The Food and Drug Administration (FDA) is responsible for protecting the public health by assuring the safety, efficacy, and security of human and veterinary drugs, biological products, medical devices, our Nation's food supply, cosmetics, and products

that emit radiation. The FDA is also responsible for advancing the public health by helping to speed innovations that make medicines more effective, safer, and more affordable; and helping to provide the public accurate, science-based information about medicines and foods to improve their health. FDA decisions affect Americans on a daily basis. The Budget includes funding for counterterrorism activities that specifically relate to the protection of products or therapies regulated by the FDA (such as drugs, vaccines, foods, and animal feed), and the availability of medical products for public health preparedness in the event of an attack. Specifically, the Budget requests funding for food protection, drug safety, medical device review and safety, developing medical countermeasures, and headquarters consolidation in White Oak, Maryland.

The 2013 Budget includes a number of new and current user fees. Legislation will be proposed to allow FDA to collect fees to support human generic drug review as well as for the evaluation of biosimilar biological product applications. The additional resources, estimated at \$299 million for the human generic drug program, would enable FDA to reduce review times and respond to the growing number of generic drug applications. The fees collected for biosimilars would ensure sound funding for the review of biosimilar applications including the development-phase FDA consultation and review work. The Budget also proposes user fees to support activities related to cosmetics and food contact notification activities. In addition, the Budget repropose user fees to support inspection-related activities at domestic courier facilities and reinspections at medical product facilities.

Lastly, the Budget includes a total of \$712 million in prescription drug user fees and \$70 million in medical device user fees. The FDA transmitted proposed legislation to reauthorize PDUFA and establish new generic drug and biosimilar user fees to Congress on January 13, 2012. The proposed legislation authorizes the collection and spending of these fees subject to appropriations.

Resources displayed here support categorical grants and contracts managed by Health Resources and Services Administration (HRSA). These activities include support for Federally Qualified Health Centers, treatment and care for those living with HIV/AIDS, health professions training, maternal and child health care services, promotion of organ and bone marrow donation, and the medical malpractice claims funds, which pay malpractice claims filed against employees of federally-supported health centers and free clinics. HRSA is also responsible for oversight of the 340B Drug Discount Program. The FY 2013 Budget proposes a new user fee for this program to improve administration and oversight of this activity.

HRSA administers the following revolving loan programs: Health Professions Student Loans (HPSL), Nursing Student Loans (NSL), Primary Care Loans (PCL) and Loans for Disadvantaged Students (LDS). These programs are financed through revolving accounts (Federal Capital Contribution) and do not receive annual appropriations. Through these revolving fund accounts, funds are awarded to institutions that in turn provide loans to individual students. As borrowers pay back loans the programs revolving account gets replenished, and the collected funds are then used to give out new loans in the following academic years. If the programs revolving account has excess funds that will not be used to provide new loans, these excess funds are returned to HRSA. Funds returned to HRSA are then awarded to programs that are in need of additional funds. The information below reflects Academic Year 2010–2011 data reported in the Annual Operating Report.

The Centers for Disease Control and Prevention (CDC) supports a number of categorical programs designed to improve the health, safety, and protection of all Americans. These activities include immunization, HIV prevention, emerging and zoonotic infectious diseases, chronic disease prevention and health promotion, occupational safety and health, injury prevention and control, environmental health, global health, programs that reduce the occurrence of birth defects and developmental disabilities, and CDC-Wide Activities and Program Support. CDC also supports bioterrorism, emergency response, and pandemic influenza preparedness activities. The CDC Stockpile activities include resources directed at enhancing preparedness. The Budget will finance a portion of these ongoing activities through unobligated balances available from P.L. 111-32, the Supplemental Appropriations Act of 2009. P.L. 111-32 appropriated \$7.65 billion to the Public Health and Social Services Emergency Fund for pandemic influenza preparedness and response activities.

