## Acknowledgments

I am deeply grateful to all of those who helped to produce this year's *Guide*. It could not have been published without the work and dedication of hundreds of employees throughout the Department, in particular the team who served as principal office editors and reviewers. This year's editors were: Mike High and Dan Klock, Federal Student Aid; Tom Brown, Institute of Education Sciences; Susan Winingar, Almita Reed, Lorenzo Esters and Catherine Pugh, Office of Elementary and Secondary Education; Francine Luckey-West, Office of English Language Acquisition; Liza Araujo-Rouse, Office of Innovation and Improvement; Dolly Stevenson, Office of Postsecondary Education; Bryan Williams, Office of Safe and Drug-Free Schools; Elizabeth McCulley, Office of Special Education and Rehabilitative Services; and Cindy Nolan, Office of Vocational and Adult Education.

The reviewers included Helene Brecher and Dana Dobson, Office of the General Counsel; and Elnora Walker, Office of Legislation and Congressional Affairs. Reviewer Jan Solomon of the Budget Service, a longtime contributor to the success of this guide, deserves particular mention for her considerable efforts to ensure the accuracy of the data in this book and for providing indispensable technical assistance whenever needed.

Special thanks also go to other Department employees including Gary Zion, Office of the Chief Information Officer, for providing excellent technical support throughout the project and for his willingness to assist. Vivian Wang, of the Office of Communications and Outreach (OCO), unselfishly donated her time to help in various roles and provided invaluable assistance with numerous facets of production; her input contributed significantly to a high-quality product. Caitlin Smith, formerly of OCO, also provided valuable input, and Marilyn Joyner, of OCO, assisted in various roles. And finally my thanks go to my supervisor, Jackye Zimmermann, of OCO, for her help in ensuring that this project succeeded.

I owe much to all who helped bring this year's *Guide* to fruition.

Kate Devine  
Team Leader, Office of Communications and Outreach

## Introduction

The *Guide to U.S. Department of Education Programs* provides an overview of U.S. Department of Education programs authorized and funded under federal law. It includes information as well on the laboratories, centers, and other facilities funded by the Department that provide important resources for education.

Nine principal offices are responsible for operating these programs. These offices are:

- Federal Student Aid (FSA);
- Institute of Education Sciences (IES);
- Office of Elementary and Secondary Education (OESE);
- Office of English Language Acquisition (OELA);
- Office of Innovation and Improvement (OII);
- Office of Postsecondary Education (OPE);
- Office of Safe and Drug Free Schools (OSDFS);
- Office of Special Education and Rehabilitative Services (OSERS); and
- Office of Vocational and Adult Education (OVAE).

A PDF file of the *Guide* can be found on the Department's Web site at: <http://www.ed.gov/programs/gtep/gtep.pdf>. The PDF contains a search function, so the *Guide* can be searched by word, program title or Catalog of Federal Domestic Assistance (CFDA) number, for example. A PDF of each program's page from the *Guide*, providing a succinct profile, can be found for each program on the Department's home page (<http://www.ed.gov>) under "Program at a Glance." The Department's Web site, which contains extended program profiles, allows a user to perform a full-text search on these pages or to search by administering office, title, CFDA number or similar Department number, type of assistance, and eligibility. The Department's Web site also contains an archive of programs that generally have not been funded for three or more years, starting in fall 2003.

New programs in the *Guide* include: College Access Challenge Grant Program; Hispanic-Serving Institutions—Science, Technology, Engineering, or Mathematics (STEM); Special Olympics Education Programs; Strengthening Asian American and Native American Pacific Islander-serving Institutions; Strengthening Native American-serving Nontribal Institutions; Strengthening Predominantly Black Institutions; Teacher Education Assistance for College and Higher Education (TEACH) Grants; Teachers for a Competitive Tomorrow: Baccalaureate STEM and Foreign Language Teacher Training; and Teachers for a Competitive Tomorrow: Masters STEM and Foreign Language Teacher Training.

### Format of Entries in the Guide

Each entry, which gives a brief overview of a program or resource, is listed initially by a broad topical heading, to which the table of contents is keyed. The program title and any commonly used names for the program come next, followed by the name of the principal office that administers the program. The CFDA or ED number follow. Programs that do not have CFDA or ED numbers assigned are listed as "None" in this field. (See also the CFDA Web site at: <http://www.cfda.gov>).

After the CFDA or ED number, information is provided about the entities that are eligible to apply to each program. Next comes information on any current competitions and the types of assistance available. Funding levels for fiscal year (FY) 2008 and the previous two fiscal years follow next. Most of the programs in the *Guide* received funding in FY 2008. A few programs that received no funding in FY 2008 also are included in the *Guide* because they are still disbursing continuation funds from previous years.

The next section provides information about new awards in FY 2008, if any, as well as any continuation awards. Information may include the number of these awards, and their average amount and range, in dollars.

Following awards information are the citation for the program's authorizing legislation and any applicable program regulations. For major pieces of legislation, unless otherwise noted, the words "as amended" refer readers to the most recent reauthorization of the law cited. For example, the most recent amendments to the *Elementary and Secondary Education Act* were contained in the *No Child Left Behind Act of 2001 (NCLB)*. Therefore, the citation "*Elementary and Secondary Education Act of 1965, as amended*" refers to the changes made by *NCLB*. When a program is authorized under an amendment prior to the most recent reauthorization, the name of the earlier amendment is listed. For example, for a program authorized under the *Improving America Schools Act of 1994 (IASA)*, a prior amendment to *ESEA*, the language reads "as amended by the *IASA*." Other significant pieces of legislation and their most recent major amendments include: the *Higher Education Act of 1965*, most recently amended by the *Higher Education Amendments of 1998*; the *Individuals with Disabilities Education Act* or *IDEA*, most recently amended by the *Individuals with Disabilities Education Improvement Act of 2004*; and the *Rehabilitation Act of 1973*, most recently amended by Title IV of the *Workforce Investment Act of 1998*. The *Carl D. Perkins Career and Technical Education Act of 2006* amended the *Carl D. Perkins Vocational and Applied Technology Education Act of 1998*. The *Education Department General Administrative Regulations*, referred to as "*EDGAR*," generally apply to all discretionary and competitive grants. The same is true for the governmentwide *Federal Acquisition Regulation*, or *FAR*, for contracts.

A brief description of the program's purpose and information about the types of projects carried out are provided next, followed by the target education level for each program as well as key subject terms, which may help direct readers to specific programs. Finally, at the end of each entry, the Department has provided contact information for each program, along with related Web sites that may be of interest.

## Other Features

The *Guide* also contains a list of abbreviations and their meaning, an index of programs by title, an index of programs by CFDA number, an index of subject terms, typically several of which are listed with each program for identifying programs with a similar focus, and, for the first time, an index of programs by education level. A list of related Web addresses that may be of interest to the reader is found on the inside back cover.

## Other Notices of Grants and Contracts

Readers interested in the Department's discretionary grant competitions should refer frequently to the "Forecast of Funding Opportunities Under the Department of Education Discretionary Grant Programs for Fiscal Year FY 2008" at: <http://www.ed.gov/fund/grant/find/edlite-forecast.html>. Notices of all competitions for Education Department discretionary and competitive grants are published in the *Federal Register*, which is published by the Office of the Federal Register, National Archives and Records Administration (see: [http://www.archives.gov/federal\\_register](http://www.archives.gov/federal_register)). You also may access *Federal Register* documents specific only to the Education Department at: [www.ed.gov/news/fedregister](http://www.ed.gov/news/fedregister).

Readers interested in the Department's contract opportunities should refer frequently to the "Forecast of ED Contract Opportunities" at: [www.ed.gov/fund/contract/find/forecast.html](http://www.ed.gov/fund/contract/find/forecast.html). General information on Education Department contracts may be found at: <http://www.ed.gov/about/offices/list/ocfo/contracts/contracts.html>. As of Jan. 2, 2002, requests for proposals (RFPs) for Department procurement opportunities exceeding \$25,000, which were previously announced in the *Commerce Business Daily*, are now advertised on the Federal Business Opportunities Web site at: <https://www.fbo.gov>. This Web publication was designated in the *Federal Acquisition Regulation* to provide universal public access on the Internet to governmentwide federal procurement opportunities (see 66 *Federal Register* 27407, May 16, 2001).

### PROGRAM DESCRIPTION

This program supports the creation of community learning centers that provide academic enrichment opportunities during nonschool hours for children, particularly students who attend high-poverty and low-performing schools. The program intends to help students meet state and local student standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities that can complement their regular academic programs; and offers literacy and other educational services to the families of participating children.

---

### TYPES OF PROJECTS

Each eligible entity that receives an award from the state may use the funds to carry out a broad array of before- and after-school activities (including those held during summer recess periods) to advance student achievement. These activities include:

- Remedial education activities and academic enrichment learning programs, including those that provide additional assistance to students to allow the students to improve their academic achievement;
- Mathematics and science education activities;
- Arts and music education activities;
- Entrepreneurial education programs;
- Tutoring services, including those provided by senior citizen volunteers, and mentoring programs;
- Programs that provide after-school activities for limited English proficient (LEP) students that emphasize language skills and academic achievement;
- Recreational activities;
- Telecommunications and technology education programs;
- Expanded library service hours;
- Programs that promote parental involvement and family literacy;
- Programs that provide assistance to students who have been truant, suspended, or expelled to allow them to improve their academic achievement;
- Drug and violence prevention programs;

---

**ADMINISTERING OFFICE**

Office of Elementary and Secondary Education (OESE)

---

**WHO MAY APPLY (SPECIFICALLY)**

Formerly, awards were made to state education agencies (SEAs). Local education agencies (LEAs) applied for subgrants to SEAs on behalf of schools.

---

**TYPE OF ASSISTANCE (SPECIFICALLY)**

In 2005 and previous fiscal years, the CSR program provided formula grants to SEAs and a set-aside for Comprehensive School Reform Quality Initiatives (see # 84.332B, also under topical heading “Academic Improvement.”). In FY 2006 and 2007, funds supported an ongoing contract for the CSR Clearinghouse and CSR Quality Initiatives. In FY 2008, funds support the final year of the CSR Clearinghouse contract.

| Fiscal Year 2007 | \$2,351,812 |
| Fiscal Year 2008 | \$1,605,454 |

Note: CSR administered formula grants under both Title I, Part F, and the Fund for the Improvement of Education (FIE) in FY 2004. In FY 2005, funds were appropriated only for the Title I, Part F, state formula grant program (including the Comprehensive School Reform Quality Initiatives set-aside). In FY 2006 and FY 2007, funds appropriated supported only the CSR Clearinghouse (\$1,450,000 in FY 2006 and \$1,236,791 in FY 2007) and the set-aside for the CSR

Quality Initiatives (\$6,470,000 in FY 2006 and \$815,021 in FY 2007). In FY 2008, funds support the CSR Clearinghouse.

The purpose of the CSR Quality Initiatives program was to provide discretionary grants to support activities that would enhance the state-administered CSR program and to enable schools that were identified for improvement, corrective action, or restructuring under Title I, Part A, of *ESEA* to meet their state's definition of adequate yearly progress (AYP).

---

**TYPES OF PROJECTS**

The program supported activities in the following categories:

1. Technical assistance in making informed decisions—To support public and private efforts in which funds are matched by private organizations to assist states, local education agencies (LEAs), and schools in making informed decisions regarding approving or selecting providers of comprehensive school reform, consistent with the requirements in Sec. 1606(a) of *ESEA*, as amended; and
  2. Model development and capacity building—To foster the development of comprehensive school reform models, and to provide effective capacity building for comprehensive school reform providers to expand their work in more schools, ensure quality, and promote financial stability.

---

**PROGRAM DESCRIPTION**

The purpose of this program is to carry out a coordinated program of scientifically based research, demonstration projects, innovative strategies, and similar activities designed to build and enhance the ability of elementary and secondary schools to meet the special education needs of gifted and talented students. A major goal of the program is to serve students who are traditionally underrepresented in gifted and talented programs, particularly economically disadvantaged, limited English proficient (LEP), and disabled students, to help reduce the gap in achievement among certain groups of students at the highest levels of achievement.

Grants are awarded under two priorities. Priority One supports initiatives to develop and scale up models serving students who are underrepresented in gifted and talented programs. Priority Two supports state and local efforts to improve services for gifted and talented students.

The Department's program also supports a National Research Center on the Gifted and Talented administered by the Department's Institute for Education Sciences (IES) with competition information is posted at <http://www.gifted.uconn.edu/nrcgt.html> when available.

---

**TYPES OF PROJECTS**

Programs and projects (SEA and LEA capacity-building grants) must carry out one or more of the following:

- Conducting scientifically based research on methods and techniques for identifying and teaching gifted and talented students—and for using these programs and methods to serve all students—and conducting program evaluations, surveys, and other analyses needed to accomplish the purpose of the program;
- Carrying out professional development for personnel involved in the education of gifted and talented students;
- Establishing and operating model projects and exemplary programs for serving gifted and talented students, including innovative methods of serving students whose needs may not be met by more traditional gifted and talented programs (including summer programs, mentoring, service learning, and programs involving business, industry, and education);
- Implementing innovative strategies, such as cooperative learning, peer tutoring, and service learning;
- Providing technical assistance and information on how to serve gifted and talented students and, where appropriate, how to adapt these programs to serve all students;
- Making materials and services available through state regional education service centers, IHEs, or other entities; or
- Providing challenging, high-level course work, disseminated through technologies (including distance learning), for students in schools or LEAs that would not otherwise have the resources for such course work.

In addition, the program supports the National Research Center on the Gifted and Talented for the purpose of carrying out the allowable activities already described. No more than 30 percent of appropriated funds are spent for research.

**PROGRAM DESCRIPTION**

This program provides funds to LEAs to support the development of small, safe, and successful learning environments in large high schools as a component of comprehensive high school improvement plans.

