the hostages returned home. There have been some necessary exceptions to this (Attached summary):

- Posthumous awards were presented to the families of those killed in action.
- A few other awards were approved and awarded on a special case basis. (Our desires are to release all subsequent awards at the same time.)

2. Some recommendations were submitted for consideration in July, have been held in abeyance. Breakout is as follows:

United States Air Force

1 SOW:                    Defense Superior Service Medal                    3  
                                  Defense Meritorious Service Medal                137  
                                  Joint Service Commendation Medal                286

Units Directly Supporting 1SOW:

                                 Defense Superior Service Medal                    1  
                                  Defense Meritorious Service Medal                51  
                                  Joint Service Commendation Medal                75

MAC

                                 Defense Superior Service Medal                    1  
                                  Defense Meritorious Service Medal                27  
                                  Joint Service Commendation Medal                45

United States Army

                                 Defense Superior Service Medal                    1  
                                  Defense Meritorious Service Medal                2  
                                  Joint Service Commendation Medal                7

(No submissions from the Navy/Marine Corps.)

3. Future action. Proposed guidelines, upon approval, will be provided to JTF component commanders for submission of additional award recommendations as necessary.

4. Timing. Finalization and issuance of JTF guidelines is expected by 20 Feb. Return paperwork could be reasonably expected within 30 days. All action on the matter could be concluded by 1 May.

AWARDS FOR JTF ACTIVITY, OPERATION RICEBOWL

1. The following proposed guidelines for JTF awards are submitted. These guidelines are general in nature and are not intended to change the component commander's prerogative for selection of award conditions for his personnel. Further, it is not intended that previously established award conditions be discontinued. For purposes of awards criteria, the Iran Hostage Crisis, 4 Nov 79 - 20 Jan 81, is considered a single campaign. (This criteria is for award guidelines only and does not apply to hostile fire pay or other combat related benefits as under control by their offices.)

A. Armed Forces Expeditionary Medal

- (u) 1) Award to all JTF personnel penetrating the Iranian border in support of the hostage rescue attempt.
- 2) Award to those JTF personnel forward deployed for penetration on Day Two.

B. Humanitarian Service Medal Award to the entire JTF as recommended by the JTF commander. For guideline purposes the JTF will be defined as:

- 1) Those personnel who deployed from COMUS or their overseas home base in support of Ricebowl.
- 2) Those personnel who deployed from home base on post-Ricebowl.
- 3) The JTF Staff.

C. Joint Service Commendation Medal

- (u) 1) Award to those personnel not being recommended for the MSM who penetrated Iranian airspace in the execution of Ricebowl.
- 2) Award to members of the JTF Staff as per the attached list.

D. Defense Meritorious Service Medal

- (u) 1) Award to JTF component commanders and above, Operations Officers and aircrew members who penetrated Iranian airspace in the execution of Operation Ricebowl.
- 2) Award to those component commanders forward deployed for penetration on Day Two.
- 3) Award to members of the JTF Staff as per the attached list.

E. Defense Superior Service Medal

(u) At the discretion of the JTF Commander, award to those members of the JTF exhibiting superior meritorious service in a position of significant responsibility.

MEMORANDUM FOR Assistant Secretary of the Army (MGRA)  
Assistant Secretary of the Navy (MAAGL)  
Assistant Secretary of the Air Force (MRAFI)

SUBJECT: Humanitarian Service Medal

The Secretary of Defense has approved award of the Humanitarian Service Medal for certain select individuals who participated in the attempted rescue of United States hostages being held in Iran.

Inasmuch as this operation was under the direct control of the Joint Chiefs of Staff, the OJCS Military Personnel Branch will be in direct contact with the Military Services for appropriate administrative inclusion of the award approval in the records of affected personnel.

THE JOINT STAFF

23 May 1980

MEMORANDUM FOR THE SECRETARY OF DEFENSE

Through the Chairman of the Joint Chiefs of Staff *dfj*

Subject: Recommendation for Award of the Humanitarian Service Medal--Decision Memorandum

1. Purpose: To obtain approval for the award of the Humanitarian Service Medal (HSM) to all Joint Task Force Personnel who penetrated Iranian airspace on the night of 24-25 April 1980.

2. Discussion:

a. The JTF Commander recommends that the HSM be approved for all JTF personnel who were in Iran the night of 24-25 April 1980. This is in keeping with the President's stated humanitarian aspects of the operation.

b. The criteria of DOD Directive 1348.25, 23 June 1977 have been met:

Operation: Attempted rescue of U.S. hostages in Iran  
Period: The night of 24-25 April 1980  
Humanitarian Aspects: Support provided to the National Command Authorities to obtain the release of American hostages from Iranian control.

Unit Participating: Joint Task Force 1-79  
Number of Participants: Estimated 200  
Request for assistance: The President directed a humanitarian mission to rescue U.S. hostages in Iran

c. All awards will be classified Secret to protect the individuals, units involved and future operations.

3. Recommendation: That the attempted rescue of American hostages be approved as qualifying for the award of the Humanitarian Service Medal.

THE JOINT STAFF

MEMORANDUM FOR MAJOR GENERAL VAUGHT

Subject: Recommendations for Awards

1. On <sup>(J)</sup>17 April 1981, CDR ISOW submitted to OJCS a recommendation for awards (JSCM) for 18 servicemen (attached).

- Administratively, they were attached to RADM Fuller's special projects team in OPG, OJCS.
- Physically, they operated in the field conducting tests on special weapons.

2. These recommendations were held in abeyance pending the approval of JCS Guidelines on Awards to personnel participating in the hostage rescue attempt.

- The approved Guidelines do not specifically address RADM Fuller's team.
- 20 members of that team, operating in OPG, received awards on 27 June 1980, and were processed through regular JCS Awards Board.
- There is nothing in the approved Guidelines which would preclude consideration of the 18 nominations with other recommendations submitted to COMJTF 1-79.

3. The following are two alternative ways to consider these 18 recommendations:

a. Include the 18 names with other nominations and submit them to the special Awards Review Board "on exceptional basis" (Guidelines, para 5b).

b. Return nominations to DAS, OJCS to be processed through normal JCS awards procedures.

-- The latter would require prior coordination with LTG Gast and/or MG Dyke.

c. Refer nominations to respective Services for Service awards.

4. I will be glad to be of any assistance on this matter, if required.

7G  
2. Colonel ██████████ United States Army, distinguished himself by superior meritorious service from 15 August 1977 to 30 March 1981 while serving initially as a member of the Special Plans Branch and then as Chief, Unconventional Warfare Branch, Special Operations Division, Operations Directorate, Organization of the Joint Chiefs of Staff.

7G  
a. During this period, Colonel ██████████ demonstrated continuing outstanding performance while serving at the highest military organizational level for special planning, unconventional warfare programs and special operations. His in-depth knowledge and experience in special operations and his broad understanding of the sensitivities of politico-military affairs as well as the intricacies of the interface between agencies and departments of the Executive Branch of government allowed him to direct sensitive actions of great import which have had profound impact on the national posture for conduct of special operations.

6  
b. Colonel ██████████ as a senior special planner within the Organization of the Joint Chiefs of Staff, revitalized the special plans program within the Department of Defense and at the national level and thus enhanced a sensitive effort with major implications for national security. He proceeded with dedication and persistence to many quarters, building interest and proving the potential and worth of special plans programs until he succeeded in stimulating interest at the highest levels within the Department of Defense and ultimately within the interdepartmental forum. This led to unprecedented recognition of the value and opportunities for shoring up US security through special plans activities. His endeavors in this regard resulted in the ultimate formulation of a multi-agency structure and system for management of special planning operations which are functional today at the national level.

G  
c. Colonel ██████████ had particular far-reaching impact on national and theater strategy, and preparedness to respond to any level of conflict through his masterful management of key portions of the Joint Planning System. As a principal war planner within the Special Operations Division, he had primary responsibility for processing of countless Joint Staff planning actions. Typical of these actions was his consistently outstanding performance as the primary manager of Annex K, Deception, Joint Strategic Capabilities Plan, through which he provided planning guidance and tasking to the unified and specified commands and the Services. He further excelled and provided pertinent guidance and revisions as the reviewer of JCS plans and all special planning portions of unified and specified command concept plans and operation plans.

~~SECRET~~

~~CONFIDENTIAL~~

AG

d. Colonel [redacted] excelled as he personally directed key Joint Staff special planning efforts. He was the primary planner and supervisor for several extremely sensitive, compartmented planning ventures which are active and which have profound significance for the nation. Further, Colonel [redacted] improved the status of special planning capabilities by initiating and continuing exercise special planning activities in Joint Training Exercises which served as excellent training vehicles for special planners of the Services, the unified and specified commands, and the Joint Staff.

AG

e. Colonel [redacted] contributed significantly to worldwide management of special planning through his excellent management of a special plans focal point communication system for the Organization of the Joint Chiefs of Staff. In this capacity, he insured that accessible, responsive, secure, compartmented communications with the unified and specified commands and the Services were available.

AG

f. Upon assignment as [redacted] Unconventional Warfare Branch, Colonel [redacted] served with distinction as he continued to be involved in the Joint Planning System with emphasis on national and theater strategies and policies for the conduct of unconventional warfare and special operations. He was the primary Joint Staff officer for unconventional warfare matters and accordingly was involved with the successful processing of hundreds of joint staff actions. He was an outstanding organizer and manager who directed all actions and projects to fruition. Typical of the many actions which he handled masterfully were the annual publication of Annex E, Unconventional Warfare, Joint Strategic Capabilities Plan; publication of a draft publication for Survival, Evasion, Resistance, Escape and Recovery, and the origination of an organizational concept for rapid deployment forces.

AG

g. Colonel [redacted] was a superb planner and had primary responsibility for the development of both operational concepts and plans for special operations. He also authored select portions of OJCS contingency plans. During the first Iranian crisis he supervised the Special Operations Center and directed planning efforts for the Chairman, Joint Chiefs of Staff in consonance with planners from the European Command.

AG

h. Colonel [redacted] as [redacted] Unconventional Warfare Branch, excelled as the central manager for all focal point communication systems for the Organization of the Joint Chiefs of Staff. In this area of responsibility, he insured that accessible, responsive, secure, compartmented communications with the unified and specified commands and the Services were available both during daily operations and crises.

~~SECRET~~

7  
9  
i. Colonel [REDACTED] was an accomplished lecturer, briefer and instructor. He served as a primary briefer for special operations matters and actions and accordingly, frequently briefed concepts and plans to the Joint Chiefs of Staff, the Secretary of Defense and other key government figures. He presented highly professional lectures to planning groups and members of military courses of instruction. During the OJCS Special Operations Symposium at Fort Bragg, NC, he gave an extremely fine presentation on Special Operations Planning to 300 symposium attendees.

7  
9  
j. Colonel [REDACTED] performance was distinctively outstanding while he supervised an OJCS study group in response to a Secretary of Defense directed study of "Special Operations Forces in Europe." During this endeavor, he excelled as he rapidly coordinated the efforts of representatives from EUCOM and the Services, developed a study plan, conducted a literature search, developed a milestone schedule, supervised study efforts and analysis, collated inputs and prepared a study briefing as well as a final written report. The study report accurately portrayed missions, roles, and capabilities of forces in the European environment and served as a basis for upgrading the special operations force structure in response to mission requirements.

7  
9  
k. Colonel [REDACTED] was selected, because of extensive special operations experience and his unique organizational and leadership talents, to develop the initial concepts and subsequently to serve as [REDACTED] of the Joint Task Force Headquarters for Iranian hostage rescue planning. He excelled in all facets of this assignment. He is an innovative, thorough planner who developed logical, executable plans and briefed them clearly and flawlessly to representatives of the highest levels of US Government. He is a tough-minded, incisive, considerate leader who tenaciously sought mission accomplishment while concomitantly looking out for the interests and welfare of subordinates. He is adept at translating broad, general guidance into detailed, high-quality plans and did so frequently. He is an organizer, with few equals, who was able to weld an informally structured provisional group of personnel into a staff with formidable qualifications which produced consistently outstanding products. He is a skilled trainer who combined in-depth tactical expertise with charismatic leadership qualities and was able to evaluate, and improve unit capabilities. He evidenced repeatedly that he is calm, unruffled and capable of reasoned, logical decisions during the most challenging high-stress situations.

~~SECRET~~

~~CONFIDENTIAL~~

~~SECRET~~

1. During the latter phase of Colonel ██████ assignment, he was tasked to quickly recruit, organize, field and train an ad hoc unit to execute a highly sensitive special operation in support of a national-level undertaking. Beginning with nothing more than a concept, he recruited a staff and operational personnel; acquired a secure training site; procured the required weapons, equipment and rations; and launched a demanding training program. Within 90 days of receiving his initial tasking, Colonel ██████ launched his first operation. Problems that would have completely stymied most officers were managed routinely by this innovative and imaginative officer.

m. Colonel ██████ was a uniquely successful action officer and ██████ and an outstanding member of the Joint Staff. He trained and guided subordinates and insured that they attained the highest levels of efficiency and productivity. He displayed a unique ability to direct and coordinate complex staff actions and to produce quality staff products to include key plans and important publications. His genuine professionalism, complete dedication to duty, and personal standards of excellence have resulted in extensive contributions to the Joint Staff mission which will have lasting significance to the nation.

3. The distinctive accomplishments of Colonel ██████ reflect great credit upon himself, the United States Army, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

MEMORANDUM FOR THE DIRECTOR, JOINT STAFF

10 JUN 1981

Subject: Recommendation for Award

Reference: DOD Directive 1348.24

1. (U) Under the provisions of the reference, it is recommended that the following individual be awarded the Defense Superior Service Medal:

a. Colonel Robert C. Dutton, United States Air Force, [REDACTED]

b. Joint Task Force 1-79, OJCS.

c. [REDACTED]

d. 19 November 1979 to 15 December 1980.

e. HQUSAF/XOXJ, Pentagon.

f. No other recommendations for awards to this individual are pending and no previous award has been made for the service described herein.

g. Previous US decorations: DFC(2 olc), DMSM, AM(10 olc), MSM, AFCM(1. olc).

2. (U) Colonel Robert C. Dutton, United States Air Force, distinguished himself by exceptionally superior service as Special Assistant to the Commander and J3 during the period of 19 November 1979 to 15 December 1980, while assigned to the Joint Task Force responsible for the recovery of US hostages held in Iran.

a. (U) Initially assigned as Special Assistant to the Commander, Colonel Dutton provided exceptionally incisive and accurate analysis of Iranian conditions due to his personal knowledge of in-country conditions. Colonel Dutton provided a breadth of political information, personality insight and definitive military information that was of extraordinary value to task force planners.

b. (U) Colonel Dutton next assisted in the development of mission flight profiles for both fixed and rotary wing assets. Colonel Dutton developed

planning factors and profile parameters that greatly eased pilot procedures and insured a high degree of assurance that the force could navigate the course with minimal risk of detection. Additionally, Colonel Dutton personally designed and put together the pilot mission book that was a critical tool on the actual mission.

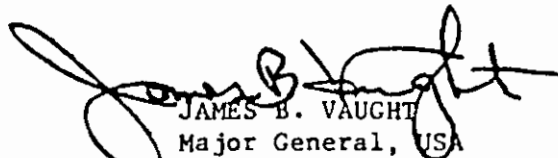

~~1/16~~  
c. (U) (S) Participating in all training phases, Colonel Dutton provided exceptionally valuable advice and recommendations to the task force. Drawing upon his long experience in special operations, he was able to initiate several key adjustments to flight training and support that significantly enhanced task force readiness.

~~1/16~~  
d. (U) (S) During the actual rescue mission, Colonel Dutton, as Task Force J3, was responsible for the conduct of the Tactical Operations Center within the Pentagon. As such, he smoothly managed a large number of people, a myriad of communications equipment and an extraordinary diversity of tasks. During periods of exceptional stress and sensitivity, Colonel Dutton consistently remained calm and professional and was of immeasurable assistance to the many very senior officers and civilians present.

~~1/16~~  
e. (U) (S) Upon task force recovery, Colonel Dutton designed the redeployment plan and the initial reconstitution training program. These were essential elements in the ability of the force to gain mission-ready status in a very short period of time.

