Funding for the Justice Information Sharing Technology (JIST) account will provide for corporate investments in information technology. This centralized fund, under the control of the DOJ Chief Information Officer, will ensure that investments in information sharing technology are well-planned and aligned with the Department's overall information technology (IT) strategy and enterprise architecture, and that all DOJ components are able to operate in a technologically unified environment, particularly with respect to preventing terrorist attacks on the United States. The current major initiatives/projects are described below.

Law Enforcement Information Sharing Program.—The Law Enforcement Information Sharing Program (LEISP) is a Department-wide strategy to facilitate the sharing of information about terrorism, criminal activity, and threats to public safety. LEISP will implement the information technology tools needed to facilitate timely, appropriate, and secure sharing of information across the law enforcement community.

Unified Financial Management System.—The Unified Financial Management System will allow the Department of Justice to streamline and standardize business processes and procedures across components, providing secure, accurate, timely, and useful financial and procurement data to program managers, and to produce component and Department level financial statements.

IT Cyber Security and Transformation.—This program will timely address new emerging cyber security threats, provide advanced state sponsored intrusion detection and response capabilities, and implement cost efficient, leverageable enterprise architecture for storage, hosting, networking, shared services, applications, facilities, support and environmental services.

The Office of the Inspector General (OIG) was statutorily established in the Department of Justice on April 14, 1989. The OIG investigates alleged violations of criminal and civil laws, regulations, and ethical standards arising from the conduct of the Department's employees. The OIG provides leadership and assists management in promoting integrity, economy, efficiency, and effectiveness within the Department and in its financial, contractual, and grant relationships with others. Also by statute, the OIG reports to the Attorney General, Congress, and the public on a semiannual basis regarding its significant activities.

The Audit function is responsible for independent audits and reviews of Department organizations, programs, functions, computer security and information technology systems, and financial statement audits. The Audit function also conducts or reviews external audits of expenditures made under Department contracts, grants, and other agreements.

The Investigations function investigates allegations of civil rights violations, bribery, fraud, abuse and violations of other laws, rules and procedures that govern Department employees, contractors, and grantees. This function also develops these cases for criminal prosecution, civil action, or administrative action. In some instances the OIG refers allegations to components within the Department and requests notification of their findings and of any disciplinary action taken.

The Evaluation and Inspections function conducts analyses and makes recommendations to decisionmakers for improvements in Department programs, policies, and procedures. In addition, this function also conducts shorter and more time-sensitive reviews and evaluations to provide managers with early warnings about possible program deficiencies.

The Oversight and Review function investigates allegations of significant interest to the American public and Congress and of vital importance to the Department.

The Executive Direction and Control function provides program direction for the OIG. Responsibilities include policy development, legal counsel, congressional affairs, planning, budget, finance, personnel, procurement, automated data processing, security, and general support services.

The United States Parole Commission is responsible for (1) making parole release and revocation decisions for all parole-eligible federal and District of Columbia Code offenders; (2) setting and enforcing the conditions of supervised release for District of Columbia Code offenders; (3) making release decisions for United States citizens convicted of a crime in another country who voluntarily return to the United States for service of sentence; (4) performing parole-related functions for certain military and state offenders; and (5) exercising decision-making authority over state offenders who are on the state probation or parole, and are transferred to federal authorities under the witness security program.

The Parole Commission works to reduce offender recidivism rates by implementing new revocation guidelines and establishing alternatives to incarceration for low-risk, non-violent offenders. In addition, the Commission seeks to improve the rehabilitation process by monitoring an effective offender supervision program through U.S. and District of Columbia probation officers and through research studies that evaluate the effectiveness of offender supervision programs. The Parole Commission has oversight responsibility for the supervision of District of Columbia parolees and supervised releases under the National Capital Revitalization and Self-Government Improvement Act (P.L. 105-33).

The following legal activities of the Department are financed from this appropriation:

Conduct Supreme Court proceedings and review appellate matters.—Through this program, the Solicitor General supervises and processes all appellate matters and represents the Government before the U.S. Supreme Court.

General tax matters.—This program is the prosecution and defense of cases arising under the internal revenue laws and other related statutes.

Criminal matters.—The Criminal Division develops, enforces, and supervises the application of all federal criminal laws, except those specifically assigned to other divisions. The mission of the Criminal Division is to identify and respond to critical and emerging national and international criminal threats, and to lead the enforcement, regulatory, and intelligence communities in a coordinated nationwide response to reduce those threats.

Claims, customs, and general civil matters.—Annually, civil litigation involves the defense of billions of dollars in claims against the U.S. Treasury and affirmative efforts to recover monies owed to the United States as a result of fraud, bankruptcy, and oil spills. Non-monetary litigation includes the defense of thousands of challenges to immigration enforcement decisions and to federal activities and statutes, as well as enforcement of consumer protection laws.

Environment and natural resource matters.—The Environment and Natural Resources Division enforces the Nation's civil and criminal environmental laws and defends environmental challenges to Government action. Additionally, the Division represents the United States in virtually all matters concerning the use and development of the Nation's natural resources and public lands, wildlife protection, Indian rights and claims, and the acquisition of Federal property.

Legal opinions.—This program is the preparation of legal opinions for the President and Executive agencies and the review of proposed Executive Orders and proclamations for form and legality.

Civil rights matters.—This program is the enforcement of the Nation's civil rights laws. It is the conscience of the federal government. Through the enforcement of a wide range of anti-discrimination laws, the Division gives meaning to our Nation's promise of equal opportunity. The Division works to uphold and defend the civil and constitutional rights of all individuals, particularly some of the most vulnerable members of our society. The Division enforces Federal statutes that prohibit discrimination and provide a remedy for constitutional violations.