---

**TYPES OF PROJECTS**

LEAs receive funds on behalf of large high schools to enable those schools to undertake research-based reforms and restructure into smaller learning environments. Structures include “houses,” career academies, theme-based academies, or other smaller organizational units. Accompanying strategies that support the creation or expansion of these smaller learning environments include block scheduling, mentoring programs, teacher-advisory systems, and other innovations that create a more personal experience for students.

### ADMINISTERING OFFICE

Office of Vocational and Adult Education (OVAE)

### WHO MAY APPLY (BY CATEGORY)

State Education Agencies (SEAs)

### WHO MAY APPLY (SPECIFICALLY)

Awards are made to state eligible agencies, as defined in 20 U.S.C. 9202(4), that under state law are solely responsible for administering or supervising statewide policy for adult education and literacy, including such entities as SEAs, postsecondary agencies, or workforce agencies.

The Department provides grants to these state eligible agencies, which, in turn, fund local projects. The following types of entities are eligible to apply to state eligible agencies for funds: local education agencies (LEAs); community-based organizations (CBOs) of demonstrated effectiveness; volunteer literacy organizations of demonstrated effectiveness; institutions of higher education (IHEs); public or private nonprofit agencies; libraries; public housing authorities; other nonprofit institutions that have the ability to provide literacy services to adults and families; and consortia of the agencies, organizations, institutions, libraries or authorities previously described.

In FY 2008, there are no planned grant competitions. Competitions for contracts planned for award in FY 2008:

- NAEP 2008–2012 Quality Assurance Contract—Contract for the formative evaluation activities for the NAEP Alliance contractors and to coordinate contractor activities ensuring timely analysis and reporting of results. The Alliance consists of various contractors performing the critical functions necessary to carry out the work: design, item development, sampling, data collection, materials distribution, processing, scoring, analysis, reporting, report dissemination, and Web site development and maintenance. This is the first year of a five-year contract.
- NAEP Validity Studies Panel—Contract to conduct studies on validity and reliability issues related to NAEP.

- NAEP Meeting Logistics Contract—New contract will provide assistance in the work related to planning and coordination of NAEP meetings and conference activity across the country. This is the first of a five-year contract.
  - NAEP State Analysis Contract—New contract to provide technical and analytical support and special reports related to analyses of state-related issues and topics. This is the first of a five-year contract.
  - NAEP State Coordinator contracts—New contracts to support state coordinators who serve as the liaisons between the SEA and NAEP and other essential state-related activities.

### PROGRAM DESCRIPTION

NAEP, also known as the Nation's Report Card, is the only nationally representative and continuing assessment of what America's students know and can do in various subject areas. Since 1969, assessments have been conducted periodically in reading, mathematics, science, writing, U.S. history, civics, geography, and the arts.

The NAEP budget supports the following program components:

- National NAEP—This reports information for the nation and specific geographic regions of the country, includes students drawn from both public

*continued top of next page*

and nonpublic schools, and reports results for student achievement in grades 4, 8, and 12;

- State NAEP—These assessments provide reliable state-level student achievement data in reading, mathematics, science, and writing;
- NAEP Trial Urban District Assessment—Federal appropriations authorized for the *No Child Left Behind Act* (NCLB) supported a multiyear study of the feasibility of a Trial Urban District Assessment of Educational Progress, with the first assessment occurring in reading and writing in 2002 for five urban districts, and 2003 reading and mathematics assessment results available for 10 such districts; and
- Long-Term Trend—NAEP long-term trend assessments, designed to give information on the changes in the basic achievement of America's youths, are administered nationally and report student performance at ages 9, 13, and 17 in reading and mathematics.

**PROGRAM DESCRIPTION**

These grants are intended to enable SEAs to design, develop, and implement statewide longitudinal data systems to efficiently and accurately manage, analyze, disaggregate, and use individual student data, consistent with the *Elementary and Secondary Education Act of 1965 (ESEA)*, as amended (20 U.S.C. 6301 *et seq.*)

The FY 2008 funds will be used for three separate activities:

1. \$42.8 million will support statewide data systems development awards. These awards enable SEAs to design, develop, and implement statewide longitudinal data systems to efficiently and accurately manage, analyze, disaggregate, and use individual student data. Most of the funding will support 13 continuation awards; the remainder will be combined with any FY 2009 funding for a new competition to be announced in the summer of 2008, with awards to be made in FY 2009. At the request level, the Department of Education would make about 32 new awards in FY 2009.
2. \$4 million will support awards for state data coordinators. These awards will enable each state to support, at least part-time, a data coordinator to improve the state's capacity to use, report, and maintain high-quality longitudinal data in its state longitudinal data system. Three-year awards will be made to approximately 51 SEAs.
3. \$1 million will support a contract to facilitate the coordination of the Department's elementary and secondary schools' data system (*EDFacts*) with private sector initiatives, in order to help coordinate data requests being made of states, reconcile definitional inconsistencies, and reduce collection and reporting burden.

Applicants from the Appalachian region may apply to the Appalachian Regional Commission (ARC). The *Appalachian Regional Development Act (ARDA)*, defines the Appalachian region as all of West Virginia and the Appalachian portions of Alabama, Georgia, Kentucky, Maryland, Mississippi, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, and Virginia. Once ARC has selected the applicants to be funded, the U.S. Department of Education makes the awards and administers the grants.

### TYPE OF ASSISTANCE (BY CATEGORY)

Discretionary/Competitive Grants

### APPROPRIATIONS

Funding levels for this program area based on selections made by ARC. ARC did not forward any grant awards to the Department of Education in FY 2006 and FY 2007.

### PROGRAM DESCRIPTION

Federal funds are made available to develop more fully the academic and career and technical skills of secondary and postsecondary students who elect to enroll in career and technical programs. In accordance with the statute, at least 85 percent of the funds are allocated to eligible local recipients.

### TYPES OF PROJECTS

This program provides states with support for state leadership activities, administration of the state plan for career and technical education (CTE), and subgrants to eligible recipients to improve CTE programs. To be eligible for a subgrant, an eligible recipient must operate a CTE program that:

- Strengthens the academic and career, and technical skills of students participating in CTE programs, achieved by integrating core academic subjects into CTE programs through a coherent sequence of courses;
- Provides students with strong experience in and understanding of all aspects of an industry;
- Develops, improves, or expands the use of technology in CTE;
- Develops and implements evaluations of the CTE programs carried out with funds under the *Carl D. Perkins Career and Technical Education Act of 2006*, including an assessment of how the needs of special populations and other student populations are being met;
- Initiates, improves, expands, and modernizes quality CTE programs;
- Provides professional development programs to teachers, faculty, counselors, and administrators;
- Provides services and activities that are of sufficient size, scope, and quality to be effective;
- Links secondary CTE with postsecondary CTE programs, including offering one CTE program of study; and
- Provides activities to prepare special populations for high-skill, high-wage, or high-demand occupations that will lead to self-sufficiency.

---

**PROGRAM DESCRIPTION**

The *Perkins* National Activities authority supports research, evaluation, information dissemination, technical assistance to states, and other activities aimed at improving the quality and effectiveness of career and technical education. The legislation specifically calls for, among other activities, the operation of a national

center for research, dissemination, and technical assistance in career and technical education, and a national assessment of career and technical education programs operated under the *Perkins Act* (see legislative citation). Current major activities by CFDA # include:

- National Center for Research in Career and Technical Education (# 84.051A)—This program supports the establishment of a national center to conduct scientifically based research and evaluation, development, dissemination, technical assistance and training activities in the field of career and technical education.
- State Scholars Initiative (# 84.051U)—This initiative is designed to dramatically increase the percentage of high school students who have the solid academic foundation that is necessary to succeed in postsecondary education and in an increasingly dynamic labor market. SSI supports state-level business-education partnerships that work with school districts to encourage more students to complete a rigorous course of study.
- Promoting Rigorous Programs of Study (#84.051C)—The purpose of this project is to promote rigorous programs of study through the creation of statewide or multistate articulation agreements. Articulation agreements will ensure a common statewide set of program of study standards aligned with postsecondary and employer expectations, and a common assessment instrument documenting student competencies. These agreements will allow secondary students to earn college credit that is accepted throughout a state or consortium of states, and allow community college students to transfer to other state two- or four-year institutions without losing credit for courses already taken.

---

**TYPES OF PROJECTS**

Projects include: research, development, demonstration, dissemination, identification of best methods, capacity building, technical assistance, evaluation, and assessment activities.

- The NRCCTE supports scientifically based research and evaluation, information dissemination, technical assistance, and professional development.
- The SSI supports a national nonprofit organization that selects and funds state business-education partnerships that encourage high school students to enroll in rigorous courses. Projects stress the importance of completing a rigorous high school curriculum; develop incentives for students to complete rigorous course work; and work

with state-level policymakers, business, and community stakeholders to help encourage students statewide to enroll in demanding courses.

- The Promoting Rigorous Programs of Study supports technical assistance to grantees to develop articulation agreements. The process will be documented and used as a model for other states to support national implementation of rigorous programs of study.

### WHO MAY APPLY (SPECIFICALLY)

Awards are made to eligible state agencies for career and technical education (CTE), which in turn award funds on the basis of a formula or competition to consortia. To be eligible, consortia must include at least one member in each of the two following categories:

- A local education agency (LEA), an intermediate education agency, education service agency, or an area CTE school serving secondary school students, or a secondary school funded by the U.S. Department of the Interior's Bureau of Indian Affairs.
- Either (a) a nonprofit institution of higher education (IHE) that offers a two-year associate degree, two-year certificate, or two-year postsecondary apprenticeship program or (b) a proprietary IHE that offers a two-year associate degree program.

Under the provisions of Sec. 203(a)(1) of the *Carl D. Perkins Career and Technical Education Act of 2006*, to be eligible for consortium membership, both nonprofit and proprietary IHEs (including institutions receiving assistance under the *Tribally Controlled College or University Assistance Act of 1978* [25 U.S.C. 1801 et seq.] and tribally controlled postsecondary vocational and technical institutions) must be qualified as IHEs pursuant to the *Higher Education Act of 1965 (HEA)*, Sec. 102. In addition, nonprofit IHEs are eligible only if they are not prohibited from receiving assistance under *HEA*, Title IV, Part B (20 U.S.C. 1071 et seq.),

pursuant to the provisions of *HEA*, Sec. 435(a)(2) (20 U.S.C. 1083 [a]). Proprietary IHEs are eligible only if they are not subject to a default management plan required by the secretary of education.

Note: States may choose to consolidate their Tech Prep funds with funds they receive under the Career and Technical Education—Basic Grants to States program (# 84.048A, also under topical heading “Career and Technical Education”).

### PROGRAM REGULATIONS

*EDGAR*

### PROGRAM DESCRIPTION

This program provides assistance to states to award grants to consortia of LEAs and postsecondary education institutions for the development and operation of programs consisting of the last two years of secondary education and at least two years of postsecondary education, designed to provide Tech Prep education to the student leading to an associate degree or a two-year certificate. The program also is designed to strengthen links between secondary and postsecondary schools.

### TYPES OF PROJECTS

The *Perkins Act* requires that Tech Prep programs have the following elements:

1. An articulation agreement between secondary and postsecondary consortium participants;

2. A program of study that combines a minimum of two years of secondary education with a minimum of two years postsecondary education in a sequential course of study or an apprenticeship program of not less than two years following secondary education instruction;
3. A specifically developed Tech Prep curriculum;
4. Joint in-service training of secondary teachers, postsecondary faculty and administrators to implement the Tech Prep curriculum effectively;
5. Training of counselors to recruit students and to ensure program completion and appropriate employment;
6. Equal access for special populations to the full range of Tech Prep programs;
7. Preparatory services; and
8. Coordination with programs under Title I of the *Perkins Act*.

**PROGRAM DESCRIPTION**

We the People: The Citizen and the Constitution is an instructional program on the principles of the U.S. Constitution and the Bill of Rights for elementary, middle, and high school students. The program goal is to promote understanding of the principles and values on which our political institutions are based. The We the People program is administered through a national network of coordinators. The program is available to public and private elementary and secondary schools in congressional districts, the District of Columbia, Puerto Rico, American Samoa, Guam, and the U.S. Virgin Islands.

---

**TYPES OF PROJECTS**

Participating schools implement a curriculum that focuses on promoting citizenship and increasing students' understanding of the rights and responsibilities of citizens. Activities include simulated congressional hearings with community members as judges and an annual national competition in which secondary student teams compete in simulated congressional hearings. Other programs that the Civic Education Center administers under We the People include Project Citizen and the School Violence Prevention Demonstration.

### LEGISLATIVE CITATION

*Rehabilitation Act of 1973, as amended, Title II;  
29 U.S.C. 762–764*

### PROGRAM REGULATIONS

*EDGAR; 34 CFR 350*

### PROGRAM DESCRIPTION

The primary purpose of NIDRR is to carry out a  
program of research and related activities designed  
to maximize the full inclusion, employment, independ-  
ent living, and economic sufficiency of individuals  
with disabilities, with particular emphasis on improv-  
ing the effectiveness of services authorized under the  
*Rehabilitation Act*. NIDRR focuses on such applied  
research as:

1. The transfer of rehabilitation technology to indi-  
viduals with disabilities;
2. Widespread distribution of practical scientific and  
technological information in usable formats; and
3. Identification of effective strategies to enhance  
opportunities for individuals with disabilities to  
engage in productive work and live independently.

### TYPES OF PROJECTS

NIDRR funds are used to support rehabilitation  
research, demonstration projects, and related activi-  
ties, including the training of persons who provide  
rehabilitation services or who conduct rehabilitation  
research. In addition, NIDRR supports projects to dis-  
seminate and promote the use of information concern-  
ing developments in rehabilitation procedures, meth-  
ods, and devices. NIDRR also supports data analyses  
of the demographics of individuals with disabilities.