¹Funding provided in the Consolidated Appropriations Act, 2012, reflects a reorganization of the National Institutes of Health that created the new National Center for Advancing Translational Sciences (NCATS) and abolished the National Center for Research Resources (NCRR). The translational functions of NCRR were moved to NCATS, and the remaining non-translational functions were moved to the National Institute of General Medical Sciences, the National Institute of Biomedical Imaging and Bioengineering, the National Institute on Minority Health and Health Disparities, the National Heart, Lung, and Blood Institute, and the Office of the Director.

²The Department of Defense and Full-Year Continuing Appropriations Act, 2011, included \$297,300,000 in the National Institute of Allergy and Infectious Diseases for transfer to the Global Fund to Fight HIV/AIDS, Malaria, and Tuberculosis. The Consolidated Appropriations Act, 2012, did not include such a transfer.

This program provides Federal support to strengthen the capacity of the Nation's health care delivery system to provide effective substance abuse prevention, addiction treatment, and mental health services for people at risk for or experiencing substance abuse or mental illness. SAMHSA builds partnerships with states, communities, tribal and private not-for-profit organizations to enhance health and reduce the adverse impact of substance abuse and mental illness on America's communities. The Consolidated Appropriations Act of 2012 (P.L. 112-74) restructured the appropriation accounts for SAMHSA, which is continued in FY 2013.

Medicaid assists States in providing medical care to their low-income populations by granting Federal matching payments under title XIX of the Social Security Act to States with approved plans.

Medicaid estimates assume budget authority for expenses that are incurred but not reported (IBNR).

The Balanced Budget Act of 1997 established the Children's Health Insurance Program (CHIP) under Title XXI of the Social Security Act. Title XXI provides Federal matching funds to States to enable them to extend coverage to uninsured children from low-income families. States are able to use Title XXI funds for obtaining health benefit coverage for uninsured children through a separate CHIP program, a CHIP Medicaid expansion program, or a combination of both. The Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3) reauthorized the CHIP program through FY 2013 and made some modifications to the program including increased funding for States and territories, bonus payments for States that exceed Medicaid child enrollment targets, and support for child health quality and outreach activities. A contingency fund to assist States who project spending above their available allocated CHIP funds was also created by CHIPRA and funding is included in a separate account. The Patient Protection and Affordable Care Act of 2010 (P.L. 111-148) extended funding for CHIP, providing appropriations through FY 2015.

The Children's Health Insurance Program Reauthorization Act (CHIPRA) of 2009 established the Child Enrollment Contingency Fund under Title XXI. Beginning in FY 2009, a State may qualify for a contingency fund payment if it projects a funding shortfall for the fiscal year and if its average monthly child enrollment exceeds its target average number of enrollees for the fiscal year. The Patient Protection and Affordable Care Act of 2010 extended the contingency fund through FY 2015.

The fund received an initial appropriation equal to 20 percent of the FY 2009 national allotment (\$2.1 billion). In fiscal years 2010 through 2015, the statute appropriates the amount necessary to make payments to eligible States, but not to exceed 20 percent of the total annual appropriation for CHIP allotments to States. Any amounts in excess of this aggregate cap will be made available for CHIP performance bonus payments. The contingency fund is invested in interest bearing securities of the United States, and the income derived from these investments constitutes a part of the fund.

This account funds the Pre-Existing Condition Insurance Plan Program (PCIP), which makes health insurance available to people who have been unable to get insurance due to a pre-existing condition. Enrollees pay monthly premiums similar to those charged in the commercial individual market, and the Federal government pays for remaining costs that exceed enrollee contributions. The funding for this program, including operating costs, was provided in the FY 2010 appropriation by the Affordable Care Act (P.L. 111-148).

