

## Parent-Teen Activity Series

### Tip of the Month

Computers are a wonderful way to store and share important family information, so why not make an electronic family photo album together? This can contain important events and places you've shared, family stories you cherish, and special people you hold dear. You can be creative and write stories, letters, poems, etc. If you and your family do not have a home computer, use one at school, the library, coffee houses, cyber cafes, youth centers, etc. Wherever there's a computer, there's a way to make an electronic family album!