#### **PROGRAM DESCRIPTION**

RERCs support research on issues dealing with rehabilitation technology, including rehabilitation engineering and assistive technology devices and services. RERCs generally either:

1. Lead to the development of methods, procedures, and devices that will benefit individuals with disabilities, especially those with the most severe disabilities; or
2. Involve technology for the purposes of enhancing opportunities for meeting the needs of and addressing the barriers confronted by individuals with disabilities in all aspects of their lives.

---

#### **TYPES OF PROJECTS**

Types of activities supported by RERCs include: the development of technological systems for persons with disabilities; stimulation of the production and distribution of equipment in the private sector; and clinical evaluations of equipment. Awards are for five years, except that grants to new recipients or to support new or innovative research may be made for fewer than five years.

### PROGRAM DESCRIPTION

The RRTCs conduct coordinated and advanced programs of research, training, and information dissemination in general problem areas that are specified by NIDRR. Each RRTC has a major program of research in a particular area, such as mental illness, vocational rehabilitation, or independent living. The RRTCs must serve as centers of national excellence and national or regional resources for providers and individuals with disabilities and their representatives. RRTC awards are for five years, except that grants to new recipients or to support new or innovative research may be made for fewer than five years.

### TYPES OF PROJECTS

Each year, competitions are held in specific areas that determine the types of projects.

**PROGRAM DESCRIPTION**

The NIDRR Model Systems are specialized programs of care in spinal cord injury (SCI), traumatic brain injury (TBI) and burn injury, which gather information and conduct research with the goal of improving long-term functional, vocational, cognitive, and quality-of-life outcomes for individuals with disabilities in these areas. Model System grantees contribute data to national statistical centers that track the long-term consequences of SCI, TBI and burn injuries, and conduct research in the areas of medical rehabilitation, health and wellness, service delivery, short- and long-term interventions, and systems research. Each Model System also is charged with disseminating information and research findings to patients, family members, health-care providers, educators, policymakers and the general public.

---

**TYPES OF PROJECTS**

Specifically, this one of the Model Systems programs provides assistance for demonstration projects that provide comprehensive rehabilitation services to individuals with spinal cord injuries. Demonstration projects that support spinal cord research also are funded.

---

### PROGRAM DESCRIPTION

Formula grants are made to the 50 states, the District of Columbia, and Puerto Rico based on each state's share of Title I, Part A, funds. The outlying areas and the U.S. Department of the Interior's Bureau of Indian Education, also receive funds. Among other things, the program supports an office for coordination of the education of homeless children and youths in each state, which gathers comprehensive information about homeless children and youths and the impediments they must overcome to regularly attend school. These grants also help SEAs ensure that homeless children, including preschoolers and youths, have equal access to a free and appropriate public education (FAPE). States must review and revise laws and practices that impede such equal access. States are required to have an approved plan for addressing problems associated with the enrollment, attendance, and success of homeless children in school. States must make competitive subgrants to Local Education Agencies (LEAs) to facilitate the enrollment, attendance, and success in school of homeless children and youths. This includes addressing problems due to transportation needs, immunization and residency requirements, lack of birth certificates and school records, and guardianship issues.

---

### TYPES OF PROJECTS

With subgrant funds, LEAs offer such activities as coordination and collaboration with other local agencies to provide comprehensive services to homeless children and youths and their families. LEAs also offer expedited evaluations of the needs of homeless children to help them enroll in school, attend regularly, and achieve success.

The U.S. Department of Education allocates all but 1 percent of appropriated funds to local education agencies (LEAs) through participating state education agencies (SEAs). The 1 percent is set aside for the secretary of the interior and the outlying areas (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands). The secretary of the interior makes subgrants to schools operated by the Bureau of Indian Education, while the outlying areas receive formula grants. In addition, from the amount for the outlying areas, \$5 million is reserved for competitive grants to the outlying areas and the freely associated states (see Territories and Freely Associated States Education Grant Program, # 84.256A, under topical heading “School Improvement”).

**PROGRAM REGULATIONS**

34 *CFR* 200

---

**PROGRAM DESCRIPTION**

This program provides financial assistance to LEAs and schools with high numbers or high percentages of poor children to help ensure that all children meet challenging state academic standards. Federal funds are currently allocated through four statutory formulas that are based primarily on census poverty estimates and the cost of education in each state, as measured by each state's expenditure per elementary and secondary student.

1. Basic Grants provide funds to LEAs in which the number of children counted in the formula is at least 10 and exceeds 2 percent of an LEA's school-age population.
2. Concentration Grants flow to LEAs where the number of formula children exceeds 6,500 or 15 percent of the total school-age population.
3. Targeted Grants are based on the same data used for Basic and Concentration Grants except that the data are weighted so that LEAs with higher numbers or higher percentages of poor children receive more funds. Targeted Grants flow to LEAs where the number of schoolchildren counted in

the formula (without application of the formula weights) is at least 10 and at least 5 percent of the LEA's school-age population.

4. Education Finance Incentive Grants (EFIGs) distribute funds to states based on factors that measure:
  - a. a state's effort to provide financial support for education compared to its relative wealth as measured by its per capita income; and
  - b. the degree to which education expenditures among LEAs within the state are equalized.

Once a state's EFIG allocation is determined, funds are allocated (using a weighted count formula that is similar to Targeted Grants) to LEAs in which the number of poor children is at least 10 and at least 5 percent of the LEA's school-age population.

LEAs target the Title I funds they receive to schools with the highest percentages of children from low-income families. Unless a participating school is operating a schoolwide program, the school must focus Title I services on children who are failing, or most at risk of failing, to meet state academic standards. Schools in which poor children make up at least 40 percent of enrollment are eligible to use Title I funds for schoolwide programs that serve all children in the school. LEAs also must use Title I funds to provide academic enrichment services to eligible children enrolled in private schools.

---

**TYPES OF PROJECTS**

More than 50,000 public schools across the country use Title I funds to provide additional academic support and learning opportunities to help low-achieving children master challenging curricula and meet state standards in core academic subjects. For example, funds support extra instruction in reading and mathematics, as well as preschool, after-school, and summer programs to extend and reinforce the regular school curriculum for eligible children.

---

**PROGRAM DESCRIPTION**

The Title I, Part D, Subpart 1, State Agency Neglected and Delinquent (N and D) program provides formula grants to SEAs for supplementary education services to help provide education continuity for children and youths in state-run institutions for juveniles and in adult correctional institutions so that these youths can make successful transitions to school or employment once they are released. Funds are allocated by formula to SEAs, which make subgrants to the state agencies responsible for educating N and D children and youths. To be eligible for state N and D funds, juvenile institutions must provide 20 hours a week of instruction from nonfederal funds; adult correctional institutions must provide 15 hours.

The Subpart 2 Local Education Agency Program requires each SEA to reserve from its Title I, Part A, allocation, funds generated by the number of children in locally operated institutions for delinquent youths. Subgrants are awarded to LEAs with high numbers or percentages of youths in local correctional facilities to support dropout programs for at-risk youths in these facilities and the LEAs' schools.

### PROGRAM DESCRIPTION

This program is designed to improve the education of limited English proficient (LEP) children and youths by helping them learn English and meet challenging state academic content and student academic achievement standards. The program provides enhanced instructional opportunities for immigrant children and youths. Funds are distributed to states based on a formula that takes into account the number of immigrant and LEP students in each state.

---

### TYPES OF PROJECTS

States must develop annual measurable achievement objectives for LEP students that measure their success in achieving English language proficiency and meeting challenging state academic content and achievement standards. Schools use the funds to implement language instruction programs designed to help LEP students achieve these standards. Approaches and methodologies must be founded on scientifically based research. LEAs may develop and implement new language instruction programs and expand or enhance existing programs. LEAs also may implement school-wide programs within individual schools or implement systemwide programs to restructure, reform, or upgrade all programs, activities, or operations related to the education of their LEP students.

### TYPE OF ASSISTANCE (SPECIFICALLY)

Academic Competitiveness Grants and SMART Grants are performance-based grants awarded through participating postsecondary institutions to students with financial need. Recipients must be U.S. citizens who attend school full-time and are eligible to receive a Federal Pell Grant (see # 84.063, also under topical heading “Federal Student Aid”). Recipients must meet other eligibility requirements depending on their year in school, such as: complete a rigorous high school program; major in mathematics, science, technology, engineering or selected foreign languages; or maintain a required minimum grade point average (GPA). Participating institutions either credit the grant funds to the student’s school account, pay the student directly (usually by check), or combine these methods.

Individual award amounts are based on the student’s cost of attendance, *Expected Family Contribution* (EFC), and other aid. A current or prospective student applies for federal student aid by submitting the *Free Application for Federal Student Aid* (FAFSA), which can be completed electronically by using FAFSA on the Web (see link below). The student should also contact the postsecondary schools that he or she is considering to obtain consumer information and policies and aid procedures applicable to each school. Students receive the notification of the aid award from the postsecondary school. See the Web sites listed below for more information.

Note: Current estimates of aid awarded in FY 2008 are \$440 million for ACG and \$260 million for SMART Grants. Any funds not used in any fiscal year can be carried forward for use in subsequent fiscal years. A rescission of \$525 million in unneeded prior-year balances was enacted in FY 2008. This does not affect the availability of the mandatory FY 2008 appropriation of \$920 million.

### WHO MAY APPLY (SPECIFICALLY)

Undergraduate and vocational students enrolled or accepted for enrollment in participating schools may apply.

### TYPE OF ASSISTANCE (SPECIFICALLY)

Federal Pell Grants are direct grants awarded through participating institutions to students with financial need who have not received their first bachelor's degree or who are enrolled in certain postbaccalaureate programs that lead to teacher certification or licensure. Participating institutions either credit the Federal Pell Grant funds to the student's school account, pay the student directly (usually by check) or combine these methods. Students must be paid at least once per term (semester, trimester, or quarter); schools that do not use formally defined terms must pay the student at least twice per academic year.

### PROGRAM DESCRIPTION

The Federal Pell Grant Program provides need-based grants to low-income undergraduate and certain postbaccalaureate students to promote access to postsecondary education. Students may use their grants at any one of approximately 5,400 participating postsecondary institutions. Grant amounts are dependent on: the student's expected family contribution (EFC) (see below); the cost of attendance (as determined by the institution); the student's enrollment status (full-time or part-time); and whether the student attends for a full academic year or less. Students may not receive Federal Pell Grant funds from more than one school at a time.

Financial need is determined by the U.S. Department of Education using a standard formula established by Congress, to evaluate the financial information reported on the *Free Application for Federal Student Aid* (FAFSA) and to determine the family EFC. The fundamental elements in this standard formula are the student's income (and assets if the student is independent), the parents' income and assets (if the student is dependent), the family's household size, and the number of family members (excluding parents) attending postsecondary institutions. The EFC is the sum of:

1. A percentage of net income (remaining income after subtracting allowances for basic living expenses and taxes); and

*continued top of next page*

2. A percentage of net assets (assets remaining after subtracting an asset protection allowance).

Different assessment rates and allowances are used for dependent students, independent students without dependents, and independent students with dependents. After filing a FAFSA, the student receives a *Student Aid Report* (SAR), or the institution receives an *Institutional Student Information Record* (ISIR), which notifies the student if he or she is eligible for a Federal Pell Grant and provides the student's EFC.

**TYPE OF ASSISTANCE (SPECIFICALLY)**

Perkins Loan allocations are made to eligible institutions for the purpose of providing low-interest loans to needy undergraduate and graduate students attending eligible institutions. Institutional allocations for new Federal Capital Contributions (FCC) are made to institutional revolving funds based on institutional requests for program funding under a statutory formula. Under the funding formula, funds are distributed to institutions, first, on the basis of the institution's base guarantee plus the pro rata share received during the 1999–2000 award year under the Perkins Loan Program and, then, on the basis of the aggregate

need of the eligible students in attendance. Institutions must contribute 25 percent of the funding. In addition, institutions receive payments to compensate them for the cost of certain statutory loan cancellation provisions. Students receive Perkins loans from participating institutions after filing the *Free Application for Federal Student Aid* (FAFSA) to determine their financial need.

**PROGRAM DESCRIPTION**

The Federal Perkins Loan Program provides low-interest loans to help needy students finance the costs of postsecondary education. Students can receive Perkins loans at any one of approximately 1,800 participating postsecondary institutions. Institutional financial aid administrators at participating institutions have substantial flexibility in determining the amount of Perkins loans to award to students who are enrolled or accepted for enrollment. Borrowers who

undertake certain public, military, or teaching service employment are eligible to have all or part of their loans canceled. In general, schools are reimbursed for 100 percent of the principal amount of the loan canceled, and the reimbursement must be reinvested in the school's revolving loan fund. These institutional reimbursements for loan cancellations are an entitlement.

Loan volume in the program comes from: (1) newly appropriated FCC contributions and loan cancellation payments; (2) an institutional matching contribution equaling at least one-third of the FCC contribution; and (3) school-level collections on prior-year student loans.

Financial need is determined by the U.S. Department of Education, using a standard formula, established by Congress, to evaluate the financial information reported by the student on the FAFSA. The information from the FAFSA then determines the student's expected family contribution (EFC). The fundamental elements in this standard formula are the student's income (and assets, if the student is independent), the parents' income and assets (if the student is dependent), the family's household size, and the number of family members (excluding parents) attending postsecondary institutions. The EFC is the sum of: (1) a percentage of net income (remaining income after subtracting allowances for basic living expenses) and (2) a percentage of net assets (assets remaining after subtracting an asset protection allowance). Different assessment rates and allowances are used for dependent students, independent students without dependents, and independent students with dependents. After filing a FAFSA, the student receives a *Student Aid Report* (SAR) or the institution receives an *Institutional Student Information Record* (ISIR), which provides the student's EFC.