INTERPOL Washington.—This program is the United States liaison, on behalf of the Attorney General, for international law enforcement cooperation. The mission of INTERPOL Washington is to provide the United States' local and federal law enforcement authorities a central point of communication to the international law enforcement community.

Reimbursable program.—This reflects reimbursable funding for the following:

The Federal Government is represented in each of the 94 judicial districts and the District of Columbia Superior Court by a United States Marshal. The primary missions of the United States Marshals Service (USMS) are protection of the Federal judiciary, protection of witnesses, execution of warrants and court orders, and custody and transportation of unsentenced prisoners. The USMS is the principal support force in the Federal judicial system and an integral part of the Federal law enforcement community. For 2013, the budget proposes \$8.3 million in program offsets, to include administrative savings and low-priority program reductions.

Reimbursable program.—Federal funds are derived from the Administrative Office of the U.S. Courts for the court security program, the Assets Forfeiture Fund for seized assets management, the Organized Crime Drug Enforcement Task Force Program for multi-agency drug investigations, and the Office of National Drug Control Policy and the Centers for Disease Control for security services. Non-Federal funds are derived from state and local governments for witness protection and the transportation of prisoners pursuant to state writs, as well as fees collected from service of civil process and sales associated with judicial orders.

The Federal Prisoner Detention (FPD) account is responsible for the costs associated with the care of Federal detainees in the custody of the United States Marshals Service (USMS). The USMS must ensure the safe, secure, and humane confinement of persons in its custody while allowing unimpeded prisoner transportation operations. The FPD account provides for the care of Federal detainees in private, state, and local facilities, which includes housing, subsistence, transportation, medical care, and medical guard service.

For 2013, FPD requests funding for housing, medical, and transportation costs associated with the anticipated increase in the USMS detention population. The Federal Government utilizes various methods to house detainees. Detention bed space for Federal detainees is acquired to maximize efficiency and effectiveness for the Government through: (1) Federally-owned and managed detention facilities, where the Government has paid for construction and operation of the facility (funded in the Federal Bureau of Prisons' (BOP) account); (2) Intergovernmental Agreements (IGAs) with state and local jurisdictions, whose excess prison and jail bed capacity is utilized and paid via a daily rate; and (3) Private performance-based contract facilities, where a daily rate is paid. Based on anticipated growth in the USMS detention population, over three-quarters of the USMS's Federally detained population will likely be housed in state, local, and private facilities.

The USMS continues to look for efficiencies and cost reductions and avoidance in detention through process and infrastructure improvements. The costs associated with these efforts will be funded from the FPD account. Proven successes in the detention infrastructure include implementation of eDesignate, which was developed to provide a more efficient workflow between the U.S. Courts, the USMS, and the BOP; establishment of Regional Transfer Centers and Ground Transfer Centers to accelerate the movement of prisoners to a designated BOP facility; and increased use of detention alternatives by providing funding to the Federal Judiciary to support alternatives to pretrial detention, such as electronic monitoring, halfway house placement, and drug testing and treatment. USMS will continue to identify issues and develop solutions to drive further efficiencies.

The Community Relations Service (CRS) is an agency of the Department of Justice that provides assistance to state and local communities in the prevention and resolution of tension, violence, and civil disorders relating to actual or perceived discrimination on the basis of race, color, or national origin. The Service also works with communities to employ strategies to prevent and respond to alleged violent hate crimes committed on the basis of actual or perceived race, color, national origin, gender, gender identity, sexual orientation, religion or disability. CRS helps local leaders, including community members, law enforcement, and government officials, and affected parties work together on a voluntary basis to develop locally defined and locally implemented solutions. As a result, CRS builds community capacity to manage conflicts and create permanent mechanisms so communities can independently resolve future conflicts. By empowering communities to prevent hate violence and address tension associated with alleged discrimination, CRS helps law enforcement, community leaders and city officials avoid costly litigation, preserve scarce resources, protect public safety, and ultimately enhance community stability. In 2013, the Service will fulfill its historical mandate pursuant to Title X of the Civil Rights Act of 1964 as well as its mandate pursuant to the Shepard and Byrd, Jr. Hate Crimes Prevention Act.

Title II of the James Zadroga 9/11 Health and Compensation Act of 2010 (P.L. 111-347) reopens the September 11 Victim Compensation Fund (VCF), extending eligibility for compensation associated with physical harm stemming from debris removal and extending the deadline for claims associated with harms not discovered before the Fund's original deadline. The VCF was established by the Air Transportation Safety and System Stabilization Act (P.L. 107-42) as an alternative to litigation, and had terminated operations in 2004 after making compensation payments of more than \$7 billion to survivors of 2,880 persons killed in the September 11, 2001 terrorist attacks and to 2,680 individuals who were injured in the attacks and subsequent rescue efforts. The James Zadroga 9/11 Health and Compensation Act of 2010 makes available up to \$2.775 billion for settlement of new claims through the VCF.

United States Trustee System Fund.—The United States trustees supervise the administration of bankruptcy cases and private trustees in the Federal Bankruptcy Courts and litigate against fraud and abuse in the system by debtors, creditors, attorneys, bankruptcy petition preparers, and others. The Bankruptcy Judges, U.S. Trustees and Family Farmer Bankruptcy Act of 1986 (Public Law 99-554) expanded the pilot trustee program to a twenty-one region, nationwide program encompassing 88 judicial districts. (Bankruptcy cases filed in Alabama and North Carolina are administered by the Administrative Office of the U.S. Courts.) The Bankruptcy Abuse Prevention and Consumer

Protection Act of 2005 (Public Law 109-8) expanded United States trustees' existing responsibilities to include means testing, credit counseling/debtor education, and debtor audits. User fees that are assessed offset the annual appropriation.