The Affordable Care Act (P.L. 111-148) authorized and appropriated \$5 billion for the Early Retiree Reinsurance Program (ERRP). ERRP provides reimbursement to participating sponsors of certified plans that provide health benefits to early retirees (age 55 and older and not eligible for Medicare), their spouses, and surviving spouses and dependents. Reimbursement is equal to 80 percent of the actual cost of health expenses paid for an individual (net of price concessions) between a cost threshold of \$15,000 and cost limit of \$90,000 beginning in 2010. The cost threshold and cost limit are adjusted for inflation each year based on the Medical Care Component of the consumer price index for all urban consumers. Reimbursements to sponsors shall be used to reduce the sponsor's health benefit or premium costs, provide premium and cost sharing relief to plan participants, or both.

The Consumer Operated and Oriented Plan (CO-OP) Program was authorized in Section 1322 of the Affordable Care Act (P.L. 111-148). The CO-OP Program fosters the creation of qualified

nonprofit health insurance issuers that operate with a strong consumer focus to offer qualified health plans in the individual and small group markets in the States. The Secretary shall award loans to qualified nonprofit issuers to fund start-up costs and reserves which enable qualified issuers to meet state solvency requirements. The Secretary may also award loans for the purposes of encouraging the establishment of CO-OPs in states where no issuer applies to be a qualified nonprofit issuer under Section 1322. \$3.4 billion has been appropriated to carry out Section 1322 of the Affordable Care Act.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with CO-OP Program grants and loans, as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The Hospital Insurance (HI) program funds the costs of hospital and related care for individuals age 65 or older and for eligible disabled people.

The status of the trust fund is as follows. In addition, the Budget includes a package of proposals that improve Medicare's sustainability by promoting high-quality, efficient care; aligning payments with the costs of providing care; encouraging beneficiaries to seek high-value services; and reducing the Federal subsidy of Medicare costs for those beneficiaries who can most afford them.

P.L. 104–191 established the Health Care Fraud and Abuse Control (HCFAC) account within the Federal Hospital Insurance Trust Fund and appropriated funds, from the Trust Fund to the HCFAC account for specified health care fraud and abuse control activities of the Department of Health and Human Services (HHS), the Department of Justice, and other agencies.

The Budget includes a discretionary request for efforts to safeguard Medicare, Medicaid, and CHIP that will supplement the mandatory funds made available by P.L. 104–191 and subsequent Acts. The 2013 discretionary investment is a part of a multi-year fraud and abuse plan specified for 2012 through 2021 in the Balanced Budget and Emergency Deficit Control Act (BBEDCA) of 1985, as amended by the Budget Control Act of 2011. In 2013, the BBEDCA exempts up to \$299 million from the new discretionary caps. This exemption is only permissible if the base level of \$311 million is fully funded and the use of these funds is clearly restricted to the specified purposes. This Budget assumes that in each year both the base level and the cap adjustments are funded at the maximum levels allowed by section 251(b)(2)(C) of BBEDCA. See additional discussion in the Budget Process chapter in the *Analytical Perspectives* volume.

The HCFAC entities will develop a comprehensive plan for Medicare, Medicaid, and CHIP program integrity activities. The plan will indicate how program integrity appropriations from all sources will be allocated to address program integrity priorities. These priorities include fraud prevention, reducing the improper payment rate, identifying and recouping excessive payments, pinpointing potential weaknesses in program integrity oversight, and establishing new processes and safeguards to correct programmatic vulnerabilities.

The Balanced Budget and Emergency Deficit Control Act (BBEDCA) of 1985, as amended, exempts up to \$299 million in 2013 from the discretionary caps enacted in the Act. Funding the discretionary cap up to the adjustment level permitted by the BBEDCA is estimated to achieve an additional \$450 million in savings.

The Supplementary Medical Insurance (SMI) program is a voluntary program that affords protection against the costs of physician and certain other medical services. The program also covers treatment of end-stage renal disease for eligible enrollees. SMI costs are generally financed by premium payments from enrollees and contributions from the general revenues.

The status of the trust fund is as follows. In addition, the Budget includes a package of proposals that improve Medicare's sustainability by promoting high-quality, efficient care; aligning payments with the costs of providing care; encouraging beneficiaries to seek high-value services; and reducing the Federal subsidy of Medicare costs for those beneficiaries who can most afford them.