### PROGRAM DESCRIPTION

The FSEOG Program provides need-based grants to low-income undergraduate students to promote access to postsecondary education. Students can receive these grants at any one of approximately 4,000 participating postsecondary institutions. Institutional financial aid administrators at participating institutions have substantial flexibility in determining the amount of FSEOG awards to provide students who are enrolled or accepted for enrollment. Priority is given to those students with “exceptional need” (those with the lowest expected family contributions, [EFCs], at the institution) and those who are also Federal Pell Grant (see # 84.063, also under topical heading “Federal Student Aid”) recipients.

Financial need is determined by the U.S. Department of Education, using a standard formula, established by Congress, to evaluate the financial information

reported on the FAFSA and to determine the family's EFC. The fundamental elements in this standard formula are the student's income (and assets, if the student is independent), the parents' income and assets (if the student is dependent), the family's household size, and the number of family members (excluding parents) attending postsecondary institutions. Different assessment rates and allowances are used for dependent students, independent students without dependents, and independent students with dependents. After filing a FAFSA, the student receives a *Student Aid Report (SAR)*, or the school receives an *Institutional Student Information Record (ISIR)*, which provides the EFC.

funding (except in the case of private, for-profit organizations, which must match 50 percent, and in the case of established criteria for which the matching requirement is waived).

The U.S. Department of Education encourages colleges and universities to use FWS Program funds to promote community service activities. Institutions must use at least 7 percent of their Work-Study allocation to support students working in community service jobs, including: reading tutors for preschool age or elementary school children; mathematics tutors for students enrolled in elementary school through ninth grade; or literacy tutors in a family literacy project performing family literacy activities. Students receive FWS awards from participating institutions after filing the *Free Application for Federal Student Aid* (FAFSA) to determine their financial need and may be employed by: the institution itself; a federal, state, or local public agency; a private nonprofit organization; or a private for-profit organization.

---

### PROGRAM REGULATIONS

A Notice of Proposed Rulemaking (NPRM) was published in the *Federal Register* March 21, 2008. A final regulation is expected before July.

---

### PROGRAM DESCRIPTION

The TEACH Grant Program provides annual non-need-based grants of up to \$4,000 to eligible undergraduate and graduate students who agree to serve as a full-time mathematics, science, foreign language, bilingual education, special education, or reading teachers, or teach in another high-need field, at a high-need school for not less than four years within eight years of graduation. For students who fail to fulfill this service requirement, grants are converted to Direct Unsubsidized Stafford Loans, with interest accrued from the date the grants were awarded.

To be eligible for a TEACH Grant, enrolled students must have a grade point average (GPA) of at least 3.25 on a 0 to 4.0 scale or receive a qualifying score on an admission test and be completing academic course work and other requirements necessary to begin a career in teaching, or plan to complete such coursework and requirements prior to graduation. (For first-year students, GPA is determined using cumulative secondary school grades.) In addition, teachers, retirees from other occupations with expertise in a field in which there is a shortage of teachers, or current or former teachers using a high-quality alternative certification route are eligible to receive TEACH Grants to obtain a graduate degree. All applicants must sign an agreement to serve in which they acknowledge that

### PROGRAM DESCRIPTION

The CACG Program is a formula grant program in which funds are awarded based on the relative num-

ber of people in each state between the ages of 5 and 17 and between the ages of 15 and 44 who are living below the poverty line. This program fosters partnerships among federal, state, and local governments and philanthropic organizations through matching challenge grants that are aimed at increasing the number of low-income students who are prepared to enter and succeed in postsecondary education.

### TYPES OF PROJECTS

CACG Program grant projects are funded for two years and are authorized to implement an array of programs and strategies to ensure access to and participation in postsecondary education for underserved populations. Some of these activities include: the dissemination of information pertaining to postsecondary education benefits and opportunities, career preparation, outreach activities, need-based grant aid, and professional development for middle and high school counselors as well as financial aid and admissions counselors at institutions of higher education (IHEs).

### PROGRAM REGULATIONS

*EDGAR*, 34 CFR 694

### PROGRAM DESCRIPTION

This discretionary grant program is designed to increase the number of low-income students who are prepared to enter and succeed in postsecondary education. GEAR UP provides six-year grants to states and partnerships to provide services at high-poverty middle and high schools. GEAR UP grantees serve an entire cohort of students beginning no later than the seventh grade and follow the cohort through high school. GEAR UP funds also are used to provide college scholarships to low-income students.

### TYPES OF PROJECTS

GEAR UP offers state and partnership grants. State grants are competitive six-year matching grants that must include both an early intervention component designed to increase college attendance and success and raise the expectations of low-income students and a scholarship component. Partnership grants are competitive six-year matching grants that must support an early intervention component and may support a scholarship component designed to increase college attendance and success and raise the expectations of low-income students.

### LEGISLATIVE CITATION

*Higher Education Act of 1965 (HEA)*, as amended, Title III, Part D

---

### PROGRAM REGULATIONS

*EDGAR*

---

### PROGRAM DESCRIPTION

The goal of the program is to provide low-cost capital to finance improvements to the infrastructure of the nation's HBCUs. Specifically, the program provides HBCUs with access to capital financing or refinancing for the repair, renovation, and construction of classrooms, libraries, laboratories, dormitories, instructional equipment, and research instrumentation. The program's authorizing statute caps the total amount of loans and accrued interest available through the program at \$375 million. The program exceeded this statutory cap in 2007, and the U.S. Department of Education no longer has authority to make additional loans through the program.

In fiscal year 2006, Congress passed the *Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery* (P.L. 109-234). Sec. 2601 of this act created a new subprogram within the HBCU Capital Financing program that would provide loans on advantageous terms to HBCUs affected by Hurricane Rita and Hurricane Katrina.

---

### TYPES OF PROJECTS

This assistance comes through the issuance of federal guarantees on the full payment of principal and interest on qualified bonds, the proceeds of which are used for loans.

**PROGRAM DESCRIPTION**

Howard University was established in 1867 as a federally chartered, private, nonprofit education institution. As a comprehensive, research-oriented, predominantly African-American university, its mission is to provide a high-quality educational experience at a reasonable cost. The annual appropriation for Howard University provides partial support for construction, develop-

ment, improvement, endowment, and maintenance of the university and the Howard University Hospital. Howard University has discretion in allocating funds for its academic, research, and endowment programs, and for its construction activities.

---

#### TYPES OF PROJECTS

Funding supports three areas:

- Academic Programs—academic programs, research, and construction for the university, including a wide range of administrative, library, computer, and technology resources for the university;
- Endowment Program—matching support to Howard University’s endowment, which assists the university in increasing its financial strength and independence by stimulating private contributions; and
- Howard University Hospital—a major acute and ambulatory care center as well as a teaching and training hospital for Washington, D.C.

**PROGRAM DESCRIPTION**

This program prepares participants for doctoral studies through involvement in research and other scholarly activities. Participants are from disadvantaged backgrounds and have demonstrated strong academic potential. Institutions work closely with participants as they complete their undergraduate requirements. Institutions encourage participants to enroll in graduate programs and then track their progress through to the successful completion of advanced degrees. The goal is to increase the attainment of Ph.D. degrees by students from underrepresented segments of society.

---

### TYPES OF PROJECTS

TCT-B grants are designed to enable grantees to develop and implement programs to provide courses of study in science, technology, engineering, and mathematics (STEM) fields or critical foreign languages that are integrated with teacher education. Graduates of these programs will receive baccalaureate degrees in STEM fields or critical foreign languages, concurrent with teacher certification. There is an absolute priority for projects to focus primarily on placing graduates in high-need schools. Required uses of funds include providing students with quality clinical experiences, offering training in the use and integration of educational technology, and providing graduates with ongoing activities and services.

### PROGRAM DESCRIPTION

The purpose of this program is to enable eligible recipients to develop and implement two- or three-year part-time master's degree programs in science, technology, engineering, mathematics, or critical foreign language education for teachers in order to enhance the teachers' content knowledge and pedagogical skills, or to develop and implement programs for professionals in science, technology, engineering, mathematic, or critical foreign language that lead to a one-year master's degree in teaching that results in teacher certification.

### TYPES OF PROJECTS

The purpose of the program is to offer a master's degree in the designated content areas to current teachers and to enable professionals in these fields to pursue a one-year master's degree that leads to teacher certification. There is an absolute priority for projects to focus primarily on placing graduates in high-need schools. Grant requirements include preparing teachers who can assume a leadership role in their schools; encouraging participation of underrepresented groups, members of the Armed Forces, and teachers teaching in high-need schools; and creating opportunities for enhanced and ongoing professional development.

### PROGRAM DESCRIPTION

The Upward Bound Math-Science program allows the U.S. Department of Education to fund specialized Upward Bound math and science centers. The program is designed to strengthen the math and science skills of participating students. The goal of the program is to help students recognize and develop their potential to excel in math and science and to encourage them to pursue postsecondary degrees in math and science.

### TYPES OF PROJECTS

Program services include: summer programs with intensive math and science training; year-round counseling and advisement; exposure to university faculty members who do research in mathematics and the sciences; computer training; and participant-conducted scientific research under the guidance of faculty members or graduate students, who are serving as mentors.

---

**PROGRAM DESCRIPTION**

The Impact Aid program provides financial support to school districts affected by federal activities. The presence of certain children living on federal property across the country may place a financial burden on the school districts that educate them. The property on which these children live is exempt from local property taxes, denying districts access to the primary source of revenue used by most communities to finance education. Impact Aid helps to replace the lost local revenue that otherwise would be available to districts to pay for the education of these children. Several different kinds of payments are supported as described below.

Impact Aid Section 8002 provides payments for federal property to assist local school districts that have lost a portion of their local tax base because of federal ownership of property. To be eligible, a school district must demonstrate that the federal government has acquired, since 1938, real property with an aggregate assessed valuation of at least 10 percent of all real property in the district at the time of acquisition.

Section 8003 grants help educate federally connected children. These may be the children of members of the uniformed services, children who live on Indian lands, children who live on federal property or federally subsidized low-rent housing, and children whose parents work on federal property. Section 8003 grants include additional payments for children with disabilities for certain federally connected children who are eligible under the *Individuals with Disabilities Education Act (IDEA)*.

The Impact Aid Discretionary Construction Grant Program authorizes competitive grants for emergency repairs and modernization of school facilities to certain eligible LEAs that receive Impact Aid (Section 8007(b)). Emergency repair grants must be used to repair, renovate, or alter a public elementary or secondary school facility to ensure the health,

safety, and well-being of students and school personnel. Modernization grants may be used to extend a public elementary or secondary school facility to ease overcrowding and provide facilities that support a contemporary education program. The law specifies that applications for Emergency grants receive first and second priority in the competition, while applications for Modernization grants are treated as third and fourth priorities.

The U.S. Department of Education owns a limited number of school facilities that are operated by LEAs that serve military installations. Section 8008 grants help maintain these federally owned school facilities and restore or improve them where appropriate to enable an LEA to accept ownership. The Department directly oversees construction projects, unless the LEA has agreed to accept transfer of the facility, in which case funds may be provided to the LEA to complete the project after the transfer.

---

**TYPES OF PROJECTS**

Basic Support Payments (Section 8003) for FY 2008 were provided to approximately 1,250 LEAs across the country. Federal Property Payments (Section 8002) for FY 2008 were provided to approximately 220 LEAs across the country. Eligibility for Basic Support and Federal Property Payments is determined on an annual basis through applications submitted by school districts. Payments generally are deposited in eligible LEAs' general fund accounts and are used for basic operating costs within the LEA, including teacher salaries, utilities, books, and supplies.

For Payments for Children with Disabilities (Section 8003), any LEA that is eligible to receive basic support payments on behalf of federally connected children also may receive a payment for children with disabilities who are military dependents or who live on Indian lands. Eligibility is determined on an annual basis through applications submitted by school districts. Payments are used for the special education costs incurred by the LEAs. Some funding flows indirectly to private schools in those LEAs that pay tuition to private institutions for the education of disabled students whose Individualized Education Programs (IEPs) require such special services.

Under Facilities Maintenance (Section 8008), funds are provided for emergency repairs and comprehensive capital improvements to schools that the Department of Education owns but that LEAs use to serve federally connected military-dependent students.

These funds also may support the transfer of these federal facilities to LEAs.

The competitive Construction grants (Section 8007(b)) fund school repair and renovation projects. Payments generally are deposited in eligible LEAs' general fund accounts and are used for general operating expenses, such as teacher salaries, utilities, administrative costs, books, and supplies. Funding is not provided to private schools.

Formula Construction payments (Section 8007(a)) must be used to pay for construction-related expenses, such as developing drawings and plans for school buildings; building, purchasing, renovating, or expanding school buildings; inspecting and supervising the construction of school buildings; and paying the debt service associated with these activities. Formula Construction payments are not being funded in 2008.

**PROGRAM DESCRIPTION**

This program is designed to address the unique education- and culturally related academic needs of American Indian and Alaska Native students, including preschool children, so that these students can meet the same challenging state performance standards expected of all students. The program is the U.S. Department of Education's principal vehicle for addressing the particular needs of Indian children.

---

**TYPES OF PROJECTS**

Grant funds supplement the regular school program. Projects help Indian children sharpen academic skills, assisting students in becoming proficient in the core content areas, and provide students an opportunity to participate in enrichment programs that would otherwise be unavailable. Funds support such activities as after-school programs, early childhood education, tutoring, and dropout prevention.

---

**TYPES OF PROJECTS**

Grants may be used to:

- Facilitate access to or to preserve foreign information resources in print or electronic forms;
  - Develop new means of immediate, full-text document delivery for information and scholarship from abroad;
  - Develop new means of shared electronic access to international data;
  - Support collaborative projects for indexing, cataloging, and providing other means of bibliographic access for scholars to important research materials published or distributed outside the United States;
  - Develop methods for the wide dissemination of resources written in non-Roman alphabets;
  - Assist teachers of less commonly taught languages in acquiring, via electronic and other means, materials suitable for classroom use;
  - Promote collaborative technology-based projects in foreign languages, area studies, and international studies among grant recipients under the *HEA*, Title VI; and
  - Support other eligible activities consistent with the purposes and intent of the legislation.