The Comprehensive Crime Control Act of 1984 established the Assets Forfeiture Fund, into which forfeited cash and the proceeds of sales of forfeited property are deposited. Authorities of the fund have been amended by various public laws enacted since 1984. Under current law, authority to use the fund for certain

investigative expenses shall be specified in annual appropriation acts. Expenses necessary to seize, detain, inventory, safeguard, maintain, advertise or sell property under seizure are funded through a permanent, indefinite appropriation. In addition, beginning in 1993, other general expenses of managing and operating the assets forfeiture program are paid from the permanent, indefinite portion of the fund. Once all expenses are covered, the balance is maintained to meet ongoing expenses of the program. Excess unobligated balances may also be allocated by the Attorney General in accordance with 28 U.S.C. 524(c)(8)(E).

The Organized Crime Drug Enforcement Task Forces (OCDETF) Program, with the participation of its seven member federal law enforcement agencies, in cooperation with state and local investigators and with prosecutors from the U.S. Attorneys' Offices and the Criminal Division, focuses on targeting and destroying major domestic and international narcotic-trafficking and money-laundering organizations and related criminal activities. The Program performs the following activities:

Investigation.—This activity includes resources for direct investigative, intelligence and support activities of the task forces, focusing on the disruption and dismantlement of the highest level drug trafficking and money laundering organizations that supply illegal drugs to the U.S. and fuel the attendant violence. This includes resources for the OCDETF Fusion Center (OFC). The OFC is a multi-agency intelligence center whose mission is to analyze fused law enforcement financial and human intelligence information and produce actionable intelligence for use by OCDETF member agencies to disrupt and dismantle those criminal organizations, and their supporting financial structures, posing the greatest illegal drug threat to the United States. Organiza-

tions participating under the Investigations function are the Drug Enforcement Administration, Federal Bureau of Investigation, Internal Revenue Service, Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Coast Guard, U.S. Marshals Service, and U.S. Immigration and Customs Enforcement. OCDETF also maintains 9 co-located Strike Forces. These are prosecutor-led, intelligence-driven, multi-agency teams, which aggressively target the highest-level drug trafficking organizations. OCDETF strike forces benefit from the combined resources and expertise of all OCDETFs participating investigative agencies as well as state and local law enforcement and prosecutors.

Prosecution.—This activity includes resources for the prosecution of cases generated through the investigative efforts of task force agents. Litigation efforts are intended to dismantle drug trafficking and money laundering organizations in their entirety, most notably by targeting the leaders of these organizations. This includes activities designed to secure the seizure and forfeiture of the assets of these enterprises. Participating agencies are the U.S. Attorneys, and the Department of Justice's Criminal Division.

Transnational Organized Crime Investigations.—This activity includes resources for the International Organized Crime Intelligence and Operations Center (IOC-2), which is a multi-agency intelligence center whose mission is to significantly disrupt and dismantle those international criminal organizations posing the greatest threat to the United States. Multiple agencies participate in IOC-2 activities and related investigations.

The 2013 request includes base adjustments totaling \$7.1 million as well as \$3 million to establish the new Transnational Organized Crime Investigations decision unit. Also, proposed is \$12.8 million in program offsets, to include administrative savings and lower-priority program reductions.

The mission of the FBI is to protect the United States from terrorist and foreign intelligence activities; to uphold the law through the investigation of violations of federal criminal law; to provide leadership and assistance to federal, state, local, and international law enforcement agencies; and to perform these responsibilities in a manner that is responsive to the needs of the public and is faithful to the Constitution of the United States.

Protecting America in the current challenging national security and criminal environment requires that the FBI refocus its priorities; realign its workforce to address these priorities; and improve management policies and operating procedures to enhance flexibility, agility, effectiveness, and accountability. The FBI's strategic priorities are, in order:

- Protect the United States from terrorist attack,
- Protect the United States against foreign intelligence operations and espionage,
- Protect the United States against cyber-based attacks and high technology crimes,
- Combat public corruption at all levels of government,
- Protect civil rights,
- Combat transnational and national criminal organizations and enterprises,
- Combat major white-collar crime,
- Combat significant violent crime,
- Support federal, state, county, municipal, and international partners,
- Upgrade technology to successfully perform the FBI's mission.

FBI investigations and operations are conducted through a network of 56 major field offices, 370 smaller field offices (resident agencies), and three information technology centers located throughout the United States; the FBI Academy and engineering complex at Quantico, Virginia; a fingerprint identification and criminal justice information services center in Clarksville, West Virginia; over 60 foreign liaison posts; and FBI Headquarters in Washington, D.C.

A number of FBI activities are carried out on a reimbursable basis. For example, the FBI is reimbursed for its participation in Interagency Crime and Drug Enforcement programs and by

other federal agencies for certain investigative services, such as pre-employment background inquiries and fingerprint and name checks. The FBI is also authorized to conduct fingerprint and name checks for certain non-federal agencies.

For 2013, the FBI proposes \$15 million in program enhancements. These enhancements support financial and mortgage fraud investigations. Also proposed is \$63.0 million in program offsets, to include administrative savings and low-priority program reductions.

