

## Search and Retrieval Features

- Clustering of search results
- Relevancy-ranked results
- Results sorting options
- EurekaAlert! Science News on search topics
- Wikipedia links to definitions
- New download capabilities
- Weekly alerts service for latest information
- Advanced search and search refinement
- Email results
- Spelling suggestions
- User-friendly navigation
- Full-text documents

## OSTI Mission

To advance science and sustain technological creativity by making R&D findings available and useful to DOE researchers and the public.

## OSTI Innovation

OSTI works to advance science by ensuring ready access to scientific and technical information through innovative applications, tools and capabilities.

*Science Accelerator* has a number of features usually found in subscription databases, such as the ability to download results to bibliographic citation software, automatic spell-checking, and topic clustering to assist in narrowing your search. Basic searches in various topics yielded results in energy, environment, computing, physics, geology, chemistry, and marine science.

Science information  
provided by  
U.S. Department of Energy

*DOE contribution to Science.gov  
and WorldWideScience.org*

- Scientific and technical documents
- Scientific e-prints
- Conference papers and proceedings
- DOE scientific research data
- DOE R&D accomplishments and DOE-associated Nobel Laureates
- Green energy documents
- Patents from DOE research
- Scientific and technical bibliographic records
- Federally-funded software
- Multimedia