~~1/16~~  
f. (U) (S) Throughout the period of this recommendation, Colonel Dutton presented briefings of an exceptionally high standard. Colonel Dutton routinely presented briefings to the Chairman, Joint Chiefs of Staff, the Joint Chiefs, Operations Deputies and numerous civilians in positions of great responsibility. His briefings were always of the highest quality and significantly contributed toward the decision-making process.

~~1/16~~  
3. (U) Colonel Dutton's distinguished performance of duty throughout his service reflects great credit upon himself, the United States Air Force, the Joint Chiefs of Staff, and the Department of Defense.

TO

ROBERT C. DUTTON

Colonel Robert C. Dutton, United States Air Force, distinguished himself by exceptionally superior service during the period 17 November 1979 to 15 December 1980 as a key member of the staff of the Joint Task Force charged with the responsibility for recovery of the US citizens held in Iran. Colonel Dutton, serving as Special Assistant to the Commander and then as Task Force J3, provided exceptionally valuable advice and assistance to National Command Authorities and the Commander, Joint Task Force 1-79. Colonel Dutton developed mission profile pilot books, training techniques and other mission tools to both fixed and rotary wing forces. His incisive knowledge of internal Iranian conditions was invaluable in mission planning. As an extraordinarily talented briefer, Colonel Dutton's presentations to senior leaders were key factors in the very sensitive decision making required. Colonel Dutton's distinguished performance of duty reflects great credit on himself, the United States Air Force, the Joint Chiefs of Staff, and the Department of Defense.

~~SECRET~~  
~~SECRET~~

2. (S) Lieutenant Colonel ██████████ United States Air Force, distinguished himself by exceptionally, superior meritorious achievement and dedication to duty from 5 November 1979 to 21 December 1980, while serving as the senior Intelligence Officer assigned to the Joint Task Force charged with the rescuing the American hostages held in Iran.

A G

a. Throughout the entire period, Lieutenant Colonel ██████████ continuously demonstrated an exceptionally high degree of professional competence, management ability and dynamic leadership. As the principal intelligence advisor to the Commander of the task force, he served as the focal point for virtually the entire intelligence effort. Lieutenant Colonel ██████████ due to his wide intelligence and operational background, was able to anticipate most of the requirements necessary to support both the mission planners and the deployed combat and combat support. He integrated the efforts of the Department of Defense, with the national intelligence community and consistently obtained high quality support.

A G

b. Under Lieutenant Colonel ██████████ guidance a highly secure and reliable privacy teletype network was established which ██████████

A, C, G

██████████ Defense, Intelligence Agency and the Joint Task Force together and was netted to a companion structure linking the field units and the Joint Task Force Headquarters. This permitted direct receipt of field requirements, coordinated tasking of the national agencies by the Joint Task Force, and provided rapid integrated responses. This system was highly effective and in a short time became the most effective and most secure means to satisfy, not only intelligence but also operations, logistics and communications actions.

c. The intelligence staff under Lieutenant Colonel ██████████ guidance continued to improve the quality of support by investigating, testing, refining, and implementing new collection techniques, production and presentation means, faster and simpler reporting procedures and possibly most significant, continually worked to devise new analytical correlation techniques in an effort to improve the reliability of the planning data. Many of the efforts pioneered or improved by Lieutenant Colonel ██████████ staff have been adopted as milestones in the effort of the national intelligence community to support contingency response planning.

A G

d. An equal number of the intelligence measures developed at the initiative of Lieutenant Colonel [redacted] are being used today to reduce some of the information voids normally faced in certain contingencies. Through the efforts of Lieutenant Colonel [redacted] a whole new family of contingency planning materials was developed and is being used today. This family of situation prepared products combines the mapping and technical capabilities of agencies such as the Defense Mapping Agency Aeronautical, Topographic or Hydrographic Centers with the photointelligence skills of the Defense Intelligence Agency, and in some cases the [redacted] and data [redacted] to provide integrated planning products designed to suit the needs of the air, sea or ground contingency planners, as well as the actual maneuver elements.

C, G

e. It was through the persistence and foresight of Lieutenant Colonel [redacted] that several technical collection innovations were taken from concept stage to "in being - on the shelf" where they are now readily available to support contingency collection requirements. It was also through his efforts that not only were improvements and innovations made but some inherent limitations in collection and analysis were recognized and action taken to make intelligence managers and analysts aware of these while efforts are underway to reduce or offset their impact.

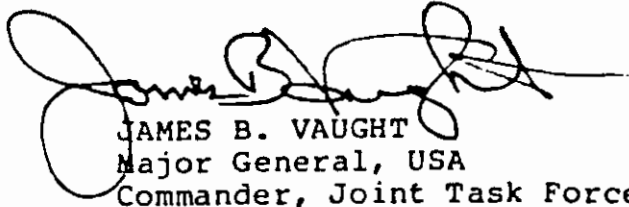

A, G

f. Lieutenant Colonel [redacted] contributions to mission preparedness and security throughout the period of the task force's existence, as well as the long term benefits accrued to the intelligence community and contingency planners, as a result of his efforts, mark him as one of a handfull from among hundreds who warrants special recognition for his superior service in a position of significant responsibility.

A G

A, G

3. (U) The distinctive accomplishments of Lieutenant Colonel [redacted] reflect great credit upon himself, the United States Air Force, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

Lieutenant Colonel [REDACTED] United States Air Force, distinguished himself by exceptionally superior meritorious achievement from 5 November 1979 to 21 December 1980, while serving as the senior Intelligence Officer assigned to a highly select joint task force engaged in an extremely sensitive project of national importance. Throughout the entire period Lieutenant Colonel [REDACTED] continuously demonstrated an exceptionally high degree of professional competence, management ability and dynamic leadership. As the focal point for virtually the entire intelligence effort, he integrated the efforts of the Department of Defense with the national intelligence community. Under his guidance a highly secure and reliable privacy teletype network was established linking all units of the joint task force, to provide a real time flow of data. Lieutenant Colonel [REDACTED] provided the initiative for the marked improvement of intelligence collection techniques, reporting procedures, and most significantly the improvement in the reliability of planning data. Many of the efforts pioneered or improved by Lieutenant Colonel [REDACTED] and his staff have been adopted as milestones in the effort of the national intelligence community to support contingency response planning. Through his efforts a new family of contingency planning materials was developed and is currently in use. Through the persistence and foresight of Lieutenant Colonel [REDACTED] several technical collection innovations were taken from concept stage to "in being - on the shelf" and are readily available to support contingency collection requirements. His contributions to mission preparedness and security will accrue longterm benefits to the intelligence community and contingency planners. The distinctive accomplishments of Lieutenant Colonel Lenahan reflect great credit upon himself, the United States Air Force, the Organization of the Joint Chiefs of Staff and the Department of Defense.

planners as well as the Army, Navy, Air Force, and Marine operational elements that were involved in the field tests.

a. <sup>(U)</sup><sub>(S)</sub> The various components of the system often required compatibility redesign and fabrication at a military depot, R&D facility or civilian engineering laboratory. Due to Lieutenant Colonel [REDACTED] wide practical experience and tremendous grasp of the technical complexities of the constantly evolving commercial state of the art, he was highly successful in obtaining the professional cooperation and personal dedication of many of the leading innovators from this wide spectrum of the electronic communications community. Because of his dedication and ability to solicit this type of support he was able to arrange for RCA and Magnavox engineers to work together with General Electric transistor designers to develop and perfect a system that combined the best attributes of each.

b. <sup>(U)</sup><sub>(S)</sub> A major area of concern was the need to design an antenna which was compatible with the existing radio wiring networks of different Army, Air Force, and Marine helicopters, as well as being hatch mountable and compatible with several models of the C-130 and C-141 aircraft. Working with a composite team of aircraft crew chiefs and radio men, as well as air flow turbulence engineers, Lieutenant Colonel [REDACTED] was able to coordinate the design and fabrication of an antenna that was compatible to all the air frames desired and exceeded the range and fidelity thresholds essential to both the strategic planners and tactical users.

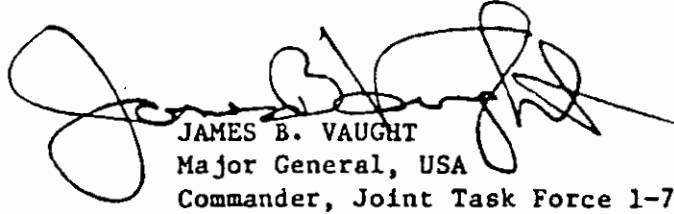

c. <sup>(U)</sup><sub>(S)</sub> The consummate proof of Lieutenant Colonel [REDACTED] accomplishments was repeatedly validated in a series of intentionally demanding field tests and the faultless performance of the tactical strategic interface network during several foreign area deployments in support of the task force.

d. <sup>(U)</sup><sub>(S)</sub> Many of the capabilities developed or upgraded through the efforts of Lieutenant Colonel [REDACTED] have since been fully accepted and incorporated into the communication TUE of many of the Special Operations and Quick Reaction Forces of the Army, Air Force, and Marines with a significant spinoff also being adopted by the Strategic Air Command to provide a secure voice link between the bombers and tankers of its newly constituted strategic reaction force. The results of Lieutenant Colonel [REDACTED] effort will continue to have a beneficial impact on the tactical communications community for many years to come.

AG

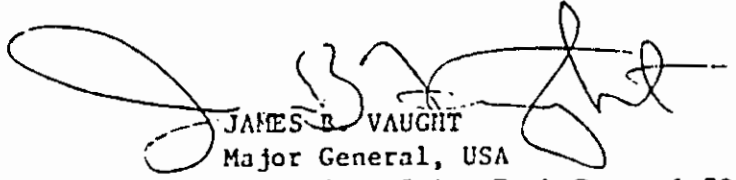

b. (S) Lieutenant Colonel [redacted] significantly assisted in the development of the control techniques for the helicopter and fixed wing penetration in conjunction with the refueling and laager phases. Faced with no clear means to insure that the aviation assets and fuel supplies come together with assured success, Lieutenant Colonel [redacted] worked with the USAF CCT element, helo pilots and USAF aviators to design an infiltration concept that was ultimately used on the actual mission. This concept was critical in that it provided a high degree of confidence for the Task Force that it could navigate to the refuel point, transload fuel and move to the laager site within the constraints of fuel and darkness.

AG

c. (S) As field liaison officer for the JTF, Lieutenant Colonel [redacted] was responsible for training site selection, coordination of base support and liaison with separate Services. As such, he made numerous field trips to potential sites and made recommendations to the Task Force Commander critical to Force training and OPSEC. Upon final site selection, Lieutenant Colonel [redacted] moved to the training area and acted as principal task force support agent. This required him to coordinate for all logistic support as well as for normal training coordination. As the force was composed of helicopter, fixed wing and ground elements, the requirements were diverse and complex. His personal attention to detail and disregard for personal concerns in large measure accounted for the successful training of the force.

AG

d. (S) In addition to the duties discussed above, Lieutenant Colonel [redacted] served as a primary briefing officer for the Task Force. He assembled highly complex briefings with exceptional graphic aids on very short notice to a myriad of distinguished senior decision makers both uniformed and civilian. His presentations were very cogent, highly professional and very valuable in the overall decision-making process. Lieutenant Colonel [redacted] distinguished performance of duty reflects credit upon himself, the United States Army and the Joint Chiefs of Staff.

10

2. ~~(S)~~ Captain Maynard R. [redacted] United States Navy, distinguished himself by exceptionally meritorious achievement during the period 5 November 1979 to 27 April 1980, while serving as the J-3 assigned to the Joint Task Force charged with rescuing the American hostages held in Iran.

A, G

a. ~~(S)~~ During the period, Captain [redacted] displayed outstanding performance and total dedication while applying his in-depth knowledge and experience in special operations to the planning, training and conduct of the rescue mission. As one of the three original planners, Captain [redacted] remained with the Joint Task Force from its inception, deployed with the command headquarters and monitored redeployment of forces after mission execution.

A, G

b. ~~(S)~~ As the Joint Task Force J-3, Captain [redacted] was responsible for the analysis of historical, as well as constantly changing current data, the formulation of mission options and plans, and the development of training scenarios and schedules to accomplish the rescue mission. Initially, confronted with what appeared to be a virtually impossible situation, Captain [redacted] drew upon his total working knowledge and control of a full range of both ground and airborne operations, plus helicopter and fixed wing air operations, to analyze potential actions. He translated a myriad of proposals into logically stated options which were analyzed in detail and presented in a manner easily understood by individual unit commanders. He was faced with the unenviable task of coordinating the interface between units at a minimum of three separate locations spread over thousands of miles. His training exercises brought hundreds of personnel over these long distances to meet in rehearsals that revolved around timing measured in seconds.

A, G

c. ~~(S)~~ Throughout the entire endeavor, Captain [redacted] professionally handled the multitude of diverse requirements generated by the numerous operational techniques and capabilities which arose on an almost daily basis. His ability to prioritize daily requirements proved tremendously beneficial to the orderly flow of mission planning.

A, G

d. ~~(S)~~ Captain [redacted] not one to levy requirements without follow up, spent a considerable portion of his time in the field with the training units, where he evaluated training techniques, unit progress and provided real time feedback. His positive, professional conduct instilled confidence in individual units and provided a stability to both the staff and individual units during the rapidly changing environment.

A, G

~~SECRET~~

e. ~~(S)~~ During the forward deployment, Captain [redacted] virtually worked around the clock to insure that mission elements received the most current requirements at the deployed sites. He also provided the critical link to the Joint Task Force Headquarters (Rear) and thus to the highest Defense Department officials.

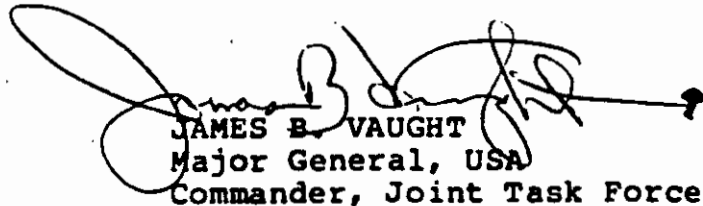

AG

f. ~~(S)~~ Captain [redacted] contributions had an extremely significant effect on the mission training and execution, and even more importantly will have a profound effect on future operational capabilities of the Special Operations Community.

AG

3. ~~(S)~~ The distinctive accomplishments of Captain [redacted] reflect great credit upon himself, the United States Navy, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

Captain ~~CONFIDENTIAL~~ United States Navy, distinguished himself by meritorious achievement from 5 November 1979 to 27 April 1980, while serving as the J-3 assigned to a highly select joint task force engaged in an extremely sensitive project of high national importance. Captain ~~CONFIDENTIAL~~ displayed outstanding performance and total dedication while applying his in-depth knowledge and experience in special operations to the planning, training and conduct of the mission. He was confronted with analyzing a myriad of constantly changing data from which he formulated mission options and plans then developed training scenarios and schedules to accomplish necessary objectives. Not one to simply levy requirements, Captain ~~CONFIDENTIAL~~ spent many long hours in the field with the training units where he evaluated training techniques, unit progress and provided real time feedback. His positive, professional conduct instilled confidence in individual units and provided stability to both the staff and units which were operating daily in a rapidly changing environment. Captain ~~CONFIDENTIAL~~ contributions had an extremely significant effect on the mission and future capabilities of the Special Operations Community. The distinctive accomplishments of Captain ~~CONFIDENTIAL~~ reflect great credit upon himself, the United States Navy, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

~~SECRET~~  
2. Chief Petty Officer [REDACTED] United States Navy, distinguished himself by meritorious achievement from 4 November 1979 to 27 April 1980, while serving as the Senior Operations Petty Officer and Administrative Assistant for the Joint Task Force assigned the mission of rescuing the American hostages held in Iran:

A, G  
a. [REDACTED] During this period, Chief [REDACTED] demonstrated total dedication and outstanding, unselfish performance through the application of his superb operational and administrative skills and outstanding personal contribution in support of the Commander and the entire Joint Task Force staff. This support covered all facets of the mission, and transcended all possible requirements normally expected of one individual.