The Drug Enforcement Administration's (DEA) mission is to enforce the controlled substances laws and regulations of the United States. DEA's major focus is the disruption and dismantlement of Priority Target Organizations (PTOs)—domestic and international drug trafficking and money laundering organizations having a significant impact upon drug availability in the United States. DEA emphasizes PTOs with links to organizations on the Attorney General's Consolidated Priority Organization Target (CPOT) list, which represents the "Most Wanted" drug trafficking and money laundering organizations believed to be primarily responsible for the United States' illicit drug supply. DEA places a high priority on targeting the financial infrastructure of major drug trafficking organizations and members of the financial community who facilitate the laundering of their proceeds. From 2005 to 2011, DEA denied to drug traffickers a cumulative total of \$18.7 billion in revenue through the seizure of both assets and drugs. In addition to keeping drugs and drug-related violence out of the United States, DEA plays a vital role in the areas of national and border security.

DEA has 226 domestic offices organized in 21 divisions throughout the United States and works closely with state and local partners. Internationally, DEA has 85 offices in 65 countries and has responsibility for coordinating and pursuing U.S. drug investigations abroad. Federal, state, local, and international partnerships will continue play an important role in DEA's enforcement efforts. For over 35 years DEA has led a task force program that today includes 2,225 task force officers participating in 218 task forces. The El Paso Intelligence Center (EPIC) and Special Operations Divisions (SOD) have become vital resources for federal, state and local law enforcement. Through its Office of National Security Intelligence, DEA ensures that national security information obtained in the course of conducting its drug law enforcement mission is expeditiously shared with the Intelligence Community. Additionally, with the realignment of National Drug Intelligence Center (NDIC) functions, DEA will continue document and media exploitation, as well as the production of high-priority strategic intelligence reports.

DEA's activities are divided into three main decision units: *Domestic Enforcement*.—Through effective enforcement efforts and associated support functions, DEA disrupts and dismantles the leadership, command, control, and infrastructure of major drug trafficking syndicates, criminal organizations, and violent drug trafficking groups that threaten the United States. This decision unit contains most of DEA's resources, domestic enforcement groups, state and local task forces, other federal and local task forces, intelligence groups, and all the support functions essential to accomplishing their mission. Strategic objectives have been established as follows:

—Identify and target the national/regional organizations most responsible for the domestic distribution and manufacture of illicit drugs;

—Systematically disrupt or dismantle targeted organizations by arresting/convicting their leaders and facilitators, seizing and forfeiting their assets, targeting their money laundering operations, and destroying their command and control networks; and,

—Work with international offices to dismantle domestic organizations directly affiliated with international cartels.

International Enforcement.—DEA works with its foreign counterparts to attack the vulnerabilities in the leadership, production, transportation, communications, finance, and distribution

sectors of major international drug trafficking organizations. Strategic objectives include:

- Identify, prioritize, and target the most significant international drug and chemical trafficking organizations;
- Disrupt and dismantle the networks, financial infrastructures, operations, and the resource bases of targeted international drug and chemical trafficking organizations; and,
- Prevent drug trafficking organizations from funding terrorist organizations and activities.

State and Local Assistance.—DEA responds to clandestine laboratory training requirements, hazardous waste cleanup, and cannabis eradication/suppression needs of the U.S. law enforcement community. DEA supports state and local law enforcement with methamphetamine-related assistance and training, which allows state and local agencies to better address the methamphetamine threat in their communities and reduce the impact that methamphetamine has on the quality of life for America's citizens. By teaching and assisting others in the techniques of clandestine laboratory drug enforcement, hazardous waste cleanup, and cannabis eradication/suppression, DEA is able to expand drug enforcement across the United States in a very cost-effective manner. The strategic objectives are to:

- Provide clandestine methamphetamine laboratory training to state and local law enforcement officers;
- Assist state and local law enforcement with efforts to clean up hazardous waste from clandestine methamphetamine laboratories; and,
- Assist local efforts to control the production of cannabis.

DEA also receives funding through reimbursable agreements. The primary reimbursements to DEA are for the Organized Crime Drug Enforcement Task Forces (OCDETF) Program and the Department of Justice's (DOJ) Assets Forfeiture Fund.

DEAs FY 2013 request for its Salaries and Expenses (S&E) Account includes \$48.9 million in transfers and base adjustments. This includes a total of \$23.7 million in proposed DOJ transfers. Specifically included in this, is \$8.026 million and 57 positions to transfer document and media exploitation functions and the production of high-priority Strategic Intelligence reports from NDIC to DEA.

For 2013, a total of \$23 million and 164 FTE are proposed in program offsets, to include administrative savings and efficiencies, low-priority program reductions and eliminations. Of the unobligated balances from prior year appropriations available, DEA proposes to permanently cancel \$15,600,000.

Public Law 102-395 established the Diversion Control Fee Account in 1993. Fees charged by the Drug Enforcement Administration under the Diversion Control Program are set at a level that ensures the recovery of the full costs of operating this program. By carrying out the mandates of the Controlled Substances Act (CSA), DEA ensures that adequate supplies of controlled drugs are available to meet legitimate medical, scientific, industrial, and export needs, while preventing, detecting, and eliminating diversion of these substances to illicit traffic. The CSA requires physicians, pharmacists, and chemical companies to register with the DEA in order to distribute or manufacture controlled substances or listed chemicals. Investigations conducted by DEA's Diversion Control Program fall into two distinct categories: the diversion of legitimately manufactured pharmaceutical controlled substances and the diversion of controlled chemicals (List I and II) used in the illicit manufacture of controlled substances. Strategic objectives include:

—Identify and target those responsible for the diversion of pharmaceutical controlled substances through traditional investigation and cyber-crime initiatives to systematically disrupt and dismantle those entities involved in diversion schemes;

—Support the registrant population with improved technology, including e-commerce and customer support, while maintaining cooperation, support and assistance from the regulated industry;

—Educate the public on the dangers of prescription drug abuse and taking proactive enforcement measures to combat emerging drug trends; and,

—Ensure an adequate and uninterrupted supply of pharmaceutical controlled substances and listed chemicals to meet legitimate medical, commercial, and scientific needs.