Since January 2006, Medicare beneficiaries have had the opportunity to enroll in a comprehensive voluntary prescription drug benefit. The Budget includes a package of proposals that slow the growth of Part D net expenditures by allowing Medicare to benefit from the same rebates that Medicaid receives for drugs provided to low-income beneficiaries and by increasing the availability of generic drugs.

This account provides for payments to States for child support enforcement and other family support programs, including access and visitation programs for families. The Federal share of child support collections is returned to the Treasury in a receipt account. This request proposes a Child Support and Fatherhood Initiative, a comprehensive set of proposals which promotes using child support payments in the best interest of the child; supports noncustodial parents becoming and staying involved in their children's lives; and improves establishment and enforcement procedures by closing loopholes and improving federal processes.

Note.—The reimbursable program (HCFAC) in the Administration on Aging (AoA) reflects the actual distribution of the allocation account for 2012. Future allocations will be determined annually, and are not estimated in the current budget.

This account provides funding for formula grant programs that provide nutrition, supportive services and caregiver support services through a network of aging-related organizations to help predominantly older Americans, with the assistance of their caregivers, maintain their dignity and independence in their homes and communities. The Budget proposes to transfer the Senior Community Services Employment Program (SCSEP), authorized under title V of the Older Americans Act, from the Department of Labor to the Department of Health and Human Services, which administers the remainder of the Older Americans Act. SCSEP offers participants work-based community service training so that they can gain on-the-job experience and prepare to enter or to re-enter the workforce.

The Public Health and Social Services Emergency Fund (PHSSEF) provides resources to support a comprehensive program to prepare for the health and medical consequences of bioterrorism or other public health emergencies. This account includes funding for the Office of the Assistant Secretary for Preparedness and Response (ASPR), as authorized by the Pandemic and All-Hazards Preparedness Act. Funds will be used for hospital preparedness and other emergency preparedness activities including the National Disaster Medical System. The PHSSEF also supports the HHS Cyber Security and Security and Strategic Information programs, and the Medical Reserve Corps.

The PHSSEF also continues to support the advanced development of biodefense countermeasures. These resources will in part be derived from available funds appropriated for the BioShield Special Reserve Fund.

Resources are also being provided to consolidate the offices of the Assistant Secretary for Preparedness and Response.

A Strategic Investor corporation will be created to make investments in the private sector with specific focus on disruptive technologies including novel antimicrobials and multi-use platform technologies for diagnostics and medical countermeasures.

HHS Service and Supply Fund (SSF) provides a wide range of logistical and support services to components of the Department and other Federal agencies. The Program Support Center includes activities such as personnel and payroll support, information technology, financial management operations, and administrative services, including acquisitions management, building and property management, telecommunication services, medical supplies repackaging and distribution services, and the Federal Occupational Health Service. The Office of Secretary activities include the fund manager, departmental contracts, audit resolutions, Commissioned Corps force management, web management, claims, acquisition integration and modernization, small business, grants tracking, the physical access aspects of the Department's implementation of Homeland Security Presidential Directive 12, and commercial services management.

Most Commissioned Corps officers work for agencies in the Department of Health and Human Services and are reflected in the agencies' personnel summaries. However, some officers are assigned to other Federal agencies. The allocation account section in the following personnel summary shows officers assigned to other agencies, which are paid directly by that agency, either through an allocation account or by directly citing that agency's appropriation.

The Office of Inspector General (OIG) is an independent oversight organization within the U.S. Department of Health and Human Services (HHS) that promotes economy, efficiency, and effectiveness through the elimination of fraud, waste, and abuse in the Department's programs and operations. OIG fulfills its

mission through a broad range of audits, evaluations, investigations, and enforcement and compliance activities. In addition to discretionary appropriations, OIG receives funds through the Health Care Fraud and Abuse Control (HCFAC) account created by the Health Insurance Portability and Accountability Act of 1996.