A, G  
b. [REDACTED] Initially tasked to provide basic administrative support to a small staff, Chief [REDACTED] immediately established a system, to include office supply support, which provided superb clerical and typing support to this group. As the tempo of operations and the size of the staff increased, to eventually include three General/Flag officers, he soon began to fill a myriad of tasks. Being a thorough, imaginative, responsive professional who anticipates requirements, Chief [REDACTED] foresaw the need for an independent administrative control system for the Joint Task Force. He then established and maintained such a system which provided for the control, filing and rapid retrieval of numerous, extremely sensitive papers and documents, many of which were to become vital reference items in the rapidly changing planning and training environment. Throughout the period he additionally filled the positions of receptionist and security monitor. Realizing the sensitivity of the mission required a means of access control, Chief [REDACTED] exhibited his initiative by devising a badge control system which readily identified properly cleared personnel. He additionally provided a daily updated roster to ensure proper access control.

A, G  
c. [REDACTED] In association with operational duties, Chief [REDACTED] spent long hours laboring over the preparation of maps, charts, plans, orders, messages and data books, while being frequently plagued with last minute changes. On a routine basis he assisted with briefings for the Chairman, Joint Chiefs of Staff, the Joint Chiefs of Staff, the Secretary of Defense and other key civilian dignitaries within the U.S. Government. As the senior enlisted member of the Joint Task Force, Chief [REDACTED] also served with distinction as the supervisor, trainer and counsellor for other enlisted operations personnel.

~~SECRET~~

d. ~~ST~~ During the force forward deployment, Chief [redacted] continued to provide superb operational and administrative support, continuity, and a sense of order as he had previously done during the complex, rapidly changing, high stress situations. Being intimately familiar with the inner workings and personalities within the task force staff he provided a vital link in the control and dissemination of information within the forward deployed staff and dispersed elements. This was vividly evident during the operation, when Chief [redacted] insisted that a precisely accurate roster of all personnel be completed for all forward operating personnel; an action which proved most beneficial during the first few hours following the mission abort.

A, G

e. ~~ST~~ Chief [redacted] unselfish attitude was vividly demonstrated when, during the Thanksgiving and Christmas holidays, knowing that the work requirements precluded the Joint Task Force staff personnel from having holiday meals with their families, he, with the support of his wife, brought complete multi-course meals into the work area. The tremendously positive impact on morale need not be reiterated.

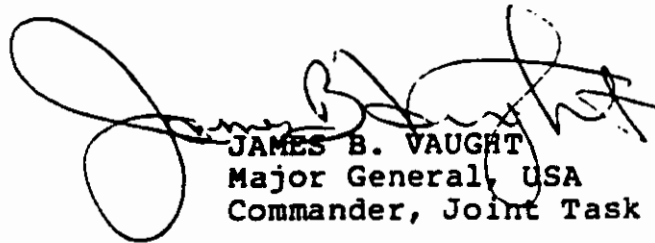

A, G

f. Chief [redacted] without fail provided that behind the scene support that became so vital to mission fulfillment. The frequency of the phrase "Ask the Chief" became a hallmark of his long hours of effective and productive efforts.

A, G

3. ~~ST~~ The distinctive accomplishments of Chief Petty Officer [redacted] reflect great credit upon himself, the United States Navy, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

2. Colonel ██████████ United States Air Force, distinguished himself by meritorious achievement from 14 November 1979 to 28 August 1980, while serving as the senior Communications Advisor to the Commander of the Joint Task Force charged with rescuing the American hostages held in Iran.

G  
X G  
a. (S) In his role as senior Communications Officer, Colonel ██████████ was responsible for designing, developing and ultimately deploying a strategic-tactical communications interface structure that linked the National Command Authorities with forward command elements of the deployed Joint Task Force. Working with communications managers in the National Security Agency, Defense Communications Agency and the Strategic Air Command, Colonel ██████████ developed a series of redundant secure means of communicating long haul between fixed base stations, airborne mission aircraft and field deployed mobil ground elements that were extremely difficult for hostile communications/electronic interception sites to detect and monitor. The system was subjected to numerous field tests in various adverse weather conditions as well as remote and intensely urban electronic environments.

G  
b. (U) In the process of designing the system it was necessary to investigate the capabilities of a large number of electronic components and a wide variety of antenna configurations that could overcome some of the propagation problems that were known or suspected to exist in potential operating areas. This required an extensive coordination and research effort which Colonel ██████████ tackled with a "can do" spirit and technical competence that became a hallmark of all his efforts. Often modifications had to be engineered at the factory to make an Air Force receiver compatible with a Marine or Army tactical radio. It also required procuring civilian state of the art commercial components and working with the manufacturer to militarize these items to allow them to operate reliably under austere field conditions.

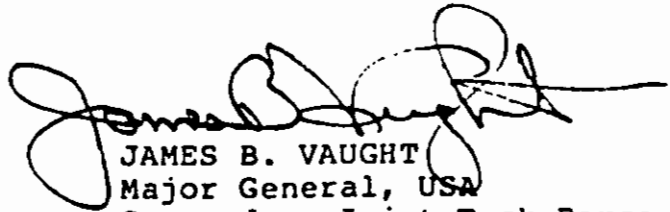

G  
c. (U) The proof of Colonel ██████████ skills and professional competence was repeatedly borne out in field tests and in two foreign deployments involving elements of the Joint Task Force, during which strategic communications were extremely effective. Many of the innovations, modifications and improvements which resulted from Colonel ██████████ efforts have been incorporated into many of the command and control nodes used in both Army and Air Force aviation.

2. (U) Lieutenant Colonel ██████████ United States Air Force, distinguished himself by meritorious achievement during the period 5 November 1979 to 27 April 1980, while serving as the Air Operations Officer assigned to the Joint Task Force charged with rescuing the American hostages held in Iran.

a. (U) During the period Lieutenant Colonel ██████████ displayed outstanding, dedicated performance while applying his in-depth knowledge and experience in special operations, and more specifically air operations, to the development, planning and training for the rescue mission.

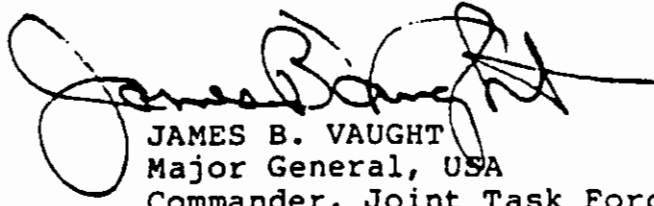

b. (U) The mission scenario was totally dependent on movement and positioning of aviation assets, and as such Lieutenant Colonel ██████████ personally became a key figure. He developed flow schedules, movement diagrams and charts outlining the flow of mission and airlift support aircraft into the forward deployed bases. Since timing was an extremely critical factor, Lieutenant Colonel ██████████ developed detailed procedures which facilitated timing control. The resultant charts, maps and books, which were tools of the control mechanism, became invaluable aids for the Chairman, Joint Chiefs of Staff in his briefings to the highest United States government officials. Lieutenant Colonel ██████████ updated these aids on at least a daily basis in order to remain abreast of the dynamic training and mission environment.

c. (U) During the deployment and mission conduct, Lieutenant Colonel ██████████ became a key figure in the Joint Task Force (Rear) due to his intimate knowledge of the overall mission. This was evidenced when during the force deployment, a forward operating location was changed which resulted in diverting aircraft, rescheduling aircraft and adjusting logistics support. In his normal, methodical, calm manner, Lieutenant Colonel ██████████ remained in firm control of the situation, with the end result being a smooth, orderly adjustment to the initial schedule.

d. (U) Lieutenant Colonel ██████████ was a totally unselfish contributor during the several months of involvement, routinely working extremely long hours, virtually seven days a week in order to provide current, accurate information to the deployed elements of the task force. His contributions have resulted in notable improvements within the Special Operations Community.

3. (U) The distinctive accomplishments of Lieutenant Colonel [redacted] reflect great credit upon himself, the United States Air Force, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

G 2. (U) Lieutenant Colonel [REDACTED] United States Marine Corps, distinguished himself by meritorious achievement during the period 12 November 1979 to 27 April 1980, while serving as a Special Project Officer assigned to the Joint Task Force charged with rescuing the American hostages held in Iran.

a. (U) During this period, Lieutenant Colonel [REDACTED] demonstrated a high degree of professional competence in several capacities. During the initial planning phase, he assisted in the development of several plans [REDACTED]

AG [REDACTED] that were implemented were exceptionally effective in covering a wide variety of activity from the [REDACTED] and additionally provided the basis for continued [REDACTED] Lieutenant Colonel [REDACTED] based on his familiarity with this type of planning, provided valuable specific ideas and direction to [REDACTED]

G b. (U) As the task force activity rapidly accelerated into an around the clock operation with geographically dispersed training and operational requirements, Lieutenant Colonel [REDACTED] filled the billet of project duty officer. In this capacity he provided a vital continuity link between the commander and staff at the task force headquarters and the deployed elements, as well as supporting elements of the force. By remaining abreast of the rapidly moving situation, Lieutenant Colonel [REDACTED] gained the confidence of the individual task force participants and in so doing initiated resolution of many after hours requirements that arose.

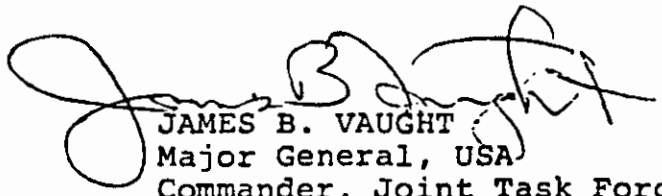

G c. (U) Lieutenant Colonel [REDACTED] additionally provided assistance with the security control for the task force headquarters which became increasingly critical as force numbers increased. The success of the security control program was evident by the lack of exposure to the force existence over the several months of activity.

[REDACTED]

Lieutenant Colonel [REDACTED] United States Marine Corps, distinguished himself by meritorious achievement from 12 November 1979 to 27 April 1980, while serving as a Special Project Officer assigned to a highly select joint task force engaged in an extremely sensitive project of high national importance. During this period, Lieutenant Colonel [REDACTED] demonstrated a high degree of professional competence and knowledge while developing a subset of plans which were extremely critical to continued task force activity. The plans were implemented with effective results while establishing a base for subsequent planning. As a project duty officer, Lieutenant Colonel [REDACTED] provided a vital continuity link between the task force headquarters and deployed elements, which resulted in a smooth flow of after hours requirements. Due to his efforts, many of the behind the scenes requirements were fulfilled. The distinctive accomplishments of Lieutenant Colonel [REDACTED] reflect great credit upon himself, the United States Marine Corps, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

MEMORANDUM FOR THE DIRECTOR, JOINT FORCE

10 JUN 1981

Subject: Recommendation for Award

Reference: DOD Directive 1348.26

1. (U) Under the provisions of the reference, it is recommended that the following individual be awarded the Defense Meritorious Service Medal:

- a. (U) Colonel [REDACTED]
- b. (U) [REDACTED] USAQMS, Fort Lee, VA 23801.
- c. [REDACTED]
- d. (U) 14 November 1979 to 15 December 1980.
- e. (U) Upon approval of award.
- f. (U) No other recommendation of award for this individual is pending and no previous award has been made for the service described herein.
- g. (U) Previous US decorations: [REDACTED]

2. (U) Colonel William R. [REDACTED] distinguished himself by exceptional meritorious service during the period 14 November 1979 through 15 December 1980 in support of the Joint Task Force charged with the responsibility to recover the American hostages in Iran. Working directly for the Task Force Commander, Colonel [REDACTED] was tasked with developing a multitude of aerial delivery techniques for fuel supplies. This was one of the most critical aspects of the planning process as the refueling methodology drove the concept of penetration and movement of the aviation elements.

- a. (U) Without any precedent for assistance and with minimal established doctrine, Colonel [REDACTED] developed a wide variety of delivery techniques to meet the Task Force needs. Airborne delivery of fuel in the quantities

required and under constraints on airframes and ground handling equipment, Colonel [redacted] required several new and innovative approaches to the problem. He personally designed a new parachute deployment device that permitted the extremely heavy weights involved to deploy the parachutes in a staged manner that provided almost 100% assurance of success. Additionally, he designed a ramp extraction device that allowed the POL containers to slide out of the MC 130 aircraft without obstruction to the ramp or damage to the aircraft. This work was absolutely critical to the ability of the Task Force to refuel itself in the desert if an airlanding site could not be found.

b. <sup>(U)</sup> Learning that ground handling of POL items was very cumbersome and could cause critical time loss for the assault force, Colonel [redacted] designed special ground handling equipment and personally tested it. His procedures were adopted by the assault force and became standard for the mission.

c. <sup>(U)</sup> In addition to aerial delivery of fuel, Colonel [redacted] also developed several ground refuel methods. Working with Marine and Air Force fuel personnel, Colonel [redacted] formed a joint fuels team that invented a ground refuel capability. The mix of Marine helos, USAF fuel bladders and Army filter systems provided a complex task in insuring a totally compatible delivery means. Colonel [redacted] working with the Quartermaster School at Fort Lee, modified the key items of each Services' equipment to where it would work faultlessly. His ultimate design was that employed on the actual mission. Colonel [redacted] distinguished performance of duty reflects great credit upon himself, the United States Army and the Joint Chiefs of Staff.

2. (U) Commander ██████████, United States Navy, distinguished himself by meritorious achievement from 24 November 1979 to 27 April 1980 while serving as a Communications Officer assigned to the Joint Task Force charged with rescuing the American hostages held in Iran.

G (U) a. (U) Commander ██████████ demonstrated his technical ingenuity and dedication by assuming the challenge and accepting the responsibility for designing, installing, testing and refining a secure and reliable privacy voice and teletype network for use by National Command Authorities and the elements of the special mission task force. The force eventually was deployed and communicated successfully from five geographically separated foreign area locations, spread over 2000 miles with distances averaging 700 miles between sites. All sites, including those embarked on naval vessels, combined the flexibility and simplicity of tactical communications and the reliability, speed, and security associated with strategic systems. This system of interconnecting and overlapping links and relays had to be developed from initial design, components assembled, installations engineered, frequency paths researched and isolated, satellite relay angles and fidelity calibrated and validated.

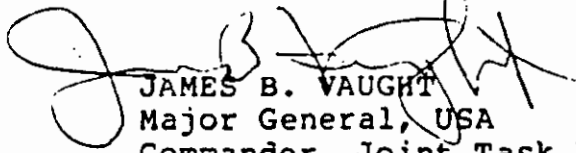

G (U) b. (U) The system that Commander ██████████ was so instrumental in developing was operational to varying degrees for a period in excess of a year and proved itself repeatedly on an almost daily basis throughout the entire period. On more than a dozen occasions, when all elements of the task force were deployed throughout the United States to test and perfect tactical procedures and timing plans under extremely austere conditions, the system capability exceeded that anticipated in view of the mission area.

G (U) c. (U) The establishment and maintenance of this network and its alternate routing system required the professional and technical cooperation of communicators throughout the Department of Defense and included such entities as the Air Force Communication Service, the Army Strategic Communication Command, both Military Airlift Command and Strategic Air Command and the National Security Agency, as well as Naval elements deployed throughout the Pacific. Additionally, coordination had to be affected with both EUCOM and PACOM and the Defense Communications Agency. It was largely through the technical competence, dynamic leadership and diplomatic management skills and personal dedication of Commander ██████████ that this gigantic effort was accomplished in days and weeks vice the months and years it would have taken under normal circumstances. Commander ██████████ efforts, personal service, professional competence and total mission dedication enhanced the posture of the joint task force and of the communications community.

G  
Captain [REDACTED] United States Air Force, distinguished himself by meritorious service while assigned as a member of a special planning team assigned the task of guiding Military Airlift Command support to a special Joint Task Force, from 1 December 1979 to 30 April 1980. The imagination, initiative, and superior performance of Captain [REDACTED] enabled flawless Military Airlift Command support to a military operation of top national priority and resulted in new dimensions being added to airlift capability. Captain [REDACTED] distinguished performance of duty throughout this period reflects great credit upon himself, the United States Air Force and the Joint Chiefs of Staff.