For 2013, \$22.5 million is requested to maintain current services and \$8 million is requested for 87 additional personnel to support new Tactical Diversion Squads. These additional support personnel will perform duties related to intelligence gathering and dissemination, laboratory analysis of evidence, legal counsel and action against violators, technology for internet investigative support, headquarters program support including internal controls, drug and chemical scheduling, liaison and policy, regulatory drafting, financial management, and clerical case support.

Federal Prison Industries, Inc. (FPI), was created by Congress in 1934 and is a wholly-owned Government corporation. Its mission is to employ and train federal inmates through a diversified work program providing products and services to other federal agencies. These operations are conducted in such a manner as to maximize meaningful inmate employment opportunities and minimize the effects of competition on private industry and labor.

Employment provides inmates with work, occupational knowledge and skills, plus money for personal expenses and family assistance.

FPI strives to provide additional industrial employment opportunities at existing and planned institutions.

Budget program.—Federal Prison Industries, Inc. operations are entirely self-sustaining and no appropriations are required for its operations. The amounts used by the Corporation for administrative expenses are subject to a congressional limitation. Information regarding this limitation is provided separately following this account.

Financing program.—Revenues are derived entirely from the sale of products and services to other federal agencies. Operating expenses are applied against these revenues resulting in operating income or loss. Earnings surplus to the needs of the manufacturing operations, capital improvements, and cash reserves are used to pay accident compensation.

Operating results.—To date, Federal Prison Industries, Inc. has returned to the Treasury a total of \$82 million of retained income in excess of the Corporation's needs. No contributions from budget authority have been made to offset deficits for non-revenue producing outlays since the inception of the fund.

The 2013 Budget requests \$136,000,000 for the Office of Justice Programs' (OJP) Research, Evaluation, and Statistics appropriation. This appropriation includes programs that provide grants, contracts, and cooperative agreements for research, development and evaluation; development and dissemination of quality statistical and scientific information; and nationwide support for law enforcement agencies.

Through leadership, funding, and technical support, OJP plays a significant role in the research and evaluation of new technologies to assist law enforcement, corrections personnel, and courts in protecting the public, and guides the development of new techniques and technologies in the areas of crime prevention, forensic science, and violence and victimization research. The research and statistical data compiled by OJP staff are used at all levels of government to guide decision making and planning efforts related to law enforcement, courts, corrections, and other criminal justice issues. Grants, technical assistance, and national leadership provided by OJP have supported efforts to provide and improve assistance to the Nation's Federal, state, local, and tribal law enforcement and criminal justice agencies.

Research, Development, and Evaluation Program.—The National Institute of Justice (NIJ) serves as the research and development agency of the Department of Justice, as authorized by 42 U.S.C. 3721–3723. The mission of NIJ is to advance scientific research, development, and evaluation to enhance the administration of justice and public safety by providing objective, independent, evidence-based knowledge, and tools to meet the challenges of crime and justice, particularly at the state and local levels. NIJ research, development, and evaluation (RD&E) efforts support practitioners and policy makers at all levels of government.

NIJ focuses its resources on crime control and related justice issues to provide objective, independent, evidence-based knowledge, and tools to meet the challenges of crime and justice, particularly at the state and local levels. Planned activities include but are not limited to: (1) Social science research addressing, among other topics: human trafficking; evaluation of anti-gang programs; policing; crime and justice; children exposed to violence;

sentencing alternatives to incarceration; elder abuse; as well as demonstration field experiments in reentry and probation; (2) Provision of criminal justice-focused technology assistance to units of state, local and tribal government; (3) Criminal justice research infrastructure investments including funding for the National Criminal Justice Reference Service and the National Archive of Criminal Justice Data; (4) Development of equipment performance standards and conduct of compliance testing to help ensure the safety and effectiveness of the equipment used by criminal justice agencies, such as body armor, restraints, holsters, and video systems; and (5) Development of new tools and technologies for law enforcement, corrections, and forensic applications, including those aimed at improving officer safety, knowledge management, and community supervision.

In 2013, NIJ will continue to pursue research and evaluation projects to encourage the development and adoption of new crime-fighting tools, improve understanding of what works (and what does not) in criminal justice programs and policy, and expand understanding of complex criminal justice issues. The 2013 Budget proposes \$48,000,000 for the Research, Development, and Evaluation Program.

