MEMORANDUM FOR INFRASTRUCTURE STEERING GROUP (ISG) MEMBERS

SUBJECT: Coordination on Proposed Resolutions of Scenario Conflicts

As agreed at the October 15, 2004, Infrastructure Steering Group meeting, the DASs were to brief only those scenarios for which they could not agree on a proposed resolution. Because the DAS's review of the third batch of scenarios indicated there were no issues for in-person ISG deliberations, we will obtain your concurrence on the DAS's newly proposed resolutions via paper.

The attached package includes all 296 scenarios registered in the tracking tool as of October 15, 2004. A summary of these scenarios, broken out by category (Independent, Enabling, Conflicting, Deleted, and Not Ready for Categorization) can be found at TAB 1.

The section titled "New Conflicts Settled" includes new scenario conflicts on which the DASs and affected JCSGs agree regarding the proposed resolution (TAB 2). The section titled "Old Conflicts Settled – Awaiting ISG Approval" includes scenario conflicts on which the DASs and affected JCSGs agreed to the proposed resolution and were sent to the ISG members on October 25, 2004 for concurrence. The details of the remaining scenarios, by category, are provided at TAB 4 – TAB 7.

Request your written concurrence on the proposed resolutions (TAB 2) by close of business on Friday, November 12, 2004.

A handwritten signature in black ink, appearing to read "Michael W. Wynne".

Scenario Title: GC-CF-0015: Create a Single Mid-Atlantic Regional Correctional Facility

Description:

Realign Naval Station Norfolk, Marine Corps Base Quantico and Camp Lejeune by disestablishing the correctional facilities at Marine Corps Base Quantico and Camp Lejeune and relocating the mission to a single Level II joint regional correctional facility to be located in Hampton Roads South.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Naval Station Norfolk (Year built-1972)/(FY02 inmate count-158); Marine Corps Base Quantico (Year built-1972)/(FY03 inmate count-46); Camp Lejeune (Year built-1969)/(FY02 inmate count-232). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ location in Chesapeake, Va.
- A 400 bed facility is required.

Potential Conflicts:

- Cultural: Fewer DoD-level correctional facilities amongst military departments.
- DON concern of 4-hour commute to Hampton Roads and MOA w/FBI/CIA. No MOA exists between Quantico and FBI/CIA per Heads Corrections (PSL) HQ, USMC.

Enhances Service AC/RC interoperability.
Merge common support functions.
Reduce staff.
Potential to close NSA New Orleans.
Administrative buildable acres at Norfolk: 16.5.
Required maximum acres at Norfolk: 5.8

Scenario Title: Scenario SR-3

Description:

This scenario assumes a DON scenario which moves a CVN Strike Group from Norfolk to Hawaii. Also assumes the replacement carrier for USS KITTY HAWK (CV 63) upon her decommissioning comes from the East Coast. Pearl Harbor NSY&IMF partners with Puget Sound NSY or other nuclear carrier qualified workforce to perform the I-Level ship maintenance work for the carrier. To compensate for the additional carrier work performed at Pear Harbor, this scenario moves some long-term submarine depot work from Pearl Harbor to Portsmouth NSY or to Puget Sound NSY&IMF or Norfolk NSY. This scenario also realigns maintenance of Army watercraft stationed in Hawaii to Pearl Harbor NSY&IMF.

This scenario also assumes a DON scenario closes SUBASE New London and moves 2 SSN 21 ships to Bangor, 5 SSNs to Norfolk, 4 SSNs to Pearl Harbor and 6 SSNs to Portsmouth NSY. This scenario also assumes a DON scenario closes SUBASE Point Loma and moves the SSNs and the floating drydock ARCO to Pearl Harbor. Also assumes 2 SSGNs move from Kings Bay to Bangor. Also assumes 2 FFGs move from Pascagoula to Mayport and SIMA and NAVSTA Pascagoula close. Also assumes 5 MCMs and 6 MHCs move from Ingleside to both Mayport and to San Diego and Ingleside closes. All associated intermediate-level ship maintenance work moves to the new ship locations. This scenario also disestablishes Boston Planning Yard and Plant Equipment Support Office, Annapolis, and realigns there work with their respective shipyards, Puget Sound NSY and Norfolk NSY. Scenario Title: GC-CF-0003: Transfer Level III Discharged Prisoners to Federal Bureau of Prisons

Description:

Realign Ft Leavenworth by transferring long-term (Level III) bed space to Federal Bureau of Prisons (FBOP). Increase number of long-term (Level III) beds with the Federal Bureau of Prisons for transfer from United States Disciplinary Barracks (USDB), Ft Leavenworth.