THE JOINT STAFF

MEMORANDUM FOR THE DIRECTOR, JOINT STAFF

10 JUN 1981

Subject: Recommendation for Award

Reference: DOD Directive 1348.14

1. (U) Under the provisions of the reference, it is recommended that the following individual be awarded the Joint Service Commendation Medal:

a. (U) [Redacted]

b. (U) [Redacted] USA  
Quartermaster School, Fort Lee, VA 23801.

c. [Redacted]

d. (U) 14 November 1979 to 15 December 1980.

e. (U) Upon approval of award.

f. (U) No other recommendations for awards to this individual are pending and no previous award has been made for the service described herein.

g. (U) Previous US decorations: [Redacted]

2. (U) Chief Warrant Officer [Redacted] distinguished himself by exceptional meritorious service during the period 14 November 1979 through 15 December 1980 while a member of the Joint Task Force responsible for the rescue of American citizens held in Iran. Mrs. [Redacted] was the primary specialist for airborne/aerial delivery techniques. Mr. [Redacted] was directly responsible to the J4 for insuring proper delivery of aerial resupply items. His primary assignment was to assure the force of a highly reliable means to deliver fuel and attendant equipment to a variety of locations throughout Iran. Additionally, he was tasked with the responsibility of developing a safe and reliable refuel system for helicopters. He performed both tasks in superb fashion.

REASON: 5200.1R, PARA 2-301c5&6

a. <sup>(u)</sup> Initially, the Task Force had no reliable means to deliver fuel to the Helo Force after the initial long penetration by the rescue force. Mr. [redacted] designed a fuel system and delivery technique to solve this problem using existing items from three separate services. Without benefit of previous doctrine or techniques, Mr. [redacted] developed a highly reliable fuel system and airborne delivery method. His equipment configuration and delivery mode was adopted by the Task Force and proved highly successful in field trials. During the airborne delivery phase, initial rigging techniques proved inadequate. Under great stress, working at night, with USAF crews, Mr. [redacted] handmade a stress release system that permitted a staged delivery of POL to the helicopter force. This action was vital to the overall training program and permitted a rapid completion of a crucial training phase.

G

b. <sup>(u)</sup> Mr. [redacted] upon deployment to the forward staging base, assumed the role of logistics manager for the Task Force when the volume of traffic at that base became unwieldy to efficiently handle. Mr. [redacted] took on great responsibilities in terms of managing USAF lift schedules, off-load techniques and pre-positioning of supplies for most efficient mission utilization. This action would have been vital for success had the rescue mission gone beyond Desert One. Mr. [redacted] devotion to duty and highest demonstrated capability reflects great credit upon himself, the United States Army, and the Joint Chiefs of Staff.

b. (U) During the first phase of the operation, Second Lieutenant [redacted] was tasked with deconfiguring and reconfiguring three EC-130 aircraft for mission requirements. Demanding 14-hour days, this task was accomplished in record time and in an excellent manner.

G c. (U) During pre-mission training, Second Lieutenant [redacted] maintenance personnel launched and recovered multiple sorties each day, all on time. The quality of maintenance was lauded by all the 1st Special Operations Wing aircrews he supported.

G d. (U) Upon deployment, Second Lieutenant [redacted] provided vital enroute maintenance support crucial to execution timetables, performing in an exceptional manner at Operating Location Alpha despite long working hours, drastic changes in eating habits, arduous climatic factors and other adverse living conditions. With extraordinary proficiency, under even more austere living and working conditions at location Bravo, Second Lieutenant [redacted] accomplished an engine change absolutely essential to the successful launch of all mission C-130 aircraft.

G e. (U) Following the incident at Desert One, Second Lieutenant [redacted] provided vital assistance to the wounded personnel and assisted in their evacuation.

G 3. (U) The distinctive accomplishments of Second Lieutenant [redacted] under austere conditions clearly demonstrates his outstanding leadership and personal devotion to duty, reflecting great credit upon himself, the United States Air Force, and the Joint Chiefs of Staff.

pounded by the extremely stringent operational security requirements and the very short period of time allotted for the achievement of force capability.

b. (u) In order to fulfill the mission generated taskings, Lieutenant Colonel Seiffert applied his intimate knowledge of both the H-53 helicopter and the helicopter community in the final selection and training of the joint service crews. Realizing that totally realistic training was a prerequisite to mission success, he outlined an in-depth training program which incorporated a variety of techniques, many of which had been accomplished individually but not collectively. He established a methodical training program based on the development of individual skills which led to crew and force confidence. New techniques were developed in low-level night flying, long-range night navigation, tactical refueling operations, blacked out landings and ground control techniques.

c. (u) Throughout the preparation period, intelligence inputs were constantly changing which required continuous modifications to the helicopter mission and the flight profile. Through Lieutenant Colonel Seiffert's flexible leadership, he was able to incorporate the required modifications into the training program while still maintaining the confidence and positive morale within the helicopter force. Lieutenant Colonel Seiffert demonstrated his abilities and confidence in the helicopter and mission by flying the lead aircraft in all training phases, as well as the flight from the USS Nimitz to Desert One.

d. (u) The new helicopter techniques that were developed and tested under totally realistic and demanding conditions have opened a new era of helicopter operations and have filled a long standing void in tactical employment capability. Lieutenant Colonel Seiffert's helicopter expertise and remarkable leadership weighed heavily on this achievement.

3. (U) By his exemplary performance of duty, Lieutenant Colonel Seiffert has reflected great credit upon himself, the United States Marine Corps, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

~~SECRET~~

to be built in an extremely short period of time, without attracting attention, utilizing personnel from throughout the US military forces and without benefit of an existing command or support structure. Colonel Pitman, drawing upon his wealth of operational helicopter expertise, and his unique leadership ability was able to channel the efforts of this group of individuals to achieve a singleness of purpose and to develop a unique force capability.

b. ~~(U)~~ Faced with a difficult and heretofore untried task, Colonel Pitman conducted a mission analysis and then, based on numerous factors, recommended the type helicopter necessary for mission accomplishment. Realizing that realistic training was a necessity, Colonel Pitman personally participated in the selection of an adequate training site and development of the detailed training objectives.

c. ~~(U)~~ Colonel Pitman, acting as the Chief Project Officer for COMJTF, personally developed, briefed and supervised every phase of the helicopter program. He outlined a thorough and demanding training program based on the development of crewmember skills and individual confidence building toward group performance and overall mission confidence. Participating as a pilot or observer in every training phase, he conducted extensive analysis of each pilot's capability prior to mission execution. Aware of his responsibility, when it became apparent after the first week that pilot progress was slower than anticipated, Colonel Pitman, even in view of time constraints, strongly pushed for and received several crew changes, obtaining more thoroughly screened pilots and crewmen.

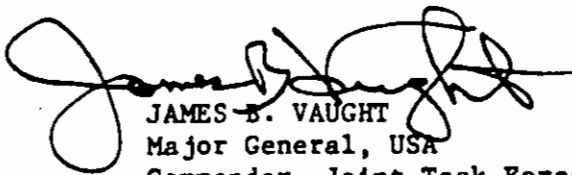

d. ~~(U)~~ In conjunction with appropriate agencies, Colonel Pitman supervised development of the detailed mission profile. The overall mission required a compilation of difficult techniques, many of which, while they had been accomplished individually or for limited periods, had not been combined or accomplished over long distances or periods of time. Moreover, throughout the training and preparation phase, intelligence inputs were continually updated leading to significant force modifications and mission adjustments. Colonel Pitman taking these changes in stride, accommodated these and several other significant modifications to lessen fuel consumption and improve operational security. His flexible, responsive leadership, stemming from the classical leader operating from an "up front" position, lent stability and confidence to the situation.

e. ~~(U)~~ As the helicopter mission leader, Colonel Pitman personally supervised all phases of helicopter flight operations up to and including deployment to the USS Nimitz and subsequently to Desert One.

f. ~~(U)~~ The new helicopter techniques developed and tested under these most demanding, real world conditions opened a new era of helicopter operations and provided a much needed tactical employment capability. It was Colonel Pitman's enthusiastic, professional approach that provided the catalyst for this action.

~~CONFIDENTIAL~~

3. (U) By his exemplary performance of duty Colonel Pitman has reflected great credit upon himself, the United States Marine Corps, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

[REDACTED]

Lt Colonel [REDACTED] United States Marine Corps, distinguished himself by meritorious achievement from 1 December 1979 through 15 July 1980, while serving as the senior Marine intelligence officer assigned to a highly select joint service staff responsible for developing and executing a sensitive military operation of highest national concern. Lieutenant Colonel [REDACTED] was solely responsible for insuring that all rotary wing forces operating with the project received the very best intelligence and navigational assistance. He accomplished this task by developing an extremely reliable technique for selecting flight routes which all but guaranteed the aircraft to complete their mission undetected. This technique was proven out during actual mission flight operations. Lieutenant Colonel [REDACTED] broad grasp of international politics and the capabilities/limitations of the national intelligence collection means enabled him to fully discharge his responsibilities with the quiet competence of a true professional. The distinctive accomplishments of Lieutenant Colonel [REDACTED] reflect great credit upon himself, the United States Marine Corps, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

MEMORANDUM FOR THE DIRECTOR, JOINT STAFF

10 JUN 1981

SUBJECT: Recommendation for Award

Reference: DOD Directive 1348.26

1. (U) Under the provisions of the reference, it is recommended that the following individual be awarded the Defense Meritorious Service Medal:

- a. (U) Captain [redacted] United States Marine Corps,
- G b. (U) Joint Task Force 1-79
- c. (U) [redacted]
- d. (U) 21 November 1979 to 27 April 1980
- e. (U) HMX-1, MCAS Quantico, Quantico, VA
- f. (U) No other recommendations for awards to this individual are pending and no previous award has been made for the service described herein.
- G g. (U) Previous U.S. decorations: [redacted]

2. (U) The following is a narrative description of service rendered:

a. (U) Captain [redacted] United States Marine Corps, distinguished himself by meritorious achievement during the period 21 November 1979 to 27 April 1980 while serving as the Aircraft Maintenance Officer to the Joint Task Force Helicopter Detachment of the Joint Task Force assigned the mission of rescuing the American hostages held in Iran.

b. (U) During this period, Captain [redacted] was confronted with the arduous task of organizing the total maintenance effort for the Joint Task Force Helicopter Detachment. Because of the sensitivity of the mission, many restrictions were placed on Captain [redacted] that had to be accommodated and still train for the mission. He was personally involved in the selection and organization of all crewmembers. Captain [redacted] was responsible for, and succeeded at, training specialists into totally trained crewmembers.

c. (U) With a limited number of personnel, no more than forty, Captain [redacted] managed the readiness of up to ten H-53 series aircraft for over four months at an average daily availability of nearly 100%. For aircraft maintenance matters, he was the single point of contact to the outside world, which frequently required workdays in excess of twenty hours, six to seven days a week. Captain [redacted] did this on an off duty runway working out of three vans in the isolated western United States and supported nearly 1400 hours of flight training, 90% of which was at night, with the same forty crewmembers.

G

d. (U) Time constrained, without attracting attention, working with major commands throughout the U.S. military forces, and without benefit of an existing command and support structure, Captain [redacted] drew on his unique leadership capability and was able to direct the efforts of this group toward a singleness of purpose rarely achieved.

e. (U) Captain [redacted] was required to travel worldwide on occasion to evaluate RH-53 readiness. His evaluation and knowledge of requirements were invaluable in determining what was needed to insure 100% availability on these selected aircraft. He personally acquired these items and carried them on deployment, supervised their installation and insured a totally ready force.

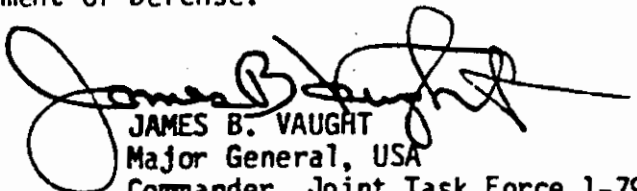

G

f. (U) Captain [redacted] was uniquely successful as a maintenance officer under very austere circumstances. He trained and guided subordinates to insure they attained the highest levels of efficiency and productivity. He displayed a unique capacity for coordinating a multifaceted maintenance operation and sustaining an unheard of level of readiness.

G

3. (U) The distinctive accomplishments of Captain [redacted] reflect great credit upon himself, the United States Naval Service, the organization of the Joint Chiefs of Staff, and the Department of Defense.

G c. (U) This availability was a necessity as the detachment had only a short time to develop an entirely new capability, to fly a great distance low level at night utilizing night vision goggles. In developing this capability, it became evident that the crewmembers, including Petty Officer [redacted] would have to assume new responsibilities, becoming more integral to the conduct of the flight. Pilots were heavily taxed with flying formation, navigating, and operating inertial and Omega navigation systems without illuminated instrument panels. Crewmembers became responsible for monitoring all cockpit instruments, transferring fuel from internal and external tanks and accounting for fuel consumption following the planned flight profile. They also had to memorize the location of light switches, rheostats and numerous circuit breakers to aid pilots in case of emergency.

d. (U) The crewmembers also provided invaluable assistance to the pilots in navigation. Since the night vision goggles provided a decreased field of view, they contributed by locating or verifying key terrain features from the cabin area.

G e. (U) Finally, Petty Officer [redacted] assumed added responsibility during the landing phase. The requirement to set down in the desert without illumination was a hazardous task. The downwash from the helicopter rotor system greatly decreased the visual reference available to the pilots. Consequently, the pilots became greatly dependent on information, including obstacles, altitude and drift, transmitted by the crewmembers. Petty Officer [redacted] ability to remain calm during this taxing flight regime, while providing accurate and timely information, provided the confidence factor needed for safe landings. Petty Officer [redacted] professional expertise, dedication and courage during this period greatly facilitated development of the crew coordination needed to fly the rescue mission. His personal resourcefulness allowed him to adapt to austere conditions and to deal with the mental demands of clandestine operations. He thus contributed significantly to the detachment's preparedness to attempt the mission in April 1980.

G 3. (U) The display of exemplary performance during this ordeal and the instantaneous adaptability demonstrated by Petty Officer [redacted] contributed greatly to the safe conduct of all operations. Petty Officer [redacted] performance during the entire period of training up to and including the conduct of the mission was in the highest tradition of the Naval Service, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

g. (U) Previous decorations: [REDACTED]

2. (U) The following is a narrative description of service/achievement rendered:

Declassified by  
DOD NMCC  
12000492

CLASSIFIED BY DIRECTOR, C3S  
REVIEW ON 10 JUNE 2001  
EXTENDED BY DIRECTOR, C3S  
REASON 2-301.c.5 and 6

(U) a. Major [redacted] U.S. Army, distinguished himself by outstanding achievement as Officer in Charge of all communications provided by the Joint Communications Support Element (JCSE), in support of the American Hostage relief effort which occurred between 30 November 1979 and 27 April 1980.

(U) b. There were four major phases supporting the American Hostage release. Major [redacted] played an integral part in all four of these phases. He personally worked 12 to 16 hours a day, 6 and sometimes 7 days a week, throughout this complete time frame. He was deployed on numerous long term TDYs to extremely austere locations with little or no notice, spending months away from his family. His personal efforts during each phase contributed directly to the outstanding communications support provided during the actual extraction effort.

(U) c. Major [redacted] spent hundreds of hours working with the planning staff determining the exact amount of communications required and the personnel needed to operate and maintain this communications. His planning techniques were outstanding and quickly recognized as an important asset by the Joint Task Force Commander. On numerous occasions he analyzed and resolved difficult problem areas, always developing an excellent solution to the problem. He also managed the testing of the various new types of communications equipment and procedures which were utilized during Operation RICE BOWL. Some examples include the SB-3614 Tactical Switchboard, the KY-70 secure voice encryption device, the PT-25 man-pack portable satellite, and a new system which would allow a secured satellite radio net on aircraft while they were airborne. All of these new systems worked outstandingly under Major [redacted] auspices.