Each program assisted with federal funds must enhance primarily the international academic program of the institution. Eligible activities may include but are not limited to:

- Development of a global or international studies program that is interdisciplinary in design;
- Development of a program that focuses on issues or topics, such as international business or international health;
- Development of an area studies program and programs in corresponding foreign languages;
- Creation of innovative curricula that combine the teaching of international studies with professional and preprofessional studies, such as engineering;
- Research for and development of specialized teaching materials, including language instruction, e.g., business French;
- Establishment of internship opportunities for faculty and students in domestic and overseas settings; and
- Development of study abroad programs.

---

**PROGRAM DESCRIPTION**

Funds support high-quality education programs for migratory children and help ensure that migratory children who move among the states are not penalized in any manner by disparities among states in curriculum, graduation requirements, or state academic content and student academic achievement standards. Funds also ensure that migratory children not only are provided with appropriate education services (including supportive services) that address their special needs but also that such children receive full and appropriate opportunities to meet the same challenging state academic content and student academic achievement standards that all children are expected to meet. Federal funds are allocated by formula to SEAs, based on each state's per pupil expenditure for education and counts of eligible migratory children, age 3 through 21, residing within the state.

---

**TYPES OF PROJECTS**

States use program funds to identify eligible children and provide education and support services. These services may include: academic instruction; bilingual and multicultural instruction; career education services; advocacy services; counseling and testing services; health services; and preschool services.

### PROGRAM DESCRIPTION

CAMP assists students who are migratory or seasonal farmworkers (or children of such workers) enrolled in their first year of undergraduate studies at an IHE. The funding supports completion of the first year of studies. Competitive five-year grants for CAMP projects are made to IHEs or to nonprofit private agencies that cooperate with such institutions. The grants funded under CAMP grantees serve approximately 2,000 participants each year.

### TYPES OF PROJECTS

Services include counseling, tutoring, skills workshops, financial aid stipends, health services, and housing assistance to eligible students during their first year of college. Limited follow-up services are provided to participants after their first year. Students must be enrolled on a full-time basis.

Number of New Awards Anticipated: 20 Consortium Incentive Grants; 1 Migrant Education Coordination Support contract; 1 MSIX Independent Verification and Validation (IV&V) and Management Support Contract (also known as the MSIX Acquisition Support Contract); 49 MSIX State Data Quality Grants

Number of Continuation Awards: 2 contracts

### LEGISLATIVE CITATION

*Elementary and Secondary Education Act of 1965 (ESEA)*, as amended, Title I, Part C, Sec. 1308; 20 U.S.C. 6398

### PROGRAM REGULATIONS

*EDGAR*; 34 CFR 200; *FAR*

### PROGRAM DESCRIPTION

Coordination funds are used to provide grants and contracts to improve the interstate and intrastate coordination of migrant education programs.

### TYPES OF PROJECTS

Grants and contracts that will be funded in FY 2008 include:

1. Consortium Incentive Grants, which support multistate consortia for improving coordination in eight areas of need (i.e., improving the identification and recruitment of eligible migrant children; using scientifically based research to improve school readiness; improving reading and math proficiency; decreasing the dropout rate; improving high school completion rates; strengthening the involvement of parents; expanding access to innovative technologies; and improving the education attainment of out-of-school migratory youths);
2. The Migrant Education Resource Center (MERC), which provides state migrant education programs with expert technical assistance and support for migrant child identification and recruitment activities, facilitates a peer-to-peer network to improve the knowledge and skills of migrant educators on MEP-specific requirements, and maintains a Web-enabled library to allow state and local migrant educators to electronically share MEP documents and products;

3. The Migrant Education Coordination Support Contract, a logistical support contract to organize and implement effective meetings and recommend and procure subject matter experts in support of national interstate coordination initiatives;
4. The MSIX, which links state migrant student record systems to electronically exchange academic and health-related information on a national basis;
5. The MSIX IV&V and Management Support Contract, which provides independent oversight of the MSIX contractors' performance and assistance with investment acquisition, management, and oversight activities; and
6. MSIX State Data Quality Grants, which will provide additional resources to SEAs receiving MEP Basic State Formula Grant awards in order to assist them and their local operating agencies (LOAs) in implementing the interstate exchange of migrant children's records electronically through the MSIX.

### PROGRAM DESCRIPTION

The High School Equivalency Program (HEP) helps migratory and seasonal farmworkers (or children of such workers) who are 16 years of age or older and not currently enrolled in school to obtain the equivalent of a high school diploma and, subsequently, to gain employment or begin postsecondary education or training. The program serves more than 7,000 students annually. Competitive awards are made for up to five years of funding.

---

### TYPES OF PROJECTS

HEP participants receive developmental instruction and counseling services intended to prepare them to:

1. Complete the requirements for high school graduation or for General Educational Development (GED) certificates;
  2. Pass standardized tests of high school equivalency; and
  3. Participate in subsequent postsecondary education and career activities. The major support services offered through HEP are counseling, job placement, health care, financial aid stipends, housing for residential students, and cultural and academic programs.

**PROGRAM REGULATIONS**

*EDGAR, 34 CFR 200.80*

---

**PROGRAM DESCRIPTION**

This program is designed to help break the cycle of poverty and improve the literacy of participating migrant families by integrating early childhood education, adult literacy or adult basic education, and parenting education into a unified family literacy program.

---

**TYPES OF PROJECTS**

This program supports family literacy projects. Projects provide for: early childhood education; adult literacy (adult basic and secondary-level education and instruction for limited English proficient [LEP] individuals); parenting education; and interactive parent-child literacy activities for participating families, often through other entities providing these services, such as government agencies, colleges and universities, public schools, Head Start programs, and other public and private community-based groups. Projects provide staff training and support services, such as child care and transportation, when unavailable from other sources, to enable participation in core education activities.

**PROGRAM DESCRIPTION**

The program supports the development of early childhood centers of excellence that focus on all areas of development, especially on the early language, cognitive, and pre-reading skills that prepare children for continued school success and that serve particularly children from low-income families.

---

**TYPES OF PROJECTS**

Grants are designed to help early childhood centers improve their programs, by creating centers of excellence that provide preschool-age children with language and cognitive skills, and an early reading foundation. Funds must be used to:

- Enhance children's language, cognitive, and early reading skills through professional development for teachers;
  - Provide early language and reading development and instructional materials as developed from scientifically based reading research;
  - Provide preschool-age children with cognitive learning opportunities in high-quality language and literature-rich environments;
  - Use screening assessments to effectively identify preschool children who may be at risk for reading failure; and
  - Improve existing early childhood programs by integrating scientifically based reading research into all aspects of the program (including instructional materials, teaching strategies, curricula, parent engagement, and professional development).

### PROGRAM DESCRIPTION

This program offers grants to states for subgrants that support local family literacy projects. Local projects integrate early childhood education, adult literacy (adult basic and secondary-level education and instruction for limited English proficient [LEP] individuals), parenting education, and interactive parent and child literacy activities for low-income families with parents who are eligible for services under the *Adult Education and Family Literacy Act (AEFLA)* and their children from birth through age 7. Teen parents and their children from birth through age 7 also are eligible. All participating families must be those most in need of program services.

Five percent of the annual appropriation is set aside for family literacy grants for migratory worker families, the outlying areas, and Indian tribes and tribal organizations. In addition, the U.S. Department of Education must award one project located in a women’s prison. Up to 3 percent is reserved for national evaluation and technical assistance. The remaining federal funds are allocated by formula to SEAs based on their relative shares of Title I, Part A, funds. SEAs make competitive subgrants to partnerships of LEAs and other organizations and agencies, giving priority to proposals that primarily target areas with large numbers of most-in-need families or to projects

located in empowerment zones or enterprise communities. The statute also requires that subgrants be equitably distributed among urban and rural areas and that local projects assume an increasing share of program costs each year. The increasing share of the program expenses ranges from 10 percent in the first year to 40 percent in the fourth year. Cost sharing for years five through eight is 50 percent, and, after the eighth year of federal Even Start funding, the cost share is at least 65 percent.

---

**TYPES OF PROJECTS**

Projects provide for early childhood education, adult literacy (adult basic and secondary-level education and instruction for English language learners [ELLs]), parenting education, and interactive parent-child literacy activities for participating families, often through other entities providing these services, such as government agencies, colleges and universities, public schools, Head Start programs, and other public and private community-based groups.

Projects operate year-round and provide staff training and support services, such as child care and transportation, when unavailable from other sources, to enable participation in core education activities.

### PROGRAM DESCRIPTION

This program focuses on putting proven methods of early reading instruction in classrooms. Through Reading First, states and districts receive support to apply scientifically based reading research—and the proven instructional and assessment tools consistent with this research—to ensure that all children learn to read well by the end of third grade. The program provides formula grants to states that submit an approved application. SEAs award subgrants to eligible LEAs on a competitive basis. SEAs fund those proposals that show the most promise for raising student achievement and for successful implementation of reading instruction, particularly at the classroom level. Only programs that are founded on scientifically based reading research are eligible for funding through Reading First. Funds are allocated to states according to the proportion of children aged 5 to 17 who reside within the state and who are from families with incomes below the poverty line, except that no state may receive less than one-fourth of 1 percent of the total amount available for state grants.

The U.S. Department of Education is authorized to reserve 0.5 percent of Reading First funds for awards to the outlying areas (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) and 0.5 percent to be awarded to the U.S. Department of Interior's Bureau of Indian Education. Beginning in FY 2004, for any fiscal year in which the amount appropriated for the program exceeds the amount appropriated in FY 2003, the Department of Education reserves the lesser of \$90 million or 10 percent of the excess amount for Targeted Assistance grants. The Department also is authorized to reserve up to 2.5 percent of the amount appropriated for any fiscal year, to a maximum of \$25 million, for national activities and program evaluation and \$5 million for information dissemination activities.

### TYPES OF PROJECTS

This program provides assistance to states and districts to establish scientifically based reading programs for students enrolled in kindergarten through grade 3. Funds support increased professional development to ensure that all teachers have the skills they need to teach these programs effectively. The program also supports the use of screening and diagnostic tools and classroom-based instructional reading assessments to measure how well students are reading and to monitor their progress.

**WHO MAY APPLY (SPECIFICALLY)**

Eligible applicants for Striving Readers include:

1. Local education agencies (LEAs) that: (a) are eligible to receive funds under the *Elementary and Secondary Education Act (ESEA)*, Title I, Part A, pursuant to Sec. 1113 of *ESEA* and (b) serve students in one or more of grades 6 through 12. Eligible LEAs may apply individually, with other eligible LEAs, or in partnership with one or more of the following entities:
  - State education agencies (SEAs);
  - Intermediate service agencies;
  - Public or private institutions of higher education (IHEs); and
  - Public or private organizations with expertise in adolescent literacy, rigorous evaluation, or both.
2. SEAs on behalf of one or more LEAs that meet the requirements above. SEAs must apply on behalf of one or more eligible LEAs and also may partner with one or more of the following entities:
  - Intermediate service agencies;
  - Public or private IHEs; and
  - Public or private organizations with expertise in adolescent literacy, rigorous evaluation, or both.

For any application, the fiscal agent must be an eligible LEA or an SEA.

**PROGRAM DESCRIPTION**

This program is aimed at improving the reading skills of middle school- and high school-aged students who are reading below grade level. Striving Readers will support the implementation and evaluation of research-based reading interventions for struggling middle and high school readers in Title I eligible schools that are at risk of not meeting or are not meeting adequate yearly progress (AYP) requirements under the *No Child Left Behind Act*, or that have significant percentages or number of students reading below grade level, or both.

The goals of this program are to raise student achievement in middle and high schools by improving the literacy skills of struggling adolescent readers and to help build a strong, scientific research base around specific strategies that improve adolescent literacy skills.

---

**TYPES OF PROJECTS**

Striving Readers programs include each of three key components:

1. Supplemental literacy interventions targeted to students who are reading significantly below grade level;
  2. Cross-disciplinary strategies for improving student literacy, which may include professional development for subject matter teachers and use of research-based reading and comprehension strategies in classrooms across subject areas; and
  3. A strong experimental evaluation component.

### PROGRAM DESCRIPTION

APH produces and distributes educational materials adapted for students who are legally blind and enrolled in formal education programs below the college level. The materials are distributed to public and private nonprofit institutions serving individuals who are blind through allotments to the states. The allotments are based on an annual census conducted by APH of the number of students who are legally blind in each state and are provided in the form of credits. State education agencies (SEAs) and public and private nonprofit institutions serving persons who are blind may order materials free of charge up to the amount of funds allocated to each state for educational materials. APH also uses its appropriation to conduct research related to developing and improving products and provides advisory services to professional and consumer organizations on the availability and use of materials produced by APH. In FY 2007, APH served 57,696 students.

### TYPES OF PROJECTS

Materials produced by APH include: textbooks in Braille and large type; education tools, such as Braille typewriters and computer software and hardware; teaching aides, such as tests and performance measures; and other special supplies. APH conducts basic and applied research necessary to develop and improve instructional materials in such areas as Braille reading, science, mathematics, and social studies and to adapt testing materials related to these subject areas. Special materials also are developed in such areas as early childhood education, prevocational training, the use of computer applications, the functional use of residual vision, and to teach students with additional disabilities. Advisory services activities include operation of APH's Student Registration System, Louis Database of Accessible Materials, electronic File Repository, Expert Database, and National Instructional Partnership, and use of a variety of mechanisms to provide information on APH services, such as catalogs, brochures, and videos.

**PROGRAM DESCRIPTION**

The Assistive Technology State Grant Program (# 84.224A) supports state efforts to improve the provision of assistive technology to individuals with disabilities of all ages through comprehensive, statewide programs that are consumer responsive. The Assistive Technology State Grant Program makes assistive technology devices and services more available and accessible to individuals with disabilities and their families. The program provides one grant to each of the states, the District of Columbia, Puerto Rico, and the outlying areas.

