

## **BRAC 2005 Infrastructure Steering Group (ISG)**

### **Meeting Minutes of November 19, 2004**

The Acting Under Secretary of Defense (Acquisition, Technology, and Logistics), Mr. Michael W. Wynne chaired this meeting. The list of attendees is attached.

Mr. Wynne opened the meeting by asking Mr. Pete Potochney, Director of the OSD BRAC Office, to use the attached slides to facilitate the meeting. When reviewing the timeline, Mr. Potochney noted that the supplemental BRAC public affairs guidance had been released and that scenario data calls were beginning to be issued by the Military Departments. After a brief discussion on timeline issues, the ISG agreed to the following:

- Maintain the December 20, 2004, deadline for JCSG submission of candidate recommendations
- Define the key events that will occur from January through March at the next ISG
- Form a Red Team to review candidate recommendations.
  - Red Team will identify technical problems but will not substitute its judgment for the military judgment embodied in the candidate recommendations.
- Their review may require refining the analysis supporting the candidate recommendations.
  - Red team will report to the IEC Executive Secretary because they will be reviewing both JCSG and Military Department candidate recommendations
  - Review will occur from January through February.
  - The next ISG meeting will cover the draft charter and draft roster for the Red Team.

Mr. Potochney next discussed the importance of data accuracy. He noted that the DoD Inspector General and Service Audit Agencies have processes in place to monitor data quality and found, through site visits, that the capacity and military value data is sound overall. He noted that there are differences in how the Military Departments intend to process scenario data calls indicating that this information would be obtained from the field or from headquarters and reliance on either source varied by service. He cautioned the ISG that the scenario data call information must be of the highest quality and reflect conditions at the installation level because communities will be prepared to present their case opposing DoD's recommendations with information they generate locally.

Mr. Potochney next briefed the scenario conflicts resolved to date and asked the ISG's concurrence on the DAS-recommended conflict resolutions. He indicated that the DASs could not reach a consensus for resolution of two scenarios (impacting one installation). The ISG agreed to address this at its next meeting. Mr. Wynne asked the ISG members to think about how they might present the unresolved conflict to the IEC in the event the ISG is unable to resolve the issue.

The ISG deliberated on the proposed approach to addressing homeland security concerns. The ISG agreed that there are three elements to homeland security (homeland defense, civil support and enabling activities) and that the mission proponents are the Assistant Secretary of Defense for Homeland Defense (ASD (HD)) and the Commanders of Northern and Pacific Commands. The ISG also agreed that the Military Departments and JCSGs should use the coordination draft(s) of the "DoD Strategy for Homeland Defense and Civil Support" as well as other guidance documents issued by the ASD(HD), to assist them in ensuring that DoD retains the capabilities necessary to support the homeland defense mission. Additionally, the Military Departments and the JCSGs will work through the Joint Staff in consulting with the Commanders of the Northern and Pacific Commands. The ISG authorized the BRAC DASs to coordinate on a policy memorandum to be issued by the ISG chair that would formalize this approach.

Following the discussion on homeland security, the ISG reviewed the approach to complying with the statutory requirements on surge (Section 2822 of the National Defense Authorization Act for Fiscal Year 2004 and Section 2832 of the Ronald Reagan National Defense Authorization Act for Fiscal Year 2005). The ISG agreed that surge "requirements" should be translated into the Department's capabilities-based approach to national security. The ISG agreed that the National Military Strategy is capabilities based and that it should be the foundation for how the Department balances this with the surge requirements of the BRAC statute. The ISG recognized that the JCSGs have embodied surge in their approach to capacity and military value and will address surge in their assessment of the force structure plan. The ISG noted that the Military Departments will also address surge. The ISG authorized the BRAC DASs to coordinate on a policy memorandum that addresses surge.

The ISG and the JCSG Chairs next reviewed the status of the JCSG's analysis. The ISG Chair emphasized the need for each group to complete its analysis and submit candidate recommendations by December 20, 2004. The Chair of the Technical JCSG updated the information on the slide by noting that his group now only had material issues with 16 capacity questions and 10 military value questions. The representative from the Headquarters and Support Activity Joint Cross-Service Group also noted that the February date for completion of criteria 5-8 analysis applied to any iterative analysis that may occur to accommodate changes brought by the actions of other scenario proponents and did not indicate a delay in submitting fully analyzed candidate recommendations by December 20, 2004.

The ISG meeting concluded with an agreement by the Military Department members and the JCSG Chairs to bring to the next ISG meeting any concerns they had with the overall BRAC process and the commitment of Mr. Abell, Chairman of the Education and Training JCSG, to provide the ISG with a common set of definitions for training, test and evaluation ranges.