Justification/Impact:

Current agreement with Federal Bureau of Prisons (FBOP) is insufficient.

- Approximately 1/3 of long-term prisoners are fully adjudicated and discharged from the military.
- Increase in FBOP support would open beds for shorter long-term prisoners at Level II facilities.
- Discharged prisoners would be sent to federal system.
- Efficient utilization of United States Disciplinary Barracks beds/cells.
- Promotes "Good order and discipline," by transferring prisoners who have committed the most serious of offenses and given long term or life sentences, away from general prison population.

Potential Conflicts:

- Cultural: "Cradle to grave" mentality. Military departments may wish to keep fully adjudicated and discharged prisoners as a way of the military "taking care" of its own.
- Other: Cost.

Scenario Title: GC-CF-0012: Create a Single Northwestern Regional Correctional Facility

Description:

Realign Subbase Bangor and Fort Lewis by disestablishing the correctional facility at Subbase Bangor and relocating the mission to a single Level II joint regional correctional facility located at Fort Lewis.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- Subbase Bangor (Year built-1995)/(FY01 inmate count-42); Fort Lewis (Year built-1957)/(FY03 inmate count-206). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable land is available at Fort Lewis, questionable as to availability of land at Subbase Bangor. New facility required at Fort Lewis.

Potential Conflicts:

- Cultural: Fewer DoD-level correctional facilities amongst military departments.

Realign MCAS Miramar, Edwards AFB, Kirtland AFB and Camp Pendleton by disestablishing the correctional facilities at Edwards AFB, Kirtland AFB and Camp Pendleton and relocating the mission to a single ILevel II joint regional correctional facility to be located at MCAS Miramar.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- MCAS Miramar (Year built-1989)/(FY03 inmate count-320); Edwards AFB (Year built-1950)/(FY03 inmate count-14); Kirtland AFB (Year built-1950)/(FY01 inmate count-16);Camp Pendleton (Year built-1972)/(FY02 inmate count-213). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ MCAS Miramar. Additional facility required.
- MCAS Miramar remains executive agent for Level III females.

Potential Conflicts:

- Cultural: Fewer DoD-level correctional facilities amongst military departments.
- DON: Large Level I requirement as of 9/22/04 (60-pre-trial, 61-adjudged level I, 51- level II). Pretrial confinement is used intuitively by DON (cultural). USA and USAF don't use pre-trial as often as DON.

Scenario Title: GC-CF-0017: Create a Single Southeastern Regional Correctional Facility

Description:

Realign Naval Weapons Station Charleston, Naval Air Station Pensacola and Naval Air Station Jacksonville by disestablishing the correctional facilities at Naval Air Stations Pensacola and Jacksonville and relocating the mission to a single Level II joint regional correctional facility to be located at Naval Weapons Station Charleston.

Justification/Impact:

- Improves jointness, catalyst to creating a DoD correctional system with a single executive agent.
- NWS Charleston (Year built-1989)/(FY02 inmate count-241);NAS Jacksonville (Year built-1990)/(FY02 inmate count-40); NAS Pensacola (Year built-1995)/(FY01 inmate count-36). Used largest inmate count provided from Capacity Data FY01-03.
- Buildable acres available @ NWS Charleston.

Potential Conflicts:

- Cultural: Fewer DoD-level correctional facilities amongst military departments.