The National Activities program (# 84.224B) provides information and technical assistance through grants, contracts, or cooperative agreements on a competitive basis, to individuals, service providers, states, protection and advocacy entities and others to support and improve the implementation of the *ATA*.

The Alternative Financing Program (# 84.224C) provides grants for the establishment and maintenance of programs that enable individuals with disabilities to purchase Assistive Technology devices and services through financial loans.

Authorization for new grants ended in FY 2005, but existing Alternative Financing Programs must continue on a permanent basis.

### PROGRAM REGULATIONS

*EDGAR*; 34 *CFR* 373

### PROGRAM DESCRIPTION

This program provides competitive grants to eligible entities to expand and improve the provision of rehabilitation and other services authorized under the *Rehabilitation Act of 1973*, as amended. Funding also is provided to further the purposes and policies of the act. More specifically, the program supports activities that increase the provision, extent, availability, scope, and quality of rehabilitation services under the act. Sec. 303 authorizes support of activities serving individuals with disabilities in an array of project types. These diverse projects may include effective practices that demonstrate methods of service delivery to individuals with disabilities, as well as such activities as technical assistance, systems change, model demonstration, special studies and evaluations, and dissemination and utilization of findings from successful, previously funded projects. The expansion and improvement of rehabilitation and other services will lead to more employment outcomes for individuals with disabilities.

---

**TYPES OF PROJECTS**

Types of projects include model demonstration projects, technical assistance centers, systems-change projects, field initiated demonstrations, and literacy demonstrations. In addition, as noted above, this program supports grants for Braille Training (# 84.235E) and Parent Information and Training programs (# 84.235F and # 84.235G), both also under topical heading "Rehabilitation."

programs in fields related to deafness for students who are deaf and students who are hearing.

Gallaudet also operates the Laurent Clerc National Deaf Education Center, which includes the Kendall Demonstration Elementary School (KDES), which operates an elementary school for children who are deaf, and the Model Secondary School for the Deaf (MSSD), which provides secondary education programs for students who are deaf. The federal government funds these programs in order to support the development, evaluation, and dissemination of model curricula, instructional techniques and strategies, and materials that can be used in a variety of educational environments serving individuals who are deaf or hard of hearing throughout the nation. In FY 2007, the university enrolled 1,823 undergraduate and graduate students and 346 elementary and secondary education students.

#### TYPES OF PROJECTS

Gallaudet University offers a traditional liberal arts curriculum and graduate programs in fields related to deafness for students who are deaf and as well as those who are hearing. To increase the effectiveness of its instructional programs, the university provides communications training, counseling, and other support services for its students who are deaf. Gallaudet also conducts a wide variety of basic and applied deafness research and provides public service programs for persons who are deaf and professionals who work with persons who are deaf.

**PROGRAM DESCRIPTION**

The purpose of the NTID is to promote the employment of persons who are deaf by providing technical and professional education for the nation's young people who are deaf. The U.S. Department of Education maintains an agreement with a host institution, the Rochester Institute of Technology (RIT), to operate a residential facility for postsecondary technical training and education for individuals who are deaf. The purpose of the special relationship with the host institution is to provide NTID and its students with access to more facilities, institutional services, and career preparation options than could be provided otherwise by a national technical institute for the deaf standing alone. The host institution also provides NTID students with health and counseling services, a library, and physical education and recreation facilities. General services, such as food, maintenance, grounds, and security also are provided.

---

**TYPES OF PROJECTS**

NTID offers a variety of technical programs at the certificate, diploma, and associate degree levels. In its degree programs, majors are available in such areas as business, engineering, science, and visual communications. In addition, NTID students may participate in approximately 200 education programs available through RIT. RIT offers advanced technological courses of study at the undergraduate and graduate degree levels. NTID initiated a master's degree program of its own in FY 1996 to train secondary education teachers who will be teaching students who are deaf. The institute also operates a bachelor's in applied science degree program to train interpreters for persons who are deaf and a tutor and note-taker training program. Students who are deaf and enroll in NTID or RIT programs are provided a wide range of support services and special programs to assist them in preparing for their careers, including tutoring, remedial and language enrichment programs, counseling, note taking, interpreting, captioning, and mentoring. Students may work with specialized educational media and complete cooperative work experiences. Specialized job placement assistance also is provided.

NTID conducts applied research on occupational- and employment-related aspects of deafness. It also conducts studies related to communication assessment, the demographics of NTID's target population, and how hearing loss affects learning in postsecondary education. In addition, NTID conducts training workshops and seminars related to deafness. These workshops and seminars are offered to professionals throughout the nation who employ, work with, teach, or otherwise serve persons who are deaf.

**PROGRAM DESCRIPTION**

The purpose of this program is to create and expand job and career opportunities for individuals with disabilities in the competitive labor market. This is accomplished by involving private industry partners to help identify competitive job and career opportunities and the skills needed to perform these jobs to create practical job and career readiness and training programs and to provide job placement and career advancement.

---

**TYPES OF PROJECTS**

The program supports projects that demonstrate the capacity to provide job development, job placement, career advancement, and training services for program participants, many of whom are individuals with significant disabilities. Grantees arrange, coordinate, or conduct job readiness training, occupational or job skills training, and training to enhance basic work skills and workplace competencies. Grantees also provide supportive services and assistance for individuals with disabilities in order to maintain the employment or career advancement for which the individuals received training.

---

**PROGRAM DESCRIPTION**

The Protection and Advocacy of Individual Rights (PAIR) program supports the protection and advocacy system in each state to protect the legal and human rights of individuals with disabilities. In order to be eligible for advocacy services from the PAIR program, an individual with a disability must meet three criteria. First, the individual's concern must be beyond the scope of the Client Assistance Program (see # 84.161A, also under topical heading "Rehabilitation"; authorized under Sec. 112 of the *Rehabilitation Act of 1973*, as amended). Second, the individual must be ineligible for services from the Protection and Advocacy of Developmental Disabilities (PADD) program (authorized under Part C of the *Developmental Disabilities Assistance and Bill of Rights Act of 2000 (DD Act)*). Finally, the individual also must be ineligible for the Protection and Advocacy for Individuals with Mental Illness (PAIMI) program (authorized under the *Protection and Advocacy for Individuals with Mental Illness Act*).

Each PAIR program must set annual priorities and objectives to meet the needs of individuals with disabilities in each state. Although the objectives and priorities vary from state to state to meet the needs of individuals with disabilities in each state, most PAIR programs set priorities and objectives aimed at reducing barriers to education, employment, transportation, and housing. In addition, PAIR programs advocate on behalf of individuals with significant disabilities to promote community integration and full participation in society.

---

**TYPES OF PROJECTS**

Eligible systems have the authority to pursue legal, administrative, and other appropriate remedies or approaches to protect and advocate for the rights of individuals with disabilities. Protection and advocacy systems may be housed in public or private entities designated by the governor.

## Rehabilitation

### PROGRAM TITLE

# Randolph Sheppard Vending Facility Program

### CFDA # (OR ED #)

None

### ADMINISTERING OFFICE

Office of Special Education and Rehabilitative Services (OSERS)

### WHO MAY APPLY (SPECIFICALLY)

An application for designation as a state licensing agency may only be submitted by the state vocational rehabilitation (VR) agency providing VR services to the blind under an approved state plan for VR services under 34 *CFR* 361.

### TYPE OF ASSISTANCE (SPECIFICALLY)

Sec. 103(b)(1) of the *Rehabilitation Act* gives state agencies the authority to use some of their VR state (formula) grant funds (see Vocational Rehabilitation State Grants program, # 84.126A, also listed under topical heading "Rehabilitation") to support the supervision, management, and the acquisition of equipment and initial stock and supplies of business enterprise programs, including the Randolph Sheppard program.

### APPROPRIATIONS

Note: The Randolph Sheppard program has no specific appropriations line item in the federal budget. In FY 2006, the total gross income for the program was 692.2 million, while the total earnings of all vendors was \$115.7 million. FY 2007 data not available yet.

### PROGRAM REGULATIONS

34 *CFR* 395

### PROGRAM DESCRIPTION

The Vending Facility program authorized by the *Randolph-Sheppard Act* provides persons who are blind with remunerative employment and self-support through the operation of vending facilities on federal and other property. The program, enacted into law in 1936, was intended to enhance employment opportunities for trained, licensed blind persons to operate facilities. The law was subsequently amended in 1954 and again in 1974 to ultimately ensure individuals who are blind a priority in the operation of vending facilities, which included cafeterias, snack bars, and automatic vending machines, on federal property. The program has broadened from federal locations to also include state, county, municipal, and private installations. However, the priority provisions of the act apply only to the operation of vending facilities on federal property. Under the Randolph Sheppard program, state licensing agencies recruit, train, license and place individuals who are blind as operators of vending facilities located on federal and other properties. The act authorizes a particular blind individual to conduct specified activities in a particular location through a "license" granted by the state.

### PROGRAM DESCRIPTION

This program provides grants to assist states in developing and implementing collaborative programs with appropriate entities to provide programs of supported employment services for individuals with the most significant disabilities to enable them to achieve an employment outcome of supported employment. Grant funds are administered under a state plan supplement to the Title I state plan for vocational rehabilitation services designated by each state.

### TYPES OF PROJECTS

Supported employment grant funds are used to supplement funds provided under the state vocational rehabilitation grants program for the costs of providing supported employment services. Program funds may be used to supplement assessments under the Title I program and supplement other vocational rehabilitation services necessary to help individuals with the most significant disabilities find work in the integrated labor market. Funds cannot be used to provide the extended services necessary to maintain individuals in employment after the end of supported employment services, which usually do not exceed 18 months.

---

**PROGRAM DESCRIPTION**

This program provides grants to states to support a wide range of services designed to help individuals with disabilities prepare for and engage in gainful employment consistent with their strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. Eligible individuals are those who have a physical or mental impairment that results in a substantial impediment to employment and who require vocational rehabilitation (VR) services to achieve an employment outcome. Priority must be given to serving individuals with the most significant disabilities if a state is unable to serve all eligible individuals.

---

**TYPES OF PROJECTS**

Funds are distributed to states and territories based on a formula that takes into account population and per capita income to cover the cost of direct services and program administration. Grant funds are administered under an approved state plan by VR agencies designated by each state. The state matching requirement is 21.3 percent; however, the state share is 50 percent for the cost of construction of a facility for community rehabilitation program purposes.

**PROGRAM DESCRIPTION**

The National Research Center for the Education of Gifted and Talented Youth conducts research for the purpose of carrying out activities described in Sec. 5464(b) of the statute, including research on methods and techniques for identifying and teaching gifted and talented students and for using gifted and talented programs and methods to serve all students. It also conducts program evaluations and surveys. As part of its work, the center collects, analyzes, and develops information about gifted and talented education. Emphasis is given to the identification of and services for students traditionally not included in gifted and talented education, including individuals with limited English proficiency (LEP), individuals with disabilities, and individuals living under economically disadvantaged conditions. For information about research activities conducted by the center, see the list of statutory use of funds for demonstration projects under the Javits authority (see Jacob K. Javits Gifted and Talented Students Education, # 84.206A, under topical heading "Academic Improvement").

### PROGRAM DESCRIPTION

This program funds research and development projects that propose a sound approach to the investigation of an important education or assistive technology, science, or engineering question under topics identified each year in the solicitation. The purpose of the program is to: stimulate technological innovation; increase small business participation in federal research and development; foster and encourage participation by minority and disadvantaged persons in technological innovation; and increase private sector commercialization of technology derived from federal research and development.

### TYPES OF PROJECTS

Each year, the program funds Phase I feasibility projects for approximately six months. After completion of the Phase I stage, most of these businesses can compete for Phase II awards. Phase II awards can last up to 24 months.

### PROGRAM DESCRIPTION

This program provides grants to SEAs, LEAs, and Indian tribes for the purpose of increasing student access to quality mental health care by developing innovative programs that link school systems with local mental health systems.

### TYPES OF PROJECTS

A funded program must include all of the following activities:

- Enhancing, improving, or developing collaborative efforts between school-based service systems and mental health service systems to provide, enhance, or improve prevention, diagnosis, and treatment services to students;
- Enhancing the availability of crisis intervention services, appropriate referrals for students potentially in need of mental health services, and ongoing mental health services;
- Providing training for the school personnel and mental health professionals who will participate in the program;
- Providing technical assistance and consultation to school systems and mental health agencies, and to families participating in the program;
- Providing linguistically appropriate and culturally competent services; and
- Evaluating the effectiveness of the program in increasing student access to quality mental health services and making recommendations to the secretary of education about sustainability of the program.

---

**PROGRAM REGULATIONS**

*EDGAR*

---

**PROGRAM DESCRIPTION**

The program provides support to SEAs for a variety of drug-abuse- and violence-prevention activities focused primarily on school-age youths. SEAs are required to distribute 93 percent of funds to local education agencies (LEAs) for drug-abuse and violence-prevention activities authorized under the statute. These activities may include: developing instructional materials; providing counseling services and professional development programs for school personnel; implementing community service projects and conflict resolution, peer mediation, mentoring and character education programs; establishing safe zones of passage for students to and from school; acquiring and installing metal detectors; and hiring security personnel. The formula for the distribution of funds to LEAs is based on the state's prior year share of Title I (*ESEA*) funds (60 percent) and enrollment (40 percent).

---

**TYPES OF PROJECTS**

Activities frequently funded by LEAs include: staff training; student instruction; curriculum development or acquisition; parent education and involvement; conflict resolution; peer mediation and student assistance programs, such as counseling, mentoring, identification and referral services.

