

SPACE TYPES & REQUIREMENTS

Maintenance Support

School Type:

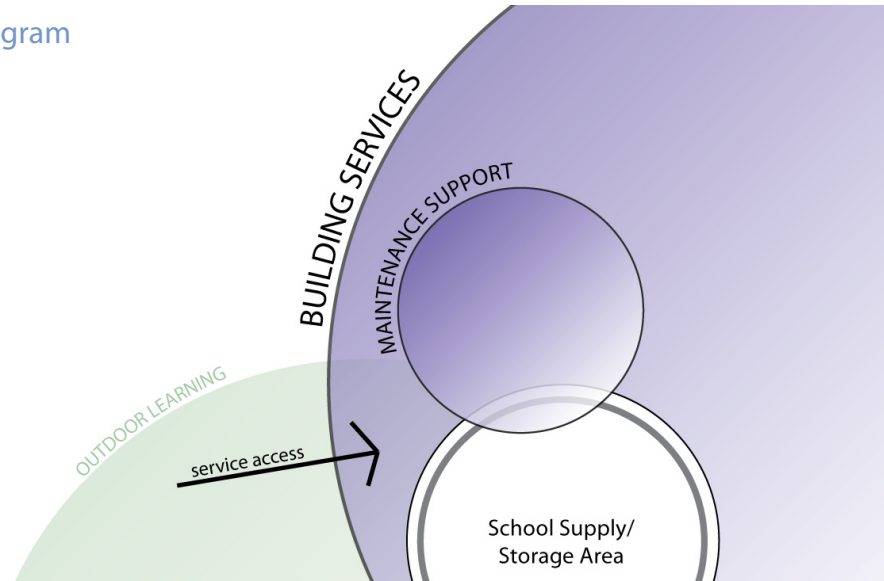

Functional Area Descriptions

1 Maintenance Support

This space should include a desk, work bench, storage, heavy-duty shelving, lockable storage cabinets, and a receiving area. The space should be located near the school supply/storage area and service/vehicular access. Provide exterior access.

This area provides space for the maintenance contractor to work on repair projects and store supplies for routine maintenance of the facility.

Adjacency Diagram

Planning Requirements (varies - see Planning Requirements, Detailed at end of this Ed Spec)

Area Description	SF	M ²	Notes