Scenario Title: MAH-MAH 0004 (Dc): Co-locate Missile and Space Defense Agencies

## Description:

Close 7 leased locations in the DC Area, close 10 leased locations in Huntsville, AL, realign 3 leased locations in the DC Area, realign Naval Support Activity Dahlgren, and facilitate disposal of Federal Office Building 2 by consolidating components of Missile Defense Agency (MDA) and co-locating with USA Space and Missile Defense Command Headquarters (SMDC), Naval Network and Space Operations Command (COMNAVNETSPAOPSCOM), and existing offices of SMDC and MDA at Redstone Arsenal.

### Justification/Impact:

- Encompasses 933,000 GSF (or equivalent), as currently reported. Computed space required at 200 GSF/person= 728,600 GSF.
- 17 leased locations can be closed: approx. 395,000 USF
- Affects 4,194 personnel, as currently reported. Scenario estimates a 14% personnel savings for MDA and SMDC as a result of consolidation, or 515 personnel, and a 7% personnel savings for the Navy activity as a result of co-location, or 36 positions.
- Enhances AT/FP.
- Consolidation of HQs from multiple to single locations, e.g. MDA from at least 20 to 1, eliminates redundancy and enhances efficiency.
- Consolidation and co-location of large HQs facilitates possible consolidation of common support functions.
- Relocates major tenant from FOB 2, which is projected to close in 2010+.
- Consolidation and co-location of organizations with like missions promotes "jointness" and creates opportunities for synergy.
- Redstone Arsenal reports no vacant administrative space but sufficient land to accommodate over 30 million GSF of new administrative space.

**Scenario #** HSA-0092 **Date Created:** 10/28/2004

**Scenario Title:** MAH-MAH-0039 (Alt to MAH-0014) : Relocate Army Materiel Command(AMC)-Alternate

## Description:

Realign Ft. Belvoir by relocating AMC and the Security Assistance Command (USA SAC, an AMC sub-component) to Redstone Arsenal.

### Justification/Impact:

- Frees up small amount of permanent space at Ft. Belvoir.
- Provides for permanent facilities for Army MACOM.
- Space required for 1,411 personnel is 282,200 GSF at 200 GSF/person.
- Redstone Arsenal reports no vacant administrative space but sufficient land to accommodate over 30 million GSF of new administrative space.

- Realign Ft. McPherson and Ft. Monroe by consolidating regional offices of IMA with new IMA HQ at APG, forming an IMA Eastern Region.
- Realign Ft. Sam Houston by consolidating IMA regional office with existing office at Rock Island Arsenal (RIA), forming IMA Western Region.
- Realign 2 leased locations in Falls Church and Alexandria, Virginia, Ft. Monroe, and Ft. Eustis by consolidating Army Contracting Agency (ACA) HQ and regional offices to form ACA Eastern Region at APG.
- Realign Ft. McPherson by consolidating ACA regional office with existing office to form ACA Western Region at RIA.

- Co-location of organizations facilitates possible consolidation of common support functions.
- USA estimated personnel reduction of up to 200 positions (IMA Regions).
- Aberdeen Proving Ground reports 68,297 GSF of vacant administrative space and sufficient land to accommodate 9 million GSF of new administrative space.
- Rock Island Arsenal - Capacity TBD.

Organization)

(a) NOTE: DFAS requires an additional 127,929 USF above CDC #1 reported assigned space. Departure of Air Reserve Personnel Center (ARPC) will free up 127,964 USF and enable completion of DFAS realignment to Buckley AFB Annex. Scenarios associated with the ARPC are HSA-0004, HSA-0005, and HSA-0008.

(b) Pending scenario question responses, functions from the following locations have the greatest potential for realignment to DFAS-Denver: DFAS-Lawton, DFAS-Oakland, DFAS-Omaha, DFAS-Pacific (Ford Island), DFAS-Red River, DFAS-San Antonio, DFAS-San Bernardino, DFAS-San Diego, and DFAS-Seaside.

(3) DFAS-Indianapolis, (Bean Federal Center, former Ft Benjamin Harrison) 8899 E. 56th Street, Indianapolis, IN 46249 (Accounting Services, Commercial Pay Services, Military & Civilian Pay Services, Corporate and Administrative Organizations, and Technology Services Organization)

(a) NOTE: DFAS requires an additional 26,697 USF above CDC # 1 reported assigned space. Justification/Impact proposed:

- Reduces footprint – Admin by 42% or 1,399,421 USF and Warehouse by 69% or 525,690 GSF.
- Implements merge/co-location personnel reduction (15%).
- Overall AT/FP enhancement – DFAS will be on a DoD installation or in Government leased space that meets DoD AT/FP standards.
- Service's unit costs will go down.
- Gaining site expansion enabled by departure of specific military personnel organizations from Denver and Indianapolis.
- No requirement for renovation at gaining sites.
- Risk averse – Mitigates risk thru centralized, apportioned operations (each segment may serve as backup).
- Better Business Practice - Creates business line centers of excellence.
- Facilitates DFAS re-engineering for FY2011 organization.