**PROGRAM DESCRIPTION**

Grants support LEAs in the development of communitywide approaches to creating safe and drug-free schools and promoting healthy childhood development. Programs are intended to prevent violence and the illegal use of drugs and to promote safety and discipline. Coordination with other community-based organizations (CBOs) is required. This program is jointly funded and administered by the departments of Education, Justice, and Health and Human Services. The appropriation amounts listed above do not include funds appropriated for the departments of Justice and Health and Human Services.

---

**TYPES OF PROJECTS**

To be funded, local comprehensive strategies must address the following five elements but may address other elements as well, as determined by the needs of the community:

- Element One—Safe School Environments and Violence Prevention Activities;
  - Element Two—Alcohol, Tobacco, and Other Drug Prevention Activities;
  - Element Three—Student Behavioral, Social, and Emotional Supports;
  - Element Four—Mental Health Services; and
  - Element Five—Early Childhood Social and Emotional Learning Programs.

**PROGRAM DESCRIPTION**

The Arts in Education program authorizes noncompetitive awards to VSA arts, whose programs encour-

age the involvement of, and foster greater awareness of the need for, arts programs for persons with disabilities. Support also is given to the John F. Kennedy Center for the Performing Arts for its arts education programs for children and youths.

---

#### TYPES OF PROJECTS

Two grants are awarded: one to VSA arts and the other to the John F. Kennedy Center for the Performing Arts. VSA arts supports projects that encourage the involvement of disabled people in the arts and foster a greater awareness of the need for arts programs for the disabled. VSA arts projects include training and technical assistance activities, information services, and public awareness activities. The Kennedy Center provides performances, professional development, and other educational activities that emphasize the importance of the arts in education. The Kennedy Center also works with the Alliance for Arts Education, a network of state arts education committees, to focus on incorporating the arts into school curricula.

#### PROGRAM DESCRIPTION

The program supports the enhancement, expansion, documentation, evaluation, and dissemination of innovative, cohesive models that demonstrate effectiveness in:

- Integrating standards-based art education into the core elementary and middle school curricula;
- Strengthening standards-based arts instruction in those grades; and
- Improving students' academic performance, including their skills in creating, performing, and responding to the arts.

---

#### TYPES OF PROJECTS

Grants are designed to enable LEAs and organizations with arts expertise to further create and develop materials for the replication or adaptation of current comprehensive approaches for integrating a range of arts disciplines—such as music, dance, theater, and visual arts, including folk arts—into the elementary and middle school curricula.

Funds may be used to:

- Further the development of programs designed to improve or expand the integration of arts education in elementary or middle school curricula;
- Develop materials designed to help replicate or adapt arts programs;
- Document and assess the results and benefits of arts programs; and
- Develop products and services that can be used to replicate arts programs in other settings.

Applicants must describe an existing set of strategies for integrating the arts into the regular elementary and middle school curricula, which then could be implemented successfully, expanded, documented, evaluated, and disseminated.

---

**PROGRAM DESCRIPTION**

This program provides financial assistance for the planning, program design, and initial implementation of charter schools, and the dissemination of information on charter schools. Grants are available, on a competitive basis, to SEAs in states that have charter school laws; SEAs, in turn, make subgrants to developers of charter schools who have applied for a charter. If an eligible SEA elects not to participate or if its application for funding is not approved, the Department can make grants directly to charter school developers.

---

**TYPES OF PROJECTS**

An eligible applicant that receives a grant or subgrant may use the funds only for post-award planning and design of the education program of a charter school. It may carry out such activities as the refinement of desired education results, refinement of methods for measuring progress toward achieving those results, and the initial implementation of the charter school. Implementation may include informing the community about the charter school and acquiring necessary equipment, materials, and supplies. Other eligible operational costs that cannot be met by state and local sources also may be covered. A state may reserve up to 10 percent of its allocation to support eligible charter schools for dissemination activities.

### PROGRAM DESCRIPTION

The D.C. School Choice Incentive Program provides low-income parents residing in the District of Columbia (District) with expanded options for the education of their children. This program is part of a broader school improvement effort in the District that is founded on the belief that all education sectors (public schools, public charter schools, and nonpublic schools) can offer quality education experiences for the District's students, and that those students who are the most economically disadvantaged have the least access to such experiences.

One grant was awarded on a competitive basis to establish a scholarship program to provide eligible students with expanded school choice options. These scholarships of up to \$7,500 per student per school year enable students to attend a participating nonpublic District elementary or secondary school of their choice.

### PROGRAM DESCRIPTION

This program promotes economic and financial literacy among students in kindergarten through grade 12 through the award of one grant to a national nonprofit education organization that has as its primary purpose the improvement of the quality of student understanding of personal finance and economics.

---

### TYPES OF PROJECTS

In FY 2005, a five-year grant was awarded to the National Council on Economic Education (NCEE). With the FY 2008 funds from this grant, NCEE will expand its current programs and develop new programs as it continues to work through its network of state councils and over 200 university-based centers. NCEE has reached out to state education agencies (SEAs), local education agencies (LEAs), and other organizations that promote economic and financial literacy to encourage them to apply as subgrantees and is expanding and strengthening its relationship with state and local personal finance, entrepreneurial, and economic education organizations by offering a variety of programs designed to advance the cause of economic and financial literacy.

Additionally, NCEE is funding grants to other organizations involved in teacher training, the distribution of curriculum materials to the schools, student and school-based activities, replication of best practices, and research that measures student learning.

**PROGRAM DESCRIPTION**

FIE provides authority for the secretary of education to support nationally significant programs to improve the quality of elementary and secondary education at the state and local levels and to help all students meet challenging state academic content standards and student achievement standards. The types of projects that may be supported include: activities to promote systemic education reform at the state and local levels; programs at the state and local levels that are designed to yield significant results, including programs to explore approaches to public school choice and school-based decision making; recognition programs; and scientifically based studies and evaluations of education reform strategies and innovations. All funded programs must be designed so that their effectiveness is readily ascertainable and is assessed using rigorous, scientifically based research and evaluations.

---

**TYPES OF PROJECTS**

Activities that have been supported included the following:

- Teach for America (TFA) recruits and trains well-qualified college graduates to teach in high-need communities. The organization receives funds to pay a portion of the costs to train almost 3,000 new teachers in a residential summer training institute and to provide professional development during the first year in the classroom.
- Reach Out and Read receives funds to promote early literacy by providing books to babies and preschool children and advice to parents about the importance of reading with children.

### PROGRAM DESCRIPTION

This state-administered formula grant program is designed to improve student academic achievement and the quality of education for all students. Funding may be used for the following purposes: to support local education reform efforts; to provide funding to enable SEAs and LEAs to implement promising education reform programs and school improvement programs that rely on scientifically based research; to provide a continuing source of innovation and education improvement, including support programs that provide library services and instructional and media materials; to meet the education needs of all students, including at-risk youths; and to develop and implement education programs to improve school, student, and teacher performance, including professional development activities and class-size reduction programs. Funded programs must be: (1) tied to promoting challenging academic achievement standards; (2) used to improve student academic achievement; and (3) part of an overall education reform strategy.

### TYPES OF PROJECTS

The program provides funding for 27 allowable program areas, including instructional and educational materials, technology, school improvement, school and education reform, and meeting the education needs of at-risk students.

### PROGRAM REGULATIONS

34 CFR 280

### PROGRAM DESCRIPTION

These grants assist in the desegregation of public schools by supporting the elimination, reduction, and prevention of minority-group isolation in elementary and secondary schools with substantial numbers of minority-group students. In order to meet the statutory purposes of the program, projects also must support the development and implementation of magnet schools that assist in the achievement of systemic reforms and provide all students with the opportunity to meet challenging academic content and achievement standards. Projects support the development and design of innovative education methods and practices that promote diversity and increase choices in public education programs. The program supports capacity development—the ability of a school to help all its students meet more challenging standards—through professional development and other activities that will enable the continued operation of the magnet schools at a high performance level after funding ends. Finally, the program supports the implementation of courses of instruction in magnet schools that strengthen students' knowledge of core academic subjects and their grasp of marketable vocational skills.

### TYPES OF PROJECTS

Magnet schools offer a wide range of distinctive education programs. Some emphasize such academic subjects as math, science, technology, language immersion, visual and performing arts, or humanities. Others use specific instructional approaches, such as Montessori methods, or approaches found in international baccalaureate programs or early college programs.

---

**PROGRAM DESCRIPTION**

Parent Information and Resource Centers (PIRCs) help implement parental involvement policies, programs, and activities that are intended to lead to improvements in student academic achievement and strengthen partnerships among parents, teachers, principals, administrators, and other school personnel in meeting the education needs of children. *ESEA*, Sec. 5563, requires the recipients of PIRC grants to: serve both rural and urban areas; use at least half their funds to serve areas with high concentrations of low-income children; and use at least 30 percent of the funds they receive for early childhood parent education programs.

---

**TYPES OF PROJECTS**

Centers must include activities that establish, expand, or operate early childhood parent education programs and typically engage in a variety of technical assistance activities designed to improve student academic achievement, including understanding the accountability systems in the state and school districts being served by a project. Specific activities often include helping parents to understand the data that accountability systems make available to parents and the significance of that data for such elements as opportunities for supplemental services and public school choice afforded to their children under Sec. 1116 of *ESEA*. Projects assist parents to communicate effectively with teachers, principals, counselors, administrators, and other school personnel, and help parents become active participants in the development, implementation, and review of school improvement plans.

Additionally, projects generally develop resource materials and provide information about high-quality family involvement programs to families, schools, school districts, and others through conferences, workshops, and dissemination of materials. Projects generally include a focus on serving parents of low-income, minority, and limited English proficient (LEP) children enrolled in elementary and secondary schools.

---

### PROGRAM DESCRIPTION

This program provides books for low-income children and youths from infancy to high school age and supports activities to motivate them to read.

### TYPES OF PROJECTS

RIF enters into agreements with local nonprofit private groups or organizations and public agencies to administer free book distributions and reading motivation activities. Federal funds provide up to 75 percent of the cost of the books, with the balance obtained from private and local sources. Migrant programs may receive up to 100 percent of their costs. In selecting projects, priority must be given to those that will serve a substantial number or percentage of children of low-income families. Priority also must be given to projects that support those at risk of school failure, those who are disabled, or those who are homeless, and those who have certain other special needs as indicated in the statute.

### PROGRAM DESCRIPTION

This program supports efforts to establish or expand intradistrict, interdistrict, and open enrollment public school choice programs to provide parents, particularly parents whose children attend low-performing public schools, with expanded education options. Programs and projects assisted are required to use a portion of the grant funds to provide the students selected to participate in the program with transportation services, or the cost of transportation, to and from the public elementary schools and secondary schools, including charter schools, which the students choose to attend under the program. A grantee may not use funds for school construction. No more than 5 percent of the funds made available through the grant for any fiscal year may be used for administrative expenses.

### TYPES OF PROJECTS

Programs and projects may include the following activities:

- Planning or designing a program (for not more than one year);
- Making tuition transfer payments to public elementary or secondary schools to which students transfer under the program;
- Implementing capacity-enhancing activities that enable high-demand public elementary or secondary schools to accommodate transfer requests under the program; and
- Paying for other costs reasonably necessary to implement a public school choice program.

### PROGRAM REGULATIONS

34 *CFR* 303

### PROGRAM DESCRIPTION

This program provides grants under a statutory  
formula to 50 states, the District of Columbia, the  
Commonwealth of Puerto Rico, the secretary of the  
interior, and four outlying areas to assist in maintain-  
ing and implementing statewide systems of coordi-  
nated, comprehensive, multidisciplinary, interagency  
programs of early intervention services for infants  
and toddlers with disabilities and their families.  
Allocations are based on the number of children from  
birth through age 2 in the general population in the  
state relative to the population in this age range for all  
states. In addition, no state may receive less than 0.5  
percent of the funds available to all states or \$500,000,  
whichever is greater. The outlying areas may receive  
an aggregated amount of up to 1 percent of the funds  
appropriated, and the secretary of the interior receives  
1.25 percent of the aggregate of the amount available  
to states, which must be distributed to federally recog-  
nized Indian tribes, tribal organizations or consortia  
of these entities.

States are responsible for making early intervention  
services available to eligible children and their families,  
including Indian infants and toddlers residing within  
the state on reservations. States also may elect to pro-  
vide services to infants and toddlers who are at risk of  
having substantial developmental delays if appropriate  
early intervention services are not provided. In fiscal  
year 2007, this program served 304,510 infants and  
toddlers with disabilities.

The *Individuals with Disabilities Education Act (IDEA)*,  
as amended, allows states, at their discretion, to make  
available for early intervention services under Part C  
to children with disabilities beyond age 3 until the  
children enter or are eligible under state law to enter  
kindergarten or elementary school, if the children are  
eligible for services under the Preschool Grants for  
Children of Disabilities Program (see # 84.173, under  
topical heading "Special Education") and previously  
received services under the Part C program.

## TYPES OF PROJECTS

Lead agencies are responsible for, and coordinate the provision of, early intervention services and develop formal interagency agreements that define responsibilities for services and procedures to ensure their timely delivery. Funds also may be used to provide direct services that otherwise are not available from other public or private sources. Through evaluation and assessment, services are identified to address the physical, cognitive, communication, social-emotional, and adaptive developmental needs of infants and toddlers with disabilities (e.g., special instruction, speech therapy, occupational therapy, physical therapy, and psychological services) and to support families (e.g., family training and counseling). In addition, each eligible child and family must be provided service coordination, a key component of family-centered services. Depending on whether a state has adopted a system of payment policy, which must be on file with and approved by the secretary of education, families who do not meet the state's definition of inability to pay may be required to pay for some services.

### PROGRAM DESCRIPTION

This program provides grants to states, the District of Columbia, and Puerto Rico to make special education and related services available to children with

disabilities, ages 3 through 5 and, at a state's discretion, to 2-year-olds with disabilities who will turn 3 during the school year. At their discretion, states may include preschool-age children who are experiencing developmental delays, as defined by the state and measured by appropriate diagnostic instruments and procedures, who need special education and related services. Funds are distributed to eligible SEAs based on the amount each state received in FY 1997 and on the relative number of children ages 3 through 5 in the state's general population and the number of these children living in poverty. The formula contains numerous provisions for situations in which the appropriation for the program remains constant, increases or decreases, and several maximum and minimum funding limitations.