(U) d. Major [redacted] personally led the initial communications team to SITE ALPHA. When Major [redacted] arrived, he and his people lived under the most austere conditions imaginable and endured hardship and isolation rarely experienced in today's military due to the lack of facilities and the nature of the operations security measures undertaken to protect the operation. He and those personnel working for him performed in an absolutely outstanding manner totally succeeding in providing the necessary communications allowing the complete success of this important phase of the mission.

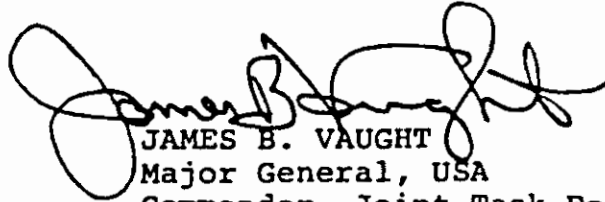

e. <sup>(U)</sup> The Desert One phase was the actual extraction attempt. During this phase, Major [redacted] was again at SITE ALPHA managing all of the JCSE communications which were scattered in numerous locations. The communications he was charged with providing permitted instantaneous secure voice and teletypewriter communications between the rescue party and the National Command Authorities and CONUS intelligence support activities. These communications were so effective and worked so well they earned plaudits from the President, the Secretary of Defense and members of the Joint Chiefs of Staff. During this time frame, Major [redacted] regularly worked up to 20 hours a day for a month preparing both the actual communications used during the rescue attempt and a back-up communications package which was being prepared for another possible contingency operation.

f. <sup>(U)</sup> During that period of time, Major [redacted] as the Chief of Operations for JCSE, was also required to maintain full support to USREDCOM for other scheduled exercises. The JCSE support to Joint Task Force 79-1 was not dedicated, therefore, the organization had to continue to support three major Joint Readiness Exercises (JRX). Major [redacted] played an integral part in the preparation for and execution of all exercises, in addition to providing outstanding support to the staff of Joint Task Force 79-1. He deployed to SITE ALPHA on three separate occasions. Major [redacted] was the first communications officer to arrive at SITE ALPHA as part of the AWACS deployment in support of USAFE. When he returned to CONUS, Major [redacted] debriefed Joint Task Force 79-1 communications staff officers on all aspects of the site. He constructed comprehensive diagrams of all facilities and assisted staff members in site layout for communications equipment, providing an on-scene experience factor which was invaluable to the communications staff. The second trip to SITE ALPHA was to install all required systems and circuits to support the operation. Major [redacted] and members of his team deployed from the field exercises, through home station, immediately upon termination of the JRX GALLANT EAGLE. He finalized deployment plans with members of the Joint Task Force staff while participating in this month long JRX. He returned to CONUS to make final preparation for the actual operation, leaving a small cadre of personnel to operate joint and all intelligence support circuits. It is significant to note that all deployments occurred with no loss of OPSEC even though very few USREDCOM staff officers were aware of Joint Task Force 79-1 activities.

~~SECRET~~

G

g. (u) During all phases of the hostage release effort, Major [redacted] was intimately involved with providing personnel, equipment, and planning expertise. The successful communications enjoyed during all of these phases were a direct result of the long, hard hours Major [redacted] contributed. His outstanding achievements truly contributed to the security and international prestige of the United States. The exemplary performance of duty of Major [redacted] brought great credit upon himself, the Joint Communications Support Element, the United States Readiness Command, the United States Army, and the Office of the Secretary of Defense.

G (u) a. Staff Sergeant [REDACTED] U. S. Army, distinguished himself by outstanding achievement as the Primary Mission Site Noncommissioned Officer in Charge, SITE ALPHA, Joint Communications Support Element (JCSE) while deployed in support of Operation RICE BOWL during the period 20 March 1980 to 26 April 1980.

G (u) b. Operation RICE BOWL was the deployment, installation and operation of JCSE personnel and equipment in support of operational units attempting the rescue of American hostages held in Tehran, Iran. During the period of this mission, Staff Sergeant [REDACTED] outstanding performance directly contributed to JCSE's highly successful support effort. This outstanding performance occurred in the most challenging environment possible short of actual combat; isolated in a strange land, at a completely remote location and living and operating under the most austere conditions, Staff Sergeant [REDACTED] worked 12 to 14 hours daily, 7 days a week, on this operation described later by the President of the United States as a "...most vital mission... demonstrating to our allies and the world our national resolve to protect and defend...(our)...national interests." The JCSE's efforts permitted instantaneous secure voice and teletypewriter communications between the rescue party and the National Command Authorities earning plaudits from the President, Secretary of Defense and members of the Joint Chiefs of Staff. Staff Sergeant [REDACTED] was a key factor in the success of this most critical support operation.

G (u) c. As the Mission Noncommissioned Officer in Charge, Staff Sergeant [REDACTED] demonstrated a degree of maturity and resourcefulness far exceeding the level normally found in a soldier of his age and experience. Faced with an extremely short-fused deployment window, Staff Sergeant [REDACTED] quickly identified logistics and air-flow requirements, analyzed mission requirements and selected the appropriate team personnel and equipment to deploy. Upon arrival at the operational location, he immediately set upon the tremendous tasks of site preparation which included power installation, system and circuit layouts and provided for the health and welfare of the deployed team members. Working virtually non-stop for days, Staff Sergeant [REDACTED] was able to build, from a totally bare based environment, the cohesive smooth running communications complex that satisfied and in some instances exceeded the requirements of the Joint Task Force. The secure voice and teletypewriter systems, so vital to the support effort, were so well engineered and installed

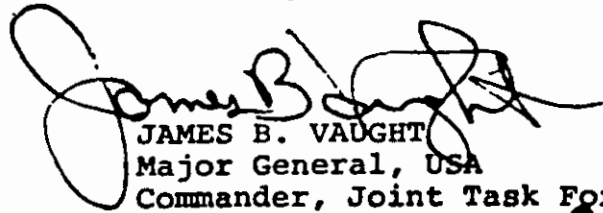

~~SECRET~~

~~CLASSIFIED BY DIRECTOR, C3S  
REVIEW ON 10 JUNE 2001  
EXTENDED BY DIRECTOR, C3S  
REASON 2-301.c.5 and 6.~~

**G**  
a. (U) Captain [REDACTED] U.S. Air Force, distinguished himself by meritorious achievement as Mission Officer in Charge, Operation RICE BOWL, and as the Mission Officer in Charge, Alternate Operations Site, Joint Communications Support Element (JCSE), while deployed in support of Operation RICE BOWL, from 30 November 1979 to 26 April 1980.

**G**  
b. (U) Operation RICE BOWL was the deployment, installation and operation of JCSE personnel and equipment in support of operational units attempting the rescue of American hostages held in Tehran, Iran. During the period of this mission, Captain [REDACTED] outstanding performance directly contributed to JCSE's highly successful support effort. This outstanding performance occurred in the most challenging environment possible short of actual combat; isolated in a strange land, at a completely remote location and living and operating under the most austere conditions. Captain [REDACTED] worked 12 to 14 hours daily, 7 days a week, on this operation described later by the President of the United States as a "...most vital mission...demonstrating to our allies and the world our national resolve to protect and defend...(our)... national interests." The JCSE's efforts permitted instantaneous secure voice and teletypewriter communications between the rescue party and the National Command Authorities earning plaudits from the President, Secretary of Defense and members of the Joint Chiefs of Staff. Captain [REDACTED] was a key factor in the success of this most critical support operation.

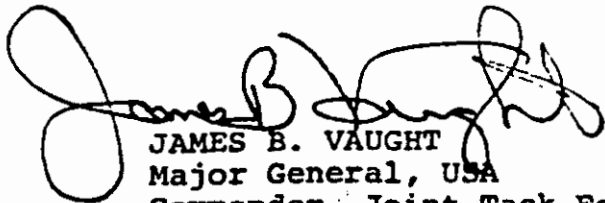

**G**  
c. (U) As the Mission Officer in Charge at this politically sensitive location, Captain [REDACTED] demonstrated a maturity and resourcefulness seldom found in an officer of his grade and experience. Faced with an extremely short-fused deployment window and working under the most stringent operational security measures, Captain [REDACTED] quickly identified the logistics and air flow requirements, analyzed the mission communications requirements and identified the equipment and personnel requirement for the support effort. Under extremely pressure laden circumstances, Captain [REDACTED] transformed a completely bare base operational area into a cohesive, smooth running communications complex that drew special praise from the on-scene element commander and throughout the entire mission arena. In spite of the overwhelming work load, difficult working conditions and many hours without rest, Captain [REDACTED] determination, technical competence and devotion to duty resulted in a superior communications effort supporting this most critical national undertaking.

G

d. (S) Captain [redacted] also took an integral part in the planning of the rescue attempt. Working 18-hour days, 7 days a week, in an austere desert environment, he worked directly with the planning staff in developing the tactics and procedures for the equipment being used. Obtaining the right communications for the mission resulted in hours of testing new equipment, plus the managing of numerous ingenious ideas. For example, extensive testing of airborne satellite systems under Captain [redacted] resulted in an effective combination of equipment, cabling, and antennas to support the mission. The man pack PT-25 portable satellite system was also tested for the first time. The KY-70 secure encryption device was procured and installed for the first time supporting tactical operations, as was the SB-3614 portable switchboard. All of these efforts resulted in an absolutely outstanding communications package which earned the plaudits of all the users.

G

e. (U) Captain [redacted] outstanding achievements truly contributed to the security and international prestige of the United States. The exemplary performance of duty of Captain [redacted] reflects great credit upon himself, the Joint Communications Support Element, the United States Readiness Command, the United States Air Force, and the Office of the Secretary of Defense.

G

a. (U) Master Sergeant [redacted] U. S. Air Force, distinguished himself by outstanding achievement as the Noncommissioned Officer in Charge of the Joint Communications Support Element (JCSE) taskings in support of Joint Task Force 79-1 during the period 29 November 1979 to 30 March 1980.

G

b. (U) Master Sergeant [redacted] was the primary noncommissioned officer responsible for development of the command and control communications architecture to support Operation RICE BOWL. In this capacity, he worked directly with the Joint Task Force 79-1 communications staff in the development of primary and back-up radio systems, adequate circuitry for critical reporting, and alternate routing capability to insure all vital C3 requirements were met. He was instrumental in designing proper interfaces to insure total interoperability of all facilities from the National Command Authorities to the deployed forces. Once the systems were designed and responsibilities designated, Master Sergeant [redacted] deployed on numerous rehearsal exercises to insure all systems met the needs of the supported units in a totally efficient manner. He directly supervised the installation and operation of a myriad of highly sophisticated communications equipment. Master Sergeant [redacted] tireless efforts, coupled with communications expertise, caused the activation of a highly reliable communications network in an extremely short period of time. While working in this pressure-packed environment, he refined critical interfaces which were paramount in the overall success of the mission. Master Sergeant [redacted] exceptional operational ability, combined with his sound recommendations for development and implementation of new techniques and more productive methods, aided the Joint Task Force 79-1 communications staff immeasurably.

G

c. (U) Master Sergeant [redacted] had the additional duty of Telecommunications Center Supervisor. As such, he was responsible for transmission and receipt of all teletypewriter record copy messages originated by or sent to the element he was supporting and insuring that required files and related documentation were completed. The very nature of this operation required the upmost in accuracy, security and speed for the interchange of critical messages. Throughout the mission, Master Sergeant [redacted] was faced with a constant flow of high precedence, extremely sensitive messages which had to be processed expeditiously, yet error free. He accomplished this most difficult task, under the most trying conditions, in an

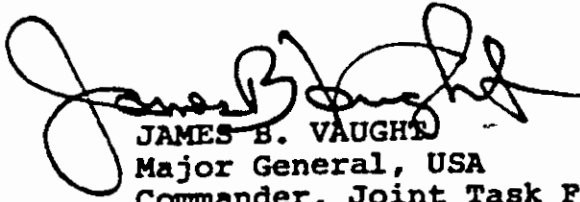

~~SECRET~~

G

admirable fashion. The volume of message, traffic passed, and the speed of service attained equaled or surpassed the communications center objectives required of highly sophisticated fixed station facilities. This outstanding accomplishment can only be attributed to Master Sergeant [redacted] individual determination, technical competence, supervisory techniques and devotion to duty.

G

d. (U) Master Sergeant [redacted] outstanding achievement truly contributed to the security and international prestige of the United States. The exemplary performance of duty of Master Sergeant [redacted] reflects great credit upon himself, the Joint Communications Support Element, the United States Readiness Command, the United States Air Force, and the Office of the Secretary of Defense.

~~CONFIDENTIAL~~

G

a. (U) Staff Sergeant [redacted] U. S. Air Force, distinguished himself by meritorious achievement as Mission Team Chief and Mission Noncommissioned Officer in Charge, Joint Communications Support Element (JCSE) while deployed in support of Operation RICE BOWL during the period 30 November 1979 to 24 April 1980.

G

b. (U) Operation RICE BOWL was the deployment, installation and operation of JCSE personnel and equipment in support of the planning and rehearsals of the operational units who eventually attempted the rescue of American hostages held in Tehran, Iran. Staff Sergeant [redacted] was the Senior Noncommissioned officer during this planning and rehearsal phase. Arriving at a totally bare base location and under very austere conditions, Staff Sergeant [redacted] immediately set upon the tremendous tasks of site preparation which included power installation, system and circuit layouts, coordinating phone lines, and providing for the health and welfare of the deployed team members. Working virtually non-stop for days, Staff Sergeant [redacted] was able to build, from a totally bare based environment, the cohesive, smooth running communications complex that exceeded the requirements of the planning staff he was supporting. The secure voice and teletypewriter systems, so vital to the support effort, were so well engineered and installed under his direction that the reliability rates attained drew special praise from the on-scene element commander to the Joint Chiefs of Staff. Staff Sergeant [redacted] qualities of leadership were demonstrated in all areas of an important mission requiring the highest degree of professionalism, understanding and judgment.

G

c. (U) As NCOIC, Staff Sergeant [redacted] was also responsible for the personal requirements of those personnel who worked for him. The location where they were at had no accommodations for supporting troops. The personnel either lived in tents or slept under the stars, subsisting on C-Rations. There was no running water, mail service, or telephone. Staff Sergeant [redacted] provided those essential elements necessary so that his personnel could subsist during this tough period.

G

d. (U) Staff Sergeant [redacted] greatest contribution was his assistance in the planning of the operation. He would work 16 to 20 hours a day, 7 days a week, in this very challenging environment. Many of the concepts and procedures that Staff Sergeant [redacted] developed were tested and implemented by the staff, and used

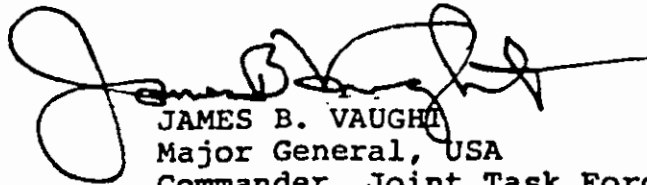

during the actual hostage release attempt. Through all this he was able to impress upon his personnel the great requirement to maintain operations security of the whole project, and he played a major part in insuring that the practices and rehearsals were never compromised.

e. (U) During the actual attempt to rescue American hostages, Staff Sergeant [redacted] performed an extremely critical mission. He was responsible for all communications left in place at the rehearsal areas. This crucial OPSEC mission maintained electronic signature in CONUS while forces moved to their respective staging sites to make final preparation for the rescue attempt. Staff Sergeant [redacted] effort maintained the secrecy of this highly sensitive mission and permitted forces to be introduced to Iran undetected.

G

f. (U) Staff Sergeant [redacted] management, leadership, and planning capability were a major contributor to the outstanding communications experienced during these rehearsals and the actual release attempt. The exemplary performance of duty of Staff Sergeant [redacted] reflects great credit upon himself, the Joint Communications Support Element, the United States Readiness Command, the United States Air Force, and the Office of the Secretary of Defense.