Relocate and consolidate DFAS Business Line, Corporate and Administrative functions, except for contracted product line operations and locally required customer support/liaison staff, into the following 3 retained DFAS sites:

- (1) DFAS-Columbus, (Defense Supply Center-Columbus, Buildings 10, 11 & 21) 3990 E Broad St, Building #21, Columbus, OH 43213 (Accounting Services, Commercial Pay Services, Military & Civilian Pay Services, Corporate and Administrative Organizations, and Technology Services)
 - (a) NOTE: DFAS requires an additional 209,323 USF above Capacity Data Call (CDC) #1 reported assigned space. Defense Logistics Agency's CDC response for Defense Supply Center indicated 363,200 USF vacant/available.
 - (b) Pending scenario question responses, functions from the following locations have the greatest potential for realignment to DFAS-Columbus: DFAS-Arlington, DFAS-Cleveland, DFAS-Dayton, DFAS-Limestone, DFAS-Norfolk NAS, DFAS-Patuxent River, and DFAS-Rome.
- (2) DFAS-Denver, (Buckley AFB Annex, Buildings 444, 607 & 609, former Lowry AFB) 6760 E. Irvington Place, Denver, CO 80279 (Accounting Services, Commercial Pay Services, Military & Civilian Pay Services, Corporate and Administrative Organizations, and Technology Services)

Registered Scenarios

As Of: 10/15/2004

Organization)

(a) NOTE: DFAS requires an additional 127,929 USF above CDC #1 reported assigned space. Departure of Air Reserve Personnel Center (ARPC) will free up 127,964 USF and enable completion of DFAS realignment to Buckley AFB Annex. Scenarios associated with the ARPC are HSA-0004, HSA-0005, and HSA-0008.

(b) Pending scenario question responses, functions from the following locations have the greatest potential for realignment to DFAS-Denver: DFAS-Lawton, DFAS-Oakland, DFAS-Omaha, DFAS-Pacific (Ford Island), DFAS-Red River, DFAS-San Antonio, DFAS-San Bernardino, DFAS-San Diego, and DFAS-Seaside.

(3) DFAS-Indianapolis, (Bean Federal Center, former Ft Benjamin Harrison) 8899 E. 56th Street, Indianapolis, IN 46249 (Accounting Services, Commercial Pay Services, Military & Civilian Pay Services, Corporate and Administrative Organizations, and Technology Services Organization)

(a) NOTE: DFAS requires an additional 26,697 USF above CDC # 1 reported assigned space. Departure of Human Resource Command – Indianapolis (former EREC) will free up 76,740 USF and enable completion of DFAS realignment. Scenarios associated with the Human Resource Command – Indianapolis HSA-0004, HSA-0005, and HSA-0006.

(b) Pending scenario question responses, functions from the following locations have the greatest potential for realignment to DFAS-Indianapolis: DFAS-Charleston, DFAS-Kansas City, DFAS-Lexington, DFAS-Orlando, DFAS-Pensacola NAS, DFAS-Pensacola Saufley Field, DFAS-Rock Island, and DFAS-St Louis.

Locations with potential retained customer support/liaison staff, contracted function(s), or which are deemed special purpose in nature include:

(1) Technology Services Organization Liaison - Defense Property Accountability System, DFAS-Mechanicsburg, (Navy Supply Information Systems Activity, Building 407) 5454 Carlisle Pike, FMSO Code 97412, Mechanicsburg, PA 97412

(2) Other customer support/liaison staff locations TBD (i.e., DFAS-Seaside, Corporate and Administrative Organization-Internal Review Auditors for Defense Manpower Data Center)

(3) LMIT-Retired & Annuitant Pay Contractor, DFAS-Cleveland, 1240 E 9th Street, Cleveland, OH 44199

(4) Corporate and Administrative Organization-Contractor Support, Southbridge Hotel & Conference Center, 14 Mechanic Street, Southbridge, MA 01566

(5) Technology Services Organization, DFAS-Cleveland Bratenahl, (Defense Contract Management Agency Hosted Installation) 555 E 88th St (Admiral Kidd Center), Bratenahl, OH 44108

Justification/Impact proposed:

- Reduces footprint – Admin by 42% or 1,399,421 USF and Warehouse by 69% or 525,690 GSF.
- Implements merge/co-location personnel reduction (15%).
- Overall AT/FP enhancement – DFAS will be on a DoD installation or in Government leased space that meets DoD AT/FP standards.
- Service's unit costs will go down.
- Gaining site expansion enabled by departure of specific military personnel organizations from Denver and Indianapolis.
- No requirement for renovation at gaining sites.
- Risk averse – Mitigates risk thru centralized, apportioned operations (each segment may serve as backup).
- Better Business Practice - Creates business line centers of excellence.
- Facilitates DFAS re-engineering for FY2011 organization.