States must distribute the bulk of their grant awards to local education agencies (LEAs). They may retain funds for state-level activities up to an amount equal to 25 percent of the amount they received for FY 1997 under this program, adjusted upward each year by the lesser of either the rate of increase in the state's allocation or the rate of inflation. The amount that may be used for administration is limited to not more than 20 percent of the amount available to a state for state-level activities.

---

#### **TYPES OF PROJECTS**

Funds under this program are used by SEAs and LEAs to make special education and related services available to 3- through 5-year-old children with disabilities and, at a state's discretion, to 2-year-old children with disabilities who will reach age 3 during the school year. Permitted expenditures include the salaries of special education teachers and costs associated with related services, including, but not limited to, speech-language pathology services, physical and occupational therapy, psychological services, parent counseling and training, and social work services in schools. States may use set-aside funds not reserved for administration for: direct services for children eligible for services under this program; support services; the provision of early intervention services (which shall include an education component that promotes school readiness and incorporates preliteracy, language, and numeracy skills) in accordance with Part C to children with disabilities who are eligible for services under Sec. 619 and who previously received services under Part C until such children enter, or are eligible under state law to enter, kindergarten; and other specified activities. In FY 2007, this program served 714,384 children.

### PROGRAM DESCRIPTION

The program provides formula grants to states, the District of Columbia, Puerto Rico, the secretary of the interior, freely associated states, and outlying areas to assist them in meeting the costs of providing special education and related services to children with disabilities. In general, if the appropriation increases, funds to states, the District of Columbia, and Puerto Rico are distributed based on the amounts each state received for FY 1999 and the relative numbers of children age 3 through 21 in their general populations and living in poverty, who are within the age range for which each of these entities mandates services to children with disabilities. The formula contains numerous provisions for situations in which the appropriation for the program remains constant, increases or decreases, and for several maximum and minimum funding limitations. Funds not reserved for state-level activities must be distributed to local education agencies (LEAs). Funds reserved for state-level activities may be used for state administration and other state-level activities, including an LEA high-cost fund.

### TYPES OF PROJECTS

Funds under this program are combined with state and local funds to provide a free appropriate public education (FAPE) to children with disabilities. Permitted expenditures include the salaries of special education teachers and costs associated with related services personnel, such as speech therapists and psychologists. States may use funds reserved for other state-level activities for a variety of specified activities, including: for support and direct services, technical assistance and personnel preparation; to assist LEAs in providing positive behavioral interventions and supports; and to improve the use of technology in the classroom. Some portion of funds reserved for other state-level activities must be used for monitoring, enforcement and complaint investigation, and to establish and implement the mediation process required by Sec. 615(e) of *IDEA*, including providing for the cost of mediators and support personnel. Each state has the option to reserve a portion of funds the state reserves for other state-level activities for a fund

*continued top of next page*

to assist LEAs in addressing the needs of high-cost children with disabilities. If the state opts to reserve for this fund, it may reserve a larger portion of its award for other state-level activities, and must reserve at least 10 percent of the amount set aside for other state-level activities for the fund.

**PROGRAM DESCRIPTION**

The Fund for the Improvement of Education (FIE), which is authorized by Sec. 5411 of *ESEA*, supports nationally significant programs to improve the quality of elementary and secondary education at the state and local levels and help all children meet challenging academic content and achievement standards. The Full-Service Community Schools program, which is being carried out under FIE, encourages coordination of education, developmental, family, health, and other services through partnerships between:

1. Public elementary and secondary schools; and
2. CBOs and public-private ventures.

Such collaboration will provide comprehensive education, social, and health services for students, families, and communities.

---

**TYPES OF PROJECTS**

Full-service community schools provide comprehensive academic, social, mental, physical, and vocational programs and services to meet individual, family, and community needs. For the FY 2008 competition, these services may include:

- Early childhood education;
- Remedial education and academic enrichment activities;
- Programs that promote parental involvement and family literacy;
- Mentoring and other youth development programs;
- Parent leadership and parenting education activities;
- Community service and service-learning opportunities;
- Programs that provide assistance to students who have been truant, suspended, or expelled;
- Job training and career counseling services;
- Nutrition services;
- Primary health and dental care;
- Mental health counseling services; and
- Adult education, including instruction of adults in English as a second language.

---

### PROGRAM DESCRIPTION

The purpose of the program is to increase academic achievement by improving teacher and principal quality. This program is carried out by: increasing the number of highly qualified teachers in classrooms; increasing the number of highly qualified principals and assistant principals in schools; and increasing the effectiveness of teachers and principals by holding LEAs and schools accountable for improvements in student academic achievement.

---

### TYPES OF PROJECTS

State-level activities include but are not limited to:

1. Recruiting and retaining highly qualified teachers and principals;
2. Increasing the number of highly qualified teachers in classrooms; and
3. Reforming teacher and principal certification programs. These activities must be based on a needs assessment, and, among other things, be aligned with state academic content standards, student academic achievement standards, and state assessments (for formula grants). The SAHE works in conjunction with the SEA to make competitive subgrants to partnerships of IHEs, high-need LEAs, and other entities (for competitive grants) through specific activities that focus on professional development for teachers, highly qualified paraprofessionals, and, if appropriate, principals.

**PROGRAM DESCRIPTION**

This program supports efforts to develop and implement performance-based teacher and principal compensation systems in high-need schools. Goals include:

- Improving student achievement by increasing teacher and principal effectiveness;
  - Reforming teacher and principal compensation systems so that teachers and principals are rewarded for increases in student achievement;
  - Increasing the number of effective teachers teaching poor, minority, and disadvantaged students in hard-to-staff subjects; and
  - Creating sustainable performance-based compensation systems
- 

**TYPES OF PROJECTS**

Projects develop and implement performance-based teacher and principal compensation systems in high-need schools. Performance-based compensation systems must consider gains in student academic achievement as well as classroom evaluations conducted multiple times during each school year, among other factors, and provide educators with incentives to take on additional responsibilities and leadership roles.

### PROGRAM REGULATIONS

*EDGAR*; 34 *CFR* 611

### PROGRAM DESCRIPTION

The three Teacher Quality programs authorized by Title II—State Grants, Partnership Grants, and Teacher Recruitment Grants—are intended to make lasting changes in the ways teachers are recruited, prepared, licensed, and supported. One clear goal of these grants is supporting efforts to reduce shortages of qualified teachers in high-need school districts.

### TYPES OF PROJECTS

The TQE program includes three types of discretionary grants. Each grant type brings a unique approach to improving teacher preparation programs throughout the country.

#### ▪ State Grants (# 84.336A)

State grants seek to promote statewide teacher preparation reform activities through the linkage of K–12 and higher education institutions to stimulate systemic policy and practice changes in such areas as teacher preparation, certification and licensing, and practice. Grant activities focus on improving content knowledge, teaching methods, and technology preparation; enhancing future teachers' clinical experiences; mentoring new teachers; recruiting teachers for high-need schools; encouraging meaningful teacher accountability; and providing high-quality professional development activities for both new and experienced teachers.

#### ▪ Partnership Grants (# 84.336B)

Partnership grants seek to raise student achievement and improve learning by bringing about fundamental change and improvement in teacher preparation programs. Grant activities focus on

increasing teachers' academic content preparation; integrating research-based teaching methods into the education curriculum; providing sustained preservice clinical or field experiences; and creating opportunities for professional development activities that improve content knowledge and strengthen teaching skills.

▪ **Recruitment Grants (# 84.336C)**

Recruitment grants seek to assist in teacher recruitment reforms at the state and higher education levels. Applicants must identify critical needs for recruiting and preparing highly qualified teachers. Project activities are expected to develop strategies to improve capacity to hire and retain highly qualified teachers; they must focus on identifying pools of potential teachers who can meet these critical needs, recruiting teachers from these pools, and designing high-quality preparation and induction programs based on the best current research to prepare them.

---

**PROGRAM DESCRIPTION**

This program supports 21 comprehensive centers to help increase state capacity to assist districts and schools meet their student achievement goals. By statute, the Department is required to establish at least one center in each of the 10 geographic regions served by the Department's regional education laboratories (see Regional Educational Laboratories, under topical heading "Research," no CFDA #).

---

**TYPES OF PROJECTS**

Grantees are required to develop five-year plans for carrying out authorized activities that address state and regional needs. The 16 regional centers provide services primarily to state education agencies (SEAs) to enable them to assist school districts, regional education agencies, and schools, especially low-performing schools. At a minimum, each regional center provides training and technical assistance in: the implementation and administration of programs authorized under the *Elementary and Secondary Education Act (ESEA)*; the use of scientifically valid teaching methods and assessment tools in mathematics, science, reading and language arts, English language acquisition, and educational technology; and facilitating communication among education experts, school officials, teachers, parents, and librarians. In addition, the centers disseminate information and reports on improving academic achievement, closing achievement gaps, and sustaining school improvement to schools, teachers, parents, and policymakers. The five content centers focus on specific areas, with

one center in each of the five areas of accountability, instruction, teacher quality, innovation and improvement, and high schools. These centers supply much of the research-based information and products in the specific area that regional centers will use when working with states.

### PROGRAM DESCRIPTION

Equity Assistance Centers are funded by the U.S. Department of Education to provide technical assistance and training, upon request, in the areas of race, sex, and national origin to public school districts and other responsible government agencies to promote equitable education opportunities. The centers work in the areas of civil rights, equity, and school reform. This assistance helps schools and communities ensure that equitable education opportunities are available and accessible for all children.

### TYPES OF PROJECTS

Typical activities include:

1. Technical assistance in the identification and selection of appropriate education programs to meet the needs of limited English proficient (LEP) students; and
2. Training designed to develop educators' skills in specific areas, such as the dissemination of information on successful education practices and the legal requirements related to nondiscrimination on the basis of race, sex, and national origin in education programs.

Projects include technical assistance and training for education issues occasioned by school desegregation. The centers work with schools in the areas of harassment, bullying, and prejudice reduction. Centers also develop materials, strategies, and professional development activities to assist schools and communities in preventing and countering harassment based on ethnicity or gender.

**TYPE OF ASSISTANCE (SPECIFICALLY)**

Awards are made to SEAs, which are required to use at least 95 percent of funds for subgrants. Of the subgrant funds, one-half are awarded by formula to eligible local education agencies (LEAs) and one-half are awarded by competition to eligible "local entities," which must include a "high need local education agency." In the U.S. Department of Education's fiscal year 2006 appropriations bill, Congress also included language overriding the statutory provision that SEAs use 50 percent of the amount available for grants to LEAs for formula awards and 50 percent for competitive awards. The FY 2006 appropriations language provides SEAs with the flexibility to reserve up to 100 percent of their allocations for competitive awards to eligible local entities. These provisions continue to apply under the FY 2008 appropriations.

**PROGRAM DESCRIPTION**

The primary goal of this program is to improve student achievement through the use of technology in elementary and secondary schools. Additional goals include helping all students become technologically literate by the end of the eighth grade and, through the integration of technology with both teacher training and curriculum development, establishing research-based instructional methods that can be widely implemented.

---

**TYPES OF PROJECTS**

Local activities include the support of continuing, sustained professional development programs and public-private partnerships. Activities also include: the use of new or existing technologies to improve academic achievement; the acquisition of curricula that integrate technology and are designed to meet challenging state academic standards; the use of technology to increase parent involvement in schools; and the use of technology to collect, manage, and analyze data to enhance teaching and school improvement.

### PROGRAM DESCRIPTION

This program supports the development of:

1. Educational programming for preschool and early elementary school children and their families;
2. Educational television programming and ancillary materials to increase school readiness for young children; and
3. Accompanying support materials and services that promote the effective use of educational programming.

### TYPES OF PROJECTS

In FY 2005, this program was divided into programming (# 84.295A) and outreach (# 84.295B) components in order to encourage higher performance in reaching the target audience. Grants have been awarded to develop scientifically based children's television programming on reading, whereby grantees will create and build upon current high-quality and innovative children's programs focused on reading.

### PROGRAM DESCRIPTION

The Ready-to-Teach Grant Program supports two types of competitive grants to nonprofit telecommunications entities:

1. Grants to carry out a national telecommunications-based program to improve teaching in core curriculum areas; and
2. Digital educational programming grants that enable eligible entities to develop, produce, and distribute educational and instructional video programming.

National telecommunications-based program grants are generally five-year awards. Digital educational programming grants must last three years, require a match of not less than 100 percent from funded applicants, and must be based on challenging state academic content and student academic achievement standards in reading or mathematics.

### TYPES OF PROJECTS

This program supports projects that promote online professional development for teachers in core curricular areas and projects that develop, distribute, and produce educational video programming.

**PROGRAM DESCRIPTION**

The purpose of this program was to support distance education projects that:

- Encouraged improved instruction in mathematics, science, foreign languages, and other subjects; and
- Served underserved populations, including disadvantaged, nonreading, and limited English proficient (LEP) populations and individuals with disabilities.

Star Schools grants were made to eligible telecommunications partnerships, to enable such partnerships to:

1. develop, construct, acquire, maintain, and operate telecommunications audio and visual facilities and equipment;
2. develop and acquire educational and instructional programming; and
3. obtain technical assistance for the use of such facilities and instructional programming.

---

**TYPES OF PROJECTS**

Grants were used to obtain telecommunications facilities and equipment; develop or acquire instructional programming for students; provide preservice and in-service staff development for teachers; provide educational programming for parents and community members; obtain technical assistance for teachers, school personnel, and other educators in the use of the facilities and programming; and improve instruction in the areas of reading and math by utilizing emerging mobile technologies and the use of games and simulations.