REVIEW ON 10 JUNE 2001  
EXTENDED BY DIRECTOR, C3S  
REASON 2-301.c.5 and 6~~

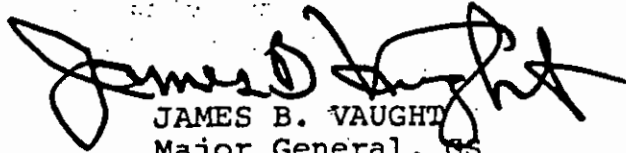

~~(S)~~ a. Staff Sergeant [REDACTED] U. S. Air Force, distinguished himself by meritorious achievement as a Tactical Satellite Terminal Repair Technician, Joint Communications Support Element (JCSE). while deployed in support of Operation RICE BOWL during the period 30 November 1979 to 26 April 1980.

~~(S)~~ b. Operation RICE BOWL was the deployment, installation and operation of JCSE personnel and equipment in support of operational units attempting the rescue of American hostages held in Tehran, Iran. During the period of this mission, Staff Sergeant [REDACTED] outstanding performance directly contributed to JCSE's highly successful support effort. This outstanding performance occurred in the most challenging environment possible short of actual combat; isolated in a strange land, at a completely remote location, living and operating under the most austere conditions, Staff Sergeant [REDACTED] worked 12 to 14 hours daily, 7 days a week, on this operation described later by the President of the United States as a "...most vital mission... demonstrating to our allies and the world our national resolve to protect and defend...(our)...national interests." The JCSE's efforts permitted instantaneous secure voice and teletypewriter communications between the rescue party and the National Command Authorities earning plaudits from the President, Secretary of Defense and members of the Joint Chiefs of Staff. Staff Sergeant [REDACTED] was a key factor in the success of this most critical support operation.

~~(S)~~ c. As a Tactical Satellite Terminal Repair Technician, Staff Sergeant [REDACTED] installed, operated and maintained an Ultra High Frequency satellite terminal in an airborne configuration to support the mission. Confronted with the unique task of installing this equipment on board aircraft not designed for this type of operation, Staff Sergeant [REDACTED] quickly surveyed the situation, made the necessary power and antenna modifications, and in a short time had the terminal in full operation providing a most vital secure communications link. Though assigned as a repairman, Staff Sergeant [REDACTED] voluntarily manned the satellite terminal in the lead aircraft that landed at Desert One in Iran, during the rescue attempt. Throughout the operation he repeatedly performed tasks well beyond the scope of his training and career field. In spite of the tremendous workload, many hours without rest, Staff Sergeant [REDACTED] individual determination, technical

competence and devotion to duty resulted in an outstanding communications network being provided from the operational area to the highest of command authorities.

G 3. (U) Staff Sergeant [REDACTED] outstanding achievement truly contributed to the security and international prestige of the United States, and further enhanced the reputation of the Joint Communications Support Element. Staff Sergeant [REDACTED] accomplishments and contributions brought great credit to himself, the United States Readiness Command, the United States Air Force, and the Office of the Secretary of Defense.

JAMES B. VAUGHT

TO

[REDACTED]

Staff Sergeant [REDACTED] United States Air Force, distinguished himself by meritorious achievement from 30 November 1979 to 26 April 1980 as Satellite Maintenance Technician during the deployment and operation of critical command and control communications in support of a classified operation. Staff Sergeant [REDACTED] dedication while performing assigned duties under extremely austere conditions demonstrated his high degree of professionalism and enthusiasm. His tireless efforts resulted in the complete and success of the communications support mission. Staff Sergeant [REDACTED] conscientious attitude insured that the invaluable command and control links between National Command Authorities and subordinate units were fully operational at all times during this critical mission, thus demonstrating to our allies and the world our national resolve to protect and defend our citizens and interests. The exemplary performance of duty of Staff Sergeant [REDACTED] reflects great credit upon himself, the Joint Communications Support Element, the United States Readiness Command, the United States Air Force, and the Office of the Secretary of Defense.

MEMORANDUM FOR THE DIRECTOR, JOINT STAFF

10 JUN 1981

Subject: Recommendation for Award

Reference: DOD Directive 1348.24

1. (U) Under the provisions of the reference, it is recommended that the following individual be awarded the Defense Superior Service Medal:

G

- a. (U) Colonel Charlie A. Beckwith, United States Army, [REDACTED]
- b. (U) Joint Task Force 1-79.
- c. (U) 7 Adams Street, Fort Bragg, NC 28307.
- d. (U) 5 November 1979 to 27 April 1980.
- e. (U) Not applicable.
- f. (U) [REDACTED] Ft Bragg, NC 28307.
- g. (U) No other recommendations for awards to this individual are pending and no previous award has been made for the service described herein.
- h. (U) Previous US decorations: Silver Star (with one Oak Leaf Cluster), Legion of Merit (with two Oak Leaf Clusters), Bronze Star Medal (with three Oak Leaf Clusters).

A

2. (U) Colonel Charlie A. Beckwith, United States Army, distinguished himself by exceptionally superior achievement from 5 November 1979 to 27 April 1980, while serving as the principal Ground Force Commander assigned to the Joint Task Force charged with rescuing the American hostages held in Iran.

a. (U) As commander of the ground component of the Task Force, Colonel Beckwith applied his vast experience in clandestine operations to the rescue planning and preparation and was in fact the principal architect of the ground assault plan. Due to the dynamics of the hostage situation, the plan became an evolutionary process requiring frequent modifications, each of which Colonel Beckwith adjusted to with ease.

(U) b. Colonel Beckwith was the driving force behind the strenuous training program that was established and was considered an essential foundation to the effectiveness of the ground force. The training program was both unique and extremely demanding in that it covered the broad spectrum of special ground and air operations, and as such involved members of all uniformed services who were to fulfill various direct support roles in the operational area.

(U) c. Colonel Beckwith's command presence proved highly valuable many times during the months of preparations, particularly during the repeated night rehearsals of a variety of highly dangerous tactics and maneuvers which were critical to mission success. His abilities proved invaluable during the emergency retrograde from Desert One. His efforts and position of respect within the force, contributed to the maintenance of order and the preservation of life during the transfer of personnel from the burning aircraft and the immobilized helicopters.

(U) d. Colonel Beckwith's overall contributions, many of which remain highly compartmented, weighed heavily upon the development of an extremely important capability, and one that will continue to enhance the Special Operations Community in years to come.

3. By his exemplary performance of duty, Colonel Beckwith has reflected great credit upon himself, the United States Army, the Organization of the Joint Chiefs of Staff, and the Department of Defense.

MEMORANDUM FOR THE SECRETARY OF DEFENSE

Subject: Special Project Funding (U)

A

1. (S) As you know, funding for Operation Elite Guard terminates at the conclusion of FY 80. Beginning 1st qtr FY 81, it will be necessary to fund the SNOWBIRD (TS) Project and Operation Elegant Lady through its lifespan (1 Oct-15 Nov 1980).

The Operations Deputies have reviewed both requirements and determined that the funds requested are required. The total 1st qtr, FY 81 funds required are [redacted]. A detailed breakout is at Enclosure A.

A

2. (S) Discussions with Army, Air Force, Navy and DOD personnel indicate that a memorandum substantially like that at Enclosure B would provide the Services with the authority needed to provide the required funding. A recommended procedure for [redacted] will be provided later. Until then, disbursement will be handled by the respective Services as is now the case.

For the Joint Chiefs of Staff:

*Thor Hanson*

REASON: 5200.1R para 301-c 5&6

~~TOP SECRET~~

ENCLOSURE C  
FUNDING POLICY

1. (S) The JTF experience indicates that funding requirements fall into four broad categories:

- a. Intelligence Programs
- b. Training/Organizational Costs
- c. Research/Development & Procurement
- d. Subordinate Unit Sustaining Costs

A The [REDACTED]

A 2. (S) The following recommendations are provided to assist the Services [REDACTED]

A a. (S) Intelligence Costs. Presently, these funds are recommended for approval by the OPSDEPS on a fenced project basis and forwarded to OSD for action. Funds are then provided through appropriate methods to the required agency. These requirements will continuously arise as new missions [REDACTED] It is recommended [REDACTED]

A b. (S) Training/Organizational Costs. [REDACTED]

A Presently, these funds are approved on a monthly basis and disbursed by each Service as appropriate. JTF travel funds are provided by OSD. It is recommended that these funds, primarily Service O&M be provided [REDACTED] and disbursed by comptroller [REDACTED]

A c. (S) Research/Development and Procurement. Requirements will continue to be generated as each mission is analyzed. Presently, Service OPSDEPS review each R&D requirement on a project basis. Approved projects are funded by each Service or OSD as appropriate. This should not change. Procurement funds are more complex in that they involve both special project purchases [REDACTED] and sustaining items (winter clothing). It is recommended that each Service be prepared to absorb short notice R&D requirements of several million dollars as missions dictate. Specific requirements to be approved as required.

Enclosure C

[REDACTED]

~~SECRET~~

d. (S) Component Unit Sustaining Costs. At this time, each Service fully funds the operational costs [REDACTED]. In that each Service is responsible for the readiness of its contribution, this approach should not change.

A

e. (S) Joint Exercise Costs. [REDACTED] as its [REDACTED] Funding methodology for this program should be addressed at the conclusion of the SNOWBIRD mission.

A

f. (S) [REDACTED] anticipated budgetary requirements. It is recommended that in addition to the present O-3 position, an O-3, GS-13 and clerk-typist be added.

A

g. (S) JTF experience strongly indicates that each Service must have a POC within Service HO capable of handling technical funding matters with [REDACTED]. Additionally, [REDACTED] must have qualified personnel assigned who are competent to manage internal budget matters. It is recommended that a system such as exists within the ARSTAF be considered.

h. (S) It is essential that a clearly stated, Service-approved funding policy be developed. It is recommended that such a policy be presented for OPSDEPS consideration prior to 2d qtr, FY 81.

3. (U) Finally, it is recommended that present funding procedures initially be utilized for 1st qtr, FY 81. Upon approval of actions in h above, unobligated funds would be dispersed per Service agreement.

ENCLOSURE A

TRAINING COST SUMMARY

A

1. ~~(S)~~ GENERAL: The requirement to retain training readiness of EC 1-79 and its [REDACTED] necessitates a training program through first quarter, FY 81. Cost data displayed depicts a minimum exercise program with forces utilizing forward operating bases. Lacking definitive intelligence data for planning, JTF [REDACTED] must include all forces presently available.

2. ~~(S)~~ DISCUSSION: Training program. The cost model for the training program was constructed on the following assumptions:

- a. Seven day exercise each month.
- b. Use of a forward operating base each time.
- c. Scenarios IX and X would be rehearsed.
- d. USAF modifications would be completed.
- e. JTF flying hour program (FHP) requirements for the 101st and [REDACTED] are costed against the JTF.
- f. Units conduct home station training at own expense.

[REDACTED] will be approved.

1. ~~(S)~~ General: The JCS terms of reference for the [redacted] provided for a J-6 staff element and specified that a [redacted]

requirements and interfacing with the Defense Communications System (DCS). Experience indicates the need for both an in-garrison communications capability and a deployable capability to support the [redacted] people are assigned to the [redacted] trained and ready to perform assigned tasks, the Joint Communications Support Element (JCSE) will support and give first priority [redacted]. Multi-channel satellite communications equipments are scarce and are needed to support other high priority missions such as JCS crisis management, RDJTF deployments, and the Unified Commands. New equipment could be obtained in 18 to 24 months. The JCS terms of reference regarding the DCS interface can be satisfied by various means. JTF 1-79 is now provided this support by CINCEUR. Three options for meeting the terms of reference are offered. [redacted]

and [redacted] from the Services to minimize mission capability and training turbulence. The Services should expedite manning [redacted] Funding to support the [redacted] shared equally by the military departments. This enclosure outlines a two-phased approach to achieve the option selected.

A a. ~~(S)~~ Phase I - A continuation of the capability established for JTF 1-79 on an ad hoc basis plus items needed to satisfy [redacted]

b. (U) Phase II - A follow-on capability to replace the ad hoc system and "borrowed" equipment that belongs to the JCSE and the Services.

2. (U) Phase I:

a. (U) In-garrison

A (1) ~~(S)~~ Existing communications capability at the Pentagon (JTF 1-79), and at [redacted] must remain in place. In addition, the following communications support must be operational for the [redacted] no later [redacted]

(a) ~~(S)~~ KW-7 secured 75 baud teletype (fully redundant) via dial-up AUTOVON circuits.

(b) ~~(S)~~ KW-7 secured 75 baud (ASCII) teletype (fully redundant) [redacted]

~~SECRET~~

(c) ~~(S)~~ Two voice grade circuits (C2 conditioned to provide bulk encrypted secure voice [redacted] a 300 baud teletype channel and an order wire to the Pentagon Technical Control [redacted])

(d) ~~(S)~~ Two KY-70 terminals.

(e) ~~(S)~~ Parkhill with wire line adapter for secure voice via AUTOVON dial-up.

(f) ~~(S)~~ Two single-channel UHF SATCOM terminals with remote Parkhills.

(g) ~~(S)~~ Two HF radios with antennas and Parkhill (Sunaire 900 DX or equivalent).

(h) ~~(S)~~ Telephone connectivity to the [redacted] telephone switch with direct dial access to AUTOVON and commercial telephone lines.

(i) ~~(S)~~ Four wire AUTOVON terminal in [redacted] center for dial-up teletype capability.

(j) ~~(S)~~ Three KY-3 terminals connected to the [redacted]

(3) ~~(U)~~ Costs for Phase I leased circuits and AUTOVON service is estimated to be [redacted]

b. ~~(S)~~ Deployable. Deployable command and control communications resources are required to extend the dedicated, compartmented, secure voice and record communications links from the Joint Chiefs of Staff, and the supporting command and control and intelligence agencies, to deployed [redacted]. A listing of deployable resources required [redacted] is attached at Appendix A.

3. (U) Phase II:

a. ~~(S)~~ In-garrison. The in-garrison communications capability that has been established for JTF 1-79 on an ad hoc basis provides limited support. This capability is highly visible from an operations security standpoint, is not readily expandable in times of crisis, and is largely a single-thread system. The ability to overcome these shortfalls exists. [redacted] can take advantage of the existing extensive communications linkages of the Pentagon [redacted] to insure that linkages with [redacted]

[redacted] communications networks can be exploited without alerting communications personnel not knowingly directly involved in the operation. The communications linkage available to the DOS [redacted] is significant and likely to be the only early-on [redacted]

available, in-place communications, in many parts of the world which can be exploited in support of actual operations. Thus, it is essential that [redacted] take advantage of that capability. The principal features of such an enhanced system are discussed in Appendix C. A detailed description of the proposed system is available at OJCS/TC3S, Crisis Communications Division.

A

b. ~~(U)~~ Deployable:

(1) ~~(U)~~ Deployable assets "borrowed" from other sources should be returned eventually either directly or by purchasing replacement items. A listing of items that should be procured for pay back to the JCSE and the Services is attached at Appendix B. Cost in FY 81 is estimated to be about \$5.3 million to 8.3 million depending upon the option selected.

A

(2) ~~(S)~~ As new capabilities currently under development are fielded, [redacted] should acquire them. A planning [redacted] for procurement of new equipment is included for POM/Budget consideration beginning in FY 82 and beyond.

A

(3) ~~(S)~~ A limited amount of funds are needed for research and development (R&D) of new equipment/capability [redacted]. Experience gained by JTF 1-79 shows that the normally long R&D cycle can be shortened by adapting off-the-shelf or commercially available equipment to support [redacted]. A nominal fund for R&D should be provided. \$200,000 per year is recommended.

A

(4) ~~(S)~~ When the Phase II in-garrison communications capability is fielded, a similar deployable capability should be fielded [redacted].

4. ~~(S)~~ First Quarter FY 81 [redacted] Communications Personnel, R&D, Procurement and O&M Costs:

A

[redacted] is based upon experience of JTF 1-79. The [redacted] shall require [redacted] people to support the mission of the [redacted] Enlisted (See detailed listing at Appendix B). If a determination is made to leave the DCS interface terminal equipment within the JCSE, the manpower package [redacted] be reduced by 29 spaces.

b. ~~(S)~~ Procurement Costs:

[REDACTED]

c. ~~(S)~~ O&M Cost:

[REDACTED]

d. ~~(S)~~ R&D:

APPENDIX C

PRINCIPAL FEATURES OF THE PHASE II  
IN-GARRISON COMMUNICATIONS SYSTEM

A ~~(S)~~ 1. ~~(S)~~ Must be in place and operating on 24-hour/7-day schedule  
[REDACTED]

~~(S)~~ 2. ~~(S)~~ Must be redundant, both in links and terminal equipment, such that a single failure will not isolate any participant from the network.