Criminal Justice Statistics Program.—The Bureau of Justice Statistics (BJS) serves as the principal statistical agency within the Department of Justice, as authorized by 42 U.S.C. 3721–3735, and assists state, local, and tribal governments in enhancing their statistical capabilities. It disseminates high quality information and statistics to inform policy makers, researchers, criminal justice practitioners, and the general public. The Criminal Justice Statistics Program encompasses a wide range of criminal justice topics, including: (1) victimization; (2) law enforcement; (3) prosecution; (4) courts and sentencing; (5) corrections; (6) recidivism and reentry; (7) tribal justice statistics; (8) justice expenditures and employment; (9) international justice systems; and (10) drugs, alcohol, and crime. In addition to collecting and analyzing statistical data, BJS administers the State Justice Statistics Program for the Statistical Analysis Centers (SACs). SACs have been established in all states and most territories to centralize and integrate criminal justice statistical functions. Through financial and technical assistance to the state SACs, BJS promotes efforts to coordinate statistical activities within the states and conducts the research as needed to estimate the impact of legislative and policy changes. The SACs also serve in a liaison role, assisting BJS with data gathering from respondent agencies within their states. Further, the Criminal Justice Statistics Program will expand on its base of work in 2013 by enhancing the quality and availability of statistics in a number of areas including: (1) criminal victimization via the redesign the National Criminal Victimization Survey (NCVS), which is the sole continuous source of national information for many topics related to crime and victimization rates for the Administration and Congress, state and local law enforcement, and the research community; (2) law enforcement administration; (3) state & Federal adjudication and sentencing; (4) jail and prison statistics; (5) recidivism and reentry data; (6) white collar crime and (7) statistics on American Indians in the criminal justice system. The 2013 Budget proposes \$60,000,000 for the Criminal Justice Statistics program.

Regional Information Sharing System (RISS).—RISS is a national criminal intelligence system operated by and for state and local law enforcement agencies. The RISS regional centers facilitate information sharing and communications to support member agency investigative and prosecution efforts by providing state-of-the-art investigative support and training, analytical services, specialized equipment, secure information-sharing technology, and secure encrypted email and communications capabilities to

RESEARCH, EVALUATION, AND STATISTICS—Continued
over 6,000 municipal, county, state, and Federal law enforcement agencies nationwide. The 2013 Budget proposes \$27,000,000 for this program.

Evaluation Clearinghouse.—The 2013 Budget requests \$1,000,000 for the continued development and deployment of CrimeSolutions.gov, which uses rigorous research to inform practitioners and policy makers about what works in criminal justice, juvenile justice, and crime victim services.

The 2013 Budget requests \$935,000,000 for the Office of Justice Programs' (OJP) State and Local Law Enforcement Assistance. Of this amount, \$781,500,000 is requested within the State and Local Law Enforcement Assistance appropriation and \$153,500,000 is requested under the Crime Victims Fund. This appropriation account includes programs that establish and build on partnerships with state, local, and tribal governments, and

faith-based and community organizations. These programs provide Federal leadership on high-priority criminal justice concerns such as violent crime, criminal gang activity, illegal drugs, information sharing, and related justice system issues. OJP's formula and discretionary grant programs, coupled with training and technical assistance activities, assist law enforcement agencies, courts, local community partners, and other components of the criminal justice system in preventing and addressing violent crime, protecting the public, and ensuring that offenders are held accountable for their actions.

For 2013, the \$781,500,000 requested within this appropriation will support the following initiatives:

Byrne Justice Assistance Grants (JAG).—The Byrne Justice Assistance Grants program awards grants to state and local governments to support a broad range of activities that prevent and control crime based on local needs and conditions, including: law enforcement programs; prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment programs; and planning, evaluation, and technology improvement programs. The 2013 Budget proposes \$430,000,000 for this program. Of this total, \$2,000,000 is for the State and Local Anti-Terrorism Training program, \$6,000,000 is for efforts to address comprehensive criminal justice reform and recidivism reduction, \$4,000,000 is for a state and local assistance help desk and diagnostic center and \$5,000,000 for VALOR, a program that supports officer safety.

Byrne Competitive Grants.—The Byrne Competitive Grants program awards grants to state, local, and tribal government agencies, for-profit and non-profit organizations, and faith-based and community organizations to improve the functioning of the criminal justice system and assist victims of crime. The 2013 Budget proposes \$25,000,000 for this program.

State Criminal Alien Assistance Program (SCAAP).—The State Criminal Alien Assistance Program provides Federal payments to states and localities that incurred correctional costs for incarcerating illegal aliens. The 2013 Budget proposes \$70,000,000 for this program.

Residential Substance Abuse Treatment (RSAT).—The Residential Substance Abuse Treatment program for state prisoners helps states and units of local government develop, implement, and improve residential substance abuse treatment programs in correctional facilities, and establish and maintain community-based aftercare services for probationers and parolees. Ultimately, the program's goal is to help offenders become drug-free and learn the skills needed to sustain themselves upon return to the community. The 2013 Budget proposes \$21,000,000 for this program.

Prison Rape Prevention and Prosecution Program.—This program oversees a comprehensive statistical review and analysis of the incidence and effects of prison rape. It supports the development of a national set of measures describing the circumstances surrounding incidents of sexual assault in correctional institutions. The data collections provide facility-level estimates of sexual assault for a 12-month period. The 2013 Budget proposes \$10,500,000 for this program.

Capital Litigation Improvement Program.—The Capital Litigation Improvement Program provides grants for the training of defense counsel, state and local prosecutors, and state trial judges, with the goal of improving the quality of representation and the reliability of verdicts in state capital cases. The training focuses on investigation techniques; pre-trial and trial procedures, including the use of expert testimony and forensic science evidence; advocacy in capital cases; and

capital case sentencing-phase procedures. The 2013 Budget proposes \$2,000,000 for this program.

Drug, Mental Health, and Problem Solving Courts and Strategies.—This initiative will assist state, local, and tribal governments in developing and implementing problem solving strategies, including specialized courts, that can serve as successful alternatives to the prosecution and incarceration of offenders with drug, mental health, and special needs. The initiative will provide grants, training, and technical assistance to help state, local, and tribal grantees develop and implement drug, mental health, and other problem solving courts and approaches. The 2013 Budget proposes \$52,000,000 for this program.

Prescription Drug Monitoring Program.—The purpose of the Harold Rogers Prescription Drug Monitoring Program (PDMP) is to enhance the capacity of regulatory and law enforcement agencies to collect and analyze controlled substance prescription data. The 2013 Budget proposes \$7,000,000 for this program.

