

Mission Support Organization*

*All People, All Platforms,
All Systems, and All Missions,
ALWAYS SUPPORTED.*

- ✓ **Unified acquisition delivery** and follow-on support of capability to meet operational needs, providing **total life cycle management** of all Coast Guard systems (people and assets).
- ✓ **Standard**, disciplined, repeatable & scalable **processes**.
- ✓ Disciplined **configuration management**.
- ✓ **Bi-level maintenance** support/services model (pushed support to unit).
- ✓ **Single point of accountability** for support above unit level
- ✓ **Centralized management of resources** for support above unit level

Directorates:

CG-1: Human Resources
CG-4: Engineering & Logistics
CG-6: Chief Information Officer/C4IT
CG-9: Acquisition

Logistics and Service Centers:

Aviation Logistics Center (ALC)
C4IT Service Center (C4IT SC)
Personnel Service Center (PSC)
Shore Infrastructure Logistics Center (SILC)
Surface Forces Logistics Center (SFLC)

Asset Project Office (APO):

The APO will:

- ✓ Deliver a complete “system” capability
- ✓ Determine and manage asset lifecycle costs
- ✓ Develop and implement integrated logistics support for assets

***The envisioned Deputy Commandant
for Mission Support (DCMS)**

The Shore Infrastructure Logistics Center will:

- ✓ **Maintain** and modernize the owned shore plant to achieve full life expectancy while meeting the needs of Coast Guard operations and personnel
- ✓ **Ensure** stewardship of environment and natural resources impacted by Coast Guard operations
- ✓ **Use** an innovative mix of owned and leased facilities to meet dynamic Coast Guard mission needs
- ✓ **Oversee** Base Support Services at all shore facilities, establishing organization wide performance standards for management and delivery of those services

**Vice Admiral John P. Carrier,
Chief of Staff**

CAPT Mark Carmel, SILC CO

Right Cost

Mission Support Organization*

Mission:

Enabling Coast Guard missions through Shore Infrastructure and Base Support.

Vision:

Provide sustainable Shore Infrastructure and Base Operations support, enabling Coast Guard mission execution.

The SILC will transform shore facility management from decentralized support, based on locally defined requirements to centralized support providing :

- ✓ Configuration Management
- ✓ Bi-Level Maintenance
- ✓ Total Asset Visibility
- ✓ Product Line Management

Shore facilities are a strategic resource sustaining the Coast Guard's capability to perform its operational missions. Today's Coast Guard shore facilities are a mix of owned and leased, supporting personnel, cutters, small boats and aircraft.

Key Accomplishments:

- ✓ Established the Shore Infrastructure Logistics Center (SILC) on 17 Feb.
- ✓ Established the Facilities Design and Construction Center (FDCC), formerly the FDCC Atlantic and designated the FDCC Pacific as a detachment of FDCC on 14 Sept.
- ✓ Established the SILC Shore Maintenance Command (SMC) with the Civil Engineering Units (CEUs) reporting to the SMC on 14 Sept.
- ✓ Transitioned the ISC Facilities Divisions to SILC Base Support Units (BSUs).

Future Initiatives:

- ✓ Commence pilots that establish product lines to Initial Operating Capability (level 1) in the new Coast Guard Logistics Business model.
- ✓ Commission a Business Process Review for optimized processes at the BSUs.
- ✓ Complete the initiative to identify the size and value of the shore inventory to achieve Total Asset Visibility.

Ceremonial ribbon cutting for the SILC.

SILC Product Lines:

Product Lines	
PLM	Assets
AVIATION FACILITIES	
CDR Jack Poling (757) 628-4253	Air Stations, HITRON, AVSUPFACs, AVDETS