~~(U)~~ 3. ~~(U)~~ Must have sufficient capacity such that high quality voice, graphics and data can be exchanged rapidly.

C ~~(S)~~ 4. ~~(S)~~ Must provide for interface between the DCS backbone network and the principal communications nodes of the Pentagon [REDACTED]

~~(S)~~ 5. ~~(S)~~ Circuit activation/testing etc., for a special operation must not alert foreign intelligence elements. [REDACTED]  
[REDACTED]

C [REDACTED] The extension of the backbone network via communications preempted for the operation may require the use of extraordinarily sensitive remote locations, [REDACTED]

B [REDACTED] carefully orchestrating communications support for operations of this nature with the DOS and intelligence community communications elements.

~~(S)~~ 6. ~~(S)~~ Must have two independently routed secure links (approx 50 KBAUD) from each of the principal locations likely to be involved in the predeployment or garrison phase of an actual operation. Each link to be red multiplexed with provision for two each 16 KBAUD CVSD voice channels and one each 9.6 KBAUD facsimile channel. The remaining capacity would be subdivided into 75 BAUD OPSCOMM or message traffic channels as required.

~~(S)~~ 7. ~~(S)~~ Provision for super encryption and second level multiplexing would need to be included such that extensions into any communications path could be accomplished without detection by outside elements.

~~(S)~~ 8. ~~(S)~~ The termination should be manned and approved for any classification up to and including TS [REDACTED]. The termination should be segregated and staffed by [REDACTED] cleared personnel carefully chosen for maturity in judgement and discretion as well as high technical and operational competence. To minimize the

security risk raised in any activity linking sensitive locations

C [REDACTED] would act as the cut out. A system diagram is attached at Annex A and a typical station/central mode interconnect is shown at Annex B.

A 9. [REDACTED] Links to the DCS AUTOSEVOCOM secure voice system will also be required. Wideband secure voice trunks will be required [REDACTED] to the Pentagon and to the [REDACTED]

10. [REDACTED]

[REDACTED] per year. (See Annex C) NSA will provide an installation team. An area of approximately 20 x 20 feet would be required to house the equipment.

A 11. [REDACTED] communications personnel will obtain OJT on limited maintenance/trouble-shooting from NSA. This will be a fully redundant system which mitigates immediacy of repair. NSA will act as a depot to swap-out reparable end-items.

EQUIPMENT PURCHASES

A 1. Below are listed the projected procurement costs associated with [redacted] programs through 1st Qtr FY 81. Items indicated are derived from known needs of the present force to execute a rescue attempt in the winter quarter. Two items, the [redacted] are essential to the present mission.

ITEM	QUANTITY	COST
[redacted]	[redacted]	[redacted]
Camouflage nets	200	120K
Net support system	200	41K
Desert uniform	500	100K
Overwhites	750	38K
Night vision goggles	100	700K
Ammunition	various	100K
IR paper	roll	10K
[redacted] weapons	20	15K
[redacted] magazines	160	3K
Body armor	100	20K
Survival kits	100	23K
Black sweaters	750	6K
Watch caps	750	1.5K
Hostage clothing	52	6K
Dust goggles	1,500	6K
American Flag patches	1000	1K
[redacted]	250	1K
Total		\$1,388,500.00

Per month: \$462,000.00

MEMORANDUM FOR: THE SECRETARY OF THE ARMY  
THE SECRETARY OF THE NAVY  
THE SECRETARY OF THE AIR FORCE

Subject: Special Project Funding (U)

Ref: a. DUSD R & E memo dtd 6 June 1980  
b. SECDEF memo dtd 12 August 1980

1. ~~(S)~~ Project SNOWBIRD activity, Operation Elegant Lady, ~~(S)~~ will be afforded a sufficiently high priority to insure funding of ~~(S)~~ by the Services at the levels indicated below. For the purposes of these expenditures, provisions of DoD Directive 7250.5, dated 9 January 1980, and DoD Instruction 7250.10, dated 10 January 1980, are hereby waived.

A

2. ~~(S)~~ In addition to the ~~(S)~~ previously directed (references a and b) for this project from the Army, Navy and Air Force, the following Service funding through 1st qtr, FY 81 is required and directed.

- a. Army: ~~(S)~~
- b. Air Force: ~~(S)~~
- c. Navy: ~~(S)~~

G

SUBJ: ANALYSIS OF THE JOINT TASK FORCE CAPABILITY REVIEW (U)

REFS: [REDACTED]

A

[REDACTED] WE HAVE THOROUGHLY STUDIED THE DOCUMENT AND OFFER THE COMMENTS BELOW WHICH PERTAIN TO THOSE ITEMS WE FEEL ARE CRITICAL [REDACTED]

A. (C) ITEM - FOREWARD P. 11 PAR 9: COMMENT: CONCUR WITH THE STATEMENT THAT THE SMALL NUMBER OF (REFUELABLE) MC-130 AIRCRAFT IN EXISTENCE HAS PROVEN TO BE A MAJOR PROBLEM ESPECIALLY WITH REGARD TO SUPPORT OF CONTINUATION TRAINING REQUIREMENTS FOR [REDACTED] THE IMPENDING TRANSFER OF ONE MC-130 FROM TAC (130W) TO PACAF WILL ONLY FURTHER EXACERBATE THE SHORTAGE. THE REFUELING EQUIPPAGE PROBLEM WILL SLOWLY DISAPPEAR AS ALL MC-130'S ARE RETROFITTED WITH INFLIGHT REFUELING CAPABILITY DURING PROGRAMMED DEPOT MAINTENANCE. IN REF A PAR 7 (C) (1) WE IDENTIFIED A REQUIREMENT FOR A TOTAL OF 26 MC-130 COMBAT TALON, A PORTION OF WHICH MAY BE AIR REFUELABLE C-130'S. HIGHLY RECOMMEND SUPPORT OF THE PROPOSED BUY OF TWELVE ADDITIONAL COMBAT TALONS ("C1 PLUS") AS AN INTERIM FIX WITH EVENTUAL PROCUREMENT OF ADDITIONAL AIRFRAMES AS FUNDS BECOME AVAILABLE.

B. (C) (U) ITEM A-2: NIGHT VISION DEVICES. COMMENT: THE MUCH GREATER CAPABILITY AVAILABLE FROM 3RD GENERATION NVGS (AN/AVS 6) WOULD SIGNIFICANTLY IMPROVE OUR CAPABILITY TO OPERATE UNDER MINIMUM/ZERO ILLUMINATION CONDITIONS. THIS NEED WAS IDENTIFIED IN REF A PARA 80. FURTHER WE OBTAINED THE TEMPORARY LOAN OF ONE PAIR FOR THE 150W1-10 JUN 81. THE USERS WERE EXTREMELY PLEASED WITH AN/AVS-6 PERFORMANCE. THE LIMITED QUANTITY OF PRE-PRODUCTION GOGGLES AND THE COMPREHENSIVE TEST/EVALUATION PROGRAMS USE OF THESE DEVICES DO NOT PERMIT EXTENSIVE EVALUATION BY THE USERS. WE ARE ATTEMPTING TO OBTAIN ADDITIONAL SETS FOR OUR FORCES AS THEY BECOME AVAILABLE.

7 C. (C) ITEM A-9: LOADING COMPATIBILITY. COMMENT: IN THE COURSE OF PLANNING FOR PREVIOUS CONTINGENCIES AND ANTICIPATION FOR FUTURE APPLICATION TO THE [REDACTED] MILITARY [REDACTED] HAS BEEN AND WILL CONTINUE TO BE CONSIDERED TO EFFECTIVELY UTILIZE [REDACTED]. THE HH-53H (PAVE LOW) NEEDS TO BE MODIFIED WITH A FOLDING MAIN ROTOR. THE US NAVY IS PRESENTLY PURCHASING A NEW HIGHLY RELIABLE ELASTOMERIC MAIN ROTOR HEAD FOR ITS H-53. INCORPORATION OF FOLDING ELASTOMERIC ROTOR HEADS WILL PERMIT USE OF [REDACTED] AND GREATLY REDUCE MAINTENANCE REQUIREMENTS ON HH-53. REF A PARA 8A(2) AND REF B IDENTIFIED THIS REQUIREMENT TO THE AIR STAFF. NO FORMAL ACTION HAS BEEN RECEIVED TO DATE.

D. (C) ITEM A-10: IMPORVEMENT TO FULTON RECOVERY SYSTEM. COMMENT: CONCUR WITH THE NEED FOR A SHORT TERM IMPROVEMENT TO THE EXISTING FULTON RECOVERY SYSTEM. RECOMMEND IMMEDIATE REPLENISHMENT OF CURRENTLY LOW STOCK LEVELS OF FULTON EQUIPMENT. ADDITIONALLY, AS IDENTIFIED IN REF A PAR 8C(4), WE ENVISION THE NEED FOR DEVELOPMENT OF A FOLLOW-ON SYSTEM CAPABLE OF EXTRACTING UP TO 12 PERSONNEL PER RECOVERY PASS. EVENTUAL ACQUISITION OF LONG-RANGE VIOL/TILT ROTOR AIRCRAFT, CAPABLE OF DEEP PENETRATION OF HOSTILE AIRSPACE, AS RECOMMENDED IN REF A PAR 8A(2) MAY NEGATE THE NEED FOR DEVELOPMENT OF A FOLLOW-ON FULTON SYSTEM.

COMMENTS: AS DISCUSSED IN PAR 20 OF REF ITEM WE HIGHLY CONCUR WITH THE NEED FOR AN IMPROVED LONG RANGE PRECISION NAVIGATION SYSTEM FOR THE COMBAT TALON TO ENHANCE ENROUTE NAVIGATION ACCURACY AND OPTIMIZE A REBOUND RADAR APPROACH (ARA) PROCEDURES INTO AN OBJECTIVE AREA, ESPECIALLY DURING [REDACTED] OPERATIONS. AS RECOMMENDED IN REF A PAR 6(C), INSTALLATION OF A DUAL, REDUNDANT, HIGH ACCURACY, RELIABLE, INERTIAL NAVIGATION SYSTEM SUCH AS THE AN/ASD-136 SPN GEARS SHOULD BE PURSUED. REF C PAR 5 STATED THAT MEMBERS OF THE COMBAT TALON COMMUNITY RECOMMENDED THE ABOVE SYSTEM AS A REPLACEMENT FOR THE AGING LN-15J (SINGLE) INS CURRENTLY ON THE COMBAT TALON, AND STATED THAT STRONG SUPPORT FROM USAF MAJCOMS IS REQUIRED IF EFFORTS TO OBTAIN FUNDS FOR THIS MODIFICATION ARE TO BE SUCCESSFUL. (NOTE: ITEM E-3 PAR 4E ADDRESSES THE ABOVE REQUIREMENT AND PROVIDES ADDITIONAL RATIONALE FOR THE ACQUISITION OF THE AN/ASD-136 SPN GEARS). RECOMMEND PURCHASE OF THESE SYSTEMS FOR WORLDWIDE COMBAT TALON FLEET.

F. (5) ITEM C-4: COMBAT CONTROL TEAM OPERATIONS. COMMENTS: SINCE THE FORMATION OF THE MAC COMBAT CONTROL TEAM, [REDACTED] MANY OF THE DEFICIENCIES IDENTIFIED IN THIS ITEM HAVE BEEN RECTIFIED OR ARE IN THE PROCESS OF BEING WORKED. FOR EXAMPLE. . .

SUB ITEM 2C(1)(A)5 - RADIOS: A PROGRAM TO PURCHASE AN INTER TEAM RADIO (MOTOROLA 300 S) FOR CCT IS ONGOING. IT IS ANTICIPATED SUBJECT RADIOS WILL BE RECEIVED BY DEC 81.

SUB ITEM 2D(3)(A) - PERSONAL WEAPONS: [REDACTED] WEAPONS HAVE BEEN RECEIVED BY [REDACTED] AND [REDACTED] BEEN PLACED ON ORDER.

SUB ITEM 2D(3)(B) - CLOTHING: SUBJECT EQUIPMENT IS CURRENTLY ON HAND.

SUB ITEM 2D(3)(C) - UNIFORMS FOR GEOGRAPHIC AREAS: UNIFORMS FOR SPECIFIC GEOGRAPHIC AREAS HAVE BEEN RECEIVED.

SUB ITEM 2E - MANNING: MANPOWER STUDIES ARE CURRENTLY ONGOING TO DETERMINE THE SIZE CCT FORCE NECESSARY [REDACTED] OPERATIONS.

G. (5) ITEM C-5: LANDING ZONE (LZ) ACQUISITION & LIGHTING TEST. COMMENT: SPECIFIC RECOMMENDATIONS AS TO TYPE OF LIGHTING AND PATTERN CONFIGURATION THAT RESULTED FROM THE ABOVE TEST ARE BEING IMPLEMENTED AS A STANDARD OPERATING PROCEDURE (SOP) BY THIS HEADQUARTERS. WE HAVE RECENTLY EXPANDED TESTING OF THE OVAL/GREEN BOX PATTERN WITH ACCOMPANYING CENTERLINE WHITE STROBE [REDACTED]

H. (5) ITEM D-6: TACTICAL CAPABILITY DEVELOPMENT.

SUB ITEM 2A(5): TRAINING. COMMENT: [REDACTED] TO JOINTLY EMPLOY THE [REDACTED] IN EXERCISE SCENARIOS. FURTHER INDIVIDUAL TRAINING REQUIREMENTS [REDACTED] ON [REDACTED] CREWS STRESS THE CAPABILITIES DEVELOPED DURING ROYAL DROGGER, POTENTIAL CHARGE AND SUBSEQUENT TRAINING EXERCISES.

SUB ITEM 2A(5): PAVE LOW RADAR. COMMENT: THE RELIABILITY OF THE AN/ASD-136 RADAR INSTALLED IN THE PAVE LOW HAS BEEN LESS THAN DESIRED, PARTICULARLY WHEN OPERATING UNDER EXTREMELY BUSY CONDITIONS. AIR FORCE SYSTEMS COMMAND IS PRESENTLY TESTING A POSSIBLE REPLACEMENT RADAR SET ON ONE OF THE PAVE LOW HELICOPTERS. UPON SUCCESSFUL COMPLETION OF THIS EVALUATION, RECOMMEND INSTALLATION IN THE ENTIRE PAVE LOW FLEET AS THE SYSTEM BECOMES AVAILABLE.

SUB ITEM 2D: HEAVY WEIGHT OPERATIONS. COMMENT REF A RECOMMENDED THAT THE HH-53B BE MODIFIED TO INCLUDE STRENGTHENED LANDING GEAR AND TAIL PYLON TO ACCOMMODATE INCREASED GROSS WEIGHTS OF UP TO 50,000 POUNDS. THESE WEIGHTS ARE NECESSARY TO PROVIDE THE LONG RANGE CAPABILITY. [REDACTED] IN ADDITION TO THE FORMAL TESTING AND MODIFICATION PROGRAM, PERFORMANCE CHARTS IN AIR FORCE PUBLICATIONS NEED TO BE CHANGED TO REFLECT INCREASED POWER REQUIREMENTS, FUEL CONSUMPTION, ETC.