Justice Information Sharing and Technology.—The Justice Information Sharing and Technology program will help state, local, and tribal law enforcement and criminal justice agencies take full advantage of justice information sharing by providing grant funding, training and technical assistance to support the modernization and enhancement of state and local justice information sharing systems. The 2013 Budget proposes \$8,000,000 for this program.

National Public Sex Offender Registry.—This program supports the maintenance and continued development of the Dru Sjodin National Sex Offender Public Website, which links the state, territory, and tribal sex offender registries. The 2013 Budget proposes \$1,000,000 for this program.

Second Chance Act Program.—The Second Chance Act Program provides grants to establish and expand various adult and juvenile offender reentry programs and funds reentry-related research. The 2013 Budget proposes \$80,000,000 for this program. Of this total, \$10,000,000 is for the Smart Probation Program to help states, localities, and tribes improve collaboration among law enforcement, corrections, and social services agencies and develop comprehensive, innovative probation and parole supervision programs. In addition, up to \$20,000,000 may be used for performance-based awards for Pay-for-Success projects. A portion of these funds may be used for Pay for Success bonds to engage social investors, the Federal government, and a State or local community to collaboratively finance effective interventions.

National Criminal History Improvement (NCHIP).—The National Criminal History Improvement (NCHIP) provides grants and technical assistance to help states and territories improve the quality, timeliness, and immediate accessibility of their criminal history and related records. The 2013 Budget proposes \$6,000,000 for this program.

National Instant Background Check System (NICS).—This National Instant Background Check System (NICS) program provides grants to assist state and tribal governments in updating NICS with the criminal history and mental health records of individuals who are precluded from purchasing or possessing guns. The 2013 Budget proposes \$5,000,000 for this program.

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE—Continued

Byrne Criminal Justice Innovation Program.—This community-based strategy aims to control and prevent violent crime, drug abuse and gang activity in designated high crime neighborhoods by providing funding to support partnerships between law enforcement agencies and community-based organizations that balance targeted enforcement with prevention, intervention, and neighborhood restoration services. The program is an integral part of the Administration's multi-agency Neighborhood Revitalization Initiative, which aims to support the transformation of distressed neighborhoods. The 2013 Budget proposes \$20,000,000 for this program.

In 2013, additional funding of \$153,500,000 is requested within the Crime Victims Fund for the following initiatives:

Victims of Trafficking.—The primary goal of the Victims of Trafficking program is to empower local law enforcement to better identify and rescue trafficking victims. An important secondary goal is the interdiction of trafficking in its various forms, whether it is forced prostitution, indentured servitude, peonage, or other forms of forced labor. The 2013 Budget proposes \$10,500,000 for this program.

DNA Initiative.—The DNA Initiative is a comprehensive strategy to maximize the use of forensic DNA technology in the criminal justice system. The program provides capacity building grants, training, and technical assistance to state and local governments and supports innovative research on DNA analysis and use of forensic evidence. The 2013 Budget proposes \$100,000,000 for this program.

Children Exposed to Violence.—The Attorney General's Initiative on Children Exposed to Violence will support research and provide demonstration grants, training and technical assistance in partnership with the Department of Health and Human Services to encourage the development of comprehensive intervention and treatment programs to assist children who are victims of or witnesses to violence. The 2013 Budget proposes \$23,000,000 for this program.

Implementation of the Adam Walsh Act.—This program will help state, local, and tribal jurisdictions to develop and enhance sex offender registration and notification systems that are in compliance with the Sex Offender Registration and Notification Act through discretionary grants and technical assistance. The 2013 Budget requests \$312,000,000 for the Office of Justice Programs' (OJP) Juvenile Justice Programs. This appropriation account includes programs that support state, local and tribal community efforts to develop and implement effective and coordinated prevention and intervention juvenile programs. Such programs are designed to: reduce juvenile delinquency and crime, and improve the juvenile justice system so that it protects public safety, holds offenders accountable, and provides treatment and rehabilitative services tailored to the needs of juveniles and their families.

The Nation's youth face an ever changing set of problems and barriers to successful lives. As a result, OJP is constantly challenged to develop enlightened policies and programs to address the needs and risks of those youth who enter the juvenile justice system. OJP remains committed to leading the nation in efforts addressing these challenges, which include: preparing juvenile offenders to return to their communities following release from secure correctional facilities; dealing with the small percentage of serious, violent, and chronic juvenile offenders; helping states address the disproportionate confinement of minority youth; and helping children who have been victimized by crime and child abuse.

Of the total funding requested for the Juvenile Justice Programs, \$245,000,000 is requested within the Juvenile Justice Programs appropriation for the following programs:

Part B: Formula Grants.—This program supports state, local, and tribal efforts to develop and implement comprehensive state juvenile justice plans. Funds also may be used for research, evaluation, statistics, other informational activities, and training and technical assistance. Funding also is available to help small, non-profit organizations, including faith-based organizations, with the federal grants process. The 2013 Budget proposes \$70,000,000 for this program.

Youth Mentoring.—The Youth Mentoring program support faith- and community-based, nonprofit, and for-profit agencies in the enhancement and expansion of existing mentoring strategies and programs, as well as assistance to develop, implement, and pilot test mentoring strategies and programs designed for youth in the juvenile justice, reentry, and foster care systems. In addition, OJP supports training and technical assistance to the sites to assist with adapting existing mentoring approaches to meet the needs of the target populations and to identify and maintain partnerships. The 2013 Budget proposes \$58,000,000 for this program.