Scenario Title: Access to Space

Description:

Determine those specific installations that must be retained to ensure all inclinations launch to space

Imperative: Unimpeded access to space in orbits of all inclinations

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0002

Scenario Title: POTUS Support

Description:

Determine AF installation(s) best suited to support POTUS, SAM, foreign dignitary visits, and Continuity of Operations capabilities

Imperative: Maintain capability within the NCR to support the POTUS, Special Airlift Missions, foreign dignitary visits, and ensure Air Force Continuity of Operations

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0003

Scenario Title: Air Sovereignty/Air Defense

Description:

Determine airfields and installations sufficient to support air sovereignty/air defense mission

Imperative: Basing to fulfill the air sovereignty protection site and air defense response criteria stipulated by COMNORTHCOM and COMPACOM

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0004

Scenario Title: Consolidate B-52 Legacy Fleet

Description:

Realign/consolidate current B-52 force structure at as few locations as practicable

Principle: Consolidate legacy fleet; ensures force available for AEF construct

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0005

Scenario Title: Consolidate B-1 Legacy Fleet

Description:

Realign/consolidate current B-1 force structure at as few locations as practicable

Principle: Consolidate legacy fleet; ensures force available for AEF construct

Scenario # USAF-0006

Scenario Title: Consolidate A-10 Legacy Fleet

Description:

Realign/consolidate current A-10 force structure at as few locations as practicable

Principle: Consolidate legacy fleet; ensures force available for AEF construct

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0007

Scenario Title: Consolidate F-16 Legacy Fleet

Description:

Realign/consolidate current F-16 force structure by block type to consolidate like block types at as few locations as practicable

Principles: Consolidate legacy fleet; Optimize squadron size; Ensures force available for AEF construct

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0008

Scenario Title: Consolidate F-15 Legacy Fleet

Description:

Realign/consolidate current F-15C/D/E force structure to base like MDS capability at as few locations as practicable

Principles: Consolidate legacy fleet; Optimize squadron size; Ensures force available for AEF construct

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0009

Scenario Title: Mission Compatibility Index - Fighters

Description:

Base squadrons at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Target squadron size at 24 PAA; Limit wing size to <= 3 squadrons

Exceptions: If installations have more than 3 squadrons now, do not automatically reduce

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0010

Scenario Title: Mission Compatibility Index - Bombers

Description:

Base bombers at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Target squadron size at 12 PAA; Limit wing size at <= 3 squadrons

Exceptions: If installations have more than 3 squadrons now, do not automatically reduce

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0011

Scenario Title: Mission Compatibility Index - C2ISR

Description:

Base C2ISR assets at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Consolidate C2ISR assets

Exceptions: If installation has consolidated MDS now, do not reduce

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0012

Scenario Title: Mission Compatibility Index - Airlift

Description:

Base airlifters at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Optimize squadron size; Consolidate airlift assets

Exceptions: If installation has consolidated MDS now, do not reduce

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0013

Scenario Title: Mission Compatibility Index - Space Ops

Description:

Base space ops assets at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Consolidate Space ops assets, if consolidation is not complementary

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0014

Scenario Title: Mission Compatibility Index -SOF/CSAR

Description:

Base SOF and CSAR and A-10 assets at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Consolidate SOF assets; Consolidate CSAR assets; Consolidate A-10 assets

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0015

Scenario Title: Mission Compatibility Index - Tankers

Description:

Base at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Optimize squadron size at 16 PAA (KC-135s)/12 15 PAA (KC-10)

Must maintain proximity to deployment routes

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0016

Scenario Title: Mission Compatibility Index - UAV/UCAS

Description:

Base UAV/UCAS assets at the optimum number of installations based on MCI rating and theoretical capacity

Principles: Primary determinant - MCI rating; Consolidate similar UAV/UCAS assets

Preserve capacity required for post-2011 (UAV/UCAS) force structure

Registered Scenarios

As Of: 10/15/2004

Scenario # USAF-0017

Scenario Title: Geographic Co-location

Description:

Consider co-locating Total Force presence among multiple installations when locations are within proximity of each other

Principles: Primary determinant - Maintain/Place ARC units to meet the requirements of the Air Force at locations that meet the demographic and mission requirements unique to the ARC