I. (5) ITEM D-9: MODIFICATIONS.

SUB ITEM F- THIRD PILOT/NAVIGATOR POSITION WITH OMEGA. COMMENT: WE AGREE WITH THE RECOMMENDATION THAT THE PRECISION NAVIGATION SYSTEM BE INTEGRATED INTO EXISTING PILOT DISPLAYS. [REDACTED] AIRCRAFT HAVE BEEN CONFIGURED WITH OMEGA NAVIGATION SETS. OUR EXPERIENCE WITH UH-60 AND PALLETIZED INERTIAL NAVIGATION SYSTEMS (PINS) INDICATES THAT A MUCH HIGHER DEGREE OF ACCURACY CAN BE OBTAINED WITH PINS. PINS WILL PROVIDE THE FURTHER ADVANTAGE OF BEING TOTALLY SELF-CONTAINED AND NOT DEPENDENT UPON EXTERNAL SOURCES OF INFORMATION OR VULNERABLE TO ATMOSPHERIC DISTURBANCES AND EMBEY REASONING. RECOMMEND PURCHASE OF SUFFICIENT PINS IN LIEU OF OMEGA, TO PROVIDE THIS PRECISION CAPABILITY TO SELECTED UH-60, AND CH-47 HELICOPTERS. THE PREFERRED SOLUTION WOULD MODIFY ALL SPECIAL OPERATIONS UH-60 AND CH-47 WITH THE WIRING TO RAPIDLY ACCEPT PINS AND PROVIDE THE FLEXIBILITY TO DRAW MISSION AIRCRAFT FROM THE ENTIRE TASK FORCE.

K. (X) ITEM E-3: (MODIFICATIONS) HC-130 COMBAT TALON.  
COMMENT: SUB PAR 4B - DUAL RAIL/EWO EQUIPMENT RACK MODIFICATION.  
THE IRANIAN EXPERIENCE AND RECENT [REDACTED] HIGHLIGHTED THE NEED FOR ENHANCING/MODIFYING THE CARGO COMPARTMENT IN THE HC-130 COMBAT TALON TO ACCOMMODATE THE NECESSARY FORCES TO ACCOMPLISH [REDACTED] MISSION. REF C PAR 4C SURFACED A PROPOSAL TO EXPAND CARGO COMPARTMENT CAPACITY BY REMOVING/REARRANGING THE EWO CONSOLE AND/OR THE ELECTRONIC EQUIPMENT RACK AND EXTENDING THE DUAL RAILS. A MINIMUM OF ONE ADDITIONAL CARGO PALLET COULD THUS BE ACCOMMODATED. IN LIGHT OF THE SCARCE TALON RESOURCES AVAILABLE, AND THE NEED TO MAXIMIZE THE ASSAULT FORCES AVAILABLE IN AN AIRFIELD SEIZURE SCENARIO, RECOMMEND IMMEDIATE PURSUIT OF THIS PROPOSED MODIFICATION. REF A PAR 6C(1) FURTHER IDENTIFIES THIS REQUIREMENT.

L. (X) ITEM E-4: (AC-130 OPERATIONS) [REDACTED]  
COMMENT: THE AC-130 GUNSHIP REQUIRES INS MODERNIZATION FOR THE SAME REASONS AS DOES THE HC-130 COMBAT TALON AS DISCUSSED IN ITEM E-3.

ADDITIONALLY, AS IDENTIFIED [REDACTED], RECOMMEND THE INSTALLATION OF A TF/TA RADAR IN THE GUNSHIP (SIMILAR TO THAT USED IN THE COMBAT TALON).

[REDACTED]

RECOMMEND AN IMMEDIATE ENGINEERING STUDY BE INITIATED TO EQUIP THE GUNSHIP AS STATED ABOVE.

M. ITEM E-9: (MODIFICATION) AC-130 SPECTRE GUNSHIPS.  
COMMENT: AS STATED IN REF A PAR 6B(1), SURVIVABILITY ENHANCEMENTS PERTAINING TO THE AC-130 WEAPON SYSTEM SHOULD BE GIVEN HIGHEST PRIORITY. CONCUR WITH RECOMMENDATIONS TO INSTALL STATE-OF-THE-ART EQUIPMENT IN THE AIRCRAFT TO INCLUDE [REDACTED]

[REDACTED]

N. (X) ITEM E-14: (MODIFICATIONS) HC-130 TANKERS.  
COMMENT: THE CAPABILITY OF SELECTED HC-130 AIRCRAFT AND CREWS TO PERFORM SPECIAL OPERATIONS HAS INCREASED DRAMATICALLY SINCE THE BEGINNING DEVELOPMENTS IN HONEY BADGER. THIS CAPABILITY NEEDS TO BE FURTHER EXPANDED BY INCORPORATION OF A TF/TA RADAR TO PERMIT LOW LEVEL ADVERSE WEATHER PENETRATION OF HOSTILE AIRSPACE. IN THE BANJAH SCENARIO, [REDACTED]

PROVIDE LOW LEVEL REFUELING TO RH-53'S, IT WOULD HAVE REDUCED THE REQUIREMENT TO HAUL FUEL BLIVETS IN-COUNTRY AND FURTHER REDUCED MISSION FORCE EXPOSURE TO HOSTILE FIRE/MISSION COMPROMISE.

(SIC) SUB ITEM 20: CAPABILITY TO RECEIVE FUEL INFLIGHT.  
COMMENT: WE HAVE INFORMALLY PROPOSED TO MAC RESCUE THAT SEVERAL, IF NOT ALL, HC-130S BE MODIFIED WITH IN-FLIGHT REFUELING (IFR). THE RESPONSE WAS WELL RECEIVED DUE TO THE EXTREME WORLD WIDE SHORTAGE OF HELICOPTER TANKERS. RECOMMEND SELECTED HC-130 BE SENT TO LOCKHEED AIR SERVICE WHEN HC-130 AND AC-130 FLEET HAVE COMPLETED THE IFR MOD OR AS SPACE ON THE MODIFICATION LINE PERMITS.

O. (X) ITEM G-2: FORWARD COMMAND POST. COMMENT: WE AGREE WITH THE NEED FOR "COMMAND POST" COMMUNICATIONS VEHICLES TAILORED TO OUR SPECIFIC NEEDS AND DEVELOPMENT OF SUCH VEHICLES IS A MAJOR ON-GOING PROJECT. FOR FIELD USE WE HAVE DEVELOPED AND TESTED AN M-151A1 JEEP EQUIPED WITH TWO PRT-250 VINSON OR PARKHILL SECURE UHF SATCOM RADIOS AND A PARKHILL SECURE HF RADIO. WE ARE DEVELOPING A [REDACTED]

EQUIPED WITH TACTICAL AND HF RADIOS PLUS UHF SATCOM SECURE VOICE, TELETYPE AND FACSIMILE. THIS PROTOTYPE SHOULD BE COMPLETED BY 15 JULY 1961.

P. (C) ITEM G-4: CEOI. COMMENT: [REDACTED] USING A CEOI FORMAT SIMILAR IN NATURE TO THAT USED BY JTF, BUT GREATLY SIMPLIFIED AND STANDARDIZED. WE ARE WORKING WITH NSA AND ASSIGNED/ATTACHED FORCES TO DEVELOP A PERMANENT AUTOMATED CEOI IN-ARMY [REDACTED] WE HAVE [REDACTED]

**SECRET**

DEPARTMENT AND UNIT SUPPORT.

FF. (S) ITEM 1-2: ACCESS CONTROL. COMMENT: DEVELOPING A STANDARDIZED PROJECT ACCESS GUIDE FOR USE [REDACTED] ONE VERSION WAS USED IN RECENT PLANNING EXERCISE. APPROVING AUTHORITY FOR ACCESS WAS VESTED IN PROJECT OFFICER WITH PERIODIC ROSTER VERIFICATIONS ATTEMPTED. THE GUIDE WAS A BIG STEP IN THE RIGHT DIRECTION [REDACTED] SUBORDINATE UNIT ACCESS WAS VERIFIED ON A CASE-BY-CASE BASIS. HOWEVER, [REDACTED] TO CONFIRM OR VERIFY KNOWLEDGEABILITY WITHIN STAFFS AND HEADQUARTERS BEYOND OUR SPAN OF CONTROL.

GG. (S) ITEM 1-3: DOCUMENT SECURITY. COMMENT: RECOMMENDATIONS WERE ADOPTED FOR RECENT PLANNING EXERCISE WITH SOME SUCCESS. CONCUR THAT VIABILITY OF SECURITY PROGRAM IS DEPENDENT ON EARLY DISSEMINATION OF SECURITY GUIDELINES APPLICABLE TO, AND UNDERSTOOD BY, ALL PARTICIPANTS. ONE HEADQUARTERS OR ORGANIZATION MUST BE "IN CHARGE" TO FACILITATE CONTROL.

HH. (S) ITEM 1-4: ACCESS CONTROL. COMMENT: CONCUR WITH RECOMMENDATIONS IN PRINCIPLE. HOWEVER, FURTHER STUDY IS REQUIRED VIS A VIS THE APPLICABILITY OF [REDACTED]

II. (S) ITEM 1-5: PLANNING CONFERENCE SECURITY. COMMENT: RECOMMENDATIONS WILL BE ADOPTED [REDACTED]

JJ. (S) ITEM 1-6: PRE-DEPLOYMENT SECURITY. COMMENT: DEDICATED SECURE COMM IS NOW AVAILABLE AMONG [REDACTED] VIA DIAL-UP AND SATCOM CIRCUITS. THIS "LASH UP" WILL BE REPLACED BY INTERIM [REDACTED] IN AUGUST 81 AND FINAL [REDACTED] BY END FY-82.

KK. (U) ITEM 1-7: RADIO FREQUENCIES. COMMENT: FREQUENCY CHANGES ARE ALWAYS PASSED BY SECURE MEANS.

LL. (C) ITEM 1-9: CODES. COMMENTS: J-6 (COMSEC) PROVIDES NSA PRODUCED OPS CODES FOR [REDACTED]. OPLAN/OPORDER PRESCRIBED CODEWORDS AND/OR CALL SIGNS ARE CONTROLLED BY J-6 AND PROVIDED FROM NSA FURNISHED LISTS.

MM. (C) ITEM 1-11: TRAFFIC ANALYTIC PROBLEMS. COMMENT: CONCUR. WE ARE IN THE PROCESS OF CONVERTING [REDACTED] SATCOM TO VINSON VICE PARKHILL. WE ARE NO LONGER USING PARKHILL ON VOICE SATELLITE CIRCUITS AND WE SHOULD HAVE IT OFF OF OUR RECORD CIRCUITS IN 90-120 DAYS.

NN. (U) (S) ITEM 1-14: MEDIA. COMMENT:  
(1) (S) RECOMMENDATIONS IMPLEMENTED:  
(A) (S) [REDACTED]  
(B) (S) (U) TIGHTLY CONTROL PUBLIC AFFAIRS EXCHANGES  
(C) (S) (U) RESPOND RAPIDLY TO INQUIRIES  
(D) (S) [REDACTED]  
(E) (S) [REDACTED]  
(F) (S) [REDACTED]  
(G) (S) (U) HEADQUARTERS/SUBORDINATE UNITS MUST BE AWARE OF POTENTIAL SECURITY DANGERS IN PERSONNEL/ADMINISTRATIVE MATTERS  
(H) (S) (U) BEFORE ANY ACTION IS TAKEN, SECURITY IMPACT OF PERSONNEL/ADMINISTRATIVE MATTERS SHOULD BE CONSIDERED  
(I) (S) (U) [REDACTED]

(2) (S) RECOMMENDATION TO BE COMPLETED:  
(A) (S) (U) [REDACTED]

(B) (S) (U) ADMINISTRATIVE/PERSONNEL SOPs SHOULD BE ESTABLISHED. ESTIMATED COMPLETION DATE: AUG 81 (CURRENTLY BEING WRITTEN BY J-1).

(C) (S) (U) ORDERS SHOULD BE AVAILABLE ON SHORT NOTICE. ESTIMATED COMPLETION DATE: JULY 81 (J-3 CURRENTLY WRITING TACTICAL OPERATIONS STANDARD OPERATING PROCEDURE WHICH WILL ADDRESS SHORT NOTICE DEPLOYMENT).

(S) (S) (U) [REDACTED]

(4) (S) (U) RECOMMENDATIONS WHICH WILL NOT BE IMPLEMENTED:  
NONE

(5) (S) (U) GENERAL COMMENTS ON SOME OF THE RECOMMENDATIONS LISTED ABOVE ARE: (S) [REDACTED]

(2) (S) TIGHT CONTROL OF PUBLIC AFFAIRS EXCHANGES HAS BEEN AND WILL CONTINUE TO BE IMPLEMENTED. SPECIFIC DETAILED GUIDANCE IS GIVEN CONCERNING WHAT INFORMATION MAY BE DIVULGED IN THE EVENT OF AN ACCIDENT. ALL OTHER MEDIA INQUIRIES ARE REFERRED TO PUBLIC AFFAIRS CHANNELS.

CONFIDENTIAL

B

(3) (S) RAPID RESPONSE TO INQUIRIES IS RECOGNIZED AS AN ESSENTIAL FACTOR [REDACTED] BEEN IN A POSITION TO ANSWER MEDIA INQUIRIES DURING AN OPERATION BUT WE HAVE INCLUDED PROVISIONS FOR RAPID RESPONSE TO MEDIA INQUIRIES BY PRIOR COORDINATION THROUGH JCS WITH OASD/PA. PARTICIPATING UNITS HAVE BEEN BRIEFED TO REFER ALL INQUIRIES TO PUBLIC AFFAIRS OFFICERS WHO ARE INSTRUCTED TO ANSWER SPECIFIC QUESTIONS ONLY. QUESTIONS ASKED WHICH CANNOT BE ANSWERED WITH THE EXISTING GUIDANCE ARE ACCEPTED AND FORWARDED TO OASD/PA. QUESTIONS REQUIRING AN IMMEDIATE RESPONSE ARE TO BE REFERRED DIRECTLY TO OASD/PA.

B

[REDACTED]

THESE SOURCES INCLUDE DIA, [REDACTED] SUPPORT IS ALSO REQUESTED FROM SUPPORTING ASSETS, INCLUDING THE SERVICES, TO ASSIST IN REDUCING AND OR ELIMINATING VULNERABILITIES THROUGH COUNTERINTELLIGENCE AND COMMUNICATIONS SECURITY SUPPORT.

(F) (S) IT IS ESSENTIAL THAT HEADQUARTERS AND SUBORDINATE UNITS BE AWARE OF POTENTIAL SECURITY DANGERS IN PERSONNEL/ADMINISTRATIVE MATTERS. OPERATIONAL PLANNING HAS INCLUDED THE PROVISIONS FOR PERSONNEL ADMINISTRATION. ALTHOUGH NOT YET ACTUALLY EXPERIENCED DURING AN OPERATION, [REDACTED]

[REDACTED] DURING AND OPERATIONAL DEPLOYMENT HAVE BEEN LOOKED AT. DEFINITIVE GUIDELINES WILL BE ESTABLISHED IN THE OPLAN/OPORDERS FOR FUTURE OPERATIONS.

(G) (S) ADMINISTRATIVE AND PERSONNEL SOPS ARE CURRENTLY BEING WRITTEN AND WILL BE PROMULGATED IN THE NEAR FUTURE. OPSEC/SECURITY CONSIDERATIONS HAVE BEEN INCLUDED.

B

[REDACTED]

(I) (S) THE FACT THAT ORDERS ARE AVAILABLE ON SHORT NOTICE IS AN ESSENTIAL ELEMENT OF RAPIDLY DEPLOYING AN ADVON/SURVEY TEAM.

[REDACTED]

2. (S) THE CAPABILITIES, LIMITATIONS AND PROBLEM FIXES OUTLINED IN THIS COMPREHENSIVE DOCUMENT ARE BEING WORKED AND CAN BE RESOLVED BY JCS, SERVICE STAFFS, NSA AND DIA, TO WHOM DISTRIBUTION ALREADY MADE.

THEREFORE WE FEEL DISSEMINATION TO OTHER PARTIES IS UNNECESSARY. THROUGHOUT THIS MESSAGE, WE HAVE PROVIDED THE STATUS OF ON-GOING ACTIONS [REDACTED]

AND WHERE WE DISAGREE WITH THE FINDINGS OF THIS STUDY. IN ADDITION, WE HAVE PROVIDED SEVERAL OTHER RECOMMENDATIONS THAT WE FEEL ARE RELATIVE TO IMPROVEMENT OF [REDACTED] AND THEIR CAPABILITIES.