Title V Local Delinquency Prevention Incentive Grants Program.—The Title V program provides resources through state advisory groups to units of local government for a broad range of delinquency prevention programs and activities to benefit

youth who are at risk of having contact with the juvenile justice system. The 2013 Budget proposes \$40,000,000 for this program.

Community-Based Violence Prevention Initiatives.—Based on the violence reduction work of several cities and public health research of recent years, OJP will provide funding for community-based strategies that focus on street-level outreach, conflict mediation, and the changing of community norms to reduce violence, particularly shootings. The 2013 Budget proposes \$25,000,000 for this program.

National Forum on Youth Violence Prevention Initiative.—This forum was created for participating localities to share challenges and promising strategies with each other and to explore how federal agencies can better support local efforts to curb youth and gang violence. The 2013 Budget proposes \$2,000,000 for this program.

Juvenile Accountability Incentive Block Grant.—This program funds block grants to states to support a variety of accountability-based programs that support the basic premise that both the juvenile and the juvenile justice system should be held accountable. The 2013 Budget proposes \$30,000,000 for this program.

Evidence-Based Competitive Juvenile Justice Demonstration Grant Program.—This program will fund competitive evidence-based juvenile justice demonstration grants. The 2013 Budget proposes \$20,000,000 for this program.

An additional \$67,000,000 is requested under the Crime Victims Fund for the Missing and Exploited Children Program, which supports efforts to prevent the abduction and exploitation of children, including funding for the Internet Crimes Against Children and AMBER Alert Programs. Of this amount, \$22,000,000 will be set aside to support assistance to combat internet crime against children, as provided for by the PROTECT our Children Act of 2008.

The 2013 Budget is requesting \$81,300,000 for the Office of Justice Programs' Public Safety Officers Benefits (PSOB) appropriation, of which \$65,000,000 is a permanent indefinite (mandatory) appropriation for death benefits and \$16,300,000 is a discretionary appropriation for disability and education benefits. This appropriation account supports programs that provide benefits to public safety officers who are severely injured in the line of duty and to the families and survivors of public safety officers killed or mortally injured in the line of duty. These programs represent the continuation of a forty-year partnership among the Department of Justice; national public safety organizations; and state, local, and tribal public safety agencies. Created in 1976, the PSOB program oversees three types of benefits:

Death Benefits.—The Death Benefits program provides a one-time financial benefit to survivors of public safety officers whose deaths resulted from injuries sustained in the line of duty.

Disability Benefits.—The Disability Benefits program offers a one-time financial benefit to public safety officers permanently disabled by catastrophic injuries sustained in the line of duty.

Education Benefits.—This program provides financial support for higher education expenses to the eligible spouses and children of public safety officers killed or permanently disabled in the line of duty.

Programs supported by the Crime Victims Fund focus on providing compensation to victims of crime and survivors; supporting appropriate victims' services programs and victimization prevention strategies; and building capacity to improve response to crime victims' needs and increase offender accountability. The Fund was established to address the need for victim services programs, and to assist state, local, and tribal governments in providing appropriate services to their communities. The Fund is financed by collections of fines, penalty assessments, and bond forfeitures from defendants convicted of Federal crimes. The 2013 Budget proposes to provide \$1,070,000,000 from collections and balances for crime victim compensation, services, and related needs. Of this amount, the Budget also proposes to use \$365,000,000 for programs that provide victim-related support, including—

\$220,500,000 to be used by the Office of Justice Programs for:

Victims of Trafficking.—The primary goal of the Victims of Trafficking program is to empower local law enforcement to better identify and rescue trafficking victims. An important secondary goal is the interdiction of trafficking in its various forms, whether it is forced prostitution, indentured servitude, peonage, or other forms of forced labor. The 2013 Budget proposes \$10,500,000 for this program.

DNA Initiative.—The DNA Initiative is a comprehensive strategy to maximize the use of forensic DNA technology in the criminal justice system. The program provides capacity building grants, training, and technical assistance to state and local governments and supports innovative research on DNA analysis and use of forensic evidence. The 2013 Budget proposes \$100,000,000 for this program.

Children Exposed to Violence.—The Attorney General's Initiative on Children Exposed to Violence will support research and provide demonstration grants, training and technical assistance in partnership with the Department of Health and Human Services to encourage the development of comprehensive intervention and treatment programs to assist children who are victims of or witnesses to violence. The 2013 Budget proposes \$23,000,000 for this program.

Implementation of the Adam Walsh Act.—This program will help state, local, and tribal jurisdictions to develop and enhance sex offender registration and notification systems that are in compliance with the Sex Offender Registration and Notification Act through discretionary grants and technical assistance. The 2013 Budget proposes \$20,000,000 for this program.

Missing and Exploited Children Program.—This program supports efforts to prevent the abduction and exploitation of children. The 2013 Budget proposes \$67,000,000 for this program, including funding for the Internet Crimes Against Children and AMBER Alert Programs. Of this amount, \$22,000,000 will be set aside to support assistance to combat internet crime against children, as provided for by the PROTECT our Children Act of 2008.

\$144,500,000 to be used by the Office on Violence Against Women for:

STOP Violence Against Women Formula Grant Program.—The STOP Program is designed to encourage the development and strengthening of effective law enforcement and prosecution strategies to combat violent crimes against women and the development and strengthening of victim services in cases involving violent crimes against women. The 2013 Budget includes a total of \$189,000,000 for this program, of which \$144,500,000 is requested under the Crime Victims Fund and \$44,500,000 is requested under the Office on Violence Against Women appropriation.
